On Wednesday evening the lecture hall at Knox Church was comfortably filled for the complimentary social entertainment which the men of the congregation provided for the members of the Women's Association and their friends. A various and humorous program was carried through under the chairmanship of the minister, Rev. William McDonald, who himself surprised his people by his performance on the harmonica. Miss Dorothy Cunningham, petite violinist, delighted the audience wth her "Highland Laddie" played with simplicity and natural charm. Mr. A. Robertson, as always, performed brilliantly in several violin selections. Miss Gwen Parnell, as elocutionist, gave two humorous selections in very fine form. Mr. Max Peters, in darky attire, entertained in both song and monologue to the amusement of all. Mrs. E. Todd was in excellent form in her solo numbers, and was heartily applauded. Musical numbers by Frank Clarke on banjo, Tom Curvin on mandolin, and Walter Farr on violin, were very much appreciated. Messrs. J. Smith and R. Hendry, ever popular at Knox gatherings, were top-notchers in several solos and duets, delivered in their characteristic style with witty accompaniments. Several burlesque numbers presented by members of the men's organizations created considerable merriment and added greatly to the evening's amusement. Favors were drawn and Mrs. W. Battle, Mrs. G. Davis and Mrs. A. Sanderson were the fortunate recipients of special prizes. Mrs. H. Wood, Jack Allan and Harold Battle made good progress with the old time washing, until the clothesline broke down. The men served abundant provisions of sandwiches, cake and coffee after the program ended, and the gathering dispersed singing the Doxology, and voting the men's entertainment the best yet.

• • •

Members of the Kiwanis Club and their guests held a very jolly Ladies' Night last evening in the McDonnel street clubhouse of the Peterborough Lawn Bowling and Tennis Club. Several guests from Toronto were present: Miss Barber, Miss Dorothy Doan, Mr. Barber and Mr. Hay. During the evening, Miss Barber sang very pleasingly several times. The program of entertainment included dancing, with music by Mowry-Steer and their Silver Collegians, games and contests, feats of magic by Mr. Roy Wemp and fortune-telling by Mustapha Gin Rickey (Mr. Charles Shaw). A "Hooey" advertising contest was won by Mrs. Carl Browne. Mrs. Charles Cook won the prize for the birthday dance, and Miss Barber of Toronto the prize for the spot dance. Bridge games were played by several of the guests, prizes going to Mrs. W. A. Richardson and Mrs. W. Oke. There was also a boxing contest that evoked much mirth, Mr. Charles Cumming, as Colonel Hoofer, winning the bout against Mr. Charles Saunders, as Casper. Guests included: President and Mrs. H. J. Boyle, Mr. and Mrs. Harry Huffman, Mr. and Mrs. Ev Taylor, Mr. and Mrs. Charles Saunders, Mr. and Mrs. Charles Cook, Mr. and Mrs. W. Oke, Mr. and Mrs. C. S. Browne, Mr. and Mrs. W. H. Freel, Dr. and Mrs. F. C. Neal, Dr. and Mrs. C. B. Waite, Mr. and Mrs. W. A. Richardson, Mr. and Mrs. Roy Wemp, Mr. and Mrs. L. J. Pettit, Mr. and Mrs. Gray Copping, Mr. and Mrs. W. B. Edney, Mr. and Mrs. H. R. Scott, Messrs. R. Haddow, Al Sharpe, Charles Cumming, Charles Shaw and A. B. Gates.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

The world to-day is in a state of continual rush and hurry; that is if one is to judge by the repetition of the phrases "I'm so busy," "I haven't time," "I don't see how I can," etc.

• • • • • • •

Some of these persons, you know, are doing a great deal. Others seem merely to be caught up in a whirlwind of trifling affairs and permit themselves to be rushed hither by overlapping activities of which motion rather than accomplishment is all that avails.

• • • • • • •

Time for thought does not enter into the plans of persons who dash from one pursuit to another. Yet such expenditure of time is what brings right results rather than thoughtless rushing about.

• • • • • • •

The colossal error is in the assumption that when the body is comfortably reclining or sitting quietly that the mind is also inactive while instead it may be doing its hardest work.

• • • • • • • •

It may be studying how best to handle some intricate problem, financial, social, or of the household.

• • • • • • •

It may get a clearer vision of how to handle situations. Without such thought the wheels of work grind and wear one's life away.

• • • • • • •

The directness with which one can go to work on some difficult problem or even about the ordinary daily tasks will be found astonishing to those who try for it for the first time.

• • • • • • •

Moments, hours and sometimes days are saved through thoughtful planning which results in knowing how to go about some business in the right way. Here is found one solution to many an otherwise frantically rushed existence.

• • • • • • •

Another way in which we permit ourselves to be spent on the wheels of rushing activities, is procrastination. We do not perform our tasks in order of their importance.

• • • • • • •

We put of essential things until so late a time that we must race to accomplish what we could have done with a reasonable degree of leisureliness. Last minute rushes are exhausting.

• • • • • • •

Can we not spare ourselves such nervous strains? Few, indeed, are the persons who can truthfully answer in the negative. We can all let our brains help our hands to do our work, and by good management prolong our lives and lead them without the spectre of rush driving us on.

Danger Condition Now Removed

Kidney Trouble Overcome by Fruit-a-tives

OTTAWA, Ont.—From Morrisburg, Ont., Miss B. B. expresses gratitude to Fruit-a-tives. She writes: "I was tortured with a terrible backache caused from my kidneys. I had to bend to work, and in straightening up the pain was awful. I got no relief until I tried Fruit-a-tives. The change was almost unbelievable I feel so wonderful." For any kidney irritation nothing will give you such complete relief as Fruit-a-tives, because they also act on your other vital organs, strengthening your whole system to function naturally. 25c and 50c. Sold by druggists everywhere.

CULBERTSON *on* CONTRACT

by Ely Culbertson

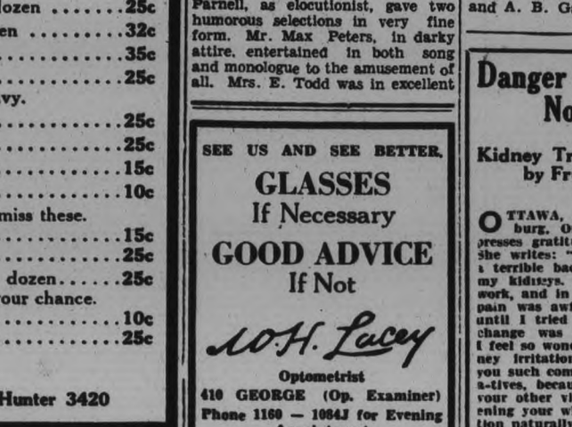
World's Champion Player and Greatest Card Analyst

147

APPROACHING WITH SUIT BIDS.

At the root of successful Contract bidding is the Approach principle by which the partnership seeks to determine the correct final declaration but disclosing suit distributions and honor-trick strength held. Good Contract players realize that this plan of bidding, far from reducing the number of hands played with notrump as the eventual declaration, makes practically certain that hands which should be played at notrump will be played at that declaration and those of the suit type will be played in the suit which best fits the combined hands. These things are especially true of hands of divided strength, but they apply also to hands in which one hand has the lion's share of the honor-tricks in the deal. There is a school of Contract players who, when they find all four Aces in their hands, can think of nothing but to blurt out "two notrump" or perhaps "three notrump." When in the play such hands fail to develop into games because the free exchange of information, which would have unerringly shown the correct declaration, had been damned, they bemoan fate, when the proper course would have been to berate their own short-sightedness. The peculiar feature of this type of bidding is that it frequently operates to defeat its own end. For example:

South—Dealer.
Neither side vulnerable.



The Correct Bidding:

(Figures after bids in table refer to numbered explanatory paragraphs.)

South	West	North	East
1♣(1)	Pass	1♡	Pass
2NT	Pass	3♣(2)	Pass
3NT(3)	Pass	Pass	Pass

1—Approaching with a low suit bid, although the hand contains 5 honor-tricks. The distribution is barren and nothing can be done with the hand unless North can make a free response. So why crowd the bidding?

2—North holds adequate support for the club bid, but is unwilling to bid three notrump, as his hand contains only slightly more than 1½ honor tricks.

3—South feels the shorter road to game is the better.

Players with a notrump complex in a Duplicate game in which this hand was dealt, reached the wrong declaration thus

South	West	North	East
2NT (1)	Pass	4 H (2)	Pass
Pass	Pass		

1—The point count and the lure of the Aces alike lead to a wrong initial declaration.

2—With a five-card major suit and a Singleton, North believes the hand must be played at a suit. Hence, the equally unsound jump to a game contract, which as actually played, was defeated, although the contract should be made with even moderate expertness.

Of course, regardless of the Opening, the notrump contract is made easily.

TO-DAY'S POINTER

Question: State the standard table of honor-tricks

Answer:

2 Tricks	1½ Tricks
Any A K	Any A Q
	" A J 10
	" K Q 10
1 Trick	½ Trick
Any A	Any K x
" K Q	" Q J x
" K J x	" Q x and J x in different suits.
" K x and Q X in different suits.	

Question: Do these values fluctuate? Why?

Answer: Yes, as the bidding discloses the location of higher honors or the ability of opponents to trump. For example: if Ace is shown to be at right of King or in partner's hand, the King is worth nearly a full trick, but if Ace is at left of King, the value of the King is almost nil.

ANSWERS TO QUESTIONS

"The Game's the Thing"

Question: Each side vulnerable, no score. North, Dealer. Kindly give correct bidding on the following hands:

NORTH
Spades A K 10 4 3
Hearts K 10 8 7
Diamonds —
Clubs K 5 4 3

SOUTH
Spades J 2
Hearts A 6 5
Diamonds A K J 6
Clubs Q J 10 7

Answer: The proper bidding of the hand above would be

North	South
1 spade	3 diamonds (1)
3 notrump (2)	Pass (3)

1—After North has opened the bidding, South, who holds 3½ honor-tricks, should make a Forcing Takeout (a bid one more than necessary in another suit) to overcall partner's Opening bid. This requires both members of the partnership to keep the bidding open until game is reached.

2—North holds such slight additional values that he must respond with a bid of notrump in order to safeguard the partnership against attempting an impossible Slam.

3—While South might raise the notrump bid to four, as he holds even more strength than shown by his Forcing Takeout, such a bid would serve no good purpose. North has told him that his Opening bid is a minimum and unless a Slam is reasonably possible there is no purpose to be served by raising the contract above the game level.

When Adversary Overcalls

Question: After a Forcing bid of two, does an intervening bid release the partner of the Opening bidder of any obligation or must he "carry on"?

Answer: An intervening bid by an adversary makes it unnecessary for the partner to respond on that round of bidding if he has nothing to say. It does not release him, however, from the obligation to "carry on" until a game contract is reached. To pass after an adversary overcalls your partner's Forcing bid conveys the information to your partner that you do not have adequate support for his proposed trump nor do you have an affirmative bid of your own which you would have made if the adversaries had not bid. However, when your partner again bids, you are required to continue the bidding until a game contract is reached.

Responding With a Bust

Question: Kindly decide the bid in the following situation Dealer, South, bids two diamonds, and partner, after a pass by West, bids two notrump. East passes and South bids three diamonds. West again passes and North holds

Spades	6 5 4
Hearts	J 9 6 3
Diamonds	8 6 5
Clubs	6 3 2

What should North say?

Answer: North should bid three notrump. The first response denied the possession of a biddable suit and 1 honor-trick. It did not necessarily imply that the hand did not have support for the diamond suit or for some other suit to be bid by the Opening bidder. The second response in notrump indicates that the hand neither contains one honor-trick nor a biddable suit nor support for the suit twice bid by partner.

"Let Your Communication Be 'Yea, Yea'"

Question: Contract. After a bid was made, the player on the left said, "I crack it," intending the words used as a Double of the bid. Do the words used really double the bid?

Answer: No. The words, "I crack it," do not rise to the dignity of a declaration. Each pass, bid, Double or Redouble is a declaration. When the hand is played after the use of the words, "I crack it," being accepted as a Double, they stand for the words, "I double." The use of the words, "I crack it," is an offense against the etiquette of the game.

Dealing With Wrong Pack

Question: Contract. The proper Dealer dealt with the wrong pack. After the last card was dealt, a player demanded a new deal. Was the demand legally made?

Answer: No. The player should have made this demand "during the deal." The deal ended when all fifty-two cards were dealt, the last one to the Dealer. When no legal demand be made before the end of the deal, it stands and the player on the left deals with the still pack. The packs continue to be thus dealt until the end of the rubber.

Dummy is Mute

Question: Declarer led a heart out of turn from Dummy and an adversary called attention to the error. Declarer then led a spade from his own hand.

(1)—Was Declarer subject to the penalty for a revoke?

(2)—In such a case, may Dummy ask Declarer whether he has any or none of the suit he led from Dummy?

Answer: (1)—Yes.
(2)—No.

Leafs Rally to Win 6-2 Victory

KING CLANCY STARTS SCORING BEE AS TORONTO CLUB SINKS FOUR GOALS IN THIRD PERIOD

"Kid" Forward Line Also Plays Prominent Part in Brilliant Foray.

RANGERS WEAKEN FAST.

Jackson and Conacher Score Trying Goals in the Second Period.

(By W. R. Wheatley, C.P. Staff Writer.)

BOSTON, April 8. — A world hockey championship, becoming less and less a shimmering mirage, beckoned Toronto's Maple Leafs to a homecoming welcome to-day.

One more victory in the glamorous Stanley Cup series and the reality of the reward will snuff out the last flickering hope of the New York Rangers.

In amazingly convincing fashion the Leafs last night turned back the powerful Rangers for the second successive time and romped off with the game by a 6-2 score.

Their superiority stood out in every department of play, from Lorne Chabot in goal to the customarily dubbed "kid" forward line, the Leafs outlasted, outfought and outplayed the fading Rangers.

Thirteen thousand Boston fans, welcoming this Stanley Cup playoff, transferred by necessity from New York, frankly tossed their allegiance to the Rangers at the start. But they remained to acclaim a spectacular Toronto machine that rolled slowly into action and finally flattened the New Yorkers by its gathering momentum.

Gain on Breaks.

Down two goals as the Rangers promptly took advantage of early breaks the Leafs went to work with a smoothness and precision that betokened trouble. One goal, two goals—on even terms and the last period remaining.

Boston fans sat back speculatively. Would the gallant fight of the Rangers on Tuesday night in New York be repeated? The Rangers did come back fighting and with a daring offensive, but their last stand lacked in ruggedness and grim determination their magnificent but vain bid of two nights before.

Tenacious checking, a strong defence, and Chabot's nimble netminding held them off. A sudden counter-offensive of the Leafs threw the Rangers completely off their stride. A time-honored catchphrase of sport—the best defence is an offence—proved its claim to recognition. As the Rangers swarmed in to battle far across Toronto's blueline, the Leafs fought back, watched their openings, and broke away in sudden flight in twos and threes.

Roach Against Odds.

Tiring back-checkers were dropped swiftly behind, and the great Ching Johnson, looming large on the Ranger defence, was the picture of bewilderment. Widespread Leaf wingmen flashed by him, threatening a pass with every stride. They swooped in upon John Ross Roach and the odds against the agile little goalie were terrific.

Four cleanly earned goals whizzed by the tiny netminder in the third period, bringing to six in a row the total amassed by the Leafs.

There were those who said Roach had an off night, but he was "jinxed" even last Tuesday night in New York. But as play swung back and forth throughout the sixty minutes it seemed the whole Ranger machine gradually weakened and finally fell apart.

Off to a commanding start, Rangers brought a great cheer from the "neutrals" when Bun Cook stretched out to snare a pass from Brother Bill and rifle a shot past Chabot. They ended the first period with this lead and promptly added to it in the second. Doug Brennan was allowed to breeze through unchecked and when he reached the Leafs' defense he cut sharply around and swung past the rear guard. Chabot came out to meet him but Brennan made his shot sure.

Doug. Brennan

The Rangers, resting on a two-goal lead, calmly awaited other opportunities for sudden thrusts. The awakened Leafs made their own opportunities. Harvey Jackson started the combined "kid-veteran" drive that ultimately put to rout the New York team.

A sudden dash over the blue line, a hard, well-placed shot and Jackson had tallied. Still the Rangers held a goal advantage but when Charlie Conacher streaked over from the boards and whistled a shot past Roach the rout of the Rangers was under way.

Daring Offensive

They gathered their courage and launched a daring offensive with the beginning of the third period. But where combination had featured their early play, the renewed effort lacked snap and co-ordination. Their forwards tired, and the defense wobbled, there was determination, but not the recklessly rugged hockey to carry it through. The cost of Tuesday night's remarkable fight was taking its toll.

The veteran Leaf defenseman, King Clancy, started the scoring bee. Teaming with Joe Primeau, he took a pass while in front of the net and rapped the puck past Roach. Then Conacher, combining with Jackson on wide passes, drove in a counter. Clancy scored his second, again paired with Primeau, this time in a rebound. Hal Cotton flipped in Primeau's pass for the final goal while the dazed Rangers struggled futilely.

Both teams left last night and immediately after the game and will arrive in Toronto late to-day. The third game will be played there Saturday and a fourth and fifth, if necessary, on Tuesday and Thursday of next week.

THE SUMMARY

First Period

1—Rangers, "Bun" Cook ("Bill" Cook) 3.53
Penalties — Somers, Finnigan, Cotton.
Goal saves—Roach 12; Chabot, 9.

Second Period

2—Rangers, Brennan.....1.09
3—Toronto, Jackson 57
4—Toronto, Conacher 6.52
Penalties — Johnson, Brennan, Day.
Goal saves—Roach, 12; Chabot, 8.

Third Period

5—Toronto, Clancy (Primeau) .1.49
6—Toronto, Conacher (Jackson) 8.07
7—Toronto, Clancy (Primeau) .. .55
8—Toronto, Cotton (Primeau) .6.19
Penalties — Jackson, Keeling, Cotton.
Goal save—Roach, 13; Chabot, 8

May Become Olympic Stars

HOPI INDIANS TR AIN IN DESERT

Here may be competition for the Finns. Hopi Indian distance runners, from whom Olympic team candidates will be selected, are shown in training on the desert at Palm Springs, Calif. Sand, cactus, sagebrush or heat seem to mean nothing to the sturdy sons of the desert who set a pace under these difficult conditions that would kill a white runner. Donald Longhong, Hopi runner, made six miles across the desert in 31 minutes 37 seconds at Palm Springs recently. Most of the red men attend the Sherman Indian school.

LONDON SLIPS BUFFALO HEADS ROBIN SERIES

Dogs Blank Tecs for First Win on London Ice in Two Years for Victor.

OLYMPICS TAKE COUNT.

Buffalo Regains Lead in Playoff Series by 3 to 0 Victory.

TORONTO, April 8 (C.P.)—Canadian hopes for retention of the International Hockey League championship and the Oke trophy won last season by Windsor Bulldogs appear dull to-day as Buffalo Bisons are riding at the head of the round-robin pay-off series with but a single game to play.. Blanking Detroit in Fort Erie last night, Bisons jumped into the leadership and need but a single victory over Olympics, Sunday, to clinch the title.

London and Detroit both slipped back as a result of their shut-outs at the hands of Windsor and Buffalo, and to-day the standing appears in ladder formation. Buffalo lead the race with a total of eight points, while Windsor follow with seven and London are next with six. Even Detroit have an outside chance of tying Bisons for the championship Sunday, providing Windsor and London play to a draw on Saturday.

Further demonstration of the sensational work of International goalkeepers was given last night, when both games ended in shut-outs. Buffalo winning from Detroit 4—0 and Windsor triumphing over London 3—0. Of the 20 games played in the championship series, seven have ended in shutouts while three have finished in scoreless draws.

Frank Nighbor had his first-string Bison front line working in excellent style and as a result the homesters outplayed Detroit for three periods and earned their margin of victory. Carl Voss, crafty centre-ice man from Kingston, who led the league in point scoring, and Lloyd Gross, his left-wing mate, were the scoring aces for Buffalo. Voss tallied once and passed to gross for two of the other scores.

The first victory in two seasons on London ice came to Windsor last night, when they stepped into the Tecumseh centre and played championship hockey to win handily, 3—0. Jumping to the front in the first period, Bulldogs managed to protect their margin until late in the third period, when London went after victory only to have Windsor retaliate and score twice. Poor marksmanship and over-anxiousness cost Tecs several goals during the game, but the capacity crowd was satisfied their hopefuls were soundly beaten.

Carnera Outpoints Dan McCorkindale

LONDON, April 8.—Primo Carnera, ambling Aly from Italy, last night outpointed Dan McCorkindale, South African heavyweight champion, in a ten-round boxing bout at Albert Hall.

A large crowd witnessed a rousing battle which saw Carnera gain an advantage in the early rounds and the South African rally midway through the struggle and finish strong in the last round.

The towering Italian was at his best in the second round, when heavy blows twice sent Dan to the canvas for short counts. Through the third and fourth rounds McCorkindale outboxed his opponent, but found the Italian's weight and reach a bit too much for him.

Boxing cleverly in the fifth, Dan landed some telling blows, one of which opened a cut over Primo's eyes. From then on until the last round they fought on fairly even terms. In the last round McCorkindale tied up the Italian's lumbering offensive and the final bell found him almost as fresh as when they started.

Wrestling Last Night.

Boston.—Henri Deglane, France, won two out of three falls from Ed. (Don) George, Buffalo (Deglane first 13.47, and third 14.27, George second 24.43); Jim Browning, Missouri, and Nick Lutze, California, drew, 30.00; George Zarynoff, Russia, and Harry Manos, Greece, drew, 10.00. Charley Strack, Oklahoma, and Al Morelli, Boston, drew, 15.00.

Paterson, N.J.—Richard Shikat, 215, Philadelphia, threw Renato Gardini, 212, Italy, 27.15; Benny Ginsberg, 208, Chicago, threw Gene Bruce, 205, Finland, 22.17; Fritz Kiey, 210, Germany, threw Vanka Zelesniak, 215, Russia, 21.49; Taro Miyaki, 200, Japan, threw Jack Burke, 205, Chicago, 14.44; Mihaly Orgovanyi, 204, Hungary, and George Hagen, 210, New York, drew 30.00.

MARSHFIELD, Ore—Leo Lomski, Portland, outjointed Jimmy Byrne, Myrtle Point, Ore. (6).

TWENTY BID; NO OFFERS

MILTON, April 8.—To show the interest taken in next Saturday night's Stanley Cup championship game at Maple Leaf Gardens, Toronto, a Milton hockey fan, who failed to secure a ticket, has offered to pay $20 for two tickets, for his wife and himself, so anxious is he to see the game. So far he has not secured any tickets.

RAY STEELE WINS IN TORONTO BOUT

Doctors Refuse to Allow Garibaldi to Continue—Is Badly Injured.

TORONTO, April 8.—Smashing, battering attacks and counter-attacks climaxed an exhibition of previously clean, scientific wrestling, as Ray Steele came back after losing the first fall, won the second, and took the third by default, when the Ontario Athletic Commission doctors refused to allow Gino Garibaldi to re-enter the Maple Leaf Gardens ring last night.

It was a remarkable bout. The men relied on orthodox wrestling for the greater part of the match, and so capable was their work that they again proved that Toronto fans, though they appear to glory in watching battles of the rough-and-ready type, can appreciate really clever matwork. But the bout was far from lacking in excitement, and finally it developed into really sensational action, as the pair, throwing science to the winds, crashed into each other in punishing style.

Garibaldi appeared on his way to victory when he took the first fall in 33.45, but he looked far from victory 25 minutes after the resumption of the bout, at which time Steele, in a stirring comeback, slammed him to the mat as though he were trying to break every board in the ring flooring. The Italian was badly injured and had to be assisted from the ring. At the end of the second rest interval, Steele returned, but the announcer entered the ring with a request from Garibaldi for an additional five minutes' rest. This Steele granted, though he might well have refused, inasmuch as Garibaldi had been using questionable tactics during the latter part of the bout. The five minutes elapsed, but the bout did not continue, the Commission doctors firmly ordering Garibaldi, who was still in a weakened condition, not to leave the dressing-room.

Motion picture owners of Austria are uniting to fight increasing amusement taxes.

OUR GANG COMEDY

ABBERCOCK PICKED TO PITCH OPENER

Toronto Will Resume Exhibition Games To-day Against Louisville.

LOUISVILLE, Ky, April 8. — The Leafs will swing back into actual combat to-day when they open a three-game series with Bruno Betzel's Colonels of the American Association. They will meet a speedy and hard hitting team and one that boasts a number of good dougie-A pitchers.

With the Colonels, in addition to Herman Layne, who helped Dan Howley win a pennant for Toronto in 1926 and played left field at Maple Leaf Stadium, better than it has been played since, are Adair, former Reading shortstop; Fred Maguire, who has seen service in the majors with the Giants and Boston Braves; Elias Funk and Mervyn Shea, who played with the Detroit Tigers a few years ago, and Branson, who once had a trial at first base for the Athletics.

Against this collection of star minor leaguers, Manager Tom Daly of the Leafs will send Jerry Abberbock, young Hebrew righthander, to the pitching peak. After Abberbock's feat of holding the Indianapolis Indians to two hits and no runs for five innings the other day, Daly has become more enthusiastic than ever over the New York boy who tips the scales at 211 pounds. The Leafs' pilot is confident that Abberbock is going to be a consistent winner for him this season, even though he lacks the experience of some of the other members of the staff.

Boxers Are Named To Meet Schmeling

TORONTO, April 8.—Complete arrangements for the Maple Leaf Garden's boxing show next Monday night, featuring the first appearance here of Max Schmeling, world's heavyweight champion, were announced last night by Playfair Brown, local promoter, who is lending his assistance to the Garden for this show.

Schmeling will box three rounds against three opponents, meeting George Panka of Pittsburg; Pedro Lopez, Indian heavyweight, and Phil Weisberger of New York. The best of the three is Panka, who has met some fairly good heavyweights.

In meeting three men, Schmeling should show some good boxing, for he will face a fresh boxer each round, and, moreover, will be sparring against a man with a different style each round.

REDS GET GOAL IN FINAL PLAY

Fifteen Seconds Before Bell, Taylor Counters Winner for Providence Club.

BEAT BOSTON CLUB 3-2.

PROVIDENCE, R.I., April 8. — The Rhode Island Reds, leaders in the Canadian-American League when the regular season was ended, last night won the 1932 championship when a thrown stick 15 seconds before the game ended gave them a 3-2 victory in the final game of the series with the Boston Cubs.

Big Jack Spratt, Boston defence man, was the unfortunate tosser of the hockey bludgeon which credited Bobby Taylor with the deciding goal. The Reds were a man short at the time with Gizzy Hart in the penalty box. Taylor, a veritable whirlwind on skates, caught the Cubs way down in Providence territory, pumped his legs into action and was away ahead of Pratt. When Jack saw that he could not catch the fleet Brookline boy he thoughtlessly heaved his stick at him. Instantly both referees whistled and awarded the goal to Taylor.

Providence — Goal, Beveridge; defence, Trapp and Carson; centre, Gaudrealt; right wing, Rivers; left wing, Hart; subs., Harrington, Murray, Giroux, Connor, Taylor, Cormier, Hinsperger.

Boston — Goal, Jackson; defence, Pratt and Jerwa; centre, Conn; right wing, Burke left wing, Klein; subs., Jeremiah, Sutherland, Harnott, Weir, Johnson, Poole, Brink, Cummings.

Referees — Bill Stewart and Bill Shaver.

The Summary.

First Period.

No score.

Second Period.

1—Boston, Klein, 5.40.
2—Providence, Murray (Connor), 8.20.

Third Period.

3—Providence, Gaudreault (Hart), 6.50.
4—Boston, Burke, 12.20.
5—Providence, Taylor, 1.50.

Penalties — First period, Gaudreault, Sutherland, Harnott. Second period, Hart and Carson a major, Trapp.

Hockey Results

The National Hockey League play-offs to date have resulted as follows:—

SERIES "A"

For League Championship

March 24—At Montreal—Canadiens 4, New York Rangers, 3.
March 26—At Montreal—New York Rangers 4, Canadiens 3 (59.32 minutes' overtime.
March 27—At New York—New York Rangers 1, Canadiens 0.
March 29—At New York—New York Rangers 5, Canadiens 2.
Rangers win series 3 games to 1.

SERIES "B"

March 27—At Chicago—Chicago 1, Maple Leafs 0.
March 29—At Toronto—Maple Leafs 6, Chicago 1.
Maple Leafs win round, 6 to 2.

SERIES "C"

March 27—At Detroit—Montreal 1, Detroit 1.
March 29—At Montreal—Montreal 2, Detroit 0.
Montreal wins round, 3 to 1.

SERIES "D"

March 31—At Montreal—Maple Leafs 1, Montreal 1.
April 2—At Toronto—Maple Leafs 3, Montreal 2 (17.59 minutes' overtime).
Maple Leafs win round, 4 to 3.

SERIES "E"

Stanley Cup Final

April 5—At New York—Maple Leafs 6, New York Rangers 4.
April 7—At Boston—Maple Leafs, 6, New York Rangers 2.

CANADIAN-AMERICAN LEAGUE

Series A

March 27—At New Haven—New Haven 4, Boston 3.
March 29—At Boston—Boston 5, New Haven 2.
Boston wins round 8 to 6.

Series B.

March 28—At Providence—Providence 1, New York 1.
March 30—At Providence—Providence 4, New York 1.
Providence wins round, 5 to 2.

Series C

April 2—At Boston—Providence 4, Boston 2.
April 5—At Providence—Providence 2, Boston 0.
April 7—At Providence—Providence 3, Boston 2.
Providence wins title, 3 games to 0.

CHANGES IN PLA-MORS.

KANSAS CITY, April 8.—William F. Grant intends to build up his Kansas City American Hockey League club into a speedier outfit before next season. Grant, president of the club and of the League, said yesterday Kansas City fans were not pleased with the "conservative hockey" of the Pla-Mors, who led the League most of the past season, only to fall before Duluth in the sem-final play-offs. Grant confided that negotiations for several players already had been opened and that several highly recommended Canadian amateurs seemed eager to join the club.

Accidents in fatories of Britain are more frequent between 10 and 11 o'clock on Monday morning than during any other of the week.

SPORTS — HOCKEY, BOWLING, CURLING, BASKETBALL AND BOXING — Day by Day

CASUAL COMMENT

The local cricketers are getting ready for another big season, the annual meeting being called for to-night at eight in the Chamber of Commerce Rooms. Members, prospective members anyone interested are urged to attend. The Peterborough Cricket Club made quite a name for itself throughout the province last year.

• • • • • • •

Speaking of meetings, the box lacrosse one is slated for next Wednesday evening, instead of this week. It will be at 7.30 in the Chamber of Commerce, and election of officers, entries, and plans for the new sport will make it a lively session. More hockey players are promising to give the game a try to see it it's much like the ice sport. There is quite a bit of similarity and it will be plenty popular all over this summer.

• • • • • • •

The Ladies' Basketball League banquet takes place at the Y.W. at six this evening, with the winning teams being guests. The girls deserve a rest after battling through a schedule that was no cinch, and Blue Petes, junior champs, believe that slogan: "What a whale of a difference a few points make!" They had to fight to a fare-thee-well to cop the duke over Choates. St. Paul's trounced Westclox to annex senior honors.

• • • • • • •

Rily and Hickey's' meet Primeau's at eight next Tuesday at the "Y" in a sudden-death game to decide the winner of the second half of the Men's City Cage Loop schedule. The former won the first half and if they take the second, no final play-off will be necessary. Otherwise, the same two teams will tangle again. It's one war between rival Clothiers that can't be won by slashing prices.

• • • • • • •

Yesterday's warm sun brought balls and gloves out in various parts of town as the boys tossed the pill back and forth once again. It's a bit early yet, and players should break in very gradually—if at all, this time of year—and beware stiff arms. A strained muscle in the arm now may raise Cain in the summer time. Pitchers, in particular, should wait awhile yet.

• • • • • • •

The East Peterborough and the Senior ball clubs will likely be holding their meetings next week to get various matters ironed out early and take steps for the coming season. Later in the month, the softball clubs start organizing again. The different bodies should be pretty well set by the first of May, some three weeks away.

• • • • • • •

Word from Belleville is that Alexander Weir, the Nats' pitchinig outfielder, and their third baseman, Bob Scott, may be moved out of Belleville shortly by the C.N.R. However, there's nothing definite on it yet, and we hope both will be back in Belleville uniforms again this summer along with the Mills brothers and other familiar faces.

• • • • • • •

The Kingston outfit this year evidently figures on going places. Last year's champs have been working steadily throughout the winter, and Manager Frank Smith will trot out a strong team next month. In addition to their last season's players, the Ponies now include Larry Joyce, Harold Buck, and Mickey Compeau.

• • • • • • •

The C.O.B.L. will be stronger in 1932 than for some years, and should result in a fine race. We haven't much dope yet on Cobourg, except that Hoot Gibson will be whistling 'em in with that overhand motion for the Lakeshore Seniors. But with the territory they have to draw from, the Cobourg boys may prove to be the dark horse that will upset the applecart. Both Belleville and the Petes will be stronger this summer, but of that, more anon.

• • • • • • •

Gord Garwood, of the Alpha Club, is planning to stage an all-Peterborough boxing show at the Legion Hall next Friday night, and invites the Pioneer Club and Foster's to send their best boxers. The idea is to have the classiest scrappers in the city eliminate each other. It might be a good idea for the local stables to get together for such a show, and with proper matchings, it ought to go over okay.

ANCIENT LAWNS WEEDED BY UNDER GRADUATES

OXFORD, England, April 8 (C.P.) Undergraduates of Oxford University are giving a fillip to the movement for a "brighter Britain." In the intervals between higher learning they are weeding the ancient lawns of the quadrangles. Forty of them have already responded to an appeal from the authorities of St. Peter's Hall for volunteer weeders. The appeal suggested a quota of 50 weeds a day, but one volunteer has touched the 200 mark.

NEW ZEALAND TAXES UP

WELLINGTON, New Zealand, April 8.—New taxation to the tune of $2,500,000 for the present year is facing the New Zealand taxpayer. This represents about £3 per capita and supplements the new budget impositions.

A proposed tax of five per cent on wages is expected to yield £2,250,000 and is intended to supplement the present unemployment fund revenue of £2,500,000, which is largely overspent.

SCREEN ODDITIES by Captain Roscoe Fawcett

COOK RETAINS LEAD IN SERIES

Ranger Forward's Place in Point Averages Threatened by Leaf Youngsters.

CONACHER IS SECOND.

TORONTO, April 8.—Although Bill Cook of the Rangers managed to retain his position at the top of scoring records for the National League play-offs by getting an assist last night, his hold on first place is threatened in no uncertain way by the members of the Leafs' Kid Line. Charlie Conacher with two goals in Boston last night, is leading the goal getters with six, while Harvey Jackson shares second place with Conacher with six points, four goals and two assists. Joe Primeau, leading play-maker of the League during the regular schedule, has stepped into his proper place and is leading the play-off participants with five assists, which puts him in a tie for fourth place with the other two members of the Rangers' veteran line, Bun Cook and Frank Boucher, each of whom has five points.

Red Horner shares the dubious honor of being the 'Bad Man' of the play-offs with Ching Johnson of the Rangers, each having served 18 minutes. King Clancy with 14 minutes and Bun Cook with twelve are the only other players to reach double figures. The records are:

	Ga	Go	A.	Pts.	Pin M.
W. Cook (R)	6	4	3	7	2
C. Conacher (M.L.)	6	6	0	6	4

CLASS PUPILS PRESENT PLAY

Staged Under Auspces of Excelsior Class of St. James' United Church.

"THE GATE TO HAPPINESS"

"The Gate to Happiness" swung open last night to a most appreciative audience when the Excelsior Bible Class of St. James United Church presented this engaging comedy drama in three acts.

It is a merry fast-moving plot full of dramatic complications growing out of an unexpected masquerade on the part of a beautiful dancing star who impersonates the sweet little school teacher.

Her unselfish efforts to improve conditions for her improvident family lead her to the acts of deception which are not at all natural. The dearly loved little lame sister, the irresponsible but talented young brother, the hard-working aunt who has always been a mother to the family and her father, a very discouraged piece of human driftwood, all owe their very livelihood to her generosity, while they were too proud to acknowledge her real occupation.

The story of the play deals with the many sacrifices which nearly result in her own lost happiness.

It is seldom that a plot contains so much real human interest, and the cast and directress, Mrs. Ernest Kitney, deserve much credit for their clever delineation and careful training as shown in last night's production. From the first curtain there was continuous dramatic emotion with tears following almost every laugh.

With a lovely garden as background the action moved smoothly along, depicting life as it is in a small town where every one knows the other.

The cast was exceptionally well chosen and the youthful players entered into the difficult roles of older characters with quite artistic skill.

In the dual personality of Carlotta the dancer and Eden Gay, the teacher, Mrs. Percy Vannest gave a brilliant interpretation and won the hearts of her audience by her naturalness.

Her two admirers were dramatically opposite, one a man of the world and the other an earnest thelogical student. But both were one in their love for the heroine. Percy Vannest plays the former role with complete ease and verve while the young minister, Stephen Blair, was portrayed with equally clever acting by Bob Kitchen.

The role of the pretty lame sister, Jenny Gay, was in the capable hands of Miss Marjorie Baldry who gives it an atmosphere of appealing charm, while Frank Hitchins in his delineation of the lovable young brother, Jack Gay, gave the part an air of unselfconscious sincerity, that made it outstanding.

One of the most clever bits of acting was introduced by Miss Freda Pavey, as Aunt Sara Gay, who made this part very entertaining for, in spite of her peppery tongue she is the salt of the earth.

Ernest Kitney proved himself a master in the subtle art of making the shady cnaracter of Oscar Gay, Eden's father, interesting as well as sympathetic, winning continued applause.

The minister and his wife, Rev. and Mrs. Blair who played so large a part in the lives of the 'Gay' family, were easily the most difficult roles in the play. As the delicate little invalid wife, Miss Dorothy Drysdale's impersonation was perfect from first to last, while Harold Pavey made a splendid foil as the quiet, kindly clergyman in his devotion to his wife.

As a surprising climax to the family picture Bunny Gay is a charming addition. This very sophisticated young lady, who tries to hide a kind heart under a rather bold manner is one of the greatest hits of the play ,due to the clever acting of Mrs. Grace Olavesen.

It would be unfair to divulge more of the story, but excitement and thrilling episodes, plus the added excellent acting made "The Gate to Happiness" one of the outstanding plays of the season of which the class teacher, Miss Jessie Martin may well be proud and which is entirely worthy of its repeat production to-night.

A splendjid musical program was furnished as prelude and between acts by St. James' Sunday School Orchestra, including a delightful trio (a) "Lovelight", by Miss Olive Prest, Mr. Cecil Searles and Mr. Russeau.

The Misses Olive Prest and Aileen Rose also charmed the audience with their piano duetts (a) "In a Chinese Temple Garden", (b) "On the Race Course."

The scenery in which all three acts were played was both beautiful and effective, adding much to the success of the play.

Arthur Vannest and Cecil Church assisted with the stage management and lighting.

SLIDES ARE SHOWN OF BRITISH ISLES

Harold Eccles of Toronto Addresses All Saints' W. A.

An interesting travelogue was given in All Saints' Parish Hall on Tuesday evening, by Harold Eccles, of Toronto. His subject being the "Magic Isles" England, Ireland Scotland. Mr. Eccles is Conductor of Travel in Europe and has made many trips across the Atlantic. He is well acquainted with the customs, mode of living and general conditions of many of the countries in Europe.

The slides used by Mr. Eccles were coloured and to those who were present from the Old Land, were most interesting. Many of these, if not all, were pictures of places, buildings and people with a very interesting history which was fully described by Mr. Eccles. The general comment by those who heard Mr. Eccles was, that they had enjoyed a great treat.

Those who took part in the program besides Mr. Eccles were Miss Etta Young, a vocal solo; two instrumentals by Mrs. Glover and two vocal solos by Miss E. Rome.

The Travelogue was under the auspices of the Woman's Auxiliary of All Saints' Church.

Last season's pruning down of the large buffalo herd at Wainwright National Park, Alberta, resulted in the shipment of 24 refrigerator cars of meat and 2 cars of hides to the Canadian market.

BURGESS BEDTIME STORIES

THE IMPUDENCE OF SHADOW.

To all the world it should be plain
That impudence will little gain
—Old Mother Nature.

Shadow the Weasel has no friends, and in part at least it is due to his impudence. There is no one of whom I know who is more impudent than Shadow the Weasel. He isn't an outcast like Robber the Rat. He is clean and neat and he isn't a sneak. But he has no friends. One reason is that all the little people, even some considerably bigger than he, fear him. And he has no friends among the bigger people because of his impudence. It appears that he has no respect for any one, and those lacking respect almost always are impudent.

Politeness is, I suspect, a word he doesn't know the meaning of. This is partly because of his boldness, which is the result of his fearlessness.

"Why should I bother to be polite?" says he. "I believe in being bold and doing just what I want to do." And he usually does just what he wants to do.

Now that is no way to make friends. Of course not. And in the long run it really doesn't pay. Friends are very

useful sometimes and always to be desired. But apparently Shadow doesn't want friends. He is so self-confident that he thinks he has no need of friends. He isn't even on good terms with his own cousin, Billy Mink.

Shadow had found a cave in the ledge of rocks deep in the Green Forest and by certain sounds he knew that the owner of that cave was at home. So in the passage that led to that cave he stopped to listen. Now any one but Shadow, having made this discovery, would have turned and stolen away, for it was evident that whoever lived in such a big cave must be of large size and probably was one to be feared. Did Shadow turn and quietly steal away? Not a bit of it.

"I'll find out who that fellow is," thought he. "There is nothing like knowing who your neighbors are and all about them. I have an idea who it is, but I want to make sure. Probably he is half asleep anyway. Even if he isn't he won't be expecting visitors. There is nothing like doing the unexpected."

So instead of stealing away Shadow stole forward. He was careful to make no sound. There were a few dry leaves in there but not one rustled. Now Shadow is one of those who can see very well when it is comparatively dark. You know he travels as much by night as by day, probably more. There was a faint light in here and Shadow could see all that was necessary. He reached the end of the passage, and there was a warm, comfortable cave.

Shadow paused and looked quickly around. There at the back of the cave, curled up on a bed of leaves and back to him, lay Yowler the Bobcat! Yes, sir, there lay Yowler the Bobcat!

"Just as I expected," thought Shadow. "He certainly has a good home here. I've always wondered where he lived."

Yowler yawned and rolled over. His eyes, which usually gleam so fiercely, were sleepy-looking. He looked straight at Shadow without seeing him. Shadow didn't move. Had he moved ever so little he would have been seen instantly. Yowler yawned again and closed his eyes. Shadow continued to sit without moving until he was sure that Yowler was asleep.

Then instead of stealing away as most people would have done, he slowly crept forward. Yes, sir, he actually stole into Yowler's bedroom and all around it, taking the greatest care not to so much as rustle a leaf. He found some bones with some bits of meat still clinging to them. They reminded him that he was hungry. He began to tear these bits from the bones. He actually had the impudence to help himself to those scraps of meat right there in Yowler's bedroom with Yowler asleep close by.

Alleged Swindler Wanted In Ontario

DENVER, Colo., April 8.—(C.P.)—Maxwell Rozan, alleged Ontario swindler, will be given a hearing before the United States' Commissioner next Wednesday in deportation proceedings, it was announced to-day.

Maxwell, aged 40, is held here by request of the Commissioner of the Ontario Provincial Police at Toronto, who telegraphed Albert T. Clark, Chief of Police, that Rozan is alleged to have obtained $2,000 under false pretenses in Ontario. He was arrested Ap. 4.

What To-Day Means To You

"ARIES"

If April 8th is your birthday, the best hours for you on this date are from 10:30 a.m. to noon, from 6 p.m. to 7:15 p.m., and from 11 p.m. to midnight. The danger periods are from 8 a.m. to 9:30 a.m., and from 2 p.m. to 3:30 p.m.

Astrological influences on April 8th will be propitious for most undertakings, and your efforts will not be ineffectual or impotent. Excellent time for those things which entail initiative and forceful handling. Minor illnesses are threatened, which should receive proper attention.

The child born on this April 8th will exhibit both practicality and industry in most everything he does. It will have an orderly mind and will not muddle things. It will be cool-headed at its sports and also in the more serious games of life. It will rather suppress its emotions, although it will not be unfeeling or unsympathetic.

Born on April 8th, you take a business-like attitude toward life. You are not a schemer or promoter, but blue-prints in hand, you can carry out with success any work which appeals to you. You are often able to bring order out of chaos, or to turn others' failures into successes. Your work is not that of a genius, and you only reach your goals through your steady, industrious persistency. You become rather self-centered and selfish through the close pursuit of your aims. You are not thoughtless or selfish at heart, but through absorption in your own interests do not notice the many small acts of courtesy or kindness which you could do for others in order to give pleasure and happiness.

You will never be bound down by poverty, and on the other hand no great wealth is foreseen. You are not a hoarder, and like to spend as you go along, each day enjoying your customary comforts and those luxuries which you can afford.

You have an inborn respect for law and order, and are conventional minded. If you have any vices, you hypocritically try to hide them from the world in general. You believe in the eleventh commandment, "Thou shalt not be found out." You should have a natural immunity to most diseases, but will always be rather nervous about your health.

(Copyright 1932, The Bell Syn., Inc.)

DANUBE AFFAIRS SPLIT BIG FOUR

France Opposes Inclusion of Bulgaria if Federation is Set Up.

SECOND PARLEY URGED.

LONDON, April 8 (C.P.). — The four-Power conference of Great Britain, France, Germany, and Italy on the Danubian affairs was spit to-day over two points. The conferees, however, continued their work in the most friendly spirit and expressed the hope that an agreement would be reached.

One point of disagreement was the question of admitting Bulgaria into any Danube Confederation which might be set up. Itay and Germany were understood to desire the inclusion of Bulgaria. France, especially, opposed it.

Another split, between Italy and Germany on the one hand and Great Britain and France on the other, arose over a proposal for a full conference, including representatives of the Danubian countries, to be held later.

Want Separate Parley.

Great Britain and France were understood to have insisted that the Danubians hold a conference among themselves. Germany and Italy wanted a conference of representatives of the four Powers with representatives of the Danubian nations.

Under consideration for to-day were numerous proposals and reports touching on the question of guaranteed loans and tariff preferences among the Danubian states.

Each of the four Governments is appointing a treasury expert to examine the recent report of the League of Nations Financial Committee on the condition of the Danubian countries.

Among the proposals considered it was understood, were financial aid by Britain and France and tariff concessions by Germany and Italy, the principal markets of the distressed nations.

The fire department of Leyton, England, recently had to fight a blaze at the waterworks.

COME AND LAUGH OFF THAT DEPRESSION FEELING AT "THE RIVALS."

The Most Up-to-date Range that Money can buy!

TRULY wonderful strides have been made in gas range construction during recent years. If you fully realized the many changes to be found on a modern range, you would want to own one.

Why keep your old range when the new Moffat models offer you the most up-to-date Gas Ranges that money can buy, yet cost no more than an ordinary range.

PRICE OF TEA TO BE REDUCED

Prices Are Cut Ten Cents a Pound Companies Announce.

AWAITED BUDGET.

In many local stores to-day tea prices were reduced ten cents on the pound package and five cents on the half-pound package. The price cut followed immediately upon the announcement made last night by the Salada and Red Rose Tea Companies, which do a very large business in package teas throughout Canada, that tea prices would be reduced ten cents a pound.

Although several merchants interviewed by The Examiner had not previously been advised of the reduction in tea prices, they said that it would be put into effect here as soon as definite word was received from the tea companies. Several chains were selling tea at the reduction throughout the day.

Primary Market Lower.

The reason given by the tea firms for the reduction is that teas are cheaper in the primary markets of Ceylon, Calcutta and London, England, and also because of the ...ation of the pound sterling.

The price reduction has been contemplated for some time, but was postponed until after the announcement of the Budget proposals in the House of Commons Wednesday afternoon. Tea merchants expected a tax on ..., but as there was no impost announced they were able, last evening to make a downward revision of ten cents on the pound. The reduction would have been made several weeks ago, but the tea companies did not want to make the cut and possibly have to restore it again to the original level with the announcement of the Budget.

DR. EDWARD WOOD HEADS GOLFERS

Annual Meeting is Held for Peterborough Golf and Country Club.

Dr. Ed. Wood was elected Captain of the Peterborough Golf and Country Club Limited for 1932 at a players' meeting held in the Chamber of Commerce Rooms last night. It was a well-attended gathering, with William Sangster in the chair. Various committees for the year were elected, and William Fairweather was appointed professional for the club this season. The grounds will be put in shape and open for play as soon as weather permits.

Following are the officers and committees voted in last night: Captain, Dr. Ed. Wood; Vice-captain, C. G. Graham; Match and Handicap Committee, J. P. Bond, chairman, F. M. DelaFosse, Ross Dobbin; Greens Committee, O. A. DeGraw, chairman, Geo. A. Macdonald, Robt. Abbott, Wm. Sangster; House Committee, Fred Hills, chairman, L. Scott, Mrs. H. Wightman; Property Committee, Wm. Sangster, chairman, W. G. Morrow, G. A. Wood; Membership Committee, George Edwards, chairman, C. S. Cummer, D. B. Falkner, H. C. Sootheran, Dr. M. McCulloch, W. A. Elliot, H. A. Wooten, W. C. Ackerman and three ladies to be elected.

Following some discussion on prospects for the coming golf season, the meeting was adjourned.

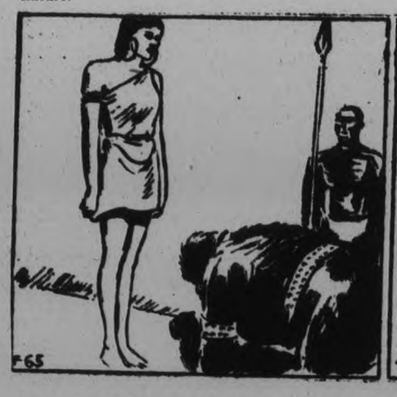
TARZAN AND THE GOLDEN LION. NO. 65

(Metropolitan Newspaper Feature Service, Inc.)

By Edgar Rice Burroughs

Tarzan looked at the old man sadly. "You will find back in civilization," he said, "deceit, cruelty, greed and hypocrisy. Long have you been gone. None now will be interested in you; you will be interested in none there. I, Tarzan of the Apes, have left my jungle and gone to the cities built by men. But always I have been glad to return to my jungle; to the noble beasts that are honest in their loves and in their hates: to the freedom and the genuineness of nature."

So at last the old man was prevailed upon to remain and be chief of the Gomangani. The hundred Bolgani hiding in various parts of the Palace were dragged out and brought to the throne room. Tarzan spoke to them in the ape language: "You, Bolgani, are fearsome fighters. Beside me sits La, the High Priestess of Opar. A wicked priest, usurping her power has driven her from her throne. You are the last of your race. On one condition I spare your lives and offer you a home."



Tarzan then requested the gorilla-men to accompany him to Opar. There they were to punish Cadj, place La again upon the throne of Opar and remain as her body-guard to protect her from enemies within and without the ruined city. The Bolgani discussed the choice offered them for several minutes. Then one advanced toward Tarzan. "We accept," he said, "from now on we swear loyalty to La, our queen." "Are YOU content?" the ape-man asked La. "I accept them in my service," replied she.

Early next morning Tarzan and LA set out with three thousand Gomangani and a hundred Bolgani to punish the traitorous Cadj. There was little or no attempt at strategy or deception. They simply marched down through the Valley of the Palace of Diamonds, descended the rocky ravine of Opar and made straight for the rear of the palace of LA....A little grey monkey, sitting upon the top of the temple wall, was the first to spy their coming.

EASTER MEETING ROGER AUXILIARY

Twenty-five Dollars Made at Tea Shown in Treasurer's Report.

The Easter Thankoffering meeting of the Helen Roger Auxiliary of Knox United Church was held at the Manse, King street, when Mrs. Howard Clegg, president, presided.

Miss Alma Gerrard gave the treasurer's report stating that $25 had been made at the tea held the previous week. The allocation for the bale was read by Miss Margaret Menzies, supply secretary and all the articles were promised by the members. Mrs. Clegg gave a splendid talk entitled, "Our Allocation Window" giving much valuable information as to how one's money gave joy to many and rendered service to those less fortunate.

Mrs. E. Johnson sang very feelingly, "The Old Rugged Cross" after which Mrs. Anderson gave a short talk on Temperance. Miss Mary Morton had charge of the Study Book and gave an interesting and instructive paper on "Youth and the New Day in Korea."

At the close of the meeting, a short social time was enjoyed.

TWO SHOT IN SPEAKEASY

CHICAGO, April 8. — Shotgun slugs, fired at close range brought death last night to Benjamin Applequist, 43, and his brother, Ernest, 40, apparently while they were tending bar in their small speakeasy. Their slayers escaped.

The killers posed as customers, but what their motive was remained a puzzle to police.

SPRING IS HERE—SIGNS UP

Robins, blackbirds and song sparrows have been with us for a week, but at that many local residents hesitated to say that Spring was really here. However, they accepted Spring's certain arrival to-day when Alderman Walter Stocker, chairman of the Parks Committee, was observed out on the parks putting up the "Keep Off the Grass" signs. Alderman Stocker decided yesterday that "Spring Had Come" and ordered his men to dust off the signs and get them ready for placing to-day.

Obituary

MRS. ROBERT WINTERS.

The death occurred in Port Hope on April 7, of Cora May Paul, beloved wife of Robert Winters.

Mrs. Winters had been ill a long time but her death came very unexpectedly Thursday evening, and is a great shock to relatives and friends.

She is survived by her husband, one daughter, Kathleen, also by her sister, Mrs. Frank Jackson of 173 Adaline street, Peterborough. Her brother, Walter Paul and father, P. Paul of Port Hope.

The funeral will be held on Sunday at 2.30 to Union cemetery, Port Hope.

IN MEMORIAM

WILSON—In loving memory of our dear father, Herman Wilson who passed away, April 8, 1929.
The years are passing swiftly,
But still we don't forget
For in the hearts that loved you
You memory lingers yet.

Sadly missed by Sons and Daughters.

The coal-mining industry in New Brunswick is now benefitting through the large electrical generating station erected at Grand Lake which is expected to absorb all slack and screenings from the mines in the district.

ENGLAND WINS INTERNATIONAL MATCH

NEWS IN BRIEF

SHORT ITEMS RECEIVED OVER C. P. WIRE.

TWO KILLED IN FIGHT

PIREAUS, Greece.—Two persons were killed and two injured to-day in a fight between Republicans and Royalists during a municipal election.

URGE CO-OPERATION

BUENOS AIRES.—The Argentine Roman Catholic Episcopate issued an appeal to-day to Catholics to co-operate with the Government in meeting the economic crisis.

BODY FOUND IN WELL

COCHRANE—The badly decomposed body of a man, believed to be a Russian, was found at Hunta yesterday, according to reports reaching here today. The body was found in a well, and had evidently been there for some months. Provincial police are investigating.

APPEALS TURNED DOWN

MONTGOMERY, Ala. —Alabama's Supreme Court today over-ruled an application for rehearing appeals of seven young Negroes sentenced to die May 13 for attacks on two white girls near Paint Rock, Ala., a year ago.

TAX BILL NEAR CLIMAX

REGINA — Saskatchewan's new income tax bill stands for third reading in the legislature today. The legislation which will tax incomes as low as $750 passed through the committee stage of the house last night with little discussion.

AGREE ON SLASH

WASHINGTON—The U. S. Senate appropriations committee today unanimously agreed on details of the 10 per cent slash in the state, justice, commerce and labor departments appropriations for next year including a million dollar cut in the prohibition enforcement fund.

TWO FACE FIRING SQUAD

MOSCOW—Judas Stern and Sergei Vassiliev, convicted last week of the attempted assassination of Dr. Pritz von Twardowski, counsellor to the German embassy, were executed today by a firing squad. The central executive committee of the Communist party had denied their appeal for clemency.

IN THE RUMOR STAGE

ST. JOHN'S, Nfld.—Progress in Newfoundland's tangled political situation was in the rumor stage today. Quiet has prevailed since Wednesday, when sporadic rioting followed Tuesday's mass disturbance which ended in the break up of a legislative sitting and considerable damage to the Colonial building.

DEBATE ON PEACE

SHANGHAI—Today's session of the Sino-Japanese Armistice Conference was turned into a debate over definitions of the newly-drafted proposals of Sir Miles Lampson, British ambassador to China, and the meeting was adjourned until Monday in order to give the governments an opportunity of accepting or rejecting the suggested revisions.

BLAME GERMANY, ITALY

PARIS—Today's newspapers blamed Germany and Italy for the failure of the four-power conference on Danubian policy which ended without agreement at London yesterday.

France and Great Britain, said Le Temps, are working in a spirit of conciliation to save Europe Berlin is flirting with catastrophe, increasing the disorder and confusion.

SUIT GIVES WAY DIVER DROWNS

Expert Rushed From Cobalt By Plane Arrives Too Late.

BODY RECOVERED.

NEW LISKEARD, Ont., April 8. Trapped at the bottom of the Quinte river when his diving suit burst from pressure of water, William Duval, 36, drowned yesterday according to reports received here to-day.

Despite the efforts of Joseph Nadeau, rushed to the scene by aeroplane yesterday, Duval's body was not recovered until to-day.

Duval, employed by the Federal Government, was examining the bottom of the Quinze River storage dam. His diving suit was forced open and an emergency call sent to headquarters of the Canada Northern Power Corporation here for aid. Nadeau, an experienced diver and member of the Cobalt town council, went to the scene in an aeroplane and located Duval's body but was unable to bring it to the surface until today.

Duval was unmarried, and lived at St. Augene de Guigues.

HUNT FOR BABY LEADS POLICE INTO MONTREAL

Rumor Gangster Would Trade Child for Freedom of His Pals in Jail.

NOTORIOUS PURPLE GANG.

Leader Trailed by U. S. Detectives From Michigan and Toronto.

MONTREAL, April 8. — The world-wide search for the son of Col. Charles A. Lindbergh, who has been missing for thirty-nine days, reached Montreal today.

With the aid of the Montreal police force investigators attached to the state police of Michigan were hunting for a Detroit gangster, who was believed to be in contact with the kidnappers of the Lindbergh baby.

The man sought here was said to be chief of Purple gang of Detroit It was reported that this gangster had offered to deal with representatives of the flying colonel with a view of trading Col. Lindbergh's child for the freedom of members of his gang now in Michigan jails, and immunity for himself.

The Michigan officers in Montreal today were Detectives Lyle L. Hutson and William Watkins.

Watched In Toronto

The gangster, in company of two women, was under police surveillance in Toronto last Sunday. The party moved to Montreal, and it was learned locally that they would aid in the return of the missing child if their demands that three members of the Purple Gang, sent to the penitentiary in a gangster's war on Coplingwood Ave., Detroit, a year ago when three men were killed, were freed.

Police headquarters here, while reticent concerning the presence in Montreal of the Michigan police, admitted that the report was substantially correct but refused all detailed information.

The Herald today said that the gangster the Michigan police were looking for was Harry Fleischer, reputed leader of Detroit's Purple gang.

LEAGUE NATIONS GROUP WELCOMED AT PEIPING

PEIPING, April 9.—(AP)—Three brass bands were playing on the station platform when the League of Nations Commission investigating the Sino-Japanese conflict arrived today. Chang Hsiao-Liang, Dr. Wellington Koo and other dignitaries were among the welcomers.

The city's 600-year-old walls were plastered with welcoming posters in English, French, German and Italian. The visitors will stay here five or six days before going up to Manchuria.

Bankruptcies in Poroto Rico last year totaled 40, those in 1930 numbered 50, and in busy 1929 there were 62.

England Scores International Soccer Victory

England scored an international soccer victory this afternoon at Wembley stadium in England by defeating Scotland three goals to nil. Above layout shows some of Scottish stars:

Top Row—(1) Dewar, Third Lanark; (2) J. Marshall, Ranger, (3) Archibald, Rangers; (4) Hamilton, Rangers; (5) C. Napier, Celtic; (6) Morton, Rangers. Blenkinsop, Sheffield Wednesday; (11) Pearson, West Bromwich; (12) Shaw, West Bromwich, (13) O'Dowd, Chelsea.

GERMAN VOTERS DECIDE SUNDAY UPON PRESIDENT

Hitler and Hindenburg Followers Wind Up Campaign in Whirlwind Drive.

SECOND CONTEST.

Fascists Claim Nazi Chief Will Overcome Veteran Warrior's 7,000,000 Lead.

BERLIN, April 9—(AP)—The second political battle of Von Hindenburg vs. Hitler, the greatest electoral contest in the history of Germany, was all but ended today as more than 37,000,000 voters prepared again to elect a president of the Reich.

In contrast with that which preceded the first (and indecisive) election four weeks ago, the campaign for tomorrow's voting has been brief but bitter. Held down by the decree proclaiming a political truce over Easter holidays, it did not being until last Sunday.

Followers of Von Hindenburg, the

(Turn to Page Six. Please)

NO TRUTH TO RUMOR.

TORONTO, April 9 (C.P.). — "I know nothing about it," declared Lester Patrick, manager of the New York Rangers, National Hockey League team, when questioned today regarding reports that Goalie John Ross Roach would be released after the Stanley Cup series.

NO NEED TO WORRY ON RELATIONS DE VALERA TELLS NEW ZEALAND

Sees Removal of Allegiance Oath as Boost to Friendship Generally.

NO CAUSE FOR QUARREL.

WELLINGTON, N.Z., April 9 (C.P. Cable).—A further statement of the position taken by the Irish Free State Government in regard to the oath of allegiance was made yesterday in a cable to the New Zealand Government by President Eamonn de Valera, made public to-day. The Irish President's communication was in reply to that of the New Zealand Government a few days ago in which it was stated they observed with deep regret and real apprehension the state of affairs which had arisen in respect to the constitutional position.

In his reply, President de Valera stated he fully appreciated the friendly motives of New Zealand and assured the Government of the very friendly feelings of Irish Free State citizens for New Zealand.

People's View

Our people are conscious of the rights of the Irish Free State as a distinct and separate nation and have declared their will that the conscience test imposed by Great Britain on our representatives in Parliament should be removed, the President said. It is our duty as a Government to give effect to their will and secure the immediate elimination of the test. We intend for that purpose to use our fully recognized right to amend the constitution to the people's desire. We do not consider the Government of Great Britain has the right to regard our intended action as a cause for quarrel. On the contrary, the removal of this and other barriers to friendship created by Great Britain must result in the establishment of the good relations you desire, as we do, to see established between the peoples of these two islands.

4 Castaways Found In Bay of Biscay

LONDON, April 9. (A.P.)—Four men off the French steamer Rouzic, shipwrecked in the Bay of Biscay, were picked up to-day by the British steamer Deerpool, Lloyd's was informed this morning. Eight boats with 25 men were missing.

The Deerpool wirelessed that the Rouzic bound from St. Malo, to St. Pierre, foundered in a storm, the British ship headed for Cardiff with the foud castaways.

ARMS PARLEY OPENS MONDAY

With Quiet on Shanghai Front Delegates Hope for Better Results.

VARIETY OF PROBLEMS.

GENEVA, April 9 (C.P.). — The World Disarmament Conference will resume its labors next Monday under much more hopeful conditions than those which prevailed when it first convened on February 2.

The guns which thundered at Shanghai when statesmen gathered here ten weeks ago to talk of reducing armaments are now silent, and the situation on the Yangtze front is much improved.

Moreover, the confusion and uncertainty which marked the conference opening have yielded to an orderly plan of work.

The conference has been organized into five special commissions to handle problems specifically pertaining to land, sea and air armaments, budgetary questions, and political issues. Over these groups the general commission exercises

(Turn to Page 6. Please)

New Language Rights For South Africa

CAPE TOWN, South Africa, April 9 (C.P. Cable). — Important compromises in regard to language and citizenship and extended parliamentary powers were reached today between the Union of South Africa and the Protectorate of South-west Africa, administered by the Union under a mandate, following discussions between Prime Minister J. B. Hertzog and an official deputation from South-west Africa.

South-west Africa is the former German territory recognized since the war as an integral part of the Union. German will be recognized as an official language equally with English and Afrikaans. All whites in the territory will be granted equal rights with whites in the Union. All persons domiciled in South-west Africa on December 31 last will automatically become naturalized.

ITALY FAVORS CANCELLATION OF WAR DEBTS

Proposals Also Include Renunciation of Reparations, Concrete Disarmament.

GREAT FLEETS RAPPED.

Claim Quick Action Must Be Taken to Restore International Trade.

ROME, April 9 (A.P.)—Fascist Italy was before the world to-day with a definite, flat program for renunciation of reparations, cancellation of war debts and concrete disarmament.

The tri-partite program was decided upon and announced here today on the eve of the re-convening of the world disarmament conference and the League of Nations Council at Geneva next Monday.

The Grand Council of Fascism announced its decision to support renunciation of reparations and cancellation of war debts after an all-night session at which Premier Mussolini presided. A settlement of the problem, its resolution declared, is the first step toward the economic recovery of the world.

The disarmament program was contained in a long document sent to the offices of the World Conference at Geneva. It struck at the German pocket battleships, the 22,000 ton French cruisers, and the battle fleets of Great Britain and the United States, and proposed limiting all navies to the Italian standard of 10,000-ton cruisers.

No Tanks, Subs.

It also provided for abolition of heavy artillery and tanks, submarines, airplane carriers, bombing aircraft and chemical and bacteriorological warfare.

The Fascist Council's statement contained five principal recommendations for economic rehabilitiation of the word. Besides settlement of reparations and war debts question, these were: Removal of the shackles on international trade; solution of the economic difficulties of Danubian and Balkan countries; revision of the peace treaties and an end to too frequent international conferences.

Something must be done to restore international commerce before a condition of total anemia has been reached in the trade of all countries, the council's statement said. It did not go into the details of a solution, however.

The resolution added that Italy intends to insist on its proposals at Geneva until the end of the conference, to clear finally, in the face of this grave problem, the historical and political responsibility of individual states.

RADIO LICENSE DATE EXTENDED TO JUNE 1

OTTAWA, April 9.—(CP)—The owners of radio receiving sets will be given until June 1 to obtain their new $2 licenses it was announced from the department of marine today. The new licenses will be available in most centers next week but owing to the change in the rate from one dollar to two dollars, the date at which new licenses must be secured has been extended from May 1 to June 1.

80,000 PERSONS SEE SCOTLAND BEATEN 3–0 IN INTERNATIONAL SOCCER STRUGGLE AT WEMBLEY

England Plays Clever Defensive Match After Obtaining Early Lead.

EVERTON ALSO WINNER.

Wolverhampton Wanderers Beat Oldham to Strengthen in Second Division.

LONDON, April 9 (C.P. Cable).—Before 80,000 spectators, many of them from North of the Tweed, England to-day beat Scotland in an International soccer match at Wembley Stadium by three goals to nil.

England were very aggressive until near the end when, three goals up, they adopted defensive tactics, and easily suppressed Scottish efforts to score.

England scored a goal in the first half through Waring, the Aston Villa star, and in the second half when Craig, a Scots half-back, put the ball through his own goal, and Crooks, the Derby County forward, netted.

Morton and Archibald looked dangerous at the opening of the second half, but Crooks brought relief with a good run. He was injured at the end of it and had to leave the field for a while. A long pass from Barclay to Houghton led to an exciting play in front of the Scots' goal, where Hamilton eventually saved cleverly. Then, at the other end, Pearson tipped a free kick from Nibloe over the bar.

England's second score came in the 35th minute of the second half. Houghton centered and Barclay, running through, shot. The ball went off Craig into the net. Three minutes later Houghton's centre was met by Crooks, who scored easily. The match ended with the Scots being held completely in check.

Everton Strengthens Grip.

LONDON, April 9 (C.P. Cable).—

RETIRED BUSINESS MAN SUICIDES IN BATHRDOM

MONTREAL, Que., April 9 (C.P.). —The body of Kenneth Molson, retired Montreal business man, was found in the bathroom of his Pine Avenue home here at noon to-day. A discharged revolver was found by Mr. Molson's body and death had followed a bullet wound in the head.

Mr. Molson, who retired from active business life some years ago, was a director of Gould Pumps Incorporated, Ontario Steel Products, Limited, and the Montreal Life Insurance Company.

KINSMEN PLAY MAKES BIG HIT WITH AUDIENCE

Second Annual Play of Local Service Club is Big Sucess.

BEAUTIFUL COSTUMES.

Parts Well Taken by Young Actors Who Are Given Much Applause.

Manners and words and costumes of another age silhouetted themselves against the dark curtains of the stage setting at the Collegiate Institute last night, when fair women in powder and patches, with panniers and fluttering fans and equally fluttering manners — when gentlemen in satin suits that sparkled with brave buttons, in perukes and periwigs in tricorne hats and spotless wrist laces, paraded in all the humour and sentiment of the time when Richard Sheridan wrote "The Rivals" when old men went to Bath to sup the gout-healing waters, when gentlemen wrote sonnets to their lady's eyebrow and fought over the thickness of her little finger.

"The world went very well then" in that age pictured by Sheridan, in a way that has preserved its freshness through many long generations since the first production of "The Rivals" at Covent Garden Theatre in 1775.

Last years presentation of "Hay Fever" under Kinsmen Club auspices, proved how well local amateur actors can produce a distinctly modern effort such as Noel Coward had achieved in that vehicle, and Adrian Macdonald once again demonstrated last night that he was a director of excellence and a very fine actor as well, for his part of Sir Anthony Absolute, the crusty, gouty old gentleman of the piece, opposite that of Mrs. Malaprop, played by Mrs. D. A. MacTavish, was one of the highlights of the piece.

Mrs. Malaprop, who, as Julia remarked, was a mistress of "words ingeniously misapplied, without being mispronounced" was equally good. The spectacle of these two scheming elderly people, resplendent in their fine apparel, pursuing their ways with apparent unanimity, was refreshing and amusing in the extreme.

Artificiality Supreme

Produced last night in the Collegiate auditorium by the Kinsmen Club, "The Rivals" has a quality of artificiality that is carried to an attractive extreme degree. It mirrors the thoughts and manners of an arificial age, when duels over fancied affronts were the or-

ISSUES WOODEN MONEY.

WASHINGTON, April 9 (C.P.) — The old witticism, "And don't take any wooden money," doesn't apply in the State of Washington.

Senator Clarence Dill reports to the Senate that in the town of Tenino, al lthe banks having closed, the Chamber of Commerce has issued money made out of spruce cut from our own forests. The pieces are in the value of 25 cents, 50 cents and $1; and are redeemable from dividends assigned to the Chamber of Commerce from the Citizens' Bank of Tenino.

Senator Dill says several thousand dollars worth of this wooden money has been issued.

FLIER DIES IN CRASH

LE BOURGET, France—One army flyer was killed and three were saved by leaping with their parachutes when two military aeroplanes collided and crashed today.

MELLON VISITS BRITAIN'S KING

New Ambassador Presents His Credentials From President Hoover.

ACCOMPANIED BY SIMON.

WINDSOR, Eng., April 9 (C.P.).—Ambassador Andrew W. Mellon, accompanied by Sir John Simon, Secretary for Foreign Affairs, came from London to-day to the famous old castle on the hill above the Thames here, and presented his official credentials from President Hoover to the King.

Sir John called for the new Ambassador at the Embassy. The King extended a luncheon invitation to Ambassador Mellon and he accepted.

Prime Minister Ramsay Macdonald is spending the week-end at his country place, Chequers, but will return to London to-morrow night and arrange for a meeting with Ambassador Mellon.

Some newspapermen who could not agree about what the Ambassador said yesterday in reply to a question whether the Embassy would be wet or dry under his regime asked him again this morning and he made it clear he would follow the custom of the country. There are no dry embassies in London.

CRIMINAL CODE LEVIES COLLECTED BY PROVINCE

City Clerk Armstrong told The Examiner to-day that it was impossible to estimate the loss that might accrue to the city because of the Federal bill passed yesterday which gave the Province of Ontario the right to collect all court levies under the Criminal Code.

He said, under a former law all fines under the Criminal Code went to the province. Strong representation was made by the municipalities to have this changed, but it remained unaltered except in a few instances, Mr. Armstrong said.

He intimated that Peterborough would not lose much in fines under the new bill, but he could not state definitely its effect since he had not yet had an opportunity of studying the new bill.

DOCTOR RISKS LIFE FOR PATIENT FINDS MAN DEAD ON HIS ARRIVAL

Travels 25 Miles Through Bitter Cold in Vain.

TAKES BODY BACK.

ST. JOHNS, N.B., Apr 9 (Special to The Examiner)—Responding to emergency calls is still no sinecure for a country doctor. He is Dr. Marcus, of New Germany, N.S.

At about noon, a call came into the home of Dr. Marcus, from a logging camp operated by the Mersey Paper Company, in the Tobeatik Lake wilderness. The telephone message was just a skeleton request for the presence of the country doctor and explaining directions how to reach the camp. A member of the crew had been taken suddenly and seriously ill.

Dr. Marcus hopped into his snowmobile and ploughed over the highways from New Germany village to Lower Landing, on the big Lake Rossignol. The day was cold, and the road was heavy with snow. Too, the distance was about 25 miles. Because of the snow, it was impossible to speed.

At Lower Landing, the motor vehicle was placed in a private garage, and the physician borrowed a horse and saddle. The distance from Lower Landing to the doctor's goal was 13 miles, through the forest. A tote road had been cut to the camp for the 13 miles several

$30,000 Fire Sweeps Building In Ottawa

OTTAWA, April 9 (C.P.)—A firefighter was overcome by smoke and damage estimated at $30,000 caused by fire which broke out in a combined business-apartment building on Rideau street last night. The flames were confined to the lower floor of the three-storey structure, and the heaviest damage was suffered by the Molot Fur Store.

Morton Baker, of No. 4 Station, was the fireman overcome. He collapsed while inside the building, but was quickly revived.

Cakes, Pastries, Pies To Escape Sales Tax

OTTAWA, April 9 (C.P.). — By virtue of the Budget, exemption from sales tax has been applied to cakes, pastries, pies, and cookies, not made from bread dough, provided that the bakers of such commodities had not a sales volume exceeding $5,000 in the last calendar year.

Instructions to collectors of excise have been issued to this effect by the Department of National Revenue.

MAYOR DENNE TO OPEN SCHOOL

Homemakers School Opens on Tuesday at 2.30.

NO CHILDREN ADMITTED.

Mayor Denne kindly consented to open The Examiner's Homemakers' School on Tuesday afternoon and will introduce Miss E. Frances Thompson to the audience.

Miss Thompson is the Lecturer and Demonstrator for the school and is a very capable woman. Her appearance here is being looked forward to with keen interest.

One of the features of the school is that all the electrical household appliances used are the product of the Canadian General Electric Company, of which the Peterborough plant is the largest unit.

The grand prize is your choice of a C.G.E. Electric Stove, Radio or Washer and the basket prizes, 25 of which are given daily, are more valuable than ever. In addition there are very special prizes such as bags of flour, from Quaker Oats Co'y, Community silver, Schneider Bros., one prize of 24 packages of

EXCHANGE HEAD IS SUMMONED BEFORE SENATE

Asked to Produce Records on Monday Disclosing Friday's Short Sales.

WIDE PROBE PROMISED.

Attempt to Drive Country Off Gold Standard is Alleged.

WASHINGTON, April 9.—Aroused by the collapse of security prices and reports of foreign campaigns against the United States dollar, the Senate Banking Committee in an emergency meeting yesterday ordered an immediate investigation of the stock market.

A subpoena was issued for Richard Whitney, President of the New York Stock Exchange, ordering him to appear here on Monday with all records relating to short sales at the close of business yesterday.

Further declines in stock prices, following a persistent downward drive all week, prompted the emergency session of the committee. It was held an hour after the New York Exchange had closed for the day.

Senator Walcott, Republican, Connecticut, an adviser of President Hoover, and regarded as an Administration spokesman, led the movement for the special session. There is every indication that the Administration spurred the sudden inquiry and is backing it to the limit.

Rumors Trouble France

Walcott began negotiations for the meeting early in the day. Only last night the Capital was aroused by a fresh outbreak of the campaign in France against the dollar, in which one newspaper published a story that a prominent New York bank has suspended payments.

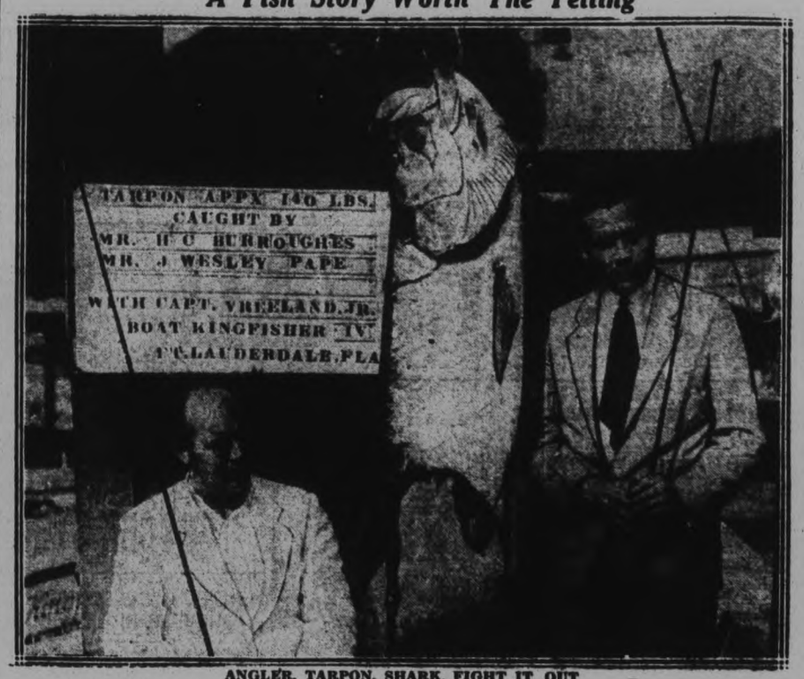
Senator Brookhart, Republican, Iowa, called the Banking Committee together. Its action was unanimous.

Brookhart spoke of reports of a "systematic bear raid" on the exchange, and referred to complaints received against foreign attacks on United States currency. Walcott declined to comment.

Guards Foil Attempt To Dynamite Bridge

CHANGCHUN, Manchuria, April 9 (A.P.)—Chinese railway guards of the Chinese Eastern Railway frustrated an attempt to dynamite the big railway bridge on the Sungari River near Laouhaokou to-day, half way between Changchun and Harbin. The guards surprised several men, believed to be Russian Whites, setting six sticks of dynamite under the bridge. A fight followed in which one of the dynamiters was killed. Another was arrested and the rest escaped. One of the guards was killed.

A Fish Story Worth The Telling



ANGLER, TARPON, SHARK, FIGHT IT OUT

A terrific battle between an angler, a huge tarpon and a hammer-head shark at Fort Lauderdale, Florida, recently resulted in the shark and fisherman sharing the spoils. With J. W. Pape, Cincinnati (left) as a companion, H. Burroughs of New York (right), son of H. R. Burroughs, Toronto, hooked a large tarpon just south of the harbor and played it for some time in the darkness. Suddenly he felt a terrific strain on the line, and swinging the spotlight out over the water, saw a big hammerhead attacking the tarpon. Burroughs reeled in and got half his fish, the shark keeping the section from the dorsal fin back. The section landed weighed 80 pounds, and the total weight was estimated at 140.

OSHAWA PASTOR REGRETS ACTION

Rev. C. E. Cragg Acknowledges Writing Anonymous Letter Slandering Minister.

MAKES RETRACTION.

OSHAWA, April 9.—Acknowledging that he had written an anonymous and slanderous letter regarding Capt. the Rev. Ernest Harston to the secretary of the Glebe Road United Church, Toronto, Rev. C. E. Cragg, pastor of King Street United Church, created a sensation in local church and ministerial circles when he published a retraction and apology locally yesterday. The retraction and apology was published by G. D. Conant, solicitor for Capt. Harston.

The published apology reads: "I, Rev. Charles E. Cragg minister of King Street United Church, Oshawa, Ontario, do hereby admit that I am the author of an anonymous letter sent to M. Ernshaw, the recording steward of Glebe Road United Church, Toronto, Ontario, and dated February 9th, 1932, in which I made slanderous statements regarding Rev. E. Harston of Simcoe Street United Church, Oshawa.

"I further most sincerely apologize to Mr. Harston for my unbrotherly and unchristian action and fully retract all slanderous statements made in the letter knowing now, as I do, that they are false and without foundation. I also agree, in so far as it is possible to undo any mischief I have done and to remedy the grave injustice done to Mr. Harston for which I am responsible."

Circumstances surrounding the extraordinary affair in local ministerial circles are being closely guarded by friends of both parties. Both ministers are pastors of United churches in the city, two of the three largest churches in Oshawa. The press is informed that both men were seeking a call from Glebe Road United Church, Toronto, which has since extended a call to another Oshawa pastor.

The letter containing the slanderous statements regarding Capt. the Rev. Harston was posted to M. Earnshaw, recording steward of Glebe Road Church, Toronto. The letter was posted in Whitby. Local church officials and lawyers connected with the case refuse to divulge how the identity of the writer was discovered, but the press was informed that the handwriting was recognized. The apology, published locally yesterday, signed by Rev. C. E. Cragg, was witnessed by Rev. Charles D. Daniel, of Peterborough, and Rev. J. S. I. Wilson, president of the Oshawa Ministerial Association.

Mexico has just placed export duties on alligator skins.

TREE CUTTING IS DISCUSSED

Explanation is Given by Reeve Mann for Unauthorized Cutting of Trees.

DAMAGES WITHDRAWN.

Explanations and apologies in connection with the unauthorized cutting of trees on certain sections of a suburban area and county road in Smith Township were yesterday afternoon accepted from Reeve Allan B. Mann at a joint meeting of the Suburban Area and County Roads Commissions. The question of damages was withdrawn.

It appeared that Mr. Mann, as Reeve of Smith Township and in the absence of a county road superintendent, had given authority to R. S. Slater to cut trees adjacent to his property on one of the suburban roads. He had also authorized the cutting of certain trees on the 8th Line of Smith.

Called to task at the meeting yesterday, held under the chairmanship of Warden W. H. Montgomery, Reeve Mann made an unreserved apology and stated he had acted in good faith. When the Suburban Area Commission had billed Smith Township for $50, the assessed damage caused by the removal of the trees, Reeve Mann had asked that the bill be transferred to himself.

It was the unanimous feeling of the meeting that Reeve Mann should not be asked to pay the bill, as it was realized that he had acted with the most honest intention, but it was also considered that some action had been necessary to prevent the unlawful cutting of trees.

Frequent reference was made during the course of the meeting to the great fondness for trees which had always been exhibited by the late Duncan Macfarlane.

County Road Superintendent E. A. Chalmers and the chairman of the two commissions were authorized to procure the necessary graders for use on county and suburban roads.

It was further decided that arrangements would be made with one of the local oil companies to supply the county with gasoline in bulk and to install a pump in the yard at the County Buildings so that the gasoline used might be measured, in order to collect from the Government the rebate of 6 cents per gallon.

HUNT FOR BABY AT STANDSTILL

Norfolk Intermediaries Arrive at Point Where Next Move is Kidnappers.

SURE OF SUCCESS.

NORFOLK, Va. April 9.—One month of service as intermediaries between kidnappers and parents today found three Norfolk men waiting hopefully for some development that may lead to he recovery of Charles Augustus Lindbergh, Jr.

It was one month ago to-day that John Hughes Curtis, contact man for the negotiators, was approached by a man who represented himself as an agent of the kidnappers. To-day, after two contact trips to unannounced destinations and two conferences at the Lindbergh home, Mr. Curtis and his associates, Rear Admiral Guy H. Burrage, retired, and the Very Rev. Dean H. Dobson-Peacock, former Canadian rector, said they had arrived at a point where further developments were awaited.

The three men have veiled in deepest secrecy their plans for pressing the negotiations toward a conclusion. Admiral Burrage, serving as spokesman, has stated that their efforts are progressing as rapidly as possible and that the three have an unshaken faith in their clue.

Moving Picture of War is Blamed For Veteran Taking His Own Life

BROCKVILLE, Apr. 9 (C.P.)—When an ambulance bearing John A. Wilkie, aged 44, of Cardinal to the general hospital here reached that institution late yesterday morning it was discovered that Wilkie had died enroute of wounds in the throat believed to have been self inflicted. There were two attendants in the ambulance, while a physician followed in his own car. Dr. C. F. McPherson, coroner, Prescott, conducted an investigation and decided that an inquest was unnecessary. Wilkie was employed at the plant of the Canada Starch Co., as a night watchman and leaves a wife and one daughter. He returned from work early this morning, conversed with members of his family and then went upstairs and cut his throat with a razor. Relatives believed that he had been depressed by seeing a moving picture of the war, in which he had served and had been gassed, as well as by the recent gassing of a fellow employee at the starch works through the explosion of a tank of chloride gas. He was a native of Birmingham, England.

HAIG ACTION IS DISMISSED WITH COSTS

Chief Constable G. C. Bromley Charged With False Arrest, Trespass and Assault.

AT CAMPBELLFORD.

Plaintiff Had Been Convicted Twice Under Infractions of L. C. A.

CAMPBELLFORD, April 9. (By Examiner Staff Correspondence).—"Dismissed with costs" was the decision of Judge E. C. S. Huycke in Division Court, Campbellford, yesterday after listening for two hours to an action brought by George W. Haig of Campbellford against Chief Constable G. C. Bromley for false arrest, trespass to person and assault. On the plea of N Alex MacColl of Campbellford Council for the defence the charge of false arrest was ruled out by His Honor, the counsel for the plaintiff, G. N. Gordon, K.C., of Peterborough agreeing.

The case, which created a great deal of local interest and packed the court room, was the outcome of a personal and house search by Chief Bromley of George Haig, the result of which a small quantity of wine was found in his house which government analysis have reported contained 7.39 of alcohol.

Giving evidence Haig stated that on January 16 of this year he was in Abernethy's barber shop, Campbellford about 9.30 a.m., other customers being present. He alleged that Chief Bromley entered and asked him (Haig) what he was saying about him (Bromley). Chief Bromley then made a dive for him, caught him by the coat, pushed him against the wall and searched him. He did not know what

Farm Stock Prices Are On Up Grade

CAMPBELLFORD, April 9 (Examiner Staff Correspondence). — A distinct rise in the prices of farm implements and stock is noted in a check-up of sales in this district. At the farm sale of William Gillespie in Percy Township held on Thursday, Holsteins, of which ten were sold, brought as high as $39.00 apiece, while one pair of horses were sold for $260 cash. Farm implements also sold good, and prices registered an up-grade. J. R. Batisby of Campbellford was the auctioneer.

NEW RADIO TELEPHONE SUCCESS SAYS MARCONI

SANTA MARGHERITA, Italy, April 7 (C.P.).—Guglielmo Marconi, who announced yesterday that he had made successful tests of a new short wave radio telephone, disclosed to-day that he is turning his inventive genius to television.

I expect soon, he said in an interview, to be able to see my family in New York while I speak with them by wireless telephone.

Yesterday's short-wave tests, he said, were conclusive and important because they were so much more definite than previous trials. The British warship Gloria, anchored off the coast, failed to interrupt or intercept his transmission, the inventor said.

It should be useful, said Signor Marconi, for trench communication in time or war and for averting ship collisions.

SHIPPING BEGINS ON GREAT LAKES NEXT FEW DAYS

Opening of Navigation Provides Work for Approximately 25,000 Men.

PORTS ACTIVE.

Upper Lakes Ports Free of Ice—Vessels Running at Brockville.

TORONTO, April 9. — (C.P.)— The hoarse bellow of steamboat whistles will be heard on the Great Lakes within the next few days. Work will be provided for approximately 25,000 men. Insurance rates go into effect on April 15, and within a week, navigation will be in full swing.

Sailors, stevedores and train crews are already feeling the effect of the pre-season activity. Hundreds of them, laid off when things were slack and when the ice came last fall, are being called back to work. Bright with paint and polished brass work, Canadas infant fleet is ready to move.

There is ice at various harbors and ports, according to a survey conducted by the "Canadian Press" this week. Fitting-out crews, their preliminary work completed, are adding the finishing touches. Lights are gleaming along the waterways. Buoys are in place. In optimistic mood crews are waiting.

Ice Going at Soo.

From Sault Ste. Marie comes the report that mild weather and showers have rotted the ice. Mud and Hay lakes, below the Soo, are clearing. The St. Mary's river itself is still partially blocked with ice, but the ice is moving out. Above the Soo, no ice can be seen. Around White fish Bay, however, there are some fields.

No ice remains in the Bay at Fort William and Port Arthur, and every elevator is available for boats. There is little expectation

DOCTOR RISKS

(Continued from Page 1)

months previously, and this was the only connecting between the loggers and the nearest community, the hamlet at Lower Landing, where several houses stand.

Through the deep snow, the horse climbed, but eventually, the camp was reached. The physician, stiff and benumbed almost fell from the horse. Then he was told his long journey had been in vain. Nelly Wagner, of the village of New Canada, about 30 miles away, a member of the logging crew had been suddenly stricken. Dr. Mareus arrived only a few minutes after the doctor's horse stumbled into the clearing made for the logging camp, the final half of the horseback ride having been made in the darkness. The physician had to remain overnight at the camp, and in the morning accompanied the body, the latter on a horse drawn sled, to Lower Landing.

Catarrh Causes Head Noises and Deafness

This Method Opens Clogged Nostrils and Relieves Catarrhal Deafness.

Few people realize what a serious disease catarrh really is. Deafness and head noises that drive the sufferer nearly frantic are frequently due to this insidious complaint. Unchecked this disgusting, dangerous ailment often destroys smell, taste and hearing, slowly undermines the general health. Its neglect may make you a wornout catarrhal wreck.

As catarrh is a disease of the blood, the only real relief comes from treating the blood itself. So go to your druggist for an ounce of Parmint (Double Strength). Take this home and add to it ¼ pint of hot water and a little sugar. Take a tablespoonful four times a day. Drive the catarrhal poisons from the system by treating the blood and the disease itself must vanish. Parmint has proved successful in so many cases because it acts directly on the blood and mucous membrane.

Life will be much more worth living if you can breathe freely again, hear plainly, smell, taste, and arise in the morning refreshed and strong, with head and throat free from phlegm. For your own sake give Parmint a trial—and with your whole system crying for relief from catarrh you should start Parmint treatment now.

"This Sewing Certainly Gets on My Nerves

It makes me cross and irritable and I can't sleep"

"I don't know why it is but I always seem to get run down at this time of year. Perhaps I should not blame it on the sewing but it seems to be the last straw that puts me under."

"Why don't you use Dr. Chase's Nerve Food?"

"Would that help me, do you think?"

"I don't think anything about it, I know it will. It has never failed to put me on my feet when I get run down, nervous and irritable and I know dozens of women who will tell you the same thing."

"I believe I will try it. I have often heard about it but never used it myself."

"Well, if you will take my advice, you will get six boxes and use it all without missing a single dose. If you're not an entirely different person by that time you can blame me. I say six boxes because many people make the mistake of expecting their nerves to be restored by a box or two, which is ridiculous."

"Well, all right, I'll do that."

"If you do, I know how you will thank me for this advice."

Dr. Chase's Nerve Food feeds the nerves back to health and vigor. This is Nature's way—the only sure way in which the nerves can be fully restored. It has proven effective in so many thousands of cases that it is not likely to fail you.

Dr. Chase's Nerve Food

enriches the blood and restores tired, sleepless nerves

DR. CHASE'S NERVE FOOD

A FREEZE AND A THAW

THE 7:23 was "my" train. It got me to the city at just the right hour for commencing my evening's work. It is immaterial what I do, although part of my job is to furnish copy for the patient compositor.

The 7:23 also appeared to be "her" train, she being a demure little person of uncertain age, who nightly traveled cityward the same as myself. Her clothes were not cut according to the latest fashion, but their quality was unmistakable. Unmistakable also was the quality of her smile, which was singularly winning, together with the cheerful optimism with which she beamed alike upon man, woman or child, especially the child unfortunate enough to be traveling at that hour instead of sleeping cozily at home.

My first conversation with her occurred during a bitter cold week, specifically on a Friday night, when the car was teeming with youth en route to a school championship hockey match. As I slid into the seat beside her, she gave me an amused glance.

"Is it possible that we were ever as important as they?" she questioned.

"I'm sure we were never so omni-present as they," I returned, somewhat ungraciously, I admit, as one of them exuberantly swung an imaginary hockey stick, which, if real, would have soundly clipped the top of my head. The net result, however, was a forward pass at my hat, which suddenly skidded over my left eye.

"Sorry," airily spake the owner of the offending arm.

"You ought to be," I grumbled, as I straightened my headgear.

At that moment the conductor was upon us. Neither my seat mate nor I was ready for him. She was deft-handed, however, and speedily produced her ticket. I, being slower, made clumsy work of extracting mine from my pocketbook.

"Sorry," I murmured apologetically, smiling up at him.

There was no answering flicker of so much as an eyelash as he turned an impassive face toward the people across the aisle. I felt as though someone had dropped a handful of snow down the back of my neck; and I probably showed it, for the Little Lady said with amusement: "Don't mind him. He's always like that. I've been giving him the sunshine of my smile every night for three months, but I've had no success at thawing his frozen countenance. I should think," she continued, "that he might be a great asset in warm weather, for he seems to chill the car when he enters it."

I agreed, somewhat absent-mindedly, for I suddenly remembered that "Sorry" of the animated young windmill that had knocked my hat over my eye. I tardily, and somewhat guiltily, wondered if . . . But probably he hadn't expected me to answer. I glanced up. At that moment he glanced down. I smiled. He grinned. The whit flag waved and all was well.

Within the next five minutes the train pulled into the station, and, as we surged toward the door, the Little Lady remarked: "Perhaps I shall see you to-morrow night. I leave the library a bit early during the winter months, as the next train does not connect with my bus."

"I shall look for you," I assured her heartily, as we parted.

The following night the train appeared deserted as I stepped aboard. There were no end of vacant seats, but I hunted until I found the Little Lady at the end of the forward car. She nodded brightly as I seated myself beside her. "This is New England weather with a vengeance, isn't it?" she inquired.

"It certainly is," I agreed, as a blast of balmy air invaded the car through an open window. "It doesn't seem possible that the thermometer could rocket to such heights in so short a time. It's warm enough to thaw the very stones."

She laughed. "It might even thaw our conductor," at which we both laughed, for the fancy was amusing. But when he appeared the air grew chill, as usual. We turned up our coat collars and continued with impersonal topics of conversation.

As we entered the "yards," our conductor came and sat down in the seat ahead of us, spreading out his collection of tickets and coupons as conductors are wont to do at the end of a run. Having arranged them to his satisfaction, he turned abruptly in his seat and addressed us.

"Barring a few short cold snaps, it's been a pretty fair winter, hasn't it?" he inquired.

"Yes."

"Oh, yes, indeed," we managed to gas out, thoroughly taken by surprise.

"It's been wonderfully easy on the coal bins," I further contributed, determined that conversation should not lag, even at the price of banality.

With a roar unheard by any in the car save the Little Lady and me, the iceberg cracked up. Our conductor smiled upon us. "I guess I hit it about right," he chuckled, snapping an elastic band around a bunch of tickets. "'Bout a month ago," he explained, "an oil-burner man offered to install one of his burners on trial. I needn't keep it if I didn't like it. Well, the weather was warm, but I told him to go ahead, not expecting to get any sort of a fair test from it. Then this last cold snap came on. Thermometer went down ker-plunk, and we got the coldest weather we'd had the whole winter." He chuckled again. "That heater sure had a chance to show what it could do, and the way it behaved sold it to me. Never had my steam pipes so hot in all the years I've had 'em," he concluded.

The Little Lady leaned forward eagerly. "You say you have steam?" she asked.

He nodded assent.

"I have hot water, a big house... one of those old-time, rambling sort, and a coal heater," she said, "Would an oil burner fit that combination?"

"Sure thing," he answered. "Keep you warm as toast."

With a few more questions which each of us hoped might sound intelligent, we prolonged the conversation until the train came to a standstill in the station. As we descended the steps, our conductor gave us both hands in assistance instead of the more usual perfunctory peck at the elbow.

"Good night," we chorused.

"G'night," he answered.

"Well," observed the Little Lady as we walked down the platform, "wasn't he pleased to think he got the jump on the weather?"

"Yes," I agreed, as we parted at the entrance of the Elevated, "that belated winter freeze certainly occasioned a genuine spring thaw."

The Gift Of Love

FEAR God, through all my life,
Please guide and lead;
Give Thou to me each day
The things I need.
And if for added blessings
I may pray,
I'd like to look up earnestly
To Thee and say:
"Of all Thy precious heavenly gifts,
Dear God above,
Please send to me—to lonely me,
The gift of love!"

—Cora Baker Hall.

Always The Best

IT is my joy in life to find
At every turning of the road
The strong arms of a comrade kind
To help me onward with my load.
And since I have not gold to give,
And love, alone, must make amends,
My every prayer is, while I live,
God make me worthy of my friends.

Opinions

A MAN should always have this rule in readiness; To change thy opinion, if there is any one at hand to set thee right and move thee from any opinion; but this change of opinion must proceed only from a certain persuasion as of what is just or of common advantage or the like, not because it appears pleasant or brings reputation.—Marcus Aurelius.

New Year

A FLOWER unblown: a Book unread:
A Tree with fruit unharvested:
A Path untrod: a House whose rooms
Lack yet the heart's divine perfumes:
A Landscape whose wide border lies
In silent shade 'neath silent skies:
A wondrous Fountain yet unsealed:
A Casket with its gifts concealed:
This is the year that waits
Beyond to-morrow's mystic gates.

—Horatio Nelson Powers.

STILL through the clover skies they come
With peaceful wings unfurled;
And still their heavenly music floats
O'er all the weary world.
Above its sad and lowly plains,
They bend on quivering wing;
And ever o'er its Babel sounds,
The blessed angels sing.

• • •

THERE is no civilization complete which does not comprehend in is sphere of charity and compassion the creatures of God who are voiceless and defenceless. — Sir Robert Gower, British M.P. and chairman of the Royal S.P.C.A.

• • •

There is no cosmetic for homely folks like character. Even the plainest face becomes beautiful and noble in radiant moods.

There are voices which we hear in solitude but they grow faint and inaudible as we enter into the world.

• • •

We treat God with irreverence by banishing Him from our thoughts, not by referring to His will on slight occasions.

• • •

Prayer in its essence is not so much the expression of our desire for things at all as of our desire for God Himself.

ERRORS.

Errors like straws upon the surface flow;
He who would search for pearls must dive below.

—Dryden.

WASTED TIME.

I cannot afford to waste time, there is so much to be done that I ought to do, and so much to be learned that I should know.—Martin.

'Tis only noble to be good.

A Chat With Young Peterborough

ON THE SUNDAY SCHOOL LESSON FOR APRIL 10.

YEARS ago, a friend of mine was standing on the deck of an ocean steamer, listening to the talk of the captain. Suddenly a steward came up to him, and said that a hostler, in charge of some horses that were on board, had thrown a lighted match into the straw of their stalls, and that he had just had a big job putting out the blaze. My friend said that captain turned pale, rushed down to the place, seized the offender, dragged him from the stalls, and had him put in close confinement for the rest of the voyage. And all for throwing a lighted match! Yes, just because that lighted match might have meant the loss of the ship a thousand miles from land, and the drowning of all her passengers and crew.

The captain hated fire. The fire that God hates is sin. It begins in very little ways, but each sin brings another one after it, and they increase so fast you can't keep it down. A flake of snow is a pretty small thing, but when snowflakes begin to come down they can stop the biggest train, and tie up all the traffic of a countryside or city. You see, that first sin that our lesson tells about wasn't such a little thing after all. There was a little rhyme we used to say:

'Twas but a little drop of sin
We saw this morning enter in;
And lo, at eventide, the world is drowned!

Every sin hurts God more than it does the sinner or the one that is sinned against. The prodigal son discovered that. He said to his father, "I have sinned against heaven and in thy sight" He had not only hurt himself, but he had hurt his father and his God. God is everywhere, and everything we do touches Him. It's just like a telephone exchange. Every conversation, no matter how many are going on at the same time, passes through the central exchange. So God feels every sin, for it passes through His heart. The first sin began in a very small way,—listening to a temptation, then a doubt, then a wrong desire, then disobedience, and the thing was done. Let us be on our guard against the little things and remember that Satan's pills are always sugar-coated and nice to look at, but they do a lot of harm if you take them.

Lesson Text: Genesis 2: 15-17.

Golden Text: Watch and pray, that ye enter not into temptation.—Matt. 26:41.

Daily Bible Readings: M. Gen. 3: 1-12; T. Gal. 6: 1-10; W. Jas. 1:12-18; T. I Tim. 6:1-10; F. Eph. 6:10-20; S. Heb. 2:13-18; S. Ps. 1.

SATURDAY, APRIL 9, 1932

C.N.R. EXECUTIVES.

Discussion in regard to the annual report and estimates of the Canadian National Railways before the special committee of Parliament has brought out some interesting disclosures.

It has been argued that such information should not, in justice to the railway management, be made public, but while there is some weight in that contention, it should not be forgotten that many million dollars of public money have to be expended on the Canadian National Railways every year, and the people, therefore, have some right to know the details of how it is being spent.

It will be somewhat of a shock to the public to learn that in 1930 the personal expenses of C.N.R. officials reached a total of two million dollars, and that the annual income drawn from the lines by Sir Henry Thornton is $148,000.

These expenditures may possibly be justified, but in a period when the country is being hard hit by taxation and railway revenues have sadly shrunk, they appear to be large; at any rate, there does not seem any reason why the people who pay the bills should not learn the facts and be informed of what is going on.

DANGEROUS PRACTICES.

The Board of Railway Commissioners has just issued another list of dangerous practices of motorists, drivers of other vehicles and pedestrians at protected railway crossings in the hope that its publication will help to arouse the public to a realization of the need of greater care.

According to the board's bulletin, the Canadian National Railway lines from November 1, 1931, to February 29, 1932, show thirty-six cases where there was danger at protected crossings due to the negligence of those using the crossings.

The Canadian Pacific Railway (Western lines) from July 1, 1931, to December 31, 1931, and Eastern lines from November 1, 1931, to January 31, 1932, show a total of one hundred of such cases.

There is a total of 136 cases in which people by their own sheer carelessness placed themselves in a position of danger at crossings where warning devices had been placed for their protection.

Only one Peterborough case figures in the latest list, which is a considerable improvement over earlier reports.

It concerned a motorist who on November 26, 1931, approached the C.N.R. crossing at Charlotte street in a careless manner, although the roads were in bad condition.

The dangerous practices reported by the commissioners are a revelation in the light they throw upon the apparently reckless abandon with which many motorists operate their cars.

PENSION MACHINERY CLOGGED.

It is not surprising to learn that members of all the parties in the House have been clamoring for a readjustment of the pension system in order that more prompt consideration may be given to the claims of Canada's war veterans.

When charges are made that the pension machinery is clogged with 30,000 cases, and that the delay and confusion has been added to by reason of the fact that tribunal decisions favorable to the applicant had been appealed, the need for some improvement in the present situation should be manifest.

The system in force at the present time was inspired by representatives of the veterans themselves, and was passed during the King regime with the unanimous approval of the whole House, so that no blame can be attached to Parliament nor to the present or past Governments for the plan itself, which was launched in good faith and in the hope that it would prove of material benefit to disabled ex-service men.

It has, however, not worked out as was hoped, and the time has come for a revision of the machinery and for a less cumbersome and a speedier system that will give the veteran the consideration he is entitled to.

This is not a political matter, and the absence of partyism during the discussion in Parliament is a hopeful sign that indicates that a change for the better may not be long in coming.

NOT SO HARD HIT.

In its news columns the other night the Toronto Star called attention to what it apparently considered the sad plight of the average Toronto married man with a family of two children and a salary of $4,000 a year.

Figures were quoted showing that this so-called "average married man" had to pay in taxes to the Dominion, the Province and the municipality nearly $600 a year, or about 12½ per cent. of his income.

Examination of the statistics used reveal the fact that the purchases of a new car, a radio, clothing and new furniture is included in estimating the sales tax and the excise tax on imported goods. The tax on Pullman berths, chair car tickets was added in; $35 in excise taxes on liquor purchased through the year taken into account; $36.40 in amusement taxes based on a visit to the movies and to a stage show once a week all year piled on to the total; $31.20 allowed for the gasoline tax, and so on down the line.

Surely, however, the Star does not expect the hard-hit farmers or the worker who is on part time or without a job at all to worry a great deal about a man who can afford at this time to buy a new car and new furniture, patronize the liquor store regularly, visit the picture house and the theatre every week, go on a holiday trip involving a Pullman "jump," and keep an expensive motor car in commission.

Hundreds of thousands of Canadians are ready to affirm that for the individual who can do all those things life is a bowl of cherries, and to declare that he should be prepared to make a sizable contribution to meet the cost of government.

The country is full of people who would be glad to pay the tax bill if they could have the income and the living standards that go with it.

IN CANADA AND THE STATES.

(Los Angeles Examiner)

How differently and how much better they order such things in Canada.

Look on this picture and on this:

In the last two years two thousands banks have failed in the United States and not one in Canada.

The last bank failure in Canada was back in 1923 and the responsible official is still in jail.

Bank presidents and directors across the border may know no more about finance than those in the United States, but they do know the law and they respect it.

An eminent American jurist, in a book on our criminal law, tells the story of two American racing men having a heated argument at a race course near Windsor. When one let fly the short and ugly word the other pulled his gun and would have fired but for the quick thinking of his companion:

"For God's sake, Jim, don't shoot—you're in Canada."

And back the gun went quickly into his hip pocket.

Canadian bank officials when tempted to go wrong probably reason in the same way.

They don't loot for the same reason that the racing man didn't shoot. They are in Canada.

When a Canadian banker goes to jail he stays there, and, perhaps, the vigorous protection of the public in Canada is the reason for that country's freedom from swindlers of the Beesemyer, Lewis, Morrissey and Fish Brothers type.

In America they are sometimes convicted and sometimes sent to prison, but they seldom spend long term in the penitentiary.

THE NEW MANCHURIA.

It is not altogether paradox to say that the manner in which Japan has gone about setting up an "independent" Manchuria may help in the long run to affirm the essential unity between Manchuria and China. To select the former infant Emperor from the Dragon Palace at Peiping for the ruler of the new Manchuria is, after all, to emphasize the ancient connection. There is no merit in the Japanese argument that the return of Pu Yi to the headship of a free Manchuria is only the return of the Manchus from a China where they never really belonged to their original home. There are to-day no people of Manchu blood in Manchuria; but of its 30,000,000 people more than 97 per cent. are Chinese. The rest comprise something less than a million Koreans and about a quarter of a million Japanese. This bond of race and language promises to remain unaffected by any governmental forms that may be imposed upon Manchuria by what is virtually the suzerain power at Tokyo. Political ties between Manchuria and China have been of the very slightest, and administratively there has been no connection at all. The wrench of separation, to the extent it is felt at all, is sentimental.

For the future it can only be said that the significance of the present move in Manchuria depends almost entirely on developments in China. If the more than four hundred million people of the eighteen provinces succeed in finding the secret of national unity and strength, it is hard to see how the millions of Chinese in Manchuria can be kept from gravitating to that great central mass. In this, too, there would seem to be an answer to the common prediction that what is now going on in Manchuria is a step toward the complete absorption of the country within the Japanese Empire, after the model of Korea. But the difference is that when Japan took Korea she took over the whole Korean nation. For every Chinese in Manchuria there are fifteen of his blood south of the Great Wall, and for racial partitions on such a huge scale it is too late in the history of the world.

In the nearer future the movement of events in Manchuria may turn out to have a more important bearing with respect to Soviet Russia than to China. For the latter the realities have not perceptibly changed. Formerly it was an independent Manchurian war lord ruling at Mukden pretty much after the wishes of the Japanese. Now it is a vassal Manchurian State more obviously under Japanese guidance. But for Soviet Russia it is a significant change in the fact that Japanese influence, instead of being confined to the southernmost of the three provinces, now bids fair to assert itself throughout Manchuria. It is not without meaning that the capital of the new Manchurian State has been moved from the historic Manchu seat at Mukden and carried 200 miles further north to Changchun, where the Japanese and Russian railway lines meet, and lying in the province of Kirin with its predominantly Russian city of Harbin. It is hard to see how the Russian sphere of influence in North Manchuria can fail to take on a paler outline within the confines of a Manchuria set up and policed by Japanese troops.—New York Times.

EDITORIAL NOTES AND COMMENT.

The public at least gets one break. Budget or no budget, the price of tea has dropped ten cents a pound.

It looks as if all the hockey trophies worth having will rest in Ontario during the coming summer.

"Above all," says the Globe, "every spending authority ought to realize that the cost of government should be somewhat proportionated to population."

Now that we know what we have to pay, the only trouble will be to get what is needed to pay it with.

Mr. Ferguson has doubtless had a very pleasant visit home, even his trip did not throw a great deal of light upon John Aird, Jr., and his $125,000.

An economist states his opinion that the value of land will not return to normal for ten years at least. Nor the value of an economist's opinion for that matter.—Alliston Herald.

SUBURBAN HEIGHTS—CLEANING UP THE YARD

BY GLUYAS WILLIAMS

(Copyright, 1932, by The Bell Syndicate, Inc.)

News of Our Own Village

The budget was brung down at Ottawa, east of here, Wed., and the general opinion seems to be Ed. Rhodes didn't overlook much that was taxable.

* * *

Anyways the school trustees must be busy. They wasn't enough of them out for School Bd. meeting Tues. nite to go ahead with affairs, so they're going to try again Mon. nite.

* * *

The Kinsmen's Club entertainment in the Collegiate Hall Fri. nite was a great treat although some thought the costumes was a bit old-fashioned. Can't expect up-to-the-minute clothes with a depression on, say we.

* * *

The council held a short session at the town hall Mon. nite, the lads getting their money easy owing to not much business being to the fore.

* * *

No circuses is reported heading this way as yet, but the village Rotarians is going to hold their outdoor carnival on the Market Sq. in June, so some amusement is assured, say we.

* * *

Bill Lytle, our vigilant radio inspector, aint going to be on the job after the 15th of this month, so it looks like the radio fans will hafta hunt down interference by theirselfs from now on. What do we get for our 2 bucks we asks of Dick Bennett's Govt.

* * *

Measles is still on the rampage in the village, causing a run on placards, tacks and such and much wear and tear on the dogs of Charlie Stapleton, our sanitary inspector.

* * *

A sales tax has been clapped on ice cream, but your scribe aint been able to make sure as yet whether this means a smaller scoopful in the cones this summer or not.

* * *

Band concerts won't begin in the park just now, according to reliable information secured exclusively by this great family journal.

* * *

Spring is evidently upon us, Walt Stocker having dug the Keep off the Grass signs outta the moth balls and put the same in the park.

* * *

They aint been no robins reported at Sir Hank Drayton's filling station as yet.

In Lighter Vein

Knew It

In a local court a wee laddie was standing in the witness box with his mouth wide open.

"Sonny," said one of the court officials in an audible whisper, "ye're standin' wi' yer mouth wide open."

"I ken," was the reply "I opened it masel'."—Edinburgh Evening Dispatch.

The Usual Procedure

Diner: "You haven't given me my usual two pieces of steak."

Waiter: "That's right, sir. I'll bring it right back to the cook to cut it in half, as he usually does."

An Achievement

City-bred: "Your method of cultivating your crop is old-fashioned. I'd be surprised if you get more than 10 pounds of apples of that tree."

Farmer: "So would I. It's a pear tree!"—Cambridge Chronicle

Sawlog production in British Columbia during 1931 amounted to 1,-71,278,000 board feet compared with 2,331,78,000 feet in 1930.

FRANCE DIMMING HER GREAT WAR GLORY

By H. W. L. MAHOOD

France has not added to her world prestige since the close of the Great War. Her bitter jealousy, and her resentment, and vindictiveness, are apparent. Every means to hinder, and embarrass Germany has been eagerly seized. France and Japan are the two distributing factors in the Geneva Conference. The great stumbling block in the way of disarmament, at present as ever, is France. France has a first demand. It is security. Security in the French sense is not compatible with disarmament.

To France security means sufficient strength to guarantee her against attack from her enemies, specifically from Germany. Whether that strength be in her own armed forces, or in such international army as she has already proposed makes little difference, just so it exists somewhere. France is alone in this attitude, but there can be no disarmament without her, so it must be met.

Germany on the other hand, almost completely disarmed by the peace treaties, is insistent, on equality, which would be of course opposed directly to French ideas of security. The rest of the nations are inclined to support Germany. They mean by equality not necessarily, exactly numerical equality, but equality of treatment; if Germany, for instance, is forbidden to possess certain kinds of arms, they must be taken away from the other countries also. Without the French objections, probably, some degree of actual limitation of armaments could be made. The primary problem before the Geneva Conference at this writing is to find a formula which will relieve French nervousness without involving either continued inequality in arms, or the maintenance either by single states or collectively of heavy armaments. That some time an unselfish concentration on the problem of evolving such a formula, will be necessary, is plainly apparent.

Just as important as disarmament, or reparations is the Danubian Basin problem. Take a look at the Danube Basin. Therein are situated five nations. They are all intimately related to Germany. France has a profound interest in them. It is because she fears Germany. The nations are Czecho-Slovakia, Hungary, Jugoslavia and Austria. All of these nations are in dire financial straits. They are on the verge of collapse. Nowhere in the world is there greater distress. Tardieu, of France proposed to these nations a method of possible recovery. First, he made a loan, or induced France to make a considerable loan to tide over the government of Czecho-Slovakia, and another loan to Hungary. Then, proposed that these Danubian countries adopt a preferential Customs Union. He made it plain that Germany must not be a party to the Customs plan. He was going forward with expectation of accomplishing his purpose when the news reached the ears of Britain and Italy, and Germany. That Tardieu could not succeed with his policy was soon evident in the face of stout opposition of these nations. The sympathy of these nations was with Germany. Italy and Britain recalled how a little more than a year ago how France spoiled a plan of Germany and Austria, when they were about to form a customs union. France though she saw in the customs union of these two nations a menace to her future. Her protest was so vigorous that the plan was dropped.

The attitude of these greater nations of Europe has sent the Danubian nations to consider well any further movement along that line. Benes of Czecho-Slovakia is the outstanding statesman of the Danube valley. He has taken the position that any method of help for the Danubian nations must not be aimed at any nation; and that it must have the approval of the four great European powers. He thinks that a Customs Union the most feasible method of recovery. He declares whatever of an economic distress the people may have to meet that the economic independence of these Central nations must not be sacrificed.

Ramsay MacDonald of Great Britain has asked for a conference of the four nations: Great Britain, France, Italy and Germany, to meet in the very near future to consider a way to rehabilitate these Danubian Valley nations. This meets the views of Benes of Czecho-Slovakia. This conference will have much to do with the success of the Geneva disarmament conference.

Tweed Council Asks For Grant Reduction

TWEED, April 9. — (Examiner Correspodence.)— At the monthly meeting of the village council, T. S. Rath reported that a waterworks bond in favor of the C.O.C.F. had been lost or mislaid. The Council promised any possible assistance in the matter. The clerk was instructed to write to the secretary of the Beaver Fire Company proposing a slight reduction in their grant on account of waterworks installation.

The following accounts were ordered paid:

Pierre Bastine, snow shovelling, 50c.; John Provost, snow shovelling, $1.50; James Morrison, snow shovelling, $17.00; Gerald Simmons, snow shovelling, $2.50; George Duggan, snow shovelling, $3.75; A. Godfrey, work on waterworks, $10.75; Fred Thompson, snow shovelling, $10.75; Rashotte Bros., account, lock-up, $1.50, W. W., $17.50—$19.00; C. H. Myles, account, $5.25; Wm. Vilneff, dump grounds B. of H., $9.00; Hastings County indigent accounts, $78.87; T. H. Franklin and Co., auditors, $100; D. W. Sills, assessor, $50.00; M. McAvoy, assessor, $50.00. Total $360.85.

LIFFORD LINE.

Mr. Morton Mills drove to Omemee on Monday and spent the day with relatives there.

Mr. Fergus Porter of the 14th, was a business visitor on Lifford Line on Wednesday.

Miss Emma Lathangue and her brother Edward, were recent guests of Mr. and Mrs. Melvin Lathangue, of Ballyduff.

DISTRICT NURSE

by Faith Baldwin

(Continued From Yesterday)

He set his square stubborn chin but it trembled. Gee, he liked Miss Ellen. She was pretty. She could laugh with him, she was a swell dame. But Bartlett came first. Somehow, he'd have to let Bartlett know.

He didn't like O'Conner. He'd heard things about O'Conner. If Miss Ellen didn't have sense enough to see the difference between the two men—

Frank, as Bill was permitted to call him, was crazy about her. Bill realized dimly that perhaps his own relationship with his idol was dictated, in part at least, by his hero's desire to "stand in good" with Ellen. Gee, this love stuff was the bunk. It did things to you. It would, he feared, "do things" to Frank. Gee, he hoped he'd never fall in love. Dames were all alike. Two-faced. Not for him the soft deceptions of the gentle passion.

He swore, feeling that this was the appropriate occasion, although Frank had pointed out to him that language could be expressively employed without the embellishments of picturesque profanity.

Bill spat, with accuracy, into the gutter. The warmth had departed from the new suit, the radiance from the shirts, the glamour from the ties. The shoes didn't shine as they should. He stubbed a toe deliberately against the curbing. The thought of horsehide coat, of sweaters, of wool socks with gay turned down tops, of actually the faintly effeminate touch of pajamas and handkerchiefs and gloves failed to move him for the first time in twenty-four hours. Frank was a good guy. He oughter be put wise.

This was the late autumn when certain wiseacres decided that the abortive launching of the Eugenie silhouette had been a base secret scheme of the United Taxi Drivers because of the inability of Eugenie-clad women to travel in subways or cross crowded streets with any degree of safety or suitability. Eugenie, a wistful ghost, departed by degrees. Ellen, looking over a newspaper and regarding the advertisements, asked Carolyn Mathers in the sub station office, "Are you a mind reader or an astrologer?"

Carolyn, her brow wrinkled over her reports, glanced up from her desk.

"Neither," she replied briefly. "If I had been born with a caul or something I probably wouldn't have to struggle through my State Boards in order to become a ministering angel."

But an unimportant memory teased at Ellen's mind.

"Just the same, last spring when the talk was all Eugenie, you predicted Florentine tams or something. Here they are—Borgia bonnets for lady poisoners. How come you're so far in advance of the styles?"

"You may notice I never take advantage of my knowledge," Carolyn said, laughing. The truth is, I've two sisters. One's a stylist and one's a buyer. Gowns; millinery. They have their ears to the ground. Emily—that's the stylist—says by spring we'll be going back to padded shoulders and tailored suits. Not that that means anything to me."

Ellen returned to her own work smiling and reflective. She worked with Carolyn every day, yet although she had known vaguely that she had several sisters and brothers, she knew nothing whatever about them. How little she knew about any of her associates although she saw them, now and then, outside of work. Funny to be with people day after day and not to know, she thought.

It was the people who were in a sense complete strangers to you from whom you learned the most intimate and secret details of their curious lives, she reflected.

The telephone rang presently. It was for her. She rose to answer as Miss Renwick nodded to her. A girl's voice came faintly over the wire. "It's Gladys—Gladys Markey. Could you come see me?" asked Gladys, "I gotter talk to some one. Quick."

Ellen promised, and hung up frowning, thoughtfully.

INSTALMENT 21.

Ellen looked over at Miss Renwich, the gray hair brushed back smoothly, the sagacious unastonished eyes behind the horn-rimmed glasses, the capable clever hands. Gladys hadn't asked for her advice professionally. Or had she? In any case there might be something they could do. She went over and sat down beside Miss Renwick's desk and spoke to her, briefly, frankly. Miss Renwick nodded. They'd get together on it, she said, if the girl was willing to put her case in their hands. Meantime Ellen had a free hand to do what she could.

Ellen managed to see Gladys during the morning. Ellen found herself going dispiritedly up the stairs wondering if before Gladys were willing to follow up her impulse toward confidence the mother would interfere. She knocked and Gladys' voice said, "Come in."

She was alone, huddled near the window in a chair. The mother was not in evidence. She saw Ellen's quick glance around and tried to smile—'She's not home, she went out, she won't be back till night," Gladys reassured her.

She looked wretched. Ellen sat down beside her and asked her a few entirely practical questions.

"What are you going to do, Gladys?" she said.

"I want to get away somewhere, anywhere, until—until it's all over." Gladys told her hysterically. "I tell you I can't stand it any more. Mother nags at me all day. I've gotta get away—"

"It can be arranged, I think," Ellen said quietly. "There is a very good place. But you will have to stay six months afterwards, and work out your time. Those who can't pay have to work. The child will then be sent out for proper adoption, if you wish."

Gladys made a gesture of despair.

"What else can I do?" she muttered. "I need money." Gladys went on wildly. "If I had money I wouldn't have to stay in that place. I gotta have money. But—" She looked down at her hands. "I haven't worked since last summer," she said. "Someone said something—I was fired."

"Have you seen the man again?" Ellen asked her.

Gladys shook her head, and her disordered hair masked for a moment her expression; then she pushed it back from her forehead with both hands.

"I telephoned," she admitted after a while. "I used to sneak out and walk and walk until I got somewhere where people wouldn't be likely to know me and go into a booth." She stopped a moment and Ellen could see her, standing in the booth, sweat running down her forehead, her hands wet with it. "I called his office. There was always a girl answered on the switchboard. I'd ask to speak to him. 'What name shall I say?' or 'Who is calling?' she'd ask me. I wouldn't tell. 'He'll know, all right, let me speak to him,' I came back at her. And twice I got some one else after that. A secretary, I suppose. The second time I told her straight. 'Tell him it's Gladys—Gladys Markey,' I said, 'and he'll talk. He's gotta.' But he didn't. He was there, though. I heard her say to him—'It's some one called Gladys Markey; she says you know her.' And she comes back to the phone, 'Mr. Bartlett says he does not know you. Can you give me a message?'"

The blood rushed to Ellen's face, receded. She felt faint. She thought, how silly, as if there weren't a hundred—

She asked, pulling herself together, "Where did you meet him, Gladys?"

"In the cafeteria near where I worked. He come in one day and sat at my table. We got talking. Pass the salt, or something. You know how it is—" She laughed without mirth. "He said he hadn't never been there before. He said he was glad he come." She was slipping back into her mother's way of talking as she leaned forward, more animated, as it helped her to tell, as if in a way she were proud of telling. "He was a wiseacre," said Gladys, reminiscently. "He kept me laughing; he certainly could clown." She paused, remembering, and then went on, "I kidded him back, see? He said, 'You eat here often?' and I said, 'Sure, big boy, every day except when my car calls to take me to the Ritz.' And he laughed and said, 'You're a wise-cracker, aren't you?' And then he said—I was getting ready to go—'I'll be seeing you'."

"And then?" Ellen interrupted.

"He came back, not the next day, but the next. He told me then who he was.' Ellen made a little gesture and then sat back, waiting. But Gladys went on. "Then he started meeting me for lunch. Other places. You know, funny places downtown, where there's sand on the floor and little booths, like. He said, 'We can be quiet here.' Then he got me to go out to dinner—"

"He never came to your house?"

"Who—him? Not likely." said Gladys in sincere astonishment. "He—he's a big man. He's a lawyer—"

Ellen said faintly, "what was his name—?"

Gladys said after a minute. "I said I'd never tell. But I sort of gave myself away a while back, didn't I?" She added, after a moment, matter of factly, "Bartlett, Frank Bartlett."

Ellen thought, "It isn't possible. I'm not sitting here, in this room, listening—" It was a nightmare, it was madness. She looked at Gladys, dimly trying to see, trying to understand that the ravaged features were not what he had seen; trying to remember that Gladys had been pretty and pert; a wisecracker—

She thought she cried out—No—No. But she hadn't moved or spoken.

"Gee, you look funny," Gladys said curiously. "Do you know him?"

Ellen said slowly, "Perhaps. Are you sure? Sure of the name and—" She couldn't go on.

Gladys said impatiently, "Of course, I'm sure. You can look him up in the book. I seen his card once. The name, the address—"

"Have you written him?" Ellen asked. She thought, "I've got to get away from here, got to go somewhere and think, I must—"

"No," said Gladys, "that secretary—do you think I want every one knowing my business? I been down a couple of times, hanging around there, waiting. But I never seen him."

Ellen said, perfectly aware that she was not asking merely professional questions, aware that she had to ask, to drag out of this girl every last little detail, had to know, had to kill herself knowing. "He—said he was in love with you?—Promised to marry you?"

"Who—him?" Gladys was amazed again. "No—I mean, he said he loved me—and that some day—" She was silent. She went on while Ellen's throat grew more and more constricted with the tension she put on herself, the suicidal restraint. "He was married, see? I mean, not living with his wife, or anything. They didn't get along. He hated her, he said. They were separated—She wouldn't divorce him."

Not Frank, it couldn't be Frank. And yet—what proof had she that Frank wasn't married—separated from his wife?? Or, had he lied to Gladys? Or was it to her he had lied?

Livestock-Produce Quotations

TORONTO PRODUCE

TORONTO, April 9. (CP) — Wholesale prices on Canadian fruits and vegetables as reported to the Canadian Press by White and Co. are as follows: Apples, 6 qt. basket, 25-30c; apples, 11 qt. basket, 30-35c; beets, 11 qt. basket, 15c; carrots, 11 qt. basket, 35c; hothouse tomatoes, per lb., 30-35c; new cabbages, per crate, $3.25-$3.50; parsnips, per bag, 50-60c; turnips, per bag, 35-40c.

WINNIPEG GRAIN

WINNIPEG, April 9. — (CP) — Wheat advanced impressively in opening dealings today after undergoing a sharp setback yesterday in sympathy with the securities market. At the end of the first hour of trading prices rested 1¾-1¾ higher.

Strong Liverpool wheat quotations and decrease in the United States government crop report acted as bullish factors.

FRUITS AND VEGETABLES

TORONTO, April 9.—(CP)— The United Farmers Co-operative Co. today supplied the Canadian Press with the following quotations on produce and poultry:

Eggs, extras, doz. 14c.
Firsts, doz. 12c.
Cream, churning, No. 1, lb. 21c.
Creamery butter, No. 1, solids, lb. 21½c.
Potatoes, No. 1 in bags, 27c-28c.
Hens over 5 lbs. 14c-15c.
Young turkeys 8-12 lbs. 19c-20c.
Chickens over 5 lbs. 16c-17c.

DARROW AIMING AT SHORT TRIAL

Associate States Directed Verdict to be Sought Making Testimony Unnecessary.

"HONOR SLAYING."

HONOLULU, April 9.—(A.P.) — Lawyers here voiced hopes today for a swift conclusion of the murder trial of Mrs. Granville Fortescue and three U.S. navy men accused of lynching Joseph Kahahawai.

Montgomery Winn, associate of Clarence Darrow in the defense, said they sought a directed verdict, which would make it unnecessary for them to present testimony.

John C. Kelley, public prosecutor, said he would present his case in three days, figthing as a matter of course any attempt to link the slaying of Kahahawai Jan. 8 with an assault last September on the daughter of Mrs. Fortescue, Mrs. Thalia Massie, wife of a naval lieutenant.

Darrow has indicated he will strive to hold the two cases together, seeking justification for the slaying of the young Hawaiian in the fact he was one of five men accused of the assault on Mrs. Massie.

The trial will be resumed Monday.

So far developments have indicated Darrow's inclination toward an honor slaying defense, backed by a plea of emotional insanity. They are: Darrow's quick challenge of the prosecution's contention that the guilt of the slain Hawaiian had no bearing in the hearing; and the arrival of two alienists, Dr. Edward Huntington Williams and Dr. James Orrison of Los Angeles.

Prices Maintained In Montreal Trade

MONTREAL, April 9 (C.P.).—Despite weakness of one or two issues, prices were well maintained on the Montreal Stock Market in to-day's abbreviated week-end session. Leaders were stronger and registered small gains at the close of trading. A broad list of stocks was traded with considerable activity in late trading.

Canadian Pacific Railway stock recovered a full point at 14. Nickel advanced 1-8 at 6½. Brazilian Traction closed at 10, up ¼ on the day. Consolidated Mining and Smelting shares sold up to 41 for a gain of one point, and Steel of Canada Common firmed ⅜ to 16½.

PRICE ACTION ON STANDARD IS IRREGULAR

International Nickel and Noranda Sell Up More Than 25 Cents Each.

GOLDS ARE INACTIVE.

TORONTO, April 9 (C.P.)—Price action was mixed on the Standard Stock and Mining Exchange to-day. Volume was moderate, but price range narrow.

International Nickel and Noranda did better to-day, selling up more than 25 cents each. Eldorado also firmed, gaining above Nickel. Waite Ackerman was weak spot, dropping 11 cents to 40. Sherritt Gordon and Hudson Bay also dipped.

Golds were not very active, and price movements were confined to a narrow range. Teck-Hughes and Wright Hargraves closed higher, but Hollinger sold off. Sylvanite, Bidgood and Siscoe declined fractionally. Oils were dull. Chemical Research dropped 10 cents, while Ajax gained a cent.

RADIO LICENSE DRIVE PLANNED

Duranleau Claims Government About to Check Up on Those Not Paid.

BETTER INSPECTION.

OTTAWA, April 9. —(CP)— A drive will be held against radio owners who have not paid their licenses, the House of Commons was told yesterday by Alfred Duranleau, minister of marine. At the same time, he defended the government's action in raising the fee from one to two dollars. The extra revenue would be used to provide a more efficient inspection service across Canada and to help the exchequer in these days of depression.

While his departmental estimates were before the house, the marine minister was criticised from two sources—for doubling the license fee and for failing to provide an effective inspection service for radio owners. Liberals and Progressives criticized the increase in the license and were joined by two Ontario Conservatives, George Spotton and J. T. Sproule. The latter suggested a graded fee, based on the cost of the receiving set.

No Objections.

I think all radio listeners, said Mr. Duranleau, will contribute gladly their two dollars to help the exchequer in this difficult financial situation in which we find ourselves. A radio owner should not object to paying two dollars for a license.

Following the recent decision of the Privy Council giving undisputed control of radio to the Dominion, non-license holders would be prosecuted, said the Minister. In the two years the case was before the courts, no prosecutions were launched by the Dominion.

Estimates of the Marine Department were before the House most of the day, about $12,000,000 being passed. It was a quiet day, the slate being cleared for the budget debate opening Monday. J. L. Ralston, financial critic for the Liberals, will lead off the debate.

FINNISH YOUTH CUTS THROAT

Police Suspect Foul Play Despite Fact Lad Admits Act.

LYING ON STREET.

SUDBURY, Ont., April 9. —With his throat so badly hacked that he is unable to speak, and almost dead from loss of blood, Aner Yoki, 20, Finlander, Sault Ste. Marie, was found by Constable Emile Lafonde lying on Elgin street, near the King Edward Hotel, about 7 o'clock this morning. He was rushed to St. Joseph's Hospital, where he was given medical attention by Dr. H. C. Nash.

Though Yoki wrote on a piece of paper, in response to a question by Dr. Nash, that he cut his throat with a safety razor blade somewhere on the C.P.R. tracks, suspicion of foul play roused by the finding of a pool of blood, two bloodstained razor blades, and a camp in a C.P.R. boarding car near the roundhouse. According to police, blood stains on the inside of the car indicate that after his throat was cut Yoki attempted to climb out through a window, hough when police examined the car the door was open.

CHICAGO GRAIN

CHICAGO, April 9. (CP)—Wheat scored 3 cents a bushel advance at the market opening to-day.

Sensational big shrinkage in the official forecast of 1932 domestic winter wheat production led to a rush of buying that swept values upward.

Opening 1⅞-3 higher, wheat afterward held near the initial range. Corn started ½-1½ up and continued firm.

Eggs Sell As Low As 12 Cents Per Dozen

Butter was 25 to 27 cents a pound this morning on the farmers' market. Eggs were as low as 12 cents a dozen, with an upward range of about 5 cents. Cream was 25 cents a point and chickens were 20 to 25 cents a pound.

Maple syrup sold at 50 cents a quart and $2.00 to $2.50 a gallon. Apples were 25 to 70 cents a peck, in varying qualities.

Potatoes were 40 and 45 cents a bag. Hardwood sold at $5 to $8 a load. Green onions were 6 bunches for a quarter.

INTERNATIONAL FEATURE STOCK

Although Gains Did Not Amount to as Much as Losses of Friday.

OILS IRREGULAR.

TORONTO, April 9 (C.P.). — A decidedly better tone was apparent on Toronto Stock Exchange this morning, though the recovery was natural in view of the cumulative decline of this week.

Turnover was only moderately heavy, with International Nickel the outstanding factor at the opening.

Gains to-day did not amount to as much as the losses of Friday, being mostly fractional in nature. C. P.R. got up a point to 14 and Page-Hersey climbed 1½ points to 46, but most other issues recovered less than a point. Bell Telephone at 95, Brazilian at 10, Nickel at 6⅝, Noranda at 16½, Ford of Canada at 10¼, Dominion Stores at 17¼, Steel of Canada at 16¼ were up ¼ to ½ point. Smelters picked up almost a point.

Oils were irregular, Imperial Oil still soft while B.A. Oil and International Pete finished slightly higher. Imperial's action was unexplainable in view of the fact that Wall Street had estimates the earnings would cover dividends and a better tone for the stock was apparent there.

Walkers was practically unchanged throughout the session. Building Products came under pressure, the price being forced down to 15 from an opening figure of 17.

LINDSAY GIRL BADLY INJURED

"Dollie" Starr Struck By Car While Roller Skating on the Road.

HAS LEG BROKEN.

LINDSAY, April 9. (Special to The Examiner).—Last night the twelve year old daughter of "Doolie" Starr, St. Peter Street, while roller skating on the road, was struck by a car said to be travelling twenty-five miles an hour, and thrown several feet off the roadway, her leg being broken and she also sustained cuts about the head. Harold Windrew of R.R. 5 Lindsay, in his statement to police stated that he was travelling west on Queen street and a furniture truck travelling east, when the youngster on roller skates came out from behind the truck right in front of his car. She was struck and thrown to the left side. He immediately called a doctor who took her to Ross Hospital, afterwards notifying police who are investigating.

Arrangements Made Girls' Conference

The April meeting of the Girl's Work Board was held in the Green Room of the Y.W.C.A. on Thursday afternoon with representatives present from St. John's, All Saints, St. Paul's, Knox, George Street, St. Andrew's and Springville Churches.

Arrangements were completed for the Girls' Conference which is being held in the City on April 16 and 17. The following program was outlined: 10 a.m., Registration and welcome; 11 a.m., election of officers, reports, discussion; 12 to 2 p.m., lunch hour; 2-3 p.m., Discussion groups; 3-4 p.m., recreation; 4 p.m., hike or tour of one of the local factories; 6 p.m., supper for mothers and girls.

At the supper hour, one of the leaders from Toronto will speak on the theme of the conference, "Dreaming True." Sunday morning there will be a service conducted by the girls in St. Andrew's, the Conference Church.

Miss McCarthy, who directed the C.G.I.T. camp on Stoney Lake last summer and Miss Griffiths, of Toronto, are two outstanding leaders in girls work and are to be the leaders.

The Board hopes all teen age girls and those interested in girls' work will help in making this the best conference yet held in the city. Girls are expected from Bowmanville, Keene, Millbrook, Cavan, Norwood and other centres.

NANAIMO RIDING TO BE ABOLISHED

Redistribution Bill in B. C. Legislature Cuts Membership By One.

47 MEMBERS.

VICTORIA, April 9 (C.P.)—Nanaimo, one of the oldest constituencies in British Columbia, will disappear as a separate entity under the Dedistribution Bill now before the British Columbia Legislature. In future the riding will be merged with Alberni and will be known as Alberni-Nanaimo.

Vancouver City will be divided into four electoral divisions represented by nine members. The Peace River district will be accorded representations under a district of that name.

As a result of the changes, the next Legislature will have a membership of 47 instead of 48, a reduction of one. The bill was introduced last night.

PASTURE FIELD GRASS POISONED

Experts Probing Racer's Death Believe Poison Came from Trees.

SPRAYED RECENTLY.

SAN FRANCISCO, April 9. — W. W. Vincent, chief of the western division of the United States bureau on food and drugs, said today he had found poison grass in a pasture that supplied forage for Phar Lap, Australian thoroughbred which died Tuesday.

The spray Vincent said, was undoubtedly blown into the field from oak trees sprayed with the poison March 31. Phar Lap died at the Ad Perry ranch at Atherton. The oak trees surround the field in which he was allowed to roam.

Vincent said if further tests revealed the spray had fallen widely over the grass there will be little doubt but that Phar Lap's death mystery will be solved.

Dr. Carl Meyer of the University of California said an incomplete autopsy had failed to show any trace of poison in Phar Lap's stomach. Veterinarians attributed the racer's death to colic.

MAYOR DENNE

Rinso from Lever Bros., Toronto, a further prize from the local plant of the C.G.E., orders on Lansfield, the Cleaners, and other fine prizes. The prize list this year is more valuable than last year.

Positively no children will be allowed admittance as last year. A number occupied seats that should have been taken by adults.

Mrs. Chas. J. Ray will introduce Miss Thompson on Wednesday afternoon.

The Government of Panama is taking steps to counteract stories that prices to tourists in the country had increased.

A twenty-four hour shift is now maintained in constructing the Madden Dam project of the Panama Canal.

MAN IS KILLED BY CAR FUMES

W. C. Cottingham, Head of Sherwin-Wiliams Company Overcome by Monoxide.

FOUND DEAD IN GARAGE.

MONTREAL, April 9. — William C. Cottingham, who, at the early age of 33, was managing director of the Sherwin-Williams Company of Canada, Limited, was found dead in his garage here yesterday, a victim of carbon monoxide gas poisoning.

Mr. Cottingham was appointed managing director of the firm last year, succeeding W. S. Fallis, former president and managinig director, who became chairman of the board.

Mr. Cottingham left his home early yesterday morning, saying he was on his way to the company's office. He went to his private garage, some distance from his home. Last evening his body was found, slumped in the car, the hood of which was open. Police stated they believed he attempted to repair the car while the engine was running and was overcome by fumes from the exhaust. The garage doors were closed. When discovered he had been dead for several hours. The running of the engine had exhausted the supply of gasoline in the car.

Mr. Cottingham commenced his career with the parent firm, Sherwin-Williams Company, Limited, 12 years ago, at Cleveland, with his father, Walter H. Cottingham, who died in retirement in England two years ago.

From Cleveland the son was transferred to the Winnipeg branch of the Canadian company, and subsequently to the Montreal branch.

Everton looked like having the championship of English First Division soccer in their grasp after to-day's games. They got two points for beating Leicester City, while Arsenal, runners-up last week, lost at Liverpool. Sheffield Wednesday are still in the running, and went into second place when Arsenal failed as they defeated Portsmouth. Everton have a game in hand on The Wednesday, and a five-point lead.

In the Second Division Wolverhampton Wanderers also looked to be safely headed for the championship. To-day they displayed remarkable form to beat Oldham Athletic by seven goals to one. Leeds United, their nearest rivals, got a draw at Chesterfield.

Don't Keep Your Dollars Where They Can't See Daylight . . .

THE DOLLAR down deep in the sock; imprisoned in the boodle bag or locked up in the strong box is surely blinded to to-day's bargain opportunities. Get them out; get them working; give them the chance to see the light of to-day's bargain opportunities.

At to-day's prices . . . the lowest in 15 years that dollar can work for you as it never has before . . . in clothing, furniture, food, furs, almost all things it can deliver from 40% to double what it purchased in years when you spent it freely. Now is the time to store commodities, not dollars.

The purchasing power of the dollar is to-day at its fullest . . . hold on to it and it will shrivel up as surely as to-day's bargains will fade and disappear with the return of higher prices. That return is very near at hand . . . so near that the procrastinator is sure to be caught napping.

DECISION IS RESERVED IN DAMAGE SUIT

Action Brought by G. A. Ironside Against Dr. W. F. Loucks for Damages to Car.

CONTRADICTORY EVIDENCE.

Much Discussion Arises Around Failure of Principals to Hold to Verbal Agreement.

CAMPBELLFORD, April 9 (Examiner Staff Correspondence).—Owing to a mass of contradictory evidence His Honor Judge Huycke reserved decision in an action brought by G. A. Ironside against Dr. W. F. Loucks for damages to his car, the result of an accident on December 24, 1931, in Campbellford. N. A. MacColl, Campbellford, acted for the plaintiff, G. N. Gordon, K.C., Peterborough, defending.

The accident in question occurred at the junction of Saskatoon Avenue and the Canal Road, near the railroad bridge, Campbellford. On the day in question, Ironside was going north into town about 12.10, when coming over the canal bridge he had seen the top of a car approaching. He had applied the brakes and stopped his car about 28 feet south of the line of the south side of the abuttal.

When he first saw the approaching car it swerved to the right. It was travelling on the left side of the road, the left wheel being about one foot from the sidewalk. About twenty feet from the point of impact the approaching car turned to the right. Damage to his car amounted to $145 and to Dr. Loucks' car $90.

Dr. Loucks, in evidence, stated that he was proceeding home and was in the centre of the road. It was raining hard and visibility was poor. About under the bridge he saw a car coming toward him quite fast. When about fifteen feet away he turned sharply to the right to avoid a collision, which he was unable to do. He was travelling about fifteen miles an hour.

Much of the evidence centred around the directions and wheel marks of the cars involved. For the plaintiff, all of whom were on the scene of the accident shortly after it happened.

The defence called Frank Dainard, Fred Rowe, Ken Morgan, Grant Anderson, and Roy Bell to sustain their case.

Plans of the intersection and the respective positions of the cars were submitted, and much discussion centred around a verbal agreement between the two principals, to be responsible for the damage of each other's car. This agreement was eventually not adhered to.

HAIG ACTION IS DISMISSED

(Continued from Page 1)

for nor had he (Bromley) a warrant.

He was then taken to the police station on the words, "You come with me", where Chief Bromely phoned for Constable G. Hardy to come right over, who, on arriving was told "to go to my place." He also stated that before going to his home with the chief constable he was caught by the coat and pushed onto a chair. The house he declared was searched from top to bottom.

Questioned by Mr. Gordon as to the object of the search Haig stated that it was for liquor. Eventually a small bottle had been found in the pantry.

Convicted Twice

Cross examined by Mr. MacColl Haig admitted that he had done bootlegging in town, six weeks before the search. He also stated in replying to the examination that he had been convicted twice before the L.C.A. "not for selling" but for having liquor in a public place.

Bert Runnells gave evidence stating that he was in the barber shop at the time of the search and saw Chief Bromley push Haig against the wall and put his hands around him and search him. He also heard the chief ask Haig what he had been saying about him.

Questioned by Mr. MacColl the witness stated that he did not think he would do what the policeman did but that the chief did not use more force than was necessary.

Ernest Abernethy, proprietor of the shop in question stated that he did not see what took place nor did he see Haig taken by the arm.

Dennison Runnells was also called by the plaintiff but apart from witnessing the search of Haig he knew very little.

Chief Bromley, giving evidence, stated that on the day in question he went in search of liquor. He had received some time before, he declared, two complaints regarding the plaintiff selling liquor. He went over and asked him if he had any liquor in his pockets, to which Haig replied "Leave me alone." He then lifted him up by the hips, placed him two feet back and searched him.

Tripped Over Chair

He did not take Haig to the police station by force. They went there together, where he (Bromley) phoned for Constable Hardy who responded in about twenty minutes, and told him to go to the house. He (Bromley) and Haig followed and the search was made in the ordinary way, which resulted in the finding of a bottle of wine which was handed to Constable Hardy and later sent to Toronto for analysis. He had not pulled Haig down when they left the station, he declared, but Haig had tripped over a chair by the door.

Mr. Gordon questioned the witness regarding the searching of the man and house without a warrant, saying that if the Chief had it in his mind to search he could have obtained one and used it when the occasion arose. Chief Bromley stated that he had searched the house without a warrant for he was not aware that the permit (Haig's) that should have been sent in to the authorities by the magistrate, had not been sent. There were two other convictions against Haig, on one of which the charge had been reduced and the warrant changed, he (Bromley) having initialed it at the order of the late Reeve Stone, then chairman of the Police Committee of the council.

Constable Hardy gave evidence regarding the house search, which he stated lasted about one hour.

Mr. Gordon entered his plea for the plaintiff on the grounds that no warrant was used for the search, under Section 110 of the L.C.A. While the chief acted from the highest motives he had no doubt, it was always held in law, he declared, that when a man had committed an offence and paid the penalty after conviction, he was considered on an equal with all men. He pointed out that the Chief could have obtained a warrant and submitted that there were not sufficient grounds for him taking the forceful method he did.

Alex MacColl for the defence pointed out that under the act, if there was no malice in the act and a policeman believed liquor was in evidence, was justified in searching without a warrant. Chief Bromley had been most reasonable with Haig on the two previous convictions, he stated, saying that there had been many discrepancies in the evidence of a self confessed bootlegger.

Giving his judgment of "dismissed with costs" Judge Huycke pointed out that the original charge having been reduced to assault, the search of the house was not in the consideration of the case. The plaintiff was entitled, he said, to freedom from assault, but at the same time he must prove the truth of what he said. The only thing he had to consider was whether an assault had been made against Haig by Chief Bromley. Evidence he declared was very sparse. Two witnesses had given contradictory evidence, the evidence of three others had not assisted. Bromley had admitted searching Haig, who had been suspected of infractions under the L. C. A. The duty of the Chief of Police was to follow up complaints and to enforce the L. C. A. He failed to find, he declared, sufficient evidence to prove that the defendant was guilty of assault, and dismissed the case with costs.

CAMPBELLFORD

BRIEF AND INTERESTING NEWS ITEMS FROM THE TRENT TOWN.

Mr. Sam Bibby and family, of Seymour, have moved into town and taken possession of the Craighead property on Garry Street, recently occupied by Mr. B. Jones.

Mr. G W. Ayrhart returned to Malone, Ont., this week after spending some time with his family in town.

His Honor Judge E. C. S. Huycke and Hon. G. N. Gordon, K.C., were attending the Division Court held in the Public Library on Friday.

RYLSTONE.

Mr. and Mrs. George Gibson and Mr. and Mrs. James Gibson were guests of Mr. and Mrs. Vernie Heath on Monday evening.

Miss Vera Finch spent the week end with Mr. and Mrs. Fred Husband, Campbellford.

Mr. and Mrs. William Finch and family were Sunday guests of Mr. and Mrs. Raymond Finch.

Mrs. Raymond Finch is spending a few days of this week with friends in Campbellford.

The regular monthly meeting of Rylstone Women's Institute which was to be on Wednesday is postponed to a later date.

Mr. and Mrs. Mark Morton and Ruby were visitors of Mr. and Mrs. Thomas Reid on Monday.

Mr. and Mrs. Clayton Mumby moved to their new home on Tuesday.

Belfast, Ireland, is increasing its tax rates.

RAY HARDING GIVEN MEDAL FOR BRAVERY

Royal Humane Society Medals and Certificates Presented.

AT KINSMBEN PLAY.

Three Girls Receive Parchments for Saving Drowning Man.

Honoring brave deeds in young people of both sexes in the city, the presentation of bronze medals and certificates of the Royal Canadian Humane Society was made last night by Mayor Denne and T. Sargent, president of the local branch of the Humane Society, prior to the production of "The Rivals," under the auspices of the Kinsmen Club, in the auditorium of the Collegiate Institute. The many hundreds of people who witnessed the play had also the opportunity of noting the manner in which Peterborough youth responds to the call of heroism and self-sacrifice, for one of the recipients of posthumous honor was a lad of fourteen years of age, Sidney Neiman, a Lithuanian boy, who resided with his parents, Mr. and Mrs. Sidney Neiman, and who made the supreme sacrifice, who laid down his life that another young life might be saved.

On December 29 last, Kenneth Perram, of Ottawa, broke through the ice of the Goose Pond while skating, and both Neiman and Ray Harding flung themselves into the water, fully clothed and weighed down by their skates, to save him. Perram was saved and Harding also braved the icy waters in safety, but young Neiman gave his life in the attempt.

To the parents of Sidney Neiman, who were not present last night, and to Ray Harding, Mayor Denne presented the bronze medals awarded for conspicuous bravery by the Royal Humane Society.

The presentation of certificates from the same society was made by Mr. Sargent to three young girls of the city, Levada Crouter, Lila York and Dorothy Sills, who, on August 24 last, aided in rescuing from drowning John West, of 132 Perry Street, who, while bathing near the old Belmont Clubhouse, stepped into a hole in the river bed and sank beyond his depth, going down for the third time when the girls swam out and rescued him.

Bronze Medals.

The following letters from the Royal Canadian Humane Society were received in connection with the award of the bronze medals:

Mr. and Mrs. Abraham Neiman,
Peterborough, Ontario.

Dear Friends,

This Association has had under consideration the noble and brave effort made by your late son, Sidney Neiman, in his attempt to rescue Kenneth Perram from drowning in the Otonabee River, Peterborough, Ontario, December 29, 1931, and in which he lost his own life.

There is no more noble sacrifice than that a man lay down his life for another, and our Association have been pleased to award our Bronze Medal in honor of this wonderful act of sacrifice, and would ask that you accept it with the deep sympathy of the officers of this Association to you and yours in your great bereavement.

Mr. Ray Harding,
Peterborough, Ontario.

Dear Ray,

We congratulate you upon having been awarded the Bronze Medal of the Royal Canadian Humane Association for gallantry in attempting to rescue Sidney Neiman from drowning in the Otonabee River, Peterboorugh, Ontario, on December 29, 1931.

Your conduct on that occasion has been examined by our Board of Investigating Governors, and our officers are pleased to approve of the award being made.

FRANKFORD.

The play "Strictly Business," which was put on by the Live Wire Group of the United Church at the Community Hall here on Wednesday night, was a decided success.

The hall was filled to capacity, and the play was well received. The ladies taking part have been getting ready for the past two months and their efforts were well rewarded, the proceeds going to the Ladies' Aid fund.

Miss Marcia Sprague has returned to Peterborough to take up her studies at the Normal School after spending the Easter vacation at her home here.

The provincial police from Belleville headquarters paid a visit to the village here on Wednesday morning to investigate the break in at Loney's Hardware, which took place some time during the night. A quantity of cigarettes, razors and knives was stolen, and an early arrest is expected.

Mr. Howard Jarrett of Trenton was a visitor here on Wednesday.

Mr. Roy Thompson of Belleville, spent Wednesday in the village.

Mr. Russell Embury, local cheese maker, is busy at present getting his factory in shape for the coming season.

The next meeting of the "Live Wire" Group of the United Church Ladies' Aid will be held on Monday evening, April 11, at the home of Mrs. Bert Loney.

Government surveyors are still at work surveying the new Frankford to Trenton Highway, No. 33. It is expected that work will be started this summer.

It was learned to-day that B. B. Ostrom of Delta, and a former resident of this village, who rescued a little girl from drowning in the lake there, a few days ago, has been presented with a purse of $25, in recognition of his bravery.

Much Business Done Frankford Meeting

(Examiner Correspondence.)

FRANKFORD, April 9. — The Quarterly official board of the United Church met on Tuesday evening, April 5, in the church, at 8.30.

The following business was transacted.

A committee was appointed to confer with P. Sine in regard to putting the old cemetery in order, according to orders received from the officials in Toronto.

H. J. Madill was authorized to have 20 copies of the annual report and financial statement printed.

A resolution was passed to close the books at the end of January in order to include subscriptions in the year's report, of ones wishing their contributions to be included but who have contributed after the year has passed.

After much discussion it was decided to set the minister's salary at $1800, owing to the general scarcity of money at present.

The Rev. A. S. Doggett brought the meeting to a close with the

High Tribute Paid To Late J. N. Stone

CAMPBELLFORD, April 9 (Examiner Staff Correspondence). — Judge E. C. S. Huycke of Peterborough paid a tribute of respect to the memory of the late Reeve J. Nelson Stone of Campbellford in the Division Court at that place yesterday, when during the course of a civil action the deceased's name was mentioned. His Honor said: "Referring to the death of your esteemed citizen, Reeve Stone, his death came with startling suddenness to me, and I wish to express my sympathy with the town of Campbellford in the loss they have sustained. Reeve Stone was a high-minded and honorable gentleman and an esteemed public servant."

ARMS PARLEY

(Continued from Page 1)

control and assigns to them their tasks.

The dominant European problem, as expressed in the terms security and equality of armaments, has been carefully canvassed, and some effort has been made to come to grips with it. The suggestion of a scheme of Danubian economic co-operation has been advanced by France and examined bmy all states concerned.

More Explanations.

On the technical side, the land, sea and air commissions have already initiated their discussions upon non-political questions; the Governments have sent in during the Easter recess more exact explanations of their views and proposals; and these proposals have been laboriously co-ordinated by the secretariat in a way to simplify the work of the conference.

On reconvening, the conference will attack the questions of principle which constitute its biggest task. These include the broad issues of security and equality. But other questions will be faced, such as abolition of battleships or reduction of their size, outlawing submarines, tanks, heavy artillery, and aerial air bombing, to what arms budgetary limitation should be applied, treaty limits of land materials by direct enumeration and the question of trained reserves, and war materials in reserve.

Local Film To Be Shown At Syracuse

The government film of the Trent Waterway district, entitled "In the Wake of Champlain," is shortly to be sent by the local Chamber of Commerce to an exhibitor at Syracuse, N. Y.

Request for the film was received by the Chamber this week from E. P. Papworth, of Syracuse. Incidentally he also sought information concerning a trip over the Trent Waterway which he and a friend are contemplating this summer. Full information has been mailed to him by Secretary John A. McKone.

The film will be held at Syracuse by Mr. Papworth, until he is advised by the local Chamber of Commerce to send it on to some other point in the United States. It is a method which has been used with great success with other films of the Trent Waterway district which have in the past been sent on from one point to another for exhibition in the States, and which have gone as far south as Florida.

Thirty Added To Toll Of Rumanian Floods

ARAD, Rumania, April 9 (A.P.)—Thirty more were added to-day to the death toll from floods in Rumania during the past few days when the swollen river Maros broke through its dams at midnight last night and overwhelmed and destroyed seven villages near the Hungarian border.

Twenty-four of the thirty dead thus far reported were inhabitants of the village of Mikalka. The other six were soldiers who were drowned near Radna.

Obituary

MRS. WILLIAM COX

MADOC, April 9 (Examiner Correspondence).—The funeral of Mrs. William Cox took place on Wednesday from her late residence on Nelson street, to the Sacred Heart Church where Requiem Mass was sung at nine o'clock by her pastor, Rev. J. V. Meagher. Interment was made at Sacred Heart Cemetery.

The late Mrs. Cox was ill only a few weeks of pneumonia and general debility, and death occurred on Monday afternoon. The deceased Margaret Cecilia Cox, was the daughter of the late Mr. and Mrs. Simon St. Charles of Madoc township, and beloved wife of Mr. William Cox of Madoc. She was very highly respected and esteemed and a life-long resident, having been born in Madoc township 64 years ago. She resided in the village all her married life. Mrs. Cox was a faithful member of the Sacred Heart Church, and was of an especially loving and gentle disposition, ever ready in her retiring manner to aid all charitable and social activities.

Left to mourn her passing are her husband, Mr. William Cox of town; her daughter, Mrs. P. J. Garvey of Madoc; two sons, Vincent of Oshawa, and Clement of Belleville; also an adopted daughter, Mrs. William Knox of Port Arthur. She is also survived by an only sister, Mrs. E. Trudeau of Stoco.

DR. I. H. LAIDLEY

OMEMEE, April 9 (Examiner Correspondence).—The funeral of Dr. I. Henry Laidley, one of the best-known practitioners in the north end of Montreal, took place Friday, March 25, from the family residence, 3125 Westmount Boulevard. His death occurred on Thursday, following a ten days' illness.

Born at Omemee, 67 years ago, Dr. Laidley received his early education in his home town, and later went to Montreal and began the study of medicine at McGill University. Graduating in 1897, he first began to practice in Lachine. A quarter of a century ago he moved to the north end of Montreal where he had a large clientele.

He took a keen interest in sports and was a member of the Marlborough Golf Club and the Outremont Curling Club. He was a Mason, Waverly Lodge.

Surviving are his widow, formerly Edith Leger, one daughter Ruth, and two sons, Kenneth and Wendell Laidley.

Interment took place at Mount Hermon Cemetery, Quebec City.

HERBERT BRAY

TORONTO, April 9. — Herbert Bray, 197 Fairview avenue, for 27 years C. P. R. conductor on the Toronto-Trenton run, died Thursday in the Toronto East General Hospital. He was born at Manvers, and had resided in Toronto for nearly 30 years. He was a Presbyterian, and a member of the Brotherhood of Railway Trainmen and the Order of Railway Conductors. Surviving are his wife, a daughter, Florence; a son, Arnold, at home; a brother, James Bray, Toronto, and a sister, Mrs. S. Sandy, Peterboro.

JAMES McNICHOLL

NORWOOD, April 9 (Examiner Correspondence).—The funeral of the late James McNicholl, whose death occurred in Toronto where he and Mrs. McNicholl had gone to live for the winter months, took place on Tuesday morning from his late residence, Spring street, to St. Paul's Church, where Requiem Mass was sung by his pastor, Rev. J. J. McCarthy. Interment was made in Roman Catholic cemetery.

The late Mr. McNicholl was 84 years of age, being born in Belmont, son of Eugene McNicholl, one of the earliest pioneers of Peterborough County. He was a blacksmith by trade, spending 30 years at this work, which was a flourishing trade in days gone by. His shop still stands, on Colborne street. The deceased was married at Arnprior in 1879, to Miss Ellen O'Callaghan, who survives.

Two years ago the happy couple celebrated their golden wedding anniversary. Seven children survive: Charles of Vancouver, B.C.; Leo of Tampa, Fla.; Herman of Buffalo, N.Y.; Mrs. W. J. Grady of Peterborough; Mrs. John Lamey of Los Angeles, Calif. Mrs. Thomas Foley and Mrs. Edward Mogenham of Rochester, N.Y., and twenty-five grandchildren.

The pall-bearers were: John A. Robb, John Weir, Patrick McNulty, Thomas Christie, Michael English and J. F. Pearce. In politics the deceased was a life-long Liberal and a very extensive reader.

WILLIAM MEIKLEJOHN

STIRLING, April 9.—After five days' illness, William Meiklejohn (formerly of Stirling) passed away at 10 o'clock yesterday morning. Mr. Meiklejohn was the eldest of nine children of the late Mr. James Meiklejohn and Margaret Lindsay of Stirling, Scotland. Coming to this country about the year 1842, they were here united in marriage and built their home (now occupied by John S. McKeown) on the 12th Concession, Rawdon.

In 1863, James Meiklejohn died from the effects of a fall at a barn-raising. To William Meiklejohn, then a young man of 18, fell the responsibility of caring for his father's family, the youngest of whom was a baby.

In 1872 he purchased a farm on the 13th Concession and married Harriet Esther Reid, daughter of the late Mr. and Mrs. Caleb Reid. To this union was born four sons: Allen of Kingston, Sanford of Rawdon, George of Provost, and Roger of Stirling.

In 1908, Mr. Meiklejohn took up his residence in Stirling, where he lived until the past few years, when he resided with his son, Sanford.

In politics he was a Liberal; in religion, a Presbyterian. He was for many years an elder in the church at Rylstone, and was ordained as an elder in the Presbyterian Church, Stirling, later. He for many years in his early life held the position as Justice of the Peace.

Besides his four sons he leaves to mourn his loss, nine grandchildren, two sisters, Sara (R.N.) of Seattle, U.S.A.; Margaret (Mr J. Allen) of Campellford; four brothers, James of Seattle, U.S.A., Andrew and John of Campbellford, and Lindsay of Stirling.

The funeral service will be held at the home on Sunday at 2 p.m. Interment in Stirling cemetery.

No Trace Of Poison Found In Phar Lap

SAN FRANCISCO, Cal., April 9.—Preliminary examination of the vital organs of Phar Lap, Australian race horse which died suddenly at Menlo Park last Tuesday, has failed to show any trace of poison.

Dr. Karl Meyer of the Hooper Medical Foundation of the University of California, made this statement yesterday.

"That does not mean," he said "that there is no poison present in the organs. I have many tests to conduct, and it will be several weeks before I know definitely."

Department of Agriculture representatives who are analyzing samples of grain and grass eaten by Phar Lap have not completed their investigation. F. N. Chisholm, in charge, said no evidences of poison had been found so far.

Veterinarians attributed the thoroughbred's death to colic induced by eating green feed or dampened barley. The two investigations are being made as a result of reports the horse might have been poisoned either with intent or accidentally.

FICKLE FORTUNE IS WELL STAGEE PLAY

Presented at Campbellford by Roseneath Dramatic Society Under League Auspices.

CAMPBELLFORD, April 9. (By Examiner Staff Correspondent). — A very fine attendance was registered on Thursday evening in the Sunday school room of St. John's United church, Campbellford, when under the auspices of the Young People's League the Roseneath Dramatic Society presented their three act play "Fickle Fortune" to a very appreciative audience. The play was extremely well staged and well acted and proved a dramatic treat for the lovers of the stage. With a plot that was a little different there was sufficient humour centering around a delightful love theme to add the human interest that draws an appeal.

Earl Fairman, president of the League, acted as chairman of the evening, many delightful orchestral numbers being given by A. Hazell's orchestra, the personnel of which was A. Hazell, Bill Richardson, Ronald Richardson, Clark McKelvie, D. Mitchell, P. Hall, O. Murphy and J. Bencr.

GERMAN VOTERS DECIDE SUNDAY

(Continued from Page 1)

84-year-old former Field Marshal of the Kaiser's armies, were more than confident today that he would win hands down tomorrow. They based their confidence on the fact that he fell short of a clear majority over all candidates in the election of March 13 by only 174,328 out of 37,658,036 votes and that in tomorrow's election a simple plurality will serve to re-elect him.

Only one of the five candidates who participated in the march election has withdrawn. Lieut.-Col. Theodore Duesterberg, candidate of the Steelhelmet organization, declined to make the second race. The four who remain on the ballot for tomorrow are: Paul Von Hindenburg, non-partisan; Adolf Hitler, National Socialist; Ernest Thaelmann, Communist, and Adolf Gustav Winter, Re-evaluationist, who is now serving a term in a Saxon jail.

Hindenburg vs. Hitler.

The battle, everybody recognizes, is between Hindenburg and Hitler, who was runner-up in the march election, but who still trailed the veteran field-marshal by more than 7,000,000 votes. Chancellor Heinrich Bruening will fire the last broadside for Von Hindenburg tonight from Koenigsberg.

Hitler has been conducting his own campaign, travelling by airplane and breaking all speech-making records, making four a day in an effort to lop 4,000,000 off the more than 17,000,000 votes received by Von Hindenburg in the first election.

Leaders of Hitler's National Socialist Party claim they have 1,000,000 members enrolled and they predicted to-day that Hitler would receive 15,000,000 votes to-morrow.

The Republican "iron front" has been concentrating its campaign in the provinces and has held 66,000 meetings from one end of Germany to the other in support of Von Hindenburg.

Although the week has been remarkably free from disorders, the poster and oratorical war has been furious. In Berlin the Radicals burned about thirty kiosks bearing campaign posters during the week.

Beginning at noon to-day police reserves will be held in readiness for any emergency until the polls are closed to-morrow night.

oWrk is being completed on the new steel bridge, 12 feet wide, across the Euphrates River, between Damascus and Baghdad.

The Prince of Wales will open the new Shakespeare Memorial Theatre at Stratford-on-Avon on April 23, the dramatist's birthday.

FEED SUPPLY BECOMING LOW

Backward Weather May Keep Cattle Indoors for Six or Seven Weeks.

DIFFERENCE IN PRICES

BURNBRAE, April 9. (Examnr Correspondence)—With every evidence of a late and backward spring season ahead, local farmers are anxiously wondering if the hay mow and the old feed bin are healthy enough to stand the ravages of six or seven weeks stable feeding of cattle, and sad to say, many find that the supply is all too low.

While hay was almost a bumper crop in East Seymour last year and grain was at least an average crop, the dry autumn made a drain in the winter feed supply which has proved too great in many cases. Then again, with money scarce few farmers had in a supply of feed grains at the lower prices of the after threshing season.

At the present time grain prices in this locality are prohibitive if one expects to feed to either cattle or hogs with butter fat at 26c a pound and hogs around $4.25 a cwt.

Oats are quoted at 42 cents a bushel off cars, Campbellford, barley, feed grade, around sixty cents a bushel, shorts $1.25 cwt, bran $1.20 a cwt. and so on down the line with prospects of higher prices soon.

On the other hand prices to farmers are down to the lowest on record in the memory of the old-timers here. Eggs at from 5 to 8 cents a dozen do not give return for feed let alone labor or interest on capital invested.

One bright feature of the depression is the fact that a few farmers who have some money ahead are taking advantage of the low prices to make improvements, some in the way of repairs to buildings, new fences, better livestock perhaps, a good pure-bred bull or a few heifer calves of high-grade or pure breeding. Low prices for alfalfa seed will stimulate the purchase and sowing of many bushels of this very valuable legume and the dairymen of this district will reap the benefit of this increased seeding in years to come.

During the latter part of this month the cheese factories will be opening. Returns are bound to be low, but no single factor has done more for this community, than has the manufacture each year of the hundreds of thousands of pounds cheese that go from the numerous factories to the export market. No finer grade of cheese is made anywhere than in good old Seymour and it is up to the farmers here to try and improve the quality if not the quantity this year 1932.

Holstein Breeders Meet

A good representation of Holstein breeders from this district attended the twenty-second consecutive annual sale of the Belleville District Holstein Club held in the Belvithere Hotel Stables on Wednesday afternoon. Only thirty-three head, the smallest offering in years came under the hammer of auctioneer Geo. Tice, mayor of Belleville and in spite of backward bidding due to the depression in the cattle business he managed to get some fair prices. Much of the success of the sale was due to the energetic efforts of Mr. James A. Caskey of Madoc, the sales manager. Bertram Hoskin of Cobourg and Arch. Parks and Sons, Napanee with six head each were the heaviest consignors and incidentally provided the tops of the sale. Hoskins five-year-old cow, Echo Keyes Walker, a cow of outstanding type and carrying the service of a son of three times All-American Bull Sir Francy Mercena Burke, sold to E. O. Butler, Brighton for $145. Ed. Irish, Toronto secured Daisy Pauline Colantha, a five-year-old fresh cow from the herd of Messrs. Parks for $130.

Two of Mr. Hoskins' entries made $105 each while the balance consisting of some very fine two-year-olds and young cows of good commercial type sold at bargain prices below the century mark.

Bulls ranged in price from $35 to $70 each. Burnside's first prize bull in the judging class previous to the sale brought $67.50. Park's second and third prize animals brought $62.50 and $70 respectively. A nice young bull consigned by Butler of Brighton was purchased by Messrs. George and Fred Smith of Seymour Township, this being the only purchase by local breeders.

Among those attending from East Seymour were Sam Diamond, Fred Grills, James Eeagleson, Ray Walker, Fred Barnum, Don Barnum, George Anderson, George Smith, Fred Smith, W. A. Hume, James Nelson, Craig Nelson, E. L. Anderson.

The club has in the twenty-two years of its existence weathered periods of depression and it is a safe bet that when prices improve Belleville sale will once more provide the high lights of the Holstein auctions.

A complete fishery exhibition will be part of this year's agricultural show at Grimsby, England.

American transport planes are to be used on a Swiss air line.

Sales of many co-operative societies in Denmark increased in the last year.

SCIATICA?

(Stabbing Pain in Hip & Thigh)

"Six years ago I was laid up with terrible Sciatica. Nothing did me any good until I took T-R-C's. From the first dose I felt relief. By the time I had taken 1½ one-dollar boxes the pain did not come back." F. Power, Chatham, N.B. **Equally good for** Neuritis, Lumbago, Neuralgia, Rheumatism. No harmful drugs. 50c and $1 everywhere. 238

School Reports

S. S. No. 9, SEYMOUR.

(Examiner Correspondence.)

Campbellford, April 9. — The following is the school report for the Easter examinations of S. S. No. 9, Seymour:

Junior IV — Arthur Rowe 79; Muriel Redden 71; Doris Lain 69, Carmen Lawrence 63; George Haggerty 61; Morley Irwin 52.

Senior III — Dorothy Redden 83; Freda Rowe 79; Elwood Haggerty 60; Verna Irwin (absent part) 42; Marie Lisle (absent); Bernice Lisle (absent)

Junior III — Madeline Lisle 83; Nola Green 76; Helen Redden 63; Burton MacAlpine 56; Marion Irwin 53

Junior II — Betty Keller 86; Olive McKeown 79; Andrew Ibey 75; Frank Haggerty 59; Marion Stephens (part absent) 43; Blanche Woodcock 41.

Junior I — Bernard O'Brien 81, Myrtle Redden 80; Densmere Lain and Howard Rowe (equal) 79, Jack Haggerty 78; Alice Ibey 72, Helen Akins 69, Susan Anderson (promoted from primary on Feb 1st) 59; George Scea 58; Arline Skinkle (part absent) 36; Vera Scea (part absent) 27, Marjorie Stephens (absent)

S. S. No. 2 MARMORA

Senior IV.—Alice Derry (hon.), Ruth Jones, Margaret Quinn.

Senior III.—Irene Bell (hon.), Margaret Bell (hon.), John Quinn, Norman Moffatt.

Senior II.—Albert Vilneff, Gordon Jones, John Vilneff, Michael McAvoy, Francis Quinn.

Junior II.—Arnold Yandcleaf (hon.), Graham Bell (hon.), Peter Quinn and Elmer Martin, equal; Everett Vilneff.

Senior I.—John McAvoy.

Junior I.—Michael Moloney.

Primer Class—Johannus Yzereef.

SHIPPING BEGINS

(Continued from Page 1)

of general traffic before the 15th, however, when package freighters which had wintered there are expected to clear.

Passenger and freight boats at Owen Sound are awaiting reports of conditions around the Manitoulin Island, and several vessels are getting ready to depart. No ice is in sight.

The southern section of the Welland Canal from Thorold to Lake Erie will be opened Monday, St. Catharines reports. The remainder ton and Goderich, and no trouble til the 15th. Three boats are to leave Thorold for Chicago on Monday. Navigation is already open at Port Dalhousie. Repairs to the canal itself have been completed and water will fill the locks within the next day or so.

The ice bridge at Port Lambton, which had been expected to cause considerable difficulty below Sarnia, went out some days ago, and two steamers have already left for lower ports. The wireless station at Point Edward has been opened and the majority of navigation aids will be placed next week.

Toronto's Port Open

The Port of Toronto has already been officially opened. This week-end will see heavy movements, for several boats which have wintered here will leave for Kingston and various other drydocking points.

Navigation at Brockville and along the upper St. Lawrence has also been open for some days. Coal steamers are moving between ports on Lake Ontario and Prescott, and buoys are being placed in position in the American channel.

There is little ice at Southampton of the canal will not be opened until is expected at those points.

Windsor reports all clear in that vicinity, with boats moving up and down the Detroit river regularly now.

Marmora

Mr. and Mrs. John Bonter and Mr. and Mrs. W. J. Pack attended the funeral of the late George Bacon in Belleville on Wednesday.

A. W. McGuire, B.A., Public school inspector for Centre Hastings, paid and oficial visit to Marmora Public school this week.

Mr. Norman Hipson returned home from St. Joseph's Hospital, Peterborough, on Tuesday.

Mr. Orval Wells of Port Credit spent the holidays at his home in North Marmora. He was accompanied by his friend, Mr. Roscoe Cowherd of Brantford.

MILBURN'S HEART NERVE PILLS

C.G.E. Electric Household Appliances will be used

Free Gifts Daily

The Grand Prize for the School will be Your Choice of a Canadian General Electric Range, Radio, or Electric Washer.

There will be Twenty-Five Daily Prizes, each a Basket filled with Nationally Advertised Goods. In addition, there will be attractive Special Prizes daily.

The Women of Peterborough and District Are Cordially Invited

To take advantage of the splendid opportunity for expert instruction and practical demonstrations in domestic science and home cooking. The Examiner has arranged for this school, to be conducted by Miss E. Frances Thompson, graduate of the National Training College of Domestic Science and Economics, London, England. Admission is free, and all women are cordially welcome to come and bring their friends. The special attendance prizes to be given daily, and the Grand Prize on the last day, are added features which will make it worth your while to attend.

MISS E. FRANCES THOMPSON
Graduate of National Training College of Domestic Science and Economics, London, England, who will conduct the Peterboro School of Cooking and Home Economics.

Three Days Only, Tuesday, Wednesday, Thursday of Next Week

The Spring

HOME-MAKERS SCHOOL

Having in mind the enthusiastic manner in which the women of Peterborough received the presentation of The Examiner's Homemakers' School last Fall with Miss Claire Andree as lecturer and demonstrator, we have decided, with most of the other papers of the Province, to hold a Spring as well as a Fall School, and this year's Spring School will be held on Tuesday, Wednesday and Thursday of next week in the Grand Opera House, commencing at 2.30 o'clock. It will be under the direction of Miss E. Frances Thompson, graduate of National Training College of Domestic Science and Economics, London, England, who has been holding most successful Homemakers' Schools in Western Ontario during the past six months. The electric appliances used will be altogether the product of the Canadian General Electric Company.

During intermission the Canadian Department Stores will hold a Style Revue of practical clothing.

The following city and out-of-town firms are co-operating:

LEVER BROS., SOAP MANUFACTURERS.	CAIN BROS.
FITZPATRICK & GERAGHTY.	HOME FURNISHING CO.
NEW CENTRE MEAT MARKET.	CANADIAN DEPARTMENT STORES
ASTA BROS.	SCHNEIDER BROS.
QUAKER OATS COMPANY LIMITED	PETERBOROUGH UTILITIES COMMISSION

Sir Alexander MacKenzie, the Canadian explorer, born at Inverness, Scotland, migrated to Canada in 1775 and in the employ of the Northwest Fur Company he explored the great river named after him, from the western end of the Great Slave Lake to the Arctic ocean in 1789. He made another expedition to the Western coast in 1792 and was the first white man to cross the Rocky Mountains. Our picture by courtesy of Canadian Pacific Railway commemorates his success.

The Greatest Debt

A Resume from W. M. Findlay.

Leslie McGregor, several years ago appointed managing director of Canada Flour Mills, Limited, was overjoyed and also mentally embarrassed, so he confessed when an old friend called on him in his office.

A fine baby boy had come into his home and he was awakening more and more to a consciousness of the fact that a great responsibility was now his, and that, to make this world a happy world for his boy, insofar as he was able. Said he: "His success or failure are in my keeping." "This boy represents to me the greatest debt I have ever contracted. I owe him the best future that I can possibly provide for him."

Now there was a time when Duncan McGregor, father of Leslie, was owner of the McGregor Mills in St. Agnes, Ontario. He was looked upon as a rich man; he was reputed to own two other mills in smaller nearby towns. But Duncan McGregor died suddenly in the prime of life. Leslie, his son, was then a boy of eighteen years, and a widowed mother and two younger sisters shared the boy's bereavement. Leslie had to sacrifice a university education to take care of his deceased father's interests and family. Space will not permit telling of the uphill road he had to travel to save the estate, suffice it to say he conquered. He helped, too, to form the merger which grew into the Canada Flour Mills, Limited, and was later made managing director of the company.

We are thinking now of him as an intelligent father, interested in his son's welfare. He knows from Government statistics the chances of a college boy to attain success are about 800 out of 150,000.

The chances of a high school boy are about 87 out of 150,000, and the chances of a boy with simply a public school education are but 4 in every 150,000. "Therefore," said he "first of all I owe my boy an education whether I live or die." To ensure the payment of this obligation he applied for an Imperial Life Insurance Endowment Policy, which would mature when his boy would be 18 years of age, and which guaranteed him $500 a year for five years.

Leslie McGregor, lest he be a walking advertisement for his own mills, had to be paddled with a desk ruler before venturing into the street.

"Duncan McGregor died in the prime of life."

Duncan McGregor was looked on as a rich man.

THIEVES ENTER SUMMER HOMES

Reports to Lindsay Police of Articles Stolen.

SIDE ROADS MUDDY.

LINDSAY, April 9.—Reports are reaching the police from different summer resorts in this district that cottages have been entered, and in some cases, articles stolen. These complaints have come in from around Sturgeon Point, Cameron and Scugog lakes. The summer home of James Elea of Toronto, situated on Scugog Lake, near Janetville, had the door broken from its hinges and one of the beds had been occupied. A check up will be made on the contents to see if anything is missing.

Motorists and others report the side roads in this district as being in bad shape. The frost is leaving the ground rapidly however and with a warm sun conditions will improve rapidly. The road from Omemee to Downeyville is compared by motorists to a ploughed field.

Old Dobbin is again coming to his own. The presence of an increased number of horse-drawn vehicles on the streets of Lindsay is due to the fact that a great many farmers in the district, in inaugurating a policy of economy, have decided to leave their autos in the garage and make use of the horses. They point out that the animals have to be fed, and by making use of them, they

Samuel Botting, local boat builder, won his action against the Disappearing Propellor Boat Co., of Toronto, in the County Court on Thursday. It was a claim of $1,018 for wages and other accounts, and $706 for rent and arrears of taxes. The counter claim of defendant for breach of contract was dismissed. These actions arose from dissatisfaction from contracts.

The village of Cannington profitting from the recent fire which threatened the business section, has decided to buy a fire pumper.

James Graham of Salem, Mariposa, broke his leg on Thursday. He was hauling baled hay to Manilla station, when the load was upset.

Master Glen Webster, of Balsam Grove, was seriously injured at the farm of Walter Everson of Glenarm a couple of days ago. He fell from a beam in the barn, breaking his arm and sustaining severe bruises about the body.

Presentation Made To Rev. W. L. Wright

TWEED, April 9 (Examiner Correspondence).—The congregation of St. James' Anglican Church officially bid farewell to their rector, Rev. W. L. Wright, at a well-attended gathering in the Auditorium, on Wednesday evening. The evening was devoted to a musical program consisting of solos by Mrs. Walter Leal, W. G. Smith, Mrs. Dr. Paul, and Mrs. Madeline Fawcett. The girls of the Sunshine Club contributed a novel skit which was greatly enjoyed.

Following the program, D. H. Morrison the address, and the presentation of the purse to Mr. Wright was made by Clare Hayes. Mr. Wright responded to the surprise affair, thanking the congregation for the present. He stated that the past four years had been pleasant ones in his life and invited any of the members to visit him at his new home in Hamilton.

Carl Wilson, on behalf of the A.Y.P.A. read an address to Mr. Wright and Earl Thompson, president, presented him with a cheque. The evening was brought to a conclusion with lunch and dancing, the music being supplied by Jerry Luffman's orchestra.

Of the 1,006 tenants in houses owned by the Brentford and Chiswick Council, England 325 are in arrears with their rent.

Legion Appoints Adjustment Officer

TORONTO, April 8 (C.P.). — H. Wyse, London, Ont., has been appointed special travelling adjustment officer for the Canadian Legion, according to a statement issued by Lt.-Col. F. J. Picking, president of the Ontario Provincial Command yesterday.

For some time the Legion has been aawre of the fact that its members in Northern Ontario require additional service and assistance on account of the huge territory involved, the statement says: In order to take care of the needs of returned men in Northern Ontario, a special travelling adjustment officer has been appointed by the Ontario Provincial Command of the Canadian Legion. The headquarters of this officer will be located in Toronto and his duties will be to visit branches of the Legion in Northern Ontario.

Peterborough Canoe Compdny's New "Traveller"

AS EASILY HANDLED AS AN AUTOMOBILE

Accomodates nine persons with speed up to fifteen miles an hour. No discomforting noise in operation Plenty of leg room. The Traveller is easily controlled in both forward and reverse directions.

NEW INBOARD MOTOR RUNABOUT BY PETERBORO CANOE COMPANY

The "Traveller" Solves Boating Problems and is Economial.

BIG RANGE OF PRODUCTS.

Around the well known corner is at least one certainty, five months of summer which the Peterborough Canoe Company can enhance for many of us with the most complete line of boats, large and small craft, in their 52 years' operations.

This range includes a new model in the runabout type which is bound to attain a wide popularity. It is an inboard motor boat which has been named the "Traveller", designed by Evan Fraling with a definite objective of meeting a new demand that has been developing during the last few years.

In the March edition of "Canadian Power Boating", Bob Finlayson wrote a review of this trend and of the industry's prompt and successful efforts to meet it. Referring to the Peterborough Canoe Company's new 18-footer, the Traveller, Mr. Finlayson says: "She has a beam greater than five feet and a very substantial freeboard. Planking is smooth skin of cedar and all trim is mahogany. Nine persons climb into this job, too, and are comfortable in the upholstered seats. Two optional power plants are given: St. Lawrence 2 cylinder 2 cycle engine, or new Buchanan 4 cylinder 15 h.p. engine. In the price of this job fullest equipment is included and although 12 to 15 miles an hour is the speed quoted, the prices are under $800 and $900—depending on the choice of engine. Utility boat pleasure is here in abundance, and at prices thought impossible twelve months ago."

A Minimum of Noise

The Traveller is the product of recent developments in motor boating and especially of the experience that has been gained in the response and reaction of the public. Engine noise has been reduced to a minimum, permitting ordinary conversation and thereby affording a comfort that is essential to the pleasure of motor boating.

With either the Buchanan or St. Lawrence engine, equipped with an electric starter, the Traveller has all the flexibility of operation that is found in the automobile. There is a perfect range and control of speed in both directions, forward and reverse, a feature of outstanding convenience that every boat owner will understand and appreciate.

Convenient Controls

With a length of 18 feet, a beam of 63 inches and a depth of 28 inches, the Traveller has ample accommodation for nine passengers and is seaworthy in any of the inland lakes. The seats are wide, with deep backs and plenty of leg room The cushions are also life preservers, sufficient for nine passengers The engine is installed amidships and is protected from the weather by a hinged cover which also makes a convenient table when a picnic party is aboard. All controls are handy to the driver, and the steering wheel on the port side of the middle seat is another marked facility.

Vibration has been practically eliminated, operating expense is low, and the Traveller is light enough for storage at the average summer cottage without requiring a derrick.

Fine Range of Boats

The showrooms of the Peterborough Canoe Company present an interesting display, the range of diversified products including canoes from 12 feet to 22 feet, special canoes for transport by airplane, designed particularly for use in the north country. The outboard group extends from the sea flea type, small boats of 10½ feet that can be carried on top of an automobile to the 18-foot Admiral and the new Viking designed for the more powerful portable engines. There are also dusk boats, yacht tenders, fancy canoes and skiffs.

Five distinct models are shown in the larger motor boats with inboard motor installation including the company's splendid "Frontenac" cruiser.

In the dinghy class the "Pal" is especially attractive to the younger members of the family. It is a sturdy, seaworthy craft, with center board and fifty foot sail, priced at $150.

FRED CROWE IS PLANT OFFICIAL

Reports Read at Annual Meeting of Warsaw Cheese Factory.

MOTIONS PASSED.

(Examiner Correspondence.)

WARSAW, April 9. — The annual meeting of the patrons of the Warsaw cheese factory took place on Wednesday afternoon in the factory with a splendid attendance, showing that more interest is being taken in the industry.

W. S. Anderson was appointed chairman and Fred M. Crowe secretary.

The secretary's report was read, discussed and adopted.

William Davis moved, and Percy Bell seconded a motion that the patrons be paid twice a month.

There was considerable discussion, and then carried that they be paid some money at the end of the month, and at the regular time receive a statement and remainder due for the month.

Fred Crowe was re-appointed secretary and salesman, and Arthur Edwards was appointed assistant salesman.

Other motions carried were that the original motion forbidding the feeding of turnips be enforced; that the whey be sold at 10c a barrel; that the secretary be instructed to insure the cheese.

A feature of the meeting was an address by Mr. Moore, the dairy instructor, the burden of which was to produce more and better cheese. He gave many points which should help.

Mr. Moore strongly advised a producers' organization. The cheese makers' organization had done much to improve the quality of cheese. A producers' organization, working in conjunction with it should bring up the product.

Mr. Seehaver, a cheese maker of Perth county, explained conditions in Western Ontario, and drew comparisons between conditions and products in Eastern and Western Ontario.

Both addresses were listened to with much interest and a hearty vote of thanks was tendered each for his visit and address.

Mr. Cutcliff's gift of cigars was thoroughly appreciated and a vote of thanks expressed for them.

The financial statement of Warsaw cheese factory from October 31, 1930, to October 31, 1931, is as follows:

Total lbs. of milk, 808204.
Total lbs. of butter fat 28712.22.
Total lbs. of cheese, 72446.
Gross value, $8538.38.
Amount paid to patrons was $6827.10.
Paid for manufacturing and hauling $1612.50; current expenses $98 78.

On account of the condition of the roads the Temperance W.M.S. is postponed.

The regular meeting of the Warsaw Women's Institute will be held at the home of Mrs. Uriah Payne on Thursday afternoon, April 13. Several items of business and interest are on the program as well as papers on Legislation by Mrs. Thos Cooper and on Agriculture by Mrs. E. N McDonald.

PHOTO CONTEST FOR AMATEURS

Announced at Convention of Master Photo Finishers of Eastern Canada.

WILL LAST 26 WEEKS.

Details of the "master snap" contest sponsored by the Master Photo Finishers of America, an international competition for amateur photographers, were explained at the meeting of the eastern Canadian division of the Photo Finishers at the Empress Hotel Friday.

This contest beginning May 1st will continue for twenty-six weeks, the winner sharing $5,000. Locally, it is planned to select each week the three best snapshots submitted, and forward them to the headquarters of the Master Photo Finishers of America as entries in the competition. At the same time enlargements will be made of these three snapshots and will be given as a local prize to the successful contestants.

Lewis R. Parks of Peterborough, president of the Eastern Canadian Division, was chairman of Friday's program which opened with noon luncheon and concluded with a banquet in the evening. D. A. Lynn of Toronto, territorial vice-president, opened the business of the convention after welcome was extended by Mr. Parks.

Roy White of Buffalo gave a talk on "Bromide Papers in the Finishing Plant." H. E. Woolever, Crystal Beach, discussed the promotion of indoor picture taking.

Frank Horton, president of the New York state division, spoke on the subject "What the Druggist Expects From the Photo Finisher." An excellent film entitled "Profits Plus" from the Eastman Company's studios was shown by Mr. Parks, an illustrated and exceedingly helpful lesson in the selling of cameras and photograph supplies.

Other items on the program were "Pocketbook Talkies" by Mr. Horton; "Film Development" by Mr. Lynn and contest features by Mr. Woolever and Mr. Horton.

The Photo Finishers and their wives visited the Lift Lock, and nearly all of them "shot" it with their cameras, as a personal souvenir of their first collective visit to Peterborough.

Northrop Brothers orchestra played an enjoyable dinner program of music, and every feature of the convention was splendidly provided by the Empress management.

MILLBROOK TAX ROLL RETURNED

Accounts Passed at Regular Meeting of Council for April.

UNPAID TAX BALANCE.

MILLBROOK, April 9.—Reeve P. Stinson presided at the April meeting of the Millbrook council, held on April 5th at 7.30 p.m., Councillors J. R. Eakins and P. I. Bentley absent through illness.

The firemen made a report of practices on April 4, declaring everything in good order.

W. C. Fallis, collector, made report of taxes outstanding, and returned the roll which was accepted by council.

The treasurer was instructed to collect certain balances, and to have other taxes registered against the properties.

The following accounts were presented, and on motion of Councillors Ingram and Ball, ordered paid: Hydro Electric, street lighting, $71.17, town hall current, $3.44; $74.61; Millbrook Telephone Company, account, $3.70; W. Tremaine, account 1930 road roller, $20.75; Harry Whyte, shovelling snow, 75c; J. Deyell, constable, $10, snow, 75c; $10.75; C. Thorndyke, first quarter salary, $50; H. Nattress, caretaker, $15, meals, $22.50; $37.50; W. West, cleaning culverts, $1; H. C. Lord, repairs bridge, $1.10; B. Raper, shovelling snow, $1.25; S. E. Eakins, colored lamps, etc., $6.41; S. Donenlly, shovelling snow, $3.67; W. G. Russell and Sons, coal, $34.75; Mrs. George Ward, care Miss Gillott, $20; W. C. Fallis, balance salary as collector and telephone, $25.75.

Are You Diseased by CATARRH

Following Symptoms Are Sure Signs of Dangerous Catarrh.

Eyes red and watery?
Difficulty in breathing?
Are the nostrils stuffy?
Do you sneeze frequently?
Is your throat hoarse?
Do you not spit phlegm?
Oppression in the chest?
A ringing in the ears?

How to Get Well!

"No one can know better than I the enormous benefit one gets from the very first day's use of Catarrhozone," writes T. T. Hopkins, of Westvale. "I had for years a stubborn case of Bronchial Catarrh, ear noises, headache, sore eyes, stopped-up nose and throat. It affected my appetite and made my breath rank. Catarrhozone restored me quickly."

All chemists sell Catarrh-O-zone, in three sizes — 25c, 50c, $1.00. Satisfaction guaranteed.

Use Catarrhozone and Get well.

Man's Finger Sent With Extortion Note

CLEVELAND, Apr. 9.—A severed human finger, sent to John H. Wilberding, financier and sportsman with a grim extortion note, was traced by police of Cleveland Heights yesterday to a Northern Ohio Medical School.

Police Chief Edward Barrows of Cleveland Heights said the finger—the index finger hacked from a dead man—had been stolen from the school. He declined to name the school.

Police revealed they waited in ambush at Wilberding's home last night, the time named in the letter for the financier to turn $3,000 in small bills over to a messenger. The extortionist, however, failed to appear.

OMEMEE PLANS OLD HOME WEEK

Athletic Association Assumes Leadership for Re-union July 30-Aug. 1.

H. LAMB, PRESIDENT.

OMEMEE, April 9.—A meeting of the Omemee Athletic Society was held in the council chambers Wednesday when after much discussion the entire staff of officers for 1931 were re-elected for the year 1932. The officers are as follows:

President, H. Lamb; vice-president, F. Parker; secretary, S. J. Mackey.

The desirability of holding the annual sports day on the 24th of May received much discussion. This was left in abeyance until the next meeting. A motion was made and seconded that the Athletic Association sponsor an Old Home Week on the 30th, 31st of July and August 1st. An open meeting of the citizens of the village and surrounding district will be held in the council chambers at 7 o'clock, Monday, April 11th.

Scientific Shoes for your Children's Feet

Fit them with the shoes recommended by doctors

For growing children of all ages—normal, strong or weak-footed, specialists recommend Cantilever Shoes. They fulfil every requirement of shape, flexibility and construction necessary for the healthy foot development of boys and girls. And at the same time are good looking and economical.

Fit your children's feet with Cantilever now, and let them function as Nature meant they should.

Built in widths and lengths to fit every growing foot—with Cantilever flexible arch and genuine flexible Gold Spot soles.

Cantilever FLEXIBLE ARCH Shoes

THE CANADIAN DEPARTMENT STORES LTD

Westwood

Mrs. Robert Douglas was hostess on Wednesday afternoon to the members of the Women's Missionary Society of St. Andrew's United Church. In the devotional exercises a reading on "Thomas—the man of moods" was given by Mrs. Charles Brackenridge. Those taking part in the topic, "A new day in Korea" were Miss Jessie Davidson, Mrs. E. Sargent, Mrs. Don Cameron, Mrs. James Sargent, Mrs. R. Douglas, Mrs. Scott and Miss Elizabeth Davidson.

After singing the hymn "Take time to be holy," Miss Comstock led in prayer and pronounced the benediction.

Mr. Harold Humphries has returned to the village after spending the winter months with friends in Peterborough.

Miss Irene Fife of Otonabee is a guest of her aunt, Mrs. M. Manley.

Mr. and Mrs. Thomas Brackenridge spent Tuesday evening guests of Mr. and Miss E. Comstock.

Mr. Eric Elliott, B.A., of Ottawa was a guest at the home of Mr. and Mrs. E. W. Sargent on Thursday.

Miss Jean Cummiskey of Peterborough is spending a few days with her parents, Mr. and Mrs. Victor Cummiskey.

Mrs. Hilliard Neilson spent Tuesday afternoon with Mrs. Sidney Warr.

Mr. Charles Nevins is spending a few weeks with friends in Norwood.

Mrs. S. Trotter is a guest at the home of Mrs. Joseph Comstock.

Miss Bessie Sargent of Toronto spent a few days recently at her home here.

Thomasburg

Mr. Ross Wilson of Smith Falls has returned home after spending the past week at the home of Mr. Harry Lee.

Mr. and Mrs. Alfred Davis of Tweed spent the tea hour on Sunday with Mr. and Mrs. Joseph Chappell.

Mr. and Mrs. Damon McCamon and Messrs. Thomas Coulson and Edward Carter attended the funeral of Mr. Walter Latta at Campbellford on Tuesday.

Misses Helen and Amy McTaggart have returned home to Stirling after spending the Easter holidays with their father, Mr. Willard McTaggart.

Mrs. Walter Harrison and Mrs. Laura Prentice called on Mrs. Murney Geen on Tuesday afternoon.

Miss Winnifred Tavener of Napanee returned on Monday to resume her duties as teaching.

Mrs. J. W. Flatt called on Mrs. James E. Brown on Tuesday afternoon.

CANADIAN DEPARTMENT STORES LIMITED

GRAIN AND PRODUCE REVIEWS

TORONTO PRODUCE

TORONTO, April 9.—Almost daily price reductions on regraded and fresh butter failed to stimulate trade on the local market this week, and at the close of trading yesterday the market was very soft. Last week buyers were showing an indifferent attitude toward choice offerings and brokers, in an endeavor to improve marketings, reduced their asking prices. But little trade resulted, and with Western butter offered, the market became very weak. Trading was almost at a standstill all week, and yesterday this market was a dull affair, with brokers asking 22½c to 23c for choice quality solids and small sales being reported at 22c. Western butter was offered yesterday at 23c, delivered, Toronto, but this price did not cause any commotion whatever. Some brokers were under the impression that buying might be more active at the beginning of next week, but hesitated to forecast the prices that might govern.

Cream Steady

Cream prices were steady during the greater part of the week, but yesterday there were signs of easiness. Buyers in this city stated that they would probably reduce their quotations to 21c for No. 1 at the first of next week, but were content at the week-end to quote 23c to 24c for special, 22c to 23c for No. 1 and 19c to 20c for No. 2 f.o.b. country points.

Cheese Lower

Prices for new cheese eased down during the week, with the final reduction on Friday. Brokers cut their quotations and wholesalers followed in their offerings to the trade. Yesterday brokers offered new makes at 10½c to 10¾c for large, 10¾c to 11c for twins and 11c to 11¼c for triplets. Retailers were quoted new large at 12c, new twins at 12¼c, new triplets at 12½c, and new stiltons at 14½c.

Eggs Firm

Though country egg shippers and retailers were unaffected this week, in regard to prices, there was a firmer tone to the local market, and on Friday brokers' quotations for graded lots were definitely higher. Brokers were able to secure 17c for extras, 15c for firsts and 13c to 13½c for seconds, graded and in free cases. Reports from Ontario points indicated storing activities and eggs packed in export cases, for storing were quoted at 18½c to 19c for extras, and 16½c to 17c for firsts.

LIVERPOOL QUOTATIONS

LIVERPOOL, April 9.—The following are the closing quotations:

Wheat spot, unquoted.
Hams, long cut, 12-16 lbs, 82s.
Short cut, 12-14 lbs., 72s 6d.
Extra skinned, 78s.
Picnics, 5-6 lbs., 51s 6d.
Bacon, Cumberland cut, 32-40 lbs., 48s.
Canadian Wiltshires, 94s.
Clear bellies, nominal.
Long clear middles, 28-35 lbs., 70s.
Short clear backs, 12-20 lbs., 67s.
Shoulders square, nominal.
Lard, prime western in tierces, 37s 9d.
American refined, in boxes, 39s 6d.
Cheese, Canadian finest white, new, 73s.
Colored, new, 72s.
Linseed oil, raw, 18s 3d.
Petroleum, No. 1, 10d; No. 2, 11d.
Rosin types F and G, 15s.
Turpentine spirits, 60s 9d.

MONTREAL PRODUCE

MONTREAL, April 9.—Seeking an export level, butter yesterday took a three-cent drop on the produce and dairy market here following Thursday's decline of 2 to 2½ cents. Eggs were slightly higher and cheese and potatoes continued steady.

With the making of new butter definitely increasing, regraded No. 1, in broken lots, finished the day at 18 closing quotations. Receipts were 497 boxes and for the first five days this week totalled 4,421 boxes, as compared with 2,281 boxes in the corresponding period of last week.

Quotations of fresh eggs, in cartons, to retailers were mainly a cent higher, specials at 25 cents, extras at 23 to 24 cents and seconds at 20 cents, all being up a cent while firsts at 21 to 22 cents a dozen held firm. Fresh graded Ontario or Prairie eggs, in carlots or less, were unchanged, extras being quoted at 19 cents, firsts at 17 cents, and seconds at 15 cents a dozen. Receipts were 1,444 cases.

The potato market ruled firm quotations or broken lots per 80-pound bag being 30 to 40 cents for Quebec Whites and 45 to 50 cents for Quebec and New Brunswick Green Mountains. Carlot prices were ten cents a bag cheaper than the broken lot levels.

CHICAGO GRAIN

CHICAGO, April 9. — Jolted by breaks in securities, the grain markets collapsed three cents yesterday both for wheat and corn, with corn reaching bottom prices unmatched since 1900.

Tumbling of cereal values was in apparently complete disregard of correct predictions that the Government crop report issued after the close of trading would prove bullish. It was shown by the report that the 1932 harvest of domestic winter wheat would probably total 42,000,000 bushels less than the average of recent unofficial estimates and that the condition of the crop was also well below private returns.

Oats Decline

Wheat closed nervous at the day's lowest level, 2⅞ to 3¼ cents under Thursday's finish; corn, 2½ to 3 cents down; oats, ⅝ to ⅞ cents off, and provisions varying from 2 cents decline to 5 cents advance.

The shadow of the stock market darkened the wheat pit from the start, and in the late dealings led to a lively outburst of sales to stop losses. It was at this stage especially that all cereal prices suffered their chief shrinkage, holders endeavoring to unload on a market that was almost bare of orders to buy. Bullish features of the wheat market situation were ignored, the pit being apparently unnerved by persistent declines in securities.

WINNIPEG GRAIN.

WINNIPEG, April 9. — Influenced by weakness of Liverpool wheat quotations and absence of any export trade, grain prices took a pronounced downturn in the pit yesterday. Values at the close were 1¾c to 1⅞c lower than Thursday's final figures.

May and July each lost 1¾c at 60⅝c and 62½c respectively, while October eased 1⅞c to close at 54⅝c.

Relative weakness at Chicago near the close, due to uncertainty over activities of the Federal Farm Board and a nervous security market, further contributed to weakness here.

Little export trade was worked overnight. There appeared to be some transacted near the close, but figures could not be confirmed. It was not of sufficient proportions, however, to make any impression on values.

Reports Are Disturbing.

A report from Washington stated that the House of Representatives were considering the question of transferring the activities of the Federal Farm Board to the Department of Agriculture. This report had a disturbing influence at Chicago, which, in turn, was reflected here.

Advices from Europe offered little encouragement, and the Liverpool market eased off in the final stages. Broomhall reported some inquiry for Canadian wheat, but regarded the firmness on Argentine offers chiefly responsible for steadiness abroad.

Demand for cash wheat and coarse grains were negligible, spreads generally were unchanged to slightly lower, in sympathy with wheat.

Futures:

Wheat—	Open	High	Low	Close	Prev. Close
May	.62⅞	.62⅞	.60½	.60⅝	.62⅝
July	.64⅝	.64⅝	.62½	.62½	.64¼

WOMEN'S INSTITUTE WEEKLY COLUMN

A goodly thing it is to meet
In Friendship's circle bright
Where nothing stains the pleasure sweet,
Or dims the radiant light.
No unkind word our lips shall pass,
No envy sour the mind:
But each shall seek the common weal—
The good of all mankind.

STIRLING

"Farm Home Beautifying," was the talk given by a member of the Stirling Women's Institute, which was in part. "Ontario is a land of homes. Many come from all parts of the world and make this statement. This is what has impressed them most.

"No greater tribute can be paid to our province. It gives us great satisfaction to feel that the houses which dot the landscape and form the community, are not simply places for eating and sleeping—filling stations—as they have been called, but places where people really live, rear their families and form the ideals of the nation.

"A great deal of money is not necessary to procure shrubs. At the Ontario Agricultural College, Guelph, a large number of the shrubs are native and can be found in the woods in all parts of Ontario. The bittersweet is a prominent shrub in that place with a background of evergreen trees. The red bark dogwood is a beautiful shrub. In the Garden of Eden planted by God were goodly trees in the springing sod—trees of beauty, height and grace, the trembling aspen, the noble pine, the sweeping elm. Trees for vintage, for fire, for shade, trees for the cunning builders trade—wood for the bow, the spear and flail, the keel and the mast for the daring sail.

"Where is heaven?—is it not
Just a friendly garden plot.
Walled with stone and roofed with sun
Where the days pass one by one.
Not too fast and not too slow.
Looking backward as they go
At the beauties left behind
To transport the pensive mind."

YOUNG'S POINT

The following is a paper given by Mrs. E. C. Moore, at the monthly meeting of the Young's Point Branch of the Women's Institute held at Mrs. Moore's home recently.

"To-day we are closing the old year of the Institute. As thoughtfully we look back on our endeavours, I am sure that we all feel that many of our plans have not come to full fruition.

"The new year confronts us with all its possibilities, its new jobs to be done, and new responsibilities to be shouldered.

We all dream of great deeds and high positions away from the pettiness and hum-drum of ordinary life. Yet success is not occupying a lofty place or doing conspicuous works It is doing the best that is in you. Make the most of what you have and are. Do the thing near at hand and great things will come to your hand to be done.

"The best way, I believe to make our Institute the great influence it should be in the coming year, is to start the year with a definite objective. We hold in our hands the power to make our society a strong and purposeful organization for the building up of community life. Community spirit grows in an atmosphere of friendliness and co-operation. Friendliness is the key-note of our organization. To be called a true friend is a most beautiful tribute.

Our society cannot function without the co-operation of every member. In fact as Franklin says, 'We must all hang together or assuredly we shall all hang separately.'

"Let us get together more often socially so that the spirit of understanding may be more prevalent.

This poem by Thomas Bracken and entitled "Not Understood" explains this thought:

Not Understood

Not understood, we move along asunder,
Our paths grow wider as the seasons creep
Along the years; we marvel and we wonder
Why life is life and then we fall asleep—
Not understood.

Not understood. How many many breasts are aching
For lack of sympathy, ah day by day.
How many cheerless, lonel hearts are breaking.
How many noble spirits pass away—
Not understood.

O God! that men would see a little clearer,
Or judge less harshly where they cannot see;
O God! that men would draw a little nearer
To one another; they'd be nearer Thee—
And understood.

"We cannot have true friendship nor can we work together in the cooperative spirit unless we draw a little nearer to each other and try to see more clearly the value of understanding. At each end of this beautiful village stands the sign "Welcome" raised by our Institute. Let that word enter more fully into the life of the organization that it may be said by all with whom we come in contact that the Young's Point Institute stands for welcome, friendship and co-operation.

WARSAW.

Institutes often purchase property, halls, rest-rooms, libraries, parks. When such is the case the Institute hand-book advises the branch to form what is known as a non-share capital organization, through which representatives of the Institute may become legally qualified to hold the property in the name of the organization There is an initial charge of $10 for the incorporation of the company and a yearly fee of $1.00.

The forms for making application for incorporation may be secured by writing to the Provincial Secretary, Parliament Buildings, Toronto.

If the branch should do such a thing as deliberately disband, it may decide what is to be done with the property.

If it simply dwindles to nothing, those who hold it in trust are responsible, and if no one is responsible, it shares the same fate as any other unclaimed property.

When the organization is formed with two or preferably three names if one drops out, either by death, or removal, or from any other cause, the branch should promptly see that some one takes her place.

More and more Institutes are procuring halls and making waste places into beautiful parks. In some cases they hold the property themselves. In other cases, they feel the need of a community building or park and it becomes community property, and the branch has the use of it as needed. Naturally there are specific agreements to be made, and full information may be secured by writing to the Co-operation Branch, Department of Agriculture, Parliament Buildings, Toronto.

Perhaps life membership in Institutes is not often considered, but there may be branch, district and provincial federation life memberships, which entitle the life member to voting power in the branch to which she belongs.

A member cannot just pay the five dollars and become a life member. She must have been an active member for at least ten years, and be approved by the branch board of directors, then the payment of five dollars gives her a life membership.

To have a life membership granted by the district there is a $10 fee to the district and $5 to the branch to which the member belongs, and for the provincial federation there is $10 to the federation, $10 to the district and $5 to the branch. Until a few years ago the ten years' active service was not demanded, but reasons appeared which necessitated some restriction.

Hand books are not sent to every member, but any member desiring one to use and study may secure one by writing to Mr. Putnam, Institute Branch, Department of Agriculture, Parliament Buildings, Toronto. If several members each need one, it saves postage for one to write and specify the names of those desiring hand-books, and all may be mailed to one address.

LIFFORD LINE

April is the month when Institute workers throughout the land are investigating, discussing and passing along what is new and good in housekeeping helps.

We are inclined to be very house critical just now but that is only to be expected when April sunshine lights up the weak spots that have lain discreetly hidden all winter.

There is nothing like a spring-cleaning campaign to reveal to us all that needs attending to in the home. The trouble is that we can't do everything all at once, but one thing we can do while our deficiencies are still fresh with us. Let's make a list of all the things we require—new equipment, alterations, everything that will make the home more comfortable—and then make up our minds to get them attended to gradually as we can afford them. That is a much better method than buying indiscriminately when we suddenly feel we simply can't put up with such-and-such an old-fashioned thing a moment longer. By taking stock carefully now as we go through the house we can decide just what is most necessary to buy first, and exactly what we can afford in view of the waiting list of scarcely less necessary articles and in that way we can avail falling victims to the spring buying fever that is so disastrous to our purses and our morals.

MILLBROOK

Some "Home Hints" were considered at an Institute gathering with consequent gain to the members, the question how to keep moths out of clothes' cupboards bringing the answer, 'tried and true' as the speaker asserted, to paint the walls, shelves, woodwork, and floors with turpentine, paying particular attention to corners, 'and you will never be troubled with moths again.'

Another brought up the matter of ants in pantries, and any place where food was kept, a novel remedy, but one the giver declared she had found effectacious, being to 'cut cucumber rind into thin strips and put these where ants abound, and you will invariably find they have been driven away.'

The president of this branch had a difficulty of her own on which help was wanted, and that was how best to fill up nail holes in woodwork before proceeding to re-decorate a room, the answer being that sawdust and glue made into a stiff holes, and left to harden would meet the situation nicely. 'It will become as hard as the wood itself' the one who advanced the helpful suggestion declared.

An unusual request for help came from a member who said she had put a coffee pot away for some time because her family decided to avoid the use of this drink at the breakfast hour for a season, and now when it had again been brought out and a potful of coffee made there was a decidedly musty taste to the beverage. An experienced homemaker gave the reply this time, urging washing tea or coffee pots thoroughly before putting away, "using boiling water in which a lump of soda (generous in size) has been dissolved. Then rinse it with cold water and leave to dry; there will be no mustiness when you bring either the tea or coffee receptacle into use once more."

A new idea in cooking squashes was asked for, "since my family like them often, but for myself I am not so fond of this particular kind of meat and would like a new way of preparing the dish," brought the suggestion to "pare large potatoes, and with an apple corer make a tunnel through each, then draw the sausages through, put in a baking pan with a slice of fat pork, or bacon, over each potato, and bake until well done, basting occasionally with the dripping and a little hot water."

Another recommended making a fairly rich biscuit dough, and rolling each sausage in a bit that was not too thick, then baking in a hot oven, serving immediately with creamed peas over the helping on each individual plate. "Or if it is sausage meat you are using, roll the dough thin, place a nice helping of the meat on each, bring the edges over like a turnover, moistening and pressing together, and bake twenty minutes in the oven. Either peas or tomatoes are good with this dish."

"Turkish eggs" was a new recipe to all present with the exception of the one who told of the new way of serving these staple articles of diet, the method being: Chop enough cold chicken, or ham, to make one cupful; add half the quantity of bread crumbs, and season to taste. Add a little gravy, stock, or even hot water, and warm in hot butter until it absorbs the latter. Then spread in small dishes (patty or gem pans are good), break an egg on top of each, sprinkle with salt and set in oven until the eggs are firm."

As a final item on this helpful program an idea in the cooking of cabbage was given which included adding a peeled onion to the same when boiling, and "it will not only deaden the smell throughout the house, but give the cabbage a delicious flavor."

MOUNT PLEASANT

The following paper in part given by Miss C. B. King will prove beneficial and useful during the coming summer in these times of depression and low prices since it behooves housewives to live within produce from the farm as far as is possible. "Cottage cheese as a main-dish food."

Cottage cheese at its best, is a delightful adjunct to a menu; it may be served in so many attractive ways, combines so readily with appetizing accessories, and is with all a nutritious and wholesome food.

To be perfect it should be delicate and smooth, not the thick, dry crumbly mass that so often is served. Fortunately it is now quite possible to buy a very good quality of cottage cheese in many of the city markets or dairies in either the raw form or mixed ready for use. If, however, it is desired to make it at home, one must observe the proper method.

Thick curdled milk that has soured quickly is the best foundation for a good quality of cottage cheese. There are several ways of transforming it into cheese. The easiest is to set the bowl containing the thick sour milk into a pan of hot water where it will at no time be more than luke warm. When the whey has separated, and thick large curds have formed, pour into a cheese cloth bag and hang to drain for twenty minutes, then turn into a colander and beat in a teaspoonful of butter to a quart of curd, add salt to taste and leave to drain for an hour or two longer. The butter added to the warm curd produces another method is to put two quarts or more of soured milk where it will become warm through. When broken into a large curds, turn into a colander and pour several quarts of hot, not boiling, water through it slowly. Cover with a plate on which a weight has been placed and drain several hours. The curds should turn from the colander in a solid mass. Mash to taste and moisten with thick sweet cream.

At this stage the members got their note books and pencils and copied recipes that were included in her paper made with cottage cheese.

Fluffy cheese is a variation of cottage cheese that is delicate and easy to make. Turn thick sour milk into a cheese-cloth bag or fine strainer, and drain for several hours, but not until dry enough to crumble. Place in a bowl, add a pinch of salt, a tablespoonful or two of lemon juice, and a teaspoonful of sugar. Then beat with a rotary beater until very light and fluffy and chill well before serving. Two quarts will make one pint of cheese. This cheese goes particularly well with Graham, whole-wheat or nut bread.

Devonshire Cream might be termed the English version of cottage cheese, although it is made of sweet cream. In making it the fresh milk is strained into a deep pan and allowed to stand in a cold place twenty-four hours, then heated very slowly to 90 degrees F. Then remove to a cold place for twenty-four hours. The cream will be so thick that it may be removed in one piece. Beat it lightly with a silver fork to make it smooth enough to serve with a spoon. Eat with fresh strawberries or currants or with apple pie for a real feast.

Cottage cheese freshly made is fragrant and delicious enough to satisfy any appetite for a main dish food. It is delicious for picnic spreads moistened with thick sweet cream and flavored with a few caraway seeds, a little chopped paraley, pickles, olives, nuts, cloves or pimentos or two or three of these accessories that combine tastily. The cheese so prepared is a delectable spread for white, rye, brown or nut bread. Rye bread sandwiches with caraway flavored cottage cheese are very appetizing, and cottage cheese, gingerbread and a glass of milk also make a delectable luncheon.

Canadian Girl Married In Paris

INTERESTING AND LOVELY WEDDING GROUP.

Mr. and Mrs. Reginald Arthur Hignett, of Liverpool, photographed with friends immediately after their wedding in Paris, France. The bride was formerly Miss Marjorie Mulock, daughter of the late William Mulock, K.C., and granddaughter of Sir William Mulock, Chief Justice of Ontario. Tells Dyspeptics What to Eat

Strict Diets often unnecessary

It is a well known fact that some foods have a strong endency to produce excessive stomach acidity and consequent indigestion By omitting from daily meals those to do that experience proves do not agree and limiting the diet to certain tasteless unappetizing foods, stomach troubles may in many instances be slowly overcome Nine times in ten however indigestion gas etc are due to excessive acidity and the premature souring of food in the stomach Keep the stomach clean and sweet by freeing it of this extra acid and then sufferers can eat the foods they like best and as much as they want in reason and have no stomach trouble at all Thousands of people do this daily by merely taking after every meal a little Bisurated Magnesia which can be had at any good drug store in either powder or tablet form Bisurated Magnesia instantly neutralizes stomach acids, stops food fermentation and helps digest as naturally and painlessly as in the stomach of a healthy child Stomach comfort means a lot and most folks like good things to eat enjoy them both by making Bisurated Magnesia your daily after-eating protection.

Missionary Leaders Are On Visit To City

Closely associated with the district in London in which the late General William Booth cradled the work of the Salvation Army and which has now extended to all corners of the earth, Adjutant G. J. Owen Boyden is particularly well fitted to conduct the Sunday afternoon service at the Army Temple of the local corps, in commemoration of the birthday anniversary of the founder.

Adjutant Boyden is married to a Peterborough girl, formerly Miss C. Lang of Elm street, and herself an adjutant in the Salvation Army Both are at present on furlough in this city, from their missionary work in India and to which they are returning in October.

To-night they will both lecture on their work. Adjutant Mrs. Boyden will speak of her experiences in Burmah, while her husband will give a lecture entitled "Converted Head Hunters in India." Again on Wednesday next they will both give a demonstration of "Scenes in India as We See Them."

An American gold dollar, dated 1853, was sold at auction in London recently for $1.30.

American office appliances received into Switzerland last year were valued at $896,470.

ST. GEORGE'S GUILD PLANNING CONCERT

Sunshine Bags Held During Lent Are Collected.

St. George's Ladies' Guild held their regular meeting on Thursday afternoon in the church basement, with a good attendance of members. Mrs. F. McBride, president, conducted the opening devotions.

The treasurer gave a favorable report of the finances. The "Sunshine" bags which had been used by the members during Lent were brought in, and more envelopes for "holiday coins" were given out.

The ladies decided to have a concert on Friday evening, April 22, to commemorate St. George's Day, the proceeds to augment their funds.

Other items of business were discussed, after which the president closed the meeting.

Women's Association Meets At Fleetwood

(Examiner Correspondence.)

FLEETWOOD, April 9.—The Women's Association met at the home of Mrs. Ernest Staples.

The April meeting of the Fleetwood Women's Association was held on Wednesday afternoon at the home of the financial secretary, Mrs. Ernest Staples.

The regular officers were in charge of the meeting, conducting the preliminary business and leading in subsequent discussions.

A number of finished quilt blocks were brought in by the ladies while a few were also sent by members unable to be present. The required number of blocks are now completed, and Mrs. Leslie kindly volunteered to sew them together at her home at her earliest convenience.

Following these arrangements a place and time for quilting will be decided on.

The interesting play, "The Road Back," under the auspices of the Women's Association, is nearing readiness for presentation but it was considered advisable to postpone the setting of the date for the same until such time as good roads for motoring could be assured.

At the close of the meeting refreshments were served by the hostess, assisted by Mrs. Sutton.

The kind offer of Mrs. Sutton to hold the May meeting at her home was pleasurably accepted by the members present.

Good Program At Institute Meeting

YOUNG'S POINT

(Examiner Correspondence.)

YOUNG'S POINT, April 9. — On Wednesday, April 6, the monthly meeting of the Women's Institute was held at the home of Mrs. E. C. Moore with an attendance of fourteen members.

Mrs. A. Wilson offered her home for the quilting of one of the quilts on Thursday, April 14th. Letters were read by the secretary from Mr. and Mrs. Percy Northey thanking the Institute for kindness received at the time of their fire, and from Mrs. F. M. Young for the letters and kindness received during her recent illness.

Mrs. E. C. Moore, who had charge of the program, read a splendid paper on "Looking forward to the New Year."

After a delightful lunch had been served by the hostess everyone joined in a hearty sing song from the song sheets forwarded by the Department of Agriculture, with Daisy Wilson assisting at the piano.

A vote of thanks was given Mrs. Moore for her hospitality.

The May meeting will be held on Wednesday evening, May 4 at the home of Mrs. W. Scollard, at 7.30 p.m.

YOUNG'S POINT.

Miss Mary Buchanan, who has spent the Easter vacation with her parents, Mr. and Mrs. Walter Young, has returned to her school near Chatham, where she has been been teaching for the past year.

Miss Irene Young has returned home after spending an extended visit with friends in Toronto, Wndsor and Detroit.

Miss Viola Redpath of Lakefield, has returned to the village after spending the Easter vacation at her home in Lakefield.

Mr. and Mrs. H. B. Simons were visitors to Peterborough on Tuesday last.

Mr. and Mrs. Dave Darling spent the past week-end in Peterborough, the guests of Mr. and Mrs. Percy Stenner.

Mr. Audrey Wilson of Buckhorn was in the village on Wednesday.

Mr. Billy Ayotte of Clydesdale, visited with friends in the village on Monday.

Miss Daisy Wilson spent the past week-end with friends in Peterborough.

Mr. Victor Young attended the funeral of his aunt, the late Mrs. Armstrong of Toronto, on Tuesday last.

Mrs. E. Young spent a few days in Toronto, where she also attended the funeral of her sister, Mrs. Armstrong.

Mr. L. Wilson spent the week-end with friends in Peterborough.

WHEN TEETHING makes HIM FUSSY

Teething time brings its troubles! For so often teeth cut through the tender gums in hot weather, when there is danger of digestive upsets anyway.

One of the most important things you can do to make a teething baby comfortable, is to see that waste matter is carried off promptly and regularly.

For this, there's nothing like Castoria. It is made specially for the delicate needs of babies and children. It acts so gently, you can give it to young infants to relieve colic pains. Yet it is always effective—keeps older children well regulated.

Castoria is a harmless vegetable preparation; it contains no harsh drugs, no narcotics.

When your baby is fretful and feverish with teething or a stomach disturbance, give a cleansing dose of Castoria to make him comfortable and happy. Children like the taste of genuine Castoria—never object to taking it. Be sure you get it with the name, Chas. H. Fletcher, on the package.

Chas. H. Fletcher. (MADE IN CANADA)

CASTORIA

CHILDREN CRY FOR IT

Stirling

Lenora Stapley of Madoc Junction is visiting Mrs. J. Bronson in Stirling.

Mrs. Harry Jones, Betty and Dorothy of Stirling visited Mrs. G. Eggleton of Madoc Junction, last week.

James Vanderwater of the Royal Bank staff, Toronto, is visiting his mother.

Miss S. Delaney and her brother Joe have returned from spending the winter in Detroit.

Mrs. J. Gould of Toronto, has been visiting her mother, Mrs. J. Hawkins.

Mrs. Vernon Matthews and Lillian have been visiting Mrs. Robert Bush of River Valley.

Mr. and Mrs. Allen J. Meiklejohn of Kingston, were in Stirling on Thursday.

Mr. J. Marshall (former Stirling resident) has become manager of the box factory in Norwood.

Backaches

indicate kidney trouble. Gin Pills give prompt and permanent relief as they act directly but gently on the kidneys—soothing, healing and strengthening them. 50c a box at all druggists.

198

NO DISTRESS after eating

GET RID of that old dread of indigestion and eat without fear of distress.

When food ferments, disagrees; lies like lead in the stomach, it is a sign of too much acid The stomach nerves have been over-stimulated The quick corrective is an alkali Don't resort to burning doses of soda—take instead, an anti-acid that will correct the condition Phillips' Milk of Magnesia!

A spoonful of this soothing alkali restores the proper alkaline balance to an acid-soaked system. Then the stomach liver, and bowels function as they should

Phillips' Milk of Magnesia is what you need when bad breath or coated tongue indicate too much acid. Take a spoonful today, and for several days and see how soon it sweetens the entire system. Your digestion will be vastly improved Things will taste better and you will feel better in so many ways.

Also you will find when your system is properly alkaline you are not so susceptible to sickness and colds That you are no longer troubled with constipation or with headaches gas on the stomach An alkaline balance builds resistance.

Ask for Phillips Milk of Magnesia which is the preparation of magnesia prescribed and recommended by your own doctor for correcting excess acid 50c bottles are sold at drug stores everywhere in the Dominion.

To avoid the condition of acid mouth you should use a milk of magnesia tooth-paste Your teeth are worthy of the best dentifrice. Try Phillips Dental Magnesia which contains 75% concentrated Phillips' Milk of Magnesia

PHILLIPS' MILK OF MAGNESIA

MADE IN CANADA

4 NEW CHRYSLERS

WITH THE GREATEST ENGINEERING DEVELOPMENTS OF MODERN TIMES

"CANADIAN-BUILT FOR CANADIANS"

New Chrysler Six 4-Door Sedan, $1295, f. o. b. Windsor—(Special equipment extra)

THE new Chrysler cars offer the greatest engineering developments of modern times—*FLOATING POWER*—Automatic Clutch—Free Wheeling—Silent Gear Selector—Double-Drop Girder-Truss Frames—All-Steel Bodies—4-wheel Weatherproof Hydraulic Brakes and many other modern features.

FLOATING POWER gives to Chrysler six-cylinder and eight-cylinder performance a smoothness never before achieved. Power vibration is absolutely eliminated from both frame and body.

PRICES

A new Chrysler Six, five body models, $1195 to $1295 (Automatic Clutch on all Sixes at slight extra cost); a new Chrysler Eight, four body models, $1825 to $1975; a new Chrysler Imperial Eight, two body models, $2695 to $2725 and a new Chrysler Imperial Custom Eight, with six body models, (prices furnished on specifications required). All prices f. o. b. Windsor, Ontario, including standard factory equipment (freight and taxes extra).

Chrysler's new Automatic Clutch makes driving supremely simple. You don't have to touch the clutch pedal; its completely automatic, nothing for your left foot to touch, even when starting from a standstill or using reverse.

And these features, together with the others, make the new Chrysler Six and the new Chrysler Eight smarter, roomier, more powerful, faster, quieter and safer cars. You must drive a new Chrysler to appreciate a truly up-to-date car.

NEIGHBORLY NOTES

Please Phone Items to 1000 or 1001

A very pleasant afternoon was spent at the home of Mrs. P. Wallace, 187 London street, yesterday, when she entertained the members of the W.M.S. of George Street United Church. The leader, Mrs. A. E. Stinson, presided for the devotional and busines smeeting. Mrs. C. Stevens read the scripture lesson and talks on the Oriental work were given by Mrs. Stinson and Mrs. Stevens. A vocal duet, "Ivory Palaces" was rendered by Mrs. J. A. Spencer and Mrs. W. H. Cunningham. A short business session followed at which plans were discussed for meeting their allocation. Following the meeting, the hostess served afternoon tea, and an enjoyable social half hour was spent.

• • •

Mrs. E. J. Ruiter, Gilmour street, has returned after spending two months at Cowansville, Quebec, with her parents, Mr. and Mrs. Hoover.

• • •

Recognition of the prowess of prize-winning basketball teams in the Girls' League sponsored by the Young Women's Christian Association, was a pleasant event of last night at the "Y," where a delicious banquet formed the opening for a brief program of speeches and presentations. Over one hundred girls, members of the ten teams which comprise this league, were present, with about fifteen guests, all entertained in the green room and library of the Y.W.C.A., at tables formed in "T" shape, the elongated letter lined on either side with fresh, girlish faces beaming with interest in the proceedings. The ladies in charge spared no efforts in making the whole affair pleasant and extremely enjoyable, with the friendly atmosphere of the "Y" lending a charm to a splendidly-served repast. Miss Isobel Davidson was convenor of arrangements, assisted by Mrs. Stanley Robinon, with the Misses Helen Cole, Arleigh Comstock and Maisie Cowan in charge of the tables, and assistant servers in Mrs. Richard Waugh and the Misses Mary Comstock, Mary Macdonald, Dorothy Gavine, Doris Kelly, Mary Harstone, Frances Jennings, Florence Adams, Marjorie Read. The tables were lovely in a spring color scheme of pale blue and white, the "Y" colors, and yellow. Crossing the long tables lengthwise were streamers of the blue and white colors, which were repeated in the dainty little "Y" motifs on the song sheets. There were tiny yellow decorated place cards, yellow serviettes, yellow daffodils in silver vases, and lighted blue candles, while the head table was centered with a large silver basket filled with mauve and cream iris and pussy willows, placed on a circular mirror reflector. Mr. Hector McLeod, present of the Basketball League, was in the chair, and words of welcome to the guests and of congratulation to the players were voiced by the president of the Y.W.C.A., Mrs. E. E. Harvey. Special guests of the evening included Mr. and Mrs. H. B. Choate, Mrs. and Mrs. G. A. Macdonald of Homewood avenue; Mr. and Mrs. G. H. Fearon, Mr. and Mrs. S. O. Shields, Mrs. E. E. Harvey, Mrs. H. Wightman, Mrs. H. C. Sootheran, Mrs. J. A. McNabb, Mr. Z. Levine, Mr. C. Routley, Mr. R. Kitchen and Mr. Louis Chesler, representing different elements who have been instrumental in the success of the girls, who, with their coaches, were also guests of the evening. Mr. McLeod spoke briefly of the high standard and the better brand of basketball played by the girls this year, with keen interest manifested in the games, adding a special word of congratulation to the Blue Petes, winners of the Y.W. Intermediate Trophy, who had a "heart-breaking start" and also suffered through their coach's illness. After "The King," the toast to "Basketball" was very eloquently worded by Miss Clara Patterson, a member of St. Paul's, the winning team which has captured the trophy for the second time this year. A member of the Blue Petes, Miss Mary Brooks, responded. The three silver trophies were then presented by Mrs. Harvey to the captains, as follows: To the winning team from St. Paul's, the Senior cup, the G. N. Gordon trophy, with a captain in Miss Edna Morrow, coaches in Charles McLeish and Louis Chesler, and players in the Misses Arleigh Comstock, Maisie Cowan, Clara Patterson, Jean Howson, Isabel Cowan, Sybil Jackson. Runners up, the Westclox Seniors, received the E. E. Harvey trophy, with a captain in Miss Elda Bradley, a coach in Hector McLeod, and players in the Misses Mildred Mortimer, Bella Thirnbeck, Dorothy Webb, Dorothy Millar, Gladys Mortimer, M. Lloyd, Anne Mason, Hilda Joyce and Leone Graham. The third cup, the Industrial trophy, went to the winners of the Junior award, the Blue Petes, an aggregation of young girls recruited mainly from the Y.W. and Girl Guides of the city, with a captain in Miss Patricia McClellan, coaches in Vern Armstrong and Art Ward, and players in the Misses Mary Brooks, Hazel Bradley, Ruth Millyard, Louise Lundy, Gwen Sorby and Alma Mark. The runners-up in this Junior section, although they did not receive a trophy, gave a good account of themselves. They were the Choate team, with a captain in Miss Madeline Blade, coaches in Arnold Reynolds and Dick Williams, and players in the Misses Lily Ellis, Gertrude McMahon, Barbara Blade, Louise Heffernan, Marjorie Self, Alberta Would, Grace Hawke, Yvette Rose and Genevieve Foster. Each of the girls playing basketball will later receive a pin, and each of the coaches received an individual gift last evening, including those mentioned above and the following: Howard Macdonald (Y Seniors); Joe Cooper (Y Intermediates); S. O. Shields (C.G.E.); Jack Huggins (Y Elementary); Sam McKinley (Wohelo Club) and Hector McLeod (coach for both Westclox Senior and Junior teams). Brief speeches were made by Miss Caroline Littlefield, physical directress of the Y gymnasium, who congratulated the girls on their fine showing this year, and spoke appreciatively of the work of the coaches and referees; Hector McLeish, coach of the winning team, who mentioned regularity in practice hours as a factor in the success of his charges; and Mrs. H. C. Sootheran, who, on behalf of the guests, spoke appreciateivly of the banquet and its fine arrangements. The program was enhanced by community singing, led by Howard Macdonald, in charge of the Entertainment Committee, with accompaniment by Miss Mildred Hetherington, A.T.C.M., who also played a very well-received piano solo, and a peppy tap dance by two gingham-clad experts in the art, Miss Isabel Duffus and Miss Thelma Buller. The singing of "O Canada" concluded a pleasant event.

Mr. Edgar Breffit, lecturer for the Canadian Geographical Society, and on British-Israel subjects, is visiting in the city, with Mr. and Mrs. F. Smith, Reid Street. Mr. Breffit was farming in Dakota when war broke, came to Winnipeg, joining the Fort Garry Horse, and served throughout the war. The local branch of the British-Israel Federation, has arranged to have Mr. Breffit give two lectures, explaining British-Israel truth, this coming week, in the Legion Hall on Wednesday and Thursday. Subjects will be fully advertised later.

• • •

Owing to the sudden death of one of their members, Mr. Allan McCarthy, the Badminton team from Port Hope, scheduled to play tonight at the market hall with the Peterborough Badminton Club, will be unable to come to the city. The games are postponed until some future date. Hostesses this evening for the regular play of the club will be Mrs. E. S. Martin, Miss Mildred Morphet and Miss Grace Reinhardt.

• • •

Major R. T. E. Hicks-Lyne is in Toronto today, attending the reunion dinner of the 75th Battalion C.E.F. at the King Edward Hotel.

• • •

The many friends of Mr. and Mrs. Bert McCarrell of 302 Aylmer street will regret to learn that their small daughter, Muriel, is in Nicholls Hospital for an appendicitis operation.

• • •

A very enjoyable party was held this week in Austin's Banquet Hall by the staff of the Kresge Store. The evening was pleasantly spent in dancing and games, concluding with the service of dainty refreshments. Music was played by Mr. M. Yokom. Among those present were Mr. and Mrs. S. Dewey, Mr. and Mrs. L. G. Fraser, Mr. and Mrs. Welsh, the Misses Hilda Hunter, Grace McEwen, Freda Kilcher, Mildred Fife, Bea Gash, Connie Downers, Iva Rose, Clara Conners, Gerry O'Connell, Olive Shurety, Ella Sisson, E. Riley, Agnes Holland, Nora Hayward, B. Grovelle, G. Peryer, J. Kirkcaldy and Messrs Ed Bickell, George Francis, Charles Ross, A. Milburn, Herman Riley, K. Hetherington, James Welch, Bert Lacey, A. Warman, Ken Thompson, C. Clarke, H. Kearney, F. Wood, Carlo Jensen, Tom Buckley and Bill Miller.

On Wednesday evening about 30 member of St. Luke's choir and their guests met at St. Luke's Parish Hall to partake of a sumptuous banquet. This is the first affair of its kind that the choir has had for a number of years, and those in charge are to be congratulated upon the success of the venture. The hall and tables were decorated in pasted shades of pink, yellow and green, with candles to match, these together with the daffodils, tulips and narcissus gave the room an atmosphere of dainty spring freshness. It was decided that the program would be absolutely informal and after the toast to the King, proposed by Mr. J. J. Turner, the speeches made were entirely spontaneous and touched a chord that is seldom reached by prepared speeches. Mrs. Reg. Turner congratulated the choir upon the lovely banquet and beautiful decorations. Mr. Reg. Turner spoke of the splendid work of the choir and assured them of the appreciation and support of the congregation. As the banquet happened to be held on a date very near to that of the thirty-ninth wedding anniversary of the choir leader, Mr. C. A. Hope and his wife, the choir sang for them, "Love's Old Sweet Song," and presented Mrs. Hope with a beautiful bouquet of flowers. Mr. Hope thanked the choir and the guests for their kind wishes and spoke of the choir as working together as one unit in order to promote this branch of the church's work. The banquet was in charge of Mrs. William Davies as convenor, assisted by Mrs. Bousefield and Miss E. Stewart. The decorating of the hall and tables was in charge of Mrs. James Forbes, assisted by Mrs. George Brenton and Mrs. Alex Butcher. Guests of the evening were: Mr. and Mrs. J. J. Turner, Mr. and Mrs. Reg. Turner, Miss M. Guthrie, and the church wardens, Mr. A. Butcher, and Mr. E. Heap. The ladies assisting were: Mrs. R. Maniece, Mrs. H. Fitch, Mrs. S. Long, Mrs. R. Lawless and Mrs. E. Heap.

The home of Mrs. B. W. Harvey Sherbrooke street, was the scene of a very happy gathering recently when the East and South groups of the Women's Mission Circle of Murray Street Baptist Church entertained by giving a social evening for the ladies and gentlemen and young people of the church. The guests were received by Mrs. Harvey, Mrs. A. H. Campbell and Miss E. J. Aldridge. Miss Helen Barrie sangs the solo, "Trees," very acceptably, and a number of young ladies sang, "In the Garden." Miss Elizabeth Webber, who acted as accompanist during the evening delighted all with her solo rendition of Chopin's "Polonaise." The tea-room was beautifully decorated with Spring flowers. The table was covered with a handsome lace cloth and centered with a silver basket containing roses and daffodils. Cream colored candles harmonized with the appointments. Tea was poured by Mrs. Joseph Johnston and Mrs. A. H. Campbell. The guests were ushered into the tea-room by Mrs. Bertram Jackson, president of the society. The assistants were the Misses Marian Harvey, Shirley Pettit, Phyllis Rome, Faith Briggs and Helen Barrie. Miss M. J. Barnard acted as general convener, and Miss J. Jackson as treasurer. A substantial sum was realized.

• • •

At the conclusion of the presentation of "The Rivals" under Kinsmen Club auspices in the auditorium of the Collegiate Institute last evening, refreshments were served to the cast and club members, at Hooper's Tea Rooms.

• • •

Mrs. E. G. Hardie, of 568 Weiler Street, entertained at bridge last night. Prizes were won by Mrs. Reg. McIntyre and Mrs. W. C. Lewington.

• • •

Mr. and Mrs. James S. Pickering celebrated quietly yesterday the twenty-first anniversary of their wedding.

• • •

Mr. R. M. Northcott celebrates a birthday anniversary to-day.

• • •

Mrs. T. Cruikshank, Park Street, entertained the members of the Guild of Arts and Crafts of the Lyceum Women's Art Association at her home this week, when the evening was spent in the study of Glass. Each member took part in the absence, through illness, of the scheduled speaker, Mrs. W. B. Bletcher.

• • •

The anniversary bridge party of the Peter Robinson Chapter I.O.D.E., to be held on Friday evening next at the Empress Hotel, promises to be an interesting event, with several special features included in the program.

Pupils of St. Mary's Convent were in charge of a sale of home cooking at Lane & Eano's store on Hunter Street, this morning. The sale was in charge of Miss Annie Simons, assisted by the pupils, Catherine Sweetman, Jean Turcotte, Rita Young, Margaret Eano, and Helen Quinlan.

• • •

Mr. James Skinner, genial C.P.R. ticket agent, celebrates a birthday anniversary to-day.

Mr. J. P. Bond returned this morning from Montreal, where he has been attending the Allan Cup games, also the annual convention of the Canadian Hockey Association.

• • •

Miss Alice M. Price has a birthday anniversary to-morrow.

• • •

The Social and Athletic Club of the Canadian General Electric Company held one of their very successful card parties and dances last night in the hall of the Canadian Legion, with an attendance of over three hundred people Dancing was enjoyed to music by Nixon's Orchestra of six pieces, with fruit punch served to the dancers. Thirty tables of cards were played, prizes going to Miss Blanche Hamilton (first), Mrs. Hosanna Gordon (second), Mr. E. W. Fisher (first) and Mr. A. W. Steer (second), with a special draw prize to Mr. Frank Donaldson.

• • •

The many friends of Mrs. W. B. Bletcher, Rubidge Street, will be glad to know that she is progressing favorably after her operation for gall trouble this week, at Nicholls Hospital.

English te'ephone companies estimate that the installation of automatic telephones will decrease operating costs by two-thirds.

FASHION SERVICE

Here s a cunning suit for the small boy of the house.

It has much unusualness in the way the trousers button to the blouse. The sailor type neckline is one all the little boys like so well. Note the collar terminates in scarf ends. They slip smartly through slashed openings at the center-front. It can be made with very brief sleeves or long sleeves that gather into wristbands.

Light navy blue linen combined with plain white linen in the original.

Loads of other attractive schemes can be worked out. Several suits can be made at the price of one ready bought suit.

Style No. 2783 may be had in sizes 2, 4 and 6 years.

Size 4 requires 1 yard 35-inch for blouse, with ¾ yard 35-inch for trousers.

Our new Spring Fashion Magazine is out! Every page from cover to cover is in color.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred). Price of book, 15 cents. Price of pattern, 15 cents.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

To get the best wear from rugs a homemaker should treat them with the respect which is their due.

• • • • • • •

This is especially true of Oriental and other fine handmade rugs which were never made to withstand the terrific wear which they must endure.

• • • • • • •

In the countries where these rugs are made, shoes are removed on entering a dwelling and footwear becoming indoor is put on. Here in the western countries, however, no such regard is paid the marvelous textiles.

• • • • • • •

Hard soled shoes, often mud-stained are tramped across these floor coverings without a thought. The life in this part of the world is such that to change this would be extremely difficult if not impossible so the rugs must wear out sooner than they really should.

• • • • • • •

One might use rug linings when rugs would otherwise be placed directly on hardwood floors. This lining may be felt, rubber or wadded paper such as is put under carpets.

• • • • • • •

In foreign lands, felt floor coverings are frequently used over a floor on which rugs are placed. To-day there is a growing tendency to carpet floors.

• • • • • • •

When this carpeting is in a plain color it provides a splendid background for rugs, prolonging their life a hundred fold. A patterned carpet should not be used for such a background. Rugs do not belong on a carpet which has a design in it.

• • • • • • •

When a lining is used under a rug it should not show. The lining when of felt or rubber clings to a floor as there is tenacity in each of these materials, in rubber because it has an adhesive quality.

• • • • • • •

The tiny hairs which are found in felt give it a clinging element, so that which ever material is used it clings to both the rug and the floor.

• • • • • • •

Wadded paper should be used under large rugs only, as it has no clinging quality. However, on floor size rugs, furniture placed thereon as well as the inherent weight of the rug itself will prevent the rug from slipping on its soft lining.

CULBERTSON on CONTRACT

by Ely Culbertson

World's Champion Player and Greatest Card Analyst

148

A SLIP AND A SLAM

Lapsus linguae, or in the vernacular "a slip of the tongue," is responsible for many odd happenings in the relations between human beings. Recently, I was told of a Grand Slam bid by reason of a slip of the tongue and the making of it required nothing except the taking of three finesses and the shortening of the long trump hand twice in order to establish the coup position.

South—Dealer.
North and South vulnerable.
East and West not vulnerable.

When West passed South's Opening bid of one spade, North, who had an extremely strong hand, one that appeared plenty big enough to guarantee a Slam in some declarations, mentally reviewed the possibilities. "If," he thought, "South's spade suit is solid save for the King which I hold, then a Slam should be made in spades." North was a true conservative. He hated to Force with a four-card suit, and then he considered the possibilities of a bid in notrump, but there was no possibility of making a Force in notrump.

Meanwhile East impatiently turned to North and said:

"Did you bid?"

North's trend of thought was interrupted.

"Seven spades," was the immediate answer, and East passed, confident that the contract would prove difficult through his length in spades. South and West also passed, and, when West opened the diamond, South, taking stock of his resources, saw that he faced a well nigh impossible contract.

The diamond trick was taken with the Ace. South playing on it his King in order to retain two diamond entries in the North hand if they should later prove to be of value. The King of spades was then led and, when West's Knave fell, South decided to finesse. The finesse was almost obligatory at this point, both because South held only eight spades in the combined hands and for the further reason that West, if he held Queen-Knave alone, would be quite likely to false-card by playing the Queen. The finesse held and South saw that to make the contract he must find the King of clubs and the King-Knave of hearts in the West hand, and that East must hold at least three cards in each of these suits. He now led his Singleton club and finessed the Queen, which, of course, held. A small club was led and trumped in the closed hand. South thus got rid of one of his two surplus trumps. He must dispose of another before leading from the Dummy Hand on the eleventh round of play. He now led the heart four and finessed the Ten. This finesse also held. The Ace of clubs was then played and on this South discarded the Queen of diamonds. The last club was then led from the Dummy and trumped in the closed hand. The coup position had now been established. South now led his last heart and took the Queen finesse. On the Ace of hearts he discarded another diamond in the closed hand. Now the Ace of diamonds was led and when East followed suit, South breathed a sigh of relief. The coup position had been established and East's Queen and seven were worthless for trick-taking purposes against South's Ace and Ten.

"What on earth made you bid seven, partner?" South asked as the score was jotted down.

"I was considering the possibilities of the hand and East's question registered just as I was reviewing the chances of a spade Slam. It was a pure slip of the tongue," North replied.

"A fortunate slip," snorted West, as he jotted down the bonus for a vulnerable Grand Slam.

TODAY'S POINTER

Question: Why may Declarer not count ruffs?

Answer: Because he counts his long trumps as full tricks and no card can take more than 1 trick.

Presentation Made At Lodge Gathering

The members of Lansdowne Lodge of the Sons of England at the last meeting presented Bro. Fred Land, an officer of the lodge, with a travelling bag as an evidence of their esteem and good wishes. Bro. Land leaves the city shortly for England and in doing so leaves behind a host of friends and well wishers.

Bro. B. J. Lemmon made the presenation and in well chosen words expressed the regrets of the lodge in losing such an efficient, loyal officer and member as Bro. Land. His words of appreciation and the good wishes extended to Bro. Land were heartily cheered by the members.

Bro. Land in a few words expressed his thanks and intimated that at some future date he hoped to renew his acquaintance with the members of the lodge, of which he was proud to be a member.

That Body of Yours

By James W. Barton, M.D.

FLAT FEET CAUSE BACKACHE.

A patient consulted his physician about a pain on the inner side of his knee. As there was no pain or ache when the patient was at rest, the physician decided that it was a slight strain or sprain, and strapped it with adhesive tape. This gave some relief while the strapping was on, but the pain returned a day or two after the strapping was removed.

The physician then made a more thorough examination and found that the foot was flat and so rigid that only a metal plate would lift the arch sufficiently to take the strain off the inner side of the knee. A plaster cast was made of the foot, the plate made, and the patient had no further trouble with the knee.

Just as a flat foot by letting the knee-joint swing inward can cause a strain on the ligaments holding the bones of the knee-joint together on the inner sides, so also will a flat foot cause a strain on the lower back. As the body goes forward owing to the giving away of the arch of the foot the muscles in the small of the back are put on a stretch or strain as they try to hold the body in the erect position.

It is this strain that causes the pain in lower back.

Unfortunately these back sufferers have no thought that the flat foot or flat feet are causing the trouble, and take some pain-killing drug for relief.

The treatment doesn't always necessitate arch-support plates. Strapping up the arches with adhesive tape, exercising the feet by walking on the outside of the feet across a room a number of times daily will sometimes get the arches up sufficiently so that plates are not necessary.

While the feet or arches are being built up, the back is supported by a brace, or even a good abdominal belt. The abdominal belt lifts abdomen upward, takes the strain off the lower back and thus relieves pain.

It would be wise therefore in all cases of backache to remember that while infection—teeth, tonsils, gall-bladder, intestine—is the cause of most cases, and injury the cause of most of the remaining cases, flat feet is responsible for a number, and no relief will be obtained until this condition is corrected.

THIS FIRM HAPPY

LONDON, April 9.—That the business had been so good full staffs were retained without reduction in wages was claimed by J. L. Kellogg, Jr., at a banquet of the Kellogg Co. of Canada. Among those present were C. G. McCormick, Canadian sales manager; D. W. Mahan, general sales manager; E. J. Freeman, advertising manager.

LEG SUFFERERS

Don't Despair--New Treatment Helps Nature Rid You of Your Leg Troubles

Women and men who suffer from Varicose Veins, Varicose Ulcers, Running Sores and other troubles generally known as bad legs should not give up hope, but look into the famous Elasto Treatment which other sufferers have found so very effective.

ELASTO aids the healing powers of Nature by correcting a deficiency in the blood, which is the usual cause of most leg troubles. It is quick because it is absorbed directly into the blood stream through the glands in the mouth. Simply place a few Elasto tablets on the tongue—they dissolve instantly.

Sample Free with Booklet

Write for a free sample of ELASTO and an interesting booklet with testimonials to the New Era Treatment Co., Limited Dept. 1404M, 455 Craig St. W., Montreal.

Housewife Winner In Berlin Contest

BERLIN, April 9.—(Special to The Examiner).—In order to determine the type of German girl most popular in this day of sports-women, aviatrixes, movie queens, business women, female lawyers, judges, doctors, politicians, scientists, deep sea divers, evangelists, soldiers, sailors, and what else, a Berlin newspaper has resorted to a simple old test. It published the photographs of four representative types and pasesd the buck to the public.

1. The comrade, fond of sports and apt in business affairs as well; an industrious, loyal chum.

2. The chic, smartly groomed woman (thrifty enough, however, to make her own clothes), whose beauty a man is proud to be seen with.

3. The womanly and affectionate housewife, practical and competent, whose heart is as dependable as her cooking.

4. The cultured, clever, sensitive woman, whose conversation mingles gentleness and wit in gracious proportion.

The contest (headlines, "You Can't Have Them All!") created argument in countless households, for both men and women were entitled to vote. The public balloted 50,000 strong and sent in its answers in poetry and prose, philosophically and flippantly. The judgment of Paris was a sinecure compared with this!

Who won? Well, did you ever hear of a German yet who would cook his own schnitzel if he could get someone to do it for him? The housewife won—and she got just eight times as many votes as her nearest rivals, Nos. 1 and 3, who ran practically neck and neck. And that settled that!

OUR MAIL

Dear Anne:—

It is quite a while since I wrote you. How are you and did you escape the flu? I didn't and it is rather a mean thing to have.

There is only an odd letter now, as the neighbors do not seem to write so often.

Now, I wonder if anyone could give me some information about learning to play the piano by mail? Can it be done and does one have to be especially clever or gifted to do so? How much does it cost, and if someone has a course in this and is willing to dispose of it, would they get in touch with me by sending Anne Wilcox if she doesn't mind.

I do not see any letters these days at all and I do miss them. Well, I hope lots of the folks will see my request about the piano course by mail and that all those who have had one, will write in and state their views, for and against. I am most interested and shall look for a lot of letters. And now, hoping 1932 will be much better than 1931 and that everyone will be able to get a decent living.

Yours for better times,

Uuo Vadis.

Thank you Quo Vadis. I was delighted to get your letter, but sorry to know you had been ill. As yet I have escaped the flu. I do not know anything about taking piano lessons by mail so will leave it to the neighbors to help you out, and anything I can do in regard to helping you get in touch with them, will be gladly done. With kind regards.

Anne Wilcox

Handy Recipes

By Edith Barber

Spiced Peach Salad

6 canned peach halves.
½ cup vinegar.
6 cloves.
1 stick of cinnamon.
½ cup sugar.
1 package cream cheese.
Mayonnaise.
Lettuce.

Cook the vinegar, cloves, cinnamon and sugar together three minutes and pour over the drained peaches. Chill several hours. Drain and fill center with cream cheese. Arrange on lettuce and garnish with mayonnaise.

Sour Cream Spice Cake

2 cups brown sugar.
½ cup shortening.
2 cups pastry flour.
1 cup sour cream.
1b teaspoon salt.
3 eggs.
½ teaspoon soda.
1 teaspoon baking powder.
2 teaspoons cloves.
2 teaspoons cinnamon.
2 teaspoons allspice.

Cream the brown sugar and shortening together. Add the beaten egg yolks and beat well. Measure and sift together the pastry flour, salt, soda, baking powder and spices. Add to the mixture alternately with the cream. Fold in the stiffly beaten egg whites. Pour into a greased cake pan and bake at 350 degrees F. for thirty minutes. The yolks of five eggs may be substituted for three eggs if desired.

Spicy Salad

1 cup vinegar.
½ teaspoon whole cloves.
2-inch stick cinnamon.
2 tablespoons sugar.
1 teaspoon salt.
2 cups fresh spinach leaves.
1 large carrot.
1 large tomato.

Boil the vinegar, salt, sugar and spices for ten minutes. Strain the vinegar and chill. Chop the vegetables fine and dress with the vinegar mixture. Serve with lettuce.

Pickled Beets

2 quarts baby beets, canned and cooked.
1 pint vinegar.
1 cup granulated sugar.
½ tablespoon cinnamon.
½ teaspoon allspice.
½ tablespoon mustard seed.
1 teaspoon cloves.
½ teaspoon salt.

Make a syrup of the vinegar, sugar and spices. Boil one minute and add the cooked beets to this mixture. Simmer twenty minutes and pack in hot jars.

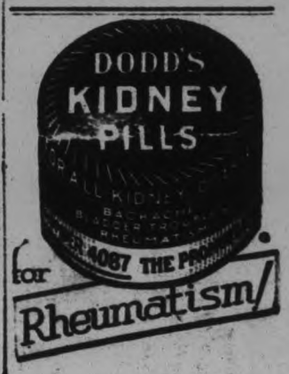
The wooden mast of the yacht of King George of England is 175 feet tall, making it the longest in Britain.



Cardinals and Mackmen Favored To Repeat

1931 WINNERS GET MAJORITY

Associated Press Conducts Poll on Probable Winners for Coming Season.

A TWO-CLUB CONTEST.

NEW YORK, April 9.—For the third successive year, the champion St. Louis Cardinals and Philadelphia Athletics have the backing of the majority of experts to win the major league baseball pennant races.

The most striking feature of the sixth annual Associated Press pennant poll, compiled yesterday, is the apparent conviction it will be mainly a two-club contest in each circuit. The two Manhattan entries, the Giants and Yankees, are named as the only real challengers to the present rulers of baseball's big league roosts.

In the balloting by sports editors and writers of the major league bailiwicks, the world champion Cardinals prove much stronger favorites than the Athletics to repeat.

Of the 67 predictions on the 1932 order of finish received in the Associated Press poll, 48 favor the Cardinals to make it three in a row, while 38 pick the Athletics to set a new American League record of four consecutive victories. Last year 35 experts picked St. Louis and 41 named Philadelphia out of 64 ballots.

All but one of the remaining American League ballots goes to the Yankees, who, as the choice of 28 critics, muster the strongest backing they have had since they were toppled off the baseball throne in 1929. Cleveland gets one pennant vote for the coming campaign.

The Giants have the support of 15 observers who think they will surge back to the National League peak for the first time since 1924. The Chicago Cubs, second choice last season, get only three pennant votes this year. The remaining National League ballots go with a load of optimism to the Phillies—one of the most improved outfits in the league at that.

The order of finish predicted by the poll in each league:

National—St. Louis, New York, Chicago, Brooklyn, Pittsburg, Philadelphia, Cincinnati and Boston.

American — Philadelphia, New York, Washington, Cleveland, Detroit, St. Louis, Boston and Chicago.

SETTLE TITLE OVER WEEK-END

Bisons Must Record Victory Over Detroit Sunday to Gain Honors.

TECS LACK FUNDS.

TORONTO, April 9 (C.P.)—International Hockey League champions will be crowned over the week-end when a pair of final games in the round-robin championship series are down for decision in Detroit and Windsor. Buffalo Bisons, who headed the league during the regular schedule, are given the call to capture the Oke Trophy as at present they are in front with 8 points.

Bisons, however, must record a triumph over Detroit Sunday to assure themselves of the title. Following their outstanding performance in Buffalo Thursday, when they marched to a 4—0 triumph over Detroit, Bisons stand out as the logical first-place finishers although Windsor and London can both lead the play-offs with a victory and a Bison defeat.

Olem Loughlin and his scoreless wonders, London Tecumsehs, invade Windsor Saturday in the other final tilt. Lacking a scoring punch in the play-offs, Tecs have only managed to record four goals in their five games. The only game where the London band showed any signs of the needed punch was in the first encounter with Buffalo when they notched three goals to finish in a deadlock.

FIGHTS LAST NIGHT

BOSTON—Lou Brouillard, Worcester, Mass., outpointed Johnny Indrisano, Boston (10).

MADRID, Spain—Ignacio Ara, Spain, outpointed Carlo Meroni, Italy (10).

Pittsburgh—Billy Holt, Pittsburgh, outpointed Billy Rose, Cincinnati, (10).

HOLLYWOOD — Jimmy Evans, San Francisco, outpointed David Velasco, Mexico (10).

FORT WAYNE, Ind.—Nick Ellenwood, Fort Wayne, knocked out Pete Leno, Cincinnati (10).

BOISE, Idaho — Frisco McGale, Seattle, outpointed Kid Bagger, Treasureton, Idaho (10).

NORFOLK, Va.—Pete Pantalo, Philadelphia, outpointed Charley Gomer, Baltimore (10).

MONMOUTH, Ill.—Bill Connell, Monmouth, outpointed Jake Hutzinger, Burlington, Ia. (8).

EAU CLAIRE, Wis.—Prince Saunders, Chicago, outpointed Mickey Genaro, Waterbury, Conn. (1).

SAN DIEGO, Cal.—Young Pete Jackson, California, stopped Alex Hadrian, Detroit (5); David Velasco, San Diego, stopped Billy Gordon, Seattle (2).

STOCKTON, Cal.—Fidel La Barba, Seattle, outpointed Max Tarley, Los Angeles (10).

Gehringer's Arm Returns to Form

DETROIT, April 9 (C.P.)—Charlie Gehringer's throwing arm, probably the most important single adjunct of the Detroit Tigers, is quite all right, thank you. At least, he said it was after a busy afternoon at second base yesterday in the homecoming exhibition game against the New York Giants.

Manager Bucky Harris believes the question of whether the Tigers finish in first or second division this season may depend upon the condition of Gehringer's arm, which went bad last year.

TICKETS SELL FOR $25 PAIR

First Time Since 1922 Stanley Cup Play-off Games Has Been Held in Toronto.

LEAFS AT FULL STRENGTH.

TORONTO, April 9 (C.P.)—After an absence of ten years a world's professional hockey title remains in the offing for Toronto to-day. Not since 1922, when St. Pats, now known as Maple Leafs, flashed to a Stanley Cup victory over Vancouver Lions, has the coveted mug found a resting place in Toronto. A single victory, however, now separates the Maple Leafs from the possession of hockey's highest award, as they lead New York Rangers two game to none in the best of five game series for the title.

Hockey history will be made to-night if Dick Irvin's well-balanced Leaf squad can come through with their third straight victory. Never before, in Stanley Cup history has the trophy been lifted by a club in three stright triumphs. Leafs have a golden opportunity to-night, as they return home with two straight victories over Rangers.

Thousands of persons stood in line for hours when tickets went on sale Thursday, but the "Sold Out" sign decorated the Garden doors shortly after the sale had commenced. Scalpers last night were asking as high as $20 and $25 for a pair of the best tickets, but few of these could be had.

Softball Team At Blairton Formed

BLAIRTON, April 9 (Examiner Correspondence).—A meeting was held in the schoolhouse, Blairton, last night, to discuss with all interested parties, the feasibility of operating a softball team, to represent Blairton during the coming season.

A. S. Robertson was chairman for the evening. While the attendance was small, considerable enthusiasm was shown, and following a discussion covering many points, it was decided to arrange a team.

The largest problem appeared to be transportation expenses, but the sponsors are optimistic regarding the support of the community, which will be necessary to operate efficiently.

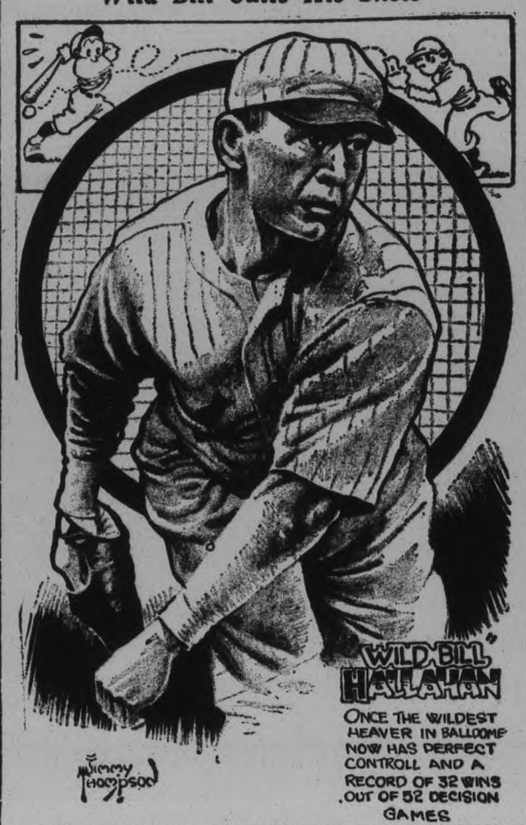
R. B. Collett was elected manager, with A. S. Robertson as coach for the team.

Delegates chosen to attend a meeting, probably in Marmora, at which it is hoped a four-team league will be formed, were: Messrs. Manion, C. Robertson and R. Collett.

It was decided to repair and rearrange the playing field as soon as the condition of the ground permits.

Following the proposed league meeting a further gathering of local supporters will be held to hear the delegates' report and, if necessary, to make further arrangements.

Wild Bill Calls His Shots



Once the wildest heaver in balldom, Bill Hallahan, of the Cardinals, has become a marvel in control.

He's the fellow who halted the rampaging Athletics in the hectic ninth inning of the world series of 1931; the same lad who shut them out in an earlier combat and who humbled them with a coat of white wash in the 1930 classic.

Hallahan was a mighty factor in the Cardinal drive to the pennant heights in 1930 and last year his 19 victories in 28 decision duels cinched the honors for them.

All of his later-day fame has come to him simply because, through the years, he has fought to gain control—battled against the wildest of wild arms—and tamed it in the end.

Hallahan always had blazing speed. He knew all the curving arts. It was certain then that with acquisition of control he automatically would become a great pitcher.

Bill was pretty much of a whizbang as a high school pitcher. So well did he accomplish his chores that the Cardinals signed him up in 1924, when he was 19. Bill wasn't much bigger than a burnt almond.

Whenever Bill let one loose nobody knew where it would go and Branch Rickey decided it was better to send Bill travelling than to keep him on the premises and have the whole Cardinal team hustle into cyclone cellars when he worked out.

In 1929 it looked as if Bill would be making another trip again when Gabby Street, one of the greatest catchers, loomed in the offing as the new Cardinal manager.

"All you need is control—that's all—just control," said Gabby to Bill, after watching Bill do his stuff.

"Yes," agreed Bill, "all I need is control. And that's as easy for me as grabbing off $5,000,000 by 4 o'clock tomorrow afternoon."

"Maybe you havn't been using the right system," soothed Gabby. "Now I'll go get me a glove and you toss 'em at me like I say and then I guess you'll get okay with that control thing."

Gabby worked with Bill, often and always patiently. He showed Bill a lot of things that had been foreign to Bill's life. And when he turned him loose.

In the two years since then Hallahan has won 34 out of 52 decision tussles and now he wouldn't hesitate to try to flip a ball through a napkin ring.

Babe Dye Released; Brydson Suspended

DULUTH, Minn., April 9. — Thomas J. Shaughnessy, president of the Chicago hockey team of the American League, yesterday announced that "Babe" Dye, coach and manager of the Shamrocks, had been released effective immediately.

Gordon Brydson, captain and wing of the Shamrocks, was suspended by President Shaughnessy.

Dye was released, Shaughnessy said, because he gave permission to Brydson to leave the club yesterday morning and go to Toronto to be married on Saturday. Shaughnessy said Dye gave permission without consulting him.

Climbing the cemetery wall at Oxford, England, to visit his wife's grave, James Townsend, 72, fell, and was so seriously injured that he died.

LACROSSE TEAM FOR LAKEFIELD

Effort to Organize Shows Some Progress—Soccer Also Planned.

DEFICIT IN HOCKEY.

LAKEFIELD, April 9.—That local interest in the Stanley Cup hockey finals was very keen was strongly evidence in the way the meeting of the Lakefield Amateur Athletic Association was rushed through on Thursday night to enable all present to get in contact with a radio to hear the opening of the game. The meeting was called to organize for softball, lacrosse and ladies' softball and the attendance was good and decidedly representative.

The president of the L.A.A.A., C. S. Tanner, was in the chair and the financial report of the hockey season was given by the treasurer, N. W. Kyle, which showed a deficit but luckily not so large that a co-operative effort could not pull the Association to a solid footing. A field day was suggested by Mr. Chaplin as a means toward this end and the president and members present endorsed the idea. The president said that they would all have to get behind and work just as hard as they did last year for the motor car. It was decided to call a meeting at a later date to make arrangements for this event and to thoroughly organize. Messrs. Tanner, Kyle, Burrows and Chaplin will call the meeting.

The question of a ladies' softball team was raised and the feeling was strongly in favor and the ladies present were appointed to canvas for players and to report at a later meting, the ladies being Misses Graham, Phyllis Charlton, Bernie Abrams, Odell Watson and Mary Webdale. It was decided to get in touch with outside teams for the purpose of getting a league going.

A town league of softball for men and boys was also discussed and the following were appointed to get entries and report. Messrs. Briant (convenor), F. Payne, Kyle, Lancaster and J. Charlton.

Mr. Chaplin reported progress toward organizing a lacrosse team and said that Dr. Gibson was assisting him in ths work.

A soccer football team was also discussed.

Mr. K. Junkin suggested boxing and felt it could be made a real success here as it has in other places and by his own enthusiasm, he got a promise that this also would be considered at a meeting which would be called at an early date.

Never in recent years has there been as much interest shown in practical development of village sport and the prospects are ripe for a real season.

TORONTO LOSES TO BELLEVILLE

Semi-final Match for Interscholastic Title is Closely Contested.

WITH DELTA COLLEGIATE.

TORONTO, April 9.—The semi-final game between Belleville Collegiate and Delta Collegiate of Hamilton at the Arena Gardens last evening was a thrilling struggle between two evenly matched teams. During the first period Belleville secured a lead and at half-time the score was 9 to 4 in their favor, although they had not dominated the play to the extent which the score might indicate.

Immediately following the rest period Hamilton girls struck their stride and only the fine play of the Belleville defense pair, Sally Stillman and Ena Blaker, kept their team within reach. The score was tied within five minutes and from then until the end of the game, the lead alternated, with Belleville finishing one point in front at the final whistle, with the score board showing Belleville 16 and Hamilton 15. The winners will meet Windsor at 2.30 tomorrow at the Gardens.

Belleville (16)—Marjory Hutson (5), Sally Stillman, Ena Blaker, Julia McNab, Marjory Waterman (4), Ana Gartley (2), Esther Moncrief (5), Betty Coo.

Hamilton (15)—Grace Dent (2), Catherine Miller (5), J. Miller (8), Marguerite Truman, Kay Stuart, Gwen Culver, Marjory Hubbard, Margaret McDonald.

Referee—Miss Phyllis Griffiths.

The exhibition game between Lakeside Ladies and a team from Toronto Ladies and Jewish Community House ended with the score 31 to 20 in favor of the Lakeside team. Half-time score was 19-9 for Lakesides.

Lakesides (31)—D. McNeill (7), D. Dunlop (6), K. Griffiths (7), E. Shaw (1), M. Dunlop, N. Gordon (6), A. Anderson (4), J. McMurray.

Toronto Ladies and Jewish Community House (20)—P. Griffiths (1), D. Charman, M. Potter (6), C. Bruning (4), M. Dawes (4), C. Friedhoff (2), P. Appleby (2), R. Weinstein, S. Sutin, L. Jacobs (1), S. Appleby.

ALEXANDRA MEMORIAL

London.—It is announced that the King will on June 8, unveil the group of sculpture, a memorial to Queen Alexandra, designed by Mr. Alfred Gilbert, the sculptor, which is to be erected on a site adjacent to Marlborough House, where she lived.

Inside Sportin' Dope—By A. Wise Cracker

Mister Sporting Editor:

Well, Mac, the hockey season is about on its last legs, and we can get ready to follow the doings of the ball tossers. The amature campaign was finally wound up this week, and both the Allan Cup and the junior Canadian title will summer in this here banner Province of Ontario, thanks to 2 game teams, the Toronto Nationals, which I call the Sea Fleas, and them roaring Sudbury Wolf Cubs, to both of which our hats should be took off.

The Nationals win is popular here 1st because 2 former Peterborough players, Mister Frankie Collins, who learned his hockey here, and Mister Ken Kane, was prominent cogs in the Flea machine, and 2nd because the Toronto crew, without a great deal of backing in their home community fought a game battle all season to cop the honors. The Fleas suffered through illness and accidents all along the O.H.A. route, and when they got into the play-offs they hadda come from behind in nearly every series. Against M.A.A.A., they was outplayed for most of the 1st game on their own ice, but they come through with a fighting finish to take a slender lead, which they held safe in the return game in Montreal. And then the Thundering Herd from the head of the lakes trampled all over them the 1st 15 mins. of the 1st final game, but the Fleas stayed in there battling until they finally copped the decision, and then come back with another overtime win to cop the cup. They's been greater Allan Cup winners than them Nationals, but none ever had more gameness.

As for the Wolves, they ain't enough adjectives available to give them kids all the credit due them. Without hardly enough games in their own league to get them into shape, the Northerners roared down into the South, crashed the O.H.A.'s best, puts the skids under Ottawa, made the Montreal champs like it, and then cruised far into the West to tackle the ponderous Winnipeg Monarchs, the conquerors of everything the other side of the Great Lakes. Outweighed 10 pounds a man, the Wolves was nosed out in the 1st game, but come back like the great team they are to cop the 2nd, although minus 2 of their stars, and then grabbed the title by a glorious win in the 3rd battle. Sudbury went wild over the lads, and who can blame them, asks I?

As this is being writ, Mac, the Toronto Maple Leaves is sitting rather pretty in the Stanley Cup finals, having took the flashy Rangers 6 to 4 in Madison Sq. Gardens, N. Y., in the 1st game Tues. nite. 1 game don't mean the Patrick crowd is through, Mac, and them Rangers ain't to be tufted with, but at this stage the Leaves is in the driver's seat, although by the time this gets out to the customers they may of had to get down to pick up their whip. Anyway, they win a useful game Tues. nite, and dragging a little personal stuff into the same, I may say the Leaves give your scribe a real brake, inasmuch as Mister Horner's final goal meant that yrs. truly collected a pool or sweepsteak, or what have you, the 2nd time in a quarter of a century's donations to the same, and while the amt. ain't big enough to attract the income tax dept. or to warrant a split with Mister Horner, it will suffice, neighbors, it will suffice. In passing, I nearly split my tonsils when the sweet voice of Mister Foster Hewitt announced the million dollar goal.

Well, it'll be baseball next week. Pick the winners, eh? All right—the Athaletics to repeat in the American and the Cards to do likewise in the National. Laugh that off.

Sportfully yours,
A. WISE CRACKER.

When you start going places, you'll want socks that don't hold you back.

CONGRESS BOWLERS ARE ON LAST LAP

Sixty-three Teams Swing Into Action at Detroit on Saturday Night.

DETROIT, April 9.—The last lap in the race for the world's team crown in the annual American Bowling Congress tournament begins to-night, when 63 line-ups swing into action.

Tomorrow night the remaining 64 of the 2,336 teams comprising the entry list will toe the foul line in an attempt to wrest the lead from the Verifines of Milwaukee, unless they are dethroned in the interim.

Three changes occurred yesterday in the team event. The Green Cab Company, Cleveland, scored a 3,000 total on games of 985, 978 and 1046 to push their way into fifth place, one pin behind the Chene-Trombley lineup of Detroit.

The Neukom Cut Stone Company, Toledo, smashed out a 2,996 to take sixth position and the Brucks Five, Chicago, who won the world's title in 1920, finished with a 2,954 count for tenth place.

A.B.C. officials announced that the following scores are still in the prize division: Team event, 2,702; doubles event, 1,124; singles event, 577; and all events 1,800.

Sea Fleas Are Given Ovation At Toronto

TORONTO, April 9 (C.P.)—National Sea Fleas, senior amateur hockey champions of Canada, returned home to-day from Montreal where they defeated Fort William in straight games for the championship.

The Allan Cup winners, arriving in Toronto just as business houses were open, rode to the City Hall in snow-storm of paper and were given a terrific ovation by huge crowds. Led by a motorcycle escort and pipe-band, a parade blocks long followed the team, which rode on top of a large bus.

At the City Hall, Mayor William Stewart held a civic reception and read an address of congratulation and welcome. Presentations will be made to individual members of the victorious squad at the next meeting of the City Council.

New Ruling Made In Technical K.O.

NEW YORK, April 9 (C.P.)—Following the precedent it set in declaring that Billy Petrolle defeated Bat Ballaino in 12 rounds instead of scoring a technical knockout over the Hartford battler, the New York State Athletic Commission has revised its rule concerning knockouts.

Only when the count of ten is toled over a boxer will he be called a knockout victim. The revised rule, just handed out, says:

"The following decision shall be rendered when a referee intereveneo to save a boxer from further punishment: 'Contest stopped, ——— unable to continue, ——— wins'."

Leafs Obtain Owen From Detroit Club

TORONTO, April 9. — Marvin Owen, the infielder who was sent to Toronto near the end of last season by Detroit Tigers after Nolan Richardson had been promoted to major league company, will rejoin the Leafs in Louisville some time to-day.

President James Oakley of the Toronto club was informed last night by Detroit club officials that Owen has again been optioned out to the Leafs, and he is already on his way to join the team.

Owen will be used at third base, a position he held down satisfactorily during his short stay with the team last season. He will add strength to an infield that needs bolstering in a couple of other places, but it is not likely that the Toronto club will secure another infielder until some time next week. When Owen joines the team, Hub. Walker will be moved to the outfield, and the infield will be composed of Davis, at first; Michaels, at second; Sax, at shortstop; Owens at third. This is expected to be the starting infield, when the Leafs open the International League season at Newark next Wednesday.

President Oakley hopes to make an announcement soon regarding a pitcher or two to be obtained by the Toronto club.

SWEDEN SETS ASIDE $100,000 TO FINANCE OLYMPIC TEAM

Convinced That Scandinavian Country Has Monopoly on More Than Matches.

BELGIUM NOT READY.

(By Maxwell Stiles)

LOS ANGELES, April 9 (Special to The Examiner)—Chatting a few minutes with Gustav W. Olsen, vice-consul of Sweden in Los Angeles and Swedish attache for the tenth Olympiad, the writer becomes convinced that Sweden has not only a monopoly on the match industry. The land of the Ole Olson's and the John Johnson's apparently has a government monopoly on most of the world's ready cash!

All doubts concerning the truth of this statement vanish when it is discovered that the Swedish government already has donated 450,000 kroner (approximately $100,000) to finance the Swedish Olympic team to Los Angeles.

Olson said that to the best of his knowledge Sweden will compete in the following sports: Track and field for men, boxing, cycling, equestrian sports, fencing for men, modern pentathlon, rowing, shooting, swimming for both men and women, catch-as-catch-can and Greco-Roman wrestling and weight lifting.

May Grab All Honors

It is expected that S. A. Thofelt, individual champion in the 1928 pentathlon, will compete at Los Angeles. In this sport Sweden is believed to have three entries who may place one-two-three in this event, which names the world's greatest soldier-athlete. The five events are shooting, swimming, riding, fencing and running.

With Sweden's great distance runner, Edvin Wide, aparently through as a serious contender for Olympic honors, Sweden does not stack up as strong in track and field as in the past. There are two good hammer throwers in Skold and Jansson, one of the leading pole vaulters in Lindblad, three fine hurdlers in Tetterasson, Wennstrom and Areskoug, two fair distance men in Lindgren and Magnusson and a good marathon runner in Shoore Jonson. Hallberg has a chance in the broad jump, Svensson in the hop, step and jump, and Lundquist in the javelin.

Two more nations whose plans for Olympic participation are indefinite are Norway and Belgium.

Are Still Undecided

Dr. Albert Soiland, dean of yachting in California waters, who is serving as Olympic attache for Norway, states that Norway positively will be represented in some sports. Beyond that, he cannot say. He has not heard.

Olympic headquarters here have received no definite word from Count Francois de Buisseret of the Belgian embassy in Washington, Olympic attache for Belgium, stating Belgium's plans. It is understood, however, that Belgium would not have appointed an Olympic attache if Belgium had not planned to send athletes to Los Angeles.

Norway won the yachting in the 1928 Olympic games at Amsterdam, but Dr. Soiland understands that his country will not concentrate on this sport at Los Angeles harbor. Dr. Soiland has received a letter saying that it is very doubtful whether Crown Prince Olav, who won the six-meter championship at Amsterdam, can come. Matters of state are given as the reason.

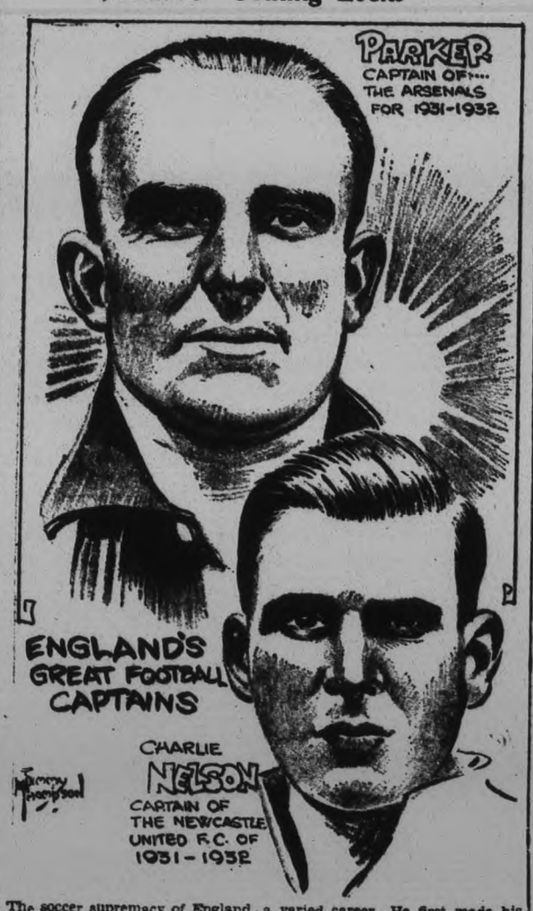
Royalty to the Fore

Princes are springing into promise in college athletics. At a recent field day held at Eton College Prince Sevelode of Russia won the school quarter-mile event and a fellow royalist, Prince Birabongse, accounted for the long jump title. Prince Birabongse proved himself to be quite a jumper, clearing 19 feet 2 inches.

Olympic Prospect

Gladys Slaght, aged 16, is expected to be one of Hawaii's representatives in the girls' swimming events at the Olympic games at Los Angeles this summer. Miss Slaght learned to swim at Waikiki, Hawaii. The photo was taken near her home in the islands.

Britain's "Coming Event"



The soccer supremacy of England and Wales will be decided on April 23rd when Newcastle United meet Arsenal at Wembley before upwards of 100,000 rabid spectators. Thus one team will reach the end of the trail which commenced last September when 600 clubs started in the preliminary round. Arsenal, captained by Tom Parker, is favored to win and to receive the historic cup from a member of the royal house. Parker is right full back of the club. He is the oldest man of the 22 on the field, being about 34. He has been with Arsenal nearly seven years. His only prior cup final cup appearance was four years ago when a mistake by his goalie allowed Cardiff to win the trophy. James Nelson, captain of Newcastle, is a right back, with a varied career. He first made his name with the Scotland Internationalists after which he went to Newcastle and later played for Cardiff. Last year he sustained a leg injury which threatened to put him out for good but he is now back—going stronger than ever. Arsenal is the most expensive team to-day in old country soccer, $300,000 having been spent to assemble the players. The forward line cost $100,000. Arsenal plays in red shirts and white knickers and Newcastle, who are composed mostly of Scots, play in black and white shirts and white knickers but due to an association ruling both teams will be in different colors on final day, one playing in blue shirts and white knickers and the other vice versa.

HOCKEY, BOWLING, CURLING, BASKETBALL AND BOXING

CASUAL COMMENT

There must have been over a hundred guests at the Y. W. girls' basketball banquet last night, and it proved very successful. St. Paul's were presented with the G. N. Gordon Cup for senior honors, Westclox got the Dr. Harvey Cup as runners up to the Saints, and the Industrial Trophy went to Blue Petes. The officers of this cage loop worked hard to put it over during the winter, and it was nice to see their work appreciated last night.

• • • • • • •

Rotary Junior, City Hockey League champs, were treated to a Capital Theatre Party last night, and the Tully Trophy, won the previous winter by Stars, was turned over to the new winners. And the Southend League bantam champs, Maple Leafs, took in a chicken dinner at Bill Murphy's Thursday evening, about twelve enjoying themselves and receiving the J. A. O'Brien Cup. A group picture was taken later at the Baker Studio.

• • • • • • •

The Canadian Bowling Association Five-Pin Tournament, starting in Toronto in another week, is not likely to see any teams from here, through a crack ten-pin team from this town will compete—in all probability—in the Ontario Ten-Pin Tourney in Toronto in two weeks' time. And thereby hangs a tale:

• • • • • • •

Bert Duffus has a pet peeve against the C. B. A. and he will not take up a team from here to take part in that Association's tournament under any consideration. It was just two years ago, to the month, that Bert's peeve started. The annual Peterborough tourney was in progress and Leo Martyn and Bill Sweetman teamed up in doubles to knock the Canadian doubles record into a cocked hat, the local bowlers rolling 1853.

• • • • • • •

In this set, Martyn rolled what was then a record-breaking 1061 set of three games, but no recognition was forthcoming from the C. B. A. although Leo was a member of that body. Bert Duffus notified the proper officials and wrote them several times, but the customary medals did not materialize, nor did any word on the matter at all come from the C. B. A. That 1853 score has likely been beaten since then.

• • • • • • •

According to Mike Rodden's column, Babe Dye has been released as coach of the Chicago Shamrocks in the American League, and Gord Brydon suspended. It seems that Gord wanted to take a flying trip to Toronto to be married and he got the coach's permission but not Manager Shaughnessy's, and it was just too bad. Perhaps the real reason for Babe's summary dismissal, as Rodden hints, is the Shamrock's defeat the other night at the hands of Duluth who look to be headed for the title.

• • • • • • •

Dye had quite a rep with St. Pats a few years back, his bullet shot causing as much havoc with opposing goalies as Charlie Connacher's does now. He was also some shucks as a pro ball player, and looked like a star that time he came here for an exhibition game with Tris Speaker, Peckinpaugh, Nunnamaker and other big time stars.

• • • • • • •

The Big Leagues get under way the first of next week, all of them playing Tuesday, and the turnstiles will be clicking off sweet music to owners' ears once more. The sixteen teams start from scratch again, but already it looks like Athletics in the American circuit, and Cards, followed closely by the Giants, in the National Loop. You pay your money and take your choice.

• • • • • • •

But just before baseball arrives, Toronto Maple Leafs are figuring on winding up the hockey season. And they should do it this evening in their third straight game with Rangers, and the first on home ice. It commences at 8.30, and radios here will get a big play as the curtain is about to drop on the puck-sters for another season. A couple of dozen local fans were fortunate enough to get tickets to the contest.

Major Ball Gossip

NEW YORK, April 9 (C.P.).—The Brooklyn Robins' first encounter with the New York Yankees has left Manager Max Carey greatly encouraged over his team's chances.

The Robins lost out, but that did not alter the fact that Carey got excellent pitching from both Waite Hoyt and Bill Clark, who set down the heavy slugging American Leaguers with six hits. Hoyt's performance probably earned him the right to pitch the Robins' opening National League game Tuesday.

NEW YORK, April 9 (C.P.).—The baseball season will open in four days, and still Joe McCarthy is not satisfied with his New York Yankee infield.

Against Brooklyn yesterday McCarthy shifted Frank Crosetti to third base and Lyn Lary to his old post at shortstop in an effort to get Lary regularly into the line-up. Crosetti, however, seemed scarcely at home at third base, and it looks like Joe Sewell may have to be called into take care of that post and let Lary and Crosetti fight it out for shortstop.

DETROIT, April 9 (C.P.).—The New York Giants seem to have found that extra starting pitcher they were looking for in Hal Schumacher, the big youngster from the St. Lawrence University who has had only a part of a season in the major leagues.

Schumacher has been getting better and better all through the training season, and now appears to have won a full time job.

KANSAS CITY, April 9 (C.P.).—Charlie Root has added a final argument in support of his right to pitch the National League opener for the Cubs against Cincinnati next Tuesday.

With his fast ball working in splendid style, Root polished off his delivery yesterday by holding the Kansas City Blues of the American Association scoreless and to three hits in five innings.

INDIANAPOLIS, Ind., April 9.—(C.P.).—Manager Lew Fonseca will use the "spot" system in juggling his White Sox pitchers this year.

Certain pitchers are more effective against certain clubs, and weak against others, so he intends to use them where they can show the best instead of employing the old rotation method, Manager Fonseca said.

ST. LOUIS TEAM LEFT STRANDED

Fourteen Players Take Legal Action Against Club for Unpaid Salaries.

MAY LOSE BORDER BOND.

ST. LOUIS, Mo., April 9.—(C.P.)—Stranded in St. Louis since March 24, for lack of funds to return home, fourteen players of the St. Louis Hockey Club to-day had banded together for legal action to collect their unpaid salaries.

Some of the players said they had gone hungry the past few days because of their straitened circumstances and the hotel where they are staying has served notice that no further credit would be extended. The plight of the men, all Canadians, is augmented by the fact that bonds of $500 each which posted when they entered this country from Canada may be forfeited if they do not return across the border within thirty days after closing of the playing season.

The players say they have received only about 25 per cent. of the money due them under their contracts, and some claim as much as $5,000 owing them.

Harry S. Taber, president of the St. Louis club, has been in Chicago for more than a week seeking financial aid, but has failed so far, according to reports reaching here.

The fourteen players find themselves in their precarious financial situation after having played in 24 game in St. Louis the past season, with an attendance of 161,000 persons.

Tom Shaughnessy, of the Chicago Shamrocks and vice-president of the American Hockey League, said in a telegram that his organization had advanced several thousand dollars to the St. Louis Club during the past season.

BURGESS BEDTIME STORIES

YOWLER IS TOO SLOW.

To act in haste is often sad;
To be too slow is just as bad
—Old Mother Nature.

Shadow the Weasel was impudent satisfying his hunger on scraps of meat clinging to some bones in the den of Yowler the Bobcat, with Yowler sleeping close by. Of course, Yowler knew nothing of it. It never had occurred to Yowler that anyone would be bold enough or impudent enough to enter his den while he was at home. Indeed, there were few who would dare enter it even if he were not at home. So Yowler slept and Shadow tore the bits of meat from the bones.

In his greed Shadow soon forgot where he was. Hitherto he had taken the greatest care not to make the slightest sound. Now in his greed he tore fiercely at a bit of meat and the bone moved and faintly rattled against another bone. Instantly Yowler's eyes flew open. You know that there is a saying that some people sleep with one

eye open. Of course, this isn't strictly true. It merely means that they sleep so lightly that the slightest sound will awaken them. Yowler is like that. The noise made by those bones was very slight, but it was sufficient to cause his eyes to fly open.

For a moment he couldn't believe that he really saw what he seemed to see. There, right before him, was a small person dressed in white with the impudence to be stealing his food right under his nose. Once sure that he was really awake and that his eyes were not deceiving him, he knew instantly who it was.

"No one but Shadow the Weasel would have the boldness and the impudence to do such a thing," thought he. "The idea of daring to come into my home in the first place, and then to actually help himself to my food! The idea! Well, as long as he is here I'll catch him and have at least a bite of fresh meat without the trouble of hunting for it."

Slowly and with the greatest care he drew his feet under him, but careful as he was Shadow saw the movement and instantly turned to face Yowler, his lips drawn back in a snarl of defiance. To have seen him you would have thought that those bones were his instead of Yowler's. There is nothing slow about Yowler. No, sir, there is nothing slow about him. He has to be quick or he would starve to death. He has to be just a little quicker than those he hunts, and some of them are very quick, you know.

In a flash he was on his feet and had sprung at Shadow. His big forepaws with cruel claws extended landed full on—those bones. Shadow wasn't there. No, sir, he wasn't there. He had dodged so quickly that Yowler hadn't even seen which way he went. He was there and then he wasn't there. Quick as he was Yowler had been too slow. He growled. It was an ugly-sounding growl. He looked this way and that way on all sides. There was no Shadow to be seen.

"He dodged out through the passage,' thought Yowle and moved swiftly forward through the passage till he reached the entrance. There he blinked in the light until his eyes became used to it. His stub of a tail twitched angrily, and when his eyes had become adjusted to the light he glared all about. He saw nothing of Shadow. He prowled around, looking behind and between rocks and peering into every little opening and crack. There was no Shadow nor any trace of him. He snarled with anger. Finally he decided that Shadow had made the best of his opportunity and probably was far away by this time.

Jolly, round bright Mr. Sun had been shining all day on a flat rock that was a favorite resting place. Yowler walked over to it. It was warm. He decided that as long as there was no chance to catch Shadow he might as well finish his nap and at the same time take a sunbath. So he stretched himself out on one side and began to purr.

"I guess I gave that fellow a fright that he won't forget in a hurry," thought he as he lazily licked one paw.

(Copyright, 1932, by T. W. Burgess.)

Red Coulee, Ribstone and Wainwright are the names of oil fields which contributed small amounts to Alberta's petroleum production last year; the bulk of the province's oil output however continued to come from Turner Valley wells.

Dundalk, Irish Free State, has a drive against public dance halls.

What To-Day Means To You

"ARIES"

If April 9th is your birthday, the best hours for you on this date are from 11 a.m. to 1 p.m., from 4 p.m. to 5:20 p.m., and from 9 p.m. to 10:45 p.m. The danger periods are from 9:35 a.m. to 10:45 a.m., and from 7 p.m. to 8:40 p.m.

There are no outstanding indications, good or bad, from an astrological standpoint, for April 9th. The history of the day lies in your own hands, and it is up to you whether it be good, bad, or indifferent. More invigorating influences will come in force late in the day, and any social functions for the evening should go through with a bang.

Children born on this April 9th will have exacting natures, from which they will reap more discontentment than comfort or happiness. Impetuosity will mark the disposition, and they will easily fly off the handle. They will be difficult to influence and will stubbornly resist interference.

Born on April 9th, you have a firm character, but are naturally quiet and not in the least pugnacious. You are a natural born leader, although you do not try to impose your will upon others. You can work equally as well with others as alone. You are easy going, until your toes are stepped on, and then the fur flies. Your insight into human nature is well developed, and you are an excellent character reader. Guilty, self-conscious people feel uncomfortable under your penetrating gaze. You are capable of abstract reasoning, and you are left untouched by the crowd's moods.

Change of any kind is foreign to your nature, and once you have found a congenial channel in which to work, you do not easily forsake it unless compelled by circumstances to do so. You are faithful and sincere in both your business and family life. Planetary aspects are favorable to you in the way of friends and social and public relations generally.

With a good education, you are fitted for almost any occupation calling for intellectual ability, acuteness, and mental resource. By choice you prefer a secluded life, but circumstances will probably prevent you from slipping into any ruts or from retiring from the world. You may meet with psychic or ocult experiences.

Sunday, April 10th.

If April 10th is your birthday, the best hours for you on this date are from noon to 2 p.m., and from 6:30 to 9 p.m. The danger periods are from 7:40 a.m. to 9 a.m., from 3:40 p.m. to 5 p.m., and from 10:50 p.m. to midnight.

Astrological influences on April 10th will tend to have a smoothing out effect in the minds of most people, and there will be a temporary rest from thoughts of strife and worry, through the peaceful enjoyments of the day. It will be a time of healthful and helpful rest which should enable you to meet your duties of to-morrow with renew effort and enthusiasm.

The child born on this April 10th will possess no rocking-chair energy or fettered spirits. It will be a whirlwind of movement, accompanied by a never-ceasing tongue and an abundance of merry laughter. It will be loved by both its playmates and adult friends and relatives, although it will sometimes drive the latter to the point of exasperation.

Born on an April 10th, your character is difficult to analyze. You seem to be in possession of two separate and distinct personalities, neither one of which entirely dominates your being. One of you is an exceptionally nice individual, seemingly genuine and fine, with little care for the levities of life. The naughty, less reliable you, is impetuous and headstrong, and makes its appearance at times when your latent weaknesses break through an uproot the foundations of your better self. At such times you feel ashamed, defiant, depressed and palpitant with joy all at the same time.

At all times through life you will follow the line of least resistance in the small affairs of life. You are greatly influenced by the people with whom you mix, and the role you assume is the one expected of you by your friend or associate of the moment. You can be very much the man or woman of the world, interested in the amusements and frivolities of the age; or you can be thoughtful, studious, intellectual companion to someone who is a doer and thinker.

You prefer to use your wits, brains and charm to bring in your material wants more than more laborious methods. You do not despise philosophy or religion, and both will play their part in the ultimate development of your character. Marriage will not bring the contentment and domestic reality of which you had dreamed.

Some Fast Work

TORONTO. — Frank Burns, Toronto, had a busy morning. At 11.25 he was in a store. At 11.30 he was arrested for theft. At 11.35 he was in Police Court. And five minutes later he was on his way to jail. Things will be comparatively quiet for him for the next 30 days.

Millbrook

MILLBROOK, April 8.—(Examiner Correspondence).—A meeting of the Millbrook Utilities Company was held on Wednesday at 8 p.m., in the Town Hall, those present including the president, Thomas C. Ingram, the vice-president F. C. Scott, Rev. William Simpson, Mr. Kerr, manager of the Bank of Toronto, H. A. Elson, T. W. McCamus, R. H. Edmunds, J. H. George, R. A. Ford, J. F. Smith, G. W. Sayles, E. H. Barnes, Reeve P. Stinson, and G. E. Burnham.

The secretary reported sending out circular letter to each member, notifying them of the re-organization of the company, and also of the levy of five dollars per head, to be paid forthwith. Thirteen members had paid to date.

R. H. Edmunds-G. W. Sayles: That the secretary be instructed to pay accounts as rendered to date as soon as sufficient funds have come to hand. Carried.

It was moved by G. W. Sayles, seconded by Reeve Stinson, that the meeting adjourn to the call of the chair, and that the executive committee meet two weeks later, April 20, a 8 p.m. Carried.

Lakefield

At the regular meeting of Lakefield Post No. 77, Canadian Legion, these officers were elected for the ensuing year:

President, Comrade A. B. Burgess; vice-president, Comrade D. E. M. Grier; secretary-treasurer, J. R. Hill; executive committee, Comrades W. H. Adamson, C. C. Stenner, E. Simpson, C. R. Armstrong and J. R. Earnshaw; auditors, Comrades N. W. Kyle and F. Moon; sergeant-at-arms, Comrade T. Cunningham.

Mrs. H. Moore of Peterborough is the guest of Mr. and Mrs. A. B. Burrows for a few days.

Mrs. Yale was in Peterborough on Thursday giving an address on temperance to the ladies of Knox United Church.

Mr. J. H. Chant of Unionville was in the village for a few days this week.

Master Aubrey Blakeley was the guest of friends in Otonabee this week.

Mr. Jack Cuffe of Peterborough was in the village on Monday.

Born—On April 6, to Mr. and Mrs. William Hamblin, a daughter.

Mrs. Hugh Davidson and sons of Peterborough are guests of Captain and Mrs. J. J. Johnston.

BRIDGENORTH

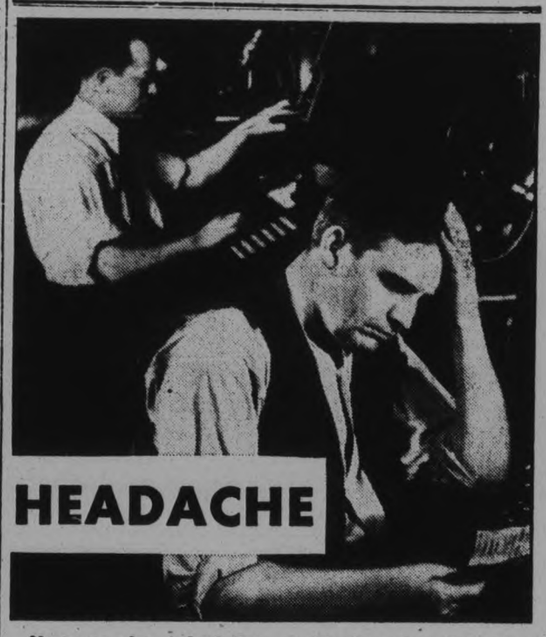
Miss Throop of East City is the teacher at S.S. No. 11, Smith, where Miss Jean Coates has been teaching.

Mr. Morgan Lewis of Bobcaygeon was a recent guest at the home of his parents, Mr. and Mrs. David Lewis of Smith.

Miss Margaret Mann and brother Clarence Mann of Smith were recent guests with friends in East Emily.

Miss Lucy Styles has returned to Toronto after visiting at her home during the holidays.

Mr and Mrs. Harold Lewis of Smith entertained at their home a number of friends from the school section No. 11 in honor of Miss Jean Coates who is leaving her school. The party took the form of a handkerchief shower. The first part of the evening was spent in contests and games in which Miss Coates was brought into the centre of the room and was showered with an umbrella of handkerchiefs. Miss Coates thanked her many friends. The remainder of the evening was spent in progressive euchre and crokinole. Miss Edy Deck winning first prize. Mrs. Lewis served dainty refreshments.



Nerves on edge. A head that throbs. You can't stop work, but you *can* stop the pain—in a hurry. Aspirin will do it every time. Take two or three tablets, a swallow of water, and you're soon comfortable. There's nothing half-way about the action of Aspirin. You will always get complete relief when you take these tables.

These tablets should be in every shop, office, and home. Ready to relieve any sudden ache or pain, from a grumbling tooth to lumbago. Don't suffer with that neuralgia, neuritis, rheumatism, etc.; or lose any time because of colds or sore throat. Get some Aspirin and just follow those *proven* directions for instant relief.

Aspirin tablets cost very little, especially if you buy them by the bottle. Any doctor will tell you they are harmless. They don't hurt the heart. They don't upset the stomach. So take them as often as you have the least need of their quick comfort. Take enough for complete results. On sale at drug stores everywhere. Made in Canada.

TO TRY LAWYER FOR STABBING

Detective at Preliminary Hearing Tells of Finding Blood Stained Knife.

SCUFFLE OVER LIQUOR.

HAMILTON, April 9 (C.P.) — Joseph D. Sullivan, local barrister, appeared in police court yesterday, charged with agravated assault upon Robert Walker. The charge arose out of an alleged altercation in his home in which Walker was stabbed with a bread knife.

Witnesses said Sullivan had accused Walker of stealing a bottle of liquor, and had followed the latter into a hallway. Walker suddenly slumped to the ground, having been stabbed. When he arose, Sullivan struck him in the face, according to Cecil Freeman, a witness.

C. W. Bell, M.P., K.C., for the defence, asked for a summary trial. Magistrate Burbidge pointed out that under section 24 he had the right to commit the prisoner and it was therefore not necessary for Sullivan to plead.

Detective Speakman was the next witness called. He testified that he had taken Walker to the hospital. He then had gone to Sullivan's apartment and secured the blood-stained knife. The accused had refused to make a statement.

Magistrate Burbidge then committed Sullivan for trial.

EX-SHERIFF LOSES LIFE RAIDING OUTLAW'S LAIR

TULSA, Okla., April 9 (C.P.). — Irv Kelley, former Sheriff of McIntosh County, was shot to death early to-day in a raid on the Bixby farm home of Ben Hargraves, father-in-law of Charles "Pretty Boy" Floyd, notorious Oklahoma outlaw. Officers who saw the shooting from a distance said he was slain by Floyd in flight.

Officers said Kelley had led a posse to the Hargraves home, but had dismissed its members a short time before the shooting in the belief that Floyd was not at the home.

They said Floyd escaped in a motor car with a man they identified as Earl Birdwell, who also is wanted for a series of bank robberies and other crimes.

KIPLING'S NEWEST BOOK RAPS AT HOLLYWOOD

LONDON, Apr. 8 (A.P.)—Rudyard Kipling's newest book, a volume of poems entitled "Limits and Renewals" which was published yesterday, piles the author's scorn on Hollywood—or so one of the poems is generally interpreted.

This one, entitled "Naaman's Song," describes how the banks of the Jordan are parcelled into sites commanded and embellished and patrolled by Israelites.

It goes on:—

There rise her timeless capitals of empire daily born
Whose plinths are laid at midnight and whose streets are packed at morn;
And here come tired youths and maids that feign to love or sin
In tones like rusty razor blades to tunes like smitten tin.
And here is mock of faith and truth for children to behold
And every door of ancient dirt reopened to the old,
And every word that taints the speech and show that weakens thought
And Israel watcheth over and does not watch for nought.

TARZAN AND THE GOLDEN LION. NO. 66

By Edgar Rice Burroughs
(Metropolitan Newspaper Feature Service, Inc.)

Manu, the monkey, hidden among the vines and creepers, watched for some time with growing excitement the strange column approach. When he realized vaguely the great numbers of the Gomangani, he was so beside himself he almost ceased the scratching he was busily engaged upon. But the last straw that sent him scampering to the Palace of Opar was the sight of the Bolgani, for these gorilla-men were the frightful ogres of his little world.

Cadj, the High Priest, was in the courtyard of the inner temple where at sunrise he had performed a sacrifice to the Flaming God. With him were several members of the lesser priesthood, Oah, now High Priestess in place of La, and her votaries. All were standing breathless as Cadj, in maniacal fury was threatening with the sacrificial knife an unfortunate priestess who had stumbled in her part during the late ceremonies.

Just as the knife was about to fall, a little grey monkey came chattering and screaming through a chink in the wall overlooking the court of the temple. "The Bolgani—the Bolgani!" he shrieked. "They come, they come!" Cadj wheeled toward Manu, the hand that held the knife dropping to his side. "Do you speak the truth, Manu?" he asked. "How many of them?" "They are as many as the leaves upon the trees," replied Manu.

Cadj turned and raised his face toward the sun and throwing back his head, gave voice to a long-drawn scream that ended in a piercing shriek. Three times he voiced the dreadful cry and now there issued from every corridor and doorway groups of the gnarled and hairy men of Opar. They were armed with heavy bludgeons and knives. Jabbering in the trees above them Manu pointed to the south.

Obituary

LAUGHLIN ANDERSON.

The death occurred in Toronto yesterday of Laughlin Anderson, former resident of Peterborough. Predeceased by his wife some years ago, he leaves four sons, William, Toronto; Howard and Norman in Davidson, Sask., and John of Dauphin, Manitoba, also four daughters, Mrs. William Wadsworth, Dawson Creek, B.C., Hazel, Grace and Kate in Toronto.

The funeral is to be held on Monday folowing the arrival of the 11.35 a.m. C.P.R. train. Interment at Little Lake cemetery.

BORN

HOTSTON.—At Nicholls Hospital, on Thursday, April 7, to Mr. and Mrs. E. J. Hotston (nee Nettie Davis, 368 George street south, a daughter.

IN MEMORIAM.

ROBERTSON. — In loving memory of Louisa Robertson, who passed away April 10, 1929:
We who loved you sadly miss you,
As it dawns another year,
In our lonely hours of thinking
Thoughts of you are ever near.
—Sadly missed by Husband and Family.

EASTER MEETING OF KNOX SOCIETY

Mrs. Walter Yale, of Lakefield, is Guest Speaker for Occasion.

The members of the Women's Missionary Society of Knox Church held their annual Easter Thankoffering meeting on Thursday afternoon in the parlor of the church when the President, Mrs. Watt, presided.

After the opening exercises, Mrs. MacDonald took charge of the worship service, the title of which was "What Shall I Do With Jesus Which is Called the Christ." Mrs. Munn, of St. James' Society gave a very appropriate reading, "The Starless Crown." The special offering was taken and Mrs. Morrison offered the dedicatory prayer. While the offering was being counted, Mrs. Ernie Johnston sang very sweetly, "That Old Old Story is True."

The guest speaker for the meeting was Mrs. Walter Yale, of Lakefield, a former active membe of Knox W.M.S. Her subjct was "Temperance" and in a unique and forceful manner she presented this subject to her audience. "It is not the number of times a man gets drunk, but the number of cubic inches of alcohol consumed daily that is damaging to the human system. Mid rot of barley and rot of corn, the demon alcohol was born. God gave wheat and corn to man for food and the upbuilding of his body, not for something to degrade not only his uphysical being but every intellect of which he is possessed. Daniel purposed in his heart that he would not defile himself with the portion of the king's meat or the wine which he drank. Paul said, "It is good neither to eat flesh nor drink wine nor anything whereby thy brother stumbleth or is offended or made weak. If it is a small sacrifice do it for yourself.

At this point she traced from its earliest stages the efforts put forth by abstainers to bring about total prohibition and showed that in every case of a vote taken apart from politics the voice of the people cried out strongly against the liquor traffic. The little province of Prince Edward Island is the only one which positively refuses to become a bar tender for the liquor interest. The speaker said she was very strongly impressed by the first temperance talk she ever heard, as a child, included in which was this statement: "When an insane asylum was baout to discharge an inmate they made a test to prove his cure. They turned on a tap and gave the patient a mop and if he were not wise enough to turn off the tap before he started to wipe up the spilled water he was not fit to be discharged. "Who is going to help shut off the tap of the liquor interests? The only way is by education agitation and condemnation and let every Christian join the ranks of temperance forces until by these three weapons they bring on a referendum to settle this moral issue.

A hearty vote of thanks was tendered the speaker for her most inspiring and interesting address. Little Eleanor Nicholls, of the Mission Band, sang very sweetly, "Away in a Manger" and a group of Mission Band girls sang, "Missionary Bells" as a chorus.

At the close of the meeting a social half hour was enjoyed.

KINSMEN PLAY MAKES BIG HIT

(Continued from Page 1)

der of the day, and when ladies were frail and delicate flowers, waitting in their boudoirs for missives from their lovers.

The cast was splendid, and appeared in every instance to carry out the especial pose with which Sheridan endowed the puppets for his drama.

Miss Nan Parsons had the principal feminine role of Lydia Languish, whose demeanor matched her name. Miss Parsons was a lovely lady in the part, carrying out to perfection the attitude adopted by the romantic Lydia, who complained bitterly of the tiresome quality of most love affairs and longed for opposition in her romances. She was delighted when her affair with Ensign Beverley, (the assumed name of Captain Jack Absolute), met with stern denial by her aunt, Mrs. Malaprop, but flew into a violent passion when matters appeared to take another turn, and a conventional wedding was in prospect. Only the threatened duel which her lover commenced to fight brought her to her senses. The vaporings and whims of a romantic maiden were fully realized in the acting of Miss Parsons.

Mrs. D. A. MacTavish, as Mrs. Malaprop, was, like Mr. Macdonald, a real success, her every appearance being greeted with renewed applause which had much to do also, with the manner in which she used her 'parts of speech'. "He is the very pineaple of politeness" remarked Mrs. Malaprop of the deceiving Jack, and, of her obdurate niece, "She is as headstrong as an allegory on the banks of the Nile."

"Sure, if I reprehend anything in this world, it is the use of my oracular tongue and a nice derangement of epitaghs," remarked the same lady, majestic in the marcon and silver of her apparel, with a two-foot towering white wig, surmounted by a pink feather, and a waving ivory fan.

Then there was the attractive cousin of Lydia, Miss Julia Melville, come to Bath to sip the waters and amiably await the pleasure of her capticus and melancholy lover. Miss Marcelle McNulty was a real vision of loveliness in the white taffeta robe that marked her last apparance, and her acting was splendid in the role of the sweet-tempered cousin whose demeanor was such a contrast to that of the capticus Lydia.

Miss Edythe Cottrell was the fourth feminine member of the cast, in which the men outnumbered the ladies by two to one. As Lucy, the pert little maid who made the loves and sighs of her higher-placed companions serve her purse to much advantage, she appeared to be the soul of simplicity, in reality being a most artful and designing little baggage, and contrived to put the role over in fine fashion.

The play which, through five acts that scintillate with humour and with an unconscious self-revelations to the audience of the mental attitude of the various players, centers about the suitors—"the rivals" for the hand of the heiress, Miss Lydia Languish.

Picturesque Hero

Its masculine players are in the majority and each one gave a fine account of himself.

Allan Neal was the favored suitor and Captain Jack Absolute, and his tall, handsome form added much to the picturesque aspect of the drama. Clad in the military attire of a dashing young captain, with powdered wig carefully curled, with crimson jacket blazing with brass buttons, with spotless white breeches and high black Bluchers, he was an attractive foil for the lovely Lydia and his role was presented in a manner that left nothing to be desired.

The other suitors, including the phantom Ensign Beverley, under whose name Captain Jack Absolute masqueraded to satisfy the desire of the romantic Lydia for an unknown admirer who would be obnoxious to her aunt and therefore doubly dear to her own sentimental mind, were Bob Acres, played by Dr. Ralph Honey and Sir Lucius O'Trigger, played by H. H. P. Johnston. These parts were admirably taken in both instances, with an especially fine aspect of reality to both presentations.

Bob Acres was the doughty and natural-acting youngster, up from the country, with a desire for prominence in the eyes of his lady, and no chances at all for her hand. He was lured by the wily Sir Lucius into challenging the phantom Ensign, because the latter had dared to love Acres' inamorata, and the luel scene, with the preparation for the encounter by O'Trigger, was one of the funniest and best-enacted of the whole drama. Acres invokes his honour in a manner that betrays his fear, and his shaking hand can scare hold the old-fashioned pistol, while O'Trigger enoins him to continjued bravery in the face of being buried "snugly in the Abbey" or "pickled and sent home" for interment.

But O'Trigger, a fire-eating Irishman whose part was one of the best-enacted in the piece, had his ups and downs. Having engaged the fancy of Mrs. Malaprop, he is in receipt of divers letters from "Delia", whom he fondly believes to be Lydia. He also picks an imaginary quarrel with Jack Absolute and proceeds with gusto with the sword-duel which follows.

Adrian Macdonald, as has been said, had one of the major and outstanding roles as Sir Anthony Absolute. His presentation of the querulous, crotchety, tyrannical old gentleman with an eye for the ladies and the very best of tempers, "provided he always has his own way" was without a flaw and he received enthusiastic applause on every appearance. His conversations with Mrs. Malaprop were delightful.

Fred Stannard, a resplendent figure in a suit of dark brocade whose wide cavalier cuffs sparkled with glittering embroidery, was another tall and handsome figure, as Faulkland, with a smooth English voice that added just the last touch of verisimilitude and interest to his extremely well-played role. As the lugubrious, long-faced lover who sought in every possible way to test the affections of his lady love, the fair Julia, and who even went so far as to deceive her into believing him the victim of a cruel Fate, he was extremely satisfying.

Minor Acts

The three men servants of the piece come last, but they were certainly not least in the presentation of the drama. David, the part taken by Rod Davis, had a touch of professionalism that placed it far beyond the average. The voice, the make-up, the posture of Mr. Davis as the crippled David, the manner in which the audiece listened with eagerness to his much too brief speeches, showed their appreciation of a touch of real artistry. Mr. Davis went so far as to throw his hip out of joint for the part, and the result justified the effort.

Dr. Herbert Young, blazing in a livery of bright vermilion, as Fag, attendant on Captain Jack, had a few extremely realistic bits, and Harold Robson, as Thomas, coachman to Sir Anthony, was equally good in several brief appearances. These two gave a professional touch to their opening of the drama, in a short scene that was splendidly enacted and set the stage in dashing style for the picturesque drama which followed.

The piece sparkled with witty remarks that had their essence in a humour that carried no sarcasm or bitterness in its words, and had an unconscious quality of real fun. A series of short scenes made up the five acts, among the most notable and most applauded being the captious and whimsical bit in the second act, where Lydia and Jack try to carry out the deception which the latter has arranged, and Mrs. Malaprop strives to unfold the riddle of the dual identity of Ensign Beverley, whom she hates for his "aspersion on her parts of speech", and the gay captain, whom she wishes to be her niece's favored suitor.

Then there is the delightful and extremely well acted bit in the last act, the scene done before the curtain, on the South Parade, between Sir Anthony, his son, and the servant, David.

Besides the memorable and misapplied words of Mrs. Malaprop, there are several sentences that linger in the memory: Bob Acres' ejaculation, with its noble swing: "Your words are a grenadier's march to my heart" and another sentence, also very expressive, "The thunder of your words has soured the milk of human kindness in my heart."

For this, the second annual presentation by the local Kinmen Club, under whose auspices the production was staged, five hundred and fifty people were in attendance, proving to be an appreciative and interested audience.

The production was enhanced by the stage furnishings loaned by the Canadian Department Stores, while the programs were made possible by the kindness of Dr. M. Crough, J. K. Hughes, F. D. Kerr, K.C., Emmett F. Sheehy, Dr. Herbert N. Young, Dr. Ralph Honey, D. M. Bissell and E. F. Riley.

Assisting with the performance were A. Purman of the Malabar Company of Toronto, who provided the costumes and scenery; Hugh Lush and Mrs. F. Hooper, who did the prompting.

All the ladies in the cast, including Mrs. Hooper, received lovely flowers at the conclusion of the performance.

During an intermission, Miss Sophie Yeates, doing her favorite toe work, advertised the forthcoming 'Y' Pageant.

A feature of the opening, before the performance started, was the introduction of the production by G. Wilson Craw, president of the Kinsmen Club, who spoke of the benevolent works performed by the organization, thanked the audience for the support, and citizens of Peterborough for the way they have backed the Kinsmen during past two years, also the presentation by Mayor Denne and T. Sargent, president of the local branch of the Humane Society, of medals and certificates in connection with life-saving efforts by several local young people. The report of these proceedings appears fully in another column.

Very fine entre acte music was played by a tuneful orchestra with the following members: Harry Northrop, A.T.C.M., piano; Stanley Northrop, A.T.C.M., violin; Walter Hughes, cornet; Walter Townsend, clarinet; C. J. Seymour, violoncello, and R. Beach, drums.

LIBERALS MEET

The annual meeting of the Peterborough Liberal Association will be held on Saturday, April 16, in the Canadian Legion hall at 2 p.m. Election of officers is the main item of business with a report of the organization of the newly formed association of Liberals of Central Ontario. Dr. J. J. Craig, president, will be chairman.

SWALLOWS ARRIVE

With a cheery twittering announcement of their arrival the first swallows reached Peterborough this morning, personal heralds of the approaching summer. Soon they will be house-hunting, appraising the tiny apartments and detached dwellings that are being erected for them.

Germany exported more aluminum products in 1931 than in the preceding year.

The British Government has announced that radio sets may be sold "on approval."

HOME EDITION

VOL. LXVIII., No. 85 — PETERBOROUGH, ONTARIO, CANADA, MONDAY, APRIL 11, 1932 — PRICE THREE CENTS

OATH IS INTOLERABLE BURDEN TO IRISH

NEWS IN BRIEF

SHORT ITEMS RECEIVED OVER C. P. WIRE.

CAPREOL ACCOUNT SHORT

CAPREOL, April 11.—A shortage of $1,614 has been found in the treasury of the Town of Capreol, according to the final report of a special audit made by an Ottawa firm. Town Clerk-Treasurer A. Brundage, who has been ill, has returned from Pembroke.

MADE PRIVY COUNCILLOR

LONDON, April 11.—Sir George Perley, Minister without portfolio, in the Canadian Government, and head of the Canadian delegation to the League of Nations, was sworn into the Privy Council Saturday at Windsor Castle, and afterward was granted an audidence by King George.

TWO CHURCHES BURN.

COLLINGSWOOD, N.J. — Two Methodist Episcopal churches in South Jersey were virtually destroyed almost simultaneously today by fires which authorities suspect were started purposely.

Damages to the First Methodist Episcopal Church here and the Fourth Episcopal Church in Millville were estimated by church officials to total $125,000.

HELD FOR ARSON.

BROCKVILLE.— Stephen King, Athens, is under arrest to-day on a charge of arson arising out of the destruction of a barn owned by Lucas Tackaberry. King formerly worked for Tackaberry. Cattle were saved from the barn, but several tons of hay and some implements were destroyed.

65 PER CENT SURTAX

WASHINGTON, April 11 (A.P.)—A surtax of 65 per cent. on incomes of more than $5,000,000 was recommended to-day to the U.S. Senate Finance Committee by the U. S. Farm Bureau Federation, through Chester Gray, its Washington representative.

TROOPS ORDERED HOME

TOKYO—The War Office ordered the return of several thousand additional troops from Shanghai today.

The announcement said all the reservists who were called for active duty and sent to Shanghai with the 14th Division late in February, were ordered demobilized. This will place the division on a peace footing of about 11,000 men.

NAPANEE MAN MISSING.

KINGSTON — Wide search is being made through this district to-day for Harry Smith, Napanee, who has been missing since last Wednesday. About a month ago Smith was rescued from his burning home after having been almost suffocated by smoke.

WELLAND CANAL OPENS.

THOROLD. — With bunting flying and whistles shrieking, the steamers New York News and Chicago Tribune and the motorship Thorold left here to-day at two-minute intervals for Chicago, opening navigation on the upper half of the Welland Ship Canal. The Imperial Oil tanker Royalite arrived at Port Colborne last night from Sarnia.

CLINTON COMPANY FAILS.

TORONTO, April 11 (C.P.). — Stevenson, Harris Company, Limited., Clinton, Ont., has been adjudged bankrupt, and a receiving order has been made against it by W. J. Reilley, Registrar in Bankruptcy in Osgoode Hall. The Trusts Guarantee Company, Limited, Brantford, has been appointed custodian of the debtor company's estate.

$100,000 FROM LINDBERGH

NEW YORK.—The Evening Post says it was informed this afternoon that Col. Chas. A. Lindbergh has been cheated out of $100,000 in his efforts to secure the return of his kidnapped son.

The source of the information, The Post said, is a high police official in New Jersey.

Farmers in West Begin Seeding

LETHBRIDGE, Alta, April 11 —(CP)— Southwestern Alberta farmers started seeding operations today. The top soil, it is reported, contains plenty of moisture to ensure good germination but there is no reserve in the sub-soil.

Yesterday the temperature soared to 64 degrees and fairly warm weather prevailed today. One farmer, eight miles east of Leathbridge, reports he has sown 150 acres of wheat with more than 700 acres ready for the seed. Seeding operations, however, were general in the southwest only today.

HITLER IS SHORT 5,950,000 VOTES IN SECOND FIGHT

Veteran Field Marshal at 84 Begins Another Seven Year Term.

RED NETS 3,706,388.

Outcome Strengthens Chancellor Bruening's Hand in Serious International Affairs.

BERLIN, April 11 (A.P.)—Field Marshal Paul Von Hindenburg, second President of the German Republic, settled back in his Presidential chair to-day at 84, for another term of seven years.

In yesterday's run-off election he rolled up a plurality of nearly 6,000,000 votes over Adolf Hitler, National Socialist candidate, his chief opponent.

The preliminary official final vote, as announced by the election commissioner early to-day, was:

Von Hindenburg	19,359,642
Hitler	13,417,640
Thaelmann (Com.)	3,706,388
Invalid	8,204
Total vote	36,492,694

The veteran President, during his second term, will have the satisfaction of knowing he is a majority President. Although he failed of receiving a majority of the votes cast in the first election on March 13 by only a little over 150,000 votes, he rolled up a clear majority of 2,235,794 yesterday over the combined vote of his two opponents.

Two Killed

One National Socialist and one Republican were killed during the fights in Hamburg and Bremen. Another man dropped dead from excitement. Three score persons were more or less seriously injured and hundreds were arrested.

Early this morning Hitler issued a statement through his headquarters at Munich calling upon his followers to gird for the Prussian Diet elections on April 24 in an effort to march a step farther toward the goal he called "German liberation." "The National Socialists know not what rest is," he said, "and must not tarry until the goal of German liberation has been reached. Our works begins tomorrow."

That the Hitler movement apparently came to a standstill yes-

(Turn to Page Two. Please)

ROPE BREAKS SAVES SUICIDE

Man Falls 80 Feet, Goes Through Ice Into Saskatchewan River.

CRAWLS TO HOTEL.

THE PAS, Man., April 11.— John Shaw, of Moose Jaw, Sask., foreman here for the construction firm in charge of the building of the new federal building in the Pas, attempted suicide early today by hanging.

Shaw jumped from the railing of the bridge over the Saskatchewan river, after tying a rope around his neck and attaching it to the framework of the bridge.

The rope broke and Shaw was hurtled 80 feet to the ice below. Recent thaws had honeycombed the ice and the man went through into the water.

He managed to crawl back to the surface of the ice and reach the bank and get back to his hotel. There a night clerk found him in the hallway, severely injured, his clothes caked with ice. He is in hospital here and may recover. Doctors today did not know the full extent of his injuries. No reason is known for Shaw's attempt on his own life.

Youth Injures Eye Playing At School

LIFFORD LINE, April 11 (Examiner Correspondence). — Injuries near the left eye requiring several stitches were received by Kenneth Henderson, senior pupil at Eighth Line School recently. The boy was playing with a number of his schoolmates, splashing sticks in the water, when a piece of timber flew up and struck him in the face. He was taken to the home of Ernest Beer and was later conveyed by his parents to a doctor at Bethany.

26 Arrested in Detroit Burglar Ring Admit 750 Raids—$10,000 Loot Found

DETROIT, April 11.—A robbery and burglary ring which has preyed upon Southern Michigan for six months, recruiting boys and girls, as members, was broken today, police said with 22 men and four women in jail.

Arrested yesterday in simultaneous raids on seven residences, the prisoners confessed, police said, to 150 robberies of homes and stores and 600 other depredations against motorists.

Jewels, negotiable securities and other valuables valued by police at $10,000 were seized. A short wave radio set, tuned in on police broadcasts, also was confiscated.

John McAllister, 35, was arrested, charged with being the ring leader.

Lindbergh Pays $50,000 Asked; Son Not Returned

Colonel Convinced Cash Was Paid Bonafide Representatives of Abductors — Identification Made Through Original Note Left When Baby Was Stolen.

BANKERS WARNED TO WATCH FOR MARKED NOTES; RUMOR FLIER WILLING TO REPLACE BILLS WITH GOLD

Advisers Feel Martha's Vineyard, Picked as Spot for Baby's Exchange, is Too Public for Gang to Risk Appearance—Hopes Buoyed Up.

HOPEWELL, N. J., April 11. — The sign of the double cross flamed across the Lindbergh baby kidnapping case today. Col. Charles A. Lindbergh has paid $50,000 for the return of his stolen child—but the baby has not been returned.

The serial numbers of each bill paid for the baby's return are in the hands of bankers throughout the country today, and bankers have been requested to notify the treasurer of the United States by telegraph if any of the bills—all of 1928 issue—come to their notice.

Col. Lindbergh, in another of the rare statements he has authorized since the child was stolen from the Sourland Hills Estate, March 1, made several moot points clear last night.

He disclosed definitely that there was an original ransom note, and that this note was such as to provide an absolute means of establishing the identity of the kidnappers.

He made clear that the parties to whom he paid $50,000 in five, ten and twenty dollar banknotes early this month—payment of this sum was made known Saturday — had convinced him beyond all doubt that they were bona fide representatives of the kidnappers, if not the kidnappers themselves.

Gold For Bills

He went further, in his latest statement, and reiterated his hope that the kidnappers would make good their promise to return the child. It was even reported that Col. Lindbergh was willing to consider replacing the currency—the serial numbers of which now are in the hands of all banks in the country—with gold coin, which carry no identification numbers.

Col. Lindbergh's statement last night said:

At the time the baby was kidnapped a ransom note for $50,000 was left in the nursery. For obvious reasons it was necessary to withhold information concerning the ransom note.

A means was offered in the ransom note of positive identification of the kidnappers thereafter. Subsequent notes received were identified by this means and at the time the ransom was paid over the kidnappers used the same means to positively identify themselves as the ones who had carried off the baby.

This is the only means by which Colonel Lindbergh can know for a fact that he is dealing with the kidnappers. It has been withheld and will be withheld by Colonel Lindbergh for future identification.

It must be remembered that the baby has not been returned and it

(Turn to Page 3 Please)

Shanghai District Raided By Pirates

SHANGHAI, April 11 (A.P.)—An unprecedented wave of piracy west of Shanghai toward Lake Taihu has resulted in a paralysis of commence in that area, Chinese commercial circles here said to-day.

In a report revealing an alleged breakdown of all civil authority in the hinterland, extending to within a few miles of the Shanghai International Settlement, local merchants said the pirates had made a series of astoundingly daring raids in recent days, taking goods valued at $250,000 from barges on the way to Shanghai, and kidnapping 40 adults and children for ransom.

CHINA PASSES BUCK TO LEAGUE

Lets Assembly Worry Over Japanese Troop Withdrawals.

PARLEY HOPELESS.

SHANGHAI, April 11. —(AP)— China has turned over to the League of Nations, the whole subject of withdrawal of Japanese troops from the Shanghai area, the Associated Press was informed tonight by Quo Tai-Chi, chief of the Chinese delegation attending the peace parleys here.

This conference apparently is hopeless, he said. But maybe the League can help. The Japanese have refused to set a time limit on their withdrawal and if they persist in this view the conference is doomed to fail.

Owners Are Slow In Licensing Dogs

Dog owners are advised that the time of grace for obtaining dog licenses elapses at the end of this month. After that owners may be hailed into court for allowing their pets about the streets without wearing the little metal disc that identifies them as registered members in good standing of the city's dog population.

Police state that the sale of dog licenses has been very slow and that there are known to be hundreds of dogs without tags. A drive on owners who have failed to get dog tags will start early next month, they said.

CUTS PROVE FATAL

SUDBURY—Aner Yoki, Finlander, of Sault Ste. Marie, died yesterday after being found on the street with his throat cut Saturday. Police believed the man committed suicide.

Find 50 Cattle Near Starvation

ST. CATHARINES, April 11. —(CP)—More than 50 cattle in various stages of starvation, were discovered by police on the farm of William Clayton in Caistor Township over the week-end and today the owner was arrested on a charge laid by Humane Society Inspectors. One cow was dead and others were in the last stages of starvation. The herd will be cared for by the Humane Society.

NO BEAR RAIDS ON N. Y. 'CHANGE PRESIDENT SAYS

Whitney Promises Full Cooperation as Senate Group Opens Probe.

DENIES RUMORS.

Connection Explained With United Corporation—History Delved Into.

WASHINGTON, April 11. (A.P.) Saying we do not have any bear raids, Richard Whitney, President of the New York Stock Exchange, Promised complete co-operation today with the U.S. Senate's enquiry into the exchange in testimony to the banking committee

Senator Brookhart (R. Iowa), Brought up the last week rumors of a huge bear raid planned for Saturday, which were understood at the capitol to have caused a speeding up of the investigation.

Whitney told him he knew nothing of any such raid except something he had been told by Senator Walcott, (R. Conn.), about operations in United States Steel.

The exchange president mentioned the stocks of American Telephone and Telegraph, Public Service of New Jersey and Consolidated Gas of New York as among those referred to in connection with the purported bear raids.

He said there had been no bear raiding, but great liquidation in these stocks.

Senator Glass D. (Va), demanded of Whitney to know what kind of short selling is legitimate and what is illegitimate.

Short or Long Selling.

A bear raid may be short selling or it may be long selling, said Whitney.

Brookhart asked Whitney if he was a relation to the Whitney with J. P. Morgan and Company. He said he was a brother.

Did you have anything to do with the United Corporation organized by Morgan?

Please be more specific. I own some of the stock which I bought at 50 and is now selling at about 5.

Senator Gore asked if Whitney regarded that as a mistake.

A grave mistake, the stock exchange head replied, amid laughter.

Brookhart then went into the history of the United Corporation which he called a Morgan Utility Holding Company.

The Iowan said it started at $105,000,000 and was pushed to $1,400,000,000.

By whom? asked Whitney.

That is what I want to know, replied Brookhart.

By the public who thought it was a good investment at the price, sharply responded Whitney.

LINDSAY POLICE LOCATE STILL

Owner is Fined $300 and Costs and One Month in Jail.

OTHERS ARRESTED.

LINDSAY, April 11. (Special to The Examiner).—A field day took place in local police court this morning as the result of active work on the part of the police on Saturday night.

Chief Lawlor picked up while intoxicated Clarence Spencely and James Lawer in a cafe. Then a milk can still was found at Lawer's farm, along with a large quantity of mash and some illegal spirits. From there the police went to a home occupied by a man named Mathewson in town, where illegal liquor was found. Another man named Handcock was also found intoxicated.

Lawer was fined $300 and costs and one month in jail and in default six months in jail. Spencely pleaded not guilty to drunk charge and was remanded. Handcock was fined $10 and costs and told to get back to his home at Smith Falls. Lawer was also fined $15 and costs for being drunk. Two other men Huntoon and Gregory were let off on suspended sentence for fighting.

The still was found by the police at Lawer's farm near Cambray. It was a small milk can with a copper wire coil.

Ashworth Read, aged 86, retired cotton manufacturer, who attributed his good health to a daily drink of sea water, was recently found dead in bed at Lowestoft, Scotland.

Breaches of Faith On Part of Britain Stained History

British Government Stands By Irish Treaty, Hon. J. H. Thomas Announces in the House of Commons in Summarizing Reply to De Valera.

Whether or Not the Oath Was Integral Part of Treaty 10 Years Ago Was Not Now the Issue De Valera Says

"Irish Treaty Has Divided Ireland Into Two Hostile Camps —Treaty Gave Britain Peace, Ireland Ten Years of Blood and Tears."

LONDON, April 11.—(C. P. Cable)—The British government in the last of the notes exchanged with the Irish Free State government repeated the oath of allegiance to the king is an integral part of the Irish treaty, and the land annuities are not payments from one government to another, but payments to holders of Irish land stock to which the government of the Irish Free State formally pledged themselves in the financial agreement of Feb. 12, 1923.

The text of the notes was made public today following a brief statement by J. H. Thomas, Secretary of State for the Dominions, in the House of Commons. Mr. Thomas merely said that in unmistakable language the British Government stands by the Irish treaty, and then made public the notes. The House cheered his remark.

No proposals for submitting the matter to arbitration were contained in the despatches, the latest of which was the British Government's message of April 9. The chief note from President de Valera declared removal of the oath was a matter of domestic concern; and the Irish Free State government was not aware of any formal and explicit undertaking to continue to pay the land annuities to the National Debt Commissioners.

In reply the British Government charged President de Valera with going far beyond the original issues and raising the issue of nothing less than a repudiation of the settlement of 1921. Referring to President de Valera's statement the treaty split Ireland in two, the British Government said it felt it sufficient to state that in their opinion there can be no conceivable hope for establishment of an united Ireland except on the basis that its allegiance to the Crown and its membership in the British Commonwealth remains unimpaired.

The text of the correspondence opened with the statement of the Irish Free State High Commissioner in London to the Secretary of State for the Dominions on March 22, intimating the intention of the Republican Government regarding the oath and the land annuities with the British reply of March 23. These had been covered in a previous statement in the House when Mr. Thomas said the British Government regarded the oath and the annuities as integral parts of the treaty.

In a despatch of April 5, President Eamon de Valera declared that whether the oath was or was not an integral part of the treaty 10 years ago was not now the issue. "The real issue," President De Valera continued, "is the oath is an intolerable burden to the people of this State and that they have declared in the most formal manner that they desire its instant removal."

Many Breaches Of Faith.

"The suggestion in your despatch that the Government of the Irish Free State contemplates acting dishonorably cannot in justice be let pass. The pages of the history of the relations between Britain and Ireland are indeed stained by many breaches of faith, but I must remind you that the guilty party has not been Ireland.

President De Valera proceeds that the agreement of 1921 involved no parity of sacrifice as between Britain and Ireland. "The agreement gave effect to the will of the British Government. It was directly opposed to the will of the Irish people who submitted to it under the threat of immediate and terrible war. Since it was signed it had cost Britain nothing."

"Britain's prestige," President de Valera's message went on, had been enhanced by the carefully fostered belief that Ireland had at last been set free. For Ireland, however, this agreement has meant the consummation of the outrage, of the partition and alienation of the ost sacred part of our national territory with all the cultural and material loss this separation entails, he added.

Britain had maintenance parties still in occupation of some of the principal ports even in the Irish Free State, President de Valera went on. Irish coastal defence was still in British hands. Britain claims the rights in times of war or strained relations with a foreign power to

(Turn to Page 5, Please)

ANGERED LOVER WIELDS RAZOR

Girl Attacked on Way Home With Mother After Failing to Keep Date.

YOUTH ARRESTED.

LIVERPOOL, N.S., April 11 (C.P.)—Her face, neck, arms and hands gashed by a razor, Pauline White, 15, is in a critical condition, while Frederick Guest, her 20-year-old admirer, is held in Liverpool jail on a charge of attempted murder.

Guest is alleged to have attacked the girl on Saturday night because she refused to keep an appointment to meet him.

Instead of meeting him she went shopping with her mother and her sister. According to statements made to police by the mother and sister, Guest trailed them through the streets for a while and later sprang from a clump of bushes on a lonely road leading to their home on the outskirts of the two.

They said he seized the girl, who freed herself while he drew a razor. She ran a short distance and was overtaken by Guest, who, they declared, slashed her with the weapon several times. Her arms were cut as she raised them to ward off blows.

Screams of the three women attracted attention of Clayton Davis and Seth Lee, who overpowered Guest and marched him to the police station.

Two Are Arrested For Whitby Robbery

OSHAWA, Ont., April 11. (CP)—Alleged to have broken into and robbed the clothing store of J. F. Booth at Whitby early Sunday, Allan Levang and George Clark, of Toronto, are in jail at Whitby today. The men are alleged to have escaped from the store after being observed inside by a constable.

Three motorists who claimed their automobile had been stolen near Highland Creek brought the two into the police station, declaring they had caught them on Danforth Avenue in Toronto.

Wild Geese Shot Near Jackson Park

A reward of $20 will be paid by the Peterborough Fish and Game Association for information leading to the arrest of the persons who on Saturday shot and killed a number of wild geese that were temporarily resting and feeding on the farm of W. W. White, North Monaghan, west of Jackson Park, about three miles from the city.

Migrating wild fowl have found sanctuary in their migrations during the last few years on a pond on the White farm, and the Fish and Game Association had supplied feed that was set out for the birds. About fifty of them recently returned to this small sanctuary, but on Saturday some persons with guns shot into the flock, killed a number of them and frightened the rest of the birds away. The Association will make an example of these gunmen if their names are made known.

CONSIDERATION FOR FARMERS APPEALED FOR

Dr. E. S. Archibald Urges Rotarians to be Sympathetic Toward Farm Problems.

FARMER GUESTS.

Annual Get Together Luncheon Held by Local Service Club To-day.

Urging city people to show a more sympathetic interest in the problems of the farmer and appealing to agriculturists to improve their methods, Rotarian Dr. E. S. Archibald, head of the Dominion Experimental Farm, delivered a striking address to the Peterborough Rotary Club and between forty and fifty farmer guests from North Monaghan and Smith at the annual Farmers' Day luncheon at the Empress Hotel to-day.

The affair was, as usual, in charge of Rotarian George A. Gillespie, who made all the arrangements, welcomed the farmer guests and introduced the speaker of the day to the gathering.

Dr. Archibald remarked that he had not come to Peterborough as a farmer to speak to an audience of farmers, nor as a Rotarian to speak to Rotarians, but rather as a farmer-Rotarian to deliver a message that might be of interest to both.

The speaker outlined what he considered some of the chief objectives to be sought by agriculture: the securing of the maximum wealth from the farms; the keep of a maximum number of men employed on the land, and the maintenance of a virile nation. There were those who argued, he said, that production should be controlled so as to be merely sufficient to feed Canada itself, but he regarded that as a fallacious doctrine, maintaining that Canada's surplus of farm products was a most essential factor in the development of the Dominion's external trade. The importance of a virile rural population was stressed by Dr. Archibald, who pointed out the contribution made to the life of cities and towns by the young men who came into them from the farms.

To the farmers themselves, Dr. Archibald stressed the necessity of lowering their production costs, enlarging their farm production and improving the quality of what they raised. He called attention to the dislocation of the milk business and suggested that the situation would be materially improved if farmers were to scrap inferior cows which were not producing enough milk to justify their maintenance. The improvement of farm stock, the elimination of scrub bulls, more consideration to the question of unit costs, and other suggestions were brought forward by the speaker.

Then Dr. Archibald addressed himself to his city hearers, urging them to develop a more sympathetic interest in the farmer whom, he said, was attempting a most difficult and most precarious business. Farming, he said, should be so developed that the farmer of average intelligence could be assured of a fair wage, plus the interest and depreciation on his equipment. Something he was not getting now and which even in more prosperous times he did not always get. The simple fact was that the farmer did not get a sufficient proportion of the consumer's dollar.

"I don't know what you are paying for milk here," said Dr. Archibald, and when informed 9c a quart, remarked that the consumer was better off here than in most Ontario centers, and that if the farmer was getting three cents a quart he ,too, was more fortunate than were those of other districts. He stressed the spread between the consumers price and that paid the farmer, pointing out that health regulations and the insistence of the consumer on a better product had added to this spread. It should be the duty of the urban municip-

Dictionary Printed In 1798 Owned In City

Yellowed with age, a general pronouncing and explanatory dictionary of the English language, printed in London in the year 1798 is in the possession of Mrs. Thomas W. Brien of this city.

The dictionary was brought from Ireland and has been handed down through Mrs. Brien's family, having been in the possession of the late John Carew of Emily before belonging to its present owner.

The preface, the greater portion of which is missing was written by Dr. Samuel Johnson, while the treatise on "Prosodial Grammar" was compiled by Dr. Johnson and Richard Sheridan. The spelling throughout is in Old English.

PRICE CLAIMS HIGH PREMIUM TAX ABANDONED

Ottawa to Withdraw Proposed Levy on British, Foreign Insurance.

REPORT GIVEN.

Error Made, Attorney General Says on Return From Parley.

TORONTO, April 11—Withdrawal of the proposed 15 per cent. tax upon gross premiums paid by Canadian policyholders in British and foreign insurance companies has been decided upon by the Federal Government, Hon. W. H. Price, Attorney-General, stated last night on his return from the interprovincial parley at Ottawa.

Because such companies are now operating under provincial licenses, Col. Price stated, the tax will not be levied. Instead, these companies will be included in the general tax of one per cent. of net premiums, Col. Price expected. Announcement of the modification of the taxes would be forthcoming from Ottawa within a few days, he said.

Error Made

"As far as I could gather, an error had been made, and it had not been intended that the tax should apply to the companies now operating unde provincial licenses and registered in the provinces," said Col. Price. "I believe they will be subjected to the same tax as the other companies now doing business in Canada.

Under the proposed tax, policyholders of British and foreign mutual and reciprocal organizations which accept a premium deposit 20 times as great as the eventual premium collected would have been taxed at the rate of 15 per cent. of the gross premium or 300 per cent. of the actual expenditure. The tax would have affected risks totalling more than $400,000,000 in Canada and paying premiums approximating $4,000,000.

Following announcement of the suggested tax, industrial and commercial organizations throughout Ontario and Quebec made protests and representations to Col. Price and Hon. L. A. Taschereau, Premier and Attorney-General of Quebec. The tax was discussed at the conference, and, Col. Price intimated, the Federal authorities explained that it would not be applied to companies authorized by the provinves to operate in their respective jurisdictions.

Interesting Discussion

"We had a very interesting discussion on conditions in the provinces and their relations with the Dominion were carefully reviewed," said Col. Price. "Representatives of eastern provinces, however, were more particularly struck by the spirit of optimism which the West brought to the gathering.

"The Premiers of the prairie provinces expressed the belief that with average crops this year, the result of seed provided by the Federal authorities, normal conditions will be restored in Western Canada and purchasing power will be re-established. The confidence and optimism of the western members was an inspiration to Eastern Canada."

Paris Is Relieved At Hitler's Defeat

PARIS, April 11. —(AP)— Paris morning papers expressed relief today over the defeat of Adolf Hitler, German National Socialist leader, in yesterday's election but some of them professed to see ground for continued apprehension in the elections for the Prussian Diet on April 24.

Yesterday teaches a double moral, said Le Petit Parisien, first, that Hindenburg's prestige continues among the Germans of wisdom and second, that Hitler has a growing authority over the youths anxious for novelty.

ONTARIO GRAIN.

TORONTO, April 11.—Wheat, 52c to 54c; barley, 35c to 40c; oats, 25c to 27c; rye, 45c. buckwheat, 43c to 45c; corn, 36c.

Slav Crown Seen For British Brow

LONDON, April 11. (AP). A member of the staff of Prince Arthur of Connaught, nephew of the King, said a report that he would be offered the crown of Jugoslavia was not true.

The Sunday Express said yesterday it understood a delegation of Jugoslavian deputies, led by a former cabinet minister, was coming to London to offer the throne to Prince Arthur.

The newspaper said King Alexander of Jugoslavia does not feel too secure on the throne. He was understood to have placed £7,000,000 to his credit in London in case of eventualities, the story added.

POWER SHUT OFF TWICE IN NIGHT

Faulty Insulator at Healey Falls Cause of Power Trouble.

DAMAGED BY RAIN.

The city was cast into darkness for seven minutes about 11 o'clock last night. Lights everywhere, in homes and the streets, were out while the city was without power. Disturbed in their customary late evening activities, citizens huddled in the darkness and then hunted about for candles.

A single insulator down near Healey Falls was the cause of the trouble, Ross L. Dobbin, manager of the Utilities, explained. The insulator was damaged by the rain. The power was off last night to allow workmen to bridge over the faulty insulator. Again at 6.30 this morning the power was off for some minutes, while workmen replaced the damaged insulator and replaced it with a new one.

Youngsters who are busy these days flying kites are warned against sending them aloft near power lines. A kite caught in the high tension wires might cause great damage.

HITLER IS SHORT

(Continued from Page 1)

terday would seem to be indicated by the fact that, although his increase from 31.1 per cent of the vote on March 13 to 36.8 per cent yesterday was substantial, the difference did not equal the vote cast for Lieut. Col. Theodore Duesterberg, Nationalist candidate in the March election, who withdrew from the run-off.

A large section of the Nationalists was shown to have failed to swing to Hitler and President von Hindenburg increased the percentage of his own vote from 49.6 to 53.9.

Perhaps no public man in Germany was happier over the result than Chancellor Heinrich Bruening. He plans to leave Berlin Wednesday night for Geneva for negotiations of vital interest to Germany and he also must face Germany's international creditors at Lausanne. One of his chief pleas during the campaign was for an endorsement of the president as a symbol of Germany's unity and determination to come back by peaceful means.

Prefers Straight Road

The leading newspaper of the Rhineland, the Cologne Gazette, commenting on Von Hindenburg's re-election this morning, said. The nation prefers the straight sacrificial road of common sense rather than the promises and experiments of radicalism. The Volks-Zeitung of Cologne called the president's re-election Germany's withdrawal from radicalism.

The Social Democratic Vorwaerts, declaring it was chiefly von Hindenburg's merit which saved the country from civil war, added that henceforth efforts must be concentrated to keep Hitler from meddling with the nation's plans and seizing power illegally.

The diet elections began to absorb all political interest today, with the presidential contest out of the way. These will be held on April 24 in the states of Prussia, Bavaria, Wurtemberg, Hamburg and Anhalt.

HONOLULU CASE READY FOR TRIAL

Public Prosecutor Expects to Complete His Task Within Three Days.

LONG WITNESS LIST.

HONOLULU, April 11. — (AP) — One side—the prosecution's side — of the story of the killing of an Hawaiian accused of attacking a white woman was ready to be told in court today as the Fortescue-Massie trial moved into its second stage.

Selection of a jury having been completed Friday, the prosecution assembled witnesses for the presentation of testimony and evidence.

As the trial resumed after recessing over Saturday and Sunday, Public Prosecutor John C. Kelley had before him the names of 29 persons who professed to have knowledge on one phase or another of the killing of Joseph Kahahawai. Hawaiian accused with four other men of attacking Mrs. Thalia Massie.

With the Pidgin English they speak in court, since most of the prosecution's witnesses are Oriental and mixed blood, Kelley hopes to forge a chain of circumstantial evidence which will send Mrs. Massie's husband, Lieut. Thomas H. Massie; her mother, Mrs. Granville R. Fortescue, and two U. S. navy enlisted men, E. J. Lord and Albert O. Jones, to prison as the killers.

The death penalty is not involved, the defendants being accused of second degree murder. However, conviction would carry with it the possibility of a long term in prison.

Despite his long list of witnesses, indications are that Kelley will use only the most important of them. He has said the prosecution expects to complete its case within three days.

Court sessions are limited to three hours a day in defence to Clarence Darrow, 75-year-old leader of the defense.

TWO ARRESTED ROBBING HOME

Battle in Cellar of Canon Sawers' Home Ends in Arrest.

NEIGHBOR GIVES ALARM.

TORONTO, April 11. — In a hand-to-hand battle in the cellar of the home of Rev Canon F. J. Sawers, rector of St Matthew's Church, 1A Langley Avenue, last night, Plainclothesmen Wilson and Hill of Pape Avenue Station overpowered and arrested two alleged housebreakers, John Beckett, aged 34, of 12 Sackville Place, and John Wood, 35, of 18 Wilmott Place.

At 7.30 last night the accused entered the home by way of an unfastened back door, police allege. The thieves made their way upstairs to a room used as an office by Canon Sawers. Envelopes containing $89.98, collection from the Sunday morning service, were stolen. About $3.00 in stamps were stolen, also two watches and a diamond ring.

A neighbor had seen two men go to the rear of the house and enter. She telephoned No. 8 Police Station, and Plainclothesmen Wilson and Hill drove in a police speed car to the house. Making their way inside, they first went to the cellar. Wood was seen by Plainclothesman Hill, he says, crouched on a shelf in the fruit cellar, while Beckett, police said, was found by Plainclothesman Wilson hiding behind the coal bin.

With revolvers drawn and guided by the rays of their flashlights, the plainclothesmen called upon both men to surrender. Instead, it is charged, they lunged at the officers, and fists were flying until the officers subdued their men. Both were handcuffed and searched. They were found to have an equal share of the church collection in their pockets, as well as the jewellery, it is alleged. Beckett, police stated, had a flashlight, while Wood had a screwdriver and a file in his pocket. These, police said, were carried in case it had been necessary to force an entrance.

Ouimet Denies Story Of Raid Upon Rooms

MONTREAL, April 11 (C.P.). — Using information which is regarded as reliable, the Canadian Press in its references to the civic election in Montreal on April 4, reported that a raid had been made on the committee room of Seraphin Ouimet, one of the candidates for the mayoralty.

Mr. Ouimet states that no such raid took place so far as his committee room was concerned, and that the report was unfounded and untrue.

The Canadian Press is glad to accept and publish Mr. Ouimet's denial of the report.

RUNCIMAN'S SON WEDS

PARIS, April 11 (A.P.)—Katherine S. Garrison, daughter of the late William R. Garrison of Tuxedo Park, N.Y., and Walter I. Runciman, son of the President of the British Board of Trade, were married in a civil ceremony at the office of the Mayor of the Sixteenth Arondissement, at 11.30 a.m. today.

Wholesale commodity prices in Persia are nearly two-thirds higher than in 1913.

Wheat King Returns From Cruise

Mr. and Mrs. Herman Trelle, photographed on board the S. S. Empress of Britain in New York city when they returned from a world cruise. Trelle, of Wembley, Alberta, is considered America's wheat king, having won the world's grand championship for wheat three times.

PLAN TO SALVAGE TREASURE ABOARD SHIP LOST IN 1798

English Sloop of War Went to Bottom Off Cape Henlopen.

GOLD AND DIAMONDS

(Special to The Examiner.)

LEWES, Del., April 5.—(S.N.S.)—Revival of attempts to salvage the fabulous sums of gold, silver and diamonds aboard the English sloop-of-war "Debraak," which sank off Cape Henlopen 134 years ago, are to be made, according to reports reaching this little village.

News of the fortune hunt came from John J. Farrell of the Delaware office of the U.S. Department of Foreign and Domestic Commerce. He revealed that an inquiry concerning the legend of the treasure-laden vessel had been forwarded to him from the Houston, Texas. office of his firm. The inquiry indicated that a group of fortune hunters are planning to embark on a search for the sunken wealth.

One of the earliest attempts to salvage the legendary fortune was made in 1805 by Gilbert McCracken, a partner of Andrew Allen a Lewes pilot, who was aboard the "Debraak" when it went down a mile from the Delaware breakwater. This attempt took place approximately seventy years after the ship sank. Another effort was

INDIRECT RELIEF WILL END MAY 1

Dominion Will Assist Provinces With Direct Relief.

PARLEY AT OTTAWA.

OTTAWA, April 11.—Cheerfully determined to find alleviation for the plight of workless Canadians, representatives of all nine provinces gathered here Saturday for an all-day conference with Premier Bennett and ministers of his cabinet.

One central question stood out from among the welter of relief problems awaiting the discussion of this first conference of its kind. It was this: with taxation revenues down and expenditure cutting a necessity among all governing authorities, can the construction of public works for the creation of employment be continued on the scale originally contemplated.

While no official statement was issued at the conclusion of the conference, reports were to the effect that the Federal Government is prepared to render such aid to the provinces as may be necessary to continue "direct relief" after May 1. Provincial representatives state that unemployment works as indirect relief will be discontinued after May 1.

An official statement on the subject of relief, it is learned, will be made in parliament the latter part of this week or the beginning of next week. Several phases will be considered by cabinet council before the issue of the statement.

Sitting until 6.30 o'clock Saturday afternoon, the conference was regarded as having accomplished its object, namely, the laying down of a basis on which Premier Bennett and his cabinet will draft the unemployment and farm relief legislation to be submitted to parliament when the present act expires on May 1.

Designs for London's new Waterloo Bridge are to be completed June 1.

Peace Parley Session Fails To Materialize

SHANGHAI, April 11 (A.P.)—Today's scheduled Sino-Japanese peace parley failed to materialize when the Chinese asked a postponement as a result of failure to receive fresh instructions from the Government at Loyang.

Rumors were circulated that further discussions are not likely to be held because the Chinese, feeling that further talks here would be useless, planned to refer the whole matted to the League of Nations.

More than 17,500,000 people attended dog races in England last year.

Under present laws in Austria employees are entitled to six weeks' notice before being discharged.

ANNIVERSARY VIMY RIDGE IS OBSERVED

Rev. R. C. Tait Makes Plea for World Peace on Sunday.

VETERANS ATTEND.

CAMPBELLFORD, April 11 (By Examiner Staff Correspondent). — "Preparation for war engenders competition in armaments—and this spells war," declared the Rev. R. C. Tait, preaching in St. John's United Church, Campbellford, on Sunday at the annual memorial service to those who fell at the Battle of Vimy Ridge, April 9, 1917, and in which he made a strong plea for world peace. The service was attended by a parade of the Campbellford Branch of the Canadian Legion, B.E.S.L., and featured special prayers and music for the occasion. The choir, under the direction of Albert Hazell, rendered the anthem, "Souls of the Righteous" (Nobles) and a quartette consisting of Dr. H. O. Richardson, W. Lowe, Harvy Donald and G. W. Lucy sung, "Jesus Saviour Pilot Me." "In Flanders Fields" (McCrea), the immortal war poem, was sung by E. H. Lewis, and the two minutes' silence observed.

Mr. Tait based the theme of his discourse on Isaiah 2, verse 4: "And the nations shall beat their swords into ploughshares, and their spears into pruning-hooks, nation shall not lift up sword against nation, neither shall they learn war any more"; pointing out that the prophet had the vision of a world at peace and when conflict among men would cease. The first step toward this end was the converting of war implements into implements of peace. But unless the nations should forget and again seek war, the prophet declared "neither shall they learn war any more."

It was distressing, the preacher said, to hear the mass of peoples talking peace when the world's framework was for war. At the Menin Gate in Flanders, the nightly custom of sounding the Last Post honoring 55,000 missing soldiers, while the people paused in silence, was still observed, and as the notes of the bugles died away, their minds went back to the calm of that peace which came after the world conflict. "Each Remembrance Day, as it come round, we stop to think for two minutes, and to-day our thoughts went back to those who fell at Vimy Ridge.

"What have we learned through the passage of the years?" he asked. The silence of the years must speak to us and we must catch the vision of those who made the supreme sacrifice. The Great War was a war to end war, and this ideal was the torch that was handed on to us in the words of McCrae in his beautiful poem, "In Flanders Fields." And the beginning of this ideal was the present Disarmament Conference," he declared.

The first thing the world had learned, Mr. Tait pointed out, was the staggering cost of war. In money it had cost the world four hundred billions of dollars; had brought about the financial collapse of nations, unemployment and depression." And the end was not yet," he declared. Great Britain was spending sixty per cent. of her revenue on war at the present time, and in 1931 all nations spent a total of five billion dollars on war preparations.

And then there was the human loss: Eleven million dead; 9 million orphans; 5 million widows, and 20 million, broken in body by the war, and in our own land many of the rich young lives of the country still suffering. "Surely the end is not yet," he declared."

"Preparation for war engenders competition in armaments—and this means war," Mr. Tate stated. The old idea had been that a large armament meant peace, that battleships were launched and battalions drilled for world security. It was no longer a fact that if you want peace, prepare for war. "Piled up armament always snap their cables," he said. "I believe disarmament an impossibility unless it comes on a world wide scale." It was a moral issue. War violated everything that Christianity stands for. "It is your business to make my business impossible," the late Earl Haig had said, speaking to a gathering of ministers, and he had uttered the truth.

"God forgive us for talking peace and acting war, said Mr. Tait. Until we enthrone Jesus Christ, King of Kings and Lord of Lords, and dedicate and consecrate all to him, we cannot have a better world."

Mystery Prisoner On Hunger Strike

SAULT STE. MARIE, Ont., April 11. — The mystery prisoner, known as Ralph Hoff Delmar, held by the police, is becoming more of a mystery every day, and steps are being taken to inquire into his sanity. Since his arrest over two weeks ago Delmar has partaken of but very little food and water, and is practically on a hunger strike. He seems content to lie on his bed at the jail, taking little or no interest in his surroundings, and maintaining silence when spoken to.

SEES DISRUPTION IF PARLEY FAILS

Australian Minister Says It Must be Based on Genuine Reciprocity.

SENTIMENT EMPHASIZED.

LONDON, April 11 (C.P. Cable).—J. G. Latham, Australian Minister of External Affairs and delegate to the world disarmament conference, who arrived here Saturday, told interviewers he thought failure at the Ottawa Imperial Economic Conference next July would mean disintegration of the British Commonwealth into small and insignificant fragments.

Success, he said, could be attained only if the conferees recognized that new trade agreements must be based on genuine reciprocity.

Mr. Latham described the Empire as "a vast system of mutual markets within which there is political security, in itself a very real commercial asset." He said Australia would place before the Ottawa conference the view that within the Empire sentiment and interest must go together.

He told his interviewers a number of committees in Australia were carefully preparing the ground for the conference. He spoke of the widespread appreciation among the Dominions of the British Government's action in making Empire preference a part of its tariff measures.

As an instance of Australia's friendship towards the rest of the Dominions he mentioned the warm reception which greeted the conclusion of the new Canadian-Australian trade agreement.

CANADA IS HELD GOOD NEIGHBOR

Frenchman Says Republic Would Like Dominion on North Boundary.

DEFENDS EXPENDITURE.

PARIS, April 11. — Canadians as neighbors to the north of France would be welcome, indeed, were it geographically possible, Jules Jusserand, former French Ambassador to the United States, let it be known in an address here yesterday.

In a reference to fortresses being built on the French northern frontiers, M Jusserand, whose address pleaded for less sarcasm and more brotherly love between France and the United States, said:

"Will you (people of the United States) change your neighbors Take ours and give us the Canadians."

The former Ambassador said he had heard that French qualities had been overshadowed by magnified faults in the eyes of the United States people.

"I hear we have been described as militaristic, defaulters, and Shylocks, and were establishing quotas to cramp foreign, especially American, trade.

"Our defence expenditure is now 23 per cent. of the total budget, whereas it was 32 per cent, before the war.

M. Jusserand said the trade quotas were unsound, but with an adverse balance of trade it was "perhaps excusable to reserve part of the markets for our own people."

HIS BOSS KNEW BEST!

Made Him Try Kruschen

IN TWO WEEKS— "A DIFFERENT MAN"

When a man is sick his work must suffer. And to that extent, his ill-health affects his employer. But if every employer prescribed the medicine his employees should take, the result would probably not be for the general good!

So it was fortunate for this man that his employer prescribed Kruschen. For nothing could deal more effectively, or more safely, with constipation and its resultant evils, than the world-famous salts. Of course, they put this man right in very quick time. He says:—

"Until six months ago I suffered from constipation, fearful headaches, and abdominal pains. I tried almost everything I could think of to obtain relief, but there was nothing doing. Then my employer suggested Kruschen Salts. He not only suggested, but insisted. I gave in, bought a bottle and gave them a trial. At the end of a fortnight I was a different man. To-day I am as healthy a man as any in the town, and never cease to advise others to commence the 'little daily dose.' Use this as you will, but should you advertise it, kindly do so under the initials W. B."

Half the ills which afflict humanity can be traced to one root cause. That cause is internal sluggishness: failure to keep the inside free from poisonous waste matter. Auto-toxemia, or self-poisoning, is the inevitable penalty. And so follow a whole host of troubles—headache for one; rheumatism for another; slackness, sleeplessness, and depression.

Kruschen Salts is Nature's recipe for maintaining a condition of internal cleanliness. The six salts in Kruschen stimulate your liver and kidneys to smooth, regular action. Your inside is thus kept clear of those impurities which, allowed to accumulate, lower the whole tone of the system. Kruschen works directly upon your blood-stream, too, invigorating it so that it floods every fibre of you with tingling energy.

Kruschen Salts is obtainable at all Drug Stores at 45c. and 75c. per bottle.

PLAN SEARCH FOR TREASURE

(Continued from Page 1)

made by the International Submarine Company of Philadelphia in 1887.

Went Down May 2, 1798.

The wreck of the "Debraak" is one of the most important sinkings for the Henlopen coast. The ship went down with its commander, Captain James Drew and almost all of its crew, on May 2, 1798.

Capt. Drew was an Irish seaman, who set sail from England January, 1798, with letters of marque and reprisal from the English goverment, against Napoleon and his allies. The vessel was equipped with a dozen brass cannon and carried a crew of 38 officers and men.

After cruising in southern waters for several months the "Debraak" approached the Delaware Capes laden with booty taken from ships of its enemies and having in tow the Spanish galleon "La Platte." Taking on the Lewes pilot, Allen, the ship approached shore for a supply of fresh water, unmindful of an approaching storm. As she neared the breakwater a sudden squall struck the heavily laden ship with her full sheeted sails and she sank with all on board. The pilot and 25 members of the crew were picked up alive. Three days later Capt. Drew's body was recovered. He was buried in the cemetery of old St. Peters' church, Lewes, where his remains rest to this day. A monument marks the spot.

Costly Treasure.

The costly treasures of the "Debraak" are said to have been enormous for those times. Stories of their values have been colored and increased with the years. The gold and silver were in coins while the gems were chiefly diamonds mounted in costly settings, the total value of them all amounting to several millions.

Recitals of this vast sunken loot have spurred many in their attempts to find and raise the wreckage of the "Debraak" but to date all efforts have proven futile.

PAYS KIDNAPPERS $50,000 ASKED

(Continued from Page 1)

has been and still is the policy of the police authorities that the primary motive is to accomplish the safe return of the baby, and all efforts are and will be bent in this direction.

The flyer declined to discuss details of the payment of the ransom money. It was certain, however, that the money—nearly five thousand bills—was paid before April 6, for the United States Treasurer's note to bankers listing the serial numbers of the currency was dated April 6.

Met at Aviation Club.

Just where the representatives of the kidnappers—possibly the kidnappers themselves—were met, was not announced. To-day's Daily News says the rendezvous for the payment of the ransom money was the Long Island Aviation Country Club at Hicksville, L.I., and that it took place a week ago on Sunday.

The News states that those present at the meeting with the kidnappers' representative were Col. Lindbergh, his close friend and adviser, Col. Henry Breckenridge, John Fogarty (a private detective), and a representative of Dr. John F. Condon, Sr., the 72-year-old teacher and welfare worker who has been identified as the author of the "Jafsie" advertisements which have appeared during the past five weeks in New York papers. The "Jafsie" advertisements have been used in an effort to negotiate with the abductors.

There appeared in papers to-day —as there has appeared for the past few days—this advertisement;

What is wrong? Have you crossed me? Please better directions. It was signed "Jafsie."

Condon, who picked the signature "Jafsie" because it sounds like his initials, J. F. C., was reported to-day as undiscouraged at the failure of the kidnappers to return the child. He indicated that the spot designated for the return was off Martha's Vineyard, Mass., and he pointed out that the waters there were alive with coast guard and rum running boats at the time set for the return. He was not surprised, he said, that the kidnappers declined to risk being caught.

The New York Daily News, The Chicago Tribune and the Detroit Mirror, allied papers, offered $50,000 to-day for exclusive information which will enable any of the three newspapers to restore the baby to its parents.

Col H. Norman Schwarzkopf, head of the New Jersey State police which has charge of the search for the baby, announced last night "a noted character" had been taken into custody and was being questioned. In a statement he said:

Early in the investigation, a noted character was reported to me as not having been seen since the kidnapping. An informant definitely connected with the crime, and this is one of the lines of investigation referred to in earlier bulletins.

The police officer did not indicate what the question of the noted character had disclosed.

According to the News to-day, Condon, through the "Jafsie" ads, contacted a representative of the kidnappers. This representative told him, Condon said, that if the $50,000 ransam were not paid by April 8, the price would be raised to $70,000. The kidnappers' agent added:

Tell Lindbergh we can hold out just as long as he can.

Thrown Out For $38 Rent, They Say

Because they were $38 behind in their rent, Mr. and Mrs. Louis Aynnuzzie, Oshawa, along with their children, claim to have been turned out of their home, 431 Albert St., by the landlord recently. The pictures show: (1) Furniture piled in front of the home. (2) Rose, aged 12. (3) Mary Jean, aged 8, and (4) Barbara, aged four, daughters of Mrs. Aynnuzzi, shown in (5) with her four-months-old baby. Mr. Aynnuzzi was hunting for a job at the time. The family was cared for by friends that night.

MAPLE SUGAR MAKING

(Examiner Correspondence.)

Modern enthusiasts in the maple sugar industry will be interested in knowing that the romantic beginnings of maple sugar making has been traced to the aboriginal Indian family which discovered first that the sap of one kind of maple tree was sweet, and that it had medicinal tonic qualities. This is how the discovery was made.

"In an opening of the woods an Indian and his squaw have emerged from the trail, and the brave throws himself down to rest, while the wife begins to busy herself in preparing food. Others will follow them soon for their band is on the trail, seeking new lands to the Nortward.

The squaw needs water. Where is it to be found for apparently there is no spring at hand? Here, at the foot of a great tree is a large pool—she will dip her jar there, she exclaims contentedly, and cups a little of the water in her hand to quench her thrist. Then exclaims again as the liquid passes her lips, What is this? Here is no water, but a strange sweet fluid good to taste.

A new Eve in a new world experiments with the fruit of a new Paradise, and tempts her man to drink. Curious words and gestures follow; others of the band are arriving. The braves surround the tree while the wife explains her find. Her brave points: "See, it comes from the tree—it runs out from here"—where there is a gash in the bark.

Then a young boy tells how the day previous in the forest he had seen a squirrel licking the side of a tree similar to this which was running water.

"So!" there are grunts of approval. What is good for the squirrel cannot hurt the braves. They all taste the sap, and more is gathered from the pool. The cooking stones are now red hot. Two are lifted and dropped into the earthen pot, by way of experiment. The sap begins to thicken. Here in the primeval forest amongst astonished savages the maple industry of Canada has begun."

"In spring there comes a magic call
To which my senses thrill;
It is murmured by the brooklet,
As it gurgles down the hill;
It is shouted by the March wind,
As it speeds along its way;
They are making maple sugar
On my father's farm to-day.
I want to hear the crackle
Of crisp snow beneath my feet,
And tip a brimming bucket
For a drink of snap so sweet,
And see the steam cloud rising
From the shack as I draw night
And the lacework of brown branches
Etched against the sun-lit sky.
I can see the amber syrup
Which is sparkling in the can;
I can smell the sweet aroma
As it bubbles in the pan;
If my wishes could be granted
At all other joys 'd scoff,
Could I but know the pleasure
Of an old-time sugaring off."

Trent River

TRENT RIVER, April 11.—(Examiner Correspondence). — The Ladies' Aid met Wednesday afternoon at the United Church with an attendance of 24.

Mrs. John Scott gave the treasurer's report. The deaconess, Mrs. H. R. Wood, reported a number who had been ill to whom flowers had been sent.

Miss B. G. French moved on behalf of the society that many happy returns and best wishes be extended to one of the faithful members, Mrs. Ridley Wood, whose birthday occurred April 4th. Mrs. Wood made a suitable reply and expressed her gratitude to the members of the society for remembering her with flowers during her recent illness.

The Hydro bill was ordered to be paid, and it was suggested to cancel the lunch for the May meeting and prepare a program to be given instead; also a collection to be taken up. Mrs. John Ruttan and Miss B. G. French were appointed to arrange the program.

The meeting closed with the Mizpah benediction, after which the ladies adjourned to the kitchenette where delicious refreshments were srved by the hostesses, Mesdames H. B. Wood, George Vanvolkenburg, R. W. Muphrey, W. W. Redden and I. Lawson. Beautiful Easter lilies adorned the tea table.

Prominent Artist F. M. Knowles Is Dead

TORONTO, April 11.—A distinguished dashing figure in Canadian art passed away on Saturday evening in the death of F. McGillivray Knowles, R.C.A. after a brief illness, due to heart disease. Mr. Knowles, who was in his seventy-fifth year, died at his apartment, York Manor, Jarvis Street, where he and Mrs. Knowles were spending the winter, his summer studio since 1927 being in the White Mountains at Riverton, N.H. Both in Canada and the United States Mr. Knowles had won high place by his marines, landscapes and portraits, excelling in all three fields of his art.

CAMPBELLFORD

BRIEF AND INTERESTING NEWS ITEMS FROM THE TRENT TOWN.

Employees of the Campbellford district of the Hydro Power Commission held a delightful social evening on Thursday in the Parish Hall, the attendance numbering about ninety. The first part of the evening was spent in playing euchre, eighteen tables being in the play. The winners were: Ladies, Miss K. Bygott, Mrs. Jack Nesbitt; gentlemen, Frank DeCarroll, Archie McKay. A delightful lunch was served after the games, the remainder of the evening being spent in dancing, Miss "Chum" Bygott and George Frederick supplying the music.

C.W.L. "AT HOME."

The Campbellford Sub-Division of the Catholic Women's League extend a cordial invitation to all to attend the "At Home" to be held in the Assembly Hall of the High School on Friday Evening, April 15, 1932. Progressive Euchre at 8.15. Prizes. Dancing 9.30. Charlie Allen and His Rhythmanians. Admission $1.25 a Couple, Extra Lady 50c.

1d-86-464

Mr. Keith Turner of Picton is spending the vacation the guest of Mr. and Mrs. George Webber, Rear Street.

Mr. Alfred Merrills of Warkworth was a business visitor to town on Saturday.

Miss H. Campbell of the Public Library staff, is visiting in Montreal for a few days.

Mr. Will Allan has been the guest of his son, Mr. Charles Allan, Stirling.

Weddings

McCOMB—NELSON.

NORHAM, April 11 (Examiner Correspondence). — A quiet wedding took place at the Norham parsonage on Wednesday, April 6 at 10 a.m., whe nMae Nelson, eldest daughter of Mr. and Mrs. Bert Nelson, of Percy Township, was united in marriage to Lorne McComb, son of Mr. and Mrs. Marvin McComb of Morganston. The ceremony was performed by Rev. D. R. Clare. The bride and groom were attended by Miss Edna Greenly and Mr. Carman Nelson.

Immediately after the ceremony the happy couple left for a motor trip to Toronto and Niagara. On their return they will reside on the groom's farm in Cramahe.

Obituary

BAILIEBORO, April 11 (Examiner Correspondence). — The funeral was held on Thursday of Henry Kidd, who died here following a brief illness at the age of 76 years. Services were conducted by the Rev. E F. Swayne, pastor of Bailieboro United Church, of which deceased was a member. Interment was made at the Baptist Cemetery.

MISS TERESA LA ROSE.

HAVELOCK, April 11 (Examiner Correspondence).—Word was received here Saturday night of the death in Toronto of Miss Teresa La Rose, a sister of the late Mrs. Frank Voyer, Sr. Miss La Rose died suddenly as a result of a heart attack on Saturday evening at 7.30. She was for many years a resident of Havelock, and only a month ago returned to Toronto after visiting her nephew, Frank Voyer, Jr.

The funeral will be held Tuesday morning from her residence, Charles Street, to St. Basil's Church, where Requiem Mass will be sung. Interment will be made at Maple Grove Cemetery here on arrival of the noon train from Toronto.

JAMES L. FORESTELL

CAMPBELLFORD, April 11. (By Examiner Staff Correspondent). — The remains of the late James Forestell were laid to rest in St. Mary's Cemetery this morning after Requiem Mass had been celebrated in St. Mary's Church, Campbellford, by the Rev. Fr. Phelan.

The late Mr. Forestell died on Friday night, aged 77 years and 8 months. Born in Rawdon township a son of the late James Forestell and Matilda Lewis, he had resided on the homestead for the past twenty-nine years. Farming all his life he was well known and respected in the township of Seymour, where his passing leaves a blank that will be felt. His wife pre-deceased him some years ago.

He is survived by five sons, Rev. D. L. Forestell, Detroit; Charles, Toronto; Henry and Edward of Seymour; and Tobias of Fort Erie, three daughters, Mrs. James O'Donnell, Peterborough; Mrs. Geo. McMerney of Ennismore; Mrs. J. Quinn, Seymour; four brothers, John of Melrose, Ont.; Charles and J. O. of Stirling and Adam of Madoc; and two sisters, Mrs. Mary Foley of Madoc and Mrs. James Burns of Toronto.

PAINFUL PILES

Go Quick—No Cutting—No Salve.

It takes only one bottle of Dr J. S. Leonhardt's prescription—HEM-ROID—to end itching bleeding protruding piles. This internal remedy acts quickly even in old stubborn cases. HEM-ROID succeeds because it heals and restores the affected parts and removes blood congestion in the lower bowel—the cause of piles. Only an internal medicine can do this; that's why salves and cutting fail. McDermid & Jury, Bond's Drug Store say H&M-ROID Tablets must end your Pile misery or money back.

ENTERTAINMENT IS VERY SUCCESSFUL

Church Packed For Entertainment Staged by Campbellford Baptist Women's Association.

CAMPBELLFORD, April 11 (By Examiner Staff Correspondent). — The Campbellford Baptist Church was filled to capacity on Friday evening, when the Women's Association of the church (West Side) staged a very fine concert. The program featured two plays, one of which was exceptionally humorous and kept the very appreciative audience more than interested. Mrs. (Rev.) L. M. Smith occupied the chair for the evening, welcoming the guests, a vote of thanks to the artists being given by Richard Weston.

The feature production was a pantomimic play, entitled "Love Is Immortal." This was in colonial costume, and represented the stages of life from the cradle to the grave. Vocal solos were interjected, giving splendid interpretations. These were by Miss Grace Cairns, Rev. L. M. Smith, Mrs. L. M. Smith and Elmer Jordan. This play was under the direction of Mrs. W. Ayrhart.

A very funny sketch, "Premature Proposals," was presented under the leadership of Mrs. J. Wilks. This was in four acts, the cast being: Miss Muriel Montgomery, Mrs. John Wilks, Miss Flossie Dunk and Miss Attlene Reid.

Other numbers on the program included a very humorous reading, "The Engineer's Story," by Mrs. W. Ayrhart, several Hawaiian selections by H. Ayrhart and Elmer Jordan, and community singing. At the close of the evening a delightful lunch was served by the ladies.

Centreton

Mrs. J. R. McBride and Glen were visitors of Mr. and Mrs. G. Wolfraim, Castleton, on Tuesday.

Mr. N. Gleason was a visitor to Toronto on Monday.

Mrs. R. Webb called on her daughter, Mrs. H. McAuley on Tuesday.

The local school again reopened on Thursday after the Easter vacation. Miss Annie Crossen, Baltimore, is taking charge of the school for the rest of the term. Miss Edythe Richardson, Warkworth, was the recent teacher before the holidays. Miss Crosen was teacher a few years ago for a short period.

Mr. T McKenzie, Colborne, was a guest of his grandmother, Mrs Elizabeth McKenzie, one day last week.

Mr. and Mrs. R. Webb called on Mr. and Mrs. A. Coffey and Mrs. S. Coffey on Sunday.

SECURITY STABILITY

For 60 Years

Confederation Life Association

Has been building upon the solid foundation of Security and Stability, which is the basis of financial Confidence. The high grade of Securities in which its funds are invested, as at 31st December, 1931, is shown in the following schedule:

		Percentage of Total Invested Assets

MONDAY, APRIL 11, 1932

THE HOMEMAKERS' SCHOOL.

The Examiner's Homemakers' School will open to-morrow afternoon in the Grand Opera House and will continue on Wednesday and Thursday.

Housewives of the city and district are cordially invited to be the guests of The Examiner at this educational and entertaining event, and it is safe to say that those who attended last year would not think of being missing on this occasion.

Miss E. Frances Thompson, an authority in domestic science and an expert demonstrator and lecturer, will have charge of the Homemakers' School, and her daily talks will be full of interesting information that housewives will find of the greatest value.

Such an opportunity, provided without any cost to the public is too great to be passed by, and there is every reason to expect that Miss Thompson will be greeted by capacity audiences on each afternoon of the school.

There is no admission charge, nor are any tickets necessary.

This is your invitation to be present not only on the opening day when Mayor Denne will introduce the lecturer but at the other sessions of this most instructive series.

THE TRIUMPH OF THE LEAFS.

Toronto Maple Leafs completed a clean-cut win of the Stanley Cup, the highest honors in professional hockey, on Saturday night by defeating the New York Rangers for the third successive time.

The victory of the Toronto team will be decidedly popular, for although the club they defeated was composed of Canadian players, they represented an American city, and there was therefore a certain amount of sentimentality wrapped up in the performance of the Leafs.

Probably no hockey final has aroused greater interest in Ontario than the series of games just concluded.

This is due to a number of factors; the building of a larger arena allowing more outsiders a chance to see professional hockey, the fact that facilities for winter motoring have been greatly improved, the keen interest developed in thousands of radio listeners who followed play-by-play descriptions with almost as much excitement as the actual spectators, and in connection with the Leafs-Rangers games the large number of Ontario players who participated.

As a matter of fact, it came close to being an all-Ontario final as well; over a score of those engaged in this memorable series graduated from Ontario amateur clubs into the professional ranks.

This Province has always been a hockey stronghold, and with the Stanley Cup, the Allan Cup and the Junior Memorial Trophy all held at present by Ontario teams, it is evident that Canada's national game is at its best in this section of the Dominion.

EMERGENCY TAXATION.

Pointing out that it is the articulate taxpayer who pays and pays and pays, the Citizens' Research Institute is urging the public to let their representatives in the municipal council, the provincial legislature and the federal government know that they are expected to remove new taxation as soon as possible.

There is obvious need for such a warning.

It is true that the Canadian people are determined to maintain the high credit rating of their governments, as the institute states, and for that reason tax increases have not been subject to strong protest, despite the feeling that much more might have been done by way of cutting governmental expenditures before having to resort to more taxation.

The important point now is that all governments should be asked to place themselves on record that all new and increased taxation is emergency taxation to be eliminated as soon as possible before expenditures are "stepped up" to keep pace with any "velvet."

It is easier to find new sources of revenue than to abandon them when once found, and the tendency of all governments to spend according to the possible income rather than to pare down their expenditures makes it desirable that recent taxation increases should be regarded as emergency measures, intended merely to carry the administration through a period of financial distress.

WHY NOT USE CANADIAN PORTS?

The St. John (N. B.) Telegraph-Journal and Times-Globe are to be congratulated upon the vigorous fight they are making for a greater use of Canada's ports for the shipping of wheat and flour.

This is a matter that should be of vital concern to all Canadians, who should find in the statement from the United States Chamber of Commerce that in the last six years 40 per cent. of Canada's export trade in these products was handled through American ports, ample reason for insisting upon a change.

It is stated that during the past season practically no wheat has passed through Eastern Canada ports, and that during the summer months a great part of the entire Canadian crop passing east went to Buffalo.

With Canadian railway workers being laid off for lack of work, there is something wrong with conditions that permit Canadian bonused grain, on which the Canadian people have paid 5c a bushel, to keep United States workers busy.

It is obvious that when Canadian wheat or flour reaches United States waterfronts or railways the traffic is handled by United States railwaymen and lake-port workers, and that includes not only the crews who haul the tonnage but the men who repair damaged rolling stock and motor power and the men who load vessels at the seaboard, check cargoes and work along the waterfront.

In addition, the vessels carrying this Canadian trade are, if necessary, repaired in American dry-docks and the supplies come from American factories.

Is there any reason why the thousands of railwaymen in this country who are being laid off could not profitably be employed in handling Canadian wheat and Canadian flour through Canadian ports?

WHAT THE PUBLIC BUYS WITH TAXES.

A subscriber telephoned us yesterday, said this:

"I read your editorial stating that high taxes were the result of the public clamoring for government services. Why not tell us what those services consist of? In other words, what do we buy when we pay taxes?"

We shall try to oblige.

Let us begin with a municipality, nearest to the average man. When a citizen pays taxes to a municipality he gets in return, among other things:

1. Protection from fire for his life and the building which he owns or works in and occupies. In addition, the fire insurance rates which he pays directly or indirectly are partly determined by the efficiency of his civic fire protection and prevention service.
2. Protection from violence for his life and property which he owns or works in or with; also the right of living in an orderly community.
3. Education for his children and for the children of the community with whom his children are brought up and by whom they must be greatly influenced, and the possibility of living in an enlightened community, without which life might hardly be worth living.
4. Health for the community through its public health and sanitation and sewer services, this benefiting himself and his family both directly and indirectly. Hospitals for the sick.
5. Highways and sidewalks which make his home and his place of business available for use.
6. A supply of water, without which he could not live, or have his family live, and without which he could not carry on his business or his home.
7. Amenities, such as parks and playgrounds, for the community in which he lives and has his home.
8. Social welfare services for the indigent and the temporarily distressed.

* * * *

We come now to the provinces. When a man pays taxes to the provincial government he gets, among other things:

1. The province provides for the training of teachers in the public schools, technical schools, continuation schools, commercial schools, high schools, and collegiates, etc., inspects the schools, sets sanitary standards and distributes grants, thus promoting the efficiency of the schools.
2. It maintains a general supervision over public health, may exercise strong powers affecting sewage disposal, water supply, the sanitation of summer resorts, etc.
3. It pays a large part of the administration of justice, thus protecting citizens in the enjoyment of their lives and property.
4. It provides main highways and assists in providing subsidiary highways throughout the province.
5. It pays a share of old age pensions.
6. It may provide for "Mothers' Allowances" to enable children to be brought under mother's care in case of widowhood or desertion, costs sometimes being distributed between the province and the municipality.
7. It provides for the care of those mentally ill, and directly or indirectly assists in the support of indigent patients in general hospitals.
8. It protects game and fisheries.
9. It promotes and assists agriculture, protects forests and in general supervises the conservation and development of natural resources in so far as the natural resources are controlled by the province.
10. It pays out compensation to injured workmen.
11. It protects title to all real property or provides means by which title may be protected.
12. It organizes municipal councils and regulates them.
13. It regulates and inspects financial institutions.

* * * *

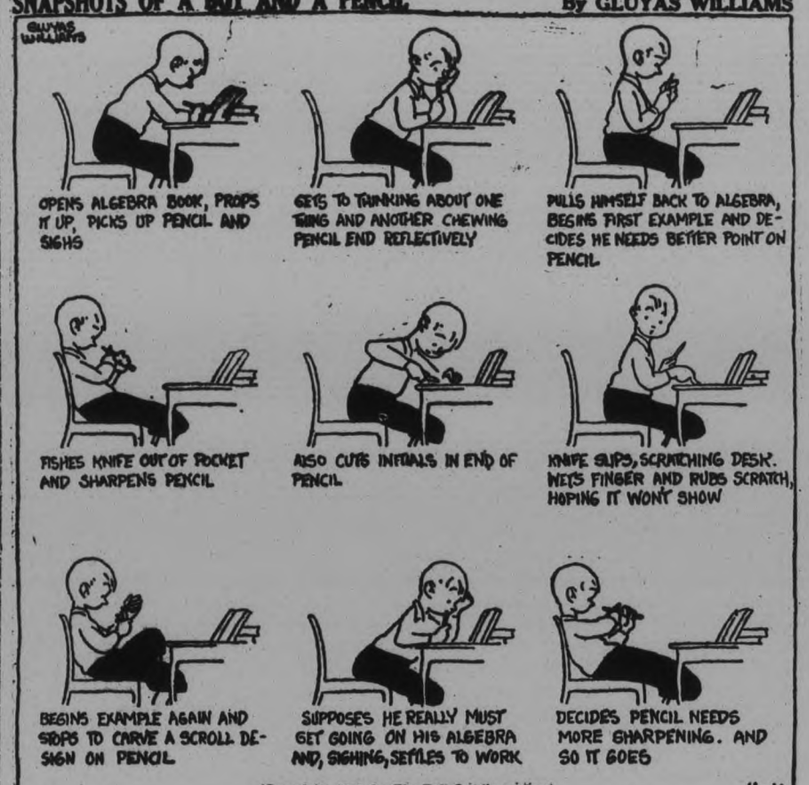
Finally, the Dominion; what does it do for the taxpayer, with the taxpayer's money? Among other things:

1. The Dominion regulates trade and commerce.
2. It provides for interprovincial railway transportation, directly or indirectly.
3. It regulates railway rates.
4. It rounds out the system of administration of justice and, in some districts, directly administers law.
5. It controls and directs all our external relations and keeps in touch with the British Government and the Governments of all the British Dominions.
6. It maintains trade agents abroad to help our trade and commerce.
7. It protects against civil disorders and provides for national defence.
8. It controls immigration and examines prospective residents.
9. It runs the Post Office.
10. It controls banking and issues or controls the issue of money.
11. It maintains national parks and game sanctuaries.
12. It maintains employment bureaus, collects labor information, takes charge of an unemployment crisis (like that of the present), deals with any emergent necessity for relief.
13. It builds and maintains most of our public works; also most of our canals and waterways.
14. It controls Indian affairs; administers Canadian Indian lands as a trust.
15. It fosters agriculture, fishing, mining.
16. It promotes invention and authorship through existing patents and copyrights and fosters manufacturing and commerce by registration trade-marks, etc.
17. It maintains various scientific services and fosters scientific research.
18. It pays out millions of dollars annually to Canadian war veterans.
19. It pays out many more millions annually in interest on the debt which the country has incurred either for war or for capital expenditure on public works or other services.—Ottawa Journal.

The budget debate was scheduled to begin today. And to end, when?

SNAPSHOTS OF A BOY AND A PENCIL

By GLUYAS WILLIAMS



Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office by 5 p.m. on the day before insertion. All letters must be signed by the writer although a pen name may be used when inserting non-controversial subject matter.

BICYCLE STEALING

To the Editor.
Dear sir:

I also would like a small space in your column to voice an opinion on bicycle stealing in Peterborough.

As Mrs. Nimmons has stated, it is certainly a mean practice, and should be given some attention by authorities.

Our boy, also, has had a new wheel stolen. It was taken in the afternoon on the twenty-fourth of February from the bicycle room of the Peterborough Collegiate Institute.

Our boys have been searching for this bicycle ever since, but with no success.

When one takes into consideration the fact that a brand new bicycle is a fairly valuable article, it seems to me that something should be done to check these sneaking performances.

We have been told, lately, by a bicycle dealer in this city, that there are boys making a practice of stealing bicycles and selling their parts.

Can the police not get any trace of these?

Mrs. G. W. Douglas.

ANSWERS "CATHOLIC" CITIZEN

The Editor of The Examiner.
Dear sir:

Your issue of March 31st last carried a letter in your "Voice of the People" column which was headed "Are Canadian Catholics Loyal?" and signed by a Catholic citizen, and to our minds some comment on this letter would be justified.

In the first place the reports of our Grand Lodge Officers were so different frpm previous reports that only a small percentage of these were given to the press for publication. The one little variation which Catholic citizen thinks was worth noting was the clause in reference to the sanctity of marriage, and this, of course, is of so much importance to our citizens generally that it was given to the press.

May we be permitted to say that Protestant people everywhere, have taken, and are taking, a firm stand against the person who, after a marriage has been properly and lawfully consummated, would decry the same, and make the wife a prostitute, and the children illegitimate. We note with a great deal of pleasure the stand taken by the Federal Council of the Churches of Christ of America on this important matter during the past week.

In the second place, he says, Catholics were accused of being disloyal to the Union Jack. No—this is not so, but the loyalty of those Catholics concerned with the following incidents was considered very questionable.

(A) At the funeral of a returned soldier, whose coffin was draped with the Union Jack, the priest performing the ceremony at the cathedral had the flag removed and left outside the cathedral, while the body was taken inside for the funeral service.

(B) In a certain shrine town in another province where every official is a French Roman Catholic, no less than five Red, White and Blue ensigns (Flags of France) were observed flying at full mast, and not a Union Jack, or even a Stars and Stripes was to be seen anywhere—nothing but the flags of a foreign country.

(C) In another province the Union Jack was removed from the walls of the public schools and certain sacred emblems put in its place, and the Protestant children being punished by having to kneel for stated periods of time before these emblems.

No—Canadian Catholics were not accused of being disloyal to the Crown and Flag, and far be it from the minds of the members of this Committee to make any judgments because of these incidents, but one cannot help but feel that some sections of our Dominion have peculiar ways of showing their loyalty to the flag of our mother country, which of course is our flag too. And that possibly such incidents, and certain other incidents, since the early part of the twentieth century speak so loudly in themselves that it is not necessary to make accusations regarding the loyalty of those concerned.

In the third place the Supremacy of Rome in spiritual matters was recognized only for Roman Catholics. Never can it, or will it be recognized in relation to matters of the Crown, or in spiritual matters for Protestants whose Supreme Being alone is Jesus Christ the Head Over All.

These comments, Sir, are advanced not for controversy at all, but only for the information of Catholic citizen, and for their display receive the thanks of West Peterborough County Orange Lodge.

Per: Legislation Committee.

One Killed

Exploding grain dust and a resulting fire wrecked the central tower of the Allied Grain Mills at Omaha, Neb., killing one man and injuring eight others. The loss was placed at $350,000. Photo gives an idea of the havoc caused.

'N DAYS GONE BY

Items Taken From Old Fyles of The Examiner.

APRIL 11, 1922.

Herbert C. Treneer Speaker At Tweed

TWEED, April 11 (Examiner Correspondence)—Herbert C. Treneer in an address given on Thursday evening in the auditorium of the Tweed United Church ably portrayed the work carried on by the Canadian Institute for the Blind.

At one time Mr. Treneer was an organist in St. Andrew's Church at Peterborough, but gave up his position, later, as organist of King Street United Church, at Oshawa, and became one of field organizers for the Canadian Institute for the Blind. His two-hour program was a combination of interesting talks and vocal selections also pianoforte.

The concluding numbers of the well balanced and greatly enjoyed program consisted of two short vocal numbers, "Tommy Lad," and "You'd better ask me," and a pianoforte numbers, "Valse Chromatic."

Cavan

Mr. William Tinney was a visitor to Toronto on Wednesday.

Mrs. Howson returned to her home in Toronto on Thursday after spending a few days with her father, Mr. Albert Elliott.

Mr. and Mrs. A. Tinney motored to Oshawa on Wednesday and brought home a new truck.

Mr. William Tinney shipped hogs to Peterborough on Thursday.

Mr. and Mrs. Ward Brown and daughter Phyllis and Lawrence Kellett of Oshawa were week-end guests of Mr. and Mrs. James Paul.

Mr. Ward Brown has taken the job of installing the plumbing in Mr. Donald Tinney's new house.

Indian River

Mrs. Allen Hayes spent Wednesday the guest of her sister, Mrs. Coughlin, near Lakefield.

Mr. Bill Harrison has spent some time with his cousins, Mr. George and Victor Craft.

Mr. Joseph Warner was in Keene recently.

Miss Irene O'Brien who has been spending some time with her parents, has returned to Peterborough.

Mrs. Stanley Walker of Valliers spent Thursday at her home here.

Mr. and Mrs. Victor Craft attended the funeral on Friday of the former's uncle, Mr. Charles McIlmoyle, of Selwyn.

Mr. Samuel O'Brien was in Peterborough on Tuesday.

DISTRICT NURSE
by Faith Baldwin

(Continued from Saturday)

"Look here," said Gladys desperately, "I don't want to get him in no trouble, see? I went into it with my eyes open. I wasn't born yesterday. I—if he'd help me, if he'd give me the money to get away, that's all I ask, all I want. But I'm afraid of Ma. She knows something, or pretends she does. I haven't no letters, or anything. But—I'm afraid she's got some way of finding out. If she does, she'll go to him—or to the cops—or something. Blackmail," said Gladys darkly. "I know her game. All she thinks of is the money."

"And he's a gentleman," Gladys added.

Ellen rose and touched the girl's shoulder. She loathed doing it, she forced herself, her hand was leaden. She said, after a moment, "I'll do what I can. I'll go with you to him if that seems necessary. Give me a little time to think this over. Then I'll let you know and we'll see. What time does your mother get in from work?"

Gladys told her. Ellen said, "I'll get in touch with you, Gladys, and we'll do what we can."

The girl stammered, there were tears in her eyes. She had been strong enough to bear what she had to bear all these months. But now she was weak, frightened. Ellen had strength. Ellen would, somehow, see her through.

Ellen went out and down the stairs. She found herself fighting for breath clinging to the dirty railing, unheeding. She thought, "I've got to go through with it." She thought, "It can't be true, it isn't."

It couldn't be, the name alone would prove nothing, or even the profession There must be other men by the same name—But the address?

"It wasn't, it couldn't be."

But what, after all, did she know of him?

Her mother had been right, Jim had been right, every one had been right, but herself. Still, she thought, her brain bruised, it didn't all fit in—not with Bill, even. But why not? Why couldn't he play up to Bill, to her—if he saw fit? Why couldn't he even like Bill, want to help him? Men who murdered, raised gardens, and men who robbed women were kind to animals—She laughed hysterically and people passing looked at her curiously—

After a long time, during which her work managed to get itself done, she made up her mind. She went into a telephone booth and called Bartlett's office.

The booth was close, stifling. She stood there waiting, listening to the faint ringing along the wire, waiting and thinking.

INSTALMENT 22.

Ellen gave her name to the girl at the switchboard. It was, she said, important. The secretary, coming on the wire, was pleasant. Mr. Bartlett had stepped across the hall, she said. He would be right back. Would Miss Adams hold the wire or should he call her back—what was the number?

"I'll wait, I'm in a booth, Miss Marlowe."

Three minutes, five. Interminable, a hundred years, an eternity. Then he spoke.

"Ellen, hello—what's on your mind—?"

She said steadily, brushing the greeting aside, the thread of laughter which like a visible smile ran through the words, "I have to see you, Frank. It's terribly important."

"Where are you. I'll come down?"

She thought. No. If she took him to Gladys, the mother might return; there might be a thousand contretemps.

She said aloud, "No, I have to finish my work, I—"

"I'll come over to-night, then?"

"No, please." Then she spoke, making up her mind, "This is something that can't be discussed at home. Could I—if I came down to your apartment—tonight—early?"

She could feel the blank astonishment at the other end of the wire. Suddenly, she was crying. She hated herself, she despised herself; she was clinging there for support, leaning against the greasy pencil-scrawled wall, crying bitterly. He could hear her, the forlorn catch of her voice.

"What is it, darling?" he said. "Is is your mother, or Coral—? Not Nancy? What's happened."

She said, brokenly, "No—If I come at eight o'clock, then?"

"Of course. But I can't understand—I mean, why can't I take you out or—I mean—Ellen. Ellen—" He jiggled the receiver frantically; there was no sound. "Operator," he shouted, "you cut us off!" "Sorry the party disconnected," reported the operator blandly. "Get them back," demanded Bartlett. "Sorry," said the operator, "what was the number?" "I don't know," Frank said blankly, "they called me."

His secretary, a tactful woman, had been out of the room. She returned to find him scarlet with rage. He said, "Miss Adams—I can't get her back, it was so important—

Miss Marlowe said soothingly, "She told me she was phoning from a booth."

"Oh"—He set the telephone aside and ran his hands through his hair. His blue eyes were anxious and bewildered. What had happened—what could have happened? He thought, "I must go to her now, immediately." But he couldn't; he didn't know where she was, even. No use calling the sub station, asking her to get in touch with him when she made her reports. Nothing to do but fret through the rest of the day, somehow.

And wait.

A little after four that afternoon, Miss Marlowe came in to him smiling.

"It's Bill," she said. "Mr. Bartlett, he came to see you, to bring his report card."

Bartlett grinned. Bill was always a tonic. He dismissed for a moment all the things that had been puzzling and worrying him for hours and sat back in his chair. Bill marched in, very well dressed, very conscious of it. Yes, he had his report card. That was now a routine matter between the two, the report card, marked with one shining A for attendance.

"I brung it along," said Bill casually.

Bartlett offered him a chair gravely. Took the card in his hand, smiled over an item or two, shook his head over another. Then returned the report card with a brand new dollar bill. This also was a recent routine.

Bill volunteered, "I seen Mis' Ellen when I was making for the subway. She didn't see me. I hollered at her, though."

Bartlett's brief respite from anxiety was over. He said, "How is she?" mechanically enough, without much reason. Bill answered literally.

"I don't know. She looked sumpin' fierce. Maybe," said Bill, thinking himself rather brilliant, "it's the boy friend."

"Boy friend?" asked Bartlett astonished.

"Sure, you know, Jim O'Connor. They're going together," said Bill with importance, but afraid, and sorry somehow. He looked at his hero anxiously.

"Oh, they're old friends," Bartlett said, smiling easily.

Bill snorted a little.

"Sunday—you know, when you took me around, I went back, after. I'd left my gloves," explained Bill blushing at the mere thought of the effiminate admission, "and they was there, him and her—doing a regular Garbo—"

"Never mind, Bill," said Bartlett shortly, angrily.

Bill shuffled the feet in the new shoes.

"Gee, I'm sorry. I didn't mean to spill nothing, Frank, only I thought—"

"Never mind what you thought. Gentlemen don't talk about ladies," said Bartlett.

Bill rose to go. He looked up at Bartlett, as his preoccupied face, his estranged eyes and burst out, not able to restrain himself another moment.

"I suppose you're sore, but I had to tell you, Frank. Gee," said Bill, sighing with utter adoration, "you're such a square guy, Frank, and wimmin," said Bill, "are funny as hell!"

"I—that's all right, I understand. Run along, Old Timer." He gave Bill an abstracted pat on the shoulder. "I'm not sore."

Bill departed, wondering if he had been clever or dumb. Perhaps they don't want to know if their janes is double-crossing them after all, he reflected as many an adult has reflected before him. Bartlett, left alone, had returned to his desk. Legs straight out before him, hands in pockets, he thought things over—

Doing a regular Garbo—

That could mean—no, it could mean only what Bill had meant it to convey.

What was this the explanation—?

Ellen had notified Gladys. She'd gone back to the house after work. She told her what to do and where to go. Gladys demured, hung back, was suddenly desperately frightened. Ellen was abrupt with her, insistent. "It's the only thing to do," she said. "After all you won't be alone. I'll be with you."

Then she went home and listened to Nancy and Coral comment on her appearance.

"Heavens, you look dreadful," said Nancy, "like something the cat would scorn to bring in." She exchanged glance with Coral. The glance said—What's up?—she's been crying—

Ellen, who never cried—

"I've a headache," said Ellen briefly. "Look here, I've got to go out tonight. On a case."

"Don't they give you time to sleep?" asked Coral disgusted. "You're almost as bad as Pete."

"This is special," Ellen told her.

Nancy looked at her sister sharply. Something was wrong. Terribly wrong. She had an instinct to protect, and as she put it to herself, to call them off the trail. She said, suddenly, "Dot's husband has left her, next door."

Mrs. Adams said, "I'm not surprised," but Coral's face clouded. "Poor devil," said Coral, slowly.

That was the wrong lead, thought Nancy annoyed with herself, and Ellen hadn't heard. She hadn't taken off her uniform. Wasn't going to, perhaps. Yes, she was. She rose and went slowly into the bedroom. Nancy looked after her, frowning. Presently she came otu again in a dark dress and put her coat and hat and bag on a chair. "I got out of your way," she told Nancy. "You're going out with Chick, aren't you?" She looked over at her mother, "What about you?" she began.

"Pete's night off," said Coral, "we'll stay in. Mother dotes to hear him talk about operations." She laughed, the monetary cloud gone.

"I do not," said Mrs. Adams indignantly.

But she did, in a way. And she was proud of Pete. "My daughter's fiance," she would say importantly. "Doctor McGregor." She would mention his hospital—

Pete, on his rotating service, always had something to tell. If he had wanted to stay at the hospital yet another year as some of the luckier men could, he never said. He couldn't really; he owed it to Mallory to get out and go to work, especially after disappointing him. Some day he'd pay back Mallory every cent. He'd told him so. "But I don't want you to, son. I've ben trying to pay you," Mallory said. "But if I paid it double, the money I mean," Pete told him earnestly, " I wouldn't be repaying you really—for all you've done for me," Pete reminded him stubbornly.

Potatoes, No. 1 in bags, 27-28c.
Hens over 5 lbs. 14-15c.
Chickens over 5 lbs. 16-17c.
Young turkeys, 8-12 lbs. 19-20c.

FRUITS AND VEGETABLES.

TORONTO, April 11 (C.P.).—Wholesale prices on Canadian fruits and vegetables as reported to the Canadian Press by White and Co. are as follows:

Apples, 6-qt. basket, 25-30c; 11-qt. basket, 30-35c.
Beets, 11-qt. basket, 15c.
Carrots, 11-qt. basket, 35c.
Hothouse tomatoes, lb. 30-35c.
New cabbages, crate, $3.25-$3.50.
Parsnips, bag, 50-60c.
Turnips, bag, 35-40c.

TORONTO LIVESTOCK

TORONTO, April 11 (C.P.) — Calf receipts, 900. Calf trade was slow with the bulk selling between $3 and $5, and with a few choice up to $6 to $6.50.

Good and choice veal, $5.50 to $6.50; common and medium, $3 to $4.25; grassers, $2.50 to $3.

Cattle receipts, 2,340. Opening trade was fairly active with prices generally steady. Medium to good heavy steers sold at $5.25 to $6. Choice butcher cattle brought $5 to $5.25, with common downward to $4. Butcher cows were mostly $3.50 for the best. Good bulls ranged at $2.75 to $3.25. There were no early sales of fed calves.

Steers up to 1,050 lbs.—good and choice, $5 to $5.25; medium, $4.50 to $5; common, $4 to $4.50; Steers over 1,050 lbs.: good and choice, $5.50 to $6.25; medium, $5.25 to $5.50; common, $4.25 to $4.75. Heifers: good and choice, $4.75 to $5.25; medium, $4.50 to $4.75; common, $3.50 to $4.50. Fed calves, good and choice, $6.50 to $7; medium, $5.25 to $6.25. Cows, good, $3.25 to $3.75; medium, $2.25 to $3.25; common, $2.25 to $2.50; canners and cutters, $1.25 to $2. Bulls, good, $2.75 to $3.25; common $2 to $2.50; Stocker and feeder steers: good $5.25 to $4.50; common $3.50 to $4. Milkers and Springers, $30 to $60.

Hog receipts 750. Hogs were unsettled with prospects $4 f.o.b. for bacon, $4.25 off truck, and at $4.50 weighed off car.

Sheep receipts 810. Good native and Western lambs sold at $7.25-$7.50. Spring lambs ranged at $8-$9 each, according to quality.

Sheep were slow at $3-$3.50 for best light ewes.

Good ewe and wether lambs $7.25-$7.50; medium $6.50-$7; bucks $5.25-$5.50; culls $5-$6; good light sheep $3-$3.50; heavies $2.50-$3; culls $1-$2.

Rescued Premier

Rev. W. E. Godfrey, formerly of Toronto, and a graduate of Wycliffe College, now an assistant minister of St. Thomas' Church at St. John's, Nfld., who, at the head of a rescue party, succeeded in freeing Premier Sir Richard Squires from an angry mob. The minister was described by a friend as "a fine man, quite capable of being aggressive if need be."

BUDGET CREATES NO REACTION STOCK PRICES DRAG BOTTOM

Canadian Securities Follow Wall Street Although Fare Somewhat Better.

BOND DEALERS HIT.

BY A. D. L'HALLORAN
(Special to The Examiner, Copyright 1932).

TORONTO, April 11. (SNS). — Canadian stock exchanges paid more attention to Wall Street than to the Canadian budget and other local developments his week. Prices are dragging along bottom for the bear market, sinking on small volume, with individual securities breaking to low levels not equalled in years. Wall Street sentiment continued bearish and the gloom and pessimism rampant in New York flooded the local markets. Interlisted securities, along with Bell Telephone, were leaders in the reaction and Friday witnessed a bit of a selling climax when several issues broke to 5 points. At that the Canadian markets have given a much better performance than the American list. Liquidation in the early part of the period was light, only to break out in spots later. Forced selling was absent due to light margin commitments and the general body of stocks were depressed on small volume only.

The long awaited budget was brought down in the Dominion House this week and failed to create any disturbance in the market. About the only issue affected was Bell Telephone. The shares of this company had been displaying weakness for some time, and before the period closed sold down to 94, the lowest level since the shares were listed in 1891. Traders apparently feared the tax of 5 cents against all long distance calls and the possible restraint it might have on the public in the matter of phone calls. Interlisted issues such as C.P.R., International Nickel, Steel of Canada, etc., lost considerable ground but took their leadership from New York. Consolidated Smelters went below 40 to sell at the same level as in 1924 as the result of an accumulation of selling orders following publication of the financial statement for 1931 showing a deficit of about $700,000.

Finance Minister Rhodes of the federal government reported a deficit for the 1931-1932 fiscal year of over $119,000,000 and an estimated surplus of revenue over ordinary expenses of $4,000,000 for 1932-1933. In addition to the deficit for the past there were losses on operation of the railway. New tax schedule calls for the raising of $5,500,000 in new revenue for the new year, which will still leave a deficit of about $50,000,000 and it can hardly be said the Dominion has balanced its budget. The sales tax has been increased from 4 to 6 per cent; exemption on incomes of married men reduced from $3,000 to $2,400 and for single men from $1,500 to $1,200; the discount of 20 per cent on income tax abolished and a surcharge placed on income over $5,000; corporate profits are to be taxed one per cent more at 11 per cent and the surcharge applies to corporate income as well as to the income of the private individual. For the first time in years there was very little in the way of tariff changes, although the excise tax was increased which will serve the same purpose.

Brokers found their fears of increased taxation on the sale of stocks unfounded as the Canadian budget failed to contain an increase similar to that proposed by Washington. It was the proposal by Washington that upset Wall Street and started the stock markets on the current decline. Bond dealers, however, were hit from two sides. On Wednesday the Investment Bankers Association informed all member of a tax on bond transaction retroactive to March 29 by the Ontario government. Considerabled dealers were placed in the position of having to absorb the loss themselves or go back to their clients and collect. Later on the same day it was found that the Dominion government provided for an expansion in the bond tax to include inter-dealer transactions. The two taxes bring the impost to same rate of taxation on stocks in Ontario, with the stocks taxed on a sliding scale by both governments.

$500,000 STADIUM

NEW YORK, April 11. (CP). The Madison Square Garden Corporation announced to-day construction work would begin at once on a new $500,000 bowl-shaped stadium in Long Island city, 15 minutes from Broadway, and be completed in time to furnish the site for the Sharkey-Schmeling world heavyweight title fight June 16.

WOMAN KILLED BY TRAIN.

BELLEVILLE. — Mrs. Arthur Douglas, Grafton, was instantly killed near here to-day when the buggy in which she was riding was struck by a Canadian Pacific Railway train. She had just driven her father to the railway station.

SIX SAVED IN FIRE.

WELLESLEY, Mass.—Four women were rescued and two men were injured to-day in a fire which wrecked the home of Isaac Sprague, 70, retired banger of Wellesley Hills. Loss was estimated at $20,-000

Michele Bridget!

LONDON, April 11. (A.P.)—Gloria Swanson's baby daughter will be named Michele Bridget, it was announced to-day.

The baby was born last week at the home of Miss Swanson and her husband, Michael Farmer, wealthy Irish sportsman, here.

Market Closing On All Exchanges

TORONTO EXCHANGE.

TORONTO, April 11 (C.P.). — Still soft in the afternoon, Toronto Stock Exchange market closed today with leaders down fractions to 4 points. It was another day during which the local market was overshadowed by Wall Street sentiment.

Page-Hersey Tubes, which has jumped around in response to either buying or selling orders slumped to-day after having had a moderate recovery on Saturday. To-day the stock got down to 42, a new low and 4 points under Saturday's close. Steel of Canada was easier at 16¾.

Leaders which finished fractions to a point lower included C.P.R., Nickel, Noranda, Ford of Canada, Dominion Stores, and the oils. Bell Telephone eased back to 94, equalling its previous low.

Smelters sold down 2½ points to 38, and made a new low for the year and longer.

WALL STREET

NEW YORK, April 11. (CP) — Stocks met support after an early decline of 1 to 3 points to-day, reducing their losses in a covering movement induced partly by strength of wheat. Recoveries from the lows, amounting to a point or two in many instances, were not entirely held, however, and the closing was heavy. U.S. Steel regained a large part of its 1¾ point break, while American Telephone cut down substantially a loss of 2¾. Santa Fe reduced a 5 point decline to about 3, but slipped again. Case and International Harvester gained 1 each. Transactions approximated 1,800,000 shares.

STANDARD EXCHANGE

TORONTO, April 11.—(CP)—Still under the influence of weakness on industrial boards prices on the Standard Stock and Mining Exchange market lost further ground in today's session. Volume remained light, however, with significant changes limited to interlisted issues.

Noranda was weak from the opening and closed below $16 for a loss of over 50 cents. International Nickel, establishing a new low of $6.10, finished down 25 from last night. Eldorado and Mining Corp., lost a few cents apiece.

In the gold section Dome eased 20, Lake Shore 25 and Teck-Hughes, Hollinger and Wright-Hargreaves one to four cents each.

CONSIDERATION FOR FARMERS

(Continued from Page 1)

alities to consider this situation and endeavor to remedy it.

Helpful consideration for the farmer in other respects was urged.

"You have a splendid agricultural exhibition here," said the speaker; one of the outstanding Class B fairs on this continent and held in the highest esteem by fair board managements and by government officials. "Get in behind that fair and help to make it still greater."

Dr. Archibald asked consideration too for the co-operative marketing experiments that had been launched by the farmers. The time was coming when these effort would be entirely successful and when the Canadian farmer would use co-operative methods as efficiently do the Danish farmers at the present time.

Dr. A. Moir expressed the thanks of the gathering to the speaker.

President R. F. Downey, who occupied the chair at the beginning of the meeting, announced that Rotarians Ross L. Dobbin, Bob Abbott and Dr. M. A. Morrison would act as a nominating committee.

Rotarian J. H. Seels and Fred L. Roy reported in regard to the summer carnival. The winner of the competition, it was declared, would have a choice between a motor boat, a complete electric refrigerator, or a trip to Europe.

SARNIA ENTERS PROTEST.

SARNIA.—Sarnia has joined with other Ontario cities in protesting against the proposed amendment to the criminal code under which certain fines now payable to municipalities would go to the Provincial Treasury.

Authorities of Poland are trying to have shipments of American cotton imported directly through their port of Gdynia instead of through Bremen, Germany.

Sir Henry Thornton

C.N.R. PRESIDENT VACATIONS IN GEORGIA

This photograph of Sir Henry Thornton, president of the Canadian National Railways, was taken on the golf course at Augusta, Georgia, shortly before his return to Ottawa where he appeared before the railways and shipping committee. One of the items that came in for considerable discussion was the bill of $1,952,000 for meals, travelling expenses, etc., of officials of the C.N.R. Dr. Peter McGibbon (Cons. Muskoka), protested this and other expenses, exclaiming: "The Canadian National Railway is likely to bankrupt the country. We can't continue to sink $100,000,000 a year into it." Sir Henry's salary and emoluments amount to $148,000 a year.

TALES OF HARDSHIP ARE TOLD BY SOVIET WORKERS

Children Scatter in Vain Search for Bread—Ask for Money.

CROPS CONFISCATED.

(Special to The Examiner. Copyright, 1932.)

CALGARY, Alta, April (SNS). — Startling pictures of life in Soviet Russia under the fire-year plan were narrated to your correspondent the other day by M. J. Mazaroff, one of a number of exiled-voluntary or otherwise—Russian ladies and gentlemen who have their homes here.

He brought with him a newspaper in which he pointed to a picture of a peasant girl taking her place as a worker in the main building of the Nizhni-Novgorod (Stalingrad) plant and he pointed to the statement, printed underneath, "It is asserted that the plant's capacity can be increased to 150,000 cars a year or approximately 500 a day." But, pointing to the surroundings and the plant equipment, M. Mazaroff questioned the statement and he also quoted, in support of his doubt, J. L. Lovett, general manager of the Michigan Manufacturers' Association, who, after a visit to Russia, said that it was impossible under present conditions for such to be the case.

M. Mazaroff produced a sheaf of correspondence as evidence, on the other hand, of actual conditions in Russia to-day. Below are translations of some typical letters received from home by Russians now working in the Canadian Pacific Railway's shops at Ogden, near Calgary.

Can't Get Bread

"Dear Brother," writes one. "At present it is impossible to write about all. In Russia everything is very dear. One pood (36 pounds) of rye flour costs 32 roubles, so we live without bread. Our life is so bad that it cannot be worse. I have no field. I have not anything. All my children are scattered searching for a piece of bread. I can not see any way out, brother. I can not write any more, as you know."

And a German immigrant from Terskaia (Caucasus) writes:

"Two years ago all had been taken from my parents except a cow, a horse and their house. Now all that was left has also been taken. My father has been put in jail, mother was banished to Siberia and brothers and sisters were thrown out of the house. I took them into my own home."

A Russian woman writes to her husband:

"In the eyes of others I am a sensible laborer and I am given more serious and responsible work. I am a member of the Union of the Sugar Plant and I get a pound and a quarter of bread a day. When you start to work again send me some money to buy coal. Now, while I am writing this letter, I am freezing. I have no wood nor even sawdust to make a fire and have not enough blood to warm me.

"Poor old F—— works outside where it is very cold.

"My brother was ousted from his house and during autumn he gathered rye ears in the field.

"P.S.—Papa, I would like to eat your bread. In the market there is a small loaf but it costs one rouble and 20 cp."

A similar story of utter hardship come from Kherson Province under date of December 22:

Confscate Crops

"I have a cow and ten hens," says the writer, "but no money at all to pay taxes. I have no bread except corn. We work 'on unit.' You understand what is meant"—though, incidentally, members of the Russian colony here do not understand "what is meant." "L—— and R—— had 275 units for which they got 109 pounds of barley flour and 104 pounds of corn cobs and this is our bread for one whole year. In addition L—— got seven metres of chintz and R—— one pair of shoes. I and F—— got nothing because we do not work in the field.

"We had a good crop but it was all taken away to fulfil the five-year plan. I have a cow but nevertheless we never see any butter because I am compelled to give up all the milk. (Nothing I have belongs to me and how we will live, God knows. The market is as before, every Mondoy, but prices are different. 36 pounds of potatoes, 8 to 10 roubles; 10 eggs, 3 roubles; two hens, 10 to 15 roubles; two geese, 25 to 30 roubles. Of meat, lard and wheat flour there is none.

"But do not think you can buy this all openly. No, there is neither milk nor honey in our paradise but only years. I would willingly be your dog just to eat bread. I suppose over there they know more about our life than we know ourselves; there are people who think there is a paradise in Russia. Let them come to Russia and see how we live. I forget the taste of apples because they are a rouble each.

"All that you wrote is truth. It is nothing to you if letters are opened but the consequences are hard for us. Five of my friends and yours were banished but where nobody knows. Three times the people were banished from our place and how or where they are living is not known."

Animal diseases cost farmers of England $100,000,000 last year.

FIRE ON BROCK STREET

Fire broke out at 2.45 this afternoon in the attic of Albin Anderson's home, 184 Brock street. Thick white smoke was billowing out from under the eaves when the firemen arrived. Chemicals and several lines of hose were used on the fire and it was soon extinguished, a large crowd of citizens watching the work of the firefighters with great interest.

EVERYTHING READY FOR BIG SCHOOL

Opens To-morrow at Grand Opera House at 2.30 O'clock.

Miss E. Francis Thompson, who will conduct The Examiner's Homemakers' School as lecturer and demonstrator at the Grand Opera House, commencing to-morrow, and continuing on Wednesday and Thursday, is in the city, and is completing all arrangements for the presentation of the school. Miss Lyons, representing the E. B. Eddy Company, is also here in the interests of her firm. In addition to prizes already mentioned, this firm to-morrow will give a kitchen paper towel cabinet and supply of paper towels. Hooper's Store will supply as a dainty prize one of their fine cakes. David Jordan is supplying the floral decorations, and a table bouquet will be given away daily.

Remember, no children will be admitted. Only adults will receive prizes.

BREACHES OF FAITH ON PART OF BRITAIN

(Continued from Page 1)

make demands upon Ireland which, if granted, would make our right to neutrality a mockery.

Divided Country.

"The Irish treaty had divided Ireland into two hostile camps. To England this agreement gave peace and added prestige. In Ireland it raised brother's hand against brother, and gave us ten years of blood and tears; besmirched Ireland wherever foul propaganda has been able to misrepresent us. During these ten years moreover there have been extracted from us, though in part only as a consequence of the agreement, a financial tribute which relatively to the population puts a greater burden of war reparations payments on the people of Germany; and relatively to taxation capacity a burden ten times as heavy as the burden on the people of Great Britain of their debt payments to the United States.'

President de Valera was explicit that removal of the oath of allegiance from the constitution was purely a matter of domestic concern; "that the competence of the Legislature of the Irish Free State to pass such a measure was not open to question and it is the inention of my Government therefore to introduce immediately on the reassembly of Parliament a bill for removal of Article 17 of the constitution and for such consequential changes as may be required to make the removal effective."

President de Valera's reference to the land annuities was brief. "My Government, he said, "will be obliged if you will state what is the 'formal and explicit undertaking to continue to pay the land annuities to the national debt commissioners' to which you make reference in your despatch. The Government of the Irish Free State is not aware of any such undertaking, but the British Government can rest assured that any just and lawful claims of Britain or of any creditor of the Irish Free State will be scrupulously honored by its Government." President De Valera's communication closed with an expression of his desire for friendly relations.

The British Government's reply signed by J. H. Thomas, and dated April 9, opens with the remark that President De Valera's despatch of April 5 was read with deep regret. It observed the terms of the Irish despatch went far beyond the issues originally raised, of the parliamentary oath of allegiance, and the land annuities.

Repudiate 1921 Settlement.

The terms of the despatch make it clear these points are but a part of a far wider issue, and that what is actually raised is nothing less than a repudiation of the settlement of 1921 as a whole, the British message said.

The British Government could not accept the sweeping statements of President De Valera's letter, but felt that nothing is to be gained by reviving the unhappy memories of the bygone past. His Majesty's Government in the United Kingdom entered into the 1921 settlement with the single desire that it should end the long period of bitterness between the two countries, and it is their belief that settlement brought a measure of peace and contentment which could not have been reached by any other means.

"Further," the British reply said, "as a direct result of that settlement the Irish Free State participated in and contributed to the notable constitutional developments of the last few years whereby the position of the Dominions as equal members with the United Kingdom of the British Commonwealth of Nations under the Crown have been defined and made clear to the world.

"It is true the 1921 settlement did not result in establishment of a United Ireland, but the treaty itself made the necessary provisions for union at that time of the two parts of Ireland if both had then been ready to accept.

Referring to President De Valera's declared intention to introduce legislation removing the oath, the British despatch reasserts that in the view of the British Government the oath is an integral part of the treaty.

"His Majesty's Government in the United Kingdom have publicly indicated on many occasions in the most formal and emphatic manner, that they stand absolutely by the treaty settlement, and to this position they most firmly adhere," the despatch said.

GIDEON WORK IS OUTLINED

J. W. Stewart Addresses Morning Congregation at St. Paul's.

ORGANIZED 35 YEARS AGO.

"The Gideons" were organized thirty-three years ago in the State of Wisconsin, when two commercial travellers, Messrs Nicholson and Ross, in the room of the hotel in which they met, and after reading their Bibles before retiring, agreed to set on foot an association to propagate the reading of the Scriptures. These two men called together the travellers in the city, and there was launched this body, called Gideons, to place Bibles in the guest rooms of the hotels across the country.

This, in short, was the message given to the congregation of St. Paul's Presbyterian church yesterday morning by J. W. Stewart, international vice-president of the Gideons. In a racy and clear manner Mr. Stewart detailed the methods of placing Bibles in the hotel rooms, the joy afforded these Gideons to do their share in the reading of the Scriptures by lonely travellers away from home. The work as decribed by Mr. Stewart was carried out across Canada and the United States.

Work Extends Abroad

It was not until 1911 that the association was formed in Canada, and in 1925 the Canadian organization affiliated with the Gideons of the United States. The funds received in Canada for the furtherance of the cause are used in Canada. Figures show that up to the present time there have been placed in Canadian hotel rooms 73,789 Bibles—in the two countries, the Dominion and the United States, 1,142,816 copies of the word. There are yet 60,000 Bibles to be placed in hotel guest rooms, and the Gideons expect to accomplished this duty some day. To foreign lands, the work has been extended, and so far 16,685 Bibles have been placed abroad; the Holy Land is being looked after, no fewer than 563 in Jerusalem hotels, and in Palestine 1,189 copies. The Gideons have under consideration the extension of this work to India. On the observation cars and steamships of the Dominion, C. P. R. and C. N. R. also are to be found these Bibles, which are of uniform size and content.

The magnitude of this work, Mr. Stewart pointed out, cannot be estimated, as he read the many testimonials of men and women who had been influenced to seek "better things than this world dreams" through reading the Bibles found in hotels. The hotel owners, too, were given words of praise for their co-operation in the great work—Catholics and Protestants alike equipping the rooms with a copy of the Scriptures, with, in many cases, substantial cheques to assist the cause.

Concluding his interesting recital, Mr. Stewart advised the reading of the Bible—in the hotel there was an air of sanctity and security where there was the Book; in the home there was that same confidence in God which came from the study of His Word.

OLDEST BEWDLEY RESIDENT BURIED

James Sidey, 88, Born in Stage Coach Era

PORT HOPE, April 11.—James Sidey, the oldest resident of Bewdley, a village on the Port Hope-Peterborough Highway 10 miles north of here, who passed away on Thursday in his 88th year, was buried in Bewdley cemetery Saturday.

Mr. Sidey had lived in Bewdley since the age of three and had witnessed the gradual transition of travel from the days of the ox-cart and stage coach to the present age of speed when the highways are crowded with motor-driven traffic and the air wis droning planes. As a young man he could recall when men trudged 20 weary miles on foot to Peterborough to obtain flour and other necessaries.

Up until two weeks ago Mr. Sidey had been in good health but failed to rally following an attack of pneumonia.

Besides his wife, who is 80 years of age, he is survived by one daughter, Mrs. F. Richards; a son, Fred; one sister, Mrs. W. Gaynor, and one brother, Thomas, all of Bewdley. Three grandchildren and one great grandchild also survive.

Possessed of a remarkable memory, Mr. Sidey could remember when Bewdley was a central point of commerce. A warehouse on the village wharf was often packed full of merchandise and three hotels did a thriving business. The memory of the first train to pass over the Midland Division, which preceded both the G.T.R. and Canadian Pacific lines, was indelibly fresh in his mind. When the first train went through, many residents of the section felt that it would be the "ruination of the country."

Uruguay is increasing its postal rates.

REBEL FORCES LEFT TO JAPS

New State Depends on Fliers to Route Chinese From Manchuria.

THAWS SOFTEN ROADS.

TOKYO, April 11 (C.P.). — Boggy Manchurian roads, softened knee deep by spring thaws, have thrown the burden of the campaign to suppress rebels against the new Manchurian State upon the Japanese air force, press reports from Munchuria said to-day.

It was understood General Jiro Tamonss' Japanese division, which went northward to block the rebel advance on Changchun, would be recalled to Harbin and the task of strafing the rebels left to the planes from now on.

The city of Sonhsin was in flames in several places, the reports said. Some of the fires were started by Japanese aerial bombs and some were set by Chinese troops before they fled north-eastward before the Japanese attacks.

A protest was filed by the Soviet Consul-General at Harbin over the arrest of several Russian citizens on the order of the new Government. Police alleged the men arrested had plotted with Chinese Communists against the new regime.

Tweed

Mrs. T. E. Moffat has returned after spending a few days with her parents at Hassard's Corners.

Mr. Jack Ryan, with his mother, Mrs. Ryan and sister Rita, visited Mr. and Mrs. Maxwell Geraldi of Cobourg over the week-end.

Mr. Calnan of the Tweed High School teaching staff has resumed his duties after spending the holiday at his home in Vernonville.

Miss H. Grindell has resumed her duties on the High School staff after spending the holiday in Guelph.

Mrs. Steinburg of Campbellford is visiting her sister, Miss Dewey, who is quite ill.

Mrs. James Ryan is visiting Mr and Mrs. Maxwell Geraldi of Cobourg.

Mrs. T. J. Sampson of Fort William is visiting her sister.

Miss Hilda Phillips of Marmora spent the week with Mr. and Mrs. S. A. McCarey.

Mr. Charles Flock spent a few days in Ingersoll last week.

Mr. F. E. Brown of Madoc was in town this week.

Miss Marie Meraw is visiting her aunt, Mrs. Frank Voyer of Havelock.

Mr. Cameron Wensley of Toronto was a recent guest of Mr. and Mrs. Thomas Wager.

Miss Amy Newton of Toronto spent a few days with her parents, Mr. and Mrs. R. K. Newton.

Mr. William L. Youmans of Timmins is spending a few weeks with his parents, Mr. and Mrs. J. H. Youmans.

Mr. and Mrs. George Geraldi have returned after visiting the latter's parents in Sydenham.

Mrs. M. Kehoe has returned after spending a few weeks in New York city with Mr. and Mrs. Wilfred Turcotte.

Miss Jean and Mr. Kenneth Morris of Hamilton spent the week-end with Mr. and Mrs. J. L. Newton.

Mr. Henry Sexsmith, Mr. and Mrs. Harry Mouck and Mrs. W. L. Adamson and Pauline were in Campbellford last week.

Mr. and Mrs. Lindale and family of Toronto spent the week-end with Mr. and Mrs. George La Fontaine.

Rev. L. Byrne, of Kingston is visiting his father, Mr. Sylvester Byrne for a few days.

Miss Gwendolyn Heidman of Toronto spent the week-end with Mr. and Mrs. C. L. Carleton.

Mr. K. C. Alexander of Arden spent a few days in town at the home of Mr. and Mrs. Wm. McCutcheon.

Miss Frances Wager is visiting her parents, Mr. and Mrs. Thomas Wager of Lost Channel for a few days.

Mrs. F. C. Arker visited relatives in Niagara Falls over the week-end.

Mr. Tim Hopkins left on Wednesday for an extended visit to Detroit.

Miss Helen Frances of Stirling is visiting Mrs. H. C. Myles for a few days.

Mr. L. McCarey of Madoc spent the week-end with Mr. and Mrs. S. A. McCarey.

Mr. and Mrs. George Shaw motored to Campbellford over the week-end.

Miss A. Brooks has resumed her duties on the Tweed Consolidated School staff after spending the holidays with her parents in Maple.

Messrs. George Clark, C. D. Wilson, Dr. Paul, Clare Hayes and Abner Mouck representing the congregation of St. James' Anglican Church, Tweed, visited Belleville last week, where they met Bishop Lyons of the Diocese of Ontario, concerning the appointment of a successor to Rev. Mr. Wright.

Mr. H. D. Reynolds has returned after visiting at his former home at Pembroke. In the meantime Mr. Stephen Garvin of Belleville has been relieving at the Canadian National depot in the absence of Mr. Reynolds the agent.

Messrs. Bill Deline, local Firestone distributor and Thomas Whalen are in Toronto on business.

Mr. and Mrs. Maurice Hutt of Toronto spent the week-end with Mr. and Mrs. A. R. Jones.

Sores Broke Out All Over Her Body

BURDOCK BLOOD BITTERS

Mrs. T. E. Cliff, Kelwood, Man. writes:—"My little daughter's hand and arms broke out in sores which spread all over her body.

Nothing I tried gave her any relief until I got a bottle of Burdock Blood Bitters, and I could see an improvement, as the sores began to disappear.

I gave her three bottles and she has had no more trouble."

For sale at all drug and general stores; manufactured, for the past 53 years, only by The T. Milburn Co., Ltd., Toronto, Ont.

He Got The Hat

He won the hat by bringing his ship, the S.S. Coalhaven, into Toronto port April 6, the first vessel of the spring season. His name is Captain P. Beatty. He came from Sodus, N.Y. Capt. F. J. Marigold made the presentation of the harbor-master's hat April 7.

BOTTLE FLOATS FOR 16 YEARS

Missive Bears Name of Well-Known Man and Steamer Vaughan.

NOT TRAGEDY ECHO

GIMLI, Man., April 11. (Special to The Examiner).—After knocking about in Lake Winnipeg for approximately sixteen and a half years, a bottle, containing a peculiar document, was picked up on the shore of Sturgeon Island, among some rocks, by Mrs. George (Dolly) Bristow of Gimli.

Mrs. Bristow tells how she came across the bottle, and seeing it bobbing about among the rocks retrieved it out of curiosity but was unable to open it to get at the yellow paper it contained. Breaking the glass was the simplest solution of the problem and the result was the revelation of an apparently meaningless list of names and dates, including mention of the steamer Vaugham.

The names on the paper are: D. A. McIntyre, George Burbridge, John McDonald, George A. Wood, J. W. Umphrey, G. Gainsford. Mr. McIntyre is a well-known federal government engineer, and was on official business as were the other named except John McDonald, proprietor of the Albion hotel, who was a guest; George A. Wood has since died; Mr. Gainsford, who is a son-in-law of the late Sir Hugh John Macdonald, was on business for the hydrographic branch of the marine department.

J. W. Umphrey, then in the federal employ, is now a Manitoba government engineer. Discussing the subject of the bottle Mr. Umphrey declares there was no particular significance to it, as nothing untoward had occurred on the trip, which he remembered quite well. Like all others who learned of the finding of the bottle he was surprised that it was found, and that it had survived intact for so long.

RUSH POINT

Mr. and Mrs. Norman Wannamaker of Round Lake are moving to Rush Point and will reside in the house now occupied by Mr. and Mrs. Walter Davis and family.

Mr. Carl Barton has just returned from Belleville and Stirling where he has spent the past month.

Mr. John McMillan and daughters of Stirling made a short visit on Wednesday at his sister's, Mrs. F. D. Barton, here.

Miss Ora Petherick of Rush Point spent several days last week visiting at Round Lake Settlement.

A number attended the dance in Havelock at the home of Mr. and Mrs. Harry Thoms on Wednesday evening.

Mr. Reginald Barton has rented the farm, stock and implements of Mr. Norman Wannamaker at Round Lake Settlement. Mr. Barton himself is engaged for the summer in charge of the creamery of Kinmount. The farm will be managed by the older brother, Mr. Clayton Barton, and his wife.

The Ladies' Aid meeting was held last week at the home of Mrs. Fred Thoms.

Messrs. Carl and Murnie Barton had a somewhat narrow escape from drowning on Wednesday last when they attempted crossing a large pond as a short cut to a neighbors for a sawing bee. The ice gave way and both lads plunged in and as the ice refused to support the weight they had to break a road through to shore. The pond is of considerable depth in spring.

SLEEPLESS, PALE, NERVOUS

Mrs. Hart Completely Restored to Normal Health After Taking [6 Boxes of Dr. Williams' Pink Pills.

FEELING WELL AGAIN.

"I was in a weak, run-down condition—sleepless, pale, nervous and with loss of appetite," writes Mrs. R. M. Hart, of Toledo, Ont. "I was often taking weak and fainting spells, and weighed only 105 pounds. I finally decided to try Dr. Williams' Pink Pills. After taking six boxes I was completely restored to a normal condition. I also gained 23 pounds. My condition began to improve after taking the second box. I have had no recurrence of my trouble since. I strongly advise Dr. Williams' Pink Pills for anyone in the same condition as I was in."

Mrs. Roy Holland, R. R. 4, Dunnville, Ont., describes her case as follows: "Just about a year ago I was in a general run-down state of health. No appetite, nervous and irritable. Could not sleep at night, or even keep still. My limbs would twitch, I would cry over nothing, and I was ashamed to find myself cross with the children. I tried Dr. Williams' Pink Pills again, as I had used them before with good results. The results were excellent again. I am now feeling well again, can do all kinds of work, and weigh more than I have for a long time."

Dr. Williams' Pink Pills have earned the praises of thousands of sufferers like these whose health has been restored by their aid. These Pills actually create new red blood, which supplies to the nerves the very elements they need and builds up the whole system. Try them if you are run down, anaemic or rheumatic. Now obtainable in the new glass containers at your druggist's. 50c a package. 255

GREAT BEAR LAND NOT HARD ON THOSE NOT USED TO OPEN

Travellers Must Take Proper Precautions, However, Prospector Warns.

MIGHT FIND GOLD.

BY RALPH M. RADFORD
(Special to The Examiner).

TORONTO, April 11. (S.N.S.) Except for some extremely cold snaps and protracted blizzards which interfere with travelling in winter in the Great Bear Lake country offers nothing in the way of hardship to those accumstomed to life in the open says Stanley Fleming of Haileybury, one of the half dozen or so men who remained in the new mineral field during the winter season.

Representing Prospectors' Airways Mr. Fleming, with his partner, Steve Conways, and the two MacLaren brothers, flew to the Great Bear late in August. After spending some time in the neighborhood of the original pitchblende-silver finds at Echo Bay and staking a group on the granite contact about five miles east of the Eldorado holdings the party moved 35 miles north to Hunter Bay, scene of Dominion Explorers' and Eldorado' initial activities. Another group of claims was secured at the south end of Rogers lake, 30 miles north of the Eldorado.

Cabins were available at Hunter Bay and the party wintered at that point. The government wireless station was installed there, but the operator left with the last plane before the break-up in September. The party augmented their food supplies by fish caught through the ice, but only the herring could be eaten by the men as the large trout, for which the district is famous, were infected with worms despite the cold water and were suitable only for dog feed. The trouble, Mr. Fleming reports, is is widespread throughout the country.

From Sept. 12, when the last aeroplane left, until Jan. 29 when the mail aeroplane flew down from Aklavik, the party was without means of communication with the outside world. Shortly after Christmas Mr. Fleming mushed down to Echo Bay to see the three men who remained in there were getting along, but learned nothing in the way of news, for they also were cut off from civilization. The next aeroplane to reach the district landed a prospecting party at Echo Bay on Feb. 26.

Fur Clothing Necessary

"It's a fine, healthy country, providing you take the proper precautions," Mr. Fleming declared. "Fur clothing is practically a necessity—the temperature drops as low as 65 below zero at times—and travellers must be prepared to carry full equipment with them wherever they go. Blizzards spring up suddenly and woe betide the party caught without camping equipment and plenty of food for men and dogs.

"Another aspect cannot be over emphasized" he continued. "Prospective visitors should thoroughly understand that you can't live off the country. While we shot a few ptarmigan, game is not plentiful, and fishing through the ice, except at base camps, is difficult. practically all necessary supplies have to be brought in by aeroplane an expensive proposition, with rates around $1.35 a pound."

The peculiar salt-like characteristic of the snow, due to low temperatures, impedes travelling, and in high winds results in huge drifts. Daylight, which lasts 23 hours a day during a part of the summer, shortens to less than four hours in mid-winter.

The Great Bear country has been well described the prospectors' paradise. The hills are bare, showing the various formations and structure, wood for camps and preliminary mining work is available and the heavy underbrush and overburden which hinders the search in Eastern Canada is absent. The district also is a mass of lakes of varying size.

Finds Along Contact

In the opinion of Mr. Fleming, who has an extensive practical knowledge of geology gained in years of prospecting experience, mineral deposition in the country is directly related to the granite contact which can be traced for hundreds of miles from the copper deposits on the Coppermine south along the east coast of Great Bear lake and down towards Fort Rae on Great Slave lake. Ground staked in the vicinity of this contact, he believes, has a good chance.

When he left Great Bear on March 26 there has been no word of any gold finds, but he thought it quite possible some discoveries of the coveted metal might be made. Huge quartz dykes, running up to 300 feet in width, can be followed by air for miles in many parts of the district and while those tested have been barren general conditions are favorable to gold deposition.

Staking has been heavy so far this year. All the east shore of Lindsley Bay and the east shore of Great Bear itself has been staked for a distance of about 20 miles north of the original finds. Aeroplane traffic has been heavy and machines are reported to be booked until the beginning of the break-up season haks flying in a week or so. Travel by aeroplane and boat will be resumed early in the summer months.

Canadian Girl Freed

An immigration prisoner for three weeks in Wayne county jail, Detroit, an 18-year-old Canadian girl, Marie Scriver, was released April 5, on orders from Washington. The news came as welcome relief to the girl's family, who had been kept in ignorance as to her place of detention for weeks. This photo of Miss Scriber was taken in the jail.

GERMAN PLIGHT LAID TO CHEAP MONEY ABROAD

Resulted, Reviewer Says, In Loans Being Pressed on German Banks.

BANKS LOST HEAVILY.

NEW YORK, April 11—The cheap money policy of the United States and England was chiefly responsible for the large volume of foreign loans made to Germany between 1925 and 1929, according to a review of the German banking and credit situation by Prof. M. J. Bonn, of Handelschochschule, of Berlin, in "International Conciliation." published by the Carnegie Endowment for International Peace today.

"If the United States and England had not gone in deliberately for a cheap money policy," he says, "the offers made to Germany would have been much smaller. As it was, in many cases foreign creditors pressed money on the German banks.

"When, in May, 1927, the Reichsbank tried to stop the boom on the stock exchange by insisting that banks must reduce their advances to their stock exchange customers, its policy was greatly hampered by the inflow of American money, freely offered to the smaller banking community.

"The greater part of these credits, of course, were short-term credits, which could be withdrawn on short notice. Thcugh the margin between long-term advances and short-term was considerable, it was not big enough to make foreign institutions willing to lock up their money permanently.

"The fact that the banks shouldered the responsibility and allowed themselves to be made the buffer between industrial and agricultural debtors, bent on long investments, and commercial and banking creditors, bent on a quick return of their money, has shaken their foundations completely. It made them the chief sufferers when owing to political and commercial panic, billions of money were suddenly withdrawn.

"German banks lost about 500,000,000 marks of foreign money in 1930; the short-terms foreign indebtedness of Germany was reduced further in the first seven months of 1931 by around 3,000,000,000 marks; finally, around 1,000,000,000 have been repaid from August to November, 1931. Most of it came from the banks. It made the banks the chief debtors concerned in a moratorium. Two of the big banks have gone down; the others were at least temporarily greatly weakened."

Eminent professors of economics at six important German universities contribute to the review, which deals at length with the economic state of the Reich. They made their investigations under the auspices of the German Research Union.

Prof. Max Sering, of the University of Berlin, surveys the agricultural situation. He places the area under cultivation in Germany at about 73,000,000 acres, divided in approximately 5,000,000 properties, of which nearly 60 per cent are smaller than five acres. In spite of the difficulties the German farmers have encountered, he says they "have been able not only to attain, but to pass the pre-war level of intensive cultivation, the harvests from 1928 to 1930, inclusive, being appproximately as great as in the last years prior to the war."

YOUNG PEOPLE TO PRESENT PLAYLETS

Y.P.S. of Christ Church, Omemee, Holds Regular Meeting—District News.

OMEMEE, April 11. (Examiner Correspondence). — The Young People's Society of Christ Church on Monday evening was in charge of Miss Grace Bell, convenor of the Missionary Department. The president, Horace Hill, jooked after the business items. A special program will be presented next Monday evening by the young people consisting of three short plays. The members hope to have many outsiders in attendance.

The Young People of Trinity United Church met in the basement of the church on Monday evening under the leadership of Miss Eileen Johnson.

The scripture lesson was read by Miss Florence Sloan and the commentary on the same was read by Mr. Russel Williamson. The Rev. Mr. Blanchard had charge of the topic and he spoke on the temptations offered to Christ by Satan.

A well received instrumental was played by Miss Francis MacPher- n and the meeting was brought to an early close in order that the young might hold a play practice.

The monthly meeting of the Hydro Commission was held in the council chambers with a full attendance on Wednesday night. Mr. T. C. Ivory, the chairman was in the chair. The usual routine business was transacted. A number of bills were ordered paid and a rebate on light bills was authorized to be paid to R. Bradley and L. C. Morcombe.

The next meeting will be held on May 4th.

The April meeting of the Women's Guild of Christ church was held Thursday afternoon in the basement of the church. Owing to the absence of the president, the honorary president, Mrs. Weir, took charge of the meeting, which was opened with a hymn and prayer.

Group 1 decided to hold a supper in the basement of the church on Friday, April 15th. Supper will be served from 5 o'clock until 7.

The afternoon was spent in sewing after which the hostess, Mrs. F. Bent and Miss S. Clarke, served dainty refreshments. The May meeting will be held at the home of Mrs. S. Nurse.

The regular meeting of the Women's Missionary Society of Trinity United church, held on Thursday afternoon in the Sunday school room, was featured by the Easter worship service.

The program was in charge of Mrs. Brown and Mrs. M. D. Earl and included a vocal solo by Miss Margaret Werry, prayer by Mrs. Faust and readings by Mrs. R. Williamson, Mrs. H. Lamb and Miss Lily Race.

The scripture lesson was read by Mrs. Brown and the devotional leaflet by Mrs. Bradburn. As the speaker for this meeting was unable to be present Mrs. Vaughan read a portion from the study book.

Mrs. Bradburn, Mrs. Vaughan and Mrs. McPhee were appointed delegates to attend a convention held at Beaverton on April 21st.

CANON DEPLORES KILLING OF DEER AND FOX HUNTS

TORONTO, April 11.—The killing of deer for sport was strongly deprecated last evening by Rev. Canon H. P. Plumptre, when he preached in St. James's Cathedral at the first "Humane Day" service to be held in Toronto. The needless cruelty which was, he declared, inflicted on animals by sportsmen whose interest was solely that of amusement, was deplored by the Canon, who went on to assert his distaste for such amusements as fox-hunting.

More than 250,000 people saw the French art show in London this year.

See Miss Frances Thompson Demonstrate These
GENERAL ELECTRIC
Modern Aids for Modern Homes

HERE is an unusual opportunity to see how General Electric Servants will save time and labor in your home.

A noted home economist will demonstrate the G-E Hotpoint Range—the range designed by women for women. You can judge for yourself its unexcelled speed—convenience and cleanliness.

In a demonstration of the General Electric Refrigerator, you will appreciate the economy of the Monitor Top—the advantage of multi-temperature zones and the sanitary chilling chamber. More than a million homes now own a G-E Refrigerator.

See, too, the General Electric Washer in action and note how its famous Activator washes the clothes individually.—preventing tangling, wear and tear.

Other General Electric appliances which are being demonstrated include the G-E Radio—the G-E Cleaner—the G-E Sunlamp—the G-E Telechron Clock. Be sure to attend at least one of these demonstrations at the time and place indicated below.

SHOULD REVERSE TREND OF TAXES UPON MOTORISTS

W. G. Robertson of National Association Claims Motorists Pay Too Much.

SEES THREAT TO TRADE

Says Lessened Mileage Almost Sure to Follow Higher Gas Levy.

TORONTO, April 11. — Declaring that the time has come to call a halt in the upward revision of motor vehicle permit fees and gasoline taxes in Canada, W. G. Robertson, secretary of the Canadian Automobile Association, recently predicted that the motor industry in 1932, through provincial taxation, will contribute more than the entire cost of maintaining provincial highways, including interest on and amortization of highway debt. Mr. Robertson at the same time expressed doubt as to the efficacy of increased levies.

"The higher levies are likely to reduce the mileage of motor vehicles in general," he declared. "This will place a further handicap on the industry which has been making a valiant effort to lift itself out of the depression. Its success in improving business conditions will be a national benefit because of the tens of thousands of persons directly and indirectly profiting from activity in the motor industry itself, and in such dependent, or largely dependent, industries as petroleum refining, rubber manufacturing, the servicing of vehicles and transportation of commodities."

Pays Cheerfully for Roads.

"It is freely conceded by students of taxation," continued Mr. Robertson, "that a class should not be taxed for the benefit of the whole people. So far, in most provinces, taxes from motor vehicles have gone exclusively for road building purposes, and so long as this condition obtains the motorist is likely to pay the taxes cheerfully.

"But latterly," added Mr. Robertson, "there has been a distinct tendency on the part of provincial authorities to regard the motoring public as an easy means of obtaining revenue for general purposes. It is our considered belief that the motoring public has done enough for the public in general when it contributes one hundred per cent. of the road building costs, because it is apparent to everyone that the entire nation benefits from the creation of the highway systems which have been made possible entirely through the willingness of the motorist to pay the cost of the roads he uses.

Motorists to Pay Whole Bill.

"A competent authority estimates that $50,000,000 annually is sufficient to meet the cost of repair and maintenance of the highway system of Canada, and also to provide interest on and retirement of the existing indebtedness. The amount which will be collected this year by the provinces in gas tax and permit fees, on the basis of new rates, will exceed this total if gas consumption and motor registrations do not fall far short of 1931 totals.

"In other words, the motor vehicle owners of Canada have now been presented with a bill for all past indebtedness on account of roads, plus full annual maintenance charges and are paying that bill, leaving to the Dominion as a whole, free of charge, the numerous benefits accruing from the existing system of highways, inluding the annual expenditure in Canada of $200,000,000 by motor tourists from the United States.

"The time has come to call a halt in the upward revision of the motor vehicle permit fees and gasoline taxes in Canada. Further taxes, if they are effective, will not mean enlargement in the highway system, which is a national benefit, but will add to the general revenues of the country, and such taxes might as reasonably be levied on commodities, personal property, or personal services as on motor vehicles."

The Canadian Automobile Association, of which Mr. Robertson is secretary, has affiliated with it the principal automobile associations and clubs in the nine provinces. Mr. Robertson also is general manager of the Ontario Motor League.

Air Jaunt Causes Police Call

DAD AND BOYS FLY; MOTHER WORRIED

Joseph and Robert Keaton, nine and eight-year-old sons of Buster Keaton, screen comic, and the former Natalie Talmadge, whose recent aeroplane flight from Los Angeles with their famous father resulted in their mother calling upon the police for assistance. There had been a difference of opinion between the parents as to the advisability of taking the boys for a flight and the upshot of it was that the father proceeded to take his two sons for an aeroplane ride to San Diego. Mrs. Keaton asked the police to interfere and her husband subsequently announced that he would "saunter back to Los Angeles with the children in the morning." Happiness is said to reign once more in the Keaton menage.

Relief Statement

The Finance Committee of the Peterborough Relief Association met recently and T. D. Hammond presented the following financial statement of receipts and payments to March 31st. G. A. Gillespie was in the chair and Mrs. J. G. M. Wilson representing Mrs. Morris gave her report. The financial statement from March 1 to 31 inclusive is as follows:

FORTUNE IN GOLD FOUND ON CLAIM

Staked by Prisoner Who is Now Charged With Murder.

SAYS SELF-DEFENCE

(Special to the Examiner.)

VANCOUVER, April 11.—(S.N.S.)—While Joe Starleigh sits impatiently in his cell at Oakalla prison awaiting trial on the charge of murdering his partner, sensational gold discoveries are being made on the ground he formerly held in his own name in the Cariboo country.

Last October Starleigh, veteran prospector of the Horsefly district, quarelled with the man who had shared by his claims and camp. He contends that he didn't start the argument, but he finished it by killing his friend, allegedly in self-defence.

But now Starleigh's Island, situated on the Fraser river near the mouth of Australian creek, has become the goal of scores of prospectors. Platinum and iridium have been found there in paying quantities, as well as gold.

The island, cut by numerous sloughs and back washes of the Fraser, is about four miles long. Starleigh claims to know every inch of it, although only a small part of it had he been able to legally stake for mining purposes before his arrest.

Pitied By Officials.

But kind-hearted government officials pitied Starligh in his present plight and they staked a 250-foot bar claim for him following his preliminary hearing a few days after the killing.

"When I get out of here," said Starleigh, who has every hope of early acquittal, "I'll get back in there and make a fortune. Even after this rush from outside, there'll be plenty of worth while metal on my island."

So good are the mining prospects on Starleigh's Island the many farmers have neglected their spring plowing and other chores in order to stake claims. Some of the younger and more daring, impatient to wait until the break-up of ice, have chopped through huge piles of ice which cover the bars. Into these holes they have inserted long-handled shovels with which they fish out the pay dirt.

"It's a funny way to do your mining," said one of the old-time Cariboo mining men who witnessed the spectacle. "It's a sight more like fishing through the ice. But the lads tell me they're making good money. They're making twenty dollars a day, and when they're able to use horse scrapers and plenty of water they should make a lot more."

Twelve claims have been staked in the Kerseley area nearby, chiefly by Vancouver men. Miners are working from daybreak until dark. According to James Shepherd of Kerseley, who has been in the country forty years, the gold is exceedingly fine and hard to save and for that reason some of the novices are having a difficult time. Sometimes, he says, they don't know iridium and platinum and lose it. He suggests that the government should subsidise old-time prospectors to patrol the new field, advising the younger element.

WOULD LIKE CASINOS AT ENGLISH RESORTS

Doctor Makes Suggestion for Popularizing Seaside Cities

Hastings, Eng.—"English seaside resorts should copy their continental rivals by instituting casinos."

This suggestion for popularizing British resorts was put forward by Dr. Wilfred Harris, the nerve specialist, at the British health resorts association's conference at Hastings on Saturday.

"Games of chance," said Dr. Harris, "have a special appeal for large numbers of people.

"I feel sure that casinos would be such a draw that, if properly run by the municipalities, they would provide means for the luxuries of medical treatment and of the recreation and relaxation that we all want."

Dr. Harris protested against "petti-fogging restrictions" at English coast resorts.

The conference decided to form a branch of the British health resorts association, the southern section to comprise Hastings, Folkestone, Bexhill, and Eastbourne.

Have You, The "Can't Afford It" Habit?

THE use of that phrase does not suggest the inability to buy so much as the desire to practice rigid economy . . . to save . . . to deny yourself needed and necessary commodities.

But Man, oh Man, and you, too, Madam, how better and more effectively can you practice economy and thrift than to buy when prices are at their lowest ebb in years? How more certainly can you insure economy than to replace worn or out-of-date furniture than when new is selling for one-third of what it sold for 15 years ago? Or to stock up on food products when they are 40% less than at any time since the war? Or clothing when $53 to-day will buy you what you paid $100 for in 1912?

What you really cannot afford to do is not buy because you cannot afford to miss to-day's low levels . . . prices that are an actual boon to reduced incomes . . . to the practice of sensible, far-sighted economy.

KING TO HAVE LINEN FROM HIS OWN FLAX

Interesting Experiment Made at Sandringham Estate

Belfast, Ireland.—It is announced here that the King has arranged for flax grown on his Sandringham estate to be converted into linen for his own use and that of the royal family at Buckingham Palace.

The flax was grown as the result of an experiment initiated by the King last year to help the Linen Industry Research Association, which wished to discover if certain new flaxes it had evolved at Lambeg, near Belfast, could be grown in the eastern counties of England.

The result was considered remarkably good, and the crop, yielding about 1,500 pounds of fibre, has been sent to the association's Lambeg factory, where it is being prepared for the spinners.

It will be spun in the mills of Ewart and Son, Belfast, and will then be distributed to various weaving firms in Northern Ireland and Scotland to be turned into sheets, tablecloths and other household and dress linens.

NORHAM.

Miss Lenore Isaac has returned from Harwood, where she was holidaying with her grandparents, Mr. and Mrs. A. C. Carruthers.

Mrs. Wm. Campbel spent Tuesday with Mr. and Mrs. Douglas Turney at Morganston.

Rev. D. R. Clare spent a day this week at Omemee with Mrs. Clare, who was caled to the bedside of her father, Mr. A. Scott, who is seriously ill.

Mr. Wesley Newman motored to Port Hope on Tuesday.

Mr. B. Isaac was in Grafton one day this week.

Mrs. Harry Wilson and Fern are spending the week with her parents, Mr. and Mrs. Wm. Runnells of Dartford.

We are glad to know that Mr. Fred Weatherup, who was operated on for appendicitis, is rapidly recovering in Belleville hospital.

A number of Norham people attended the funeral of the late Mrs. Alex Harnden at Warkworth.

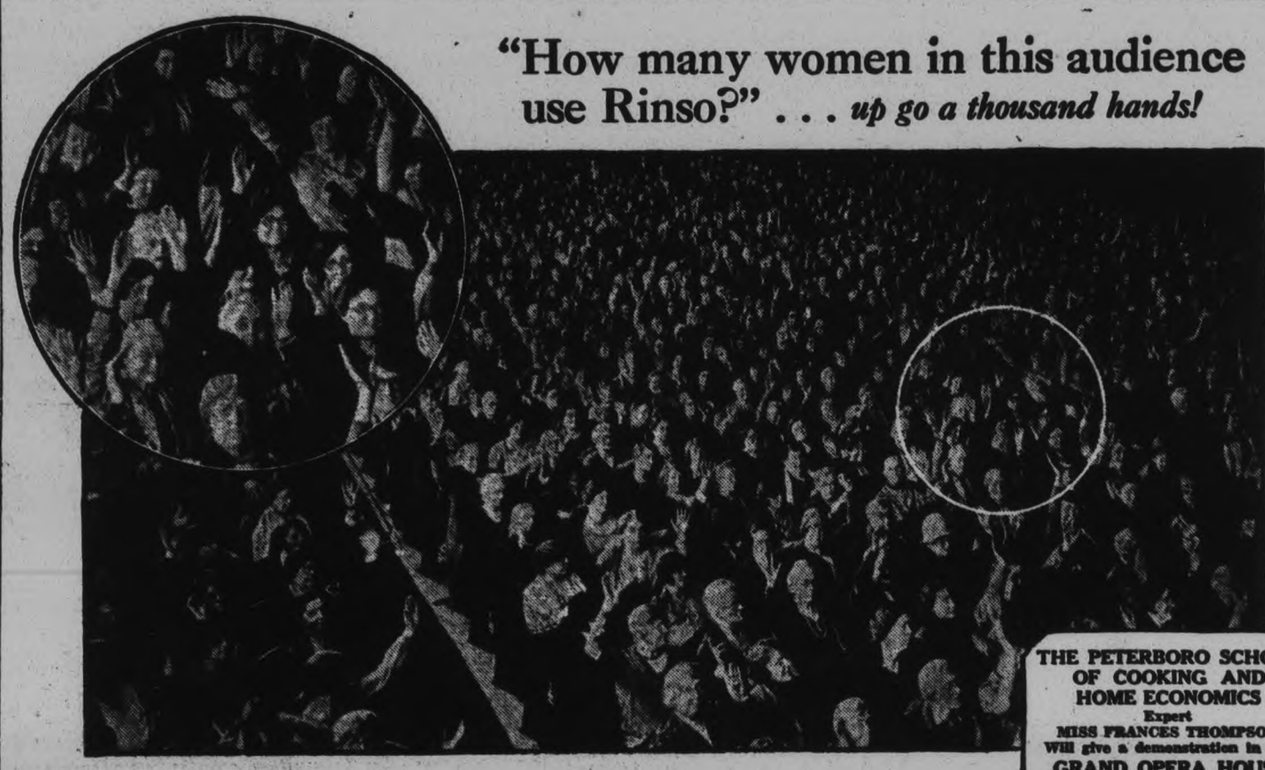
Mr. and Mrs. Lorne Evans were visitors in Belleville on Tuesday.

Mr. George Palmateer motored to Trenton on Wednesday.

We welcome to Norham Mr. and Mrs. John Woodard, who have moved into the house recently vacated by Mr. D. Turney.

Mr. Arthur McKenzie and mother have moved into half of Mr. Leonard Langford's house.

Mr. and Mrs. Louis Kelly and Roy, are visiting his parents, Mr. and Mrs. J. Kelly at Red Cloud this week.



Do *you* get snowy clothes in hard water—without scrubbing?

Don't miss this home-laundering demonstration!

HUNDREDS OF THOUSANDS OF WOMEN all over the country are now *Rinso-wise*.

Their neighbours have told them about this hard-water soap that soaks out dirt and saves scrubbing.

Their washing machine dealers have urged them to use no soap but Rinso.

And home-making experts everywhere are busy demonstrating these wonder-working suds that wash clothes snow-white . . . safely, *easily*.

See for yourself!

Never mind taking *our* word for Rinso's amazing help on washday. Come and see the demonstration by an expert! Watch how clothes are soaked bright and gleaming—without being scrubbed or boiled.

Don't miss it! You never saw such suds as Rinso gives—thick, creamy, *lasting*, even in hardest water. Real energy-suds—made for work and lots of it!

You'll be astonished to see how a little Rinso whips at once into a lot of lively suds . . . *without the help of bar soaps, chips, powders or softeners.*

No wonder the home-making experts of leading Canadian newspapers say that Rinso is a great work-saver—and very economical!

Safe for finest linens

Rinso is safe for the finest cottons and linens. You can be *sure* it is—otherwise famous experts would not recommend it as they do. And the makers of 38 leading washers recommend it as well.

Used for tub washing, Rinso actually saves the clothes . . . for they don't need to be scrubbed threadbare. Spares the hands, too. So many excellent reasons why experts recommend this famous hard-water soap for use in tub, washer, dishpan—and for all cleaning!

Come to the fascinating demonstration tomorrow and *judge for yourself*. We know you'll stop and buy a BIG package of Rinso on the way home!

Guaranteed by the makers of LUX—Lever Brothers Limited.

MISS FRANCES THOMPSON
in charge of the Peterborough School of Cooking and Home Economics.

It's all you need for snow-white washes

Rinso

THE GRANULATED HARD-WATER SOAP

Millions use it in tub, washer and dishpan

An Electric Refrigerator

will pay for itself by what it saves you!

THERE are three big reasons why you want an electric refrigerator. They are: THRIFT . . . HEALTH . . . CONVENIENCE.

THRIFT—When you can always save odds and ends from one day's dinner to make tasty dishes for another day's lunch—that's thrift! It is thrift, too, when your vegetables and fruit stay fresh even though you keep them longer than you had intended. And so, also, is it thrift when you can buy perishable foods in quantities, certain that they will keep till you need them.

HEALTH — The always below-50-degrees temperature of an electric refrigerator means just this—that bacteria have scarcely a chance to work in foods so protected. That is why electric refrigeration protects all the family, and particularly the children. For, since children are more susceptible to digestive upsets than grown people, their food just cannot be safeguarded too carefully.

CONVENIENCE—Ice cubes always at hand—frozen desserts so easily prepared—salads that keep fresh . . . these are but a few of the many comforts of an electric refrigerator.

Don't put off the ownership of an electric refrigerator for another day. See a dealer now. Let him give you a demonstration and tell you of the easy terms available.

ELECTRIC SERVICE LEAGUE

Yes, an electric refrigerator lets us practice thrift the year 'round, safeguards health, and is a wonderful comfort.

INVEST *in an* ELECTRIC REFRIGERATOR

Ask any friend about her electric refrigerator.

YOU CAN BUY AN ELECTRIC REFRIGERATOR ON THE EASIEST KIND OF TERMS

FATHER AND SON SERVICE IS HELD IN GEORGE ST. CHURCH

Rev. James M. Finlay, Leader of Boys' Work is Special Speaker.

LARGE CONGREGATIONS.

Sunday was Father and Son Day at George Street United Church, with Rev. James M. Finlay, leader of Boys' Work and former executive secretary of the National Boys' Work Board, as the special speaker. Large congregations listened to this brilliant young speaker, who brought inspiring and helpful messages to both old and young.

At the morning service, he spoke particularly to the fathers, stressing the responsibility of adults to give the younger people of this generation, a church that would minister to youth, that would capture the imagination, allure the youth and give them something worth while. Miss Dorothy Sager rendered a beautiful solo.

The evening service was particularly a young man's service, with a choir of young men leading the singing, and associated with the Rev. Finley and Rev. Millyard in the pulpit were Max Parnell, who announced the hymns; Garnet Dainard, who read the Scripture lesson, and Earl Barrie, who led in prayer. C. S. Thompson was in charge of the song service. Maurice Park delighted the large congregation with his solo, "Let There Be Light."

Rev. Finlay took as his text, the 1st verse of the 21st chapter of Revelation: "I saw a new heaven and a new earth"; saying he wished at this service to speak particularly to those who had the dream power, people not necessarily young in years, but to those who have the spirit of eternal youth, who have openness of mind and who are devoid of prejudice.

In thinking of this dream of John on the Isle of Patmos, I also think of other young men who have had wonderful dreams and gone out with a dynamic determination to conquer the world.

Looking at the text, we notice the words "I saw," which mean more than "I looked."

The young men, particularly of this age, can not be fooled; they see clearly through the glaring inconsistencies of older men, who say things yet do not live up to them. Boys of to-day are looking out as never before, beyond the sky-line and seeing a new heaven. They have an outlooking faith and need patient, sympathetic leadership.

Boys are letting the arrows of their desires fly not at material targets around them, but at the targets of their souls. They are thoughtful young people, who enjoy the best things of life and are seeing the best not in swampy mire but on the crest of the waves.

He admonished them in these days of materialism not to lose their dreams, but to be the kind of young man or young woman God intended them to be. Religion will develop you into a hero, make Christ your friend and your leader. There are groups of fellows in the world, who bring dreams to earth, who are thankful to be alive in days like these, and are anxious and willing to expend their efforts and lives to form a world brotherhood and bring their dreams into all their everyday relationships. Then a new heaven and new earth will come. Let us thank God that they hear His call and are asking Him to help them test their lives.

TAM O' SHANTER INN WILL BE PRESERVED

Ayr Town Council Contributes £1,500 and London Helps

Ayr, Scotland.—Ayr town council has agreed to contribute £1,500 toward the cost of the Tam o' Shanter inn, the old hostelry in High St. made famous by its connection with Robert Burns.

It is hoped that by this means, with the help of a London body with which the council is in communication, the retention of this old inn as it stands at present will be ensured, and that it will be used as a museum.

OLDEST CLOWN DIES

George Lupino Head of Family 100 Years on Stage

London.—George Lupino, oldest clown of his type, and head of a famous family, died at Streatham at the age of 79. He was the father of Stanley, Barry and Mark Lupino, and uncle of Lupino Lane. The family has had 200 years' unbroken connection with the stage.

Almost his whole life was spent in the theatre, for he was born in a dressing-room at the Birmingham Theatre Royal and he appeared at the same theatre as recently as 1926.

England's canning industry is developing rapidly.

WORLD'S LARGEST LOBSTER FACTORY TO RE-OPEN SOON

Pictou is Centre of Thriving Industry on North Shore of Novia Scotia.

SEASON OPENS MAY 2

PICTOU, N. S., March 10.—(CP)—Fishermen along the north shore of Nova Scotia are building traps in readiness for the opening of the lobster season, and officials of the several packing firms with headquarters in Pictou are expected to arrive soon to prepare their plants.

The season in this district extends from May 1 to June 30, but because May 1 falls on Sunday the men will not be allowed to lower their traps until the following day.

A few years ago there was a packing plant for every fishing station but the modern method of using smacks to carry lobsters from the outlying ports to central factories and shipping points has cut overhead expenses. Thus Pictou town and the nearby Carriboo communities have become the center of a thriving industry during the fishing season.

There are two plants on the Pictou waterfront and just inside the Little Entrance to Carriboo Harbor is the largest lobster factory in the world.

The location at the Little Entrance is ideal, with deep water and absolute safety for the boats in any weather and fine sites for the buildings. There are six main buildings, the factory, cookhouse and eating hall, men's sleeping quarters and women's sleeping quarters, the manager's home and his office.

About seventy men and women are employed in and about the factory. In the rush season they work from 6.30 in the morning until 5 in the afternoon, with half an hour off for lunch. By putting lobsters arriving late in the day in floating crates there is a continuous supply on hand to keep the plant operating at capacity.

It is an interesting sight to watch the different processes from the time the green lobster leaves the fisherman's boat at the wharf until he is stowed away in a quarter-pound can in a case bound for some epicure's table. There is a big boiler where the lobsters are placed alive and cooked, and the tables where body, tails, and claws are separated, then the table for cracking the meat from the tails, the tables where the meat is packed in the cans and finally the sealing machines and the box room.

But all the lobsters taken along the north shore are not destined for the can. During the last few years a number of former packers have developed the fresh fish business and a large portion of the catch is rushed direct from Pictou to the American markets by land and sea.

Retail prices in England are 47 per cent higher than those just before the World War.

President Canadian Royal Architectural Institute Wed

LONDON, ENGLAND, YOUNG WOMAN WEDS CANADIAN

The marriage was solemnized in Holy Trinity Church, Bishop's Rd., West London, of Miss Elsie M. Fox of London, England, and Mr. Gordon M. West of Toronto. The bride has been secretary in the high commissioner's office for fifteen years and the groom is an architect and president of the Royal Architectural Institute of Canada.

Roseneath Society Will Hold Jubilee

ROSENEATH, April 11 (Examiner Correspondence) — Mrs. Reg. Crego was hostess to a large number of Institute members and a few visitors on Thursday afternoon.

On motion of Mrs. M. D. Brown and Mrs. J. Braithwaite it was carried that the arrangements be made for May 24th, when the Dramatic Club will sponsor their play "Fickle Fortune" for the second time and that the members make candy to sell between the acts. Mrs. Brown kindly offered her home to receive and help pack candy for sale.

Messrs. A. Brown and M. Davey were appointed doorkeepers.

The Roseneath branch of the Women's Institute was organized in January, 1907, but owing to inconvenience of making a celebration during the winter time, the event was discussed on Thursday and on motion of Mrs. Delbert Brisbin, seconded by Mrs. Sandercock, that the Women's Institute of Roseneath will celebrate its silver jubilee on Thursday, June 23rd, carried.

Mrs. Davey introduced the matter of sending old materials to make blankets, which was talked over and left to deal with later.

The program was as follows: instrumental solo by Mrs. Barton Thackeray. An interesting paper was read by Mrs. C. W. Varcoe entitled, "Resistance" followed by Mrs. George Mouncey who had an excellent list of current events for the past six months.

Two contests enlivened the gathering, one a music contest by Miss Doris Mouncey and the other "a wise farmer" put on by Mrs. M. D. Brown, both were brain twisters and very much enjoyed.

A hearty vote of thanks was tendered the hostess and the meeting closed by singing the National Anthem.

Afternoon tea was served by the hostess, assisted by Miss Jennie Covert and other members.

The annual meeting will be held on May 5th, at the home of Mrs. W. H. Covert in the village.

ANOTHER NEW LINE EXPECTS BIG YEAR

Makers of Electric Refrigerators Look for Large Sales.

"Manufacturers of electric refriegrators in Canada are expecting 1932 to be the biggest year in their history" declared J. M. McIntosh, secretary of the Electric Refrigeration Section of the Canadian Manufacturers' Association, in an interview to-day.

"Never before" went on Mr. McIntosh, "have the prices of electric refrigerators been so low or terms so convenient. Everywhere people are learning of the thrift, health and convenience which an electic refrigerator brings and are discovering that the exceptionally low power rates for this type of household equipment make it extremely inexpensive to operate."

Mr. McIntosh drew a comparison between the electric refrigerator situation in the United States and in Canada.

"In 1931," he stated, "approximately one million electric refrigerators were purchased in the United States. Taking into consideration the number of wired homes in each country, Canadians should have purchased some seventy-five thousand. Actually, less than thirty thousand were purchased."

"Bearing in mind the low power rates available in Canada, it is reasonable to expect that sales of electric refrigerators this year will not only exceed those of last year but will surpass them by a very large percentage indeed."

According to Mr. McIntosh the manufacturers of electric refrigerators, in co-operation with distributors of electric power, are sponsoring an advertising campaign on behalf of electric refrigeration this spring.

"This campaign," Mr. McIntosh said, "is already under way and will appear in a large number of Canadian newspapers in various parts of the Dominion."

Mr. McIntosh urged dealers in electric refrigerators everywhere to familiarize themselves with this campaign and to support it with local advertising and sales efforts to the limit.

"The optimism and confidence displayed by the electric refrigerator manufacturers is very gratifying. The Electric Refrigeration industry is one which promises to become a very important factor in the return of a full measure of prosperity to Canada."

Presentation Made To Rev. W. L. Wright

TWEED, April 11 (Examiner Correspondence)—At the home of Mr. and Mrs. W. L. Ketcheson, a number of friends of Rev. W. I. Wright gathered recently to bid the rector of St. James' Church farewell, previous to his departure for Hamilton. After a pleasant evening of bridge and a delightful lunch, L. D. Corcoran on behalf of his friends, presented Mr. Wright with a beautiful smoking set. Mr. Corcoran remarked on Mr. Wright's numerous activities since coming to Tweed and spoke of the general regret at his departure. He expressed to him best wishes for success in his new post at Hamilton. The recipient while taken entirely by surprise, made a fitting reply to the presentation and said he was reluctant to leave Tweed.

Another feature of the evening was the presentation of a gift to W. L. Ketcheson, who recently celebrated a birthday. C. D. Wilson on behalf of the assembled guests, extended best wishes to Mr. Ketcheson. The evening was brought to a close with dancing. The guests expressed their thanks to Mr. and Mrs. Kethceson for their hospitality.

Work On Highway To Be Completed

TWEED, April 11.—(Examiner Corespondence). — R. M. Smith, deputy minister of highways, stated that the department is proceeding to have work completed on six miles of the Actinolite-Perth road, where the contracting company failed financially. The bonding company will be called upon to complete the work. This contract was let to the York Construction Company and was for about $75,000. About 175 men had been employed in work. Under the terms of the contract, which was let as a relief project, the bonding company is called upon to complete the work, where the contractor fails. Men employed at the work and the government are protected by provisions of the bond taken from the contractor.

VACUUM CLEANER POWERFUL MODEL

General Electric Vacuum Cleaner Does Work Easy and Thorough.

The General Electric Vacuum Cleaner has every feature that makes for thorough and easy cleaning — powerful suction that whisks up the deepest dirt; careful design that saves the housewife physical effort; and light but rugged mechanism that needs no attention.

The De Luxe Model cleaner is is an extra powerful model with a tremendous suction and is an outstanding value of the day. Then there is the Handy Cleaner Model, which does the little jobs and does them well. It gets into corners, and down into crevices. It weighs only 3¾ pounds and is exceptionally easy to handly. The Junior Model is a light, compact cleaner with powerful suction and cleaner strength, and weighs little more than a flat-iron. It is a great little appliance for apartments and small homes.

Important features of these models are the General Electric motor which requires no oil, the all-steel fan, the handle lock, the rubber protected brush, and the easy-to-empty bag. The comfortable pistol-grip handle with switch located within easy reach of the fingers, is another point of superiority.

FOURTH LINE, TWEED

Mr. and Mrs. Adolph Burgoyne of Belleville attended the funeral of the late Murney Ervine on Wednesday.

Miss Irene Masterson spent the week-end with her friend, Miss Reta Cassidy.

Miss Leona Masterson is spending a few days with her sister, Mrs. Frances Masterson.

PLAN TO LIBERATE PHILIPPINES CREATES STIR IN UNITED STATES

Strategists Look on Islands as Embarassment Rather Than Asset.

SENATE OPPOSES BILL.

(By Ken Clark, C.P. Staff Writer.)

WASHINGTON, April 7. — The United States is getting itself mildly worked up over the prospect of liberating some 7,000 islands in the Pacific, whereon live 12,000,000 Filipinos. As the bill to liberate the Philippines in eight years goes to the Senate, however, there are doubts it will get through that chamber and even if it does, it will probably be vetoed by President Hoover.

Independence for the Phillipines has been mooted for years. The Filipinos themselves, divided into 43 ethnic groups and speaking 87 different languages have been united in their desire for independence. They rebelled against the Spanish, and after Admiral Dewey had taken Manilla and the islands had been annexed to the United States, they again revolted. Two years of bloody fighting closed the century.

The average American thinks of the Philippines as a small group of islands somewhere in the vicinity of Japan which are important to the United States as a strategic outpost. As a matter of fact American strategists are inclined to think of possession of the islands as an embarassment rather than an asset. In the case of a Pacific war Theodore Roosevelt and others have considered the Philippines would be an "Achilles heel" for the United States, most difficult of defense.

The islands are much more important commercially. Annual production is estimated to be worth $2,000,000,000. Special interests in the United States, sugar and oil producers, have always regarded the free entry of those products from the Philippines as unfair competition and they are eager to get rid of them so that a tariff may be applicable. Another reason is that control of immigration would be possible.

The independence bill, preently before the Senate, provides for independence within eight years, a quota for products of the islands —incidentally larger than the 1931 —imports—and limitation of immigration to 50 annually.

THE MARKETS

WINNIPEG GRAIN.

WINNIPEG, April 11.— Influenced by strength at Liverpool and substantial investment buying, attributed to the bullish crop report issued by the United States Government on Saturday, grain prices executed a smart about-face, and closed 1⅝c to 1⅞c higher in Saturday's short session.

May and July each closed 1⅝c higher at 62¼c and 64¼c, respectively, while October gained 1⅜c to 1⅞c at 63⅜c to 66⅛c.

The Crop Report.

Bullish nature of the United States Government crop report, which predicted a decrease of nearly 300,000,000 bushels in this year's crop, compared with that harvested last year, proved the main factor for the advance.

The market was quite active from opening to closing bell. Exporters reported that everything offered overnight had been taken. Liverpool was affected by the crop news, and closed ⅝d to ¾d higher per 100 pounds.

In the cash wheat section No. 1 hard improved ⅛c, while No. 5 wheat gained 1c. Trading in coarse grains was light and uninteresting.

Futures:

Wheat—	Open	High	Low	Close	Prev Close
May	.62⅝	.63½	.61¾	.62¼	.60⅝
July	.64⅛	.64⅝	.63⅜	.64¼	.62½
Oct.	.66⅜	.66⅞	.65⅞	.66⅜	.64⅝
Oats—					
May	.31½	.31⅝	.31¼	.31½	.31¼
July	.31⅞	.32	.31⅝	.32	.31⅜
Oct.	.33	....	....	.33	....

CHICAGO GRAIN.

CHICAGO, April 11. — In a skyrocket flight wheat on Saturday whirled upward 3½c a bushel, with corn following fast.

An astonishing official announcement that the United States winter wheat crop this season had been impaired 319,000,000 as against the 1931 harvest led to a buying stampede. Further enlargement of the giant crop loss estimate appeared probable, inasmuch as severely adverse drought conditions have prevailed since the data was gathered on which the Government report depended.

Corn Also Rallies.

Owing to big selling to realize profits on rise of values, top quotations were not fully maintained, and wheat closed nervous 2¼c to 2⅝c above Friday's finish, corn 1⅛c to 1c up, oats ¼c to ⅝c advanced, and provisions unchanged to a rise of 5c.

American automobiles imported into France last year totaled 575.

Soviet Russia has been buying many railroad cars in Latvia.

A British film quota is expected in British Columbia.

Prices of "baby" cars in England are dropping.

Of 135 carpet enterprises in Greece 122 are now in operation.

China imported 38 aircraft from the United States last year.

City traffic officials of Tokyo, Japan, are trying to find a way to decrease the great number of collisions between bicycles and automobiles.

A small collection of silhouettes by Field Miers, and other eighteenth-century exponents of this minor art, were sold in London recently for $52.

East Emily

The Orange Lodge No. 294 of Bethel held a social in the Orange Hall on Wednesday evening, April 6. E. Mitchell of Lindsay, Past Grand Master of Ontario East, made a very capable chairman, and gave a very appropriate address.

Musical selection, Harrison Bros. and Mrs. J. McCarrell; solo, Mrs. H. McCarrell; recitation, Rev. Mr. Blanchard; instrumental duet, Misses Gladys Smith and Lorraine Best; solo, Mrs. Harry McCarrell, monologue, Miss Doris Harrison; quartette, Harrison Bros.; skit, "The Spark of Life"; recitation, Rev. Mr. Blanchard; duet, Misses Smith and Best; quartette, Harrison Bros.

After this part of the program, the ladies served a bountiful lunch of sandwiches, cake, tarts, and coffee. Proceeds amounted to about $17.50.

Mrs. Arthur McEwain was a visitor to Peterborough on Saturday.

Mr. Cecil Casey attended the funeral of his uncle, the late Mr. Charles Richards in Millbrook on Friday.

Mr. J. Doube of Omemee spent this week visiting with Mr. Robert Casey.

Obituary

MRS. RICHARD FOX.

DOWNEYVILLE, April 11.—(Examiner Correspondence).—The funeral of the late Mrs. Richard Fox was held from her residence, 'Fox's Corners,' Thursday morning at 10 o'clock where requiem mass was celebrated in St. Luke's church by Rev. Father Galvin, who also preached the funeral sermon and spoke of the noble qualities of the deceased as a wife, mother and neighbor, her faithful attendance at church until the last.

The late Mrs. Fox, whose maiden name was Mary Ann Richardson, was 79 years of age, was born here and lived here all her life. She was married in St. Luke's church 57 years ago.

She is survived by two daughters, Mrs. James Callahan of Detroit, Mich., Mrs. John O'Neill of Emily, and two sons, Michael of Lindsay and John of Emily, one brother, William Richardson, of Lindsay.

After the mass the cortege proceeded to St. Luke's cemetery for interment. The prayers at the grave were said by Rev. Father Galvin. The pallbearers were Messrs. Michael D. Harrington, Daniel Costello, Thos. Lucas, John Fox, John McLaughlin of Emily, and Bernard Murray of Lindsay.

Among those from a distance to attend the funeral were Mr. and Mrs. Patrick Clancy and Miss Helen O'Neill of Oshawa, Mr. and Mrs. Michael Fox, Mr. and Mrs. William Fox, Mr. and Mrs. John Whalen, Mr. and Mrs. James Callahan from Lindsay, Mrs. M. E. Huard and daughter from Peterborough, Mrs. James Callahan from Detroit, Mr. and Mrs. Jos. Smith, Mr. and Mrs. J. McGahey and Mr. and Mrs. Alan Kennedy from Dunsford.

HER STOMACH COULD NOT DIGEST MEAT

"I had gas bloating and indigestion so bad I could not digest meat. I took Adlerika and now I am alright. Can even eat and digest pork."—Nora Jones.

You can get rid of indigestion or gas by just doctoring the stomach. For usually the trouble is in the UPPER bowel. Adlerika reaches BOTH upper and lower bowel, washing out poisons which cause gas, indigestion, bad sleep. Contains no harmful drugs. McDermid & Jury, E. L. Payne, McDermid Drug Co.

LATEST ASTEROID CLOSELY WATCHED

Astronomers Hope to Compute More Closely Distance of Sun From Earth.

PASADENA, Cal., April 7. (C.P.) Astronomers at Mount Wilson Observatory and others in this country and Europe are keeping a close watch on Delporte's "object" an asteroid or comet discovered recently by an astronomer at the University of Brussels.

"Our observations of it have disclosed no tail and seemingly only reflected light" said Dr. Frederick H. Seares, indicating it is an asteroid and one much closer to the earth than any yet found."

He is assistant director of the local observatory, a branch of the Carnegie Institution of Washington.

"Discovery of an asteroid nearer the earth," Dr. Seares said, "would enable us to obtain a more accurate value of the distance from the earth to the sun, upon which the measurement of distances to all heavenly bodies is based.

"We are much in the position of a surveyor computing the width of a river by 'shooting' at a given point across the stream from two different points on his side of it and determining the angles of the imaginary triangle. The narrower the stream, the more accurate his measurement will be.

"Our computation of 93,000,000 miles as the distance of the sun from the earth is based on the estimate of 13,000,000 miles as the distance from the earth to Eros, the nearest asteroid yet found."

THE CANADIAN DEPARTMENT STORES WILL STAGE A PARADE OF PRACTICAL GARMENTS.

CANADIAN DEPARTMENT STORES LIMITED

TWENTY PUPILS START SCHOOL

Havelock Youngsters Take Big Step in Life—Join Kindergarten.

CHAUTAUQUA RETURNING.

HAVELOCK, April 11 (Examiner Correspondence). — With scribbler and pencil held tightly in chubby hands, twenty Havelock youngsters entered on their school career at the local Public School, during the past week. For many of them it was their first glimpse of the inside of a school room. To many more it was known as a place where accompanied by an older sister or brother, they had gone to spend an afternoon while mother was away, or when a school Christmas entertainment was being held. To all of them it is now a place where they are to learn the law of give and take, and to play fair with their fellows, or take the consequences. Following are the newly enrolled scholars: Allan Bannon, Russell Brown, Phyllis Cross, Marion Forsythe, Gale Fraser, Donald Green, Doris Green, Floyd Hamilton, Marion Isaacs, Doris Ketchen, Verna McGowan, Jean Paige, Ruth Peters, Trevor Pollock, Charles Rupert, Dorothea Scott, Wilma Seeney, Roy Spencer, Helen Yeo, Ralph Young.

Miss Adeline Howard is the teacher of the Kindergarten Class.

Chautauqua.

Once again, for a third time, the people of this district who appreciate high-class entertainment will be brought a varied bill by the presentations of the Canadian Chautauquas, to be brought here on May 14, 16 17, 18. Some of the fifty guarantors who are responsible for its coming have received letters outlining a few of the rare treats that are in store.

That famous Hawaiian Company which appeared on the big Five Day Circuit in 1930 will appear in the Spring Circuit. Dr. Elwood I. Bailey, eminent lecturer, will be here with his message "All Aboard" which was so enthusiastically received in both the East and West recently. For the musicians and lovers of better music there will be a real treat in Hugo Brandt, noted Polish pianist and entertainer. The kiddies have not been forgotten, and will have a chance to see the Marionette Company, that so delighted and entertained the children in some of the larger cities of this province, last summer. The Peerless players will stage "Bought and Paid For," a strong drama with clever comedy bits running throughout.

The Havlon Players will bring "Old Crusty Takes the Air," a comedy that is a comedy, in every sense of the word. This is a true and tried program, every number has appeared on one of the big summer circuits either in the East or West. With the coming later this year, and more interested in the financial end of te showing, it is likely to go over bigger than ever before, in spite of the depression.

At Knox Church.

Knox Church W.M.S. will sponsor a lecture and special entertainment to be held in the church Sunday School Room on Monday evening, April 25. This is the regular meeting date of the Christian Endeavor, but they have kindly given over the evening for the entertainment. Mr. Will Platt will give the lecture on Palestine, and besides this there will be vocal and instrumental numbers, as well as a dialogue, "Aunt Elizabeth's Missionary Tea," by three members of the society. This is expected to be a very interesting event, as the travelogue given by Mr. Fred Platt, a brother of Mr. William Platt, was most illuminating, and greatly enjoyed by all present.

Knox Church News.

Rev. Mr. Beeton, of Riverfield, Quebec, who has formally accepted a call to Knox Church here, is expected to arrive some time during the latter part of April. The Session is awaiting advice from the Clerk of Presbytery, Rev. Dr. Thomson of Hastings, as to the exact date of the induction services. The date of the induction services must be announced from the pulpit on two consecutive Sundays previous to the services.

On Thursday evening, April 28, the Christian Endeavor will hold the regular meeting, which was changed on account of the lecture and entertainment being held on the date of their regular meeting.

Junior Institute.

Havelock Junior Institute and Agricultural Society entertained on Wednesday evening last at progressive euchre, in th eOrange Hall, when twenty tables were played. Twelve games were played and the prize for the highest score was won by Miss Lena Buchanan and Mr Howard Baxter. Consolation prizes were awarded to Miss Lillian Patterson and Mr. Harry Anderson. A dainty lunch was afterwards served by the members, and a short period of round and square dancing enjoyed. These euchres sponsored by the young people have become very popular, and always attract a large number of young and old, who declare they have a most enjoyable time as guests of the joint societies.

Progressive Euchre.

Mrs. P. H. Johnston was a charming hostess on Wednesday evening last, when she entertained a number of her lady friends at Progressive euchre, in the Orange Hall, ed the prize for highest score being won by Mrs. Clarence Hubie. A consolation trophy was awarded to Mrs. Alf. Spencer. Dainty refreshments were afterwards served, the hostess being assisted by her daughter, Miss Allie Johnston.

Miss Chick Cooper of New York, in Budapest, Hungary, with the large vase of flowers made of silver which she recently won during a fashion contest held in the Hungarian capital.

HAVELOCK SOCIAL DATE IS CHANGED

Havelock Presbyterian Church Society Holds Meeting at Home of Russell Green.

TRENT RIVER, April 11.—(Examiner Correspondence).—The regular meeting of Knox Presbyterian Church, Havelock, was held at the home of Mrs. Russel Green on Wednesday evening, April 6.

In order that the auxiliary be represented at the annual meeting of the Ontario provincial society, W.M.S., to be held in St. Paul's Church, Peterborough, on April 19 to 21, the date of the social evening was changed from Wednesday, April 20, to Monday, April 25. A splendid program will be given, the main feature, a lecture on Palestine, to be given by Mr. William Platt; also an amusing dialogue, entitled "Aunt Elizabeth's Missionary Tea," and a vocal chorus, entitled "Musical Asters."

In accordance with a request from the Presbyterian "Home Helpers" secretary to organize this department of the work, Mrs. R. A. Buchanan was elected "Home Helpers" secretary for the local auxiliary.

A very interesting portion from the new Study Book, "The Tide of Opportunity," was read by Mrs. W. Martin. Mrs. J. Kinnaird also gave a talk on the power of Christianity in the home life.

On the kind invitation from Mrs. Kinnaird, the society will hold their next meeting on the first Wednesday in May at the Mission Hall, Mrs. T. C. Jamieson and Mrs. R. A. Buchanan to be hostesses.

The meetinvg closed with hymn, "Blest Be the Tie That Binds," and closed with prayer led by Rev. Hugh Brown.

Mrs. John Armstrong left Sunday for Chapleau to visit her daughter, Mrs. (Dr.) R. J. Gawley.

Special Children's Service.

There was a splendid attendance at the Sunday School at the United Church Sunday afternoon, there being 98 in attendance. Instead of the usual service after the Sunday School, the children were invited to occupy the centre pews, with Rev. S. A. Kemp in charge of the service.

The sermon text, "Remember now thy Creator in the days of thy youth." The pastor showed beautifully colored pictures illustrating "The Journey of Life" and experiences along the route in eleven phases.

On Tuesday evening there will be a meeting of all the officers and teachers of the Sunday School at the United Church for important business.

At a recent meeting of the Board of Managers of the United Church two motions were decided upon—one with regard to dispensing with Sunday funerals when they occasion to disrupt, the usual services; also that the congregation will hereafter be given an official financial report quarterly.

Mr. H. B. Wood, secretary-treasurer, gave the first quarterly report at the service Sunday afternoon.

The meeting for Friday night at the league will be under the supervision of the social department. refreshments will be served.

Mr. and Mrs. Herbert Rose, Miss Ethel and Mr. Ed. Bird arrived Saturday from Toronto at "Ye Olde Mill." Mr. Bird left Monday for the city, while Mr. and Mrs. Rose and Miss Ethel remain till Wednesday.

Norwood

The 40th Northumberland chapter of the I.O.D.E. held a very successful bridge and euchre party at the home of Mrs. E. P. Ouffe on Thursday afternoon. A very nice sum of money was realized for work in the town. The high prize in bridge was won by Mrs. Everett Birdsall and the high euchre was scored by Mrs. Leonard Sedgwick, while the lucky number prize went to a lady from Havelock.

The April meeting of the Women's Missionary Society of the United Church was held at the home of Mrs. T. McConnell on Wednesday afternoon with a splendid attendance of members present. Mrs. R. F. Stillman, the president, took charge of the devotional part of the meeting. The secretary Mrs. Brethen then gave the report showing that the year's work was going along well. Mrs. Harvey Lobb, convenor of the April group then took charge of the remainder of the meeting, opening with prayer, followed by Mrs. W. H. Cuthbertson reading the scripture lesson. Mrs. H. Keefer gave an interesting reading from the Missonary Monthly on Korea. Mrs. Charles Renaud rendered a solo entitled "The Valley of Shadow." Mrs. Robert Leeper took charge of the chapter from the study book dealing with "Korea Schools." Mrs. H. Lobb read a very interesting paper on Africa, then closing with the hymn, "Breathe on Me Breath of God" and repeating the mispah benediction. Lunch was then served by the group and a hearty vote of thanks was tendered the hostess for her kind hospitality.

The Ladies' Aid of St. Andrew's Presbyterian Church are holding an afternoon tea and sale of homemade cooking in the Public Library basement on Saturday.

Mr. and Mrs. T. Cardwell of Westwood were visitors at the home of Mr. and Mrs. B. Scott on Thursday.

Mrs. B. Scott of Toronto is at the home of Mr. and Mrs. E. C. Squire.

Mrs. J. E. Voyce and little daughter Lois of Toronto were recent visitors with Mrs. Voyce's parents, Mr. and Mrs. S. Wildman.

Mrs. J. Harrison and daughter Patricia of Copper Cliff were recent visitors at the home of Mr. and Mrs. T. Lumsden.

Mrs. Mogenham and Mrs. Foley of Rochester were in Norwood this week attending the funeral of their father, the late Mr. J. McNichol.

Mrs. F. Howard and daughter Lois of Smith's Falls have returned from visiting her parents, Mr. and Mrs. R. Beamish.

The Misses Rhoda and Beatrice Blackwell also Mr. Fred Blackwell of Brockville were recent visitors with their grandmother, Mrs. John Baskin.

Mrs. Fred Richardson and daughter Miss Margaret of Lakefield visited relatives here recently.

Mr. and Mrs. Pat Maloney of Toronto visited the latter's parents, Mr. and Mrs. David Nixon.

Mr. and Mrs. S. Wildman, Miss Ariel and Mr. Willon of Peterborough visited relatives here recently.

Mr. John McLaughlin of Toronto attended the funeral of the late Mr. J. McNichol on Tuesday.

The many friends here of Rev George A. MacLennan, B.A., a former pastor of St. Andrew's Presbyterian Church shall be pleased to hear that he has received the degree of Doctor of Divinity, conferred upon by the Presbyterian College in Montreal.

Among those from a distance who attended the funeral of the late Mr. James McNicholl were Mr. Herman McNicholl, of Buffalo; Misses Annie and Ella McNicholl of Toronto; Mr. A. J. Brady, Toronto; Mrs. Matthews, Toronto; Miss Regina McNicholl and Mr. T. Bennett, Toronto and Mr. and Mrs. W. J. Grady and daughter, Miss Mary of Toronto.

Trent River

A special meeting of ratepayers of S. S. No. 10 was held Friday afternoon at the school-house.

The April meeting of the Women's Institute will be held Thursday afternoon at the home of Mrs. A. Wight, "Cedar Isle."

A play, entitled "The Littlest Bridesmaid," is under rehearsal and is to be given Friday night, April 29, under the auspices of the A. Y. P. A. of St. John's Church parish, Havelock, to be held in the Town Hall.

Mr. H. J. Bush, Havelock, was a week-end visitor with friends at Lindsay.

Miss Phyllis Bush, Havelock, has returned from spending a week with her friend, Miss Ruth Dickerson, at Lindsay.

Mrs. H. Aunger and son, Kenneth, of Ottawa, were recent visitors with Mrs. W. E. Anderson, Marmora road.

Miss Mary Davies, of Havelock, has returned from spending a week with Miss Marjorie Pincombe at Port McNichol.

Miss Audrey Harriet, of Frankford, was a recent visitor with Mrs. Harry Scott at the Quarry.

Those attending the quilting and afternoon tea held at St. John's Church Thursday afternoon were: Mrs. W. E. Anderson, Mrs. H Davies, Mrs. Ed Williams, Mrs. T. Cumming, Mrs. F. Watson, Mrs (Rev.) Worrell, Mrs. Douglas Hutchinson, Mrs. Harry J. Bush, Mrs. W. J. Fraser, of Havelock, and Mrs. James Cook and Miss B. French, of Trent River.

Mrs. W. E. Anderson, who resides east of Havelock on the Marmora road, has in her possession a rare brass coin, the size of a small five-cent piece. On one side is engraved the "Lord's Prayer" in full.

Mrs. George Brooks has returned from Hastings after spending a week with relatives.

Mrs. H. Ridley Wood celebrated a birthday anniversary Monday, April 4.

Mr. Albert Hazell, of Campbellford, resumed vocal lessons at the Public School Wednesday.

A special meeting for parents and those interested will be held Friday afternoon at the Public School. The postponed debate will also be held the same afternoon.

Mrs. M. Greenley and grandson, Kenneth, of Campbellford, were Thursday visitors with Mr. and Mrs. James Cook.

Mr. James Paget arrived Thursday to spend the summer at his residence, "Cedar Lodge," after the winter months in Campbellford with Mr. and Mrs. M. Greenley.

Roslin

The regular meeting of the Women's Association of the United Church was held at the home of Miss Margaret Burleigh on Wednesday afternoon.

In the absence of the organist, Mrs. Charles Bailey, Miss Blanche Reid was chosen as organist for the day. Hymn, "Blest Be the Tie That Binds," was sung, after which Rev. Mr. Platt led in prayer. The Scripture lesson was read by Mrs. Horace Palmer. A social evening was planned to be held in the near future. A dainty lunch was served by Miss Burleigh.

Rev. E. N. and Mrs. Grant, Miss Agnes Grant and Mr. and Mrs. John Johnston motored to Kingston last week and attended the service of consecration for Bishop Lyons.

Mr. and Mrs. Russell Morgan and son Raymond visited friends in Actinolite on Sunday.

Miss Marion Harrison spent last week with her grandparents, Mr. and Mrs. Albert Beatty, of Tweed.

Mrs. James Martin and daughter have returned to their home in Toronto after spending a few weeks with Mr. and Mrs. William White.

Miss Blanche Reid visited her sister, Mrs. Frederick Coulter, recently.

Mr. and Mrs. Chauncey Sills spent one evening last week with Mrs. Minnit Chisholm.

Mrs. William Gillespie spent Wednesday with Mrs. Alice Clapsaddle.

The Misses Miller, of Corbyville, spent Easter week at the home of Mr. David Miller.

Mrs. Walter Harrison and Mrs. Laura Prentice, of Thomasburg, spent Wednesday with Mrs. Grantley Burleigh.

ROSENEATH.

Mrs. Harold George is in Warkworth, with her mother, Mrs. Greenley.

Mrs. Doris McDonald, of Cobourg, who has been with her sister, Mrs. Leslie Sherwin, left recently for Toronto.

The dwelling of Mrs. William Houghtailing caught fire on Thursday afternoon, but owing to the death of her husband on the same afternoon, a number of men being present soon distinguished the fire before it made headway, although a part of the roof was badly burned.

Mrs. Annie Lapp visited her friend, Mrs. Frank Blake, of Campbellford, on Thursday.

SULPHIDE

The Y.P.S. of Sulphide met on Tuesday evening. The topic, "The Union Jack," was given by Miss Marjory Varty; readings were given by Miss G. McNaughton and Mrs. Baldwin and a duet by Mrs. G. H. Cotton and Mrs. F. Baldwin. The blues captured the contest.

Mr. and Mrs. E. W. Gartley and son Ted, of Belleville visited Mr. Wilmot Clare of Gilead over the week-end.

Mr. and Mrs. C. Huffman and family of Gilead spent the week-end with the latter's father, Mr. Frank Casey.

Mr. Rene Bastine of Tweed visited his sister, Miss Susan Auger, who is employed at Mr. Yanch's on Thursday at Flinton.

Miss Susan Augier spent the week-end with Mrs. A. E. Fletcher at Northbrooke.

Miss Eva Wood of Flinton spent the week-end with Mrs. Joseph Yanch also of the same village.

Motion picture theatres in England may again have large orchestras.

The seventh and last meeting for this season of the Dramatic Club of the Lyceum Women's Art Association was held at the home of Mrs. W. Blackwell, Benson Avenue, when the reading of Nicholas Nickleby was concluded by the members, who have studied the works of Charles Dickens this winter. The club is planning to hold a high tea, open to members of the Art Association, at Walkergfield House on April 29.

* * *

The Women's Auxiliary of St. Luke's Church held a very successful tea and sale of surprise boxes in the handsome showrooms of Comstock Brothers, George Street. The table was attractively done with a lace and silver service pink candles in silver holders and pink tulips as a centrepiece. The guests were received by the honorary president, Mrs. G. J. Bousfield, and the president. Mrs. T. Moore. Tea was poured by Mrs. T. H. Adams, assisted by Mrs. W. Davies and Mrs. Alexander Butcher. Mrs. H. Butcher, Mrs. Charles Butcher, and Mrs. Lawless had charge of refreshments, and Mrs. J. Mackin acted as treasurer. The table of surprise boxes was in charge of Mrs. John Scott, Mrs. Jamieson, and Mrs. Diamond, while Mrs. W. Thompson looked after the sale of home-made cooking. Mrs. Fred Milliken and Mrs. J. J. Turner were joint convenors.

* * *

Mrs. D. Walker, Miss Emma Morrow, and Mr. W. G. Morrow returned home on Saturday after spending the past two months at Pasadena, California.

FASHION SERVICE

Importance of the jacket dress can't be overestimated.

And here's quite a darling. The brief bolero may be made with short or long sleeves, just as you please about it. For warmer weather wear, you'll probably choose the former.

The dress made with dropped shoulders gives the effect of tiny cap sleeves. The skirt is widened through inverted plaits at either side.

It's adorably smart in cadet-blue checked wool crepe. The plain crepe tones with the checked crepe.

Printed crepe silk with plain crepe jacket is exceedingly wearable.

Style No. 2769 is designed for sizes 14, 16, 18, 20 years, 36, 38 and 40 inches bust.

For summer, it's sportive in white crinkle or flat crepe with the jacket bow tie of marine blue crepe.

Size 16 requires 2¼ yards 39-inch material, with 1 yard 35-inch contrasting.

Our new Spring Fashion Magazine is out! Every page from cover to cover is in color.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred). Price of book, 15 cents. Price of pattern, 15 cents.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

NOW IS THE TIME to make ready for the summer vacation — whether it be a trip abroad or a sojourn in the country.

* * * * * * *

There are two important matters to think about early. One is the luggage and the other is the contents of it.

* * * * * * *

And to-day, let us consider some of the luggage, especially a smart travelling bag a woman can make, and also covers for hand luggage.

* * * * * * *

The first is the rolleau or zipper bag, as it is called, when bought in leather or fabric, or which can be made of linen, duck or some waterproof material by any woman, even though her aptitude for sewing is slight.

* * * * * * *

Linen or duck can be natural color or in any tone to correspond with luggage. The stitchery on it can be in any preferred contrasting fast color. A new idea, too, is to line the bags with waterproof material. This can be separate from the outer decorative bag and can be removable when the bag itself is laundered.

* * * * * * *

Sew snaps along the opening of the bag and lining, and snap the two together.

* * * * * * *

One of the features of these tubular bags is that they can be folded and tucked away in a very small space when starting off and be ready at a moment's notice for articles collected during travels.

* * * * * * *

Or they may be devoted all the time to shoes and rubbers, those articles which are so difficult to pack and so essential to have for changes.

* * * * * * *

Covers for handsome luggage can be made by the woman who is deft with her needle. These cost a good deal to buy.

* * * * * * *

They are so fine as a protection that they are held in high favor. Incidentally, if one's bag or suit case is shabby, one of these covers hides a multitude of spots and scratches and seems to be protecting a costly bit of luggage instead of concealing a worn piece.

* * * * * * *

Cut a pattern of whatever piece of hand luggage is to be covered. French seam the portions together or bind them with strips of kind. Where the bag opens the cover must also open.

* * * * * * *

It is wise to have a small flap on the waterproof cover to slip under the outer opening so no moisture can penetrate through the crevice.

* * * * * * *

The cover must fit snugly and also neatly around the handles. The amateur does well to make a trial cover first, using old material or very cheap new stuff, for then she will be able to make alterations in the cover itself should they be required.

That Body of Yours

By James W. Barton, M.D.

A LARGE WEIGHT REDUCING CLINIC.

That only one in every ten overweight individuals owe their overweight condition to some gland disturbance is the report of Drs. D. M. Dunlop, and M. M. Lyon as a result of their investigation and treatment of 523 cases of overweight persons.

They state that in some other cases the glands are partly to blame.

They believe that heredity is an important factor in that about 70 per cent, seven out of every 10, had overweight fathers and mothers.

The most important mistake made by overweight persons is the excessive amount of starchy food eaten—sugar, bread, potatoes—45 per cent of the patients had been excessive starch (carbohydrate) eaters.

Contrary to expectation, almost 60 per cent of the patients claimed to be of an excitable disposition.

The report shows that there was a greater amount of gall-stone cases among the overweight individuals than in those of normal weight. I believe this can be partly attributed to the fact that these individuals as they put on weight become less inclined to move about or take exercise with the result that the liver circulation becomes sluggish, and the bile in the gall-bladder is not emptied out as often as is necessary to prevent stone formation.

The results of the treatment showed an average loss of weight of nearly two pounds per week by simply reducing the food intake, particularly the starches.

They found that where the individuals had been overweight for years, they were able to reduce their weight quite as well as some who had but recently acquired the extra weight.

In no cases did they use the thyroid extract alone, but used it in the special gland cases, together with a reduction in the food intake.

Constipation occurred in many of the cases during the reduction of the weight, and this had to be corrected by using more rough foods.

On discontinuing treatment there is a tendency for the weight to be slowly regained. This can be avoided by cutting down just a little on special articles of food such as bread, potatoes, and liquids.

The thought here is that despite the tendency to overweight inherited from parents, despite the fact that the glands were the cause in some cases, and despite the fact that the individual had been overweight for many years, the weight could be reduced in all these cases by simply reducing the food intake.

CULBERTSON on CONTRACT

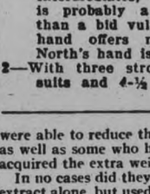
by Ely Culbertson

World's Champion Player and Greatest Card Analyst

149

DANGER, BEWARE!

Those who have read my views on Bridge are well aware that I always prefer opening with a suit bid when the hand contains a possible sound suit bid. The primary reason for this purpose is that through these Approach bids suit distributions can be felt out and the best declaration decided upon through the exchange of information between partners. Of course, there are many hands containing sufficient honor strength to justify an Opening bid which do not contain a biddable trump suit and in such cases an Opening notrump bid is made as a choice of evils. The other choice would be to pass, which with the requisite honor-trick strength ordinarily would mislead partner and prove a losing course. However, Opening bids of notrump, especially when vulnerable, should be carefully considered, taking into consideration the possibility that partner's hand may be trickless. In such cases, as an original notrump bid implies the lack of a biddable suit, the losses may be more severe, even if not doubled. If doubled and the remaining honor strength is massed against the bidder, the losses are quite apt to be staggering.



Today's hand is a case in point.

Both sides vulnerable.
South—Dealer.

	♠ 10 9 8 ♡ 6 5 3 ◇ 5 4 3 2 ♣ J 9 8	
♠ K Q J 4 ♡ A Q 10 4 ◇ K Q J 10 ♣ 2	N W E S	♠ 7 5 2 ♡ 9 8 7 ◇ 8 ♣ A K Q 7 6 5
	♠ A 6 3 ♡ K J 2 ◇ A 9 7 6 ♣ 10 4 3	

The Bidding:

(Figures after bids in table refer to numbered explanatory paragraphs.)

South	West	North	East
1NT(1)	Dbl.(2)	Pass	Pass(3)
Pass(4)			

1—Due to the absence of high intermediates, South's hand is probably a better pass than a bid vulnerable. The hand offers no escape if North's hand is a bust.

2—With three strong four-card suits and 4-½ honor-tricks. West's Takeout Double is absolutely sound. His hand is so strong that there is a probability of game or a serious penalty against opponents if they go on.

3—A very fine pass, as East feels sure he can contribute 3 or more tricks, but is quite confident that his holding will not be complemented by club strength in West's hand.

4—South has no escape. The even distribution of his hand makes it unwise to increase the contract as there would seem to be no opportunity to utilize his fourth diamond for ruffing purposes with his distribution.

West opened the diamond King and when, on the second round of it, East discarded the spade deuce, West knew that East's penalty pass of his Double must be based upon strength in clubs. When East showed out of diamonds, South took the trick as there was no purpose in holding off. His hand was hopeless and the best he could expect was to make 3 to 4 tricks with it. He, therefore, led a small spade which was won by West. He would have been well advised to have taken the Ace before relinquishing the lead. West, after cashing his two diamonds, led the deuce of clubs. On East's remaining five clubs West discarded first the Ten of hearts, then his remaining spades and finally the four of hearts, completing the echo. When the clubs were run, East led a heart and West took the remaining tricks.

Thus, South made only 1 trick on his contract to take seven, although, of course, he could have made his spade Ace had he anticipated the extent of the impending disaster.

TODAY'S POINTER

Question: What three variations of hand values must the player learn to estimate?

Answer: (a) Its value at own bid.
(b) Its value in support of partner's bid.
(c) Its value against opponents' bid.

Copyright, 1931, by Ely Culbertson

FIGHT DISCRIMINATION AGAINST WOMEN WORKERS

RICHMOND, Va., April 11.—If business is to remain efficient and sound economically it must be completely "unsexed," says Mrs. Geline McDonald Bowman of Richmond, President of the U.S. Federation of Business and Professional Women's Clubs.

Mrs. Bowman, who is seeking to learn how widespread is the movement to drop women, both married and single, from payrolls, has requested reports from 46 State federations.

She said that in times of emergency jobs should be given to those in urgent need of work, but said her organization is strongly opposed to discrimination against women. If women are to be barred from jobs because they have other means of support, said Mrs. Bowman, wealthy bachelors or married men whose wives have independent incomes, should be treated in the same way."

PRAIRIE FIRE RAGES ON THE SOUTH DOWNS

Glow Visible at Brighton—Twenty Miles Away

Newhaven, Eng.—A "prairie fire" which raged over four miles of countryside on the South Downs in the neighborhood of West Dean, near Newhaven, brought out firemen and police patrols to the rescue of villages which it was feared were endangered by the blaze.

The flames spread with terrifying rapidity over the acres of gorse and other shrubs, which owing to the drought were exceptionally inflammable.

Eastbourne was vividly illuminated by the fire, the glow of which was plainly visible at Brighton, twenty miles away.

The six villages of Alfriston, Lullingstone, Wilmington, East Dean, West Dean and Folkington lay within the area threatened by the fire and precautions were taken to protect outlying farms and cottages.

COULD YOU AT 30 RUN AS FAST AND AS FAR

Not many men at 30 to-day, especially city men, can run five miles straight away, in any time. Yet, on January 28th, 1930, Dr. Robt. G Jackson, at 72, did this in forty-seven minutes, before 6 a.m. It's only a matter of keeping the blood normally alkaline, or non-acid, which he does by eating alkaline Roman Meal, the only alkali-forming grain food, because the only food containing flax-o-lin. Because of a diseased heart twenty-four years ago, Dr. Jackson was given only four months to live. Now he can suspend his body between two chairs, resting on heels and head, with 180 pounds on his abdomen—a great feat at any age, but at 74, marvellous! Write for free booklet, "HOW TO KEEP WELL", and other literature, also sample of Roman Meal and Kofy-sub, the new alkaline beverage to ROBT. G JACKSON M.D., 502 Vine Ave., Toronto 9, Ont.

CHELMSFORD WOMAN GIVES AWAY $400,000

Chelmsford, Eng.—A millionaire's widow here announces that she will distribute £100,000 to deserving causes in the Chelmsford district of Essex.

She is Mrs. Keene of Carlton House, Galleywood, Chelmsford, whose husband, Mr. J. H. Keene, a director of the Pearl Assurance Company, left a fortune of £1,144,201.

Among gifts decided on by Mrs. Keene to give expression to what she knows to have been her husband's wishes are £25,000 for new almshouses in Chelmsford, £20,000 for Chelmsford Cathedral, £3,000 for Chelmsford hospital, £1,000 for Colchester hospital, £10,000 for the Pearl Assurance staff philanthropic fund, and £700 for Christmas gifts for the poor of Galleywood.

Generous gifts are also to be made to Masonic and other institutions.

HEADACHES HEREDITARY

London.—The headaches of the fathers—like their sins—are visited on their sons!

For a headache is the latest thing to be classed as a hereditary trait. A London physician has discovered that the most troublesome form of headache, known as migraine, may be inherited. Known formerly as "megrims," this particular type of affliction has puzzled generations of doctors.

No cure has yet been discovered, nor its origin beyond the fact that it is due to some nervous affliction but the London physician has definitely established that the headache is passed on from generation to generation.

Forty million Germans are said to be living outside Germany.

1,000 FIREMEN FIGHT BLAZE NEAR ST. PAUL'S

Spectacular Scene as They Battle in Glare of Searchlights

London. — A thousand firemen fought a great blaze within thirty-five yards of St. Paul's Cathedral the other night. Crowds, swarming into adjacent streets, watched spellbound while cascades of sparks showered on to surrounding buildings. Brilliant searchlights were flashed through the smoke cloud which streamed from the burning building.

Gas-masked firemen groped their way through the suffocating fumes.

Torrents of water turned Paternoster row into a river.

The fire broke out in the basement of a restaurant at the corner of Paternoster row and Cheapside, and in a short time the flames had spread to the upper part of the building. A district call was circulated and soon fifty fire engines and 1,000 firemen were on the scene. Police were rushed up to control the traffic.

Within ninety minutes the flames were out. Masses of hose were twisted in and out of Paternoster row, many windows were broken, and houses were drenched. Even the cathedral was splashed by the spray from the water-towers.

Federal-owned railways in Austria have built 4,443 homes for employees.

EDDIE KINGDON KILLED IN CRASH

Weston Lacrosse Star is Killed, Two Men and Woman Hurt.

CRASHES INTO GULLY.

Edgar ("Eddie") Thomas Kingdon, aged 40, 73 Coulter street, Weston, well-known lacrosse star, and for several years a member of the Weston senior lacrosse team, was instantly killed shortly after 3 o'clock yesterday morning, while three others were seriously injured and rushed to the Western Hospital, Toronto, as the result of an automobile accident which took place about 300 yards north of Garbutt's Bridge on the Thistledown Road.

According to Chief ("Hap") Holley of Weston, who, along with Constable Watts of Etobicoke, was early on the scene, the party was returning from Thistledown after spending the evening at the home of Kingdon's brother. The car was driven and owned by Thomas McBride, 26, of 17 Price avenue, Toronto, while the other occupants were Fred Moran, 36 Shaftesbury Avenue and Audrey Walters, 30 Cowan Avenue, Toronto. All were crowded into the roadster, the rumble seat being unoccupied at the time.

Car Completely Wrecked.

As the car approached the bridge which spans the Humber river at Garbutt's Hill, it is thought that McBride failed to take the sharp southward turn, and the car, after dislodging the guard rail on the west side of the pavement, plunged into the gulley below, crashing head-on into the trunk of a tree. So terrific was the impact that the front part of the car and the engine was completely battered in, the right side receiving the force of the impact. The bumper was dislodged, whil the axle was broken and driven underneath the body of the car, and the top torn almost completely off.

VOLCANOES KEEP CHILE WORRYING

Citizens Fear Rumblings May Forecast Repetition of Talca Quake.

BLASTS START PANIC.

SANTIAGO, Chile, April 11 (C. P.). — Three active volcanoes kept a large part of Chile on its toes to-day.

Throughout the vast area between Linares in the Province of Maule and San Felipe in the Province of Aconcagua, the attention of the people was fastened on the volcanoes Tingua Ririca in Colchagua Province and Quisapu in Talca Province, while Cordillera, a third volcano on the Argentine side of the border, also was in eruption.

Violent explosions, followed by glaring flashes of fire, kept the inhabitants in a state of alarm, which in some places, such as Talca, Curico, Rancagua, and Quillota, bordered on panic. The people of Curico and Talca were particularly worried because just such a set of circumstances preceded the terrible earthquake at Talca on December 1, 1928.

JAPANESE ROUT REBEL CHINESE

Sharp Engagement in Manchuria Sees Sixty-three Casualties.

TOWN SET AFIRE.

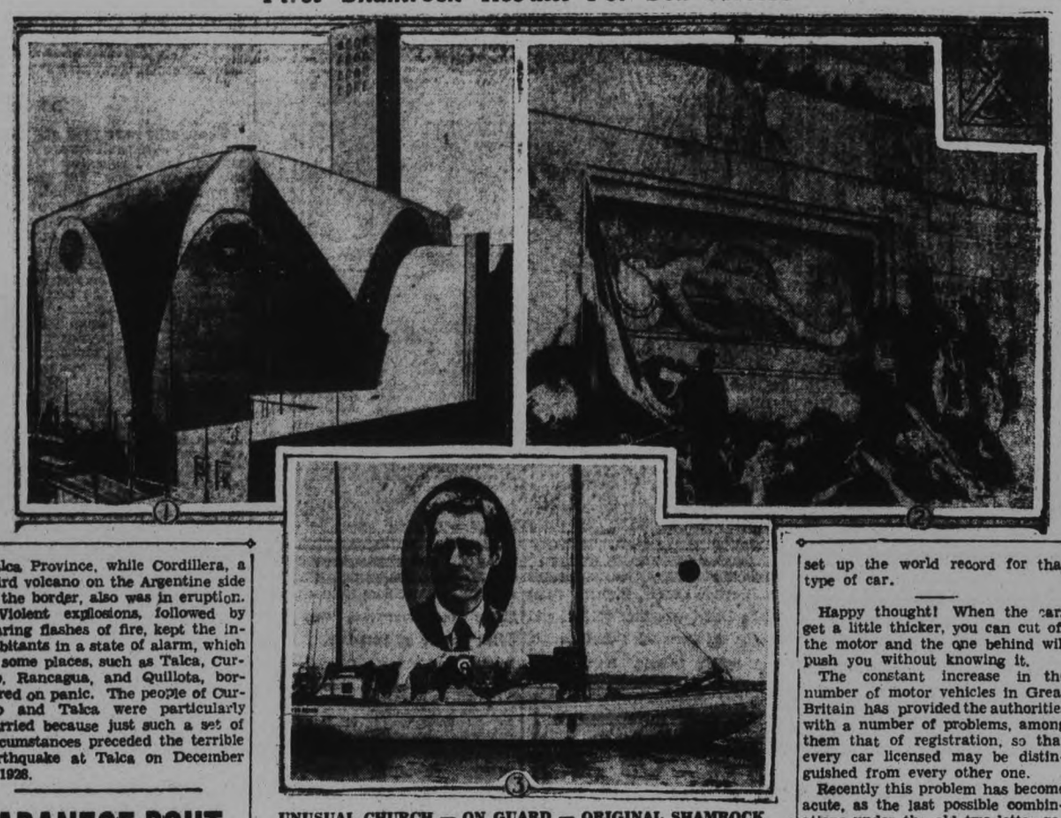
TOKYO, April 11 (A.P.)—The Japanese military expedition at Chientao, Manchuria, occupied the village of Ehrtaokou, west of Paitsaokou, after an engagement with the Chinese rebels in which three Japanese and 60 Chinese were killed, dispatches to the Rengo News Agency to-day said.

The Chinese burned two-thirds of the 400 houses in the town before the Japanese arrived, the despatches said.

Despatches from Harbin, Manchuria, said the rebels reoccupied Halin and neighboring towns following the withdrawal of the Japanese and charged that the rebels killed several Japanese and Chinese residents on their return.

Boy Scouts of Chesham, Eng, eer Hall, their headquarters, which was recently burned just after they had completed it, the work requiring 10 years.

First Shamrock Rebuilt For Sea Service



UNUSUAL CHURCH — ON GUARD — ORIGINAL SHAMROCK. Illustrative generally of the type of architecture now prevalent in Germany, the church shown in (1) is nearing completion at Cologne. Germany has been credited with opening new fields of design which are rapidly becoming popular. (2) shows Grecian soldiers on guard at the tomb of the Unknown Soldier of Greece, unveiled recently in Athens. (3) is a picture of the first racing yacht built by the late Sir Thomas Lipton, Shamrock I., snapped at Cristobal, Canal Zone, on a cruise around the world. The old racer is now owned and skippered by Capt. Kay Elbo (inset-, who has rebuilt it to suit present seagoing conditions.

In The Automotive World WEEK-BY-WEEK

After having been abandoned for more than three years in the desert country of the Ord Mountain region of Southern California, a car was driven out on its own power.

An old "desert rate" of a prospector came upon the car recently in the sand of an "ash" between almost inaccessible mesas in the Ord Mountains. He reported his find to police who discovered also a half license plate of 1928 nearby. A door slightly ajar provided a runway for rats to get in and gnaw at the car's upholstery. Otherwise it was unharmed.

As soon as water, gasoline, and a battery were put in it, the derelict was driven out. Through the agency of the State Motor Checking Station it was discovered it had been stolen in Denver in 1928.

Sir Malcolm Campbell will return to the United States next year to attempt to break his motor speed record of 253.696 miles an hour, accoring to word received from England recently.

For the first time in many months, "Sold Out" notices were posted on car dealers' doors in England. So great has the demand been that dealers are remaining open until late into the night. One leading firm delivered 261 cars in one day to various parts of the country, an individual record that has not been exceeded since the spring of 1929.

The sudden activity in the industry, it is believed, is not due only to the spring sunshine which is making old cars look shabby, but also to the fact that many thousands of motorists now see better times ahead, and feel justified in replacing their present machines.

Car owners can get more mileage out of tires by lubricating them occasionally with soapstone, according to a bulletin issued by the U. S. Rubber Company.

"A tire flexes or bends millions of times in a few million miles, and in so doing sets up a chafing action between casing and tube. Unless a lubricating medium is used, excess friction and heat will be generated."

The soapstone can be applied by using a shaker top can or by putting it in a cloth bag tied at the top and shaking all around the inside of the tire.

Garage men may not be lazy, but they're often re-tiring.

Colored tires are now optional equipment on one make of car.

The expiration of the extension period during which 1931 motor vehicle licenses were legal in New Brunswick, has greatly speeded up the sale of license plates and chauffeur's licenses in that province.

Inasmuch as only a few hundred 12-cylinder cars have yet been manufactured in America, probably not one man in 10,000 has ever ridden in a car of this type. This fact probably accounts for the eagerness that is found everywhere by the manufacturer of a twelve for trial rides.

Six of the leading car manufacturers of England are experimenting with supercharging devices with a view ultimately to fitting them on standard stock cars. By means of supercharging a tremendous increase in performance is claimed particularly in acceleration. One firm has already spent $150,000 in developing this type of mechanism. This money began to pay a useful dividend when the unit proved its worth on being fitted to the tiny seven horse-power engine in the midget with which George Eyston set up the world record for that type of car.

Happy thought! When the cars get a little thicker, you can cut off the motor and the one behind will push you without knowing it.

The constant increase in the number of motor vehicles in Great Britain has provided the authorities with a number of problems, among them that of registration, so that every car licensed may be distinguished from every other one.

Recently this problem has become acute, as the last possible combinations under the old two-letter registration system are being used up. So a new series of numbers is to be started during the next few months, probably some time in June.

Under the new system it is expected that three letters instead of two will be prefixed to numerals running up to 999, instead of to 9999, as formerly. The old two-letter combinations will be used again, first with an "A" in front of them, then with a "B," and so on. It is estimated that this system will solve the registration problem until about 1960.

Drop In Coal Output Is Alarming Russia

MOSCOW, April 11 (A.P.) — A sharp drop in coal production during the first quarter of 1932 aroused the newspaper Pravda to-day to sound an alarm.

Pravda said the situation in the coal industry was menacing the most important phases of other industries, chiefly the metallurgial works which are one of the basic sections for the successful completion of the five year plan.

From a January high of 196,600 tons, the average daily production dropped in February to 191,400 and in March to 186,300.

Back-Seat Driving Blamed For Charge

Too much back-seat driving on the Port Hope highway yesterday afternoon cost Harry Mann, Toronto, a $45 fine, $5.25 costs and three days' suspension of his license in Magistrate Langleys court this morning. He pleaded guilty to a charge of reckless driving laid by Highway Patrol Officer A. E. Hornick.

"His wife started an argument about the manner in which he was driving," J. F. Strickland, K.C., M.P.P., counsel for the accused, explained, "and this caused him to drive erratically along the road."

Officer Hornick observed the criss-cross course of the car along the highway and arrested the driver. Added to the cost of the fine, he spent an uncomfortable night in the police cells.

AUTHORS' ASSOCIATION GATHERS JUNE 21-23

TORONTO, April 11 (C.P.)—Annual national convention of the Canadian Authors' Association will be held in Ottawa, June 21 to 23, it is announced.

It also is announced that Mrs. M. I. Robertson, well-known Scottish novelist, had been awarded first prize in the short story contest sponsored by the Toronto branch. Mrs. Robertson was awarded the honor for "The Forerunner." "One Minute to Five P.M.," by John Landals Love, took second prize.

Mrs. Robertson, who for some years taught school in Africa, also is noted for her work, "Many Altars."

STOCK PROBE OPENING TO-DAY AUGURS STARTLING REVELATIONS

U. S. Senators Will Seek to Learn Who Has Benefited by Price Slump.

FULL INVESTIGATION.

(By Ken Clark, C.P. Staff Writer.)

WASHINGTON, April 11.— Investigation of the operations of the New York Stock Market by the Senate committee on banking and currency began to-day.

The investigation, which has the full approval of President Hoover, coming at the present period of economic stress, augurs startling developments. The administration ostensibly is anxious to "go to the bottom" of persistent bear operations. These, it is intimated, have blocked governmental moves to restore the equilibrium of business.

Administration senators, such as Walcott of Connecticut, are interested in discovering what group, whether domestic or foreign, have reaped benefit from steadily falling prices. It is believed that domestic finance is more suspected, despite charges made in the House on Saturday that France was attempting to "destroy the American dollar."

Immediate Cause.

The immediate cause of a sudden committee decision to proceed with investigation of the market, mooted several months ago, is said to have been private advices to various senators that a gigantic bear raid backed by $1,000,000,000 was to be made on Saturday. The raid did not materialize.

Behind the fillip given by this lies the fact that neither the National Credit Corporation, the Reconstruction Finance Corporation, the Glass-Steagall measure nor any effort of the Government to bolster confidence and liquefy business has been successful in checking the decline in the value of stocks and bonds.

Since the end of March the value of stocks and bonds quoted on 'change has depreciated $3,865,000,000.

TRACES OF POISON FOUND

SAN FRANCISCO, April 11. — Traces of poison found on grass in the field where Phar Lap, Australian wonder horse, had roamed, were followed Saturday into the horse's stall and at the Ed Perry farm on the San Francisco peninsula, food and drug officials announced. Clay and straw in the stall held traces of the same poison which had been blown across the fields from oak trees.

GIVEN AWAY FREE

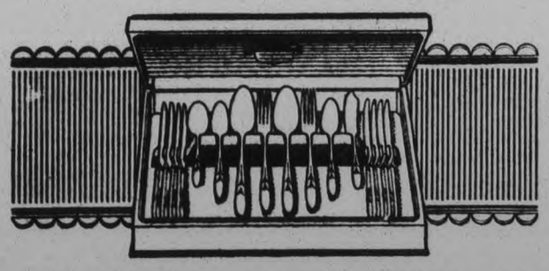
By Schneider Bros.

At Peterboro's School of Cooking and Home Economics

In the Opera House This Week

This $35 Service of Community Plate

No Puzzle to Solve



No Money To Spend

Just keep your numbered program, or programs if you attend more than one afternoon. The above Grand Prize of a 27-Piece Community Plate Service will be drawn for on the last day of the School, and awarded to whoever holds the program bearing a corresponding number to that drawn. This prize Service is complete with Walnut Chest.

ALSO THREE DOOR PRIZES GIVEN EACH DAY

BEAUTY and UTILITY

When at the School you will be attracted by the Community Plate (Lady Hamilton design) and the Community China (Deauville design) with which the dining table is tastefully set. These were loaned by Schneider Bros. and present an arresting picture of glittering silver-plate beauty and fine china elegance worthy of the most refined home.

12 - 13 - 14

Starting Daily at 2.30 o'Clock

Attendance Prizes Will Be Given Every Day

Each Day Coupons will appear on the printed program, with space for name and address to be written. These will be collected during the intermission, and at the close a number of them will be drawn in full view of the audience. Those whose names appear on the coupons drawn will receive Baskets full of food products. Grand prizes of considerable value will also be given.

Bring Pencil and Pad

TORONTO WINS WORLD HOCKEY HONORS

Rangers Lose Final Game 6 to 4

Speed, Combination and Clever Defensive Work Accounts for Win.

LEAFS SET RECORD.

Bailey Scores Fifth Goal for Toronto in Third Period.

TORONTO, April 11. — Firmly perched as world's professional hockey champions, Toronto Maple Leafs today were prepared to share among themselves the spoils of victory. Meeting of the players and officials has been called in preparation for the slicing of the melon earned in their three Stanley Cup play-off rounds.

Stanley Cup history was made by the Maple Leafs as they speeded to a three-straight victory over New York Rangers Saturday night. Toronto's 6-4 triumph to end the finals in three games marked the first time the feat has been accomplished since the five-game final series for the trophy was instituted.

Speedy Combination

Well-merited victory came to the Leafs on the wings of their speedy passing attack backed up by a mighty defence. Tireless back-checking by the forwards aided the defence in keeping all but the powerful Cook brothers-Boucher line in own area.

Rangers, courageously intent on prolonging the series and their chance of ultimate victory were assailed from a new angle as the Leafs reserve line, led by Andy Blair, lanky centre, with hustling Frank Finnigan on the right flank and Bob Gracie, youthful speed demon on the left, broke out with a four-goal scoring spurt as their contribution to their team's success. (Busher) Jackson 21-year-old all-star left winger, and Irvin (Ace) Bailey accounted for two goals.

Frank Boucher, playmaker for Lester Patrick's first string line figured in all four of his team's goals. Three times he netted the puck himself and on the other goal he gave Frank Cook the pass on which he scored.

Blair's two first-period goals gave the Leafs the margin they needed Tis first was made possible on a fast-breaking rush by Frank Clancy, a perfect pass at the defence and Blair's rising shot to the corner. Gracie, 32 seconds later, passed out to the tall centre for the second goal.

Harvey Jackson sent the Leafs three up in the second period on a concerted drive with Joe Primeau and Charlie Conacher. A triple pass gave the left winger the puck close in from where he beat John Ross Roach. This goal was mated by Boucher's first goal.

Day Gives Assists

A pair of headlong dashes by Hap Day furnished Finnigan and Bailey their goal-getting shots in the third period; Boucher and "Bun" Cook combined for a Ranger goal, offset when Gracie scored on Finnigan's pass. Two minutes from the end of the game Boucher netted twice, the first on "Bun" Cook's pass and the last goal on a solo play.

Amidst scenes of wildest rejoicing 14,366 spectators acclaimed the return of the Stanley Cup to Toronto after an absence of ten years. The game-weary players had a hard time making their way out through a milling throng after leaving the dressing room.

Sportsmanlike in defeat, the Rangers to a man, congratulated their conquerors before leaving the ice after the final bell.

THE SUMMARY

(First Period)

Maple Leafs—Blair (Clancy).. 5.39
Maple Leafs—Blair (Gracie).. 0.32
Penalties—Day, Heller, Jackson 2 (one a major), Blair, Dillon, Gainor, Seibert.
Shots on net—Leafs, 12; Rangers, 10.

(Second Period)

Maple Leafs—Jackson Primeau, Conacher) 10.57
Rangers—Boucher (Heller) ... 4.27
Penalties—Seibert 2, Brennan.
Shots on net—Leafs, 19; Rangers, 10.

(Third Period)

FRANK BOUCHER HEADS SCORERS

Ranger Play Maker Picks Up Four Points in Saturday's Game.

CONACHER IS SECOND.

TORONTO, April 11. (C.P.) — Frank Boucher, canny centre ice mainstay of New York Rangers, by picking up four points in Saturday night's Stanley cup final with Toronto Maple Leafs passed Charlie Conacher, Leaf wingman, and captured the scoring honors in the National Hockey League play-offs.

Rifling three goals past Lorne Chabot and assisting in one other score, Boucher increased his point scoring record to nine, one more than Conacher who finished second with eight. Boucher was tied with Primeau of Leafs for assists garnering six in seven games in the play-offs.

Charlie Conacher

Conacher, who ended the regular season in a tie with Bill Cook of Rangers as the leading goal scorer, topped the New York sniper by one goal to head the play-off scorers. He finished with six, one more than Harvey Jackson and Cook who were tie for third place.

Bald-headed Ching Johnson, selected as a defence-man on the Canadian Press all-star team, and Reginald (Red) Horner, rugged defence act of Leafs were the bad men of the championship rounds. Each spent 20 minutes with the time-keepers.

Montreal Fencers Capture All Titles

MONTREAL, April 11.— Montreal Fencers made a clean sweep of the Dominion fencing championships, which were completed on Saturday evening at the Salle d'Armes of the Montreal Fencing Club, with the men's foils event. The last event was won by J. Dubreuil, Montreal Fencing Club, who gained the place over the Provincial champion, B. W. Markus, and the defending champion, E. A. Dalton of Toronto.

The women's foil's title went to Miss I. Sheel over Miss Joan Archibald, also of Montreal, defending titlist, on Friday evening, and the men's sabre championship, formerly held by Major Farrell of Toronto, fell to the share of J. W. Long, after a barrage with G. G. Maguire, Montreal Sword Club, his cluomate.

The outstanding bout of the final evening was that between D. Guttarman, Montreal, and E. A. Dalton, leading Ontario fencer.

Refereeing the championship pair was Robert Grasson of Yale, who trained the Yale team which won the U. S. A. three-weapon duelling sword team. Major H. Wyatt Johnson and P. E. Nobbs refereed women's foils and men's sabre events.

Bisons Capture The International Title

American League Opens To-Day

Three young fellows who are striving to get along in major baseball circle, the American league, which opens to-day with Boston at Washington, are shown above. No. 1 is Joe Vosmik, the Cleveland sandlotter, who was a sensation last year with the Indians and promises to be even more so this season. No. 2 is Frank Grube, the catcher, formerly of Buffalo, who has qualified for the first string job with the Chicago White Sox. No. 3 is Jonathan Stone, the outfielder, who made his mark with the Leafs originally, and who is going great guns for Detroit.

FINLAND WILL CONCENTRATE ON TRACK AND FIELD EVENTS

Hopes to Outscore United States' Team at Los Angeles Olympics.

WILL BE CURTAILED.

(By Maxwell Stiles)

LOS ANGELES, April 11 (Special to The Examiner)—Finland placed second to the United States in the track and field at Antwerp. Finland was a much closer second in 1928 at Amsterdam.

How close will Finland come in the 1932 games at Los Angeles? Readers may judge for themselves from the records of Finland's athletes as given in these articles. Compare the Finland records with those of United States athletes, which will conclude this series.

Finland will make no attempt to win unofficial team honors for the Olympiad as a whole, inclusive of all sports.

This evidenced by the fact that Runar Oils, Olympic attache for Finland in Los Angeles states that it is exceedingly doubtful if his native country will be represented in equestrian sports, fencing, field hockey, rowing, yachting, weight lifting, women's swimming, water polo, women's track and field or the lacrosse demonstration.

Finland, Oils assures us, will concentrate her forces on track and field for men, with the hope of outscoring the United States; on defending her Olympic title in catch-as-catch-can wrestling, in which sport Finland placed second to Germany in 1928 and on shooting, in which sport Finland believes it has a fair chance.

Appear Invincible

The five events in which we find Finland supremely confident, with records to stand back of this confidences, are:

1 The 5,000 metres flat race, in which Finland's great team of distance runners may take the first three places.

2 The 10,000 metres flat race, with Paavo Nurmi and two teammates appearing invincible.

3 The 3,000 metres steeplechase, in which Toivo Loukola is regarded as a certain victory for the second time in an Olympiad.

4 The javelin throw, in which Matti Jarvinen and E. Penttila are expected to put on a duel between themselves for the title.

5 The decathlon, in which event Akkiles Jarvinen, Paavo Yrjola (1928 champion whose record has since been bettered by Jarvinen) and M. Tolamo, pentathlon ace, are believed to be the three best in the world. The disqualification of Jesse Mortensen of the United States left these three Finns with little known opposition.

In addition to these events, Finland has high hopes for success in the 1,500 metres run, the 110 metres high hurdles, the shot put, the discus throw and the marathon.

Nurmi, who was suspended yesterday pending an investigation into his amateur status, is said to be training for both the 10,000 metres and marathon. If he is declared eligible for the Olympics he should win the first event all by himself, and certainly can outrun any man over the 26 miles if his legs can stand up.

Willie Ritola, Nurmi's great running mate of past Olympiads, is training in Florida for the marathon. Because of Ritola's presence, there is talk among Finland's representatives here that Nurmi may be withdrawn from this event to strengthen the team in the 5,000 metres or even the 1,500 metres or steeplechase.

Would Create Interest

Since several runners have been battering Nurmi's records for the 1,500 metres and the one mile run, many here would like to see the "Phantom Finn" enter the 1,500 metres at Los Angeles just to prove that he is still the fastest miler of them all. Nurmi in the 5,000 and 10,000 would be a cinch. But Nurmi in either the great 1,500 metres, against all of these men who have been clipping his records, or in the marathon, would create intense interest throughout the world.

There is one event—the javelin throw—in which the land of Nurmi shows amazing ability to produce record breakers. There were more than thirty Finns last year who threw the spear over 200 feet, two of whom stand out as men almost certain to finish one-two in this event at Los Angeles.

Matti Jarvinen, one of the illustrious sons of "Papa" Jarvinen who at Athens in 1906 won the first Olympic championship ever captured by Finland (the Greek style discus), stands out as the probable winner of the javelin. In the summer of 1930 Jarvinen had the following remarkable throws in championship competition:

August 8—234 feet 9¾ inches.
August 17—235 feet 2¾ inches.
August 31—234 feet 9⅝ inches.
September 14—239 feet 3¼ inches.

Each of these throws exceeded the present official world record of 232 feet 11⅝ inches held by E. H. Lundquist of Sweden. The last mark quoted will be the next official world standard.

Harry Davis Will Replace Alexander

DETROIT, April 11.—(CP)—Manager Bucky Harris of the Detroit Tigers was hoping for a dry field today, to try out Harry Davis, late of Toronto, who will replace big Dale Alexander at first base in tomorrow's American league opener with the Cleveland Indians unless Harris changes his mind.

Rain forestalled plans to break Davis in during yesterday's scheduled exhibition season finale with the New York Giants.

King George's new six-months-old terrier refuses to recognize anyone at Buckingham Palace except the King.

DETROIT GAME IS FORFEITED TO BUFFALO WHO WIN HONORS

Goldworthy's Goal for Olympics Disallowed by Officials.

BULLDOGS BEAT TECS 4-1.

TORONTO, April 11 (C.P.)—The International Hockey League title which has changed hands but twice since the incorporation of the league five years ago to-day journeys to Buffalo for the first time. Forfeited a game in Detroit last night after Motor City fans had littered Olympia ice with everything in reach, protesting a called-back Olympic goal, Bisons annexed the league championship and the Oke Trophy.

Their 2—1 triumph over Detroit added three points to their standing and they finished a single point in front of Windsor Bulldogs, last year's champions, in the play-off series. While a packed house roared their approval, Leroy Goldsworthy, shifty winger of Olympics, tallied a score, which would have tied the game had it been allowed. The goal came in the final two minutes of the third stanza, but after the rubber entered the cage Referees Jerry Goodman and Mike Rodden contended Farrand Gillie, who slid into Goalie Taugher after slipping Goldsworthy the pass, had blocked the Buffalo net guardian's view.

King Gives Decision

After the ice was showered with programs, peanuts, papers and each official had been struck on the head with an egg, the game was forfeited to Buffalo on the advice of President Charles King, who was a spectator, and the officials.

The game was a bitterly fought struggle from beginning to end and bruising bodychecks and high-sticking were in evidence throughout. Fourteen penalties were meted out with five being tacked on Evans of Olympics. Ronny Martin, midget wingman, played the hero role for Buffalo, notching both scores.

Bulldogs Pull Out

Marching to a 4—1 triumph over London Tecumsehs, Saturday, Windsor Bulldogs pulled in front of the play-off race for the league title. Their chances of winning the championship for the second successive year, however, depended on whether Detroit could tie or defeat Buffalo. Each Bulldog player was one of the angry mob who jammed Olympia and saw the tying goal, which meant their second championship in two years, called back.

A capacity house of 5,400 saw Bulldogs edge out their clear-cut victory over London in Windsor. Outclassing Tecs from the opening gong, the Border sextette had a wide margin of the play and after Stan. Brown and Desse Roche sent the Windsorites into the lead in the opening frame, it was just a question of how many goals would win the contest.

Twice more, once in the second period and again in the final stanza, Bulldog snipers barged their way through London's stalwart defence and rifled shots past Goalie Herb Stuart, before Tecs came through with their lone score in the final minutes of play.

King Of The Campus

James Knight of Troy, Kansas, junior and star track man at the Kansas State Teachers' College of Emporia, has won another race quite different from the one in which he won the central conference quarter mile record. In a vote of women of the school, Knight was elected "King of the Campus" and was crowned at a leap year party on April 1.

Abbot's Worthy Wins Newbury Spring Race

NEWSBURY, England, April 11. —After bolting and running a mile V. T. Thompson's four-year-old colt Abbot's Worthy, won the twenty-third running of Newbury Spring Cup on Saturday afternoon by a length and a half from Sir Abe Bailey's Trinidad, with H. Eves' Ventirer in third place a head back. Seventeen ran the mile of the big spring handicap.

Abbot's Worthy is a chestnut colt by Abbot's Trace, out of Pomsan. He bolted before the start and completed the mile course before he was captured and brought up to the barrier. He threw Jockey Gordon Richards at the far end of the course and Richards, who was unhurt, was brought back to the starting line by motor car. When the start was finally made Abbot's Worthy proved easily the best of the field.

It's a Habit

Once more the national cross-country championship has fallen to Birchfield Harriers.

They won the title for the 23rd time and the 12th since the war at Walverton recently.

The Birmingham club men were, however, given a very hard race by Salford Harriers, the northern champions, who had not been so close up since 1903, and not for a few years has the scoring between the two leading clubs been so low.

NATIONAL LEAGUE CLUBS WILL EXPERIENCE ROCKY ROAD THIS YEAR IN ANNUAL PENNANT RACE

Shifts in Player Talent Expected to Bring About Balancing of Club Strength.

CARDS ARE FAVORITES.

Recruits Will Add Confidence to Pitching Staff of New York Giants.

BY HERBERT W. BARKER
(Associated Press Sports Writer)

NEW YORK, April 11.—It will be a rocky road that leads to the 1932 National League pennant if shifts in player talent bring about an expected balancing of strength all the way down the line.

There is no getting away from the fact that the world champion St. Louis Cardinals will start the campaign to-morrow pronounced favorites to wind up in September with their third straight league crown.

But there is no expectation that they can make such a runaway race of it as they did a year ago, not with such formidable challengers as the New York Giants and Chicago Cubs in the field.

Since the Cardinals captured the World Series from the Athletics last Fall they have lost the services of a great pitcher, Burleigh Grimes and an outfielder, Chick Hafey, who won the league batting title last season. Grimes went to the Cubs by trade and Hafey has refused to sign a contract. Tex Carleton and Dizzy Dean may help offset the loss of Grimes. Jim Collins, a substitute first baseman, is filling in for Hafey.

Giants Are Stronger

The Giants, generally picked to finish one-two, will put on the field a well-trained, well-conditioned and excellently balanced club. Hubgie Critc apparently has conquered the arm ailment that took him out of the game most of last season; the outfield has been improved by the addition of the hard-hitting recruit Len Koenecke, and Hal Schumacher should prove a distinct help to an already powerful pitching staff.

The Cubs' threat would loom even more dangerous if Rogers Horns could bolster an outfield that consists chiefly of Halen Cuyler. The infield also may be a sore spot now that shortstop Ellwood English is out for two weeks or more with a broken finger.

Brooklyn seems to have great potentialities that may be realized under Max Carey's guidance. The Dodgers' fate however, depends upon the recovery of the pitching staff as well as the performance of such key figures as Hack Wilson and Glenn Wright.

None of others, Phillies, Cincinnati, and Boston—seems to have developed the additional strength needed to boost them into the pennant fight but all should be vastly improved over last year, particularly the Phillies.

Carey at Brooklyn and George Gibeon at Pittsburgh are the new managers this year.

American League Opens On Tuesday

CHICAGO, April 11. C.P.)—The longevity league of baseball, the American Association, opens its thirty-first pennant campaign on the eastern fronts to-morrow, with Indianapolis and Columbus hand picked favorites to win the flag.

The openers and estimated attendance:

St. Paul at Louisville, 15,000.
Kansas City at Columbus, 8,000.
Milwaukee at Toledo, 9,000.
Minneapolis at Indianapolis, 10,000.

SCREEN ODDITIES
by Captain Roscoe Fawcett

YANKEES ALSO ARE FAVORITES TO GAIN FLAG

Defeat of Macks By Cards Last Year Gives Confidence to Other Clubs.

LOOP MUCH STRONGER.

(By Paul Mickelson, A.P. Sports Writer.)

CHICAGO, April 11. — Connie Mack and his Philadelphia Athletics hit the long trail for a record-breaking pennant conquest to-morrow with a well-founded suspicion that they are in for a rocky journey.

They were slight favorites to win, and thereby become the first American League team to capture four straight flags; but tradition and at least three improved clubs, shaken out of their apparent inferiority complex by a National League victory in the 1931 world series, were a little more cocksure and confident of halting their victory march.

As the managers, players and bat-boys finished their usual predictions before the "big push" starts to-morrow, Joe McCarthy's New York Yankees, packing a dangerous punch, better fielding and good-looking pitching staff, were labelled as the one team to chase the "A's" from their corner on pennants while Washington and Cleveland received the rating as possible Giant killers. None of the other four entries was bold enough to promise a flag, but wanted it understood that Connie Mack's southpaw ace, Robert Moses Grove, together with George Earnshaw, Jimmie Foxx, Al Simmons and Mickey Cochrane, wouldn't promote pre-game panics among their ranks.

Gains Confidence

A defeat in the world series always leads to a little less fear of a league champion, but none in years had a more stimulating effect than that administered the Athletics last fall by "Pepper" Martin and his St. Louis Cardinal mates. They proved that even the Athletic machine was stoppable and Philadelphia's seven rivals in the circuit the late Ban Johnson built, seem to have learned the lesson well in Spring training, training for daring base running "a la Martin" and gaining confidence at every turn.

A careful sifting of the pennant chances of the A's and Yankees indicated that two left-handed pitchers held the key to the riddle, Lefty Grove and Vernon "Lefty" Gomez of the Yankees. Grove won 30 while losing but 4 for the A's last year, while Gomez captured 21 and dropped but 9 for the McCarthy crew. But Grove is 32 years old and hardly can be expected to pile up another similar impressive record, whereas Gomez, only 22, is tossing his smoke ball faster and faster, and promises to improve with a tighter defense and regulation rest afforded by a good pitching staff. Then there was the uncertainty of the Athletic machine as a whole going at its top speed and the almost certainty that the Yanks would do at least as well as a year ago when they finished fast for second place.

Baseball Schedule

Probable opening game batteries to-day:

AMERICAN LEAGUE

Boston at Washington—McFayden and Berry; Crowder or Marberry and Spencer.

To-morrow (Tuesday):

AMERICAN LEAGUE

New York at Philadelphia—Gomez or Ruffing and Dickey! Earnshaw and Cochrane.

Cleveland and Detroit — Ferrell and Sewell; Sorrell and Ruel.

St. Louis at Chicago—Stewart and Ferrell; Hadley or Frasier and Gruxe.

NATIONAL LEAGUE

Philadelphia at New York—Collins and Davis; Walker or Fitzsimmons and Hogan.

Boston at Brooklyn—Brandt and Spohrer; Hoyt and Lopez.

Pittsburgh at St. Louis—French or Harris and Finney; Rehm and Wilson.

Chicago at Cincinnati—Root and Hartnett; Johnson or Lucas and Lombardi.

FRANK DYER AGAIN ELECTED CAPTAIN

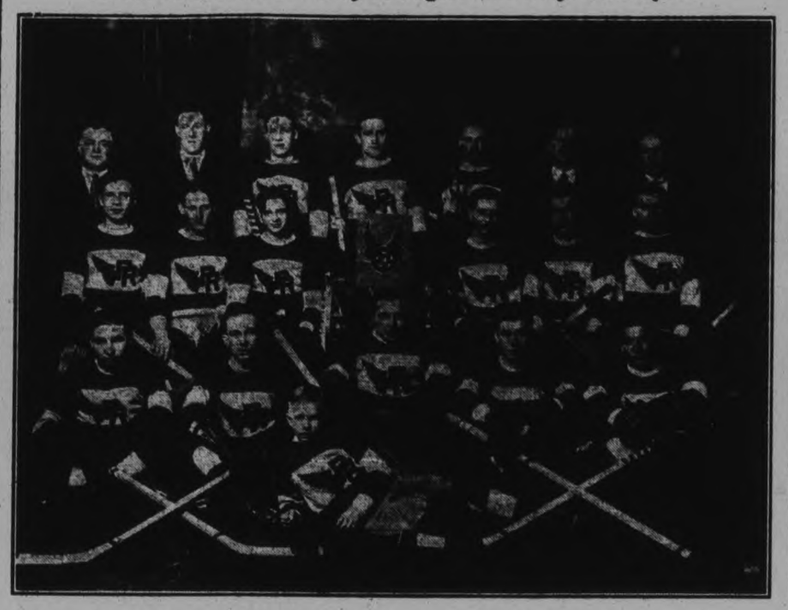
Match Program Planned at Annual Meeting of Cricket Club.

Peterborough Cricket Club held their annual spring meeting on Friday in the Chamber of Commerce Rooms. There was a good turnout of members and supporters of the club including four new players.

The secretary reported that matches have been arranged with Lakefield, Trinity College, Port Hope, Oshawa, Toronto and other matches were pending. Frank Dyer was again elected captain for the ensuing season.

It was unanimously decided to again enter the John Ross Robertson Cup series. The players feel confident of doing even better this coming season than last. The executive extend a hearty invitation to anyone who is interested in cricket.

Rotarians, Junior City League Hockey Champions



Going through the winter's schedule without a single defeat the Rotary Hockey Club climaxed an eventful season by trouncing the Kiwanis sextette in the final series and winning the junior championship of the City League. The above cut shows the players in order:

Back Row—C. C. Mowry, manager; William Hope, trainer; Ernie Gibeon, left defence; Holly Mowry, right defence; Cres. Sproat, left defence; James Juby, vice-president; C. G. Graham, president.

Second Row — Gordon Young, right wing; Emerald Post, right wing. William Abbott, left wing; Richard Pearson, left wing; Roy Hope, left defence; Max Cotton, left wing.

Bottom Row — Jack Maudsley, centre; Orville Craig, right wing; Ivan Pearson, goal; Roy Tranter, centre and captain; Art. Padgett, left wing; Kenneth Mowry, mascot.

HOCKEY BOWLING CURLING
BASKETBALL AND BOXING

CASUAL COMMENT

Big league baseball officially opens for 1932 to-day with Boston playing in Washington to pry off the lid. The real opening however takes place tomorrow when all sixteen teams in the big time circuits get under way once more. They'll play daily from now until the end of September and fanatics of the diamond come into their own once again.

* * * * * * *

There's something about that game, even in Canada, that grips one in the lazy weather of early spring, holds on for a month or so, wanes in the heat of late July, and finally flames up strong again as the teams battle each other down the stretch to enter the World Series. We don't know a single ball player personally in either the National or American Leagues, but we do know all about them and their work day by day.

* * * * * * *

And there are millions like us, from Northern Canada to Southern Mexico, from the Atlantic to the Pacific, real dyed-in-the-wool fans who follow them in the newspapers, in baseball magazines, over the radio, and those in the Big League towns who crowd into the stadiums to see "Pepper" Martin go down to second in a cloud of dust, Hack Wilson get a toehold and drive one out of the park, Lefty Grove burn one down the alley, and so on. That's baseball back in the spotlight again.

* * * * * * *

Toronto plays its first game in the International League on Wednesday, going to Newark for four games, and then on to Jersey City and Baltimore. When they open their home stand in Toronto, the fans there will have forgotten all about hockey and the Maple Leafs' great win over Rangers for the Stanley Cup, and that's the way it should be. The world of sports move on, and the ice game is all washed up for a while.

* * * * * * *

Baseball should have a big season here, too, but no line can be had on the different leagues until they start re-organizing. The C.O.B.L. club will undoubtedly be stronger and should be getting set before long. Already in Kingston, these players have signed certificates: Larry Joyce, former Poney first-sacker who is back again, Hewitt Smith, Yammy Jamieson, Hooley Smith and Red Scrutton, and more will be signing on the dotted line within a week.

* * * * * * *

The East Peterborough League is still up in the air, and we hardly know what to expect in that quarter yet. It's likely there'll be four strong city teams in it this year, and officers will get things moving shortly. The City Loop doesn't generally re-organize till late in April, same as the softball circuits.

* * * * * * *

A big box lacrosse meeting is called for the Chamber of Commerce at 7:30 this Wednesday evening and everyone interested is urged to be on hand. Officers are to be elected, entries accepted and plans outlined to put the new sport across in Peterborough this summer.

* * * * * * *

Congratulations are in order for Toronto Maple Leafs for their record-breaking three-game series against Rangers for the historic old Stanley Cup. A mighty crowd milled about the players after the game Saturday slapping them on backs and begging for autographs. The Leaf pucksters, individually and collectively, deserve all the accolades and laurel wreaths that are going, not forgetting a cheer for Coach Dick Irvin, and a word for the game New Yorkers.

* * * * * * *

Some fun over in Detroit last night when the International Hockey League title went to Buffalo by forfeit, because rowdy fans showered the ice with everything they could throw and pelted the referees with eggs late in the game. Referee Jerry Goodman ruled that Gillie had interfered with Goalkeeper Taugher when Goldsworthy shot what would have been the tying goal with just a minute and a half left to go.

* * * * * * *

Then things started. It was a close, rough contest and the crowd had been holding in, but this proved the final straw and bottles, papers, eggs, etc. rained on the ice, making it impossible to go on. Whether the decision was right or not, the scene which followed was a disgrace to sport, and Referees Rodden and Goodman quite properly awarded the game to Buffalo, 2 to 1. They left the ice under police escort.

* * * * * * *

Riley & Hickey's play Fashion-Craft at 8:30 tomorrow night at the "Y" for second half honors. If the former team wins, the series is all over, as they won the first half. However, if Primeau's take this game, they meet Riley & Hickey's the end of the week in a sudden-death playoff contest for the league title.

Dominion Basketball Playdowns From Coast to Coast Start This Week.

TORONTO, Ont., April 11 (C.P.) —With the winding up of the hockey season over the week-end, Canadian sport followers have their eyes fixed on the Dominion basketball playdowns commencing this week.

From British Colubia in the West to Nova Scotia on the Atlantic coast, champions have been declared and the first rounds of the playoffs in some instances have already commenced.

Montreal Fusiliers, Quebec representatives in senior competition, marched a step closer to the Dominion title over the week-end with a spirit 45-38 triumph over Ottawa Britannias to capture the second round of the Eastern Canada playdowns, 91-64 on the round.

Although Windsor - Walkerville Alumni have been declared senior champions of Ontario following their victory over Toronto Lizzies, their title still remains in doubt as Lizzies have filed a protest questioning the amateur status of Johnny Murray, guard of the Border club. A meeting was held to consider the protest Saturday, but decision was postponed until Monday.

Minus two of their stars in Doug. Fraser, veteran guard, and Ernie Lee, shifty forward, New Westminster Adanacs are out in search of their third senior title to-night when they meet Raymond Union Jacks in the first game of the Alberta-British Columbia play-offs. The second game will be played to-morrow.

University of Saskatchewan basketball team, Saskatchewan champions, meet the winner of the Adanac-Union Jack series in the first game of the Western semi-final Thursday and Friday, at Saskatoon.

Fredericton Aces, after winning the Maritime junior championship now stand ready to meet the winner of the Ontario-Quebec series in the Eastern Canada final Tuesday night.

A plucky young band of youngsters from University of Manitoba to-day stand prepared to meet the far Western junior champions in the semi-final round for the Dominion title. Dropping a close decision to Brandon Collegiate Saturday night, Manitoba Varsity managed to gain a triumph on the round as they carried a 31-point lead from the first of the two-game series.

Starr Is Returned To Rochester Club

ST. LOUIS, Mo., April 11. (C.P.) Ray Starr, right-handed pitcher, has been returned to the Rochester club of the International League, according to officials of the St. Louis Cardinals.

Starr was released at this own request, because he preferred to be a minor league starter rather than a relief pitcher in the majors, Cardinal officials said. Last year Starr won twenty games for Rochester, and lost seven.

BURGESS BEDTIME STORIES

SHADOW MAKES HIMSELF AT HOME.

When opportunity appears
Just seize it and forget your fears.
—Shadow the Weasel.

Shadow is nothing if not an opportunist. Don't mind that big word. It means one who never hesitates to take advantage and make the most of every chance that offers. Shadow the Weasel is that kind of a small person. He wastes no time wondering if he had best do this or that. He acts promptly while he has the chance, and if there is any worrying to be done does it afterward.

When he had visited the den of Yowler the Bobcat, while the latter slept, he had taken note of everything. He had seen a crack in the wall of the cave, a crack big enough for him to get into. So when Yowler had wakened and had sprung at him he had dodged in that marvelously quick way of his

and instead of darting out through the entrance, as most people would have done, had whisked into the crack, and had done it so quickly that Yowler had not seen where he went

No sooner was Yowler outside than Shadow was out of that crack and back at those bones to some of which bits of meat still clung. Shadow chuckled.

"That big robber thought he had me. Yes, sir, he thought he had me," said he, talking to himself. "Now he is outside looking for me. It hasn't entered his head that I might have hidden in here. No one else would have done such a thing, and so it hadn't occurred to him that I would. That is one advantage of not doing just what other people do. Do the thing that isn't expected. It always is upsetting to others. It always gains time, and time is often important. He expected to catch me, and when he failed he just took it for granted that I had run outside, as any one else would have done. So out he goes, and here I am, and here are these bones to pick. If he comes back there is that crack to hide in, and he couldn't reach me there even if he knew I was there. He hasn't left much on these bones, but there is enough to stay my appetite until I can catch a Mouse for myself.

So, as fearlessly and as much at home as if this home belonged to him instead of to one who would like nothing better than to catch him, Shadow made the most of opportunity, and took his time in getting what he could from those bones It wasn't much and he would have greatly preferred fresh meat of his own killing, but it did serve to stay his appetite, and it tasted all the better because of what he felt was his smartness and daring in getting it.

When he had finished, he once more examined the inside of that cave. What do you think he did then? Do you think he got out of there as fast as he could? You never would guess He curled up on Yowler s bed for a nap! Yes, sir, that is just what he did Outside, stretched out on a warm, sunny rock, Yowler was taking a sun bath, and inside on Yowler s own bed Shadow was taking a nap. How did he dare do it? Well, Shadow is a light sleeper. He was sure that Yowler could not enter without waking him. Then there was that handy crack into which he could dodge and where Yowler could not possibly reach him. So with his usual impudence Shadow was making himself perfectly at home.

Shadow does not sleep long at a time. Presently he awoke, yawned, stretched, yawned again and then made his way to the entrance to the passage leading to Yowler s bedroom. He cautiously peeped out. It didn t take him long to discover Yowler stretched out on that flat rock. Now was his chance to steal away. Did he do it? Not a bit of it! He boldly made his way to a rock just above Yowler and, sitting up suddenly, snarled at him.

With a single bound Yowler was on his feet, glaring up at Shadow. With another bound he was on that rock. But Shadow wasn t there. From somewhere down under the rocks came a taunting voice:

"It is a nice home you have. Invite me to dinner again some time."

What To-Day Means To You

"ARIES"

If April 11th is your birthday, the best hours for you on this date are from 9:16 a.m. to 10:30 a.m., from 1 p.m. to 2:30 p.m. and from 6:25 p.m. to 8 p.m. The danger periods are from 11 a.m. to 12:25 p.m., and from 4 p.m. to 5:20 p.m.

The Stars on April 11th will cast beneficent rays upon people in all stations of life who have the courage and enthusiasm to meet the opportunities presented to them on this date by Fate. The bag of luck will contain a variegated assortment of prizes: love, friendship, money and travel.

The child born on this April 11th will prove that naughty, mischievous children often make the most successful and interesting adults. It will not be underhanded, dishonest or cruel, but it will be strong-willed, adventurous, full of pranks and a romantic schemer. Its shoulders will always be broad enough, however, to assume troubles of its own making.

Born on April 11th, you have a bright, versatile and fascinating nature. You prefer the jam of life, and only resort to the crusts through forced poverty of one kind or another. As a child you were probably dubbed "scatter brain," and you have never completely stopped your wool-gathering. You will never entirely shoulder all your own responsibilities or ever take a prize for your powers of concentration. Up to a certain point your habitual carefree cheerfulness is an asset to you and a pleasure to the rest of the world. You do not nag, whine or cry; you do laugh, smile and cheer. Because you refuse to be bothered or worried, you do get out of things or get away with other things, which are a worry and a trouble to some other human being. Because you are a gracious, charming customer, the world takes a delight in serving you. You are one of the few people who seem able to have their cake and eat it too.

Others envy you your talents, your quick wit, and the alacrity of your understanding, but you yourself do not half appreciate the possibilities within you. You have no desire to show off, and you have few ambitions. Discomfort in any form is the one thing which will move you to decided individual effort. You are rather greedy and extravagant in some of your tastes and desires, and will forego much for their fulfilment. As an April 11th being, you should be very fond of music and dancing.

DETAILS IN THIS PAPER

LANG PADLOCKS TAXATION OFFICE

N. S. Wales Premier Would Block Government's Move to Seize Income Taxes.

STAFF GETS HOLIDAY.

SYDNEY, Aus., April 1'.—(C. P. Cable)—The Commonwealth Government's attempt to seize revenues of the state of New South Wales, in return for having paid overseas debt payments which the state defaulted Feb. 1 and April1, met with an unexpected counter-thrust by Premier J. T. Lang of New South Wales today.

In reply to the Commonwealth government's proclamation of the state's default and that income tax payers were to pay their assessments to the commonwealth, Premier Lang padlocked that part of the taxation office where all the assessment papers are stored; stopped future issue of assessment papers and sent part of the staff away on holiday.

And Premier Lang's action affects the Commonwealth even more directly, for under the agreement between the State and Commonwealth the State taxation department assesses and collects the federal income tax for the commonwealth government. The state premier's action therefore not only dislocates collection of state income taxes but also the greater amount of commonwealth taxes, which are due later than the state imposts.

Holds the Keys

It is stated Premier Lang, who has been in the limelight ever since his labor party won the elections of the autumn of 1930, himself has the keys of the taxation office in his pocket. The taxation commissioner under his orders had dismissed a number of the staff directly concerned in the collection.

The Sydney Sun, which has never been sympathetic to the radical politics of the state Labor government, expressed the opinion the Commonwealth government is empowered to order Premier Lang and his taxation commissioner to reopen the taxation department under penalty of a fine of $500 or the alternative of six month's imprisonment.

Eros, London's famous statue, henceforth must have a "weekly bath" at a cost of less than 10 cents a bath.

Costa Rica is sending nearly twice as many bananas to the United States as to the United Kingdom.

Decide this Question... then Enjoy FULL-FLAVOURED COFFEE

"GOOD TO THE LAST DROP"

The next time you buy coffee, think of this:

If *ANY* air is inside the tin or package, that coffee has deteriorated, lost flavour. It continues to do so.

If *NO* air is inside the tin or package, that coffee will keep full-flavoured indefinitely.

Vita-Fresh Process Removes All Oxygen

This new packing method exclusive to Maxwell House absolutely removes and *keeps out* all oxygen from the sealed tin. No other coffee can be so rich, so smooth, so full-flavoured, because the quality which has made this old Southern blend world-famous is now completely protected.

Get a sealed and locked tin from your grocer today. Make sure it has the words "Vita-Fresh" marked on it.

Air Inside the Tin or Package is Bound to Damage Coffee Flavour

Loose or bag coffee loses 65% of its flavour in 9 days after roasting.

Coffee in old-fashioned tins or cardboard cartons loses 45% of its flavour in 9 days after roasting.

MAXWELL HOUSE COFFEE

ROASTED AND PACKED IN CANADA

A Morning Tonic that lasts all day

TARZAN AND THE GOLDEN LION. NO. 67 By Edgar Rice Burroughs

(Metropolitan Newspaper Feature Service, Inc.)

Like an undisciplined mob the horde of priests and warriors followed Cadj to the summit of the lofty walls which guards the palace. They scrambled up just as Tarzan's forces came to a halt outside. "Rocks! Rocks!" commanded Cadj, and in answer the women below in the courtyard gathered fragments of stone from the crumbling palace walls and began to hand them up to the warriors.

Now Cadj shouted: "Defile not this Temple of the Flaming God or you shall know his wrath." For answer, Tarzan stepped forth from the ranks and cried: "La, your High Priestess, is here! Cadj is a traitor. Open your gates and receive your queen. Refuse her entry and we will take by force what rightfully is hers." As he ceased speaking, La stepped to the ape-man's side, standing where all could see her.

© 1931, by Edgar Rice Burroughs, Inc. All rights reserved.

As the Oparians recognised La, murmurs arose among them, for Cadj had told them La was dead. The High Priest knew it would not take much to turn the scale against him. So shrieking to his men to attack, Cadj launched a stone straight for Tarzan. Only his wondrous agility saved the ape-man. The missile passed him, striking a Gomangani. Now Tarzan called to his followers to attack.

Fiercely they ascended the rough wall in the face of the menacing bludgeons above. Tarzan, who had chosen Cadj as his objective, was among the first to reach the top. A hairy, crooked warrior struck at him with a bludgeon. Hanging to the summit with one hand, Tarzon caught the weapon in the other and wrested it from his assailant. At the same time he saw Cadj turn and disappear into the courtyard beyond.

BRITISH WONDER HOW MUCH GOLD INDIA HAS

Secretary for India Thinks $3,000,000,000 Stored There

London—With Britons disgorging a hoard of gold coins and gold ornaments far beyond even expert calculations as to what had been locked away for years, there is now much speculation as to the amount of gold which lies hidden in India. When Sir Samuel Hoare, secretary for India, was asked in the House of Commons if he could throw any light on the subject, he said it was estimated that between $2,500,000,000 and $3,500,000,000 was stored there, although no statistics were available.

The net imports of gold into India in the last thirty years have amounted to approximately $3,625,000,000. In the view of assayers here much gold in the shape of ornaments has recently been disgorged in India.

Tenders Wanted

COUNTY OF PETERBOROUGH.

SEALED TENDERS, marked as to contents, will be received by the undersigned up until Four o'clock p.m., MONDAY, APRIL 18TH, 1932, for the supply of Gasoline and Oils, and the supplying and installing of a 500-Gallon Gasoline Tank with Pump.

Bidders shall give full particulars as to quality of their products and type of Pump to be supplied.

The lowest or any Tender not necessarily accepted.

ED. M. ELLIOTT, County Clerk and Treasurer. 3d 11,13,15-436

Canada First

1. Canada built and sent the first steamboat across the Atlantic.
2. Canada built and demonstrated the first compound steam engine in the history of the world. The effect of this invention was the doom of the sailing ship as a factor in ocean commerce.
3. Canada built and demonstrated the first railway sleeping cars.
4. Canada built and demonstrated the first submarine telegraph in the history of the world.
5. Canada formated the idea of making paper from pulpwood, one of the first attempts being made on the Otonabee river at a sawmill in Peterborough.
6. Canada made and demonstrated the first practical electric railway in the history of the world.
7. Canada built the world's first electric stove.
8. Canada originated the idea of electric heating.
9. Canada pioneered in the field of electro-chemistry, with the discovery of calcium carbide of Thomas Willon of Hamilton, Ontario.
10. Canada originated the idea of standard time which has since been adopted by every civilized country of the world.
11. Canada originated the idea of the panoramic camera.
12. Canada originated Marquis and other more recent wheats which have built up commerce of the West in Canada and U.S.A.
13. Canada first isolated helium in commercial quantities.
14. The idea of the telephone originated in Canada and the first long-distance trials of the instrument were made between Paris and Brantford.
15. Canada gave the world the idea of the all-electric radio.
16. Insulin is of too recent date to require more than mentioning in this list.

DAYTON CLOTHIERS WIN TEAM HONORS

American Bowling Congress at Detroit is Brought to Close.

DETROIT, April 11 (C.P.) —The American Bowling Congress' 32nd annual quest for the world champion bowling team has ended with the crown resting on the collective brow of the Jefferson Clothiers' quintet of Dayton, O.

A 3,108 series rolled by the Ohioans Saturday night in a whirlwind finish which saw four of the five strike out and the fifth man come through with the spare needed for victory, withstood the battering of the final 64 teams last night.

The performance gave the Clothiers a seven-pin lead over the Perified Ice Cream five of Milwaukee, and won for each member a diamond medal and for the team a $1,000 cash prize.

The Milwaukee team won $965 for second place, while the Joe Voss Belters, third with a 3,046, will received $925.

With the serious business of settling team supremacy out of the way, the tournament ends late today, when doubles and singles entries make their final assaults on the Minoc event leaders. Charley Daw and Frank Benkovic, Milwaukee, top the doubles standings with a 1,358. Otto Nitschke, Cleveland, is the pace-setter in the singles, with a 731, while Harry Stewart, Cincinnati, leads in the all events with a 1,980 aggregate.

Murky Sky Overhead At Baseball Opener

WASHINGTON, April 11 (A.P.)—Rainy skies ushered in the big day of the baseball season, causing anxiety to the thousands of fans all set to witness President Hoover's throw of the first ball in the opening game of the major leagues.

The early morning drizzle after a night of steady rain showed no indication of lifting, bringing a possibility that the game between the Washington Senators and the Boston Red Sox might have to be postponed. However, only a downpour near playing time was viewed as sufficient grounds for putting off the contest.

Washington, with the President to lend color and ceremony, by custom, gets the opening day ahead of the other big circuit cities. Mrs. Hoover and many high officials who are enthusiastic ball fans were expected at the park, along with some 25,000 others.

SPIRITUAL TREAT AT MARK STREET

Thirty New Members Unite With Church on Sunday Morning.

SERVICE FOR MEN.

At the morning service the church participated in its largest Communion service, previous to which, in a ceremony for reception of members, the minister, Rev. Chas. D. Daniel, received into membership twenty-three people on profession of faith and seven people by certificate from other churches.

The choir assisted with the anthem, 'Because of His Love,' and Wm. Smith sang very appreciatively at the Communion service, 'Bow Down Thine Ear.'

In the evening, the Mens' Bible and Bowling Club led in one of their noted services of a mass meeting for men. Needless to say, the church was packed to capacity with the men and their families. James Ellis, preesident of the class, led the service.

The special speaker for the occasion was Wm. J. Green, International Secretary for the Gideons, who spoke on the subject—the active, living influence of the Word. He quoted many illustrations from his wide experience with the Gideons of the power for good that resulted in the placing of the Bible in the guest rooms of hotels and closed by giving a direct appeal for one and all to accept Christ and become one who would assist in the spreading of His Word.

Inspirational assistance was given to the service by the Male Voice Choir that led the singing and contributed a quartette, Messrs. Smith, Agnew, Binks and Greenslade, who sang effectively, 'Was It For Me.' Special numbers were the contributions of the Smith Bros., Mr. Thos. Smith playing Shubert's Ave Maria and the famous Traumeri, on the 'cello with the hand of a master while Mr. John Smith sang most fittingly, 'Comes the Dawn.'

Mrs. W. A. Greenslade, organist and choir leader is to be congratulated for her work at the organ and with her choir.

Next Sunday evening, a young men's serivce will be held, when the main address will be given by two very prominent young men, Wilbur Chapman of Africa, now editor of the Older Boys' provincial paper, and John Hunter, premier of the Older Boys' Parliament. The public are cordially invited to these services.

MEN'S BIBLE CLASS REPEATS PROGRAM

The Men's Bible Class of Mark Street United Church repeated their very entertaining miscellaneous concert on Friday evening, with a good-sized audience in attendance. Rev. Mr. Daniel acted as chairman.

The program commenced with a kazoo band playing "The Maple Leaf Forever" and "O Canada" behind the screen. Later, with the curtains opening, the band played and sang, "Hail, Hail the Gang's All Here," with the Rev. C. Daniel as leader. Then came the Bowlers' song; solos by Frank Pratt, accordian selections by George Furfy, a very funny hypnotic stunt by Max Pomeroy, stunts and songs by Charles Batchelor, banjo numbers by Max Peters, Irish songs by Clayton Telford, solos by the Rev. Mr. Daniel, selections by Bill Gracie, and some especially good renditions by Charles Boeker, a comedian of many years' experience on the English stage, also with Charlie Chaplin.

Costumes were varied, including darky, clown and negro outfits. Accompaniments were played by Mrs. Clayton Telford in very satisfying fashion.

The thanks of the club to those assisting were voiced by the president, James Ellis.

Obituary

MRS. MAURICE JAYNES.

Ipsa M. Mowry, wife of Maurice Jaynes of Spencer street, Cobourg, died in this city on Saturday following a brief illness. Surviving her are her husband, two brothers, Marcello Mowry, 588 Charlotte street, and Martin Mowry, of Toronto.

The remains are resting at the home of A. Throop, 252 Burnham street, from which place the funeral will be held on Tuesday at 2.30 p.m. to Mark Street United Church and to Little Lake cemetery. Services will be conducted by the Rev. C. D. Daniel.

MRS. THOMAS FITZGERALD.

The death occurred this morning of Mrs. Thomas Fitzgerald at her residence, lot 17, concession 6, Smith township, following an illness of some months' duration.

Born in Otonabee township on May 25, 1843, she was a daughter of the late Mr. and Mrs. Andrew Lumsden. She had resided in Smith township, where she was highly respected, for 65 years. Surviving her are two sons, Arthur and Wilbert on the homestead and daughters Mrs. Margaret McCoy of North Monaghan and H. Agnes at home, also four sisters, Mrs. H. Garbutt of Smith and Mrs. Marr and Miss Agnes and Alice Lumsden of Keene.

Mrs. Fitzgerald was a member Lakefield Presbyterian Church. The funeral is to be held on Wednesday at 2 p.m. from the family residence to Lakefield cemetery.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

REDECORATING RESTAURANT

With the approach of the annual tourist season, the proprietor of the Elite Restaurant is having his premises redecorated by Harris and Boddy. Along with the adjoining Elite Court there is now accommodation for 175 diners. Open day and night throughout the year, the Restraunt provides employment for fourteen people.

Claiming that his restaurant is one of the most up-to-date in the city, Mr. Yeates intends to keep it so and is now considering the installation of a $5,000 ice-cream plant.

FALLS DOWNSTAIRS

Falling downstairs on Saturday, Mrs. A. J. Chesher of Charlotte street, sustained a sprained arm and ankle from which she is reported to be recovering. Earlier in the week her husband received injury to one of his fingers, when a window which he was lowering slipped and trapped his hand. Mr. and Mrs. Chesher were both attended by Dr. D. W. Clarke.

RUG NEEDED.

A rug or similar floor covering is badly needed in a home where there is no money to purchase anything but bare necessities. Please telephone The Examiner and we will call.

TWO SMALL FIRES.

Two minor Alarms caused the only activity over the week-end at Peterborough Fire Department. The first was at 12.46 p.m. Sunday to 376½ Water street and the second this morning to 261 Hunter street west. Both were caused by defective chimneys.

STOVES NEEDED

The Examiner advertised on Saturday that several stoves were available, having been offered for relief purpose. We have now a list of about twenty people who want stoves, with only four available for their needs. If anyone else has a stove that is not in use, please telephone and we will call.

RIGHT NAME DOROTHY SELF

In the account of the presentation of certificates from the Royal Canadian Humane Association to three young girls who rescued John West from drowning in August last, the name of Dorothy Sills appeared as one of the recipients. The Examiner is informed that the correct name of this little girl, who assisted in the rescue, is Dorothy Self.

TO ADDRESS POULTRYMEN

"The Care and Handling of Baby Chicks" is the subject of an address to be delivered by S. Tooke of Toronto at the annual meeting of Peterborough Poultry Association, to be held on Tuesday evening at the Chamber of Commerce following the annual banquet. Mr. Tooke's address will be illustrated with slides.

AUCTION SALE OF FARM, STOCK AND IMPLEMENTS

I have received instructions from Mr. Fred Webdale, to sell on the property, Lot. 28, Con. 12, township of Smith, the following: 3 good horses, 8 head pure bred Holstein cattle, 13 head young cattle (extra well bred), 32 pigs, 125 white Leghorn pullets. Also a complete equipment of farm implements and machinery. Sale at 12.30 p.m. sharp, Wednesday, April 13, and strictly without reserve. R. H. Alford, Auctioneer. 2d, 86, 462

IN MEMORIAM

DUNFORD—In loving memory of our dear father, Arthur Dunford, who passed away April 11, 1931.

This day brings back sad memories
Of one who has gone to rest.
And those who think of him today
Are those who loved him best.
Peacefully sleeping, resting at last,
His weary trials and troubles are past.
In silence he suffered, in patience he bore
Till God called him home to suffer no more.

—Sadly missed by his daughters, Verna and Veleta.

IN MEMORIAM.

TULLY.— In loving memory of David Milton Tully, son of Mr. and Mrs. V. Tully, R.R. No. 3, who departed this life April 10, 1931:

Safely, safely gathered in,
No more sorrow, no more sin,
No more childish griefs or fears,

No more sadness, no more tears;
For the life so young and fair,
Now hath passed from eartly care,
God himself the soul will keep,
Giving His beloved sleep.

Safely, safely gathered in,
Free from sorrow, free from sin,
Passed beyond all grief and pain,
Death for thee, is truest gain.

For our loss we must not weep,
Nor our loved one long to keep
From the home of rest and peace
Where all sin and sorrow cease.

Safely, safely gathered in,
No more sorrow, no more sin,
God has saved from weary strife
In its dawn, this young fresh life

Which awaits us now above,
Resting in the Saviour's love,
Jesus, grant that we may meet
There, adoring at Thy feet.

—Sadly Missed By the Family Circle.

HOME EDITION

VOL. LXVIII., No. 86 — PETERBOROUGH, ONTARIO, CANADA, TUESDAY, APRIL 12, 1932 — PRICE THREE CENTS

YOUTHS GET 2 YEARS FOR LOCK-UP FIRE

NEWS IN BRIEF

SHORT ITEMS RECEIVED OVER C. P. WIRE.

CLOSER INSPECTION

ST. CATHARINES — Evidence that the United States is tightening up on liquor smuggling was obvious over the week-end, when handbags of women travellers were searched by customs officers at the Niagara Falls bridges. Street car passengers, the officers declared, had been coming to the Canadian side, buying the odd bottle, and then returning home to Niagara Falls, N.Y.

STRIKERS SET OFF BOMBS

GRANADA, Spain—Four bombs exploded at short intervals here yesterday as 4,000 left extremist construction workers began a strike demanding higher wages.

There were no casualities. Police were ordered out with riot guns and all radical labor centres were ordered closed. The bankers also went out on strike.

INQUEST RE-OPENS

BRANTFORD.—The inquest into the death of Amber Fay Boettger, 16-year-old Etonia girl, will be resumed in Burford this afternoon. Dr. Thomas Vaughn, wanted on a charge of manslaughter in connection with the death of the girl, is now held in Buffalo, awaiting the result of extradition proceedings.

MISSING YOUTH REPORTED

WILMINGTON, Del. — Charles Chickering, 16-year-old son of an employe of E. I. Dupont de Nemours Company, who was reported missing spent last night at the home of Mrs. William Boddy, at Rehoboth Beach, Del., she told authorities to-day.

LARGE BROKERAGE MERGER

NEW YORK, N.Y.—The largest stock exchange brokerage house consolidation of the new year was announced to-day when Shields Company took over the business of Morrison Townsend. Both firms are members of the New York Stock Exchange.

MISSING

TORONTO—Fears that Philip Cigient, 24, of Parry Sound, had met with foul play while enroute to Toronto a week ago was expressed by his brother Samuel here today. Samuel has instigated a search, led by provincial police and police between here and Parry Sound.

EX-PRESIDENT ATTACKED

BEIRUT, Syria—Soubhi Barakat, former president of Syria, escaped injury today, but two of his companions were wounded, in an attempt on his life by an assassin with a knife and pistol.

EAR SPECIALIST SHOT

VIENNA—Prof. Gustav Alexander widely known ear specialist was killed today in the street by a tailor's apprentice who shot him three times. The assailant was captured but police were unable to learn his motive.

NIGHT SHIRT COMING BACK

LONDON — The humble night shirt is staging a comeback and is all the rage among London men. It's a throwback of the old-fashioned night shirt, only it's brilliant colored and has a belt around the waist.

19 MISSING

MANILA, P.I.—Nineteen persons were reported missing to-day following the swamping of a small boat in a storm in the Batanes Islands between Luson and Formosa.

HIS OPERATION

LITCHFIELD.—When Fred Sammons says, "Now, let me tell you about my operation," his friends shouldn't yawn. It's really a story. They took him to a hospital to cut out his appendix, and found that he had two of them. Both were removed.

HOTEL BURNS

SUDBURY.—Fire early to-day partially destroyed the Paris Hotel here, with a loss estimated at between $10,000 and $18,000. All occupants of the hotel escaped, although some of them reached the street in night attire.

Mayor Of Oshawa Resigns His Post

OSHAWA, April 12 C.P.).—Mayor Peter A. MacDonald to-day submitted to the City Clerk his resignation from the office of Mayor following his appointment by the Public Utilities Commission to the position of accountant to the Commission, succeeding G. F. Shreve, who has been promoted to the general managership. Mayor MacDonald was elected in January, after seven years as an alderman, in a straight fight with Eddie McDonald.

It is likely that Ald. Louis Hyman, chairman of committee of the whole, will be named as acting Mayor, pending an election to choose a successor to Mayor MacDonald.

$20 BILL GIVEN TO PAY FOR PIE IS RECOGNIZED

Money is Snatched From Bakery Attendant's Hand and Woman Flees.

ALARM SPREAD.

Officials Believe Ransom Obtained by Estranged Member of Kidnapping Gang.

HOPEWELL, N.J., April 12.— A chic woman in a green town car became the quarry in the great Lindbergh kidnapping hunt to-day.

On the highways of many States, police sought her after a hawk-eyed bakery proprietress in Greenwich, Conn., spotted a $20 bill she proffered in payment for a strawberry pie as part of the $50.000 ransom mulcted from Col. Charles A. Lindbergh.

The hunt intensified when Detectives recalled that a green sedan was seen near the Lindbergh home on Sourland Mountain on the night of the kidnapping of Charles A. Lindbergh, Jr., on March 1.

This development, and a theory that the person who took Col. Lindbergh's $50,000 without returning the stolen child was an estranged member of the kidnap gang who no longer has the baby in his possession stirred the mystery to a new boiling point.

Police, wise in the unwerworld's ways, had expected the swindler or swindlers of the flying Colonel to wait months before trying to spend the cash obtained by a double cross, but the Greenwich development, assuming the bakery owner got the number of the bill right, showed they had dared to throw discretion to the winds.

Suspicion Roused

There was no indication as to whether the unknown woman actually was connected with the kidnapping or swindle, but the haste with which she fled when the number on the bill was pointed out, roused police suspicions

The proprietress, Mrs. Ella Decornille, had pasted beside her counter a list of the number on the $50,000, as sent out by the United States treasurer. A handsome, middle aged woman drove up to her shop last night, she said, with a liveried chauffeur at the wheel, and made a small purchase.

When she handed over the bill, Mrs. Decornille mechanically glanced at its number. It was KB03387539A, the bakery woman said.

Why this is one of the Lindbergh bills, she ejaculated.

The woman tore it from her hand, and sped away toward New York on the Boston Post Road. Police telephones clattered the alarm.

Woman is white, it said. Age 42. Five feet, six inches. Good look-

MUSKRAT CATCH OF FINE QUALITY

Skins Are Commencing to Reach Fur Dealers in Peterborough.

SEASON CLOSES APRIL 21.

Muskrat trapping which is now in full swing, promises to result at the close of the season on April 21 in a record catch, both as regards quantity and quality.

Cyril K. Lech, president of William Lech and Sons, Limited, stated to-day: "The open winter experienced this year has been particularly favorable to the muskrats. The catch in the Campbellford and Rice Lake districts is of a fine quality."

Although the trapping season does not close until the night of April 21st, small quantities of skins are already beginning to reach the various fur dealers in Peterborough. They are bringing prices ranging from 80 cents a skin down.

It will be recalled that last year the quantity of skins handled by the dealers was poor, while the quality largely graded low. Many of the skins were what are technically known as "paper skins." The condition was largely due to the low water which prevailed and which prevented the muskrats from frequenting their regular haunts.

At the close of the trapping season, a period of ten days' grace is allowed trappers in which to dispose of their catch. It is not expected that skins will commence to arrive in bulk until the end of the trapping season.

Jap Ship on Rocks With 981 Aboard

TOKYO, April 12.— (AP)— A despatch to the Rengo News Agency from Hakodate, Japan, today said the steamer Taisei-maru No. 3, carrying 950 Japanese men and women workers to the fisheries and canneries of the Northern Seas fog the summer season was grounded on the rocks of Murakami Bay, on Paramushiru Island in the northern Kuriles. The ship also carries 31 of a crew.

THREE TO PROBE C.N.R. OFFICIALS' EXPENSE SHEET

Purchasing of Thorntons Residence in Montreal by Clerk to be Investigated.

"C. N. PAYING FOR IT."

Duff Urges Scope be Broadened for "Real Clean-up."

OTTAWA, April 12.—(C.P.)—The House of Commons Committee on Railways and Shipping to-day decided to appoint a sub-committee of three to investigate the expense accounts for 1931 of the officials of the Canadian National Railways. It will also enquire into the circumstances surrounding the purchase of the residence in Montreal of Sir Henry Thornton. The sub-committee was named by the chairman as follows:

Peter McGibbin (C. Muskoka), F. R. McMillan (C. Saskatoon), and W. D. Euler (L. North Waterloo).

The matter arose when Dr. McGibbin, recalling that the committee had rejected his proposal at its last meeting for a photostaic reproduction of the 1930 expense accounts, amounting to $1,952,000, moved for the appointment of a sub-committee to investigate these accounts. His resolution called for the assistance of auditors to segregate and analyse the items in the accounts and vouchers.

Duff's Objection.

Objection that the committee had not the authority to enquire into the 1930 accounts was taken by William Duff (Lib. Antigonish). The committee had adopted the 1930 report last year.

He doubted, if the sub-committee were to attempt examination of all the vouchers, that it would be able to report to the main committee this year. There may be other matters that should be investigated, he thought.

If we are going to have a clean-up, said Mr. Duff, let's have a real clean-up.

The matter should either be left to the directors, or it should be gone into properly and the sub-

(Turn to Page 5 Please)

SUGGEST B. C. CEASE GIVING DIRECT RELIEF

VICTORIA, April 12 (C.P.). — Direct relief as wasteful and demoralizing in its effect should be discontinued as far as possible in British Columbia in favor of work. This is one of the recommendations embodied in the report of the Legislature's Unemployment Committee, which is expected to be brought before the House to-day.

The report cites numerous charges in connection with relief camps which the committee found to be without basis in fact.

A National Board for Unemployment Relief is urged by the committee, the board to have the fullest powers to create co-ordination between the Dominion and Provinces, and through the latter wit' the municipalities.

World of Illusion

LONDON, April 12 (A.P.)—Sir Oliver Lodge, testifying to-day in a woman spiritualist's libel suit against a newspaper, told of having communicated with his son, Raymond, after the boy had been killed in the Great War.

He asked Raymond's spirit, he said: "You live in a world of illusion?" And the boy replied: "So do you, father."

Those who inhabit the other world, Sir Oliver told the court, are in space all around us. He said there are many grades of existence in the other world and that all who inhabit it are first in a state of illusion in which they can get whatever they want.

Son Of Diamond King

"ALL CARBOT" ROMANCE.

Woolf Barnato, son of Barney Barnato of Kimberley diamond fame, is shown here with his bride, the former Miss Jack Claridge Quealy daughter of a California coal merchant. They will take up their permanent residence in London.

COUNTY ROADS IN BAD SHAPE

Motor Traffic is Practically Impassable on Roads Throughout District.

MOTORISTS DRAWN OUT.

Motor traffic throughout the district has been almost at a standstill for the past several days, since many of the roads in Peterborough County as in surrounding counties are practically impassable.

One motorist who ventured the trip yesterday to the city from Hiawatha reported that he had to be drawn out by horses three times, while even on Highway No. 7 to Norwood farmers' teams have had to be called into service again and again to draw out hapless motorists.

"The cross roads throughout the county are very bad and no motor traffic can get over them," stated County Clerk Ed. M. Elliott. "However," he continued, "most of the county roads are passable, although they are in a bad state.

"Yes, they are much worse this year than last," said Mr. Elliott, replying to a question. "But there have been some years in the past when the roads were just as bad and perhaps worse."

Nothing could be done about the state of the roads, he said. Their condition is due, he explained, to the open winter and the late frost coming quickly out. The bottoms in many places have given way.

The highway to Lindsay was closed yesterday afternoon because so many cars were being stuck in the mud on the detour near the Scugog town. In many places farmers were reaping a rich harvest by keeping their teams waiting in readiness near excepitonally bad spots to give motorists a tow from the clinging mud.

Roads on the south-west extremity of the city were said to be impassable and taxi owners were being careful to learn the condition of the roads before they sent their drivers out for passengers.

Charter Is Granted Kawartha Golf Club

Public notice of the charter granted the Kawartha Golf and Country Club was printed on April 2 in the Ontario Gazette. The notice is signed by F. V. Johns, Assistant Provincial Secretary and provides the charter to the club—"To establish and maintain a golf and country club and to do all things requisite for the accommodation, recreation, convenience and entertainment of the members thereof and to do all such other things as are incidental or conductive to the attainment of the above objects; with its head office at the said City of Peterborough; and its first directors being Carl August Salmonsen, Louis De Witt Magie, Robert Edmund Layfield, John Archibald Bell and Robert MacMorran."

Too Many Widows

CHICAGO, April 12. (C.P.)—Nine widows lost out on the $10,000 life insurance policy of Clarence Holmes, a Negro war veteran.

The decision was given by Assistant Probate Judge Oscar Caplan who looked at the nine women and said:

Now if any of you happened to be the tenth wife, it would be different. She was the tenth in this accounting, but the first in order, as Holmes got around to marrying her before any of the rest of you."

But unfortunately, my friends she is dead.

Holmes was killed by one of his wives last June. The $10,000 was awarded his sister.

CALEDONIA MILL SWEPT BY FIRE

Quick Response by Hamilton and Hagersville Brigades Saves Village.

$40,000 DAMAGE.

HAMILTON, April 12. (C.P.)— Heavy streams pumped from the Grand River by equipment from outside points saved the village of Caledonia from destruction early this morning when fire assumed disastrous proportions.

The blaze broke out about 2.34 a.m., in the premises of the Caledonia Milling Company, situated in the centre of the village. Although the fire originated in an upper storey, by the time the alarm had been turned in, the flames had eaten their way down to the ground floor and were roaring through the roof. Sparks flew hundreds of feet in the air and were carried across the tops of adjoining buildings and houses on the wings of a strong southwesterly wind.

Call For Aid

When it was seen that the one-piece equipment operated by the Caledonia brigade could not cope with the outbreak, alarms were turned in to Hagersville, about ten miles away, and Hamilton, 14 miles distant. The Hagersville department responded promptly and this city sent District Chief Hotcun with a heavy motor pumper. Three lines each were laid from the Grand River and soon tons of water were poured into the burning structure.

By dawn, the flames were under control, and although the large milling company building had been destroyed, damage was limited to the structure in which the fire originated. Loss to the milling concern, the Eastern Star club rooms, the I.O.O.L. hall, and the Ramsay Brothers general store, will exceed $40,000.

The cause of the blaze is not known.

Samuel Cunard, the founder of the famous line of steamships which still bear his name, was a native of Halifax, Nova Scotia.

JUDGE HUYCKE MOST LENIENT WITH YOUTHS

Sentences to Run Concurrently With Magistrate's Sentence.

MUST WRITE PARENTS.

Promise to Apply Themselves to Their Allotted Tasks in Prison.

(By Staff Reporter)

COBOURG, April 12—Appreciative of the judge's sympathy and kindly advice, two prisoners in County Judge's Criminal Court at Cobourg this morning gave an undertaking to write to their parents and to apply themselves to their alloted tasks while serving sentences at Portsmouth Penitentiary.

Facing charges of arson, arising out of the melee at Cobourg town lock-up on March 19, the prisoners were Edward Potter, 21, of Belfast, Ireland and William Roberts, 23, of Montreal. They had previously been convicted by Magistrate Floyd on charges of assaulting Provincial Constable William Carey and for which they were sentenced to serve two years imprisonment.

Both Pleaded Guilty

To the charges of arson, both prisoners entered a plea of guilty, and His Honor Judge E. C. S. Huycke taking a sympathetic view of the case sentenced the men to two years in the penitentiary, the

(Turn to Page 5, please)

BOARD FAILED TO GET QUORUM

Postponed Meeting of Board of Education Failed to Materialize.

ONLY SIX PRESENT.

For the second time within a week, a lack of a quorum has caused postponement of the meeting of the Board of Education.

It is the third time within the last ten years that the Board has been unable to transact its business because of the fewness of members present.

The situation which arose previously in September 1929 was repeated on Tuesday of last week when the regular monthly meeting of the Board was scheduled. Last Tuesday there were but six members present. A quorum of the Board consists of seven members. Again last evening the experience of last week was repeated, those present being E. F. Reid, James Dutton, W. J. Hancock, I. P. McNabb, Dr. J. J. Craig and Dr. G. Raymore Scott.

The six members of the Board waited in vain for almost an hour after the time scheduled for the commencement of the meeting, in hope that the single member required to complete a quorum might put in an appearance. An effort was made to get in touch with Dr. A. Moir, but he was apparently busy with his professional duties.

Mrs. W. R. Morris, chairman of the Board, is out of town as also was John R. Marshall. The bad condition of the roads it was surmised had kept the three county members away from the meeting.

Secretary G. H. Thompson adjourned the meeting, stating that there was little but routine business to transact, and which could under the circumstances be held over to the next regular meeting of the Board.

King Winter Makes Final Bow In North

NORTH BAY, April 12 (C.P.). — Following a spell of warm spring weather, Old Man Winter made a final bow throughout Northern Ontario to-day, sending the mercury down below the freezing point and leaving most sections covered with fresh snow. Cloudy skies were reported throughout the north and temperature readings early to-day ranged from 4 to 35 above zero.

Rain fell south of North Bay along the Allandale Division of the Canadian National Railway.

Ecuador Navy Back in Fold

GUAYAQUIL, Ecuador, April 12 (C.P.).—Ecuador got its navy back to-day when crews were put aboard the gunboats Colopaxi and Tarqui which were recovered in the night from the mutineers who seized them in Guayaquil harbor last week.

The naval engagement, in which not a shot was fired, followed the recapture of the fort at Punta Piedras, where another rebel group was installed. Marines in small boats surrounded the gunboats, scrambled aboard and overpowered the mutineers after a brief hand-to-hand fight.

FISCAL POLICLY OF GOVERNMENT IS UNDER FIRE

Ralston Moves an Amendment to the Rhodes' Budget.

STEVENS REPLIES.

Action in Appying Dumping Duties Last Fall is Defended.

OTTAWA, April 12—(CP)—Heavy artillery swung into action yesterday when the budget debate opened in the House of Commons. J. L. Ralston, financial critic for the Liberals launched a many-sided attack on the Bennett government, charging, particularly that its fiscal policy had resulted in rising taxation, and increased debt.

From the treasury benches, H. H. Stevens, Minister of Trade and Commerce, made a plea to all parties in the house to co-operate in the study of conditions underlying depression so that the government may be guided, assisted and supported in its efforts to deal with these problems in conjunction with governments in other parts of the world. At the same time, stabilization of currency was pointed to as the most logical avenue to better days. Solve that problem, said Mr. Stevens, and bright skies would break through the clouds.

Defends Dumping Duties

Defending the government's action in applying dumping duties to offset the fall of the pound sterling last fall, after Great Britain abandoned the gold standard, Mr. Stevens said this course was taken to thwart speculators. Canadian firms were preparing to place extensive orders in Great Britain to take advantage of depreciated currency. The result would have been disastrous to Canada and unfair to everybody.

On the broad question of dumping duties, Mr. Stevens asked: If a country with a depreciated currency were suddenly to commence shipping goods into Canada at prices obviously below costs of production and Canadian industry were threatened, would Canada be justified in adopting measures sufficiently effective to prevent such goods entering. He answered with an emphatic, yes.

Liberal Amendment

Climaxing his speech Col. Ralston

(Turn to Page Six. Please)

FINLAYSON SEES NO AID FOR MILLS IN MANITOBA

TORONTO, April 12 (C P.).—This company has four mills in Ontario which are closed down. We can't force them to run here, so I really don't see how we can help the Manitoba mills, declared Hon. William Finlayson, Minister of Lands and Forests in the Ontario Cabinet, to-day. Mr. Finlayson was referring to a speech made by John T. Haig, Conservative member for Winnipeg, in the Manitoba Legislature yesterday, in which Mr. Haig charged pressure from the Ontario Government led to the closing down of the Pine Falls mill of the Manitoba Pulp and Paper Company.

The whole trouble is, of course, the newsprint business has gone to pot. Consumption has fallen away, and there is not enough work to keep the mills operating. We would like very much to be able to have the company keep operating, but have no power to compel them to do so, Mr. Finlayson said.

STORY HOUR RAIDED

BUDAPEST — Police raided a children's story hour today, rounding up an audience of youngsters from ten to twelve years old who were listening to fairy tales and looking at pictures which the authorities said emanated from Moscow.

Six Communists in charge of the program were arrested on a charge of disseminating treasonable propaganda. The children were sent home to their parents.

TARDIEU RAPS U. S. DELEGATE ON PROPOSALS

Points Out Gibson Would Abolish Tanks, Gas, But is Mum on Battleships.

URGES COMMON ACTION.

Suggests Non-Members Remember Parley is Under Auspices of League.

GENEVA, April 12.—(A.P.)—Premier Andre Tardieu of France, representing his own government at the disarmament conference, today assailed the disarmament proposals advanced yesterday by Hugh S. Gibson, the U. S. representative.

Mr. Gibson proposed that tanks, big guns and gases be abolished in the interests of security, but he made no mention of battleships, the most obvious aggressive weapon, said M. Tardieu.

Abolition of certain types of aggressive arms will not necessarily provide security, he said, but might on the contrary be disadvantageous to an invaded country. The only means to security, he declared, is common action against an aggressor.

This was generally accepted as a re-statement of the French proposal for placing offensive forces at the disposal of the League of Nations.

In any case, the Premier reminded the conference, this disarmament meeting is under the auspices of the League of Nations, and he suggested that non-members of the League keep that in mind.

CRUISER SAILS INTO ST. JOHN'S

Arrival of Warship Startles Thousands of Newfoundland Citizens.

WARNING TO RIOTERS.

ST. JOHN'S, Newfoundland, April 12 (C.P.)—A grim, gray warning to rioters who caused disorders in the Newfoundland capital last week, the light cruiser, H.M.S. dragon, of the Royal Navy, nosed into St. John's harbor this morning and anchored in the stream.

Word that a cruiser had been despatched to St. John's by the British naval authorities reached here several days ago, but when members of the Government stated they had no knowledge of such an order, the report was discredited. So the sight of the Dragon this morning startled thousands of citizens.

All Quiet in City

All was quiet in the city when the ship arrived, and had been for days. Two thousand citizens, including many war veterans, had enrolled for police duty in case of further disturbances, but their services had not been required.

Prime Minister Sir Richard Squires, who had been almost a refugee for several days following a riot last Tuesday, was still in office and although there was uncertainty in regard to the strength of his Government, he was on record as having absolutely no intention whatever of resigning.

Interest centered around announcement of Governor Sir John Middleton that he would appoint a Royal Commission to investigate the disorders at the Colonial Building, and it was expected the Assembly would resume its sessions within a few days.

Four Women Rescued In Flaming Building

MONTREAL, April 12. (C.P.) — Firemen rescued four women from flaming buildings in a downtown fire here to-day. The fire swept through five buildings with damages estimated at $75,000.

Mrs. A. Harvey, Miss F. Boucher, Mrs. John Pratt and Mrs. M. C. Baillargeon were not wakened by the roar of the flames. Firemen roused them from their beds and carried them to safety down extension ladders.

The outbreak had its origin in a ground floor printing plant and licked through old woodwork to spread to neighboring buildings.

The fire damaged, in addition to the printing plant and flats above, a candy store, a tailor's shop, a music store and several residential flats.

Ashes Blanket 800-Mile Area; Heavy Shocks

Government Prepares to Evacuate 80,000 Citizens in Argentina's Leading City—Dust 14 Inches Deep in Many Places—Flashes of Flame Stab Heavy Smoke Pall.

ERUPTIONS SEEN AS POSSIBLE FORERUNNERS TO ANOTHER WORLD-WIDE VOLCANIC WAVE

By Godeon D. Seymour, A. P. Staff Correspondent

BUENOS AIRES, April 12. —(AP)— Government officials made tentative preparations today to evacuate the 80,000 inhabitants of Mendoza, Argentina's principal western city, as a chorus of erupting Andean volcanoes continued to menace a wide area with dust and gases.

Ashes lay more than fourteen inches deep over some of the territory today, westerly winds showered the fine dust down in a fan-like belt 800 miles across Central South America and Martin Gil, local meteorologist, expressed the opinion that the current eruptions might be the forerunner of a world-wide volcanic wave.

He recalled the eruptions of Vesuvius, the San Francisco earthquake and the earthquake at Valparaiso, Chile, which followed each other closely in 1906.

Officials here were considering requests for railway facilities to begin the evacuation of Mendoza and other afflicted areas should the situation grow worse. Half a dozen villages near Mendoza, which was shaken three times yesterday, awaited the arrival of government trucks bearing first aid supplies to the people, many of whom have been without sleep for two nights, terrified by the rain of ashes and the sulphurous gases.

Cracks Appear

Volcanoes were becoming active which have long been considered dead. At Malargue earth cracks appeared last night and the ash blanket was 13.5 inches deep before midnight.

In spite of the widespread terror throughout the western territory more conservative scientists here were inclined to believe that the volcanic activity was more frightening and discommoding than actually dangerous.

The Superintendent of Telegraphs in the Mendoza district telegraphed the Minister of Interior early this morning that darkness, ash clouds and gases overhung the towns of Chilecton San Calos, La Consulta, Campo Los Andes, San Rafael and Tunuyan yesterday. From these foothill towns the 80-mile fan of ash showers extended across South America at midnight, enveloping Buenos Aires, Montevideo, most of Uruguay and even the ships along the Atlantic seacoast in a greyish cloak.

Continues Second Day

The shower here was of an almost invisible powder, but it continued into its second day and left a thorough coating over streets and roofs, like snow.

Reports from San Rafael said breathing was difficult there and the rumblings continued, with bright flashes in the direction of the Andes.

Many towns throughout the country burned street lights yesterday. Business houses at Trenque le Quen, an important town 300 miles southwest of here, closed because of the ashes and darkness.

Fears Increase

SANTIAGO, Chile, April 12 (A.P.) —Fears of hundreds of thousands of inhabitants of Central Chile were increased to-day, as earthquake shocks and ground settlings grew more frequent and darkness covered a wide area showered by dust from more than a dozen erupting Andean volcanoes.

The area extended from Talca in the south to several miles north of Santiago. Since Sunday Talca has been shaken a score of times by earthquakes reminiscent of the 1928 earthquake disaster.

Two more volcanoes, San Jose and Maipo, joined the erupting group to-day, both of them near here. A change of wind to the north brought the ashes down on Santiago last night and the thickness of the atmosphere shut out the flashes which had been illuminating the southern sky. The San Jose volcano is only a short distance from a military road leading to Santiago.

The temperature dropped sharply in the centre of the eruptive zone. Freezing temperatures took the place of normal autumn weather around Curaco. It was pitch dark yesterday at Curaco and pedestrians on the streets carried umbrellas to protect their eyes from the falling ash.

Flies Into Danger Zone

Capt. Ralph H. Wooten, military and air attache of the U. S. Embassy, made a two-hour flight over the area and said a dense pall of purple prevented him from flying

(Turn to Page 6)

Price of Babies Added to Slump

CHICAGO, Apr. 12—Prices of most everything else have been reduced, so why not reduce the price of babies? inquired the business manager of a maternity hospital here, announcing a new rate of $55 which includes ten days' hospital care for the mother.

WOMAN KILLED NEAR GRAFTON

Leaving Father at Station Grafton Woman Struck By Train.

WATCHING SECOND TRAIN.

BELLEVILLE, April 12. — Mrs. Arthur Douglas, 35 years old, resident a few miles north of Grafton, was killed when the buggy in which she was driving was struck by Canadian Pacific Railway passenger train No. 20, eastbound.

The accident occurred about 10 o'clock yesterday morning. Mrs. Douglas had taken her father, T. Ladu, to the Canadian National Railway station. He was being transferred to Kingston Hospital for treatment. After bidding her father good-bye she went to make a call south of the Canadian Pacific Railway, which is about 400 feet south of the Canadian National Railway main line. Coming back she watched a westbound Canadian National Railway freight train approaching, but took no notice of the Canadian Pacific Railway train. The buggy was directly on the tracks, and was hurled a considerable distance into the ditch. Dr. G. M. Ferris of Cobourg, Coroner, and Provincial Constable W. Carey, also of Cobourg, hurried to the scene and an inquest was opened, being adjourned until April 18, after a jury had been empanelled. Mr. Ladu was notified of the fatality on his arrival in Belleville, but proceeded to Kingston. Mrs. Douglas is survived by her husband and a 9-year-old boy.

The Canadian Pacific Railway train was driven by Engineer T. Lloyd. The conductor was James Raferty. There are no gates or wig-wag signals at this crossing.

PROFESSOR BRETT SPEAKS.

COBOURG, April 12 (Special).—Professor G. L. Brett of the University of Toronto was the special speaker yesterday at the regular meeting of the Northumberland and Durham Ministerial Association, which was held in St. Peter's Parish Hall. Professor Brett took for his subject "Modern Philosophy, Psychology and Religion." Members of neighboring associations were present from East Northumberland and other points. Rev. M. Meldrum, Port Hope, president of the association, presided.

American exports to the Far East increased 12 per cent last year.

Treat inflamed throat EVERY HOUR,

To stop an irritating cough that keeps you awake at night, breathe the healing vapor of CATARRHOZONE. Keep the INHALER by your bedside. A few breaths drawn through the inhaler bring comforting relief—the sore throat is healed—the hacking cough is relieved—you are able to sleep undisturbed. Because CATARRHOZONE penetrates instantly through all the breathing organs, it can't help but destroy colds, grippe, catarrh. Sold by chemists everywhere.

Use Catarrhozone and Get well.

Downeyville

Miss Mary Costello has returned to her school in Chesterville after spending the holidays the guests of her parents, Mr. and Mrs. Edward Costello.

Mr. and Mrs. Martin Herlihey and family spent Saturday the guests of friends in Peterborough.

Mr. William Harrington has gone to Ennismore where he has secured a school.

Miss Violet Duffy has returned to her school at Marmora.

Miss Rita Scully has returned to St. Joseph's College, Toronto to resume her studies.

Born—To Mr. and Mrs. Fergus Murray, a son.

Born—To Mr. and Mrs. Stanley O'Neill, a son, last week.

Spring Weather Brings Out Bear Cubs

VENTURE FROM DEN ONLY TO BE HURRIED BACK.

"Wynken, Blynken and Nod," three cubs born to European brown bears during the hibernation, left the dark interior of their pit for the first time to take a look at the world in St. Louis zoo. No sooner had they appeared before the public gaze under a warm sun than the mother bear immediately chased them back again. Here we have Wynken and Blynken following their proud parents while Nod, true to tradition, still sleeps soundly inside his pit.

CIVILIZATION NEW TO WORLD IS BEING PRODUCED IN RUSSIA

Authority Sees Changes as Tragedy for Older Generation—Salvation for Youth.

PEASANTS LAUDED.

MONTREAL, April 12 (C.P.). —Despite the fact that there is no Communism in Russia, but really state capitalism, Maurice Hindus, noted authority on Soviet Russia finds in that country a new mentality, a new civilization, a new psychology that has produced a type of civilization such as the world has never seen. This statement was made here last night in the course of a Service Club address.

Declaring he had no axe to grind, Mr. Hindus pleaded for a dispassionate consideration of the Russian scene and acknowledgment of the fact that Russia is different from the rest of the world, always has been different, principally because two great movements which profoundly affected the rest of the world missed Russia completely — chivalry and puritanism.

Momentous Changes.

Whether personal opinions about Russia were favorable or unfavorable, the speaker stressed that Russia was extremely important to any broad understanding of human affairs because her revolution was the most momentous thing that ever happened in the history of the world—momentous in that it changed so many things which we had

RAILROAD OFFICIAL PASSES.

STRATFORD, April 12 (C.P.). —W. E. WEEGER, superintendent of transportation, Canadian National Railways, Stratford Division, died suddenly this morning on a train en route from Owen Sound. Mr Weeger formerly lived at Barrie, Ontario.

LABOR PARLEY OPENS SESSION

Senator Robertson Elected President—Representatives 50 Nations Attend.

THREE CHIEF PROBLEMS.

GENEVA, April 12.—Senator Gideon Robertson, former Minister of Labor in the Canadian Government, today was elected president of the International Labor Conference, annual assembly of the international labor office, which opened its sixteenth session here.

Representatives of 50 nations are participating in the conference which is expected to continue three weeks and will share with the general disarmament conference the use of the municipal auditorium. There are three items on its agenda.

The first question concerns the age of admission of children to employment in non-industrial occupations. It will be discussed in its second stage, the first discussion having been held at the previous session, with a view to the conclusion of an international convention.

The second question deals with the abolition of free-charging employment agencies. This will be the first debate upon this subject, the final discussion being set for the next conference session. The international labor office has received reports indicating that some such employment agencies have been taken advantage of the economic depression to charge exhorbitant fees for job placements.

Also up for first discussion at this session is the question of old age pensions.

END OF SESSION UNCERTAIN

REGINA, April 12.—(CP)— Hopes of bringing the present session of the Saskatchewan Legislature to an end tonight had become faint today owing to development of a bitter debate on the government's redistribution bill which would cut the membership of the house down from 63 to 52. The sitting ended last night in an uproar when members' tempers became frayed after an all day debate which lasted from early morning till 11 o'clock at night.

BODY FOUND ON HIGHWAY.

BRANTFORD, April 12 (C.P.). —Shortly after five o'clock this morning the body of a man, badly mangled, was found on No. 2 Highway, west of Paris.

ONTARIO GRAIN.

TORONTO, April 12.—Wheat, .32c to 54c; barley, 35c to 40c; oats, 25c to 27c; rye, 45c; buckwheat, 43c to 45c; corn, 36c.

MEN ASK SHORTER WEEK IN PLACE OF LAY-OFFS

MONTREAL, Apr 12—A proposal for a shorter working week in the Canadian National Railway shops were in lieu of layoffs has been put forward by the men, Robert Menary, president of the Federated Shop Trades, announced here yesterday. Mr. Menary stated R. J. Manion, Minister of Railways, had promised favorable consideration of the proposal. Details had been forwarded to W. A. Gordon, Minister of Labor, and J. S. Woodsworth, leader of the labor group in the House of Commons, he said.

OTTAWA PARLEY SIGNS HOPEFUL

Chamber Commerce Head Sees Economic Moves as Sign of Success.

WIDE PREPARATIONS.

ST. THOMAS, Ont., April 12 —(C.P.)—Probably never before has there been a time in the history of the British Empire when nations of the Commonwealth concentrated so earnestly upon preparations of an economic character, W. L. McGregor, President of the Canadian Chamber of Commerce, said to-day. He considered the attitude an augury of success at the Imperial Economic Conference in Ottawa this summer.

Mr. McGragor said the chamber had reason to know the Dominion Government is carrying out a practical programme of economic research in preparation for the conference and that all pertinent data will have been expertly analyzed and considered by the time the conference assembles in July.

Canada Preparing

In an effort to locate potential markets for British goods and to discuss plans for development of Canada's Empire trade, Mr McGregor is making a tour of Ontario. He is accompanied by W. M. Birku of Montreal, vice-president of the Federation of Chambers of Commerce of the British Empire and C. B. Gundy of Toronto, past president of the Canadian Chamber and W. McH. Clarke, secretary.

Chambers of Commerce and business associations throughout the dominion, Mr. McGregor pointed out, also are taking a practical interest which should produce valuable material for study at the conference and later throughout the empire. Mr. Gundy foresaw security for Canadians, he said, in the increasing tendency to look to Empire neighbors for satisfactory trading arrangements.

Youth is Missing; Kidnapping Feared

WILMINGTON, Del., April 12.—Police of three States were looking for 16-year-old Charley Chickering to-day, whose disappearance was well publicized because of an erroneous report that he was the son of the president of E. I. Dopont de Nemours Co.

Horace Chickering, the youth's father, is a technical investigator in the development of the powder company. He reported his son's disappearance to authorities last night when he failed to return home from a hunting trip in his automobile.

Two Are Arrested For Whitby Robbery

OSHAWA, Ont., April 11. (OP)—Alleged to have broken into and robbed the clothing store of J. F. ooth at Whitby early Sunday, Allan Levang and George Clark, of Toronto, are in jail at Whitby today. The men are alleged to have escaped from the store after being observed inside by a constable.

Three motorists who claimed their automobile had been stolen near Highland Creek brought the two into the police station, declaring they had caught them on Danforth Avenue in Toronto.

CANNIFTON MAN STRUCK BY CAR

John Rosevear is in Serious Condition in Belleville Hospital.

DRIVER NOT HELD.

BELLEVILLE, April 12. — John Rosevear, 68 years old, farmer-resident in the Village of Cannifton, was struck by a motor car driven by Roy Rose of Holloway on the Belleville-Cannifton Highway, late Sunday night, and is confined in the Belleville Hospital with a fracture of the skull and internal injuries. Late last night the elderly man had not regained consciousness, and it is not expected he will recover. Traffic Officer W. O. Frink investigated the accident, interviewing the driver of the car, but on his statement, allowed him his freedom. Rose told the officer that Rosevear was walking in the same direction he was travelling, and as a car was approaching with glaring light, he did not see the man until he struck him. The driver stayed at the scene of the accident until the arrival of the police.

Frankford Farmer Suffers Fire Loss

BELLEVILLE, April 12 (C.P.)—A barn owned by Harvey Patrick, Frankford, was completely destroyed by fire when a lantern upset Sunday night. Loss is estimated at $5,000, partly covered by insurance.

When you shop———

Do you buy what you want

or WHAT SOMEONE WANTS TO SELL YOU?

What a pleasure it is to shop when you know exactly what you want and can get it without trouble.

And what dissatisfaction often follows, if you let yourself be talked into buying some other article instead!

You probably know how disappointing such purchases often are. Most women do! For even at the grocery or drug store insistent salespeople will sometimes urge you to buy something "just as good" as the product you request.

When you ask for certain products which you know are dependable, why should any clerk insult your judgment by insisting that you take other brands instead?

There is always a reason. Usually a very selfish one!

At times, of course, a store "runs out" of the brand you ask for. But some stores seem to be deliberately "out" all the time. Others, even though they have the brand you want, will very often try by sheer persuasion to sell you some other in its place.

When this happens, frequently it is because the merchant reaps extra profit, or the clerk a commission, by switching you to the unknown and often inferior merchandise!

Many of the best stores everywhere forbid this practise. When you buy from them you are always sure of getting exactly what you ask for; certain of receiving full value in the merchandise you want for every penny you spend!

But if you are offered something "just as good" as the thing you ask for, be firm! Insist on packaged products which you know through experience, by brand, or by the reputation of the maker. Such products are often advertised in this newspaper. Be guided by what you know, and you will always be sure of full value for your shopping dollars.

1008 — REXALL DRUG STORES IN CANADA — 1008

WHAT IS A *Rexall* ONE-CENT SALE?

IT is a sale where you buy an item at the regular price, then another item of the same kind for one cent. As an illustration: The standard price of Klenzo Dental Paste is 50c, you buy one tube at this price and by paying 1 Cent more, or 51 cents, you get two tubes, and save 49 cents. Every United Drug Co. article in this sale is a high quality guaranteed product, just the same as is sold every day at the regular price. No limit—buy all you want, but on Thursday, Friday and Saturday only!

SPRING 1¢ SALE

ONE CENT SALE

SUMMER 1¢ SALE

A PROFIT-SHARING METHOD OF ADVERTISING

THIS sale has been developed by the United Drug Co. as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you two full size packages of high quality merchandise for the price of one, plus one cent. It costs money to get new customers, but the sacrifice in profit is justified, because we know the goods will please you.

TUESDAY, APRIL 12, 1932

THE GERMAN SITUATION.

While the re-election of President Von Hindenburg is satisfactory to those who realize the importance of sane leadership in Germany during these troublesome times, the figures of Sunday's election when carefully studied should give some cause for alarm.

When it is realized that the Hitler movement is not ten years old and that it started with only a handful of men, there is something a bit disconcerting in the fact that some thirteen million electors supported Hitler in the last election.

If his effort grows in numerical strength as steadily during the next few years the Hitler goal may not be so far off as Von Hindenburg's triumph would seem to show, and the peace of the world would undoubtedly be threatened should the National Socialists succeed in grabbing the reins of power.

Many commentators are fearful that the Hitler snake has not been killed, but merely "Scotched," and they feel that the strength shown by the movement in the last two elections is a matter for serious consideration.

However, the situation has been saved for the present, and for that the world should be thankful.

VANDALISM.

It is difficult to think of language strong enough to condemn the vandals who invaded the wild game sanctuary of the Peterborough Fish and Game Association on Saturday night and fired at the wild geese which were tarrying there on their way to the North.

For some years the association has been supplying food for these birds on their migratory journeys, with the result that a small pond on the farm of W. H. White in North Monaghan has become recognized by the wild geese as a sanctuary where they could safely rest for a while, and they have been coming in ever-increasing numbers.

The unwarranted attack made on Saturday night, it is feared, will offset the whole effect of several years' campaign, as the feathered visitors were so badly frightened that they are not likely to return to this district.

The action of these raiders shows them that they are not only devoid of imagination but that they are ignorant of the game laws.

They have placed themselves in a position to be heavily fined, and in the interest of game conservation, all friends of animal and bird life will hope that the guilty parties will be located and properly punished.

NOT VERY LIKELY.

It is time, as the Border Cities Star points out, that if the Ontario Government wants to permit the sale of beers and wines in hotels, restaurants and clubs, it can do so merely by a simple amendment to the Liquor Control Act and there would be no need of holding an election.

It is also true, however, that if the Henry Government were so ill-advised as to take such a step without consulting the people they would be committing political suicide.

No matter what may be the feeling in the Border Cities in regard to this matter, there is no doubt that the general sentiment throughout the Province is opposed to the restoration of conditions resembling those of the old open bar-room days, and Mr. Henry is surely not so hopelessly out of touch with public opinion as to be persuaded to change the Liquor Control Act without a clear mandate from the people.

Neither on this issue nor any other will there be an election this year, The Examiner is confident.

The Government has not consolidated its position very successfully in recent months, and to face the electors in a general appeal at this time is undoubtedly as far from the thoughts of the Premier and his associates as is the idea of amending the Liquor Control Act as suggested by our Windsor contemporary.

CANADA'S OLYMPIC TEAM.

The Toronto Telegram in a recent editorial strongly protested against any federal grant for the purpose of helping to defray the expenses of a Canadian team at the Olympic Games this summer, arguing that the providing of such sums should be left to the generosity of private contributors.

While The Examiner is not prepared to go that far, yet we are strongly of the opinion that the Canadian Olympic team should be kept down to those athletes who have a reasonable chance to win points, and above all, that the small army of officials who usually manage to get themselves appointed to accompany the contestants should be left at home, or at least that they be taken only at their own expense.

There is no justification with financial conditions as they are at present for spending public money in providing joy-rides for athletic officials or for athletes whose past performances show that they will be hopelessly outclassed by the competition they will meet.

The Canadian winter Olympic team that was sent to Lake Placid contained a number of ski jumpers whose record was sufficient to show that at least a dozen of the European competitors could beat them carrying a suit-case under each arm, and yet they were given a futile trip to the Olympic contests.

Eliminate all the dead wood from Canada's team, let the staff of handlers be cut down to sensible proportions, and public opinion will support a Government grant—but most people are against a jaunt to California for self-important officials and competitors who haven't a chance in the world to win anything

JUST A LITTLE THING.

Ireland used to suffer so much from foreign interference in her political affairs and recently has got along so well without that interference that one hesitates to offer even the slightest comment upon the Irish situation.

Nevertheless one finds it difficult to refrain from protest over Eamon de Valera's insistence upon abolishing the oath of allegiance to the British Crown.

Fundamentally, that oath is a little thing. It involves no allegiance to England, no subservience to the British Parliament. If de Valera were proposing to revive his republic or even to bring in a new line of Irish kings, it might be embarrassing.

But certainly he contemplates neither of these things. And surely if Communist members of the British Parliament can take that oath with an easy conscience, it would not hurt de Valera much.

But while it is a little thing to de Valera, merely a point of personal pride, it is a very big thing to thousands of Irishmen.

It is one of those little things with a sentimental flavor that are wont to set Ireland on fire.

It would be a very great pity if Ireland's fine progress and her new reign of political peace should be wantonly destroyed through the obstinate pride of a single man who was not big enough for tolerance, not small enough to be ignored.—Vancouver Sun.

A STRIKING TRIBUTE TO BRITAIN.

Canadians ought to be gratified over the manner in which despatches from Washington record the approval of American newspapers of the spectacular recovery of Britain. They regard admiringly Britain's achievement in paying off her credit of $200,000,000 four months in advance of its maturity. On Wednesday last the cheques were sent out by J. P. Morgan and Company for the full amounts to the various banks of the country that assisted in extending this credit to Britain. The United States newspapers are not slow to acknowledge the significance of this marvelous financial feat. They regard it as incontrovertible proof of John Bull's financial stability. It was freely predicted when Britain went off the gold standard six months ago that calamity would follow. Nevertheless impending disaster has been turned into one of the most remarkable victories in the history of international finance. In this connection the Washington Star says:

"It constitutes one of the most striking transactions in contemporary international finance, and rebounds to the imperishable credit of the British Government and people. How effectively—how almost fabulously—the new Cabinet grappled with the issue is now apparent—scrapping the old free trade shiboleth along with the sacrosanct gold standard. Britain went over, horse, foot and dragoons, to the protective tariff system. The ghost of inflation which stalked the land has been laid. Cheaper money is at hand in London. Income tax rate which mounted during the hard post-war years to the almost unbelievable equivalent of $1 out of every $5 in our money, faces reduction—export trade is reviving, foreign capital is coming into being on an unwonted scale. Public confidence, thanks to all those visible manifestations of the better day, is restored, optimism and good cheer are in the air all the way from Land's End to John O'Groat's—in her unfailing way Britannia has 'muddled through.'"

This is undoubtedly a striking tribute, but it by no means stands alone. It is particularly pleasing to the French franc or the American dollar people of the United States do not begrudge the Mother Country credit for this extraordinary achievement in finance. Furthermore, it demonstrates what Canadians have always believed that, after years of difficulty, Britain would ultimately reclaim her former position of affluence as the financial centre of the world. When Britain went off the gold standard it was freely predicted that the world would turn from sterling to the French franc or the American dollar for its standard of exchange. This is no longer said. Financial writers now concede that British strength, energy, decision and character have made her secure in her international position. It is to be hoped that Britain's marvelous recovery augurs well for the turn of the tide throughout the world.—Brantford Expositor.

EDITORIAL NOTES AND COMMENT.

Mahatma Gandhi's spiritual advisor is sworn to silence for seven years. We could use a few people like that in the House of Commons.

The professional baseball season got under way yesterday, so that summer must be regarded as somewhere just round the corner.

It is evident that kidnappers are like thieves in that there is no honor among them.

Radio owners have until June 1 to purchase their new licenses. That extra month is supposed to make the $2 fee more palatable, it is presumed.

The budget debate should be based on the idea that a sound argument once clearly presented is more effective than wearisome repetition.

It is, of course, the inarticulate taxpayer who pays and pays and pays, not the articulate one, as The Examiner inadvertently expressed in last evening's issue.

Baseball will now proceed to monopolize the headlines on the sport pages.

Perhaps a new Minister of Pensions might be able to speed up the machinery. The present pace is an injustice to thousands of veterans.

Little new legislation is to be introduced during the present session of Parliament, the Premier has informed the House. Still the parties will likely find many things to wrangle over.

This personal abuse as a substitute for legitimate debate seems to be spreading from Parliament to other public bodies. "Skunk" is British Columbia's contribution.

It is now disclosed that there are more than three hundred controversial issues between China and Japan. The situation presents the opportunity for a series of Saturday night debates extending over several years.—London Advertiser.

THE WORLD AT ITS WORST — By GLUYAS WILLIAMS

IN DAYS GONE BY

Items Taken From Old Fyles of The Examiner.

APRIL 12, 1922

The first Made-in-Peterborough car of the Birmingham design, will be exhibition at this year's Motor Show here....The firement have sent an appeal to the City Council to have Fire Chief Grange retained, and inviting an investigation of the department.

APRIL 12, 1912

The Provincial Bicycle Meet will be held in Peterborough this year. ....The Grand Jury has recommended a larger room in the Court House for members of the Bar.... Considerable damage was caused by firse early this morning at Mason's greenhouses on Water treet.

APRIL 12, 1902

George Cochrane was elected president of the Stony Lake Cottagers' Association at the annual meeting last night....Lt.-Col. D. Sutton and Surgeon-Major T. W. H. Young have been appointed recruting and medical officers, respectively, for Peterborough, where further recruiting will commence April 15th.

In Lighter Vein

On the Defensive.

Hostess (gushingly): "You know, I've heard a great deal about you."

Prominent Politician (absently): "Possibly, but you can't prove it!"—Montreal Star.

Efficiency.

There was one of these modern efficiency experts who was sent out to Colorado into the mountains to advise the miners. One old miner, driving him through the snow and cold, spread a buffalo lap robe over the knees of both of them.

Said the efficiency expert: "You ought to turn the hair on the inside. Don't you know it's a great deal warmer to have the hair next to your body?" The old miner obeyed and then sat there chuckling. Said the efficiency expert: "What are you laughing about? Are you laughing at me?

"No," replied the miner, "I was just thinking about that buffalo. What a fool he was all of his life, not to know a simple thing like that."—Christian Herald.

WM. F. TINKER BUYS THE ALBION HOTEL

Will be Converted Into Four Stores and Eight Apartments.

The Albion Hotel property, Hunter street, in Ashburnham, has been purchased from the estate of the late Patrick Hogan by William F. Tinker, and will be converted into an apartment building with four stores on the ground floor.

The two upper stories will be subdivided into eight compartments which will be designed for small families and to rent at a medium price.

"I expect the work will be completed in three or four weeks," Mr. Tinker informed The Examiner today. "The deal was signed up on Monday, and the remodelling of the entire building has already been started. The accommodation for tenants will be thoroughly modern and comfortable, and the fact that it is only a few minutes' walk from the corner of Hunter and George street should make it attractive to many persons who wish to live near the centre of the city. There will be four stores, and one of them is already occupied by Fitzpatrick & Geraghty."

Mr. Tinker said the Albion Hotel had been in the possession of the Hogan family for some forty years.

GRAIN AND PRODUCE REVIEWS

TORONTO PRODUCE

TORONTO, Ajril 12.—The best butter offered on the olcal market yesterday could be bought for 20c to 20½c per pound, with very little argument over the lower price. Brokers lowered their quotations in an attempt to clear supplies, and though some sales were made they were not sufficient to take this marke out of the dul stage. Montreal showed additional weakness, with prices low enough to make exporting possible, solids being quoted at 17c in that city. Western butter was offered locally at 20c to 21c, which was about in line with prices governing trading in this city. Prices to retailers, for creamery prints were 2c per pound below those quoted last week-end at 25c for No. 1 and 24c for No. 2.

Cream

Cream prices were considerably lower. Local buyers dropped their quotations to country shippers 2c per pound fat at 21c to 22c for specials, 20c to 21c for No. 1, and 17c to 18c for No. 2, f.o.b., country points.

Cheese

The market on new cheese was easier also. Brokers quoted new makes ¼c to ½c lower at 16¼c for new, large; 16½c for new twins, and 16¾c for new triplets. eRtailers were quoted steady prices at 12c for new large, 12¼c for new twins, 12½c for new triplets, and 14½c for new stiltons.

Egg Prices

Egg prices held recent advances on the brokers' market and were steady to 1c per dozen higher to country shippers and retailers. Receipts were fairly light, indicating a good movement into storage at outside points, while local dealers were interesting themselves in storing also. Brokers offered supplies at 17c for extras, 15c for firsts and 13c to 13½c for seconds, graded, and in free cases, and storage packed eggs, in export cases, at 19c for extras, and 17c for firsts. Country shippers were quoted 14c to 14c for extras, 12c to 13c for firsts, apd 10c for seconds, delivered, ungraded, cases returned. Quotations to the trade were 20c to 21c for extras, in cartons; 18c to 19c for extras, loose, and 16c to 17c for firsts, loose.

MONTREAL PRODUCE

MONTREAL, April 12.—With the exception of a slight advance in egg quotations to retailers, all prices were unchanged on the produce and dairy market here yesterday.

Number 1 fresh and regraded butter, in broken lots, was quoted at 17c to 18c a lb. The fresh butter arriving is fodder make. To retailers solids were 21c and and prints 22c a lb. Receipts were 171 boxes.

Fresh Ontario or prairie graded eggs, in carlots or less, were unchanged, extras selling at 19c, firsts at 17c and seconds at 15c a dozen. As previously announced, quotations of fresh eggs, in cartons, to retailers advanced slightly. Extras at 24c and firsts at 22c both gained a cent, while specials at 25c and seconds at 20c held unchanged. Receipts were 805 cases.

Cheese receipts were heavier, 108 boxes being received. Current cheese was firm at 16½c to 11c, as was summer make at 12c to 12½c a lb.

The potato market was steady, quotations of broken lots per 80-lb. bag being 30c to 40c; for Quebec whites and 45c to 50c for Quebec and New Brunswick Green Mountains. Carlot prices were 10c a bag cheaper than the broken lot levels.

CHICAGO GRAIN.

CHICAGO, April 12.—Bounding upward almost 4 cents a bushel yesterday, wheat held the full advance in thef ace of a world of selling to realize profits.

Sections of Texas, Oklahoma and Kansas reported that 50 per cent. of the winter wheat crop had been damaged beyond recovery, with Nebraska losses estimated at 40 per cent. On top of this was a decrease of 4,604,000 bushels in the United States wheat visible supply total, almost twice as much as at this time last year.

Days' Highs Maintained.

Wheat closed buoyant at the day's tip-top point, the highest level touched in about a month, 3½-¾c up, oats ⅝-½c advanced, and provisions showing a rise of 2 to 7c.

Adding to brisk activity on the part of speculative buyers were official returns suggesting that as a result of heavy abandonment the 1932 acreage of domestic winter wheat was the smallest since 1913 with only two exceptions.

At times, weakness of the stock market led to reactions in wheat prices, and some notice was also taken of the large amount of wheat on ocean passage, 58,752,000 bushels, against 43,064,000 a year ago. Another bearish factor was selling ascribed to Farm Board sources and to foreigners.

LIVERPOOL QUOTATIONS

LIVERPOOL, April 12 (A.P.) — Closing. Wheat, No. 2 Manitoba, 75⅞c. Hams, long cut, 12 to 16 lbs., 83c; short cut, 12 to 14 lbs., 72s 6d; extra skinned, 78c; picnics, 5 to 6 lbs, 51s 6d. Bacon, Cumberland cut, nominal; Canadian Wiltshires, 94s; clear bellies, nominal; long clear middles, 28 to 35 lbs., 70s; short clear backs, 12 to 20 lbs., 67s; shoulders, square, nominal; lard, prime Western in tierces, 38s; American, refined in boxes, 39s 6d; Cheese, Canadian finest white, new 73s; colored, new 72s; Linseed oil, raw, 18s; petroleum, No. 1, 10d. No. 2, 11d. Rosin types F and G, 15s; turpentine spirits, 59s.

WINNIPEG GRAIN.

WINNIPEG, April 12. — A substantial export movement and further enlargement of the crop loss estimate recently issued by the United States Government whisked prices smartly upward in the grain pit yesterday. Reports were received yesterday that fully half of the wheat crop in parts of Kansas, Texas, and through the Oklahoma Panhandle was past recovery.

May closed 1⅝c higher at 64c; July 1⅜c to 1⅝c higher at 65⅞c, and October 1⅝c higher at 68¼c.

It was estimated that 750,000 bushels had been worked for export.

Pit Trade Light.

Pit trade uncovered nothing out of the ordinary. Offerings were on a lighter scale than during the past week, but a fairly good volume of trade was recorded. Liverpool offered some assistance to higher price levels with a fractional gain but Broomhall did not confirm much in the way of import demand.

World shipments of wheat and flour totalled 14,760,000 bushels last week. North America's share of this amount totalled 4,854,000 bushels, compared with 6,114,000 the previous week and 3,888,000 in the corresponding week last year.

Improvement was noted in the demand for cash wheat at fractionally higher prices. Coarse grains, in light trade, moved fractionally higher in sympathy with wheat.

DISTRICT NURSE
by Faith Baldwin

(Continued From Yesterday)

Now he had Coral to look after, to guard, to love. The color was back in her cheeks, there was flesh on her bones, she was the girl he'd always loved; he'd be so careful of her, she'd never regret it. And neither would he. He knew that now. Ellen had set him straight, had helped him to fight it out himself, to set and keep himself straight.

At supper Mrs. Adams was engrossed with the subject of Dot Brown and her misfortune despite Nancy's warning interruptions. "I said it would happen," she said. "I told you so, didn't I, Ellen."

Ellen, coming back from her dark thoughts, looked up from her untouched plate. She had been staring down at it for five minutes.

"I'm sorry, mother," she murmured. "I wasn't listening."

They had to tell her about Dot all over again. A quiver of something like distaste, of a faint bitter sorrow passed over her set very pale face. She made no comment. Nancy said briskly, fighting a sensation of pure and it seemed baseless fear, "Look here, let's talk about something cheerful. Christmas, for instance."

INSTALMENT 23.

To Nancy's relief, her mention of Christmas did shift the conversation. Christmas was, as a matter of fact, just around the corner. Mrs. Adams began to plan. She'd have them all home with her this year, Nancy, Ellen—Carol. Pete would come when he could get off, if at all. Pete's getting off was a joke. Carol remembered out loud the last theatre date they had a week or so ago. Remembered how, as he had reported it later, when he was through and under the shower, a message had come. Two new cases on his floor, the man taking his calls busy with emergencies and would he hurry, please—

He had hurried, and they had made the theatre, but he hadn't had any dinner and was, Carol said laughing, when she saw him, half dressed and, literally, one side of his face shaved.

Yes, all there for Christmas. And Jim and his aunt would look in the evening; they always did. Mrs. Adams thought of Christmas and her heart, which was narrow but very deep, expanded a little. She said gaily to Ellen, "And perhaps Mr. Bartlett would come?"

That was a real concession. But Carol had been at her, and Pete and Nancy. All of them, arguing, pleading. "What's wrong with him, mother? You only make Ellen unhappy by your attitude." This would show Ellen, maybe, that she hadn't meant to be unkind and suspicious. She had been afraid, that was all. She'd been so afraid ever since Carol—But that was all over now.

Ellen was ghastly. Her mother repeated the question. She added, "Of course we don't know if he has other plans."

"It's quite likely," said Ellen briefly.

Nancy said quickly, "He hasn't a relative in the world except those people, you know, out west somewhere."

Ellen said nothing and her mother, forgetting her own astonishment, said, "You haven't eaten a thing."

"It's my head," Ellen said and tried to smile, and rose and left the table. "Aspirin in the bathroom, you know," Nancy called after her. She went in, they heard her running the water. Carol and Nancy looked at each other again. "It isn't like Ellen to have headaches," remarked Mrs. Adams worried. "I hope she isn't coming down with something."

By half past seven Ellen had gone. She met Gladys on the corner. Gladys, pathetically small in a shabby coat, was waiting impatiently. It was cold and cloudy. A few flakes of snow drifted down, melted when they reached the pavement. Gladys was gasping, "I was early—I was afraid you wouldn't—Gee, I started to go back twice—I told Ma I had to go to the drug store—not that she believed me, or cared. She didn't follow me, I looked—I came the long way around."

Ellen asked, not listening, "Are you warm enough? Here," she hailed a cruising taxi and put Gladys in. She gave the address to the driver, steadily.

They drove uptown almost in silence. Once Gladys said, "Gee, I'm cold." Her teeth were chattering. Ellen forced herself to take the girl's icy hands in her own. She said, looking down at Glady's feet, "Those ridiculous heels and flimsy stockings! Gladys, you should know better." She was talking to her as if she were a patient, any patient, forcing herself, trying not to think what waited for them both at the end of the long ride. She thought, when he sees her—and me. She thought, I'm glad, I'm glad he'll have to see me—with her—

But she wasn't glad. She was afraid. She was more than afraid. There were no words for her fear and her unhappiness and her resentment.

She hadn't thought about other women and Frank. That he must know many, that he must have cared for one, for several perhaps, before they met, was obvious enough. That she had always taken for granted, without thinking very much about it. But Gladys and a cafeteria—a man who 'clowned.' No, she couldn't understand it; she never would.

She was trying not to think of the wife from whom, so he had told Gladys, he was separated. Whether it was true or not, whether he had lied to Gladys or to her, didn't much matter now. Nothing mattered now. What was a non-essential, absolutely. It couldn't mean anything to her whether there was a wife in the background, whether, for that matter, there were two wives—now.

That was all just part of this senseless fabric.

They had reached the apartment house, standing back in the usual heavy, rather handsome massive architectural design, built around a great open court. A good neighborhood, a respectable neighborhood.

Gladys' teeth were chattering again. She whimpered. "I can't. I'm scared. He'll be sore; he'll be wild at me. He'll have me thrown out, maybe. Let's go back. I'll manage Ma somehow, let's go back."

"No, we're not going back," said Ellen. She helped her from the taxi and paid the driver, and took the girl's arm. "He won't throw you out," said Ellen, and her little jaw set and her lips were drained of color. Her eyes were almost black, the stormy gray eyes, startling against the pallor of her face.

They went into the apartment house. Warmth was there and subdued coloring and good furniture. She gave her name, the fact that she had an appointment. She was expected, they told her, looking curiously, not at her, but at Gladys.

The small cage of the elevator shot upward. They were alone in it save for the indifferent attendant.

At the eight floor they got out, and Ellen, half dragging the shivering girl with her, rang the indicated bell.

A man servant opened the door. He said, "Miss Adams? Mr. Bartlett will be with you in a moment. He's on the phone."

A square foyer. Ellen shook her head as the man made a gesture toward her coat. Gladys huddled herself more closely in her own. There was a living room, a fire burning on a hearth. Deep chairs, low smoking tables, books lining the walls. A pleasant room. A man's room. Old hunting prints against the beige background of the wall space left untouched by shelves.

A door was shut somewhere. Through it faintly they could hear a man's voice speaking urgently.

A door opened. There were steps, down a hall. Frank came in. He said, quickly, his eyes going to Ellen at once, not seeing, in his impatience, Gladys who stood over in a darker corner back of a great wing chair, "Ellen, I've been out of my mind with worry all day—I'm sorry I kept you waiting a moment—I had a long distance call—"

He was coming closer to her. She thought, I'll never see him again—I must remember what he looks like—no, I never want to think of his face again—I must forget it. But she kept her eyes on his. She said clearly, "Gladys—"

But Gladys was clutching the chair, swaying, making curious sounds in her throat.

Ellen ran to her immediately, ignoring Bartlett who stared at her and came forward, ignoring his exclamation.

"Gladys," she said and put her arm around the girl and faced him, "this is Frank Bartlett—you—"

But Gladys had screamed, Gladys was screaming—"

"No, it isn't—I never seen him before," Gladys was screaming, the hysterics she had so far restrained having their way with her. "I never seen him before—"

"She's fainted," said Ellen sharply, as the girl's entire weight slithered toward her, leaned against her.

Bartlett sprang forward. Together they carried Gladys to a divan and laid her down. "Flatter," said Ellen. She was working over her. "Get water—have you spirits of ammonia?" she was asking. She had no time for anything, not even for this overwhelming relief, this utter shame, while she worked—

Bartlett went out and came back without a word with the things that were needed; Gladys opened her eyes and shuddered, pushing Ellen's hand away.

"I feel so sick," she said. She was gray.

"May I take her into a bedroom?" Ellen asked.

Bartlett nodded. They helped the girl to her feet and between them they got her down the hall and into a bedroom. His. A frankly masculine bedroom, well, rather sparsely, furnished. They stretched her out flat on the bed and Ellen said, "If you'd leave us—is that the bathroom there—?"

He said—angrily, "If you'd tell me what the—"

"In a moment," said Ellen frantically—"please."

He went out and left them.

About ten minutes later Ellen came out to him in the living room. He was walking up and down, chewing savagely on an unlit pipe. "What in heavens is it all about " he began, "this girl—Ellen—"

"She's half asleep," said Ellen. "I thought you'd let her rest a minute before I took her home." She went on, "I know I owe you an explanation, Frank, I'm ashamed—"

He was gentler with her now, made her sit down, sat down beside her on the couch. But he was angry with bewilderment.

She said, "I don't know how to begin—"

But she knew. There was only one way. She told him, straightforwardly, the whole story.

He said, first of all, blankly, "And you believed all this—?"

"I didn't want to."

NICKEL RETAINS EARLY ADVANTAGE

Cheaper Issues Unusually Inactive on Standard Exchange.

TORONTO, April 12 (C.P.) — Prices on the Standard Stock and Mining Exchange market showed a slightly stronger tendency on the opening to-day, but turned irregular again towards mid-day. Volume remained light, with cheaper issues unusually inactive.

International Nickel managed to retain a small portion of its early gain when taken, but Noranda was off 25 to $15.85. Waite-Ackerman, while not traded, was offered at 47 and 15 bid. Eldorado, Dominion Explorers and Mining Corporation showed small gains.

In the gold section Lake Shore lost 20 to $27.50, Granada 10 to 80, Tack-Hughes a few cents to $4.22, and Hollinger, 5 to $6.75, a new low for the year. Ventures and Sylvanite, off a cent or so each, also established new lows at 38 and 49, respectively. Bidgood and Gem Lake lost fractions.

Oils were quiet, with Nordon slightly above last night's final.

EXCHANGE RATES.

TORONTO, April 12.— (By the Canadian Press.)—Exchange rates at noon to-day were as follows:

Pound sterling in Montreal 4.20 15-16.

Pound sterling in New York, 3.80.

Canadian Dollar in New York, 90 3-8.

TRACTION GAINS 1-4 POINT TODAY

Leaders Are Higher During This Morning's Session on Montreal Exchange.

NICKEL STEADY AT 6 3-8.

MONTREAL, April 12 (C.P.). — Leaders were higher on the Montreal Stock Exchange this morning though one or two other issues showed narrow losses at noon. Trading was quiet in the first hour, but broadened out at midday.

Brazilian Traction was an active leader this morning with about 1,600 shares changing hands. Price opened unchanged at 10 and then firmed to 10¼ for a net gain of ¼. Nickel was steady at 6⅜. Canadian Pacific Railway shares advanced to 14, up ½ on the morning.

Canada Cement Common gained ⅛ at 5⅛ and Canadian Car was unchanged at 4⅛. Smelters eased ⅛ at 39½. Steel of Canada issues were a little softer. The Common sold down ¼ to 15¼ and the Preferred followed suit, selling off ¼ at 24¼.

Discuss Amendments To Bankruptcy Act

OTTAWA, April 12 (C.P.). — A preliminary meeting of the House of Commons committee chosen to discuss amendments to the Bankruptcy Act was held this morning under the chairmanship of J. T. Hackett (C., Stanstead).

The purpose of the amending Act is chiefly to create a department of bankruptcy as a sub department of the Department of Finance and to appoint a superintendent of bankruptcy. It will also necessitate all trustees being licensed by the Department of Finance.

CHAMBERLAIN UNCERTAIN ON PRICE LEVEL TACTICS

LONDON, April 12 (C.P. Cable).— Neville Chamberlain, Chancellor of the Exchequer, said in the House of Commons this afternoon he was not in a position to indicate in what form the question of bringing price levels back to those of 1929, would come up at the Imperial Economic Conference at Ottawa in July.

Whether this was an indication the conference would take up this question was uncertain. The conference will discuss Empire currency and of course all phases of the economic situation in its endeavors to lay the foundations for closer Imperial economic unity.

Soviet dumping has seriously affected Latvia's lumber exports.

A Lively Scramble In Polo Match

POLO STAR FINDS GROUND HARD IN KEEN CONTEST

International polo matches went by the boards as far as action and thrills were concerned when the Cantro Valley four downed the Del Monte Rangers at the Beresford Polo Grounds, 11 to 10, in an extra chukker. Satisfied indeed were those who witnessed the sensational playing of Cecil Smith of Texas, who plunged over nine goals for the Rangers, and Angele Elizalde, who hails from Manilla and who poled over 8 goals. Here we have Elizalde unseated in a lively scramble for possession when Will Tevis (a team-mate), collided with him. Cowboy Smith (Rangers) at the RIGHT, took the ball from under the horses' feet.

Livestock-Produce Quotations

FRUITS AND VEGETABLES.

TORONTO, April 12.—(C.P.) — Wholesale prices on Canadian fruits and vegetables as reported to the Canadian Press by White and Co. are as follows:

Apples, 6 qt. basket 25-30c.
Apples, 11 qt. basket 30-3c.
Beets, 11 qt. b5asket 15c.
Carrots, 11 qt. basket 35c.
Hothouse tomatoes, per lb. 30-35c.
New cababges, per crate, $3.25-$3.50.
Parsnips, per bag, 50-60c.
Turnips, per bag 35-40c.

TORONTO PRODUCE

TORONTO, April 12.—(CP)—The United Farmers' Co-operative Co. today supplied the Canadian Press with the following quotations on produce delivered at Toronto:

Eggs extras, doz. 14c-15c.
Eggs, firsts, doz. 12c-13c.
Cream churning, No. 1, lb. 20c-21c.
Creamery butter, No. 1, solids, lb. 20½c-21c.
Potatoes, No. 1 in bags 27c-28c.
Chickens over 5 lbs. 16c-17c.
Hens over 5 lbs. 14c-15c.
Young turkeys, 8-12 lbs. 19c-20c.

TORONTO LIVESTOCK.

TORONTO, April 12 (C.P.), — Cattle receipts 600. Trade continued active with prices steady on all grades. Medium to good butcher cattle sold at $4.50-$5, with a few choice at $5.25. Good heavy steers sold at $5.50-$6. Choice fed calves brought $6.50-$7, with medium downward to $5. Good butcher cows ranged at $3.50-$3.75.

Steers up to 1,050 lbs., good and choice, $5-$5.25; medium $4.50-$5; common $4-$4.50; steers over 1,050 lbs., good and choice, $5.50-$6.25; medium $5-$5.50; common $4.50-$4.75; heifers, good and choice $5-$5.25; medium $4.50-$5; common $3.50-$4.25; fed calves, good and choice $6.50-$7; medium $5-$6.25; cows, good $3.25-$3.75; medium $2.75-$3.25; common $2.25-$2.75; canners and cutters $1.25-$2; steers, good $4.25-$4.50; common $3.50-$4; milkers and springers $30-$60.

Calf receipts 750. Calves were steady at $6-$6.50 for choice, with common light calves downward to $3.

Good and choice veal, $5.50-$6.50; common and medium $3-$5.25; grassers $2.50-$3.

Hog receipts 680. No hog prices were established up to 11 a.m.

Sheep receipts 240. Two loads of good western lambs were not sold up to 11 o'clock. A few good spring lambs brought $7-$8 each, with common downward to $2. Good light sheep brought $3-$3.50.

Good ewe and wether lambs $7.25-$7.50; medium $6.50-$7; bucks $5.25-$5.50; culls $5-$6; good light sheep $3-$3.50; heavies $2.50-$3; culls $1-$2.

LEADERS DROP TO LOW MARKS

Page-Hersey Tubes Equals Low of 41¾ Set on Monday.

OILS ARE EASIER.

TORONTO, April 12. (CP) — Toronto Stock Exchange market was steadier this morning, though the list was not without its new lows. Leaders which this morning sold at record figures for the bear market were Bell Telephone, down to 92, Steel of Canada, down to 15¼, Dominion Motors at 2½. Page-Hersey Tubes equalled the low of 41¾ set Monday.

On the other hand, Nickel, Brazilian and Ford of Canada were unchanged to fractions higher while Smelters gained a point. Dominion Stores was easier below 17 but others in the group were firm. Walkers, common and preferred, remained unchanged but Distillers receded to 3 and Canada Malting lost a point, selling off 10.

Oils were easier and down minimum fractions in quiet trading. International Pete was an exception, rising slightly to 9¾.

SALES TAX IS NOW PLACED ON PIES AND CAKES

If Baker Absorbs Tax He Will Be Paying Double Tax on Product.

INGREDIENTS ALSO TAXED.

Even pies and cakes are to feel the effects of the increase in the sales tax, according to instructions which have been received by the local branch of the Department of National Revenue.

Bakers' cakes and pies have formerly been exempt from the sales tax, but instructions received at the customs offices here are to the effect that the sales tax will be imposed on cakes, pies, pastries, cookies and similar commodities not produced from bread dough.

The only exemption which is provided is for the baker selling exclusively by retail to the consumer or user, whose total sales of such goods did not exceed $5,000 in the preceding calendar year. Bakers selling wholesale would have to pay the tax, regardless of the volume of business.

"It's going to be bad," said one baker, who has a pastry store on George street.

The manager of another local baking plant stated that he had not been able to give the matter of a probable increase in the price of cakes, pies, etc. consideration, because information regarding the scope of the new tax had not been available. He pointed out that if the baker were to absorb the tax, he would be paying a double tax on his product. In the first place there would be a tax on certain of the ingredients of his product, which would be paid before the product was ready for sale, and after it was ready for sale he would be absorbing another tax when it was sold. Considerable confusion is foreseen if bakers have to keep a separate account for their wholesale business in order to pay the sales tax on it.

Other changes in the act provide that substitutes for butter, which include peanut butter and maple butter, are now subject to the tax. Lard compound and similar substances made from animal oil or vegetable stearine or oils, and extract of rennet also come in for the tax. Lard is exempt when it is produced in Canada. Milk foods and prepared cereals, which were formerly exempt, are now taxable.

30 POISONED AT BANQUET

DURBAN, Natal, Africa. — Dr. Chaim Weitzmann, prominent Jewish leader, and thirty other guests at a banquet in his honor, were suffering from ptomaine poisoning to-day.

Dr. Weizmann's condition is not serious, but he was confined to his room under a physician's care. Mrs. Weizman also was among the victims. An investigation was begun to aserctain the cause of the trouble.

Market Closing On All Exchanges

TORONTO EXCHANGE

TORONTO, April 12 (C.P.)—Oils were the weakest group on Toronto Stock Exchange at the close to-day, these stocks finishing at their lows for the day and off ¼ to ½ point below last night with Imperial Oil making a new all time low below 8.

The feature of the market was the firm tone of some of the interlisted stocks, mainly Nickel C.P.R. and Brazilian.

Bell Telephone, which made a new low at 90, finished at 90 to 91. Ford of Canada was unchanged at 10, after having been slightly under that figure.

STANDARD EXCHANGE

TORONTO, April 12 (C.P.)—Discussion of the possibility of United States going off the gold standard was reflected in action of the gold group on the Standard Stock and Mining Exchange market to-day. Over half a dozen new lows for the year appearing among more active issues. General tone was easy, with losses practically general on end.

Teck-Hughes and Hollinger were under pressure and down around 25 cents apiece, and Wright-Hargreaves, Granada, Dome and Lake Shore lost from 6 to 45 cents each. Ventures and Sylvanite dropped 3 cents and Siscoe, McLeod River, Big Missouri and Bidgood finished below last night's finals.

International Nickel was about the only stock to move against the downward trend, price showing a gain of 25 on end. Noranda was off 55, Hudson Bay 5, and Eldorado and Mining Corporation several cents apiece.

WALL STREET.

NEW YORK, April 12.—(C.P.)—(C.P.)—The stock market's closing was irregular to-day, with several pivotal industrials showing moderate net gains in contrast to losses in rails. U. S. Steel, Case, American Can, Union Carbide and American Telephone were up about a point. Losses among the carriers were reduced in a late covering movement which cancelled about half of Santa Fe's 4-point drop. Standard Oil of New Jersey, Drug, Du Pont and Corn Products finished with declines of about 1 to 2. Transactions approximated 1,700,000 shares.

Japs Will Protect Chinese Assessor

TOKYO, April 12 (C.P.). — The Japanese Government will do its best to insure the safety of Dr. Wellington Koo, Chinese assessor, accompanying the League of Nations Inquiry Commission, if he goes into Manchuria with the Commission, the Foreign Office announced today.

The new government of the Manchurian Federated State notified the League Commission yesterday that Dr. Koo would not be welcome. Japan would disregard the opposition of the Manchurian Government, the Foreign Office said.

Economic Depression Hit Strap Industry As Far As Schools Concerned Years Ago

It appears certain now that the present economic depression is not new to the firms manufacturing the straps used by school teachers. The strap-making industry suffered a decline many years ago and it has never come out of the slump.

A story from London, Ontario, quoted Inspector G. A. Wheable as declaring that no straps had been purchased there since he became school inspector in 1922. Inspector J. H. Smith, of Stratford, went that one better by stating that it was fifteen years since a strap was purchased for any Stratford school.

"It's many, many years—an indefinite period—since any straps were purchased for Peterborough schools," stated Inspector A. Mowat, questioned on this same subject today.

"Every school was equipped with straps years ago and I have not had a request for a new one since that time," said Inspector Mowat.

However, straps are used in local schools but very sparingly and their use is not encouraged, he added. "They still are necessary in order to correct the continued misdoing of a very wilful student," he concluded.

Company Included In Damage Action

A case of local interest was tried before the Second Appelate Division at Osgoode Hall, Toronto and judgment was given yesterday. James Tucker Lang brought an action against Frank Hooey and George Huston, two agents of the Beatty Washer Machine Company for damages caused to him in a motor accident, which took place between Mr. Lang's automobile and the car, driven by the defendants on November 18, 1930, at the corner of Reid and Sherbrooke streets.

The two defendants were employed by the Beatty Washer Machine Company and Huston had an agreement with the Beatty Washer Machine Company to supply an automobile to be used in his business, as a salesman for the company and it was upon this ground that he claims the Beatty Washer Machine Company are liable for damages to Mr. Lang, if judgment is given in his favour.

The defendants through J. F. Strickland, K.C., M.P.P., moved to add the Beatty Washer Machine Company as defendants and this decision is the result of the third appeal, in which the court gives leave to add Beatty Washer Machine Company as defendants in the action for $10,000 damages.

Gordon and Elliott appeared for the plaintiff James T Lang and Thomas Delany of Toronto, appeared for the Beatty Washer Machine Company.

INTEREST RATE CUT BY WORLD BANK

BASLE, Apr. 12 (A.P.) — The board of directors of the World Bank for International Settlements reduced the interest rate of the $90,000,000 credit to the German Reichbank yesterday from seven per cent to 6 six per cent, effective from April 4 to June 4.

After a thorough discussion of the Danubian situation the board renewed the world bank's share of the Austrian credit of 90,000,000 schillings due April 16, the Hungarian credit of 20,000,000 due April 18 and the Jugoslavian credit of $3,000,000 due April 28. All three were extended for three months.

The resignation of Sir Charles Addis, vice-governor of the Bank of England, from the board of the world bank and his replacement by Sir Otto Niemeyer, was announced.

It was decided to ask the seven founding banks to absorb 26,400 unissued shares of the world bank in equal proportions at par.

THREE TO PROBE

(Continued from Page 1)

committee should make a full investigation. In that case the subcommittee would be entitled to receive remuneration and expenses for its work.

If the railways were prosperous, said Dr. McGibbon, he would not have had a word to say. He gathered from Mr. Duff's observations that the resolution did not go far enough, and that the sub-committee should investigate "the whole show." He added that it was a mistake when the supervision of these matters was taken away from the auditor general. The committee was useless as far as accounting was concerned. It was only when one stumbled on a thing like this that one got some light as to what was going on in the dark abyss behind the board of directors.

Thornton's House

Mr. McMillan introduced the matter of Sir Henry Thornton's house. The impression conveyed by the press at the last session of the committee was that the C.N.R. owned this residence. The railways were paying for it, but did not own it, he said.

If his information was correct, Dr. McGibbon declared, the house was bought by a clerk in one of the director's offices. On the same day, this clerk applied to the Montreal Trust Company for a loan of the necessary amount, and he got it. On the day the present government assumed office, he rented it to the Canadian National Railways for $15,725 a year, plus insurance and taxes. The initial price was $185,000, for which interest rates of 6% per cent were paid. This left an additional sum being paid by the railways of $3,700.

Are we to let this go on? asked Dr. McGibbon. When the people, through taxation, were paying on a capital investment of two billion dollars, it was time someone said something.

As far as this House is concerned, I want to say first that I think the directors exceeded their duties, said Mr. Duff, when they arranged for some unknown person to buy it. I am opposed to it; I think it was a mistake. I don't know if that arrangement holds good or not. If not, it should be cancelled.

The circumstances should be investigated in order to ascertain if the railways were liable for that obligation additional to Sir Henry Thornton's remuneration, said Mr. Duff.

After dealing with Mr. McGibbon's motion, we can call for all documents in connection with this House, said R. B. Hanson (Cons., York Sunbury), the chairman The committee can give directions that the lease and the minutes of the board of directors should be brought before it.

Wider Powers Needed.

Again I say that the scope of this sub-committee should be broadened, said Mr. Duff.

Dr. McGibbon suggested that perhaps Mr. Duff wanted a Royal Commission.

The present Royal Commission was investigating matters of this character very carefully, Mr. Hanson observed.

The motion for appointment of a sub-committee was then carried. With it also went a resolution demanding from the board of directors a memorandum covering all matters relative to the House transaction.

Whether the C.N.R. was violating the terms of The Railway Act in the issue of free transportation was another matter brought up by Mr. MacMillan. He moved for a report from officials showing the number of passes issued by the railway for the past three years, and also showing the amount of money involved if these passes had been paid for at proper rates. This was adopted. On that point, Mr. Hanson, after reading the speech made by Senator Black on this subject in the Senate about a month ago, declared that he had himself received many complaints on that score.

The public had the impression that the privileges of free transportation were being abused. The Railway Act set forth the circumstances under which the railways could issue transportation free or at reduced rates; and the committee must remember that that statute existed. If, however, the privilege was being abused, it was having a detrimental effect on the earnings of the roads. Senator Black had intimated that millions of dollars were involved.

Some humorous references to the Intercolonial Railway were bandied around. C. G. Power (Liberal, Quebec South) suggested that a free pass on the Intercolonial is a Maritime right.

It was unfair, thought Arthur L. Beaubien (Lib., Provencher) to investigate this without also enquiring into the practises of the Canadian Pacific Railway. The committee had, however, no authority over the privately-owned line. A suggestion was thrown out that the Board of Railway Commissioners might probe that company in this respect.

Railways' Best Friend

"I am the best friend the railways have got," said Mr. MacMillan. "They may not think so; but I am. There has been rampant extravagance by the railways in the issue of these tickets, I am told. They have been given out promiscuously; and I think if we can investigate that phase we may be able to plug up a hole.

The desire for investigating these things then extended to the hotel system, particularly to the Chateau Laurier in Ottawa. Mr. Beaubien asked that details of the improvements to this hostelry be produced.

He had special reference to the improvements effected in the apartments used by the Prime Minister, and wanted to know the cost of such and by whom the improvements were ordered.

"And what the Prime Minister himself paid?" asked Mr. Hanson.

"Yes," in justice to the Prime Minister," said Mr. Beaubien.

"Oh, yes. I am quite sure you are actuated by that desire," commented Mr. Hanson.

With these duties looming ahead, the committee adjourned. Sir Henry Thornton was not present today, due to an attack of the grippe. Such being the case the railway estimates were not touched.

PAST THIRTEEN YEARS IN FRANCE SESSION OF STORMY POLITICS

Foresee Heriot Given Second Term as Premier if Radical-Socialists Win.

INTERESTING CAREER.

PARIS, April 12 (By George Hambleton, C.P. Staff Writer)— When, 13 years ago, Edouard Herriot first became president of the French Radical-Socialists, a bloc national had swept the electoral map. Groups of the right and centre held two-thirds of the seats. The radical-socialist representation had dropped from 257 to 114; the socialist from 191 to 33. It was one of the most conservative chambers France had known, that of 1919. President of the last square at Waterloo, laughing scoffed the critics. The much-diminished radical-socialist group was ironically known as the group of the lame and halt.

Since those days Herriot has known all the depths and shoals of honor. In five years he was Prime Minister of the famous government of the left cartel. A strong advocate of international co-operation, he began negotiations with Germany. He warmly defended the Geneva protocol. Might must not be left in the ruthless grasp of injustice. Herriot pleaded before the Assembly of the League. In eloquent words, he now proclaims his intention to continue the Briand policy of peace.

That is, if the Radical-Socialists are successful in gaining enough seats in the coming French general elections, May 1 and 8, to give them the deciding voice in the government.

Months of Storm

Yet the 12 months of the left cartel ministry of M. Herriot were months of storm. There was a form of ministerial strike against President Millerand who had been one of the founders of the bloc national. And Millerand, who had known strife for many years political no less bitter than military while he was minister of war in 1914 and 1915, resigned.

Anti-clerical, the cartel aroused bitter religious feeling by its school policy in Alsace-Lorraine. Its financial methods are still the subject of relentless attack. The bill-boards of Paris to-day bear a huge cartoon depicting Herriot and Leon Blum, leader of the Socialists, each with a saw, cutting the franc in two.

Polished, refined, Herriot has nothing of the demagogue. He was one of the six-premiers in the Poincare cabinet which valorized the franc and put France again on its financial feet. His critics pay tribute to the eloquence of his speech. His writings on current affairs, translated into many tongues, have circled the earth. He describes the policy of his party as laic, (layman) social, national.

In boyhood days in Lyons Herriot won free education through a scholarship. And, in the present campaign Herriott has put free secondary education to the front of his program. As long as I live, Herriot told a Paris audience, I shall fight for equal educational facilities for our children.

He was leader of the opposition, so far as the French chamber may be said to have an official opposition, in the chamber just dissolved. If the Radical-Socialists win the seats they hope to win, Herriot may for a second time be premier of France.

JUDGE HUYCKE

(Continued from Page 1)

sentences to run concurrently with that imposed by the magistrate.

Prisoners have no previous criminal record, with the exception of a 10-days served at Trenton for obtaining a meal by false pretences.

It was revealed that the two youths had travelled from Montreal to Oshawa in an abortive search for employment. They were on their way back to Montreal on March 19, when they got in with another group of jobless men at Cobourg. Canned heat was consumed by the prisoners to which was largely attributed their mad outbursts while in the town lock-up.

Addressing them in a paternal manner, the judge impressed upon the prisoners the necessity of leading honest industrious lives, and asked them to give him the promise that they would apply themselves diligently to their allotted tasks while in the penitentiary and so fit themselves to become useful citizens upon their release. He further made them promise that they would both write to their parents.

LEGAL ACTION AGAINSTCOUNCIL MAY BE TAKEN

County Ratepayer Expresses His Views Re Appointment of Superintendent.

RESOLUTION NOT VALID

The Salary Paid Superintendent is Not Properly Authorized, He Declares.

Legal action against members of the county council may be taken to recover any money paid to the new county road superintendent without proper authorization, The Examiner was informed on Saturday.

A ratepayer of one of the townships, who has been actively interested in municipal affairs during the last eight months, said that the suggestion had been only generally discussed in several conversations with other ratepayers, but nothing had been decided.

"There is no feeling against the new superintendent," this farmer stated. "That should be emphasized, and there is no protest about his appointment, so Mr. Chalmers can be left out of it altogether. According to reports in The Examiner there is some real doubt about the validity of the procedure followed by the county council. It seems that the resolution appointing the superintendent was adopted after the council's vote resulted in a tie, and the casting vote was given by the Warden. A clause from the statute was quoted to the effect that the resolution was actually negatived when the council failed to give a majority vote by the members. If that is correct, and the law seemed to be plain enough as quoted in the clause from the statutes, then the Warden's vote was out of order, and the appointment was invalid.

Legal Points

If the appointment was not proper and valid, then any salary paid to the superintendent is not properly authorized. If it is not properly authorized, then I think the members who voted for the resolution, including the Warden, can be held personally liable for any money that is paid until the appointment is regularly confirmed.

The ratepayers of the county have not forgotten all the letters that appeared in The Examiner about the purchase of a snowplow last year, and the feeling that remained was the county council should see to it that every item of business is put through in such a manner that there should be no question about it afterwards. There was a lot of talk about the new council for 1932, and I'm not going to express any opinion about the present body as compared with the councils of any other years. But, the members take a solemn oath to perform their duty properly and legally. They seek election on that understanding, and the business of this county is surely important enough to be done properly.

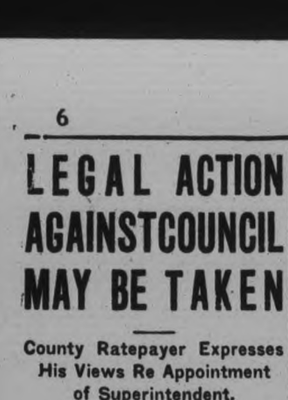
Personally, I have no doubt that the whole procedure is out of order when the council failed to give a majority for the appointment. Some of the older members should surely have learned that by this time. I wonder how many of them ever read the Municipal Act?

Satisfied if Ratepayers Are

We are now coming into the busy season, and I have neither the time nor the money to take this matter up actively and single-handed. If the ratepayers as a whole are satisfied to have their affairs conducted in this manner, why should I worry?

But, if there are enough citizens interested in the county and its affairs I'd be glad to join with them, clear up this point about the appointment of the new road official, and then by way of a lesson make the councillors who voted for the "negatived" resolution pay into the county treasury any salary that is paid between April 1st and the time an appointing by-law is passed.

If the people are indifferent about the conduct of their municipal business, however, there is no use of one or two men bothering about it, no matter how sure they may be that their contention is correct."



Madame Lacroix's delicious CHOCOLATE LAYER CAKE

½ cup butter
1 cup sugar
2 eggs
1 teaspoon vanilla extract
1 cup milk
2½ cups pastry flour (or 2 cups and 3 tablespoons of bread flour)
3 teaspoons Magic Baking Powder
¼ teaspoon salt

Cream butter; add sugar, a little at a time, beating until light; add beaten yolks and flavoring; add flour, sifted with salt and baking powder, alternately with milk. Fold in stiffly beaten egg whites. Bake in 3 greased layer cake pans in moderate oven at 375° F. about 20 minutes. Recipe for Chocolate Icing and Filling is in the Magic Cook Book.

Why Magic Baking Powder is used exclusively at this

Montreal School of Domestic Science

"We teach our students only the *surest* methods," says Madame R. Lacroix, Assistant Director of the Provincial School of Domestic Science, Montreal. "That's why I always use and recommend Magic Baking Powder. Its high leavening quality is always uniform. You get the same satisfactory results every time you use it."

And Magic Baking Powder is the unquestioned choice in the majority of cooking schools throughout the Dominion. Cookery teachers—and housewives, too—prefer Magic because of its consistently better results.

Free Cook Book—When you bake at home, the new Magic Cook Book will give you dozens of recipes for delicious baked foods. Write to Standard Brands Ltd., Fraser Ave. and Liberty St., Toronto, Ontario.

$75 IS GRANTED TO ALTERATIONS

Old Campbellford Town Hall Being Renovated for Use of Water Commission.

OTHER BUSINESS DONE.

CAMPBELLFORD, April 12. (By Examiner Staff Correspondent.) — The question of a contract between the Water and Light Commission and Board of the town of Campbellford and the Hydro Electric Power Commission again came up at the regular meeting of the Commission Board held yesterday and at which Mayor J. M. Bygott presided. The matter was broached when the clerk read a letter from Don Carlos of Toronto, chief engineer of the Hydro, stating that the town's suggestion for a new agreement had gone forward to the commission for consideration.

Speaking on the matter Commissioner J. O. Benor stated that the manager, P. C. Denyes, had already been to Toronto on this business but as he was at present ill and unable to appear before the board and report.

However, another business trip to Toronto was indicated at the earliest opportunity and on motion of Commissioner J. Blue and Mayor Bygott a resolution was passed covering this action on the part of the manager.

The alteration of the old Town Hall into the centralized shops of the Commission Board was progressing fast Commissioner Blue reported, but stated that another grant of money would be necessary to complete the work. The Board has already granted $300 for this work. Mr. Blue stated that more work had been done on the building than was at first anticipated, although much of the old material had been used. It was suggested by him however that a toilet and wash basin be installed, and a new front door and canopy be added. Two hundred and fifty dollars of the first grant had already been used and if the new work was to proceed another $100 would be needed.

After discussion of the subject a sum of $75 was granted for this purpose, it being decided to proceed with the fixing of the front of the building only. Mayor Bygott though that the work had been underestimated.

Increase in Salary

One increase in salary was made, the meter reader being raised $15 per month. He was given additional work however, being given the job of looking after past due accounts and rendering to the office reasons and explanations regarding these delinquients. This business was carried through on motion of Commissioner Benor and Mayor Bygott.

The Board ratified the action of Commissioner Blue in hiring Thomas Brennan as assistant at the pumping stattion ,this being done on the recommendation of the manager, who was sick. The salary is $60 a month. The action of the manager in reducing the salary of A. E. Wragg, operator, from $125 to $115 a month to conform with other operators' salaries was also ratified.

The lease from the town to the Commission Board of the town hall being for five years at a monthly rental of $6 was accepted as submitted and the clerk and chairman empowered to sign the same.

A letter from the town solicitor pointing out that the board had not conformed with the requirements of the Public Utilities Act in failing to render a statement to the town council, was received, and on motion it was agreed to do this, the statements being rendered quarterly.

Several matters were brought up for discusstion but laid over for consideration. Commissioner Benore suggested the paying of accounts by aged people at the bank to save the walk up the stairs to the Board's office; that a service charge of $1 and a deposit of $2 be made when requiring power; that the secretary be given power to use his judgment in the granting of discount on payment of bills when these are overdue a short time through no fault of the customer; that the board be divided into committees for the purpose of making a close study of the affairs of the commission; and that a ten percent cash reduction on cash payment on the water rate be made because of the fact that this department was showing a balance and he believed that the profits of the system should go back to the consumers.

Speaking on this matter Commissioner Blue was of the opinion that a permit should be obtained from the office before any plumber linked and connected an outside service with the main. He stated that last spring over seventy users of the outside service were not paying for them. Mr. Blue also thought that the by-law should be changed regarding the linking up of one horse power motors with household meters. He thought that motors up to three horse power should be allowed for the town.

The first Wednesday evening after the council meeting was set as the new time for the regular meeting of the board.

Obituary

MRS. CHARLES McILMOYLE

(Examiner Correspondence)

LAKEFIELD, April 12—The death occurred suddenly yesterday of Mrs. Charles McIlmoyle, following a short illness, at her home in Smith Township. The deceased, formerly Margaret Freeburn, was seventy-six years of age and a life-long resident of Smith. She suffered an attack of pneumonia following influenza last week and passed away despite every effort that could be made for her. Mrs. McIlmoyle's husband predeceased her just one week ago, dying from the same causes.

The deceased was a highly-respected resident of Smith Township, and her death came as a shock to her many friends. Surviving her are two sons, Gilbert and William of Smith, and one daughter, Mrs. William Hillman of Lakefield. The funeral will be held from her late residence, Lot 25, Concession 11, Smith Township, Wednesday afternoon at two o'clock to the Lakefield Cemetery, with the Reverend R. J. Merriam of Bridgenorth officiating.

$20 BILL GIVEN TO PAY FOR PIE

(Continued from Page 1)

ing. Dark complexioned. Wore string of green and silver beads around neck. Gray felt hat. Gray tweed coat. Brown dress.

No Word

No word from the kidnappers since the swindle has been received by Col. Lindbergh, said Col. H. Norman Schwarzkopf, head of the state police, after a conference in New York with Col. Henry Breckinridge, legal adviser of Lindbergh.

Dr. John F. Condon, described as the author of a series of cryptic newspaper advertisements signed Jafsie which led to the thwarted negotiations for the baby's return, was believed to have attended the conference also.

The kidnapping case was to be laid before the Hunterdon County Grand Jury later to-day, Attorney General William A. Stevens said. The Norfolk intermediaries are understood to have warned Col. Lindbergh they were dealing with the real abductors, and that the other person was a member of the gang who broke away and used his inside knowledge to make $50,000.

Secret Meetings

According to the story told police headquarters in New York, the $50,000 was turned over by Dr. Condon after a series of meetings with a mysterious emissary, one of them near a cemetery. The New York Daily News says that after the baby failed to be returned, Col. Lindbergh and aides returned to the cemetery scene in the Bronx, and using surgical plaster, took casts of the emissary's footprints to aid in the hunt.

The Daily News says that the tokens given to Col. Lindbergh during the negotiations as proof that the baby really was in the possession of the persons demanding $50,000 were two safety pins such as had been used to pin the baby's blankets to its crib.

Dr. Condon, carrying two heavy suit cases and a satchel, made a mysterious trip away from his home in the Bronx yesterday, but refused to say where he had been.

CANADA LEADS IN ELECTRICITY

Electric Cooking is Now Widely Used by Canadian Women.

MANY ADVANTAGES

Canada is among the world leaders in the use of electricity for domestic purposes, and it is only in those areas where power development has not been sufficiently extensive to reduce the cost of current to an economic level that electricity has not yet transformed housework from drudgery to pleasure. Particularly in cookery is electricity popular in Canada. Although the Dominion was more than 15 years behind England in adopting the electric range, a far larger proportion of women in Canada than in the British Isles are now experiencing the benefits of electric cooking.

According to an official of Canadian General Electric, the Crystal Palace, home of many an exhibition that thrilled Londoners in the Gay Nineties, was the scene of the introduction to the world of the first electric range. The first electrically cooked dinner was served, with world-wide interest, in Old London in 1894. It is only 25 years since the first electric range was shown in Canada, and that was an elementary model of wooden construction.

To-day electrical cooking has been developed to such a degree that the housewife can leave her dinner in the oven and go out for an afternoon with a clear conscience. Her stove will automatically turn on the heat at a given hour, maintain it for the desired period at an even temperature, and turn the current off again when the roast is cooked. There are the additional advantages of cleanliness, safety and uniformly successful cookery, and all this is now accomplished at a saving of fuel as compared with other ranges. Housewives who find themselves for the first time in a zone of cheaper electrical current owe it to themselves to take advantage of the boon offered by General Electric Hotpoint ranges and to discover what strides have been made in making the kitchen a place of freedom instead of slavery.

FISCAL POLICLY

(Continued from Page 1)

moved an amendment. It would place the House on record as saying the Government's fiscal policy had been arbitrary, ill-considered and inordinate and had the effect of stifling agriculture and other industries, restricting trade and commerce and increasing unemployment.

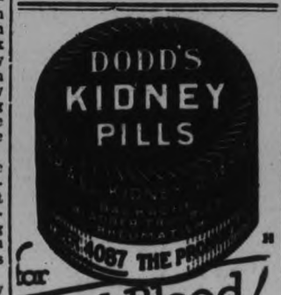
The Liberal financial critic massed his attack on the fiscal policy of the Government which he termed putting a barbed wire fence around Canada. This, he said, coupled with manipulation of the tariff by order-in-council, had resulted in Canada's trade dropping one-half in two years. Items in the customs tariff had become a mere formality; they were changed overnight by order-in-council, creating uncertainty among importers, general confusion in industry, and a steady drying-up of Canadian trade.

Missed Big Opportunity

The Government, proceeded Col. Ralston, had missed an excellent opportunity of holding out the hand to Great Britain when it made no Imperial trade gesture in the Rhodes budget. It was an opportunity to return concession for concession, to cement the relations for the Imperial Economic Conference, but the administration had let it pass.

A. A. Heaps, financial critic for the Laborites, followed the Trade Minister in the debate. He asked if it were logical that men and women should go hungry and barefoot while elevators were filled with grain and warehouses with clothing, because a country could not sell its products when other nations had no money. He contended the heads of Canadian families should be enabled to balance their budgets before the Government. Even Parliament, he said, could scarcely move except at the dictates of financial interests.

John R. MacNicol, Cons., Toronto North-West, was the only other speaker during the day.



PRISON LIFE, ROTARY THEME

H. L. Tucker Tells of Life in American State Institutions.

AT CAMPBELLFORD.

CAMPBELLFORD, April 12 (Examiner Staff Correspondence). —A talk on State prisons was given the Campbellford Rotary Club at their regular luncheon yesterday when H. L. Tucker, who has been connected with the life of many of the Eastern state institutions in an official capacity, described these places of confinement, stressing the fact that he never realized the truth of the statement, "obedience to law is liberty" until his work brought him in contact with prison life. Mr. Tucker is now a resident of Campbellford. President Rev. R. C. Tait presided over the gathering, the speaker being introduced by S H Neale.

Mr. Tucker stated that there was a vastness of work involved with the administration of a state prison, holding as it does people of all races, creeds, and colors. Apart from being actively criminals, many people just get there, he declared, although he did believe that all the men were in prison who should be there.

When a man is commited to prison he is first booked, recorded, photographed, registered, and then handed over to a warder to be bathed, an operation which is done thoroughly. He is then lectured by a prison official on the rules and regulations of the institution and advised to adhere to the same.

For these inmates, work has to be created, and although many institutions such as Elmira, have large farms attached, where produce is grown, many of the older prisons which are located in the centres of cities, rely wholly on indoor activities which are mostly given over to manufacturing, and education. In these prisons workshops exist where the men are employed, but each inmate is given an intelligence test before being placed, to determine for what kind of work he is most fitted. Very little prison-made goods come on to the markets today, the trade unions preventing this. And many of the men found in prisons become habitual returners.

Have Banking System.

Each department of the prison is in charge of a foreman, with an attending teacher, who looks after the discipline. A prison foreman is also under these two, this man being a good conduct prisoner. The prisoners as a whole are keen and industrious and do their work well. The hours are not too long, from 9 to 4, with one and a half hours for dinner. From four to five is a recreation period, and during this time the inmates exchange many things, among themselves, such as pieces of leather, beads, string and horn, and with these materials make in their spare time many useful articles which are sold for them by the prison authorities to visitors. Each prison has its own bank and a prisoner can draw on this account to buy things he needs for himself, and which the rules of the prison allow.

A system of checker playing is also indulged in by the inmates while in their cells, the squares on the boards being numbers and the moves made by calling the number. In like case, cards are played with a duplication of packs. Many of the prisoners become studious, religious, and musical, and indulge their fancy in this way while they always attend church, this being a respite from their cells.

One of the features of the education was the musical training obtained in the prisons, the bands being of exceptionally high quality and much in demand for concert work in prison life. Many of the inmates are under the impression that society has not given them a square deal, and that is the prime reason for their being there.

"Prisons," said Mr. Tucker, "are not the filthy, ill-ventilated places sometimes described in books. On the contrary, they are up-to-date and sanitary, well equipped, with every convenience and care for the inmates. Good food, changed daily, is served out. Much of the cleaning in American prisons is done by the negroes, who seem to be best fitted for this purpose."

A vote of thanks to the speaker was sponsored by Dr. H. B. Longmore and Elie Brunelle. A. D. Bennett reported for the committee handling the arrangements for those attending the annual convention of the 29th Rotary District to be held at Hamilton on May 16 and 17.

ASHES BLANKET

(Continued from Page 1)

nearer than 10 miles to the volcano. The air was becoming thicker every minute, he said, and it was so dark when he flew into the haze that he could not see his instrument board without lights. Over San Fernando the haze darkened but he kept on until he began to smell gases. In faint outline, he said, he saw three or four columns of smoke and bright flashes of constant explosions. Around each active cone was a lighter ,rainbow-colored ring, caused by the gases.

He said he believed a string of many volcanoes, connected perhaps by an underground lake of lava and fire, broke into activity simultaneously. He estimated the principal danger zone was 100 miles south of here.

BRIEF AND INTERESTING NEWS ITEMS FROM THE TRENT TOWN

Mrs. J. D. McEachern met with an unfortunate accident on Saturday evening, injuring her knee, which necessitated medical treatment. Reaching to obtain a cloth which had fallen over the back verandah she misjudged the distance in the dark and fell six feet on to the ground. She is still confined to her home.

The Campbellford Lodge No. 248, I.O.O.F. have received an invitation to exemplify the second degree at Havelock on April 19. It is expected that the invitation will be accepted.

Pallbearers at the funeral of the late Mr. James L. Forestell, held from St. Mary's church on Monday, were: P. J. Sarginson, Thomas O'Rourke, W. Blakely, Albert Stephens, Bert Third and Joseph Kelleher.

Mr. H. N Carr is a business visitor to Ottawa attending a dairy convention

Mr. T. E. Hall was on business in Toronto on Monday.

Mr. N. Alex MacColl was a business visitor to Cobourg on Monday.

Presentation Made To School Teacher

Miss Coates, teacher of S.S. No. 11, on resigning her school, was presented by her pupils with a lovely salad bowl and servers and an address at a recent gathering.

CIVILIZATION NEW TO WORLD

(Continued from Page 1)

come to accept as almost the law of nature.

Mr. Hindus paid high tribute to the Russian peasant. He painted a picture of farming conditions in 1919 in which half the milled flour was crushed weeds, agricultural machines were unknown, cows lived in a mounting pile of manure in stables that were cleaned once a year. Although the older generation of peasants had stoutly resisted collectivization of farming, had slaughtered cattle and burned grain in order to prevent innovations, today the older generation are licked and they know it, Mr. Hindus said. He predicted a brillant future for the Russian farmer.

Soviet Viewpoint

Western social conditions, the speaker noted, rested on three things: private enterprise, religion and the individualistic family. Russia repudiated the first two of these: private enterprise had been abolished in the larger cities, and throughout the country Atheism is flourishing. They did not forbid worship, and people did worship all over the country; but the State did forbid evangelization and missionary work, he said. The State did not wish to destroy the family, but wished to adopt it to new conditions and cited as an example the spread of nurseries, where mothers are not compelled to send their children, but most of them do, because most women work.

There is no freedom of speech, of the press, or of assembly as the country is under a hard and fast dictatorship, Mr. Hindus said. Asked what lay in the future, the speaker stated:

The Future—?

What the future is going to be I do not know. You may say it is against human nature, but it is time you stopped fooling yourselves, because we do not know what human nature is. The revolution is pushing on and on; for the older generation it is a tragedy, but the younger generation does not know any other civilization. It is a revolution of youth. It may take several generations before it crystallizes, but we can at least hope that the new civilization will not be disappointing to the future generations.

Flooded rivers are causing considerable damage in Peru.

The final survey of the China Flood Relief Commission shows that at least 150,000 were drowned when 42,000 square miles in Yangtze River Valley were inundated completely last summer, and that more than 25,000 square miles were under cultivation at the time.

WAGES ARE SET FOR ROAD LABOR

Road Superintendent of Percy Township to Receive Salary of $3.50 Per Day.

COUNCIL MEETING

WARKWORTH, Apr. 12 (Examiner Correspondence)—The Municipal Council of the township of Percy met in the town hall here pursuant to the adjournment of the last regular session.

Alfred Merrill, Reeve, in the chair. Other members present: James Lamey, deputy reeve, C. J. Boyce, U. E. Wartman and R. R. Mallory, councillors.

Communications: A. A. Martin re S.S. orders. Plaxton and Hueston re township insurance. Robert C. Muir acknowledge receipt of by-law.

Moved by C. J. Boyce seconded by U. E. Wartman that in view of the plain fast that the present schedule of wages for township work is entirely out of proportion to the earnings of agriculturists and others and more than ratepayers should in fairness pay. That the rates be established for the future namely: men $1.75 per day 10 hours. Man and team $3.50 per day 10 hours. Gravel truck, $10 per day 10 hours. 2 Teams on grader $4 per team 10 hours large grader; 3 teams on grader $3.50 per team 10 hours large grader. Carried.

Moved by R. R. Mallory seconded by James Lamey that with the consent of the department, the road superintendent's salary be $3.50 per day of 10 hours.—carried.

Moved by R. R. Mallory seconded by U. E. Wartman that the reeve, clerk and treasurer sign cheques on the Royal Bank of Canada in favor of the following parties: for the police village; Hydro Commission, street lights for March, $54; H. Field, work on streets, $8.75; J. Grant, work on streets 75c; C. Fowler, care of Fire Hall, $5; W. Taylor, work on streets, 25c; J. J. Welcker, account, $103; N. A. MacCall, $60; W. A. Kelley taking down trees, $10.75; telephone account, $2.25; Hydro per R. W. Kelly, $2.80; total, $247.55.

Osborne, relief and Allman, $2.80; Thomas McMillan, abatements and allowances, $153.08; Thomas McMillan, balance salary $125, postage $5.45, telephone $11.08; $151.53; P. S. Ewing, telephone commission, $11.08; George Dawe, telephone commission, $5.54; total, $2,191.09.

Moved by James Lamey seconded by U. E. Wartman that the collector's roll be accepted and cheque for balance of salary be issued.—carried.

Moved by R. R. Mallory seconded by C. J. Boyce that salaries as councillors be reduced ten per cent for this year.—carried.

Moved that council adjourn till May 3rd, 1932, ten o'clock a.m.

Hitlerites Objects Of Police Attention

NAZI OFFICERS SEARCHED IN GERMANY.

In accordance with the provisions of a search warrant issued by the Prussian Minister of the Interior, police of various Prussian towns descended on the offices of the National Socialist Party, known as the Nazi, for possible evidence of high treason. ABOVE photo shows police loading documents seized inside a Nazi building, in a van.

SHE HEALED OLD SORE

Had It for 10 Years—It Went in 30 Days.

"I had an ulcer on my ankle—had it 30 years and cou'd not get it healed. Had medical treatment. I got two boxes of Peterson's Ointment and it was entirely healed before I had used the second one I don't think there is a better remedy on earth." Mrs J C. Henderson. Winston-Salem N.C. A big box costs only 50 cents at any drug store.

JAPAN'S STAND

GENEVA, April 12.—(AP)—Japan notified the League of Nations today that she expects the new independent government of Manchuria to control the territory and not the Chinese Government at Nanking.

NO IMMEDIATE ACTION ON OATH

Indications Point to Rest Till Dail Eireann Reassembles April 20.

LAND PAYMENTS DUE JUNE

LONDON, April 12 (C.P. Cable).—There were indications to-day the Irish Free State Government will not take further immediate action in its endeavors to abolish the oath of allegiance to the Crown and matters will probably remain at an impasse until the Republican Government's bill to abolish the oath is presented in the Dail Eireann which reassembles April 20.

Free State Ministers are confident the bill will pass the House, although President Eamon de Valera's Fianna Fail cannot command an absolute majority. The balance of power in the new Dail is held by the Labor party, which is generally expected to support President de Valera.

So far as the question of withholding payment of Irish land annuities is concerned, the consensus here was no further steps were likely until the next payment is due in June.

EASTERN TRAFFIC ROUTE IS CLOSED

Motorists From Lindsay Must Go to Peterborough by Way of Whitby.

LINDSAY, April 12.—(Special to The Examiner).—Lindsay is completely isolated from the eastern part of the province insofar as motor traffic is concerned unless one wishes to take the round about way via Whitby to reach the town. Today the Highway Department closed the detour on the Lindsay-Peterborough Highway which rounds the bend of the Scugog river at the southern entrance to the town. All day Sunday and yesterday horses and wreckers were busy hauling cars out of what was once a narrow gravel road, but which has been transformed into a muddy stretch in which cars sink to the running board. Yesterday afternoon a number of motorists from Peterborough reached the detour over the paved road. They were obliged to forsake their cars and walk into Lindsay. Motorists from the west who arrived in Lindsay yesterday, and wished to get through to Peterborough, Omemee, Bethany and other points, were halted at the detour and advised to go around by Whitby and Port Hope in their journey to eastern points. Traffic is good from Lindsay to Downeyville, but the road from that hamlet to Omemee is impassable. One farmer undertook to take a truck load of cattle east by a side road leading to the paved highway at Cunningham's Corners, but was obliged to turn back, because, as he stated, he nearly lost truck, cattle, etc., in the mud. It will be some days before the roads are fit for traffic, and in the meantime local merchants will lose considerable trade from southern and eastern points. A great deal of criticism is heard on the streets concerning the delay in completing the bridge over the Scugog river, which has rendered the detour necessary. The structure has been under way about four months and it will be several weeks yet before it is completed. It is understood the contracting firm had some difficulty in building the abutments, which caused an unfortunate delay.

The Lindsay Relief Association has decided to continue relief work until the end of the month. This relief work was undertaken last January, and over $10,000 has been spent to date. Nearly 5000 meals were served at the soup kitchen, the armory.

Mr. and Mrs. Joseph Brisbin of Burnt River celebrated their diamond wedding a few days ago. Open house was held and the venerable couple was showeerd with congratulations. Mrs. Albert Johnston of Toronto, a niece, was the only guest present who attended the ceremony sixty years ago.

All apples and pears imported into Jugoslavia hereafter must be subjected to sanitary inspection.

MURDER SCENE DRAWN FOR JURY

Prosecutor Tries to Show Killing Took Place in Fortescue Home, Honolulu.

WITNESSES LINED UP.

HONOLULU, April 12 (C.P.) — Efforts to picture what happened behind the drawn blinds of the home of Mrs. Granville Fortescue on January 8 when Joseph Kahahawai was allegedly slain, were made by the prosecution to-day in the trial of the society woman and three U.S. Navy men for the killing.

John C. Kelley, public prosecutor has produced witnesses who linked the defendants with the abduction of Kahahawai and with the motor car stopped by police while rushing toward Koko Head with the body, which apparently was to have been thrown to the sharks.

The prosecutor lined up to-day's witnesses in an attempt to show that the killing took place in the Fortescue home.

No Actual Witnesses.

He did not reveal the names of those summoned to take the stand, and, as far as he is publicly known, he has no actual witnesses to the shooting which ended Kahahawai's life.

In his opening statement Kelley told the racially mixed jury something of what he expected to prove concerning the home.

Two officers, he said, went to the place after the shooting and found windows closed and blinds drawn. They found a revolver, he said, and a bullet lying on a table.

A purse containing a photograph of Kahahakai, a cap which had been worn by the victim, blood stains, a rope identical with that used to bind Kahahawai's sheet-enveloped body, and evidence indicating the floor had been recently mopped, were found in the house, Kelley said.

New Capital Will Back Chicago Firm

CHICAGO, April 12 (C.P.)—The Tribune said to-day a new concern, backed by new capital, is to supplant the Utilities Securities Company, with its activities confined to distributing the securities of the various Insull interests.

The big Insull operating companies — Commonwealth Edison, People's Gas and the Public Service of Northern Illinois, the paper said, will supply the backing and the new company will not take over certain commitments made by the present concern.

Sues For $500,000

Charging that explosion of a comb caused personal disfigurement, Louise Squire, former showgirl and artist's model, has brought suit for $500,000 damages against the merchants from whom she purchased the assessory

"Any woman would be proud to own the New PONTIAC SIX"

Miss Frances Thompson

Pontiac wins the enthusiastic approval of the noted home economist, conductor of the General Electric Peterborough Examiner Cooking School . . . .

AMONG those women whose lead is widely followed in matters of personal equipment, the new Pontiac Six is winning specially high favor for its brilliant performance and unusual value. For instance, there is Miss Frances Thompson—conductor of the Peterborough Examiner Cooking School — known throughout the country for her work in household economics. Miss Thompson has chosen, for her personal use, a new Pontiac. "It is so smart in appearance—so easy to handle," says Miss Thompson, "it looks and acts like a much more expensive car."

Miss Thompson believes that the new Pontiac Six is an ideal choice for women drivers. From every standpoint by which motor car values are judged, it is Chief of Values.

INSULATE YOUR HOME AND SAVE HEATING COSTS

A warm roof means a cold house

Walk along any street and pick out the uninsulated roofs. It is easy—expensive furnace heat leaking through the roof melts the snow. It collects at the eaves, forming icicles. Later on in mild weather melting ice backs up under the shingles and the roof begins to leak.

Stop fuel leaks and water leaks by applying DONNACONA Insulating Board to the underside of roof rafters. If your attic is big enough, line the walls, too, and you will have an attractive and livable spare room. The cost is surprisingly low.

The exclusive roughcast surface of DONNACONA Board offers you opportunities for an endless variety of attractive wall finishes.

DONNACONA roof insulation will also turn back the hot rays of the Summer sun, making your upstairs rooms cool and comfortable throughout the Summer.

DONNACONA plaster lath in wall partitions will permit you to sleep with bedroom window open in the coldest weather without chilling off rest of house.

If you plan on building a new home consult your architect with regard to DONNACONA insulation. If you wish to insulate your present home, we will be glad to suggest the most economical means of applying DONNACONA Board.

We will also be glad to give you information about our other building products which will add to the value of your home.

The Gossard Corset of Beauty

Foundation Garments

Perfect Garments that are So Essential for New Clothes

To have and to hold

Slender, feminine curves is the first requisite—if you would be outstandingly fashionable. The one sure way to achieve the lines you desire is to wear.

GOSSARD'S
MIS SIMPLICITY

The ingenious design crosses waistline straps to pull flat the abdomen and diaphragm, raise the bust and slim the waist.

The illustration shows

Mis Simplicity

Mrs. H. K. Burkley

FASHIONIST OF THE GOSSARD CO.

will be in our Corset Dept. for Two Days Only

Wednesday and Thursday

And will be pleased to have a consultation with you on your personal foundation garment requirements Phone 1780 and plan an appointment for a fitting, without any obligation to you.

With the newer styles, a proper fitting foundation garment is an absolute essential. Gossard has created a number of new models that will convince you that a perfect fitting garment does much to make the success of your outfit. See our complete display of the new models, moderately priced.

Front Lacing Corsets

Gently mould and hold the body along well balanced lines, and yet are comfortable and perfect fitting. Made of lovely quality pink brocaded material, finished with satin top. Sizes 26 to 38. Priced..... **7.50**

Graceful Line Solitaires

An exquisite garment of peach satin brocade with lace top. It moulds your figure to lovely slender lines without a feeling of restraint. Light, invisible boning tends to flatten the back and diaphragm. Sizes 34 to 44. Priced..... **12.50**

MisSimplicity-Slender Lines

The Mis Simplicity model sketched is one of the many garments that emphasize the converging waistline, flattens the diaphragm and abdomen. A light weight garment that allows perfect freedom of movement, yet gives a firm, graceful line. Sizes 32 to 38. Priced..... **8.50**

RICHARD HALL LIMITED

CONTINUATION SCHOOL HOLDS COMMENCEMENT AT MILLBROOK

J. Wellington Pickup, of Toronto, Was Special Speaker on Program.

DELIGHTFUL EVENING

MILLBROOK, April 12.—(Examiner Correspondence).—The auditorium of the town hall was filled to capacity on Friday evening for the annual commencement exercises of the Continuation School. W. H. Coombe, chairman of the school board, occupied the chair, and J. Wellington Pickup, a former Millbrook boy, and now a prominent barrister of Toronto, being the special speaker for the occasion.

The school orchestra played while the audience was gathering, and at other times during the program, which was introduced by four of the pupils, Bryar Edmunds, Mary Nattress, Harry Kennedy and Will Todd coming before the curtain, and with many ludicrous gestures and facial expressions, singing from very large books, "Good Evening to You All." The accompanists of the evening were Mary Burnham, Bryar Edmunds and Will Todd.

When the curtain rose a full quota of the pupils were seated on the stage round a glowing 'campfire', some of the boys with banjos and violins, a number of familiar airs being sung, in some cases, the refrain whistled by the boys of the group.

Audience Welcomed.

Following this appropriate opening, the chairman extended a warm welcome to the large audience on behalf of the school board, and the staff and pupils of the Continuation School, a fine exhibition of girls' gymnastics coming immediately afterward, under the supervision of H. W. Jordan, principal of the school, those who performed the strenuous and clever 'stunts' including: Ruth Ball, Madeline McDowell, Thelma Armstrong, Helen Mitchell, Verna Braithwaite, Mary Burnham, Bryar Edmunds, Willie Lord and Pearl Richards. The girls looked most attractive wearing middies and navy bloomers, with orange head bands, while the boys, when their turn came to display their suppleness of muscles and teamwork in exact harmony of movement and performance in a gymnastics exhibition, similarly displayed the orange of the school colors in wide sashes worn with white shirtwaists, and dark trousers; their instructor was S. W. Cawker, assistant principal of the Continuation School, and in both instances the audience showed its pleasure by repeated outbursts of applause.

A very pretty tennis drill was interposed between the girls' and boys' gymnastics. The participants were: Betty O'Brian, Mary Hall, Martha Earle, Charlotte McMahon, Jessie Armstrong, Bonna Clarke, Ida Lunn, Margaret Fallis, G. Wood, Ethel Belch, Mary Armstrong and Marjorie Vance.

Taking part in the boys' gymnastics were: Joe Thorndyke, Red Edmunds, Will Todd, H. Raper, Jack Stinson, Wilson Ford, George Harkness, Gilbert and Harold Howson, A. T. Armstrong, Gordon Muspratt, Allen Winslok, Isaac Larmer, Ronald Argue, Reg McKnight, Douglas Carveth, Owen McCarthy, and Harold McCamus.

Valedectory Address.

Miss Mary Vance, now attending High School at Port Hope, was chosen to give the valedictory address, and was accorded hearty applause when she came upon the stage and was presented to the audience.

Introduced by the chairman, J. W. Pickup was greeted with prolonged applause as he rose to address the gathering, his opening words of pleasure and appreciation being well chosen, and the applause breaking out again as he sketched in a bit of background with the facts: "I was born in Millbrook, attended school here, and it was here I lost my heart"—the latter a reference to his marriage with Miss Kathleen Fitzgerald, a former Millbrook girl.

Paying a well-deserved tribute to the late David Hampton, for over forty years principal of the local school, the speaker added: "I am sure he is ever dear in the hearts and thoughts of all of us who were fortunate enough to be his pupils in this dear old town." Congratulating the present-day pupils as being worthy successors to the scholare of former years, and urging continued loyalty to their instructors, Mr. Pickup mentioned some requisites to success, such as hard work now in the heyday of youth; patience and perseverance; honesty and integrity, using many incidents from the life of the Earl of Beaconsfield (Benjamin Disraeli) to prove that "there is no office under the British Crown which is not open to attainment no matter how humble may be the birth, or scanty the means of the one who has the will and the diligence to succeed."

Diplomas Presented.

The presentation of diplomas was another pleasant task assigned to the guest-speaker of the evening, those receiving these coveted, ribbon-tied rolls being: Mary Vance, Beatrice Jones, Marian Earle, Sadie Rowland, Margaret Russell, Jean Stinson, George Gray and Donald Henry. The Dr. Norman Allen Scholarship for the head boy of the school was awarded this year to Gilbert Howson, and in presenting the framed certificate, Mr. Pickup added his heartiest personal congratulations, the recipient responding briefly; the accompanying cheque for fifty dollars had been previously presented to Gilbert by the school board.

As a concluding number on a lengthy program the play, "The Ghost Chaser," was presented in an able manner, its many 'spooky' happenings, enhanced by the dim light which kept the stage in semi-darkness most of the time, creating plenty of thrills and causing the younger element, particularly, to break out into smothered screams of half-terorr as the story preceded on its ghostly way.

The scene was laid in the living-room of an old house which had been taken by Miss Colfax (Helen Mitchell), whose butler (Henry Raper) and maid, Maggie (Mary Nattress), turn out in the end to be the instigators of all the spooky noises, etc., which create terror in the hearts of the inmates. The detective, Mr. Higginbottom (Dick Williams), who eposed the crooks and had them arrested, took his part cleverly, as did all the characters, Miss Colfax's visitors, Beverly Wright (Dorothy Nattress) and Jimmy Wright (Alvin Widdis) and the Ghost (Lyal Nattress), having an active share in the ghost-chasing during the lively action of the humorous tale.

Financially the event on Friday evening was decidedly successful, the principal, Mr. Jordan, extending hearty thanks to the audience for the appreciation shown of the weeks of training and planning involved, on behalf of the school staff and pupils, before the singing of the National Anthem brought the enjoyable occasion to a close.

MISSION BAND GIVES CONCERT

Mission Band Concert of Norwood United Church is Big Success.

WELL ATTENDED

(Examiner Correspondence)

NORWOOD April 12.—On Friday evening the children of the Mission Band of the United church gave a splendid concert in the Sunday school hall which was well filled for the occasion. Rev. R. F Stillman acted as chairman for the evening. While Mrs. C. Brown, Mrs R. G. McDermott and Miss R. Squire the Mission Band superintendant who trained the children looked after the various numbers.

The program opened with the children's hymn "When He Cometh" after which Mr. Stillman led in prayer. The first number was a chorus by the Mission Band boys and girls. Recitation, Greta Buck; piano solo, Greta Kirk; duet, Eileen and Ann Giffen; dialogue "Deaf As A Post". Those taking part, Kitty Edwards, Leta Mason and Ruth Packenham; recitation, Dorothy Packenham; solo, Raymond Rodgers; chorus, 8 girls of the band; dialogue, Laura Metcalfe and Helen Scott; recitation, Edna Slarke; play, "Won't You Walk Into My Parlour". Those taking part, Laura Metcalfe, Margaret Brethen, Kitty Edwards, Hazel Rodgers, Leta Mason, Jimmy Fuck, Lester Bongard, D. Johnston and C. Puffer; solo, Joan McDermott; dialogue, Jelly for the Minister"; recitation, Laura Metcalfe; duet, Kitty Edwards and Margaret Brethen; recitation, Eileen Elliott; recitation, Olga Metcalfe; closing hymn, "Jesus Love Me", prayer.

Mr. W. B. Tucker was in Peterborough on Friday.

Mr. Gordon Fry has returned to Hamilton after visiting with his parents Mr. and Mrs. F. Fry.

Those citizens who claim the "Globe" as their daily paper are very much pleased to receive it early in the morning now. Previous to this week it didn't come until the noon train.

Mrs W H. Tucker was in Peterborough on Friday.

A great number of our town people listened with interest to the radio broadcast from Toronto Saturday night of the Maple Leafs and New York Rangers.

Mr. and Mrs. Gainor and daughters of Keene were visitors with Mr and Mrs. A. Armstrong recently.

Marmora

Mr. and Mrs. William Neal, of London are visiting the former's parents, Mr. and Mrs. T. E. Neal.

Mr. H. W. Sabine spent the weekend in Toronto.

Mr. Jacob Wilkes returned home from St. Joseph's Hospital, Peterborough on Friday.

Mr. and Mrs. R. Lough who have been spending the winter with Mr. and Mrs. W. J. Pack have moved back to their own farm.

HAWES' is the only Floor Wax chosen by Miss E. Frances Thompson for demonstration this week at the Grand Opera House

NORWOOD BOARD FILLS VACANCY

Claud Bongard is Appointed to the Norwood School Board.

SCHOOL BOARD MEETS

(Examiner Correspondence)

NORWOOD, April 12.—The Norwood Board of Education met with most of the members present. Mr. J. Marks, chairman was in the chair. Mr. Nelson, principal of the public school and Mr. Lawlor of the high school were present and each addressed the board. The resignation of M. Steele who has moved from town was read. A copy of the auditor's report was also presented.

In regard to Mr. Nelson's request it was moved by Mr. Lumsden, seconded by Mr. Buck that the board grant $10 to the public school for the purchase of soft balls and bats to be used at the school. Carried.

It was moved by Mr. Squire, seconded by Mr. Webster that Mr. Steel's resignation be accepted. Carried.

It was moved by Mr. Claud Bongard be appointed to fill in Mr. Steele's year. Carried.

Moved by Mr. Buck, seconded by Mr. Keefer that the auditor's report be referred to the finance committee. Carried.

In regard to the matter of deflectors for the high school it was moved by Mr. Squire, seconded by Mr. Finlay that this be left in the hands of the property committee. Carried.

Moved by Mr. Squire, seconded by Mr. Webster that the secretary write to Heintzman & Co. and ask that the piano be tuned and that the remaining records be sent as called by the agreement. Carried.

Moved by Mr. Buck, seconded by Mr. Cutcliffe that the pianos in both schools must not be moved from the schools without the permission of the board. Carried.

Following accoun's reported paid: A. Bongard, 6 cords wood at $6.50 per cord, H. S., $39.0 ; Ryerson Press, 12 math. tables H. S., $1.80.

Accounts to be paid: Norwood Register order book, P. S., $4.25; J. L. Squire & Son, paper towels, etc. H. S., $11.56; C. Calder, 6 gramophone records, P. S., $5.00; C. Brown Kaustine, etc., H. S., $26.46; Norwood Register, advertising, 37c; H. E. P. C. lights, P. S., $11.88; H. E. P. C. lights, H. S., $9.85; Weir express, H. S., 60c; J. L. Squire, paper towels, etc., P. S., $11.55; C. Brown, Kaustine, etc. P. S., $26.46; R. S. Fennel, dec. and repairing ceiling in H. S., $10.65;* Eastern Steel products Ltd. 3 ceiling plates H. S. 75c; R. G. Lawlor, telephone calls H. S. 75c.

Moved by Mr. Finlay, seconded by Mr. Lumsden that payment of Ryerson Press and A. Bongard accounts be confirmed that the Hydro, telephone and express account be paid and that other accounts be paid when confirmed. Carried.

SOCIETY MOVE IS UNDERWAY

F. P. Lancaster Hopes to Organize Horticultural Society in Havelock.

50 MEMBERS NEEDED

HAVELOCK, Apr. 12 (Examiner Correspondence)—In an effort to have a horticultural society formed in Havelock and Belmont, a meeting was held at the home of T. L. Lancaster on Saturday evening at which there were seventeen present.

Mr. Lancaster, who is a lover of flowers and shrubs, cultivated and wild, is deeply interested in any scheme that will tend to create interest in home and community beautification, and spoke eloquently of the great benefit to all, to be derived from the formation of a society here. He gave a brief outline of the act regarding horticultural societies. It is necessary to have a membership of at least fifty paid members before officers can be elected. In the opinion of those present, twice that many can be obtained in Havelock and Belmont, and a number volunteered to interest friends in the project.

The annual fee is on dollar per member, and shrubs, plants and bulbs to the value of perhaps $1.50 at wholesale cost, and special concessions to the society from reliable seed houses and nurseries, are distributed as premiums to the members. Besides this there is a government grant to the society, which is used for horticultural purposes in the community, and for home beautification.

Through the efforts of the society elsewhere, beautiful plots have been planted, streets beautified with ornamental and shade trees, and unsightly rubbish heaps and other eyesores have disappeared, covered up with creepers and other shrubs, making a beauty spot to attract the eye of the beauty lover and tourist.

It is said by some of the women at the meeting that unless something were done to educate the youngsters, and even older people, against the practice of gathering wild flowers in armsful, a number of our most attractive wild flowers will very soon be entirely wiped out.

A meeting will be held next Saturday evening at which it is expected there will be a much larger attendance, and when it is hoped the society will be actually formed. This will be held in the council chamber at eight-thirty as it will not interfere in any way with the librarians activities.

"Listen to me on CONSTIPATION

"I recommend Fruit-a-tives

"Personally, I suffered from constipation and dizziness, and never knew what a good night's sleep was before I took Fruit-a-tives. They have done me a world of good." Mr. A.T., Aylmer, Ont.

Thousands of people have been completely and permanently relieved not only from constipation, but also from serious illness of long standing by the proper use of Fruit-a-tives, which stimulates FIVE vital organs to work naturally. The great discovery of a brilliant doctor. Try it! You are sure to benefit. 25c. and 50c. a box.

Fruit-a-tives
MAKE AND KEEP YOU WELL

MRS. SAMUEL DOUPE HONORED AT PARTY

Presentation and Address Made to Trent River Resident at Gathering.

TRENT RIVER, April 12 (Examiner Correspondence). — Mrs. Samuel Doupe is visiting relatives at Preneveau, previous to taking up residence with her son Thomas Doupe at Seymour East. Prior to her departure the Ladies' Aid of the United Church, Trent River, presented Mrs. Doupe with a rose elderdown house robe and a box of Irish linen handkerchiefs, accompanied by an address.

Special Meeting.

A special meeting of interest to parents of the pupils of the Trent River School was asked for Friday afternoon, and owing to road conditions there was not a large representation present. However, the teacher, R. W. Umphrey, had charge of the meeting and explained that the purpose was to see if an organization could be started to make preparations for the annual school fair. Last year this school won the shield, but unfortunately had not as yet received it. The number on the register was 36. Last year this school also won 152 points at the fair.

The Department of Agriculture was not giving seeds to the schools. Three men were appointed on a committee to arrange for live stock and poultry exhibited at the fair. The committee is Messrs. John Isaac Free, Marshall Wannamaker, Harold Brown. The following ladies were appointed for committee for the sewing and cooking; Mesdames H. B. Wood, Emerson Glenn, Harold Brown. Another matter of business regarding the extension of the playgrounds surrounding the school was dealt with, and plans were arranged to have improvements made on Arbor Day Mr Umphrey suggested to hold a school picnic on June 3. An interesting debate was held: "Resolved That we should not have Easter holidays." The affirmative side was led by Phyllis Brown, assisted by Helen Brown, Clifford Dunn, and Ethel Shearer. The negative side was supported by Betty Ormiston, assisted by Carmen Alley, Alice Free and Ruth Glenn. The decision was given in favor of the affirmative side. The meeting closed with the National Anthem.

Missionary Night.

The president, George Armstrong, was absent on Friday night, and R. W. Umphrey took charge of the opening exercises. It was decided to hold a social evening on Friday, April 15, Clifford Chaplin to have charge of the program. Mr. Lawson spoke on "The Missions in Korea.' Mr. Umphrey spoke on the subject of the "Holy Grail" (the cup that was passed around at the Last Supper), and also told the story of a vision that a knight had in olden days. Rev. S. A. Kemp gave a short address on "A Man Hasn't Failed When He Has Done His est." Instrumental by Mr. Lawson and Miss Rose Lawson. The sides grouped for a bird contest. There was an attendance of 26. Rev. S. A. Kemp pronounced the benediction.

LITTLE GIRL WOULDN'T EAT

YESTERDAY she only toyed with her food—and of course Mother was concerned. But today, she has a bowl of Kellogg's Rice Krispies and milk—just see the difference!

Kellogg's Rice Krispies actually crackle in milk or cream. The very sound fascinates youngsters. And how they love the flavor!

Serve for breakfast, lunch — fine for the children's supper. So easy to digest, Rice Krispies invite restful sleep. How much better than many hot, heavy dishes.

Sold by all grocers. Always oven-fresh. Made by Kellogg in London, Ontario. *Quality guaranteed.*

STRADIVARIUS, *greatest name in the history of violin making. He learned his trade from a master who had previously absorbed the knowledge of all the violin craftsmen who lived before him. To this wealth of experience he added a lifetime of his own. There is no substitute for experience.*

4 Separate Degrees of Cold—Automatically Maintained

in the 1932 Deluxe Kelvinators . . . and many other points of preference

GREATER convenience, greater efficiency, richer beauty. The 1932 Kelvinators represent the accumulated experience of a score of specialists over a period of 18 years.

Lord Kelvin, by his far-reaching experiments, laid down the principles on which all electric refrigeration is based. Then Kelvinator, by specializing in this line alone, brought the domestic electric refrigerator to its present state of reliability, economy and convenience. Kelvinator was first in the field. Every worthwhile invention in electric refrigeration for the home has been contributed by Kelvinator. *There is no substitute for experience.*

Each of Kelvinator's 20 points of preference considered individually would give you a definite reason for choosing a Kelvinator. For instance, 4-way cold—four separate degrees of cold, all automatically maintained (1) steady cold for freezing ice at Kelvinator's fast speed; (2) super-fast freezing of ice and desserts; (3) a special cold storage compartment with below-freezing cold; (4) controlled cold, between 40 and 50 degrees, in the Deluxe food compartments. Here indeed are features that prove Kelvinator's supremacy.

MADE IN CANADA

Yet with all Kelvinator's advantages, refinements and beauty, the price is remarkably low. Ask your nearest Kelvinator dealer about the NEW PRICES. Made in Canada by Kelvinator of Canada Limited, London, Ontario.

OMEMEE MEN HOLD BANQUET

Crown Attorney Anderson of Victoria County is Special Speaker.

100 MEN ARE PRESENT

OMEMEE, April 12.—(Examiner Correspondence).—The same high standard of success characterized the laymen's banquet in the basement of Trinity Church on Friday evening as was attained in their previous efforts. At o'clock close to 100 membe.. sat down to the well-laden tables. Wh the inner man had been well satisfied a short program of music was indulged in. Harry Lamb led in community singing, assisted at the piano by Mr. Blanchard. After several popular numbers had been heartily sung, Aurel Grandy favored the [illegible] al. The junior quartet, composed [illegible] H. Vaughan, Earle and R. Bourne sang "Old [illegible] and were encored until they complied with an encore. The men's [illegible] of Messrs. J. L. Brooks, William Brown, A. Stinson and R. Marshal sang two splendid numbers.

The president, Mr. Sandy, introduced the speaker of the evening, Mr. E. Anderson, of Lindsay, crown attorney. The speaker's address was "Punishment by Law for Wrong Doing." Mr. Anderson began his subject in a humorous vein, saving the serious aspect of his address for his later remarks. Mr. Anderson divided the wrong-doers into classes, as follows: Those of heredity those of environment, and those which were led into wrong-doing. The speaker gave a very lucid and interesting address and ably showed that in the master of his subject, touched on the parole system and briefly outlined its wonderful possibilities. He contrasted the judicial system of England with those applying to our United States cousins, and made a fervent plea that we would lean to the former in all respects.

Mr. And[illegible] explained to his audience the origin of our judicial system, and it was interesting to know that it dates its origin to the time when our ancesto.. lived in the forests of Germany and were governed by common laws. Some inequalities in the administration of the law were shown by Mr. Anderson which brought forth hearty laughs.

In summing up, Mr. Anderson stated that law should be firmly administered, touched by mercy and justice.

A hearty vote of thanks was moved by C. Elliott, seconded by F. Parker, and tendered to the speaker by Mr. Sandy.

The male quartet then entertained the audience with another selection, and the National Anthem brought to a close a pleasant and instructive evening.

Nearly $56,000,000 was invested in residential construction in Belgrade, Jugoslavia, in the last 12 years.

Seizes Documents

Karl Severing, minister of the interior of Germany, who announced that documents recently seized in the raids on Adolf Hitler's National Socialist headquarters indicated that the "Nazis" had one of the most extensive espionage systems that he ever saw. Severing ordered the dramatic raids last month.

HAGERMAN GIVEN $140 JUDGMENT

Counter-Claim of Defendant, E. A. Radcliffe, Dismissed With Costs.

AUTO ACCIDENT

Judgment for the sum of $140.00 and costs was given yesterday afternoon by His Honor Judge E. C. S. Huycke, in favor of Cecil R. Hagerman, plaintiff, while a counter claim for $120.00 damages by the defendant, E. A. Radcliffe of Toronto, was dismissed with costs.

Plaintiff Hagerman was represented by J. A. O'Brien, while G. N. Gordon, K.C., appeared for defendant.

The action heard at a special sitting of the County Court was the sequel to a motor accident which occurred at about 1 o'clock on the morning of October 25, 1931, on Kings Highway No. 2 in the vicinity of Newcastle.

Witnesses called on behalf of the plaintiff were Gordon B. Cathcart and William Cressfell, and also Charles S. Cumming who gave evidence as to the depreciation of palintiffs automobile as a result of the smash.

In reply to the defence Mr. O'Brien also called Vincent Utronki, well-known local ball-player and recalled Hagerman and Cathcart.

Water Takes Dam Out Team Is Left Stranded

EAST EMILY, April 12.—(Examiner Correspondence).—Max Archer had the misfortune on Thursday afternoon when the dam at the mill went away with the flow of water, leaving his team of horses and sleigh with the load of sap at the other side of the bank.

Fast work had to be done and make a bridge to bring the horses and sleigh across to the evaporator.

On Friday a number of men gathered and helped Mr. Archer until they got the dam repaired.

POOR ATTENDANCE FENELLA MEETING

Missionary Society to Hold Thank-Offering Service on May 15.

FENELLA, April 12 (Examiner Correspondence) — The regular monthly meeting of the Fenella W.M.S. was held on Wednesday afternoon, April 6, at the home of Mrs. W. H. Sandercock. Owing to road conditions the attendance was not so large as usual. Thirteen were present including visitors.

In the absence of the recording secretary, Miss Florence Macklin, on motion Miss Jennie Curtis was appointed secretary pro tem. After discussion, it was decided on motion that a thankoffering service will be held on Sunday morning, May 15, when a special address will be given by the pastor, Rev. R. V. Paton.

Correspondence was read regarding the missionary bale. This matter was laid over until the May meeting.

During the program period a very fine paper was read by Miss Jennie Curtis giving a short synopsis of a lecture delivered recently by Rev. Roy McWilliams, Missionary to Japan. The lecture dealt with, "Population Problems of present day Japan," where, the population increases at the rate of nine hundred thousand persons every year, where it takes five and one half bushels of rice to feed each person yearly, where the Japanese children do not receive proper food, and where the women are the main workers. Mrs Marcus Lonsberry read an interesting paper on, "Stay on the main road" and follow the signs of "Unselfish giving" of "Prayer" of "Self-Denial" of "Supreme Loyalty" and "Trust."

Mrs. Fred Talling read the devotional leaflet, "Simon Gelotes, the Man of Fire."

An interesting study on the methods of the Roman tax-gatherer, and Simon's reaction to these methods, during his three years of discipleship. This leaflet also included a short scripture reading, Acts 1, 12-14. The program had been prepared by Mrs. C. W. Macklin, but owing to her absence, the meeting throughout was conducted by the president, Mrs. A. Nill. After the closing exercises the hostess, assisted by her daughter-in-law, Mrs Eric Sandercock, served tea. Mrs John Cowling will be hostess to the society for the May meeting with Mrs. W. H. Curtis, as program leader.

RIFLE ASSOCIATION ELECTS OFFICERS

John McKeown is Re-elected Captain of Rawdon Association.

BONARLAW, April 12. (Examiner Correspondence).— The annual meeting of the Rawdon Rifle Association No. 743 was held at Springbrook on Friday evening. There John McKeown presiding. There was a good attendance present. The auditors' report showed the association to be in a flourishing condition financially and reports of officers showed the past year to have been the most successful in the history of the association.

The following officers were elected for 1932:

Captain, John McKeown; Range Officer, Isaac McInroy; Secretary, J. P. Baker; Treasurer, G. S. Eastwood; Caretaker, Chris. Burkitt; Score-keeper, Geo. Wellman; Auditors, Roy Brown and Wallace McInroy.

The dates of the shoots were set as follows:

April 27th, June 1st, 8th, 15th, 22nd, and Sept. 5th, 1932, the four shoots in June to be the official shoots for Dominion of Canada Rifle Association prize. This prize will be awarded to the member making the highest aggregate score at the above four shoots, provided however that previous prize winners are not eligible.

It was decided to pay prize money as in 1931 which was as follows: Special prizes for each shoot, 1st, prize, $1; 8nd, 50c; 3rd, 25c. Also prizes on aggregate of season's shoots as follows: 1st 5 members, $1 each; next 10 members, 75c each; next 10 members, 50c each; next 15 member, 25c each, if member attends at least two shoots provided that any member winning $1 or more special prize money shall not be eligible to receive aggregate prize money. The special prize money shall be paid according to the standing of the score at the end of one single day's shooting for ranges completed on that day only.

The dues for 1932 were set at $1 per member.

A special committee was appointed to put the targets in first class condition, make any repair necessary on range, and purchase any needed supplies. A social committee was also appointede to take care of program at the annual social evening of the club and thus relieve the executive committee of this responsibility.

It is hoped that a team from the Lakefield Rifle Association will again come to this range to compete with a team from this association sometime during the summer.

Six thousand nine hundred rounds of ammunition have been received and the rifles are expected to arrive this week. Everything seems to point to another successful year.

FAIRMOUNT

Mr. and Mrs. James Seymour attended the funeral of their niece, Miss Balfour of Omemee on Sunday.

Mr. A. Kerr and family who have been residents here for five years moved to Leavan this week.

The W.M.S. meeting was held at the home of Mrs. Robert Hooton on Wednesday, Apr. 6th. Eleven members and six visitors being present. The ladies quilted two quilts for the bale. The regular meeting was omitted. The pan-cake and maple syrup social was discussed and a date will be decided on later. Mrs. H. McArthur and Miss Myrtle Hooton gave a very pleasing duet, "The Old Rugged Cross." Lunch was served and the meeting was closed by Mrs. R. C. Handbridge.

Turkey will use American aircraft.

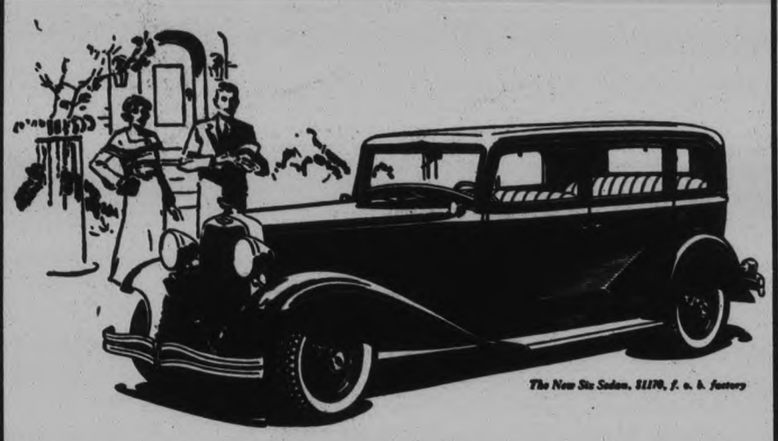
Effortless.. any road or no road!



The New Six Sedan, $1170, f. o. b. factory

HAVE YOU ANY IDEA WHAT FLOATING POWER DOES TO A SIX?—OR AN EIGHT?

DODGE is not in the habit of making idle claims. That adds weight to this challenge!

Drive a Dodge Six or Eight with *Floating Power*. Try it at 8 . . . try it at 80. Take a sharp turn at 50. Challenge the world at a traffic light. Steer with one finger. Flick the gear lever with the back of your hand . . . without touching foot to the clutch. Stop in half the distance you thought you could. Rack your brain for tests . . . more tests. Try to get a murmur of effort, a sign of laboring tremor out of that car.

Then if you can find any other car at the price of the Dodge that can do the things Dodge does—*the way Dodge does them*—buy that other car!

But if you just can't find a value like Dodge, why in the world should you be without Dodge enjoyment—when a fine new Dodge costs so amazingly little to buy and own?

NEW DODGE SIX . . . . $1095 to $1260
NEW DODGE EIGHT . . . . $1545 to $1640

All prices f. o. b. factory, Windsor, Ontario, including five wire wheels and standard factory equipment (freight and taxes extra). Six demountable wire wheels at slight additional cost. Low delivered prices. Convenient terms.

FAMOUS WASHER HAS 'ACTIVATOR'

General Electric Washer Has All Latest Engineering Advances.

TWO TYPES OF IRONERS

The latest engineering advances have been incorporated in the General Electric washing machine and ironers. The famous washer is featured by the "Activator," designed by experts exclusively for this machine. Effective washing action starts at the water level; and a sturdy downward tug sweeps out air bubbles and pulls the clothes into the full power washing zone at the tips of the blades of the activator. The clothes are flexed by the blades, loosening imbedded dirt particles. Hot, sudsy water is at the same time forced through the clothes. There is no dead washing area; a circular roll-over movement of the cloth through the soapy water gives a continuous return to the full-power washing zone, with no twisting or braiding of the clothes and with the pieces constantly separated.

These handsome washers, finished in two shades of harmonizing blue, have generous porcelain tubs, ripple finished. Power is supplied by a General Electric ¼ horsepower motor. The transmission is sealed in oil, thereby being permanently lubricated.

There are two types of ironers. One is a portable or table model, and the other will fit the wringer post of any standard washer. The shoe is of rust-proof "Allegheny metal," highly polished so as to give a smooth finish to all articles being ironed. The table ironer (Model T) is powered by its own G. E. motor and Model R, attached to the washer, is powered by the washer motor. Both are simply constructed and easily and conveniently operated by anyone.

Weddings

RIDD-NUGENT.

OMEMEE, April 12.—(Examiner Correspondence).—The marriage of Ida May Nugent, Toronto, daughter of Mrs. Nugent and the late Mr. Henry Nugent, to Rev. John W. Ridd, Winnipeg, was solemnized on Saturday in Trinity United Church, Omemee. The Rev. E. Rowland, of Stirling, a life-long friend of the family, assisted by the Rev. J. T. E. Blanchard, present pastor of Trinity Church, performed the ceremony in the presence of ...any resident and visiting friends.

The bride, wearing a gown of beige suede lace, beige ... brown shark-skin hat, with silver fox fur and carrying a bouquet of matching tinted carnations, was given in marriage by her brother, Mr. F. C. Nugent. Mrs. C. Cornell, Orangeville, played the wedding music, while Rev. Blanchard sang during the signing of the register.

Following the ceremony a reception was held at the home of the bride's sister, Mrs. L. A. Mahood, Lindsay, for the immediate friends and relatives.

Mr. and Mrs. Ridd left for a trip to Montreal and other points before taking up residence in Winnipeg early in May.

HOLMES—LYNN.

QUEENSBORO, April 12 (Examiner Correspondence). — A quiet wedding was solemnized at the parsonage on Saturday when Jessie Bell Lynn, daughter of John and the late Margaret Lynn, became the bride of Godwin Thornton Holmes, son of Mr. and Mrs Sidney Holmes.

The party was attended by Miss Emma Lynn, of Brockville, sister of the bride, and Mr. Fred Holmes, of Pine View, cousin of the groom. The bride's dress was blue crepe back satin, with coat and hat to match. She wore a fox fur the gift of the groom. After the ceremony a wedding dinner was served at the bride's home, after which the party left by motor for Belleville and other points, and upon their return will reside on the groom's farm two miles north of Queensboro.

BALL-FEE.

EAST EMILY, April 12.—(Examiner Correspondence).—The wedding took place very quietly on Wednesday afternoon, March 30, at 3.30 o'clock, at Christ Church rectory, Omemee, with Rev. A. T Weir officiating, when Lila, youngest daughter of Mrs. Ellen Fee and the late Mr. George Fee, was united in marriage to Charles Russel Ball, of Lakefield.

The bride's dress was rust crepe with hat to match, and rancho brown coat, shoes and gloves

Witnesses of the marriage were the bride's sister and her husband Mr. and Mrs. Milton Sherin.

Immediately after the ceremony the bride and groom left by motor for Kingston and points east, after which they will reside in Peter-

Routine Business At Council Meeting

HALL'S BRIDGE, Apr. 11 (Examiner Correspondence).—The Council of the Township of Harvey met recently with all the members present and communications were received from Nicholls Hospital.

From Dr. Smith, re outbreak of measles at Burleigh Falls, this being left over until the next meeting; from Ed. M. Elliott, re list of lands pastured in 1931 and filed for future reference; from the Department of Northern Development re purchase of culverts, clerk being instructed to reply; from Max Gillespie, re claim for damage to car —forwarded to insurance company

Mr Given was authorized to sell Harvey's portion of timber on the Bobcaygeon-Kinmount road on Saturday, April 9, and notices to that effect posted.

The clerk was instructed to advertise the Court of Revision. A by-law was introduced and passed being numbered 470, appointing pathmasters, fence viewers and pound-keepers for the current year.

It was moved and seconded that the pathmaster on beat 32 be instructed to have all residents of Hall's Bridge do their statute labor between James Fulton's gate and Deer Bay turn and as early as possible.

The following accounts were ordered paid: R. Windover 25c; Dr. Kelly 65c; Pedlar People, $37.18; Canada Ingot Iron Company, $14; Charles Flynn, $4.

The council then adjourned to meet at Nogies Creek Schoolhouse on Saturday, May 21, as a Court of Revision.

LOW FIRST COST IS NOT ALWAYS THRIFT

General Electric Refrigerators Were Produced After Years of Research.

"Thrift," stated a well-known home economist recently, "Is not governed by the ability of an individual to obtain articles or commodities at low prices only. Rather it is the ability of the individual to control expenditures at all times."

Continuing her observations she said, "Oftentimes a low first cost does not mean that one is making a thrifty purchase when subsequent servicing and operating expenses mount up."

By way of illustrating her remarks she referred to the question of refrigeration. "Here is a commodity that you must have at your command every day and yet there are few people who really know how much their man-made ice costs them on a daily basis. If they were asked that question they would probably divide the original cost of their equipment by the number of days they had used it and that would be the result. All of which is faulty budgeting."

"Such an important investment should be spread out over at least a three year program. To this must be added servicing and parts replacements as well as the quantity of power used. Fortunate indeed is the purchaser who wisely chooses a refrigeration unit that, even if its initial cost is higher, has little or no servicing expense."

General Electric Refrigerators, as though in response to the foregoing analysis, were produced after years of research and actual test to live up to the fact that such refrigeration "costs less to own." Over one and a quarter million owners testify to its merits, and the economy and thrift of the 3-Year Guarantee is its outstanding endorsement. consisted of two boxes sent to

Cavan

Mrs. Sidney Hutchinson spent a few days visiting friends in Toronto last week.

Mrs. B. F. Carley, of Toronto, was a visitor to Cavan last week.

Mrs. Bertha Howson has returned to her home in Toronto.

Mr. Wellington Card attended a C.P.R. meeting at Toronto on Friday evening.

Mr. W. Howson spent Sunday with his brother in Keene.

Mr. S. Swain and daughter, Miss Margaret, of Burketon, visited Mr. and Mrs. James Douglas on Monday.

Messrs. Sidney Hutchinson and Melville Carr attended a meeting at Claremount on Saturday evening.

Mr. and Mrs. Robert Hooton, of Fairmount, visited the latter's sister, Mrs. James Douglas, on Monday.

Miss Leone Dawe, of Bethany, spent the week-end the guest of Mr. and Mrs. W. Card.

Mr. Oakley Carley, of Toronto, was guest of Cavan friends last week.

STIFF SENTENCES

MELBOURNE—Sentences of 20 years' imprisonment and flogging were passed yesterday on three men who in a busy street last November attacked the manager of a department store and robbed him of a handbag containing about $5,000. The robbers shot and wounded a plainclothes police officer who was escorting the store manager, and escaped in a motorcar.

"It's no trouble . . . . I have a Telephone in the kitchen"

When you are busy in the kitchen and friends telephone, or you have an order to give the grocer, it is always troublesome to have to go to a telephone in another part of the house.

The modern housewife has a telephone in the kitchen where she can use it quickly and conveniently, save time and extra steps, and prevent spoiled cooking and endless annoyance.

You can have an extension telephone in your kitchen for only a few cents a day. Any Bell Telephone employee will be glad to give you particulars and see that your order is promptly carried out.

EARLY MISSIONARY TO CHINA IS HEARD

Mrs. George Hartwell Special Speaker at Millbrook W.M.S. Service.

MILLBROOK, April 12 (Examiner Correspondence).—Mrs. George Hartwell, who with her husband, Rev. Dr. G. H. Hartwell, was one of the first party of Canadian Methodist missionaries to go out to West China in 1891, under the leadership of Dr. and Mrs. Hart, was the speaker for the special service under W.M.S. auspices in St. Andrew's United Church on Sunday at 10.30 a.m., the Golden Links Mission Circle, and Sunshine Mission Band joining with the Auxiliary for the inspiring occasion.

Mrs. Hartwell gave a brief talk on Chinese names as a preface to her main theme, explaining that the words for Jesus and for mother are practically the same over all the Orient. Witnessing for Christ was the thought emphasized throughout the address, the speaker mentioning the fact that missionaries are a fearless band, wonderfully preserved through many dangerous experiences and surroundings, as she could tell from personal knowledge. Conditions as they existed in Sze-Chuan province when Mrs. Hartwell and the others of the party reached their field forty years ago were described in vivid language, the suffering of the children from bound feet being an outstanding item, together with the sale of these little girls, many of them at least, as slaves, and their bitter lot when bought by opium smokers who kept them at their feet at night to replenish the pipe and its light.

Describing the manner of beginning the work in those early days the speaker told of the men itinerating with literature being absent for weeks establishing stations while their wives were busy at home entertaining the women satisfying curiosity and gradually breaking down prejudice, prayer always watering the seed, until today the results of forty years of faithful sowing are literally to be seen.

Mrs. Hartwell has one of her daughters, Miss Geraldine, R.N., who is still carrying on in China, being head of one of the large hospitals on the field where her parents spent the best years of their lives. The annual thankoffering was received on Sunday, four Circle members, Helen Mitchell, Bernice Smith, Mary Burnham and Bryar Edmunds acting as ushers. In the evening Mrs. Hartwell spoke in the Cavan church.

Obituary

MRS. CHARLES McILMOYLE

BRIDGENORTH, April 12.—(Examiner Correspondence). — The death occurred at home of her son yesterday afternoon of Mrs. Charles McIlmoyle in her 77th year. Mrs. McIlmoyle was a life-long resident of the Selwyn district, being before her marriage Margaret Freeburn. Mr. McIlmoyle passed away last Wednesday and was laid to rest on Friday afternoon. Mrs. McIlmoyle was a faithful member of the Selwyn United Church and always took a deep interest in the welfare of the community. She leaves to mourn her loss two sons and one daughter: Gilbert, at whose home she resided; William, and Mrs. Millman of Lakefield.

The funeral will be held at 2 p.m. on Wednesday afternoon at the home of her son Gilbert, with interment in Lakefield cemetery.

CHARLES WALTON RICHARDS

MILLBROOK, April 12.—(Examiner Correspondence).—The funeral of Charles Walton Richards, whose death following a lingering illness occurred on Wednesday in his sixtieth year, took place on Friday at 2 p.m., from his late residence, Centre street, his pastor, Rev. W. W. Jones, B.D., of St. Andrew's United Church, assisted by Rev. William Simpson, B.A., rector of the parish of Cavan, having charge of the service.

Deceased was a son of the late Mr. John Richards, and his wife, Cordelia Oliver, and was born and brought up in Millbrook, being one of a family of seven children, three daughters and four sons, only two of whom, Mrs. G. W. McKim of Peterborough, and Mrs. A. W. Smithson, of Toronto, still survive.

Mr. Richards' life work was connected with the newspaper business, and for several years he edited and published the Omemee Mirror during his residence in that community. Later he moved his printing plant to Millbrook, his paper carrying the news for both villages, and being the only one published locally since the death of William Given, editor and proprietor of the Millbrook Reporter. Mr. Richards then purchasing the plant and goodwill and combining the two newspapers in one under the title, Mirror-Reporter.

Thirty-six years ago the marriage of Mr. Richards and Martha Mills of Emily township, took place, his widow surviving him together with three children, Dr. Alvin C., of Curtisville, Pennsylvania; Basil L., who for some years past has been associated with his father as co-editor and publisher of the local paper; and Mrs. Leo J. Charlesbois (Phyllis) of Peterborough; there are seven grandchildren. One sister, Cordelia, and three brothers, John, Harry and Edward, predeceased the brother.

Brought up in the former Methodist church, and going with it into the Union, deceased was fraternally connected with the Woodmen of the World; the Independent Order of Foresters; the Canadian Order of Foresters; and with the Omemee Lodge of the Orange Order. In politics he was a Liberal, and in his outlook on life he maintained an active interest in civic improvement, and in national and international affairs.

A large number of relatives and friends gathered at the home for the funeral, the pall-bearers including four brothers-in-law, J. H. Wilson, Port Hope; G. W. McKim, Peterborough; S. P. Mills, Omemee; A. W. Smithson, Toronto; and two cousins, W. H. Coombe, Millbrook, and W. R. Casey of Peterborough. Carrying the many beautiful floral tributes laid in loving memory on the casket, were: E. C. Richards, L. J. Charlesbois, Cecil Casey, Cecil Mills, and William McKim. Interment was in the family burial-plot at Gardiner's cemetery.

Among those from outside points who attended the funeral were, Mr. and Mrs. George Holmes, Mr. and Mrs. Walter Richards, Mr. and Mrs. A. W. Smithson, of Toronto; Mr. J. H. Wilson, Port Hope; Mrs. Fred Austin, Dale; Mr. and Mrs. W. J. E. Gillott, Mr. and Mrs. William Casey, Mr. and Mrs. G. W. McKim, Mr. and Mrs. William McKim, Miss May McKim, R.N., of Peterborough; Mrs. Vernon Ellis, of Keene; Mrs. Moses Ruth, Mr. Cecil and Miss Florence Casey of Emily; Charles Mills of Emily; Mr. and Mrs. Samuel Mills, Mr. Cecil Mills and son Fred, W. R. Robinson and George Newman of Omemee; Mr. and Mrs. George Raymes, and Miss K. G. Richards of Brighton; Dr. and Mrs. Alvin C. Richards of Curtisville, Pennsylvania, U.S.

JOSEPH FITZPATRICK

DOWNEYVILLE, Apr. 12 (Examiner Correspondence)—The funeral of the late Joseph Fitzpatrick was held from his father's residence to St. Mary's Church, Lindsay, then to St. Luke's cemetery, Downeyville for interment. Joseph was 14 years old, the second son of Mr. and Mrs. Dennis C. Fitzpatrick was born here and resided here until a year ago when he moved with his parents to Lindsay. He was ailing about a week. He leaves his parents, Mr. and Mrs. Fitzpatrick, two sisters, and two brothers, Rita, Maureen, Francis and Kenneth all at home.

MISS DEWEY.

TWEED, April 12 (Examiner Correspondence). — On Monday morning at half-past eight, Miss Dewey passed away at her late residence on Victoria Street. For a number of years the deceased was proprietrix of the Blue Bird Cafe.

Mrs. Steinberg of Tweed and Mrs Lampsen of Fort William are sisters of the deceased. Funeral announcements later.

NEIGHBORLY NOTES

Please Phone Items to 1600 or 1601

Mr. Elmer Johnston of Young's Point, has returned home from an extended visit in Toronto, Niagara Falls and Rochester.

• • •

Mrs. William Allan of Toronto, formerly of Peterborough, is the guest of Mrs. D. Jordan at 815 George street and will be pleased to see her friends on Thursday afternoon of this week, at Mrs. Jordan's home.

• • •

Mrs. Jane Whitfield of Albertus street has returned home after spending the winter months with her son and daughter in Frobisher, Sask.

• • •

To-day is the eighty-third birthday anniversary of the Rev. H. M. Manning of Toronto, father of Mrs. J. E. Middleton of this city. The Rev. Mr. Manning was a former pastor of both the old Charlotte street Methodist Church and of St. James Church, the commodious Sunday School of the latter building having been built during his occupancy of the pulpit there.

• • •

The sixteenth anniversary bridge party of the Peter Robinson Chapter Imperial Order Daughters of the Empire, to be held at the Empress Hotel on Friday evening, will have several interesting features, in a Fashion Parade sponsored by Barrie's Limited, with hats from the showrooms of the Misses Haskill and Isbister.

• • •

Mr. and Mrs. R. H. Parsons and their daughters, the Misses Lahring and Nan, were in Toronto yesterday.

• • •

The friends of Mr. E. R. Armstrong, Carlisle avenue, will be pleased to learn that he is progressing favorably after his recent serious operation in the General Hospital, Toronto.

• • •

At the conclusion of the recital by Mr. Deane Miner and Mrs. Dorothy Allan Park, given last night in the hall of the Conservatory of Music, refreshments were served in the living room by Mr. and Mrs. Gliddon.

• • •

One of the small members of the local branch of the Cheerio Club of CKGW broadcasting station, little Betty Margaret Deline of St. Marys' street, entertained eleven of her youthful friends at a jolly birthday party held at her home on Saturday afternoon. Those present were Joan Nichols, Agnes Thomson, Beryl Carter, Vivian Carter, Vera Leach, Sheila Brickman, Alma, Pearl, Helen and Gordon Henry. During the afternoon, pretty solos were sung by Vera Leach, Agnes Thomson and Sheila Brickman, while piano selections were played by Beryl Carter. The services of a dainty lunch concluded a jolly party.

• • •

The names of Nora Corkery and Pauline Huppe were inadvertently omitted from the list of young girls assisting with the sale of home-made cooking on Saturday, at Lane and Eano's store.

• • •

Mrs. J. H. Turnbull of Toronto, who will address the Missionary meeting to-night at St. Andrew's United Church, will be the guest of Mrs. R. M. Waddell during her stay in the city. Mrs. Turnbull is editor of the Missionary Monthly.

• • •

Mr. Edward Murphy of 21 Aylmer street, celebrates a birthday anniversary to-morrow (Wednesday).

• • •

Miss Linden Hall, Fleming Place, entertained the members of the Causerie Francaise of the Lyceum Women's Art Association at her home yesterday afternoon, at the tea hour.

• • •

Mrs. A. O. Phillips of Antrim street is acting as hostess tomorrow at a tea to be held at her home under auspices of the Queen Alexandra Home and School Association's Relief Committee.

• • •

The projected high tea of the Dramatic Club of the Lyceum Women's Art Association, scheduled as a wind-up of the season's activities, has been postponed until Friday, May 6th, from the original date of the 29th of April, as the latter date is the occasion of the annual Y. W. C. A. gymnasium Pageant.

• • •

Mr. John Langley, whose marriage to Miss Nan Parsons takes place on Saturday, April 23rd, left for Ottawa on Sunday to resume his duties with the Field staff of the Confederation Life Insurance Company.

• • •

The Women's Patriotic League of Ashburnham will hold one of their very successful Spring teas at the Young Women's Christian Association on Thursday afternoon of this week.

FASHION SERVICE

A blue and white printed linen, because Paris thinks so well of it, is chosen by this smart junior for her new frock. There's a crisp collar, rather sportive in its unusual size. This is of white linen. The pert bow tie is vivid red ribbon to match the leather belt.

If small daughter looks best in a dress hanging free from the yoke line, it is equally smart with the belt omitted.

Besides linen, pique, plain or checked gingham, batiste prints, rayon novelties, tub silks and jersey can be used for this pretty model.

Style No. 2781 is designed for sizes 6, 8, 10 and 12 years. Size 10 requires 2¼ yards of 35-inch materia with ⅜ yard of 35-inch contrasting.

Our new Spring Fashion Magazine is out! Every page from cover to cover is in color.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred). Price of book, 15 cents. Price of pattern, 15 cents.

April Meeting Held X.L. Mission Circle

Mrs. D. Munn, Lansdowne street, acted as hostess to the girls of the X. L. Mission Circle of St. James' United Church last evening at their April meeting.

A goodly number of members responded to the roll call and the treasurer, Mrs. Rosborough, gave a splendid report of the year's finances thus far. A schedule was drawn up to arrange for the remainder of the meetings for the year, including the usual two summer picnics. Further announcement was made of a missionary scrap-book to be compiled by the girls of clippings gleaned from newspapers or other sources.

As a delightful variation in the program, Mrs. Munn contributed two houmorous readings, "Stubbing His Toe," with the encore "Before and after Marriage."

"Hard Times in Korea" was made a most interesting subject of study in the capable hands of Miss Jean Hammond, who ably presented this third chapter of "Korea, Land of Dawn." In this a glimpse was given into the more practical work carried on by the Christian missionaries both in rural and urban centers.

Following this, Miss Gladys Langton gave an appropriate reading, "My Mission," and the closing hymn, "Love Lifted Me," with prayer offered by Mrs. W. Rose, brought to a conclusion this successful meeting.

A jolly social hour was enjoyed when dainty refreshments were served by the hostess, assisted by Misses Jessie Martin, Dorothy Drysdale, Gladys Langton, and Zetta Wood.

The May meeting will be held at the home of Mrs. A. Rosborough, Gladstone Avenue.

PUTNAM'S CORN EXTRACTOR

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

With the children everywhere responding to the call of the spring and enjoying the freedom of play out of doors, mothers must expect them to have appetites for mid-meals.

• • • • • • •

One of the most satisfactory ways to appease such appetites is to have a well-filled cooky crock.

• • • • • • •

With youngsters coming with regularity to it, the question is how to keep it stocked with the sort of cookies which will be wholesome and tasty and with enough variety to be gratifying.

• • • • • • •

The following recipes might prove an aid to this.

• • • • • • •

For molasses cookies, use ¾ cup shortening; 1 cup sugar; ¾ cup molasses; 2 teaspoons soda; 1 cup equal parts boiling hot milk and water; 1 teaspoon salt; scant teaspoon ginger or grated rind of one orange.

• • • • • • •

Cream shortening and sugar. The shortening can be well softened by putting in a warm place for one hour before making the cookies. Add the molasses.

• • • • • • •

Mix the soda with the boiling water, and rinse out the molasses cup before adding water to the other ingredients as given. Add the hot milk; add the salt and ginger (if used) to one and one half cups of flour. Sift into the mixture stirring lightly.

• • • • • • •

Add enough flour sifted to make the dough just stiff enough to roll out, not too thin. Or it can be dropped in spoonfuls onto a greased pan, instead of being rolled and cut with any shaped cooky cutter.

• • • • • • •

Ginger need not be used if the molasses cookies are preferred without the zest. The grated orange rind supplies a milder zest.

• • • • • • •

Variety can be given this cooky dough by putting in one cupful of raisins one time. At another, use chopped dates and again add peanuts or any nut meats.

• • • • • • •

For sugar cookies: ¼ cup shortening, preferably butter; 1¼ cups sugar; 2 eggs; ¾ cup milk; ½ tsp. salt; 3 tsp. baking powder; 2½ cups flour; any preferred flavoring, one teaspoon.

• • • • • • •

Cream shortening, sugar and egg yolks, adding them one at a time after the two other ingredients are partly creamed. Put salt and baking powder with flour.

• • • • • • •

Beat whites of eggs very stiff. Add milk and flavoring to creamed mixture. Sift in the flour and fold in the egg whites. Roll out, or drop in spoonfuls onto buttered tins and bake in a quick oven.

CULBERTSON on CONTRACT

by Ely Culbertson

World's Champion Player and Greatest Card Analyst

150

DASHING THE CUP OF PROMISE

When a player holds King, Queen, Ten of trumps over the Declarer and the contract has reached six, he cannot be charged with undue optimism if he feels confident of his ability to defeat the contract, nor is he unduly reckless if he decides that his opponents shall play it at the doubled value. However, the possession of this trump combination, even if held to the left of the Ace, does not always guarantee 2 trump tricks, as Mr. Isak Nielsen, editor of the Nordisk Bridge Magazine of Oslo, Norway, recently proved. Mr. Nielsen held the South hand and was playing the Approach-Forcing System.

♠ J 6 4 3 2
♡ A K Q J
◇ Q J 2
♣ 6

♠ K Q 10 — ♠ —
♡ 10 3 8 — ♡ 6 5 4 3 2
◇ 10 9 6 — ◇ 8 5 4 3
♣ J 10 8 7 — ♣ 9 5 4 3

♠ A 9 8 7 6
♡ 7
◇ A K 7
♣ A K Q 2

The Bidding:

South	West	North	East
2♠	Pass	3♡	Pass
4♣	Pass	6♠	Pass
Pass	Dbl.	Pass	Pass
Redbl.	Pass	Pass	Pass

North and South's bidding has not been unduly optimistic. South holds 5 honor-tricks and a strong playing hand with a 5-4-3-1 distribution. North holds five trumps and a solid heart suit with honors in diamonds. The only marvel is that a contract of seven was not reached, but this is explained by the weakness of the trump suit.

When the Dummy was exposed after West had opened the only unbid suit, diamonds, it was apparent to South that there was only one possible combination that would justify West in feeling that he could defeat the contract. Every face card with the exception of the Knave of clubs and the King and Queen of spades was visible to the Declarer in his own and the Dummy Hand. It therefore followed that West must hold the three outstanding trumps. To make the contract it was essential to reduce both the closed and Dummy Hands to three trumps and to throw West in on the eleventh trick with one of his high honors in trumps and thus compel him to lead to the Knave in the Dummy and the Ace in the closed hand. To do this it was necessary to shorten South's trumps by ruffing good hearts and shorten the Dummy twice in trumps by ruffing clubs. This process was accomplished, the tenth trick being taken in the closed hand. South now led the eight of spades and West's situation was hopeless. He won the trick, but was then compelled to lead, as South had planned, from his minor tenace in the trump suit, thus permitting Mr. Nielsen to make his redoubled contract by accurate play.

TODAY'S POINTER

Question: What is the Rule of Eight?

Answer: The proportion of tricks won by honors to those won by small cards is about as 8:5.

ACIDS IN STOMACH CAUSE INDIGESTION

Create Sourness, Gas and Pain. How To Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness burning, gas, bloating, nausea, etc. are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist some Bisurated Magnesia and take a teaspoonful of powder or four tablets in water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

That Body of Yours

By James W. Barton, M.D.

BUILDING UP TEETH AND PREVENTING DECAY.

One of the outstanding organizations of great help to medicine is known as the Medical Research Council of Great Britain. It investigates the work of individual research physicians, and when it considers that something of real merit has been discovered, and can be used safely with human beings, allows it to be given to the world with its approval.

For some years, Mrs. May Mellanby has been making reports to this Council on the influence of foods on the development of the teeth and jaws in dogs and other animals and on the experimental production of diseases of the teeth. She is now making a report on the influence of diet on human teeth, and their resistance to disease.

The Council consider the results of her investigation of 'immeasurable value' for the promotion of public health, and the lessening of pain, and disfigurement of the face.

The results in the treatment of children by foods is being announced to the world, as it is now possible to produce teeth of good structure, and teeth that will keep almost entirely free of decay.

Three institutions were investigated in Birmingham, accommodating children from 2½ to 16 years of age, all under the same conditions as to food, air, and lodgings.

The method was to add something different or some definite item to the diet of all the children in each institution; in one a ration of cod-liver oil (containing vitamins A and D); in a second a corresponding ration of treacle or molasses, in the third a similar amount of olive oil. Both treacle and olive oil contain important food elements without the fat soluble vitamins A and D. Every child was submitted at intervals of six months to a careful inspection of the teeth by the dental surgeon.

After a period of two years it was found that the progress of decay in the permanent teeth had been stopped or retarded in those children receiving the added ration of fat soluble vitamins, as compared with those receiving treacle or olive oil. The increase in decay in those taking the vitamins (cod-liver oil) was only one-third of that in the other groups. There was no difference between the children receiving treacle and those receiving olive oil.

The above carries its own lesson. Cod-liver oil definitely builds up the teeth, and lessens the amount of decay.

Spinach, milk, butter and eggs all contain goodly quantities of vitamins A and D.

Handy Recipes

By Edith Barber

HONEY TAPIOCA.

2 tablespoons granulated tapioca
½ cup honey
1 pint boiling water
3 eggs
1 tablespoon butter
Pinch of salt.

Moisten the granulated tapioca with cold water and stir it into the boiling water. Salt and cook until clear. Beat the yolks of the eggs and beat in the honey with the butter. Add this gradually to the tapioca and cook over hot water until it thickens. Pour into a buttered dish. Cover with a meringue made from the whites of the eggs beaten with three tablespoons of honey, and bake to a delicate brown in a slow oven—320 degrees Fahrenheit.

CREAM OF BARLEY SOUP

½ cup pearl barley
1 slice onion
1 cup hot cream
2 egg yolks
1 teaspoon salt.

Cook barley and onion and 2 cups boiling water until tender. Strain, season and serve with thickening made of one cup hot cream stirred gradually into the two beaten yolks; ad croutons and serve at once.

CHEESE SOUFFLE.

¼ cup butter
3 tablespoons flour
1 cup milk
1 cup American cheese grated
3 eggs
½ teaspoon salt
Paprika.

Prepare a cream sauce with butter, flour and milk. Cook this mixture until thick, then add the cheese and stir until melted. Add yolks of eggs, one-half teaspoon salt, paprika to taste. Mix carefully and fold in stiffly beaten egg whites. Turn into a greased baking dish and set in a pan of water in a moderate oven (375 degrees Fahrenheit). Bake until firm, about forty minutes.

Find Rail Removed Caused Train Wreck

NELSON, B.C., April 12 (C.P.).—Reports current here that the C.P.R. tracks near Fishermen had been tampered with, leading to the derailment of the west-bound Kettle Valley passenger train early on Sunday morning, were confirmed to-day by information reaching here from passengers who were on the train.

One rail on the outer side of the track was removed from the ties and laid in the adjoining ditch, and the rail next above it was unspiked from the ties from end to end, but left still attached by angle irons to the one next above.

As the grade is steep all the way up Holt Hill, the train was making 15 miles an hour or slightly better and the slow speed averted a disaster, as the point is said to be from 2,500 to 3,000 feet above the North Fork Valley below with a first drop of many hundreds of feet.

VIOLIN RECITAL BY DEANE MINER IS OUTSTANDING

Two of Peterborough's Best Artists Are Heard in Fine Recital.

BRILLIANT PROGRAM.

Dorothy Allan Park Assists Mr. Miner in Program at Conservatory.

(By Jeanette)

For the very interesting recital of violin and vocal music given last night in the hall of the Conservatory of Music by Deane Miner and Dorothy Allan Park, there was a very appreciative audience, its numbers somewhat lessened by the damp weather of the evening.

Two artists who are not often heard here held the stage last evening for an exceptionally brilliant program. Mrs. Park was at her best, her vivid voice and outstanding histrionic ability in the presentation of a series of songs that were all new, with the exception of two brief numbers, bringing her the rapt attention and interest of a pleased audience.

Mr. Miner's outstanding technical ability and his truly remarkable memory, combined with a tone of pure clarity and sweetness, brought from his listeners repeated applause, especially for the major, ambitious effort of his program, the lengthy and exacting Mendelssohn Concerto in E minor, Opus 64. The worth of his playing was enhanced by the sweet tone of his violin, valued at $1,500 and loaned to Mr. Miner by the widow of the late Dr. Luigi von Kunitz, conductor of the Toronto Symphony Orchestra.

Mr. Miner's program opened with a Bach prelude (from Partita No. 111), in swift, unceasing music with strongly-marked passages, and followed by a Bach air for the G string, its tender long bows trembling in sustained melody. The Prelude was for violin alone, without piano accompaniment.

Two of Schumann's quintette of Fantasy pieces were played; the first tenderly with much expression, the second quickly with fire, in smooth, velvety, melting tone.

The Mendelssohn Concerto was a beautiful and extremely difficult composition, making demands on the memory and finesse of the player that were met with ease and assurance. Mr. Miner's memory never faltered, nor did his bow in that long and very hard number that called forth almost every type of violin magic. Swiftly-played arpeggi, sustained double-stopping and steely harmonics, those hurdles of the violin, were without any apparent tremors for the musician, whose skilful fingers and pliant bow drew from the instrument all the beauty of the three movements of the Concerto; the Allegro molto appasionata, with its dramatic atmosphere, the smoothly-flowing and more melodious Andante, with its long, smooth legato bows, and the gay and sprightly Allegro vivace, with its little saucy dancing refrain.

In his last group, Mr. Miner played two French dances composed by Marais, Master of the Music of the King's Chamber under Louis Fourteenth. They were dainty, expressive bits entitled Rondo L'Agreable and La Basque, and were of the Folk Music type, as were their companions, an attractive, smoothly flowing Bohemian melody called "Bretislava," and two characteristic Russian airs, "Souvenir de Moscow," by Wieniawski.

Mrs. Park's Songs

Mrs. Park opened her program with a very interesting and new (to Peterborough) Song Cycle, composed by Schumann and entitled "Frauenliebe und Leben" (Woman's Life and Love"), an English translation by Fox Strangways and Stewart Wilson. In this cycle, where emotion is made vocal, woman's life and love is depicted in a series of eight short songs that run the gamut of desire, contentment and then, as a stern and final note, a hint of coming tragedy and the death of the loved one. The cycle, as introduced by Mrs. Park, depicts in song the love of Clara Schumann, later the wife of the composer, and hints, in its conclusion, at the tragedy, through insanity and suicide, that closed the musician's earthly career.

It mirrors the love of an age when women considered men almost as gods, when the thought of the loved admirer made the maiden tremble and when he took on, in her estimation, the aspect of a being faultless and adored.

Mrs. Park's dramatic ability in interpretation of songs of this type, and her splendid voice, made the cycle extremely interesting. From the tenderness of the first confession of love, "Since these eyes have seen him," the beauty of the poems progressed through the ringing tones of the triumphant maiden, to the restless, doubtful section, "Come to me, sisters," one of the most brilliant of the series, in which the bride anticipates her future in staccato accents. Then comes the lullaby to the child and then, the bitter note of the finale, with its tragic, sombre, boding atmosphere.

The charm and subtle sweetness of Schumann's music made this cycle outstanding.

Folk Music also occupied Mrs. Park's attention last evening, in a group of gay and capricious Irish compositions that included two of the whimsical, "talking" songs in which this singer excels, the jaunty dialectic sweetness of the "Ballymure Ballad," and the pertness of the swiftly-moving "I Know My Love" (West Irish).

"I Know Where I'm Goin'," sung in the half voice, high and sweet; "The Snowy-Breasted Pearl," a melodious love song, and "Down by Sally Gardens," were the three other songs in this group, and the encore (by request) was a moving and expressive rendition of that lovely old Scotch piece, "Think On Me."

Mrs. Agnes Logan Green is noted for her expert accompaniments, but last night's exacting program in song and string music, made many demands, even on her skilful technical ability and sweetness of tone, that were met in a thoroughly satisfying manner that added much to the excellence of the program.

To Mrs. Park, in her lovely gown of white chiffon, and to Mrs. Green, in equally effective white lace, lovely bouquets of flowers were presented.

The stage was simply and attractively arranged with dark hangings forming a background for the pretty frocks and a highlight in a floor lamp which threw into relief a table of dark wood holding a large bowl of red roses.

Wasn't Lindy Junior

Because William Field Curley, Jr., seventeen months, looked "somewhat" like the kidnapped Lindbergh baby, hisp arents had to show Los Angeles police a Buffalo birth certificate with the baby's footprint on it to get out of custody. Here's William Jr.

BALLYDUFF

The Women's Auxiliary in connection with Ballyduff Presbyterian Church met on Thursday evening at the home of Mrs. Fred Gray near Ballyduff. The president Mrs. George Chapman took charge of the various items of business for discussion by the members.

The ladies decided on raising extra funds by getting up a play with caste of eight characters, chosen entirely from members of the Auxiliary. The play is to be of a humorous character, and the members hope to have it ready for presentation during the month of May, when a social evening will be held under the auspices of the society.

At the close of the various plans and discussions the hostess with assistants served dainty refreshments to her guests of the evening.

HOBBY SHOW PRIZE WINNERS GIVEN AWARDS

Mayor Denne Addresses Boys at Banquet Held in Y.M.C.A.

CITY TO BE PROUD OF

Dr. H. M. Yelland Also Congratulated the Winners at Recent Show.

"Boys you have a city to be proud of, always remember that, and continue to go into everything that will help it as whole-heartedly as you have done at your fine Hobby Show." Such was the advice of Mayor Denne at a banquet last night in the "Y," given for the departmental winners of the recent Boys' Hobby Show, at which thirty-five were present.

Opening his address, the Mayor remarked on the "fine layout" the Y.M.C.A. offered the boys and young men of the city, saying when he was a boy the local "Y" consisted of two small rooms over what is now the Smith Shoe Store. "Your present building," he continued, "is second to none in the province, and those in charge cannot be beat." Mr. Denne pointed out how well this city was bearing up during these hard times, and he said Canada to-day was the envy of the world as she overcame the reverses with that same spirit that marked her war-time record. He congratulated those responsible for the success of the Hobby Show, and the prize-winning boys.

Dr. H. M. Yelland spoke briefly congratulating the winners and the sponsors of the show, saying the competitive efforts in connection with hobby shows was invaluable to young boys. Dr. Yelland was a strong believer in the good work being done by the Y.M.C.A., he stated, and mentioned the fact that he had been connected with the organization for thirty-five years. He paid tribute to William Herd, President of the Hobby Show, Jim McClenaghan, Secretary of the Boys' Work Board and G. H. Roper, for their work in putting the event over so successfully.

Immediately following the banquet, William Herd, acting as chairman, called upon Jim McClenaghan to introduce the guests, the Mayor, Dr. Yelland, G. H. Roper and Doug. Loomis. The treasurer's report was then read and proved satisfactory. Mr. Herd spoke briefly of the show, thanking those who had helped and stressing the fine Dog Show this year. He then asked Mr. Denne and Dr. Yelland to hand out the awards to the winners of the various departments. They were:

Sam McKinlay, Grand Champion; Gerald Moffat, Model Airplanes; Bill McPherson, Manual Training; John Langley, Mechanical Models; Ormie Henry, Scoutcraft and Campcraft; Eric Edmondson, Soap Sculpture; Douglas Cruthers, Leathercraft; Leslie Cavalier, Mechanical Drawing; Sam McKinlay, Art; Howard Cunningham, Photography; Reg. Yelland, Postage Stamps; Jack Smith, Coin Collections; Gordon McIntyre, Miscellaneous Collections; Fred Constable, Pet Stock; Vincent Holmes, Special Features; William Herd, Special Recognition.

Song and music were interspersed with the proceedings, and the singing of the National Anthem brought the pleasant hour to a close.

CLAIMS CONAN-DOYLE KNEW OF SINO-JAP WAR

LONDON, Apr. 12 (A.P.)—Lady Conan Doyle, widow of Sir Arthur, testified yesterday in a libel suit brought by a woman spiritualist against a newspaper that Sir Arthur knew the Sino-Japanese fighting was coming two years ago.

Before he died, Lady Conan Doyle said, Sir Arthur learned many things about the future from his spirit guide. She cited this as evidence that the activities of a medium are not the working of the medium's subconscious mind but are inspired from the spirit world.

Ovaltine is sold at all stores, in air-tight tins—50c, 75c, $1.25 and $4.50 (special family size).
Avoid so-called substitutes.

Start every day with GOOD HEALTH

GOOD HEALTH and abundant vitality are the surest means to happiness. Delicious Ovaltine ensures all three. This is why it appears on the breakfast table in a host of homes throughout the world. Why it appears, also, at the other meals and at bedtime.

Ovaltine is the concentrated goodness of new-laid eggs, malt and creamy milk; and contains vitamins, protein, fats, carbo-hydrates and mineral salts—in properly-balanced and easily-digested form.

Start every day with Ovaltine—with rich reserves of energy to work and play well and to resist prevalent ills. Give the children plenty of Ovaltine. They will thrive on it.

Washington Wins Opening Game in 10th Inning

SENATORS BEAT BOSTON 1 TO 0

Double By Manush Follows Myer's Walk for Only Run of Game.

HOOVER THROWS BALL.

WASHINGTON, April 12. — Baseball put on one of its finest shows —an extra-inning pitcher's battle— to usher in the 1932 major league season yesterday before President and Mrs. Hoover.

For the first time in the four years Mr. Hoover, as President, has been tossing out a new white ball for the inaugural game, the Washington team won its opening start, overcoming the Boston Red Sox, 1 to 0, in the tenth inning on a walk followed by a rousing double from the big bat of Heinie Manush.

Through inning after inning the rival righthanders—Danny MacFayden for Boston and Alvin Crowder for the Senators giving mid-season support on a diamond damp and slow from recent rains.

An exciting moment came in the fifth inning, when Pickering, the Boston third sacker, doubled, and Van Camp, first baseman, sacrificed. Fast fielding of Oliver's grounder by Bluege and a quick throw cut off Pickering at the plate. It was the nearest Boston came to a score.

The Red Sox combined two singles in the tenth, but Crowder ended the rally by fanning MacFayden on three straight pitches.

MacFayden appeared to be weakening as the Senators came up and Meyer drew a walk. Then big Manush put his shoulders into a terrific two-base drive to right. Myer scampered around from first and crossed the plate with the run that put Walter Johnston's club off to a flying start.

NEWARK OPENS AGAINST LEAFS

Red Wings, Bears and Orioles Expected to Make Strong Bid for International Honors.

REVIEW OF CLUBS.

NEW YORK, April 12 (C.P.)—The International Baseball League opens its 41st season tomorrow with the Rochester Redwings, Newark Bears and possibly the Baltimore Orioles expected to make the most of the running.

Rochester, backed by the resources of the St. Louis Cardinals, won its fourth straight pennant last year by a margin of only two games over the Newark Bears. The race this time should be as close now that the Bears have passed into the hands of the New York Yankees.

Rochester has lost some strength with George Sisler now managing the Shreveport club, Eddie Depter trying to win his spurs with the Cardinals, and Herman Bell serving with the New York Giants' pitching staff. But Gay Starr, ace of the hurling corps last season, will be back, preferring his regular job with the Redwings to a relief pitcher's assignment with the Cardinals. And there is plenty of other material from which Billy Southworth should put together another contender.

Newark, with Al Mamaux again at the helm, looks like it should be able to give any rival a distinct run for its money. Mamaux had a fighting ball club last year, and the same outfit, with several additions, will be on hand again.

The Baltimore Orioles usually are contenders and probably will be again especially if Manager Fritz Maisal secures a little more pitching strength.

The Montreal Royals, who finished fourth last season, are standing virtually pat on their lineup.

Toronto, Buffalo, Jersey City and Reading seem fated to fight it out for the last four places. Buffalo, however, has been rebuilt by Manager Roy Schalk and is the one real dark horse in the race. Toronto, under a new manager, Tom Daly, also has gone through a house-cleaning.

Reading will have plenty of power again, but there still is serious weakness in the Pennsylvania club. Jersey City has an excellent infield but not much else.

The opening schedule tomorrow follows:

Montreal at Reading.
Buffalo at Baltimore.
Rochester at Jersey City.
Toronto at Newark.

BASEBALL RESULTS

AMERICAN LEAGUE.

	Won	Lost	P.C.
Washington	1	0	1000
Boston	0	1	.000
New York	0	0	.000
Philadelphia	0	0	.000
Cleveland	0	0	.000
Detroit	0	0	.000
St. Louis	0	0	.000
Chicago	0	0	.000

Yesterday's Results.

Washington 1, Boston 0.
Ten innings.
Only game scheduled.

To-day's games — Washington at Boston, Cleveland at Detroit, New York at Philadelphia, St. Louis at Chicago.

NATIONAL LEAGUE.

To-day's games — Pittsburg at St. Louis, Chicago at Cincinnati, Boston at Brooklyn, Philadelphia at New York.

AMERICAN ASSOCIATION.

To-day's games — St. Paul at Louisville, Kansas City at Columbus, Milwaukee at Toledo, Minneapolis at Indianapolis.

FIGHTS LAST NIGHT

New York—Benny Leonard, New York, outpointed Buster Brown, Baltimore, (10); Enzo Ferimonte, Italy, outpointed Jack Kiernan, Long Branch, N.J., (10).

Chicago—Jack Kilbourne, Australia, knocked out Haukon Hansen, Norway (1); Costas Vassiu, Greece, outpointed Shuffle Callahan, Chicago (5); Pete Wistort, Chicago, knocked out Biff Bennett, Fort Sheridan, Ill., (4).

Pittsburgh—Ted Yaross, Monaca, outpointed Vincent Hambright, Cincinnati (10); Mose Butch, Pittsburgh, stopped Lew Franklin, Philadelphia (3).

Milwaukee — Sam Slaughter, Terre Haute, Ind., outpointed Dave Shade, Los Angeles (10).

Boston—Leo Larivee, Waterbury, Conn., outpointed Sam Bruce, Buffalo (10); Rudy Marshall, Cos Cob, Conn., stopped Snowflake Wright, Buffalo, (30).

Daytona Beach, Fla. — Sammy Mandell, Rockford, Ill., outpointed Eddie Foster, Boston (10); Kavk Morun, Chicago, outpointed Kmo. Miller, Jacksonville, Kilm.

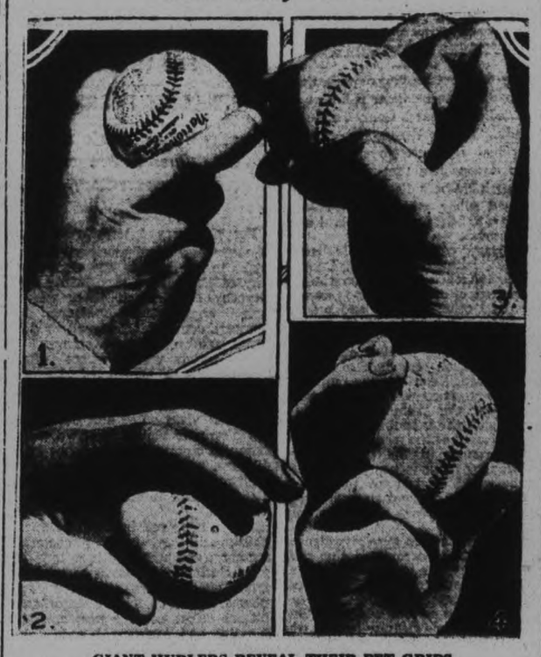
Miami— Tommy Freeman, Little Rock, Ark., outpointed Billy Shell, Columbus, Ga., (10).

STRANGLER HUNTED

WHITING, Ind.—A strangler who killed 12-year-old Alberta Knight, a minister's daughter, with an electric lamp wire, was sought in a widespread search to-day.

The child's body, the wire around her neck, was discovered yesterday in the rooming house her mother operated by boarders when they went to call her for breakfast. Physicians said she had been assaulted and killed Sunday morning.

How They Do It



GIANT HURLERS REVEAL THEIR PET GRIPS

Here's how four pitchers get a "grip" on the situation when they want to try something special on the opposing batsman. For instance No. 1 reveals Leroy Parmalee's delivery of his famous fork ball. It is thrown from between the first and second fingers. No. 2 shows the way Carl Hubbel holds his screwball. After it leaves his hand it spins like a top. The ball is released from the back of the index finger. No. 3 shows Fred Fitzsimmons' knuckle ball, a tough customer to solve. The ball acts like a jumping bean between Freddy's fingers and the catcher's glove. No. 4 reveals the start of Joe Genewick's famous curve ball, one of the most formidable in baseball circles.

120,000 PERSONS EXPECTED TO SEE OPENING BALL GAMES

Champion Cardinals May Find Plenty of Opposition This Year.

NO RUNAWAY RACE.

(By Herbert W. Barker, A.P. Sports Writer.)

NEW YORK, April 12. — Eight National League baseball clubs have been winning league games on paper for two months or more. Today, with a little co-operation from the weather man, they'll see if it's just as easy to win them on the ball field.

Some 120,000 persons were expected at the four opening games in New York, Brooklyn, Cincinnati, and St. Louis.

The opening schedule was:

Pittsburgh Pirates at St. Louis Cardinals.

Chicago Cubs at Cincinnati Reds.

Boston Braves at Brooklyn Dodgers.

Phillies at New York Giants.

Whatever the final result of the pennant drive that ends on September 25, the league looks forward now to one of the most interesting races in its long history. By trade and purchase, all eight clubs have strengthened weak spots in defence or offense until it appears that no one can be used as a convenient stepping-stone for such outstanding pennant contenders as the world champion Cardinals, the Giants, or Cubs.

Feel Loss of Grimes.

Perhaps the Cardinals deserve to be rated as heavy favorites to win their third straight pennant, but some observers believe the champions will feel the loss of Burleigh Grimes, veteran right handed pitcher, and outfielder Chick Hakey, league batting champion in 1931.

Except for the pitching staff, the Cardinals, Giants, and Cubs start the season with only one change apiece in their line-ups. The Cardinals will have Jimmy Collins in the outfield in place of Hafey; the Giants will use Len Koenecke in left field at least when opposed by a right-handed pitcher, and the Cubs will play Stanley Hack at third base.

The Phillies' principal addition is Outfielder George Davis, while the Braves count on Art Shires at first. The Pirates will present an unchanged line-up although their second baseman, Tony Piet, played only a few games last season.

Greatest Changes.

Brooklyn and Cincinnati present the greatest changes, and it is these two clubs that may furnish most of the fireworks.

Brooklyn has added Hack Wilson to the outfield, Tony Cuccinello, Joe Stripp, and George Kelly to the infield, Clyde Sukeforth to the backstopping department, and Waite Hoyt to the pitching staff.

Cincinnati, which rounded out its infield by trading Benny Frey and Harvey Hendrick to the Cardinals for Hafey yesterday, will have such other newcomers as Babe Herman, Taylor Douthit, Andy High, Wally Gilbert, and Arnest Lombardi.

Wrestling Last Night.

CHICAGO—Jim Londos, Greece, threw Hans Kampfer, Germany, in 39:07; Gino Garibaldi, Italy, defeated Pat O'Shocker, Salt Lake City, by decision, 30:00; Abe Coleman, eNw York, threw Hans Bauer, Milwaukee, 21:07.

CAMDEN, N.J. — Alan Eustace, Kansas, defeated Jack Ganson, Cleveand, two falls out of three Eustace first 12:33, Ganson second 20:42, Eustace third 19:50; Joe Mulcewicz, Utica, threw Bob Wilkie, Boston 16:07.

BUFFALO—Henri Deglane, 218, Montreal, threw Regis Siki, 212, in 33:13; Karl Nowina, 187, and Harry Cornsweet, 206, drew in 30:00; Len Macaluso, 204, and Dan Koloff, 230, drew 30:00.

NEW YORK—Fritz Kley, 210, Germany, threw Tiny Roebuck, 246, Oklahoma, 15:33; Sammy Stein, 200, Newark, threw John Maxos, 204, Greece, 9:47; Dick Shikat, 218, Philadelphia, threw George McLeod, 207, Boston, 26:22; Century Milstead, 210, New Haven, threw Andy Zaharoff, 218, Syria, 4:28; Kola Kwariana, 216, Russia, threw Bill Nelson, 208, St. Louis.

WORCESTER, Mass.—Gus Sonnenerg defeated Archie Golembeski, in 49:58 (Golembeski unable to continue); George Zarynoff defeated Jim Heslin, 28:32.

Inter Association Tourney Is Planned

CHICAGO, April 12.—(CP)—The Professional Golfers Association of America will give its foreign bred members a chance to show up the native divot diggers.

At the suggestion of President Charles Hall, a tournament is planned for sometime this summer between a team of foreign born pros in America, led by Willie MacFarlane of New York, and the home breds, captained by Horton Smith.

TIGHT RACE LOOMS IN 1932 AMERICAN LOOP BALL SEASON

Athletics and Yankees Pitted Against Each Other in Opening Games.

SOME ROSTER CHANGES.

CHICAGO, April 12. (C.P.)—The American League pannant chase, a struggle dominated for six straight years by Philadelphia and New York broke into the open again today with the same two formidable rivals pitted against each other in the grand inaugural feature at Shibe Park.

A lively pitching duel was in prospect at each battle ground, topped by that between Vernon (Lefty) Gomez, the 22-year-old Yankee southpaw, and Big George Earnshaw of the Athletics.

Connie Mack had just about the same baseball guns—Al Simmons, Mickey Cochrane—in position, while Manager Joe McCarthy has a shuffled line-up with the spectacular recruit, Frank Pietro Crosetti at third, Lyn Lary at shortstop and Sammy Byrd the apparent centrefield gardner in place of the veteran Earl Combs.

Ruth in Rare Form

Babe Ruth had his big war clubs poised and promised misery for all pitchers, especially those wearing the Athletic uniforms. Manager Walter Johnson planned to send another veteran right hander, Fred Marberry, against the Red Sox, who countered with Ed Durham a right hander.

Will Harridge, president of the league, planned to join Baseball Commissioner Kennsaw Mountain Landis at the White Sox-Brown opener.

It looks like the closest race since 1926 when New York beat Cleveland out of the flag by two games, Harridge said.

New York and Philadelphia are bound to make a thriller out of it with Cleveland and Washington having a fine chance. The other teams may not be title contenders but they are going to be harder to beat and will take some of the punch out of the contenders.

Yesterday's Stars

Alvin Crowder and Heinie Manush, Senators—Former held Red Sox to seven hits and fanned seven; latter doubled in tenth to drive in only run of game.

FANS UNIMPRESSED WITH SCHMELING

World's Champion Provides Little Action in Toronto Bout.

TORONTO, April 12.—There is a wide variety in exhibition boxing bouts, as those who saw Jack Dempsey last month and then witnessed Max Schmeling, world's heavyweight champion, last night. The Dempsey exhibition, a four-round bout against Joe Doctor of Buffalo, in which both appeared to be putting every effort into their work, was interesting to an extreme. Unfortunately, the same could not be said about the three two-minute rounds which Schmeling boxed against a trio of sparring partners at Maple Leaf Gardens last night. The "German Dempsey' 'whose resemblance to the Manassa Mauler ends with physical appearances, showed little world's championship form against Phil Weisberger. Jack Shaw and Pedro Lopez, who opposed him in that order.

Doubtless Schmeling has considerable ability. It is not conceivable that he would be champion of the world otherwise, but he went to no great pains to impress the fact upon the spectators last nigh. He wore a headgear, which in iself made a bad enough impression on the public, and, added to that his ring work was far from what might have been expected from a first ranking heavyweight. There was absolutely no snap to his punches, no brilliance to his boxing style; nothing at all, in fact, over which one could enthuse.

Not Even a Workout

There can be little doubt but what Schmeling works far harder in his actual training than he did in his exhibition last night. Otherwise he could not possibly get himself into real boxing condition or perfect his judgment of condition. He did not even go through a hard workout, and it really must be said that there is no excuse for his failure to provide a better show for those of the boxing faithful who turned out to get their first glimpse of him "in action."

This criticism is far from being an attempt to detract from the real ability of the heavyweight champion of the world. His record indicates that he is really good when forced to extend himself in competion which, after all, is an additional reason why it is hard to excuse him for his failure to put forth more vigorous efforts last night.

Schmeling, though he just disembarked at New York last Friday and has not yet entered hard training for his bout with Jack Sharkey next June, looked to be in really good condition. He weighed in yesterday at 194 pounds, at which weight he carried no extra flesh. He was not breathing hard at the end of the three rounds, though for that matter there was little reason for him to show any evidence of having unduly exerted himself. Personally, he is a most affable chap to meet, but that is another story compared to his ring work.

Will Be In N.H.L., Says Frank Patrick

VANCOUVER, B.C., April 12. — Following a visit to Eastern sport centers for the past few weeks, Frank Patrick has returned home and confirmed reports that he would figure in one of the National Hockey League clubs next season. He would not state what club he would be with or in what capacity, but stated definitely that he would line up with one of the big league outfits.

A brother of Lester Patrick, coach of the New York Rangers, Frank Patrick has for years been on outstanding figure in the hockey world, though most of his activity has been on the Pacific Coast. He was President of the Pacific Coast Hockey League until it disbanded prior to the opening of the season just finished.

Frank was born in Ottawa forty-seven years ago. He played with Lester on the famed Renfrew Millionaires team in 1910. A year later the two brothers went to the coast and built ice arenas, the first of their kind, at Vancouver and Victoria. Frank negotiated the greatest player deal in hockey history when he engineered the sale of P.C.L.L. players in 1926 to the National Hockey League for $300,000.

Bowling Congress Brought to Close

DETROIT, April 12 (C.P.)—The 35 days and nights of pin toppling that comprise the American Bowling Congress' annual tournament were at an end to-day, and A.B.C. officials announced that for the second successive year, after a considerable period of deficits, the tourney was a financial success.

Heavy expenses, such as $10,000 for installation of special alleys, and use of new pins for each five-man team were offset, the officials said, by excellent attendance.

For many years, the Congress had leased the alleys for the tourney. Now, officials said, they are considering purchasing their own alleys.

PLAYING PERIOD TIMES ARE SET

Slashing to be Prohibited According to Officials of Association.

TO DRAFT SCHEDULES.

TORONTO, April 12.—Some very important decisions were made by the O.A.L.A. Executive in connection with box lacrosse. It was decided that the playing periods be three 20-minute periods, with a 10-minute rest between instead of four 15-minute periods. It was felt that this would be much more convenient for the spectators.

The size of the goals was changed from 4 feet wide and 5 feet high to 4½ feet wide and 4½ feet high. The line extending across the playing area from the crease was eliminated so that all box lacrosse rules, both amateur and professional, would be fundamentally the same. The players, however, will not be permitted to pass the ball back to the goalkeeper when he is in the crease. It was felt that such a line would be the result of much whistle blowing, and it is the object of the Executive to speed up the game in every way possible.

Committee Is Named

The following committee was appointed to have full charge of all senior groups: M. E. F. Kelley, (Chairman), W. Hanley, Frank Kennedy, Dr. W. Holmes, E. J. Dopp, W. Beatty and President W. J. Blainey ex-officio.

No slashing of any kind will be permitted in box lacrosse, which includes the unnecessary hitting across the arms. Referees will receive strict instructions to suppress this undesired method of checking.

Fred Waghorne was appointed to convene the junior teams in Toronto and district. Junior clubs who have as yet not entered are asked to enter at once, as a meeting will be called in a few days and entries closed.

Frank Doyles of Orillia, a member of the 1932 Executive, was appointed as the association's representative to the Tri-County League. All the teams from this section are members of the association.

All groups must have winners declared by Oct. 15, as Ontario playdowns will begin after this date.

A Board of Referees was appointed. Further applications will also be received.

To Draft Schedules

All teams and groups are reminded to send their entries at once, as schedules will be drawn up shortly. Provisions have been made to take care of the incidental expenses of groups by allowing a percentage of the total fees of each group to go toward their maintenance.

Cornwall and district have entered five teams with the privilege of extending this to six.

Agincourt, West Hill and District are organizing a four-team group. The organization meeting will be held at Agincourt on Thursday.

A meeting will be held shortly at Palmerston, with representatives from the surrounding towns present. W. J. Marriot, the executive member from Hespeler, will represent the O.A.L.A. at this meeting.

All inquiries in connection with box lacrosse should be addressed to the Secretary, O.A.L.A., 72 Parkway Avenue, Toronto.

KAY DON TO OPEN TORONTO COURSE

Competitions Will Likely Be Held During National Exhibition Time.

TORONTO, April 12 (C.P.)—Kaye Don, famous British speed-boat driver, will open Toronto's new aquatic course this summer with his new boat, Miss England III., providing the boat lives up to expectations in her speed trials at Lake Garda, Italy, this month. Lord Wakefield of Hythe definitely assured the Canadian National Exhibition to-day that Don would show his boat in Toronto if all goes well. The exhibition this year will be held from August 26 to Sept. 10, and it is expected Don's speed trial will take place during that period. Lake Ontario is usually in a quiet mood at that time, so little difficulty would be encountered.

Miss England III. will enter the competitions for the Gabriel D'Annunzio Trophy, presented by the aviator-poet-patriot of Italy as his tribute to the memory of the late Sir Henry Segrave, Lord Wakefield said.

The new Miss England will have, it is expected ,a speed of at least 136 miles an hour. The new boat will have twin propellers, with a maximum speed of 8,000 revolutions per minute.

Recently Gar Wood of Detroit drove his Miss America IX. to a world's speed record of 111.712 miles per hour on an average in two dashes over the Indian River course in Florida. Don had previously held the record of 110.223 made in Miss England II., wrecked at Detroit.

CHAPLIN SOLD TO SKEETERS

NEW YORK, April 12 (C.P.)—The New York Giants to-day announced the sale of Jim Chaplin, pitcher, to Jersey City of the International League and the release of Joe Moore, outfielder, to the same club on option.

Veteran Manager New York Giants

JOHN McGRAW, AT 59, STILL ON THE JOB.

John McGraw, veteran manager of the New York Giants, observed his 59th birthday anniversary on April 7, and confessed that he would wait until fall for a present if it could be a pennant. This photo shows the Giant manager at the LEFT as he talked shop with Manager Bucky Harris of the Detroit Tigers at Kansas City, when the two clubs met in an exhibition game. Looking back over his years in baseball, McGraw expressed the belief too many players to-day lack the old enthusiasm of the ball yard.

HOCKEY, BOWLING CURLING
Day by Day
BASKETBALL AND BOXING

CASUAL COMMENT

A new game will be sprung around here this summer, a game that should appeal to both hockey and lacrosse fans. It is box lacrosse, a combination of the gutted stick sport and the great ice game, both types being decidedly Canadian and therefore packed with speed and thrills. This game is rapidly spreading over Canada and will be "borrowed" within a year or two by our American cousins, just as surely as hockey was.

• • • • • • •

Box lacrosse is played in an arena, seven players to a side. Instead of a puck and hockey sticks, a ball and lacrosse sticks are used. The players face-off and then attempt to carry the ball down to the opponents' goal—somewhat similar to a hockey net—using short passes as the other side checks persistently, and sometimes none too gently. A fast pace is set and there are few dull moments throughout.

• • • • • • •

It is faster and more exciting than the old style lacrosse, and rough enough to satisfy anyone, while the science of the game is practically on a par with that of hockey. The more difficult rules for fans will be explained here before the season opens. Local games, between four evenly-matched City League teams made up of lacrosse and hockey players, will be played at the Brock Street Arena, which will be fixed up properly within a few weeks.

• • • • • • •

One strong intermediate team will be picked from the City loop to represent Peterborough in their O.A.L.A. grouping, so those now interested, and others who are sure to take to the game, will see some fine battles this year. We'd like to see the four local outfits picked from the four sections of the city, north end, west side, south end and East City. However, more about that after the first meeting.

• • • • • • •

This meeting is tomorrow evening at 7.30 in the Chamber of Commerce and a big crowd is expected out to get the new game going. Many prominent business men and old-time lacrossers are working to put it on the sports map and give the fans a game they will appreciate plenty, so everyone interested is urged to attend. Election of officers, entry of teams, and considerable other business will make it an interesting session.

• • • • • • •

Inter-Alley League bowling to-night is scheduled as follows: Group 1 at the "Y," Group 2 at Duffus', and Group 3 at the Knights of Columbus. The boys are rolling some nice figures now with the end of the schedule in sight, just two weeks away, the Group 2 leaders being particularly tough to hold.

• • • • • • •

At a recent meeting of the Cobourg Senior Ball Club, Roy Dodge and Teddy Rollings were appointed delegates to the C.O.B.L. session in Kingston the end of this month. A committee was named to wait upon the Cobourg Horse Show Committee with a view of having home games played at Horse Show Park. The Lakeshore town will hold its annual get-together for baseballers in a couple of weeks.

• • • • • • •

Fifty amateur boxers swing into action to-night at the Maple Leaf Gardens when the Eastern Ontario boxing trials will be decided in a two-night tournament. Winners and runners-up will qualify to compete at the Provincial championships in Hamilton late this month, meeting pugs from Western Ontario.

• • • • • • •

At the Canadian championships and official Olympic trials in Toronto later in the season, each province will be permitted to enter four boxers in each class, and it is more than likely that the four contestants in the Ontario finals will represent this province to contest the honors for the Olympic trip. First bout on to-night's program starts at 8.30.

• • • • • • •

We understand three local mittsers, at least, are to take part in the Eastern trials this evening. They are the Minicola boys, Ned and Tony, and Art Hunter, a lightweight, a feather and a bantam in that order. They have been training for it, and if they do enter, should give a good account of themselves.

Cotton and jute manufacturing is an important industry in Winnipeg, output running in excess of $5,000,000 annually.

Building permits issued in Havana, Cuba, in January totaled $100,000 more than in the same month of last year.

CANTRELL WILL HURL OPENER

Toronto Leafs' Line-up Picked For Opening Game at Newark.

STACK BEHIND BAT.

NEWARK, N.J., April 12.—After a 29-hour train ride from Louisville, Tom Daly led his Toronto Leafs into Newark last night, arriving at 9 o'clock.

However, the players will have two nights of rest and in addition Daly plans to have his athletes work out at Ruppert Stadium today as a final polishing off in preparation for the season's opening league fixture here on Wednesday.

Change Line-up.

Manager Daly spent most of yesterdays' train ride doping out his batting order for the blow-off contest. With the departure of Davis to the Detroit Tigers and the coming of Marvin Owen and Ray Fritz to the Leafs, Daly was forced to make a number of shifts in the line-up which played in the exhibition games in the south.

One notable change means the benching of Art McHenry. At first Daly planned to replace Tommy Hughes in right field with Hubby Walker, but yesterday he decided to drop the University of Mississippi grad into the centre field slot and leave the Texan, Hughes, in right.

As predicted, Marvin Owen is to go to shortstop with Ralph Michaels taking care of the third base position. Guy Cantrell, of course, has been selected to do the pitching with Pete Stack behind the bat. The batting order will be as follows:

Cantrell and Stack.

Sax 2b, Walker cf, Owen ss, Doljack lf, Hughes rf, Fritz 1b, Michaels 3b, Stack c, Cantrell p.

While the line-up in the first game will not be as strong as it will be later on Manage. Daly is confident the Leafs will give a good account of themselves, though he realizes that his athletes are some distance from being in as good condition as the Bears. They have not had nearly as much work as Al Mamaux's team, or rather the Yankee farm hands.

Ray Fritz, who joined the Leafs just as they were leaving Louisville, has already made himself solid with his new team mates. He is a young and likeable chap, and has little to say.

Pleased With Fritz.

And the more Manager Daly studies Fritz's record of last season and reports on the new first baseman the more he warms up to Harry Davis' successor. Both Owens and Hughes are confident that Fritz will fill the first base position satisfactorily and do his share, if not more, of the team's hitting. He drove in a lot of runs for Beaumont last season.

While Cantrell is confident he will be able to hurl the whole nine innings despite the fact he has not yet traveled that far, Tom Daly does not intend to take any chances and will have pitchers warming up in the bull pen from the beginning of to-day's game.

Daly is anxious to score a victory in the first league contest.

THEATRES

AT THE CAPITOL

"ALIAS THE DOCTOR"

There are some terrible tense moments in this picture. The operating-room scenes are nerve-wracking in their realism. The agonized, loud breathing of the patient fills the theatre with an atmosphere of reality that strains at the emotions.

Karl Brenner, the youthful doctor of the piece, has a martyr complex that sends him to the penitentiary to expiate his brother's crime. Then he returns and his ambitious mother drives him to impersonate that brother, who, in reality, is not his brother at all, as Karl was an adopted son, and he attains fame and fortune as a Viennese surgeon. Five years of achievement lie behind him when the same hysterical mother reaches her hand across his life.

The denoument is extremely dramatic and the ending is perfectly satisfactory and romantic one.

Barthelmess as the doctor is very good. Lotte, the blonde heroine, is a perfect foil for the intense, dark young man. She is rather insipid and quite amiable—and without much intelligence—just the type to throw Karl's mentality into greater prominence.

There is one little incident that appears somewhat peculiar— the first grip that Karl takes on his umbrella (and it doesn't seem to be raining) when he departs for Vienna to embark on his career. Why should a director want to inject an umbrella into such a scene?

The comedy is another Foreign Legion effort, with the two cutups, Smith and Dale, as the doughty Legionaires.

There are some extremely interesting bits in the "Strange As It May Seem" interlude, with the queer figure of a Japanese man, carved from wood, in 2,000 pieces, as a major spectacle. The bloodstream of a frog affords another extraordinary exhibit.

—Jeanette.

U.S. PLAN ROUSES PRESS

PARIS, April 12. (AP)—Pertinax, noted French political writer, said in the Echo de Paris to-day that the U.S. proposal at the World Disarmament Conference, to do away with tanks, mobile heavy artillery and gases, was a manoeuvre against France.

Mrs. Fred Nelson entertained a number of her friends recently when a pleasant evening was spent at bridge and a dainty lunch served. Those present were Misses Jean, Bertha and Edith Elmhirst, Mabel and Jean McIntyre, Helen Gillespie, Isabel Nelson and Kathleen Elmhirst.

Mr. Fred Fife motored to Toronto last week.

Mrs. Carter and daughter, Miss Robena, have returned to their home here after spending the winter in Peterborough.

Miss Effie Reid, teacher at Marmora, spent her vacation with her parents, Mr. and Mrs. Benjamin Reid.

Master Jack Welbourne of Peterborough spent a few days with his cousin, Miss Leona Edwards.

Misses Mary and Adeline Fife entertained a few friend one afternoon recently. Among those present were Misses Rose Drimmie, Helen Armstrong, Eleanor and Ruth Evans and Muriel Fife.

Mrs. S. Armstrong spent a few days with friends in Peterborough.

Advertising for the Merchant of To-Day

Conducted by
HAROLD S. EDGAR

A series of weekly articles on advertising and merchandising prepared for the merchants of Peterborough District with the co-operation of The Peterborough Examiner.

MORE ABOUT DISPLAY WINDOWS

The previous articles dealt with the construction and lighting of display windows. Frequent washings of both the inside and outside of the glass fronts are necessary to make the window displays fully effective. In winter the glass must be kept clear of frost. This can be accomplished in a number of ways:

1. Holes bored in the bottom of the window frame to allow the cold air to come up inside the glass and to prevent inside moisture from congealing on the glass.
2. One or more electric fans blowing against the inside of the window will prevent frost from forming.
3. A chemical mixture of fifty per cent. glycerine and 50 per cent. methol hydrate applied with a small sponge is an effective method.

The Floor of the Window. A real good looking floor is an asset. You may keep the floor brightly varnished and polished or you can cover it with a solid color linoleum. The effect can be varied by using large squares of insulating board, some painted black and some painted white, and laid as a tile floor. This makes a very effective stunt flooring, but is not one to be used as a permanent floor. Stunt window displays are worth while if in keeping with the character of the store, but the whole idea must be carried through if an effective display is to be the result.

..Backgrounds. In some stores it may be necessary to use the light coming through the front windows as a part illumination for the store, and if this is so it may not be possible to close in the back of the window. Sometimes it is possible to build a closed-in window with a top portion of glass which will permit considerable light into the store. One effective method is made from small sized piping and covered with a loose cloth drape which can be removed when building a display or for cleaning.

Another method is to use a number of movable screens which will make your window adaptable to many sizes of displays. They can be placed near the back of the window to feature large items or brought forward when the display is meant to feature a number of small articles. These screens can also be used to divide a window into sections to permit the display of a number of unrelated articles.

..Accessories. Probably the most important is the pedestal. They can be bought in a wide variety of styles and sizes, or easily made by anyone handy with tools. The common packing case when properly covered or draped makes a most useful accessory. Pieces of plate glass of various shapes and sizes will form attractive shelves and can be supported by either bottles or canned goods.

Neat window cards and price tags help to make a window display more effective, but unless they are properly used a window would be better without them. To overcome the difficulty of propping these cards against some article displayed in the window, little stands can be made to hold them so that they can be placed to show off to the best advantage. Various lengths and sizes of half-round moulding with a slot cut along the top will serve as support for the cards. An additional brace may be necessary to prevent the large cards from falling over.

To attach small cards to the window or to support glass shelves next to the window there are on the market little suction cups of rubber which will help to give variety to your displays.

The shape of the window, the construction, the accessories and the products displayed are nothing without the use of effort and brains to make the window effective.

Next Week—Going Into Business

Mr. Edgar will be glad to answer questions in this column, if readers will address their communications in care of this paper. Confidential replies can be arranged through the editor.—(Copyright).

BURGESS BEDTIME STORIES

YOWLER LOSES A MOUSE.

Some things you think you have you find
You really have but in your mind.
—Yowler the Bobcat.

Yowler the Bobcat had had good hunting. He was feeling very well pleased with himself and with things in general. One is apt to feel that way when one has had a good meal obtained without too much delay and hard work. It was just so with Yowler. A heedless Rabbit had jumped out right in front of him and had never known who it was that pounced on him. He hadn't even had time to be frightened.

It was early in the evening and Yowler was of no mind to go back home. He had been sleeping all day and he would have all to-morrow in which to sleep. So, although he did not need to hunt until he should be hungry again, he decided to roam about a little and find out what he could of what was going on in the Green Forest. Among the Black Shadows which had come

down from the Purple Hills and taken possession of the Green Forest he moved almost like a shadow himself, for he is naturally soft-footed and to move noiselessly is second nature to him.

Although he wasn't hunting, he kept his ears and eyes and nose on duty all the time. Out of just idle curiosity and from habit he investigated the cause of every little sound which he did not at once recognize.

"You never can tell," says he, "what you may miss by not investigating."

So it was that he surprised a Pine Mouse. The latter is a cousin of Danny Meadow Mouse, but lives more like Miner the Mole. That is, he spends most of his time underground making tunnels just as Miner does, only they are smaller. If Miner the Mole happens to be a neighbor, the Pine Mouse makes use of Miner's tunnels. But while Miner lives on worms and grubs the Pine Mouse prefers roots and bulbs, and as these grow under ground this is one reason he makes tunnels.

But he often comes to the surface, having many openings to his tunnels. The one that Yowler surprised had come out for a look around and had carelessly rustled a dry leaf just as Yowler was passing, which was his misfortune. It goes to prove how no one can afford to ever be careless. To just rustle a dry leaf once seemed a small matter, but it wasn't. It was a very grave matter in this case.

Having caught the Mouse Yowler purred his satisfaction for a few minutes. Then he picked the Mouse up and hesitated a few minutes, trying to make up his mind just what to do. He wasn't hungry, so he didn't eat that Mouse at once. But having caught it and having by long experience learned that he who wastes good food is likely to go hungry later, and deserves to, he had no intention of wasting it.

"I may as well take it home," thought he. "I can leave it there and then if I feel like it I will look around in another part of the Green Forest. If I should leave it here Reddy Fox or Old Man Coyote might happen along and take it, but neither will be bold enough to enter my home. It will come in handy later."

So Yowler took the Mouse to his home in the rocky ledge. He put it down just outside the entrance a little to one side. Mistress Moon was shining and in the open places it was almost as light as day. But all about were Black Shadows, the blacker because of the contrast with the light. It was at the very edge of a Black Shadow that Yowler put down the Mouse. Then he thought he heard a slight noise a short distance away and at once softly crept over there to investigate. It proved to be nothing of interest and he returned to take the Mouse into his den.

The Mouse wasn't where he had left it. No, sir, it wasn't there! For a moment he thought he might have made a mistake and be looking in the wrong place. But his nose told him that he had made no mistake. There was the smell of Mouse there. Could it be that he had not killed that Mouse after all and that it had escaped?

HALL'S BRIDGE

Miss Dewart has recovered from her illness and has resumed her teaching duties.

Miss Ethel McCaffrey, who has been visiting her sister, Mrs. H. A. Shearer, has returned home.

The Rev. E. C. Moore was a visitor to the village recently.

The sale and entertainment which was to have been held by the St. Matthew's Dorcas Society has been unavoidably postponed owing to the amount of sickness in the village.

Mr. and Mrs. E. Windover have returned from their visit to the States.

Born—On Thursday, March 30, to Mr. and Mrs. Horace Taylor, a son.

CHEST SORENESS YIELDS... to a "counter-irritant." Though relief is frequent with one application, Musterole is most effective when applied once an hour for 3 hours. MUSTEROLE

What To-Day Means To You

"ARIES"

If April 12th is your birthday, the best hours for you on this date are from 11 a.m. to 12:35 p.m., from 5 p.m. to 6:20 p.m., and from 10:30 p.m. to 11:35 p.m. The danger periods are from 8 a.m. to 9:30 a.m., and from 2:30 p.m. to 4 p.m.

Astrological "Do's" and "Dont's" for April 12th: Write letters of importance! Travel if opportunities are given. Engage in social affairs. Do not speculate! Do not listen to gossip, and remember that scandal wants auditors as well as talkers! Do not make a business change!

Children born on this April 12th will have marked artistic tendencies, and very catholic tastes. They will be loyal and faithful to both their work and man, and will do well in both a social and business sense. They will strike out a path for themselves and will always do the unexpected.

Born on April 12th, you are intellectually virile, and have many earmarks of an opportunist. Your material advancement is not a certainty but it is a certainty that you will see and know life, as few have the courage, ability or desire to do. Life will offer you a hodge-podge of mingled experience and chance—much of it sweet, much of it exciting and interesting and no small amount of it bitter. The excitement will never go out of things for you, and the pleasures of your youth, to a greater or lesser degree, will be pleasures of your lifetime.

You are master of your own decisions, and your ear is usually deaf to advice-mongers. You want to play, work, laugh and cry with the rest of the world; in other words, you want to be "one of them" wherever you may be. You do not mingle play and work, although you may be guilty of hurrying through the latter in order to throw yourself with abandon into the former. You are capable of being both indulgent and frivolous, or of being extremely sober and steady. Circumstances, more than moods, are the regulators of your actions. Your disposition is sunny, hopeful and merry, but you are not immune to storms of temper.

Plane Crashes Into W all

HAWKS MAY RECOVER WITHOUT SCAR FOLLOWING CHASH.

Severely injured when his airplane crashed into a wall as he attempted to take off at Worcester, Miss., Captain Frank M. Hawks, speed king, has been told that a facial operation by Dr. V .H. Kazanjian, the plastic surgeon, may leave scarcely a scar. Hawks is buoyed by the expectant arrival of his wife from Fort Worth. This photograph shows the airplane on its back after it had struck the wall.

KING'S WHARF

The regular meeting of the Y.P. League of St. John's United Church was held Friday evening with a fair attendance owing to bad roads. Some business was discussed with reference to the closing night of the league. The collection was received. The program was then taken by Miss Irene Humphrey. The scripture reading was read by Joseph Hunter. A reading "Through Korea by Aeroplane" was given by Miss Mabel Hunter. Mrs. Gayton Kimble gave a reading "Orphans." The explanation of the lesson was given by Miss Dorothy Rasson. A contest was then enjoyed and a dainty lunch served.

Miss Dorothy Ranson has returned to Bobcaygeon after spending her holidays with her parents, Mr. and Mrs. George Ranson.

Miss Lucy Sullivan has returned to her school in Kirkfield after spending her holidays at her home here.

Miss Dorothy O'Neill has returned to Lindsay to resume her studies in St. Joseph's Academy.

Born—To Mr. and Mrs. Edward Curtin, a son, on April 3.

Mr. and Mrs. John McLaughlin attended the funeral of the former's aunt, Mrs. Richard Fox in Downeyville on Thursday.

Dr. Gleason from Lindsay made a professional call here on Tuesday.

Mr. and Mrs. Peter Perdue were business visitors to Lindsay on Saturday.

Pageant Presented Fairmount Church

FAIRMOUNT, April 12.—(Examiner Corresponedence).—"The Gifts of Easter", the musical pageant was presented last Sunday evening by the ladies of Fairmount church. A large cross decorated in purple and white stood in the centre of the platform. The senior ladies took the choir stand and opened the service by the hymn, "Love Divine All Have Excellency." Miss Helen Earle came forward dressed in white carrying two large Easter lilies and took one of the main Easter parts and takes position immediately in front of the cross. Miss Sadie Allin, who took the part Love, very gracefully stands beside Easter. This was followed by song from the choir. Faith, Mary Hooton, takes her position at left of cross and presents her part followed by another song. Hope, Miss Ruth Smith takes psition at right of Love. Joy, Miss Jean Handbidge, stands beside Hope. Miss Lloyd Hooton took the part of Light and presented the solo, "I Heard the Voice of Jesus Say." Life, Mrs. C. W. Seymour, gave the poem, "O Lord of Eastertide." Then a group of five girls dressed in white passed up both aisles to the front singing sweetly, "Drawn to the Cross," Miss Russel Earle being the leader. And this group at right and left of cross in front of the others taking part kneel and finish the singing of song after which they rise and the leader steps forwards and addresses Easter.

Mrs. H. McArthur took the part of Service and after this the group of girls slowly kneel except the leader who stands sidewise toward the audience with her hand resting on the cross-beam, and while this tableau is held she sang "Take My Life and Let It Be." At the conclusion of this solo the group of girls rise and all joined in the recessional and closing chorus, "O Jesus I Have Promised." This pageant was well given, all taking their parts well.

A modern hotel is to be built at Lower Carnoch, Glencoe, Scotland, the scene of the massacre of Glencoe.

TARZAN AND THE GOLDEN LION. NO. 68

By Edgar Rice Burroughs

(Metropolitan Newspaper Feature Service, Inc.)

As Tarzan drew himself to the summit he was immediately engaged in combat with other warriors of Opar. With the bludgeon he knocked them to right and left, so great an advantage did his great height and strength give him over them. Leaping to the pavement he saw the High Priest disappear through an archway at the opposite end of the courtyard. Several priests and warriors sought to impede the ape-man's progress.

Seizing one by the ankles Tarzan swung the body about him, clearing a pathway as he ran. Cadj managed to keep just ahead of his pursuer, for he knew the intricate mazes better than Tarzan. Believing that soon Cadj would find a hiding place where it would be difficult to dislodge him, Tarzan put forth every effort to prevent him from reaching the comparative safety of the underground passage.

© 1932, by Edgar Rice Burroughs, Inc. All rights reserved.

With another bound Tarzan would be upon Cadj. But as he leaped through the doorway into the court, a noose, cunningly laid, closed upon the ape-man's ankle and he was hurled heavily to the ground. Almost instantly a number of the crooked little men of Opar leaped upon him where he lay, half stunned by the fall. Before he had regained his faculties they had trussed Tarzan of the Apes securely.

Only half conscious, he felt them raise him from the ground and carry him. Presently he was deposited upon a cold stone surface. Slowly he regained his senses and realized that once more he lay outstretched upon the sacrificial altar of the Temple of the Flaming God. And above him stood Cadj, the High Priest, his evil face contorted in a grimace of hate and the anticipation of revenge, long deferred.

Examiner's Scrambled Ad. Contest

10 GUEST TICKETS

GIVEN DAILY TO SEE

Herbert Marshall and Edna Best in

"MICHAEL AND MARY"

Starting To-Morrow at the Capitol

HOME - EVENINGS

Each one of these words is contained in one Classified Ad on this page. Rearrange the words, adding the missing words, and mail your answer to the Scrambled Ad Contest Editor. If yours is one of the ten winners picked you will receive a Guest Ticket to the Capitol, which can be used for one performance within six days of issue, excepting holidays and Saturdays.

HOME AND SCHOOL ASSOCIATION NEWS

CENTRAL SCHOOL.

The kindergarten room of Central School was well filled with parents and friends for the regular monthly meeting held last evening.

In the absence of Mrs. D. G. Eldred, the secretary's report was read by Mrs. Vass, who also reported for the relief. A financial report by Mrs. F. Skitch showed $109.65 in the treasury.

A paper collection is being held this week, and it is hoped that parents will give the children every assistance and make it a real success.

The banner for the largest attendance again went to Mr. Wightman's room.

The Association was fortunate in procuring Dr. A. G. Madill as guest speaker for the evening. His talk on 'Landscape Gardening' was illustrated with fine clear pictures shown on the screen, and which Dr. Madill treated in a masterly and interesting manner.

The audience was introduced to many varied scenes and places, mostly in Canada, but some in the Old Country—this to show the climatic effect on trees, shrubs and flowers; also to show ideas carried out in color scheme by gardeners as an artist would in a picture.

Those present who are interested in beautifying their own homes could derive much benefit from the various pictures showing the uses of short plants or tall shrubs with different types of homes as the case might be. Especially beautiful and worthy of mention were the pictures of the grounds at the Ontario Agricultural College and the Canadian National Exhibition.

Mrs. J. Kingsbury moved a vote of thanks to Dr. Madill who gave his hearers such a treat, and this was heartily responded to.

Other items on the program was two well-rendered piano duets, "Dance of the Shadows" and "Over Hill and Dale," by the Misses Margaret Wyllie and Mary Kingsbury.

Delightful vocal solos, "Rosebud" and "Commonsense," by Victor Coleman, accompanied on the piano by Mr. Quilter, received great applause.

Mrs. A. J. Weames played for the opening exercises and also the closing National Anthem.

Easter Meeting Held By Trinity Auxiliary

The Trinity Y. W. A. held its annual Easter Thank Offering meeting on the evening of April 11 at the home of Mrs. R. A. Wainman. The attendance was encouraging. Miss Ila Gilles presided.

Mrs. Osborne Smith read the devotional reading. Miss Greta Giles sang a very sweet solo. The minutes of the last meeting were read also the treasurer's report.

Mrs. Hoover who is leaving the city resigned in favor of Mrs. Cunningham. A very interesting letter was read by Miss Helen Bannister from Miss Bradley a missionary in Africa describing a word's day of prayer service as it was held in Africa.

Miss Edith Preston announced the C. G. I. T. conference and a mother and daughter banquet in St. Andrew's church on the afternoon of Saturday, April 16. The guest speakers are Miss Griffith and Miss McCarthy, two leaders from Toronto.

The C. G. I. T. is taking the morning service at St. Paul's on April 17. Miss McCarthy giving the address. The May meeting will take the form of a pot luck supper. A paper was read by Miss Esme Thornlinson on the "Hard Times" of Korea. The rural population of Korea is in a distressing condition. Three fourths of the Korean population are rural. There are large numbers of tenant farmers with heavy expenses annually and no surplus. Private debt is very common.

The three forces at work to better economic conditions in Korea are the government, the Christian Church and the Y. W. C. A. They require spiritual as well as material aid. The evening closed in a very pleasant social hour.

A Father's Advice to His Son

"There is No Substitute for a Savings Account."

4% Paid on Deposits

Every young man is anxious to succeed and a SAVINGS account is more than a START towards financial independence—it is a mark of character. One of the strongest recommendations that a young man can present is a savings bank book with a record of consistent savings.

Young man, open that savings account today and our savings department will make it easy for you to become thrifty.

Every person interested in the future of the British-Israel Commonwealth of Nations, should hear Mr. Breffit. Come and bring a friend. 1d,87,492

NOTICE.

Notice is hereby given that the Municipal Council of the Township of Ennismore, at a meeting held on Monday, April the 4th, 1932, passed a by-law that no garbage of any kind be dumped in the swamps or on the road-sides of the said township.

Anyone found doing so from the above date will be prosecuted according to law.

W. F. CAVANAGH,
Twp. Clerk.
2d-87-477.

Two Local Youths Await Deportation

Two Peterborough youths, Fred Hamilton, aged 21, and Alvin Stoneburg, aged 15, are held by United States immigration officials pending deportation proceedings. Both were arrested near Port Huron, Michigan, on March 28, and held for illegal entry. Chief Samuel Newhall has been in correspondence with the United States officials concerning the disposition of the youths. It is understood that within the next few days Detroit police will hand them over to Windsor police, and they will be brought back here by Peterborough police.

Stoneburg was on remand here for a series of thefts when he left the city in company with Hamilton.

Manufacturing of boxes, baskets and crates in Canada during 1930 consumed 141 million feet board measure of lumber, mostly softwoods; 123 factories in the industry produced products valued at $8,813,916.

RETAIL MERCHANTS RE-ELECT H. FREEL

Merchants Endorse "Clean-up, Paint-up, Give a Man a Job Campaign.

There was quite a large attendance at the meeting of the Retail Merchants Section of the Peterborough Chamber of Commerce, which was held last evening in the board room.

H. Freel, last year's president gave a verbal report of his tenure of office, and was re-elected chairman of the section for the ensuing year, with E. F. Mason as vice-chairman. There was considerable discussion over the Wednesday Half-Holiday. Members present spoke their minds freely and frankly, and after the vote was taken, it was found that two-thirds of those in attendance favored closing Wednesday afternoons during the months of June, July and August.

Mr. Freel called on J. A. McKone, secretary to introduce the "Clean-Up, Pain-Up, Give a Man a Job" campaign, which is to be launched by the Chamber of Commerce, commencing Apr. 30 next. A great deal of enthusiasm was aroused, and it is believed that with proper support by merchants, manufacturers concerned, and stores, that it should result in bringing a good deal of work for unemployed men in the city, particularly in reference to painting, roofing, repairs to properties, interior decoration, plumbing, tinsmithing, and in fact every up-keep that a house, store, or plant would require. A special committee, consisting of: J. C. Hall, E. F. Mason, F. J. Overend, L. I. Hamley, R. G. Kingan, Fred O. Goodfellow, and F. E. Dewey, was appointed to work out the details of the campaign.

In addition to Mr. McKone's introduction of the subject, R. M. Glover outlined some of the objects of the campaign, and assured the committee of The Examiner's support in the project.

A new member, in the person of F. E. Dewey recently appointed manager of the Kresge Store in Peterborough was present.

It was felt that it might be to the advantage of the retail merchants of the city if meetings were held more frequently, and an endeavour will be made to bring this about.

Mr. McKone asked the members to send in suggestions to the Chamber of Commerce on matters affecting the retail section, and stated that it was the purpose of the Chamber of Commerce to assist in every way possible to make the section a success.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

FIRE CAUSED BY SHORT CIRCUIT

That the fire at the home of Albin Anderson, 184 Brock St. yesterday afternoon was caused through a short circuit in the electric wiring, is the theory advanced by Fire Chief George Gimblett following investigation. The blaze which caused the back portion of the house including the kitchen and attic to be practically gutted, caused damage estimated at $600.00. Loss is covered by insurance. The property is owned by the Orange Order and is tenanted by Anderson and also by sub-tenants.

The Fire Department had another run this morning to 590 Chamberlain street, caused by a chimney fire.

GAS STOVE.

The Examiner has been offered a gas stove, also several rugs. If anyone could use these, please telephone this office and we will deliver them.

We have been asked for matresses. As this is near housecleaning time, perhaps someone could supply them. We will be glad to call, if any are available.

SONS AND DADS HOLD BANQUET

250 Fathers and Sons Attend Banquet at George Street.

DELIGHTFUL PROGRAM.

History again repeated itself last evening when a large gathering of sons and their dads assembled in the Sunday School auditorium of George Street United Church for a very sumptuous banquet sponsored by the Sunday School.

At 6.30 p.m. nearly 250 fathers and sons sat down to very attractively arranged tables, running the entire length of the hall. Community singing of old favorites was much enjoyed, with A. V. Lillow as leader and Stanley Northrop at the piano.

Rev. J. E. J. Millyard presided as chairman and proposed the toast to the King. John Hunter, Ontario Boys' Premier, was introduced and given a hearty ovation. He made a brief speech, announcing the Trail Rangers' Camp this summer. A very interesting part of the program was the presentation of medals to the boys of George Street Church for their work in the Bond Selling Campaign for the Boys' Work Board. Leo Copp gave an outline of the Boys' Work, saying that 14 medals were won in the city and of this number nine came to George Street Church. They had also collected over half of the money. The medals were presented by C. S. Thompson. A gold medal to Bob Thornton; silver medals to Garnet Dainard, Max Parnell, Elmer Trethewey; bonze medals to Lawrence Henry, Arthur Stinson, Bob Elcombe, Howard Trethewey, Leonard Phillips. The winners of the Midget hockey team of the Inter-Church League, and the juvenile basketball team of the Sunday school, both of which were winners, were introduced and congratulated by C. S. Thompson.

An amusing stunt by the young men of the Duo Class caused much amusement, entitled, "That's What We Want."

A toast to "Dads" was proposed by Max Parnell and responded to by E. L. Sackville, who said he believed the average boy wants to be like his dad and that this is a great challenge for fathers to live the way they would wish their son to live.

A toast to "Boys" was proposed by H. G. Walker, and responded to by Lawrence Henry.

The guest speaker, Rev. James M. Finlay was introduced by John Hunter and referred briefly to his visit here five year ago, calling attention to the fact that a boy of 17 now was only 12 years old then, and a boy of 12 then only 7. During this period of their life, ideals had been formed, and his subject was, "What Five Years of Life Meant." He said he was not intending to tell dads how to bring up their sons, but rather—to speak of the Fatherhood of the Church. Scores of people recently have been hockey-minded, people of to-day get minded. What he wanted the men and boys of George Street Church to do was to get minded to the Fatherhood of the Church. Have three distinct things in your mind: 1st, Purpose; 2nd, Power to think straight; 3rd, Act Honestly. A university principal, in giving advice to a graduate to think straight said: "You will not find much competition." He related several amusing stories in regard to each point.

A hearty vote of thanks to all taking part in the program was extended by Rev. J. E. J. Millyard and the meeting broke up after repeating the Mizpah Benediction.

Mrs. T. Mark and Mrs. G. Robertson were convenors of arrangements for the banquet, ably assisted by a number of ladies of the Sunday School.

Obituary

MRS. CHARLES GRIFFIN

The death occurred this morning of Elizabeth Pallin, relict of Charles S. Griffin, after a brief illness. She was 76 years of age, and had resided at 492 Aylmer street.

Mrs. Griffin was a native of Norwood but had resided in this city for some time. She attended Bethany Tabernacle.

Surviving her are three sons, Fred B., of this city; James H., of Toronto; and Wilbert S. of Detroit and two daughters, Mrs. W. W. Theobald and Mrs. J. B. Caines of Peterborough also one brother, J. H. Pallin of Indian River and two half brothers, D. Wood of Seattle and Joseph E. Wood of Detroit.

The funeral is to be held on Thursday at 2 p.m. from the residence of her son-in-law, W. W. Theobald, 795 George street to Little Lake cemetery. Services will be conducted by the Rev. H. P. Browett of Bethany Tabernacle.

MRS. RICHARD FOX.

The funeral was held recently of Mrs. Richard Fox from the family residence at "Fox's Corners" to St. Luke's cemetery.

Mrs. Fox was formerly Mary Ann Richardson. She was in her 78th year and had resided in the locality all her life. Since her marriage to Richard Fox, fifty-seven years ago, she had resided at their home, always known as "Fox's Corners."

She was of a bright, energetic disposition, one whose exemplary virtues had won for her the admiration and esteem of a multitude of friends. Her cheerful, helpful life and her kindness to everybody will be remembered in her home and parish.

Mrs. Fox is survived by her husband, two daughters, Mrs. John O'Neill of Downeyville and Mrs. James Callaghan of Detroit, two sons, John Fox of Downeyville, and Michael Fox of Lindsay, also one brother, William Richardson of Lindsay and eighteen grandchildren and one great granddaughter.

At the service in St. Lukes' church requiem high mass was chanted by Rev. Fr. Galvin, who also paid fitting tribute to the memory of the deceased and uttered words of comfort to the bereaved husband and family.

Pallbearers were: Messrs. M. D. Harrington, Thomas Lucas, Bernard Murray, Daniel Costello, John McLaughlin and John O'Neill.

Plans Long Flight

Colonel Mario de Benardi, Italian aviator who won the Schneider cup in 1926, plans a non-stop flight from Rome to China, which he expects to begin before August. He expects to demonstrate on the so o flight his patented design for a new wheel control for aeroplanes.

MORGAN LEWIS

The funeral of Morgan Lewis held recently from his residence, 218 London street was attended by a great many friends from the city and surrounding country. Interment was made at Oakwood cemetery, with the Rev. J. E. J. Millyard, pastor of George Street United church officiating.

Mr. Lewis' death followed six weeks confinement to his bed. He had not been in good health all winter.

One of a family of ten children, one sister of which predeceased him 39 years ago, Mr. Lewis was born in the year 1868 in Smith Township. His parents came to this country from Wales and both predeceased him. While still very young his family moved to Emily Township and later to Verulam where Mr. Lewis received his education.

At the age of twenty-six years Mr. Lewis left his father's farms to take up the dairying business. After serving an apprenticeship at Central Smith Cheese Factory and at Palestine, Ontario he attended Kingston Dairy School. In 1897 he started business at Oakwood Cheese Factory and in 1902 purchased the Victoria Creamery at Lindsay. Having operated there successfully he sold out to Flavelles Ltd., in 1913 when he moved to Toronto. While in Lindsay Mr. Lewis took active part in public affairs. He served on the town and county councils for some years.

In Toronto he was identified with the Bowes Company and in 1918 went to London where he was superintendent of Silverwood's Ltd. In 1925 he became connected with the Peterborough Milk Products which plant has since been taken over by Silverwood Dairies. Mr. Lewis was connected with Silverwood's at the time of his death.

He had a pleasing disposition and this along with his upright business principles won for him friends in all parts of the country. In 1925 while residing at Lindsay he married Lillian G. Pascal of Oakwood. Mr. Lewis was a member of the Masonic Order and also a member of George Street United church.

Pall-bearers were G. A. Gillespie and R. Allen representing the deceased's business associates from Silverwood's Dairies and four nephews, Harold, Morgan, John and James Lewis.

Mr. Lewis is survived by his wife and one son John Russel of Wales.

Weddings

BLEWETT—WALDIE

A quiet but very pretty wedding took place at one o'clock this afternoon at the Manse of Knox United Church, Peterborough, when Myrtle Robena, youngest daughter of Mr. and Mrs. J. C. Waldie, Perry street, was united in marriage to Sherman Blewett, elder son of Mr. and Mrs. Sidney Blewett, Chemong Road. The ceremony was conducted by the Rev. William McDonald, B.A.

The bride was attended by her sister, Miss Mina Waldie, as bridesmaid and Harry Blewett acted as best man for his brother.

The bride looked very charming, wearing her travelling outfit, a chic tailored ensemble of navy French crepe, with hat of batik straw and gloves, bag, shoes and hose to match.

Miss Mina Waldie wore a smart suit of Royal blue with blue hat and accessories.

Immediately after the ceremony the happy young couple left for a wedding trip and will visit Hamilton, Toronto and Niagara Falls. They will later take up their residence at 136 Perry street, Peterborough.

IN MEMORIAM

ALCOCK.—In loving memory of Leslie J. Alcock, who passed away six years ago to-day, April 12.

"When for a while we part,
This thought will soothe our pain:
That we shall still be joined in heart,
And one day meet again.

—Ever lovingly remembered by Father, Mother, Sister and Brothers.

$7,000 WILL BE SPENT ON ROADS

Many Matters Are Discussed at Meeting of Emily Council.

OMEMEE, Apr. 12 — The Emily Council met in the Farmers' Club Rooms, Omemee, recently, with all the members present and Harry E. Endicott, the Reeve, in the chair.

Communications were read as follows: R. C. Muir, acknowledging receipt of By-law No. 610 providing for an estimated expenditure of $7,000 on roads for the year 1932; from W. A. McQuade, asking permission to cut two trees on the road allowance on the west side of lot 11, concession 4; from F. Dagger, supervisor of Telephone Systems, pointing out that the Ontario Railway and Municipal Board could not approve of by-law 608 and requesting that a by-law prepared by the Township Solicitor be forwarded to them by the Municipal Clerk for their consideration and approval; from T. H. H. McQuade, pointing out that there were rail fences on the second line and east of the west quarter line which caused snow to accumulate on the roadway to the inconvenience of the travelling public, and asking council to have the matter taken up and adjusted; from M. H. Winter, enclosing result of the census of bulls taken by the assessors of the county of Victoria in 1931; from R. C. Muir, enclosing report of subsidy on highways on expenditure for 1931 and informing council that the amount of subsidy as finally approved was $2,262.69.

The reeve reported that acting under instructions from the council he had purchased the Wiles property and the house and lot belonging to the East Emily Cheese and Dairy Company at the adjourned sale of lands for taxes in Lindsay, on April 5. On motion, the action of the reeve in the above matter was approved by the council.

The road accounts as presented by C. W. Mills were approved and ordered paid by the council, also the following school orders: S.S. No. 3, M. J. Thurston, sec. treas.; teacher's salary, $100; S.S. No. 4, Albert Clancy, sec. treas., $300; S.S. No. 7, Frank Crough, sec. treas., $315; W. R. Robinson, sec. treas., Mun. Tel. System, balance due for 1931, $404.06; George O'Donnell, relief for W. Millage, $10; David Weir, reg. births, deaths and marriages, $8; M. D. Earl, groceries for A. Todd (unemployment relief), $15; Lindsay Post, stationery for treasurer, $7.43; Harry McElwain, balance salary as collector, 1931, $30.

By-law No. 611 being a by-law to validate certain debentures of the Municipal Telephone System was given its several readings, signed and sealed and ordered forwarded to the Ontario Railway and Municipal Board.

Orders were drawn on the treasurer for Ambrose Herlihey, one sheep killed, $7; one sheep injured, $2; also for Neil Herlihey for valuing same, $1.50.

Percy Hancock submitted an account for cutting brush on the 13th concession west of the west quarter line to the amount of $8.62 and the Reeve was authorized to pay the same with an order on George O'Donnell for groceries to the above amount and charge the same to unemployment relief. The relief of W. Millage was continued for the month of April and Mr. O'Donnell was instructed to furnish him with groceries to the value of $10.

On motion, the clerk was instructed to furnish him with groceries to the value of $10.

On motion, the clerk was instructed to notify certain parties that their fences caused an accumulation of snow on the roadways of the township and to request them to remove the same and erect wire fences in their place, pointing out at the same time that the present bonus of 40 cents per rod for fences must be reduced after this year.

The council adjourned to meet on Tuesday, May 3, in regular session, at one o'clock.

BIRTH

LUTHER—At Nicholls Hospital, on Monday, April 11, 1932, to Mr. and Mrs. Percy Luther, a daughter, Lillian Margaret.

DIED

LANG.—At Bensfort, South Monaghan, on Tuesday, April 12, 1932, Mrs. James B. Lang.

Funeral on Thursday, April 14, at 1 p.m., from late residence. Interment in St. Paul's Cemetery, Cavan.

IN MEMORIAM.

DEGAN—In sad and loving memory of our dear son and brother, William E. Degan, who passed away April 12, 1925.

'Tis lonesome here without you,
There is such a vacant place,
For we never hear your footstep
Nor see your smiling face.

As we loved you, so we miss you,
In our memory you are dear;
Loved, remembered, longed for always,
Bringing many a silent tear.

—Sadly missed by Father, Mother, Sister and Brothers.

IN MEMORIAM

MESLEY — In loving memory of Alfred Mesley, who passed away ten years ago to - day (April 12, 1922).

—Ever remembered by Wife and Family.

FRASERVILLE.

Mr. Raymond Atchison returned home on Friday after visiting his sister, Mrs. W. Gainer, of Bailieboro.

Mr. A. R. Church, of Peterborough, has moved to his farm, formerly owned by Walter Douglas. Mr. Church has a carpenter busily engaged in remodeling the house. Mrs. Church will join him in the near future.

The many friends of William Lawrence will be glad to learn he was able to be removed from Nicholls Hospital to the home of his aunt, Mrs. Curtin, in Peterborough, on Sunday.

Mrs. Robert Waterman, of Peterborough, is visiting at the home of her son, Williard Waterman, and Mrs. Waterman.

Group C of the Fraserville Ladies' B. Seabrook, are planning to hold Aid, under the leadership of Mrs. a surprise social in the Orange Hall on April 20.

The Sacrament of the Lord's Supper was observed in Fraserville United Church on Sunday afternoon. The pastor, Rev. E. F. Swayne, was assisted by Messrs. Robert Delahaye and Fred. Lewers.

Stomach Ulcers Relieved At Home

QUICK RESULTS WITHOUT RIGID DIET.

NO OPERATION.

It is remarkable how quickly most cases of stomach ulcers, acidosis, constipation, gas, distress after eating, stomach pains, sour stomach, indigestion, etc., respond to **VON'S PINK TABLETS.**

Von's Tablets re-create the proper "chemical balance" in your stomach—thus freeing you of pain and distress. No rigid diet—you can eat all wholesome foods and regain your former strength. Send to day ten cents in stamps for Trial Offer and full particulars. Act now as offer is limited. Canadian Von Company, 291 Security Bldg., Windsor, Ont. Von Pink Tablets are not sold in drug stores.

KIDNAP SUSPECT TAKEN IN ST. THOMAS

NEWS IN BRIEF

SHORT ITEMS RECEIVED OVER C. P. WIRE.

BESSBORO TO VISIT UNIVERSITY.

LENNOXVILE, Que., April 13 (C. P.). — Lord Bessborough will visit Bishop's University, Lennoxville, on the occasion of the annual convocation, which takes place on Thursday, June 16. The Governor-General will receive the detgree of Doctor of Civil Law, honor's causa, which will be conferred by the Chancellor, F. E. Meredith.

RAILROAD OFFICIAL KILLED

NEW YORK, April 13.—John A. Mobley of Houston, Tex., general counsel for the Missouri Pacific railroad, was killed early today when he fell or jumped from a ninth floor window of a hotel here.

POSTPONE BASEBALL OPENER.

CINCINNATI, April 13 (C.P.).—John A. Heydler, president of the National League, to-day announced his intention of urging that opening baseball games of the season be advanced for two weeks at least, to avoid the weather jinx so often interrupting opening schedules.

ARTIFICIAL DIAMONDS.

NEW YORK. — Pure diamonds have been created artificially in the Columbia University Laboratories, Dr. Ralph H. McKee, Professor of Chemical Engineering, announced yesterday. Although not large enough for jewellery purposes, these diamonds, Professor McKee declared, are more than ten times the size of those produced in 1893 by Henri Moissan, French chemist.

SNOW HITS LONDON

LONDON, Ont.—Swept by a driving snowstorm from the northwest that rivalled those of mid-winter, Western Ontario was blanketed with a six-inch snow covering early to-day.

The temperature only indicated that it was not a winter blizzard as the mercury dropped only slightly below freezing.

PASSENGERS SAVED.

TOKYO.—A Rengo News Agency despatch from Hakodate to-day said all the 950 passengers aboard the steamer Taisetmaru No. 3, which ran aground in the Kuriles yesterday, had been rescued. The 31 men of the crew also were taken off.

BUSINESS BLOCKS BURN.

NEWCASTLE, Pa.—Two blocks in the business district were destroyed by fire last night with an estimated loss of $400,000.

The blaze started in the wood building, a three-storey modern brick structure, and was carried by a high wind into the Dun block.

FIND BODY IN LAKE.

KINGSTON.—The body of a man, found floating in Lake Ontario, was identified to-day as that of Samuel Davis, a former inmate of the Ontario Hospital at Rockwood.

STORM TROOPS ILLEGAL

BERLIN—Adolf Hitler's National Socialist "storm troops" were declared illegal throughout the country by a government decree to-day.

BLIZZARD HITS BUFFALO

BUFFALO—Buffalo to-day was in the grip of a belated snow storm that bade fair to rival any during the winter. Driven before a strong wind, snow was drifting rapidly to a depth of nearly a foot this morning. The United States meteorological bureau reported a snowfall of 2.5 inches during the night and more snow was falling to-day.

LAD'S BODY FOUND

ST. CATHARINES—The body of Walter Essery, 10, drowned with Reginald Maxwell, 13, when their canoe turned over yesterday, was recovered in the Welland canal to-day. Search for Maxwell's body is continuing in a snowstorm. The canoe, watched by Isobel Lounsbury contained a third boy, Elton White, 1, who swam to safety.

The Weather

While the snow-storm of last night was a somewhat belated one, it by no means constitutes a record. April snowstorms are fairly frequent, and even in May snow at times falls. On May 4, 1907, the Maple trees were in one-half leaf, and the citizens that morning woke to find the ground covered with six inches of snow. The snow-plows had to be put in service. This morning the robins were still busy with their nest-building, and though they may have had "cold feet" physically, they did not appear down-hearted at the wintry aspect, but went about their home-building preparations with renewed energy.—W.P.

GEORGE DOUGLAS MADE FAST TRIP INTO THE ARCTIC

Goes From Toronto to Great Bear Lake in Less Than a Week.

STAKES COAL AREA.

North Abounds With Minerals —Is Going Back in the Summer.

From Toronto to the Great Bear Lake area in less than one week was the proud record made recently by George M. Douglas, mining engineer and "Lakefield Old Timer." Mr. Douglas left Toronto on February 29, reached Edmonton March 3 at 10.30 a.m. where an airplane of the Canada Airways was waiting for him and with a stop over at Fort McMurray he reached Echo Bay on the northwest corner of Great Bear Lake on March 6, where he staked coal deposits discovered by him some 20 years ago and was back at Fort Smith with his claims registered on March 7 just one week from the time he left Toronto.

The plane used by Mr. Douglas was the Fokker S.K. the one that was wrecked by the MacAlpine expedition in the fall of 1930 and left in the Arctic waste all that winter. The next summer it was flown out without even the pilot going to the trouble of taking out of the engine.

Born in Halifax

Mr. Douglas was born in Halifax and at the age of six moved with his father the late Col. C. M. Douglas, V.C., to Lakefield where the family has taken a prominent place in the life of the community for years. Mr. Douglas is nephew of the late Admiral Sir Archibald Douglas. For years he has been interested in the mining possibilities of the Great Bear Lake area and is now planning an expedition into that territory again this summer. Then he will carry on further study of the mineral wealth and in his equipment will be a Peterborough canoe.

In discussing the Great Bear region and its possibilities Mr. Douglas declared that many prospectors were rushing into the area. Radium is the big objective of the mining parties but there is also large deposits of copper, silver, cobalt and coal.

The short springtime of the north is now dawning to wipe away the desolate tinge of the northland's winter and with the beginning of the merry month of May the real dawn of the prospectors' short period breaks, he said. It swings into full tide in June and terminates abruptly about the end of September when once again the howling blizzards of the Arctic will sweep out of the North Pole region.

Before the gales of 1932 find birth, prospectors, single and in large parties will have traversed most of the seven or eight hundred miles around Harbor Bay, Echo Bay, Labine Point, Conjurer Bay and

Thumb Stations For Student Hitchhiking

CLMSON, S.C., April 13 (C.P.) — Southern Collegians are promoting erection of thumb stations to dignify student hitch-hiking.

Depots for the free ride seekers were proposed by Professor R. E. Lee of the Department of Architecture of Clemson College and the suggestion is finding general favor among the youth who travel to and from their schools in other persons' automobiles.

Architectural students have submitted designs for prospective stations with a figure with a supplicating thumb as a designation.

HOURS LONGER IN POST OFFICE PAY BEEN CUT

Night Men Will Work Extra Hour—Two Extra Hours Sunday.

TORONTO STAFF CUT.

Post Office Department Puts Into Force Drastic Economy Program.

The stringent economy program recently introduced in the Post Office Department, and which is causing much uneasiness among postal employees throughout the Dominion, is being felt in Peterborough. In larger centres it is expected that a general reduction in staffs will result, but so far as The Examiner could learn to-day there is no intimation of that here, although hours of clerks will be lengthened.

Various explanations are being offered for the drastic action taken on orders from the Post Office Department at Ottawa. Officials have been told that the raising of the postage rate to three cents for mail other than city delivery, the displacement of advertising circulars by radio broadcasting, and the cutting of the Post Office estimates are the principal causes. All employees have had their salaries cut by 10 per cent., while others have also lost their statutory annual increases of 10 per cent. In Toronto the staff of 1,800 has been reduced, beginning two months ago.

Longer Hours.

A lengthening of hours for night work from seven to eight, and for Sunday work from six to eight, has been ordered, Charles Lacheur, postmaster here, said to-day. The hours were fixed by a departmental order some ten years ago, but have now been changed without previous instruction to the employees. Most of the work at the Post Office is done at night.

Mr. Lacheur declined to discuss the probability of staff reduction here, and also change of hours and re-arrangement of staff.

A despatch from Ottawa on the

CHOOSING OF COMMONS STAFF BY CIVIL SERVICE IS OPPOSED

Clerk Believes It Should Be Privilege of House to Control Its Officers.

LONG BEEN URGED.

OTTAWA, April 13. (CP)—"I am decidedly opposed to the appointment by the Civil Service Commission of either permanent or temporary employees of the House of Commons staff" Arthur Beauchesne, K.C., Clerk of the House of Commons, told the Civil Service Committee of the House of Commons this morning.

Mr. Beauchesne was called to give evidence respecting the workings of the Civil Service Commission with the House of Commons. H. thought it was a great mistake to bring the House of Commons under the commission. "It should be the privilege of the House of Commons to have control of its officers," he said.

Sir John Bourinot "most noted clerk of the House of Commons" had strongly advocated disestablishment from the Civil Service Commission, as also had Sir Robert Borden.

The House of Commons, argued Mr. Beuchesne, was not a department but was a body which had charge of all departments, and

Irish Officials Pay Visit To England

LONDON, April 13 (C.P.). — The unexpected arrival of Viscount Craigavon, Premier of Northern Ireland, and Attorney-General A. B Babington, created increased interest in the Irish situation here to-day.

Viscount Craigavon said although the situation was delicate he did not take a serious view of it. He said he hoped to see Prime Minister Ramsay MacDonald and J. H. Thomas, Dominions Secretary, during his visit.

GERMANY'S FIRST TASK IS TO BALANCE BUDGET

BERLIN, April 13. (AP) — Germany will balance her budget first, then go ahead with the task of providing jobs for her 7,000,000 unemployed, Adam Stegerwald, minister of labor, told a convention of trade unions to-day.

"We must avoid another inflation and insure the stability of our currency" he said, "Domestic improvement depends largely on the future course of France and the United States, but our own domestic political situation is a factor to be considered."

TWO OFFICERS, 12 MEN KILLED, OVER FIFTY OTHERS BADLY HURT ON OUTSKIRTS OF HARBIN CITY

Pile-up Occurs as Force Speeds Back From Battling Chinese Rebels.

FLAMES TRAP VICTIMS.

Attempt Seen to Stir Friction Between Soviet Russia and Japan.

TOKYO, April 13. —(AP) —Two officers and twelve men of General Jiro Tamon's Japanese Manchurian force were killed and more than fifty injured in the wreck of a troop train near Harbin, Manchuria, last night, according to official reports to the war office here today.

Six of the injured soldiers were not expected to live, the reports said.

Press reports of the wreck said it was caused by an explosion, but the official version did not mention any such cause, merely declaring the train was derailed and burned, cremating the victims.

General Sadao Araki, War Minister, said a thorough investigation would be made and firm action taken against anyone found blameable for the derailment. The train carried motor transport units belong to Major General Mural's brigade, which is part of General Tamon's command. The troops were returning from the campaign against the Chinese rebels at Jinsacheng.

Probe Under Way

A relief train was sent immediately from Harbin and it carried also an investigation commission. Some press reports laid the blame for the wreck on Communists of unnamed nationality. Others said it was caused by elements interested in causing friction between Soviet Russia and Japan.

A despatch to the newspaper Asahi said another train carrying Major General Hasebe and his staff from Fangcheng escaped a wreck two hours earlier when railway guards discovered dynamite of German manufacture on the tracks two miles outside of Harbin, only half an hour before the train was due.

SOME LIFE LEFT IN KING WINTER

Sleighs Make Appearance Again as Snow Bankets Province.

ROADS IN BAD SHAPE.

TORONTO, April 13. — (CP) — The weatherman showed supreme contempt for the calendar today. According to everybody except himself this is, or was, spring. Robins had chirped merrily; flowers were appearing; geese were flying north and poets were writing yards and yards of spring song. Boys played marbles and girls skipped. But all that was last week.

Today, the rusted runners of sleighs are leaving their tracks in snow. Geese have stopped their northern flight, and the poets are nursing colds in the head.

From many parts of Ontario come similar reports of heavy snow. Windsor, North Bay, Guelph, Brantford, St. Thomas, Kitchener, Lindsay, Barrie.

Roads Break Up

Roads in the outlying districts, soaked by a two day rain and then a wet snow, are in bad shape.

The Mattawa and Ferguson highways in Northern Ontario are just about out of commission so far as automobile traffic is concerned. Hundreds of automobiles in both Northern and Southern Ontario were mired.

Disappointed residents obtained little assistance from the weatherman today, for the latter was in an adamant mood. All he could promise was that the weather would remain cloudy and rather cold with light snowfalls or flurries for today and tomorrow. The wind, he thought would remain in the northwest but would decrease a little.

SWALLOWS COPPERS— RECOVERS.

LONDON.—Jimmy Scott, six, is resting comfortably in hospital here. Jimmy swallowed a couple of large coppers, and they were removed from his throat in a delicate operation yesterday.

Floods Sweeping Over New England

BOSTON, April 13. (CP) — New England's riverbank communities prepared to-day to battle this section's rivers, brought to the freshet stage by rain-swelled streams.

The Connecticut River at Hartford, Conn., rose with alarming speed during the night and stood at 17.9 feet above main sea level. Through the early morning the river continued to rise at the rate of .1 inch an hour. Meadows to the north and south of the city were covered with water and the men were working in shifts manning the emergency pumps to hold the river back from the city sewer system.

DR. CARMICHAEL PASSES IN CITY

Peterborough's Oldest Physician Dies at Nicholls Hospital.

GRADUATED IN 1884.

Dr. D. N. Carmichael, Peterborough's eldest and longest practising physician, died at 11 o'clock to-day in Nicholls Hospital after a short illness, in his 78th year. He had been in ill health for several years. Taken seriously ill Monday evening, he was transferred to hospital in an unconscious condition. He remained in that state until he passed quietly away.

Born in Mariposa Township, he graduated from the old Trinity Medical School, Toronto, in 1884. After practising for some years in Mount Pleasant, he moved to this city. He had conducted his practice here for more than forty years. He was formerly a member of St. Paul's Presbyterian Church and later of George Street United Church.

He is survived by his wife, two sons, Dr. Hugh Carmichael, of Worcester, Mass., U.S.A., and Dr. Donald Carmichael, of King's Park, Long Island, N.Y.; and one daughter, Dr. Agnes Fitzgerald, of Toronto.

The funeral will be held from his late residence 132 Brock street, at 2 o'clock Friday, with interment in Little Lake cemetery.

Narrow Plank Bridge Built Across Canal

Because of the condition of the roads, the Curve Lake Indian reserve is said to be isolated so far as motor traffic is concerned. It is understood that the mail to and from the village is being carried across the ice.

Motor traffic also cannot penetrate the muddy roads to Lakehurst and the mail man has been forced for several days to drive by team to Bridgenorth and take a truck thence to Peterborough. The Warsaw road is also very bad, but the mail man has been able to traverse it successfully so far.

The detour on the Lindsay highway is closed, but the bus is still carrying passengers between the Scugog Town and Peterborough. The bus carries passengers to the bridge, then the passengers get out, walk across a narrow plank bridging the canal at this point, and when safely on the other side board another bus which is stationed there to receive them. Passengers going both ways cross the plank.

$30 Left In Capitol Never Been Claimed

About two months ago a gentleman found $30.00 in the Capitol Theatre and handed it over to J. A. Stewart, the manager. It was advertised in The Examiner, but the owner has never called for his money. The man who found it has gone to England and Mr. Stewart has turned it over to The Examiner Relief Fund with the understanding that if the owner turns up and proves ownership, the money will be paid him. The Examiner wishes to thank all those concerned for the money in the meantime.

Blind Man Attends Cincinnati Opener

CINCINNATI, April 13. — (C.P.)— One of the happiest fans who saw the Reds defeat the Cubs here yesterday was a blind man.

He was State Senator Roy J. Gillen, who despite his blindness has attended every opening game for the last 70 years.

Senator Gillen, who was accompanied by his neighbor, Joe Gallagher, of Wellston, O., who described the game for him play by play.

LLOYD GEORGE BACKS THOMAS ON IRISH TREATY

Does Not Believe Free State is Foolish Enough to Quarrel With Britain.

LIBERTY NOT INVOLVED.

Predicts Retention of Annuities Will Hurt Relations—Dishonest Act.

MANCHESTER, England, April 13 (C.P. Cable).—Complete agreement with the statement of Dominions' Secretary, J. H. Thomas that the British Government must stand absolutely by the Irish Treaty in the dispute with President Eamon de Valera of the Free State over the oath of allegiance and the land annuities was expressed by David Lloyd George in an interview to-day with The Manchester Guardian.

Mr. Lloyd Geoorge was chiefly responsible for the passage of the Home Rule Bills in the British Parliament in 1919-20, and as Prime Minister he was the leading spirit in arranging in 1921 the truce to bloodshed in Ireland which preceded the setting up of the Irish Free State.

Folly

He could not believe the Irish would perpetrate such folly as a quarrel with Great Britain, their best customer, over something which contained nothing of the essence of liberty, Mr. Lloyd George declared. President de Valera, in the Welsh statesman's words, "could not have the swagger of complete independence and the substantial advantage of being inside the British Commonwealth."

Mr. Lloyd George was emphatic about the partnership aspect of the treaty as negotiated by his coalition government. The negotiations for the treaty with De Valera failed on account of De Valera's insistence on complete independence, but Arthur Griffith and Michael Collins were willing to negotiate on the basis the right of secession would be excluded from the discussions, and on that basis the treaty was ratified by the new Dail Eireann.

"If President De Valera persists in his course, it is the end for ever of any hope for an united Ireland," Mr. Lloyd George declared. He believed that in a few more years the "wise and statesmanlike policy" of William T. Cosgrave, Free State leader for the past 10 years, would have produced a genuine desire for union between north and south.

Sincere British Effort

The annuities question, Mr. Lloyd George said, furnished an instance

CRAZED MOTHER TRIES SUICIDE

Turns on Gas Jets, Then Leaps Off Roof With Baby in Arms.

BOTH IN HOSPITAL.

TORONTO, April 13 (C.P.)—Mrs. Corinne Chapman, 29., to-day attempted to end her own life, that of her 6-months-old baby, and her mother and sister, according to the police Mrs. Chapman, before the family had arisen, is alleged to have walked into the kitchen of her flat and turned on all the gas jets, then, with her baby in her arms, climbed to the roof of the house and jumped off. She was found lying in the snow, and is now in hospital terribly injured. The baby escaped serious harm.

Her father, A. H. Taylor and her 6-year-old son were out of the house at the time.

The mother, Mrs. A. H. Taylor, and Mrs. Chapman's sister were awakened by the smell of gas and turned off the jets as the police arrived. Neither was affected by the fumes.

OFFICERS NAB NEW YORKER AFTER LETTERS TO LINDBERGH GIVEN NIGHT TICKET AGENT

Prisoner Claims Notes Merely His Idea as to Baby's Whereabouts.

REMANDED FOR WEEK.

Canadian Ports Asked to Watch for Fleischer, Leader of Purple Gang.

ST. THOMAS, April 13.—(CP)—A man claiming to be D. D. Dickerson, of New York City, was arrested here today in connection with the Lindbergh kidnapping. According to the police the man carried letters addressed to Col. Lindbergh and to Mrs. Dwight Morrow, together with carbon copies of telegrams believed to have been sent to Col. Lindbergh.

Five letters had been left with the night ticket agent at the Michigan Central Railway station. The letters were left with instructions that they be posted by trainmen at the ends of the division. The agent noticed the addresses and called the police, Sergeant Joseph McCulley placing Dickerson under arrest at a local hotel.

In a letter found in the hotel, the suggestion is made that Col. Lindbergh refer "to his file, which will reveal my humble thought on a course to pursue which might assist you in locating your precious possession."

Explanations

In police court to-day, the man offered explanations, stating he had conceived ideas about locating the kidnapped child and was merely trying to communicate these ideas to Col. Lindbergh and others. He had discussed the kidnapping with a party of men in Detroit, he said, and advanced his ideas about locating the child. As a result of the conversation, the letters were written.

The Crown asked that he be remanded for a week while police investigate, and Dickerson's fingerprints and photograph are being sent to criminal departments at Ottawa and Washington. Detroit police are also being asked to investigate.

The letters were addressed to Lowell Thomas, in care of a broadcasting company; Mrs. Dwight Morrow; Col. Lindbergh, and Mrs. Evangeline Lindbergh, mother of the Colonel. Permission is being sought from the Postoffice Department and from Col. Lindbergh to open the letters.

New Developments

HOPEWELL, N.J., April 13.—Developments in the search for the Lindbergh baby developed at two

(Turn to page 5)

MARKET PROBE LEARNS LITTLE

Senate Committee Dissatisfied With Progress in Questioning Whitney.

HOOVER BACKS INQUIRY.

WASHINGTON, April 13 (C.P.).—Obviously dissatisfied with the small headway made in questioning Richard Whitney, New York Stock Exchange president, the U.S. Senate's Banking Committee is determined to get to the bottom of the influences to blame for the falling market.

President Hoover, whose influence has been back of the investigation from the start, wants the whole question thoroughly aired. There are intimations that all of the information back of the administration charge that bear raiding had knocked down security prices has not yet been divulged.

Chairman Norbeck (R., S.D.) was called to the White House yesterday after the committee wound up with Whitney. Refusing to discuss the conference with the President he nevertheless announced his group would plumb the depths of the bear raiding charge, which Whitney has steadfastly denied.

The committee will get together again on Thursday. Before that resumption it will have in hand the data on status of short accounts at the close of business April 8, the Friday on which a sudden decision was taken to summon Whitney. He was subpoenaed to present this information last Monday, but testified it was not available at that time.

The Lone Voter

CHICAGO, Apjril 13—Of all voters in the Middle West yesterday, there was one who had everything his own way.

He was Julian Dojmoeich, the only legal voter in the 15th precinct of the Township of Worth on Chicago's far south side.

Dojmoeich acted as his own clerk and judge of election, made out his ballot in his home, which was designated as the polling place, and then solemnly reported to election commissioners the outcome of the struggle in the good old 15th precinct.

Dojmoeich is a truck farmer and the reason no one else could vote was because his wife is not naturalized and most of the territory in the precinct is occupied by cemeteries.

DRASTIC ACTION IS PRESCRIBED BY FARM LEADER

Robert Gardiner Advocates Taxing Into Circulation Canadian Savings.

CONSCRIPT BIG INCOMES.

Conservative Member for Royal Tenders His Resignation to Speaker.

OTTAWA, April 13 (C.P.). — An income of $20,000 or $25,000 is sufficient for any Canadian, and anything above that figure should be conscripted by the State, the House of Commons was advised yesterday by Robert Gardiner, leader of the United Farmers. As a prelude to the introducton of a sub-amendment to the budget, he suggested limiting the practice of usury and taxing into circulation the vast total of Canadian savings.

Advocating nationalization of credit and currency, the Gardiner sub-amendment said this step was a necessary prerequisite to the return of prosperity. Interest charges should be limited to the cost of the service and this could be done only under a state-controlled financial system, it was contended. Banks, the farm leader said, consider profits, not the best interest of the people or the country.

Put Savings In Circulation.

As long as savings remain in the banks, proceeded Mr. Gardiner, there can be no improvement in general conditions. He suggested that the Government take drastic steps to drive these funds into circulation, and added: If I were Minister of Finance for a day, just long enough to present a budget to this House, I would say to the rich men of this country: 'I will permit you to have an income of $20,000 or $25,000 a year,' but above that sum, I would take ninety-nine per cent.

To a surprised House of Commons, the Speaker early in the day read the formal resignation of George B. Jones, Conservative member for Royal, New Brunswick. Considering himself guilty at least technically, of a breach of the laws governing the independence of Members of Parliament, the former Minister of Labor resigned his seat. In an accompanying letter, it was explained that Jones Brothers of Apohoqui, N.B., a firm in which the former minister is a partner, furnished relief supplies for destitue Indians on the order of the Indian Medical Director. The firm is not operated by him personally.

Mr. Jones will seek vindication for his actions at the polls, and writs for the eelction probably will be issued shortly. Peter Veniot, former Postmaster-General alluded to the trading by Jones Brothers when speaking in the House late last month.

Floods Still Menace Villages In Quebec

QUEBEC, April 13.—Flood waters failed to subside to-day in rural Quebec and some apprehension was felt in villages and towns as ice jams formed in the Chaudiere and Duchene rivers. The water threatened to roll down dwellings like a tidal wave if the ice were to give way.

Beauceville was reported still under water with rubbish floating about the streets. Villagers paddled up and down their streets in canoes and rowboats.

Special Offer to Introduce These Paper Towels Into Your Kitchen

THOUSANDS of women are now using these soft, absorbent, sanitary paper towels instead of unsanitary linen towels that soil so quickly and have to be laundered. To introduce Onliwon Towels to still more women, a handsome Onliwon Cabinet . . . enamelled in colors of blue, green, buff or white . . . and three refills (375 paper towels altogether) are offered for only 98c. ¶Extra refills 25c. for 125 towels. Besides drying the hands and face, there are scores of other uses for these paper towels. Ask your dealer for further information about Onliwon Paper Towels and pay him 98c. for the introductory offer, or write

'JAFSIE' MAKES NEW EFFORTS TO CLOSE DEAL

Aged Teacher Responsible for First Ransom Payment Makes Mysterious Trip.

SCOTLAND YARD BUSY.

Mrs. Lindbergh is Rumored Critically Ill From Worry.

HOPEWELL, N.J., April 13. (CP) "Jafsie" says he is in touch with the kidnappers of the Lindbergh baby in a renewed effort to place the tot's arms around his mother's neck.

Back from a mysterious night journey, Dr. John F. Condon, aged educationist, indicated new negotiations are under way to get stolen Charles A. Lindbergh, Jr., from persons who took $50,000 ransom and then ran out on their promise to restore the baby.

A bid to reinforce his assurance to the kidnappers that they need fear no harm in negotiating with him was seen in a statement by the 72-year-old retired teacher as he stood, worn and sleepless, on his porch in the Bronx, New York city.

"I'm convinced I had contact with them," he said. "I have never identified them or said a word against them. My life would not be worth anything if I said anything against them."

In a renewal of the last of a series of newspaper advertisements signed "Jafsie" he reiterated:

"What is wrong? Hav you crossed me? Please, better directions.

Bills Seen in London

The Condon development competed for interest with reports from London that the ransom money has turned up there, and rumors, twice scouted, but persistent here and in Trenton, that Mrs. Charles A. Lindbergh is critically ill from worry.

In London The Daily Mail said Scotland Yard swung into action after learning some of the banknotes had been changed there. Detectives here began to puzzle over how they could have got there. The money was paid out about 7 p.m., April 2. The liner Scythia sailed from New York about 11 a.m., that day, touching at Boston, from which it departed April 3 for England. Investigators thought it conceivable that the money might have been speeded from New York to Boston, and taken aboard the boat.

State Police, taking cognisance again to-day of reports about Mrs. Lindbergh, said there had been no "perceptible change" in her condition in the last few weeks. Earlier they denied a report she had collapsed. Mrs. Lindbergh is expecting another child, and the reports had said New York physicians had been called.

Dr. Condon departed last night with a suitcase after he had spent a long time conferring with Col. Henry Breckenridge, who is Lindbergh's closest adviser.

Mysterious Woman

The Bronx Home News, community paper in which Dr. Condon first appealed to the kidnappers, published more details describing payment of ransom. Before it was paid, the paper said, a mysterious woman approached Dr. Condon in a rummage shop and said "Meet me in the depot at Tuckahoe, N.J., on Wednesday, at 5 p.m."

Dr. Condon kept the appointment, but the woman merely told him he would receive another message. Other messages came and on April 2 Col. Lindbergh and Dr. Condon drove to St. Raymond's Cemetery in the Bronx, where the doctor turned over a box containing $50,000 to a man behind a hedge. The man talked with a foreign accent, it was learned.

The Atlantic City Press said that on the date of the Tuckahoe meeting a strange motor yacht was seen proceeding from Great Egg Harbor up the Tuckahoe River. It was on a small yacht off Martha's Vineyard that the man who got the $50,000 said the baby would be found, the Bronx paper said.

Intra-Empire Trade Up To Business Men

NIAGARA FALLS, April 13 (C.P.). — W. L. McGregor, president of the Canadian Chamber of Commerce, to-day said business men of the British Empire have the development of intra-Empire trade in their own hands. Mr. McGregor, with fellow-officers, conferred here to-day with local business representatives developing plans to offer suggestions for the Ottawa Imperial Economic Conference next July.

Although some may have felt disappointment at the outcome of the Imperial Conference of 1930, he said, there was every reason to believe concrete results would be attained at the Ottawa meeting.

The unusual amount of preparatory work being done by Governments of nations participating in the Ottawa Conference, coupled with good feeling and mutual understanding arising from previous meetings, should do much to ensure success next July, Mr McGregor thought

ONTARIO GRAIN.

TORONTO, April 13. — Wheat, 52c to 54c; barley, 35c to 40c; oats, 25c to 27c; rye, 45c; buckwheat, 43c to 45c; corn, 36c.

Saskatchewans' output of 18,960,000 pounds of creamery butter in 1931, established a new record for the province.

Arrives Home to Find $60,000 Legacy

EVIDENCE WEB DRAWS TIGHTER

Mrs. Fortescue Sits Unmoved as Witnesses Give Details of Slaying.

NEIGHBORS TESTIFY.

(By William H. Ewing.)

HONOLULU, April 13.—A.P.) — Relying upon the eyes and ears of Mrs Granville Fortesceu's neighbors for the final phase of its case, the territory set out to-day to complete its web of circumstantial evidence against the society woman and three men of the U. S. Navy accused to lynching Joseph Kahahawai.

Three of the eleven remaining prosecution witnesses were called to tell what they saw and heard at the Fortescue home Jan. 8, the day Kahahawai was abducted and slain.

By a procession of witnesses, most of them police officers, the prosecution yesterday started its story from the point where the body was found to the darkened home of the accused woman, where the killing allegedly took place.

Mrs. Fortescue sat through the session apparently unmoved, occasionally she glanced at Clarence Darrow, leader of the defence, but most of the time she kept her gaze on the back of a chair immediately in front of her.

On to-day's list of prosecution witnesses was Mrs. Shisuko Yamamto, who lived next door to the Fortescue home. The prosecution expected her to tell how, while sitting alone, she saw Mrs. Fortescue pull down a window shade in the rear of the Fortescue home about 9.30 a.m.

Muffled Shot

Mrs. Helen Stickney, who was visiting her sister, Mrs. Anne Tarleton next door to the Fortescue home, was called to repeat her story previously told to Prosecutor John C. Kelley—that she heard what sounded like a muffled pistol shot.

Victoria Akana, a matron at the police station, was summoned to testify that she took from Mrs. Fortescue's person after the latter's arrest a strip of cloth apparently torn from a sheet. This strip fits the missing part of one of the sheets which was wrapped about Kahahawai's body.

A Japanese servant girl was also on the witness list. She previously told authorities that on the day before Kahahawai was killed, Mrs. Fortescue paid her wages and instructed her not to return until Saturday, the day after the lynching.

Officers told yesterday of the recovery of the lynching victim's body from an automobile containing three of the defendants, Mrs. Fortescue, Lieut. Thomas H. Massie and Edward J. Lord.

Percy Bond, a car patrolman, testified that when he said "good work, kid," to George Von Arnswald, who stopped the death car and arrested the trio, Lieut. Massie wheeled and said:

"Are you talking to me?"

Before he could reply, Bond said, Massie shook hands with himself and said "thank you very much."

DEMOCRATS DO HONOR TO THOMAS JEFFERSON

(By Ken Clark, C.P. Staff Writer)

WASHINGTON April 13.—Important Democrats arrived in Washington to-day to attend a dinner in honor of Thomas Jefferson, third President of the United States the man who wrote the constitution and the man who in lively post-revolutionary days upheld the rights of the States against the Federal authority.

In Jefferson's time there were no Democrats and no Republicans. But the gentleman from Virginia became a sort of adopted father to the Democratic party, because Democrats believed in preserving the sovereignty of the individual States, a principle for which Jefferson contended with Alexander Hamilton, the most famous Secretary of the Treasury.

Ashes Cover Grass; Cattle Starving

BUENOS AIRES, Apl. 13—(AP)—Starving livestock throughout a considerable area in Western Argentina where the grass is covered with volcanic ash today formed the chief problem remaining from the volcanic eruptions of the early part of the week.

Many ranchers were sending their cattle southward from the district around Malargue to save them from starvation.

The volcanic activity had entirely ceased. Provincial authorities arrived in Malargue, however, and were arranging to aid any sufferers.

MORE MOISTURE FOR INCUBATORS

Cafeteria for Chickens Latest Method of Feeding, Poultrymen Told.

WATCHING FEEDING.

A cafeteria for chickens is one of the interesting experiments being carried on at an agricultural school in Ontario, stated C. Tooke, of the Maple Leaf Milling Company, in addressing the regular monthly meeting last night of the local Poultry Association on the subject "Poultry Problems." In this cafeteria experiment 27 ingredients are laid out in separate containers for the hens and they partake of the foods as they desire it. These foods include all those that usually compose the highgrade prepared mashes, such as cod liver oil, fish meal, bone meal and so all down the line.

"So far it is shown that the hens are taking this food in just the proper proportions of the prepared foods," said Mr. Tooke, "even the cod liver oil is being taken. We believe that something very valuable may yet be learned from this experiment."

He explained that it had been learned recently that incubators required a higher percentage of moisture than was previously thought necessary, and that difficulties in hatching were mainly due to insufficient humidity. Sixty-five degrees of moisture at a temperature of between 103 degrees and 104 degrees was described as about right for best results.

In answer to a question, Mr Tooke stated that baby chicks could be fed too much and this over-feeding was the great cause of disease Five feedings a day of about 15 minutes duration was proper for the first three weeks, lengthening the time for feeding as the chickens became older.

Other problems confronting the poultry raiser were discussed by Mr Tooke. He said that hens selected for laying pens should always be the largest in the flock.

S. E. Moncrief, president of the association, presided at the meeting.

Omemee

Mrs. John Argue, of Parry Sound, is the guest of her brother, Mr. William Magee.

Mr. and Mrs. S. Mills and Mr. and Mrs. C. Mills motored to Millbrook on Friday.

Mr. J. Shaw, of Novar, attended the funeral of the late Miss M. Williams in the village last Thursday.

Mr. and Mrs. Sharpe and little daughter are the guests of the latter's parents, Mr. and Mrs. D. Weir.

Mr. and Mrs. William Stephenson visited Miss A. Stephenson in Peterborough on Saturday.

Messrs. William Robinson, George Newman and Charles Mills attended the funeral of the late Charles Richards at Millbrook on Friday.

Mr. William Rutherford was a visitor to Peterborough on Saturday.

Miss D. Deyell, with Betty and John, spent Saturday in Lindsay.

Mr. and Mrs. Merritt Bradburn and infant daughter, of Kingston, are the guests of the former's mother, Mrs. Bradburn.

The Rev. Claire, of Norham, has been called here owing to the illness of his father-in-law, Mr. Scott

Mrs. Shaw, of Lindsay, visited friends in the village on Saturday.

Mr. Victor Fee, of Toronto, visited friends in the village over the week-end.

The Rev. E. Rowland and Mrs. Rowland and Mrs. Musgrove, of Stirling, were the guests of Mrs. J. Eggleston on Friday.

Mr. Russell, of Lindsay, was a visitor here on Sunday.

Dr. and Mrs. Irwine, Mr. and Mrs. P. Nugent, Mr. and Mrs. F. Nugent, Mrs. Nugent, Mr. and Mrs. L. Mahood, of Lindsay, attended the Ridd-Nugent wedding on Friday.

ADVERTISE IN THE EXAMINER

ITALY FAVORS PLANS BY U. S.

Adds Battleships, Bombing Planes to Proposal to Abolish Tanks, Gas.

CUT EXPENSE BURDENS.

GENEVA, April 13. (AP). Foreign Minister Dino Grandi of Italy told the World Disarmament Conference to-day Italy welcomed the United States' proposal for abolition of tanks, heavy artillery and gas warfare.

He added to the plan a proposal to abolish battleships, aeroplane carriers and bombing aeroplanes.

Existing armament of this kind, he proposed, should be destroyed gradually. To do so, he said, would not only reduce the burden of expense on nations but increase security by reinforcing defensive ability.

The Brazilian delegation announced its support of the U.S. proposal, declaring it was the simplest and most practical approach to a solution of the disarmament problem and that it would serve to promote security and eliminate international suspicion.

GOLDEN JUBILEE

GUELPH.—Rev. Alfred E. Larue, S.J., one of the oldest and most widely known Jesuits in the Dominion, to-day celebrated his golden jubilee as a priest at St. Stanislaus Novitiate here. Rev. Fr. Larue has spent 65 years in religious life, and for a half a century has been a member of the Priesthood.

LITTLE RUSSIAN WHEAT IS SOLD BRITISH MARKET

Importations During March Totalled 10,227 Hundredweights of 112 Pounds Each.

CANADA BENEFITS.

(Canadian Press Cable)

LONDON, April 13. — Official trade returns reveal that Russian wheat has almost passed from the British market.

Wheat importations from Soviet Russia during the month of March totalled 10,227 hundredweights of 112 lbs. each, compared with a total of 1,981,908 hundredweights in March of 1931.

Canada, Australia and the Argentine all benefitted by this tremendous decline in Russian imports. Imports from Canada increased from 1,982,913 hundredweights in March, 1931, to 2,480,228 last month. Australian wheat increased from 2,638,694 to 3,599,757; Argentine wheat from 2,415,645 to 3,677,248.

In contrast, however, wheat imports from the United States dropped sharply. In March, 1931, imports from the United States totalled 437,549 hundredweights and last month totalled 174,743.

The figures yesterday revealed Canadian bacon, hams, cheese and salmon in the last three months.

In hundredweights of 112 pounds, the imports from Canada in the first three months of 1931 and the first three months of 1932, were as follows:

	1931	1932
Bacon	2,637	43,536
Hams	13,412	23,464
Cheese	3,279	19,892
Salmon	25,993	51,252

Norwood Register Is Believed Sold

(Examiner Correspondence)

NORWOOD, April 13.—Peterborough County's leading weekly newspaper, the Norwood Register, it is said, has changed hands. The Register has been published for many years by J. G. Keefer and Son Its new owner is said to be M Bailey of Smith's Falls, and the sale was completed but recently.

You Never Tasted more delicious Whole Wheat Biscuit

OUR guarantee printed on every package of Muffets is to refund the price of the package if you do not agree that Muffets is the finest whole wheat biscuit you have ever tasted.

All the nutlike flavour of toasted whole wheat is preserved for you by the Muffets exclusive and patented process. All the nourishing and energy-giving qualities as well. It is the only whole wheat biscuit which contains the sunshine Vitamin D, rarest of all the vitamins.

Economical . . . a Muffet costs about a cent. One is enough for a meal. Where else can you get such value in delicious food?

Serve Muffets in many ways, at any time of day. Have a box in the pantry always. Get them at any grocery store.

Snowball Fight Is Staged At Detroit

DETROIT, Mich., April 13.—Snowballs instead of baseballs were tossed about Navin Field yesterday as the Detroit Tigers and Cleveland Indians called off the scheduled American League opener here because of snow and cold weather.

With the mercury at 27 degrees above zero during the day, snow flurries covered the playing field with a winter blanket and small boys had a snowball fight where the Tigers and Indians had planned to play baseball.

Frank Navin, President of the Detroit club, said the opening game would be played to-day, providing the weather is favorable. The weatherman has not offered much hope, predicting cloudy skies and little change in temperature.

Campbellford Worker Is Severely Bruised

CAMPBELLFORD, April 13. (By Examiner Staff Correspondent). — Severe bruises of the stomach and shock were sustained by Mrs. F. Beaudion of Campbellford yesterday afternoon when the bobbin on loom she was operating in the Campbellford Cloth Company plant flew off and struck her in the body. Dr. F. B. Brintnell was called and ordered her removed to her home where it is expected that she will be confined for some days.

GRAF COMPLETES.

FRIEDRICHSHAFEN, Germany, —The Graf Zeppelin, German dirigible, landed here this morning at 8 o'clock, ending her second trip of the year to Pernambuco, Brazil.

Announcing the New

F·T·R '32 SERIES

featuring

SHORT-LONG WAVE RECEPTION

FULL TIME *Reliability*

AUTOMATIC VOLUME CONTROL

Super-Heterodyne circuit, 10 Marconi RVC Radiotrons including the famous Super-Control and Pentode . . . AUTOMATIC VOLUME CONTROL. Height, 41¼"; Width, 22¼"; Depth, 12⅜".

V·E·9·D·R

Canada's highest powered short wave station, built and equipped by Marconi to broaden the radio horizon of all Canada. Operated by Marconi in conjunction with Marconi Station CFCF, Montreal, VE9DR brings you radio's "Thrill Band", the world's short wave programmes.

Where radio must not fail, Marconi reigns supreme! Last year Marconi brought the Full Time Reliability of ocean radio to Canada's homes; gave them the marvels of Short-Long Wave reception. Now, these two dramatic features are incorporated as never before in the new and triumphant FTR (Full Time Reliability) '32 Series . . . with the added refinement and convenience of AUTOMATIC VOLUME CONTROL.

Two outstanding models are offered. The New International Short-Long Wave at $149.50 and The Console at $109.50 . . . both marvels of engineering exactitude and cabinet beauty . . . receivers that anticipate improvements of the future . . . receivers that you can buy unhesitatingly because they are BUILT FOR THE FUTURE.

Now on display at all Marconi dealers.

TWO POPULAR RADIO MODELS

C.G.E. Makes Two of Most Interesting Sets on the Market.

HANDSOME APPEARANCE.

Two of the most interesting radio sets on the market are the Canadian General Electric Popular Console and the General Electric De Luxe Lowboy. The public has formed the habit of "believing its own ears," and the popularity of these two C.G.E. sets is based on their performance as well as their handsome appearance.

The Popular Console (Model K-62) offers high qaulity superheterodyne performance in the popular price range, and it has the latest advantages of General Electric engineering supremacy, including new type automatic volume control, which reduces objectionable static and noise in changing stations, and brings in all stations on the dial at the same volume. The power switch and tone control knob are combined in one unit. In addition to external phonograph terminals, it is equipped with two tone chambers which counteract natural cabinet resonance.

The De Luxe Lowboy (H-32) contains a number of improvements, both in cabinet and chassis design Tone quality is one of its strong points. Along with its ten tubes, it has the same type automatic volume control as the popular console. Two Pentode tubes in push-pull audio bring out the high frequency tones and practically double the output of two No. 245 tubes. The speaker is the standard dynamic type. The chassis is double shielded in steel on all sides, and pickup of nearby interference, such as vacuum cleaner, fan, or other motor noises, is eliminated if shielded lead-in wire is used. The shield protects the chassis from harm, makes it dust-proof, and eliminates the possibility of shocks, thereby making it safe for children.

PROVINCIAL W.M.S. TO MEET IN CITY

Annual Meeting of Presbyterian W.M.S. to be Held in St. Paul's.

The eighteenth annual meeting of the Ontario Provincial Women's Missionary Society of the Presbyterian Church in Canada will be held in St. Paul's Presbyterian Church, Peterborough, from April 19 to 21. About 250 delegates, representing 24 Presbyterials and 1,207 Auxiliaries and Junior organizations, are expected to arrive on Monday evening, going to the church for registration and billeting. A round table conference will be held by the members of the Provincial Board at 4 p.m. on Monday, and a meeting of the Board of Management and Presbyterial corresponding secretaries at 7 p.m.

The first open session will begin at 9.30 a.m., on Tuesday, April 19, with the president, Mrs. W. A. McLennan, Toronto, presiding. The women of St. Paul's Auxiliary, with Mrs. W. R. Turner as president, and of Peterborough Presbyterial, under the general convenorship of Mrs. H. W. Morgan, have arranged for the convenience and entertainment of the delegates. Other convenors are: Mrs. F. H Rowan, billeting; Mrs. D. Ewart, president of Peterborough Presbyterial, reception; Mrs. M. B. Chenhall, music; Mrs. E. F. Mason, information; Mrs. E. E. Cox, publicity; Mrs. C. H. Thorburn, Ottawa, railways; Mrs. C. J. Roy, registration; Miss Nina Davidson, post office; Mrs. D. Jordan, telephone; Mrs. S Taylor, baggage; Mrs. W. N. McDougall, literature; Mrs. J. A. McNabb, trains; C.G.I.T. and Y.W.A. Girls, ushers.

All are welcome at these sessions. The Tuesday evening meeting will be devoted to the Mission Bands, Girls' organizations, and the Young Women's Auxiliaries, and on Wednesday evening, Rev. Dr. C. Stuart Parker, Toronto, will be the speaker.

The congregation of the church in which the meetings will take place will celebrate its centenary in 1935. In this near-century of existence, the charge has had only five ministers, including the present incumbent, Rev. A. T. Barr, Ph.D., who was inducted on December 30 1931. Every branch of the church's activities gives evidence of spiritual growth and a high degree of efficiency. It has always been a missionary church, for many years supporting a missionary in the foreign field. At present, Rev. W. G. Davis and Mrs. Davis, in Manchuria, are maintained by the congregation. The present edifice was erected in 1859.

NICHOLAS HEADS FOR PARIS

BUCHAREST.—Prince Nicholas, who has refused to renounce his morganatic wife at the demand of his brother, the King, left to-day by automobile for Paris. It was announced yesterday that he had been given a year's furlough abroad.

QUALITY PRINTING
Prices Reasonable

Madoc

Misses Helen and Kathleen Ludbrook of Peterborough have returned home after spending some days with their grandmother, Mrs. R. C. Fair, who is seriously ill.

Messrs. Arthur and William Parks started their season's sawing of logs last Saturday, April 9th. They are located just north of the village near Deer Creek on the Eldorado road.

Several of our young people attended the dance at Marmora on Thursday evening.

Mrs. and Miss Firman of Vancouver are guests of Mrs. Charles Hart over the week-end. They were called to Toronto owing to the illness and death of Mrs. Firman's father, Mr. Jack Mawson, and are now visiting friends in Madoc and vicinity.

Messrs. Wm. and Harry Kellar are erecting a residence on the vacant lot nearly opposite the public school.

Mr. and Mrs. Jones Jarvis of the Tweed road are both seriously ill, and the family have been called home to be with them.

Roslin

Miss Ena Kerr spent the week-end with Miss Isobel Free of Thomasburg.

Mrs. Wilfred Clapp of Carmel visited her parents, Mr. and Mrs. Oscar Carney on Sunday.

Mr. Melroy Horton has returned home after spending a week at the home of Mr. Gilroy of Carmel.

Miss Eileen Craig spent Sunday with Miss Velma Chapman.

Mr. George Emerson visited Mr. and Mrs. William Kerr of Thomasburg on Sunday.

Mr. and Mrs. Earl Morgan of Foxboro visited his father, Mr. Royal Morgan and Mr. and Mrs. Russell Morgan on Sunday.

Mr. and Mrs. Simon Robinson and family visited Mr. and Mrs. James Vance on Sunday.

Mr. Russel Elmy spent Sunday at the home of Mr. O. Carney.

Mr. and Mrs. Grantley Burleigh were overnight guests at the home of Mr. Walter Harrison on Friday.

Mr. Grantley Burleigh spent Sunday with his father, Mr. Albert Burleigh.

Mrs. Albert Burleigh is spending a few days with Mrs. O. Carney.

KIDNEYS WEAK . . . DULL AND HEAVY

Hamilton, Ont. —"I have taken Dr. Pierce's Anuric Tablets and can highly recommend them as a stimulant diuretic," said W. H. Cole of 144 Catherine St., N. "My kidneys were in such a weakened condition that I had no control of them, my back bothered me and I felt dull and heavy. I took 'Anuric' and it was very helpful to me, strengthened my kidneys and caused them to function in a perfectly normal way."

WEDNESDAY, APRIL 13, 1932

WEEK-END EXCURSIONS.

The success of the Canadian Pacific Railway's bargain excursion from Toronto to Montreal last week-end will, it is hoped, lead to the inauguration of a series of such week-end trips to different points.

Three special trains, each of sixteen coaches, were required to accommodate the people who wanted to take advantage of the opportunity to visit Montreal offered by the exceptionally low rate.

Many people, outside of railway circles, have long felt that Canadian railways were losing a chance to make rail travel popular by arranging a good deal of special excursion business and that as a result of that failure have been missing considerable revenue.

The Border Cities Star points out that the railways have the equipment, that it is desirable to keep as many men as possible employed, and that even if they only break even on these events it is mighty good business at this time.

That would seem to sum up the general opinion, and it is to be hoped that the splendid patronage accorded the initial experiment will lead to the staging of a number of excursions that will give Canadians a chance to see more of their own country and at the same time will teach them the habit of travelling by rail—something that motor transport has been threatening to destroy.

SAVE THE ROADS.

Country roads in this section of the Province are reported to be in an almost impassable condition, and urban motorists who have no particular business to call them out to the rural highways would do well to confine their driving until further notice to the paved roads and streets.

Those who are merely motoring for pleasure most certainly should keep off the soft roads, both for their own benefit and to avoid the damage that traffic at this time is sure to cause.

If travel over these roads is not cut down to a minimum under conditions improve the municipalities are likely to have a staggering repair bill as a result of the havoc that motor vehicles cannot fail to create.

This warning, usually sounded at this time, should have special potency this year, for it is agreed that dirt roads in this district have seldom been in worse shape than they are at present.

You can save gasoline, the roads, repair bills, towing charges and your temper by doing your motoring for the next week or two on the paved thoroughfares, and any motorist who has no need to use the county roads should most certainly be called upon to pay part of the cost resulting out of the damage he causes if he persists in driving over dirt roads until they are in condition to stand traffic.

ENCOURAGING THE FARMER.

Meetings such as that staged by the Peterborough Rotary Club on Monday when over two score well-known farmers sat down with the Rotarians at luncheon and heard a convincing address on farm problems by Dr. S. C. Archibald are commendable at all times, but when they come at a moment when the troubles of the farmer are sufficient to almost crush the spirit of the most enthusiastic and courageous tiller of the soil, they are indeed serving a most useful purpose.

The inter-dependence of the urban community upon the farmer is obvious, and it should be equally clear that if the city dweller can accomplish anything that will help the farmer he is at the same time helping himself.

There is every need for sympathetic consideration of farm problems at this time.

The farmers' income has been depleted by a great decline in the price of every product he has to sell; at the same time the price of what he has to buy has not dropped in proportion, and his tax bills are greater than ever.

Even if he has a clear title to his farm, he is having a terrific struggle to keep going, and the position of the unfortunate neighbor who has to pay off a mortgage can well be appreciated.

Under such conditions it is well that our fellow-Canadians in the country should not be given cause to feel that they have been deserted in their hour of need, and that urban communities are indifferent to their difficulties? such gatherings as that of Monday will do much to indicate that the man in the city, who has his own troubles in a period like this, is sympathetic toward the man on the farm and is anxious to help him if he can find an effective way.

PLAY BALL!

Depressions may come and depressions may go, but sporting events apparently go on forever.

There are millions of unemployed in the United States, banks are failing, cities are going bankrupt and conditions generally in business and industry are at a low ebb, but none of these distressful circumstances interfered in the least with the opening of the major baseball leagues' season yesterday.

There were the usual crowded parks, the blare of band music, the customary ceremonies and all the color and noise invariably associated with such occasions, and the spectre of old man slump was chased right out of the picture as the fans cheered their favorites, "razzed" the umpires and gave themselves over to the thrill of the great diamond pastime.

It is just as well that interest in sport should wax strong in a period of depression, for there is no better safety-valve; enthusiasm over soccer and cricket and horse racing has helped the British people through many dark days, and our American cousins, who have inherited the Anglo-Saxon love for athletic contests, will be all the better for the fact that the "big leagues" are under way again and the thud of the bat against the ball is to be heard in all parts of the land.

Interest in baseball, of course, is not confined to the United States; it sweeps over the border and is almost as intense among our own people as it is with Americans.

DOGS THAT HOWL AT NIGHT.

Numerous complaints have been made in St. Thomas, from time to time, about the unchecked howling of dogs, principally late at night and early in the morning. So far no by-law has been passed or any definite steps taken to quell this disturbance which plays havoc with insomnia victims.

Perhaps sufferers may eventually have to depart to Arcadia in California, where it was reported recently that sylvan Arcadia's dog ordinance was given the acid test and upheld in toto, with the result that a dog in that district is just plain out of luck.

Arcadia is a peaceful community near Los Angeles, claimed to be as quiet as a tomb on a summer afternoon. Many ordinances have been passed to eliminate sound. No hogs dare "chirp," no roosters "bray," no fowls or rabbits "yodel," no ducks "repercuss" the aid and no dogs "neigh."

When Frank P. Miller, owner of a dog kennel, appealed his conviction in court at San Francisco it was revealed that a dog barking is more noisy than a beaten drum. It was ordered that his animals must be kept quiet.

And there are many St. Thomas people who would like to see a similar order issued in the Flower City.—St. Thomas Times-Journal.

THE WHITE COLLAR REBELLION.

Down on the Vancouver waterfront there is, let us say, a man named Jones employed as a checker. He works for $75 a month. Next to him is a unionized railway employee who is getting $120 a month for the same work.

Living next door to Jones is a neighbor who a few years ago had $5,000 left to him by a relative. A couple of years ago, this neighbor got five per cent. interest on this money. To-day he gets six or even seven per cent. interest and one dollar of that interest will buy to-day almost twice as much goods as it did five years ago.

What are the feelings of Jones who comes daily into contact with these other two men? How can he compete with and maintain his standard of living to compare with the fellow-worker on the one hand who is held up by union organization and with the neighbor on the other hand who is held by up by the inflated wages of money?

There are thousands upon thousands of white collar workers who are in the same position as Jones. They are ground, even in a small way, between the demand of labor and the profits of capital. For it is Jones and his kind who must pay eventually for the extra wage the unionized worker is getting and for the extra wage the neighbor is getting for his inherited money.

All over Canada and United States the situation is the same. The great middle class of white collar workers in offices, stores and factories is the backbone of society, the big taxpaying class and the big purchasing class.

And it is the class that stands as a buffer between organized labor and organized capital.

It is the white collar middle-class worker whose grievances have raised Adolf Hitler to great influence to Germany. It is the white collar middle-class worker who is paying the piper in Canada.

What can be done for HIM?—Vancouver Sun.

BUSINESS SHOULD LOOK UP.

An almost unanimously favorable reaction to the budget is a wholesome and encouraging sign. It is testimony that the country stands ready to face up to realities, to recognize facts, and to maintain, at all hazards, the Dominion's credit.

No one need conclude that we are already out of the woods. Also, it should be understood clearly that the Government is going to require a lot more money than the $55,000,000 it hopes to get by its new taxes. That sum will be ample to balance the budget or ordinary account; it will be far from enough to take care of capital expenditures and special expenditures. The Government will need millions for unemployment relief, more millions for the Canadian National, millions (unless the policy is dropped) for the wheat bonus. All this will have to be raised by a new loan.

Nevertheless, the financial position as disclosed by Mr. Rhodes, is by no means a hopeless one. Provision is made for the balancing of the budget; we are going on to meet all of our external obligations; and the new taxation is not beyond our capacity.

In the circumstances, and having set our house in order, things cannot but improve. Before Wednesday Canadian business was nervous, fearful of high taxes, uncertain about the future. It now knows that it is in as good a position as its external competitors, and that the creation of a new spirit of public confidence is bound to bring improvement.

Canada, in truth, has every reason to be thankful, even more reason to be confident. It is balancing its trade, balancing its budget, paying its way, meeting its foreign obligations; weathering the storm. We have unemployment, but no more than other countries. We have much to hope for from the coming Economic Conference. And we have great resources. With the right heart and spirit and co-operation no reason exists why we shouldn't soon strike our tents on a new prosperity march.—Ottawa Journal.

EDITORIAL NOTES AND COMMENT.

So far the debate has developed the fact that the Liberal opposition doesn't like the budget and Government members think that it is all right.

The less driving motorists attempt to do on country roads these days the better it will be both for the roads and for the motorists.

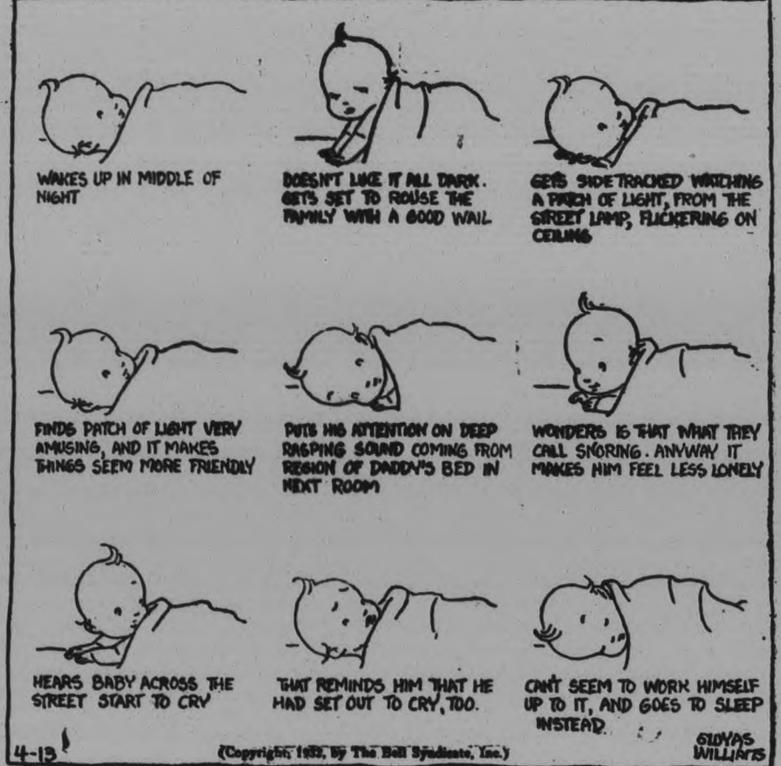
Another exchange of notes on the Irish situation has left both Britain and Ireland in exactly the same position as when the controversy arose.

Apparently there is to be no further investigation into the $125,000 payment to John Aird, Jr. The voters will likely have the last word in regard to that transaction.

A British cruiser is now stationed at St. John's, Newfoundland, which would seem to indicate that rioting in that city will not be a healthy pastime from now on.

THE NIGHT WATCH

By GLUYAS WILLIAMS



'N DAYS GONE BY

Items Taken From Old Fyles of The Examiner.

APRIL 13, 1922

A. Mesley, local machinist, was asphyxiated at the gas plant yesterday while repairing a valve.... April building permits are likely to set a new high monthly record, with permits totalling in value $30,444 issued so far this month.

APRIL 13, 1912

Residents of Smith, about two miles from the city, are tunnelling through snow-blocked roads, with the snow being seven to ten feet deep on level stretches.... Work was begun this morning on the new stores building at the C.G.E. plant here.

APRIL 13, 1902

The steamer Water Lily arrived in port this morning on her first trip of the year, with quite a few passengers aboard.... J. P. Whitney, leader of the Opposition, was in town yesterday, stopping at the Oriental Hotel where a number of local Conservatives visited him.

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office by 5 p.m. on the day before insertion. All letters must be signed by the writer although a pen name may be used when inserting non-controversial subject matter.

TOURIST TRAFFIC AND QUEBEC LIQUOR

To Editor The Examiner,

Dear Sir,—A communication from Mr. Geo. H. O'Neil, Vice-president of United Hotel Systems, has appeared in the press in reply to my letter re tourist traffic and the attraction of Quebec beer.

Mr. O'Neil furnishes no exact data on the destination of tourists. It is simply a general statement of opinion backing up that of Mr. R. Home Smith. Mr. O'Neil, by reason of his position, may be in a position to know something in a general way about our tourist traffic, but he is not by any means a disinterested witness. He calls the official figures of cars entering the two provinces a joke, but he discreetly ignores mention of the estimates of tourist expenditures in the two provinces, published by the Bureau of Statistics, a disinterested authority, and of the decline in these receipts in Quebec and British Columbia in 1929 while they were still rising in Ontario. This omission is perhaps the joker in Mr. O'Neil's letter.

There is, however, on record a survey of tourist traffic which though limited presents some exact data on the problem. The Chamber of Commerce of the Border Cities in 1929 established two bureaus upon main highways some distance out of Detroit where the bulk of the traffic from the whole West and South passed. Eight supplementary bureaus to act as feeders to the main bureaus were also established reaching back 150 miles. These bureaus were manned by University undergraduates thoroughly qualified by training and by special study of the immediate undertaking. The check-up covered outstate cars, omitting Michigan and Canadian cars. The questionnaire sought to elicit the viewpoint and desires of the tourists. The survey covered the months of July, August and September, 1929.

The following statements of the destination of tourists ascertained in this careful and authoritative survey throws light on the matter under discussion. Of the tourists who entered Ontario via Detroit, the destination was as follows:—

Niagara Falls	29%
Toronto	12
Border Cities	8
Other old Ontario points	18
Northern Ontario	12
Province of Quebec	19
Maritimes	2

Quebec with its scenic attractions and the frequent routing of trips North of the lakes one way and South of the lakes on return, and the importance of the great city of Montreal would be expected to attract considerable traffic. The fact, however, that 79% of the tourists interviewed were destined for Ontario and only 19% for Quebec is not at all convincing as to the compelling appeal of the Quebec beer system to the American tourist.

A. J. Irwin,
Toronto.

In Lighter Vein

Understood.

Smith assured his wife he could repair the broken window. He took the measurements and went to buy the glass.

"Quite a simple job," the hardware clerk told him. "You simply pull out the old glass, fit in the new, fill in the putty, and there you are."

Shortly after Smith returned to the shop.

"Same size again, I suppose?" the clerk greeted him.—Tit-Bits.

Romance.

"So Edith has caught that young fellow who rescued her while skating. He seemed awfully shy."

"Yes; she had to break the ice."—Montreal Star.

Powerful

"Sure these field glasses are of a high power?" asked the shopper.

"Quite certain, sir. When you use them, anything less than 16 miles aways looks as though it were behind you."—Pearson's.

Make Believe.

Mother: "Eat your spinach, dear."

Son: "Aw, Ma, I don't like spinach."

Mother: "Just make believe you like it, dear."

Son: "I'd rather make believe I'm eatin' it."—Pathfinder.

THE MARKETS

TORONTO PRODUCE.

TORONTO, April 13.—Very small quantities of creamery solids were moved on the local butter market yesterday, and prices dropped once again. Wholesalers followed the reduction by lowering their prices on prints to 24c for No. 1 and 23c fc. No. 2, with some poor quality No. 3 at 22c per pound. Sales of solids were made on a basis of 19½c to 20c for No. 1 and 18½c to 19c for No. 2.

Cream.

Cream prices were steady at the decline reported on Monday. Local buyers offered 21c to 22c for special, 20c to 21c for No. 1, and 17c to 18c, for No. 2, f.o.b. country points.

Cheese.

Cheese was steady yesterday, new makes being quoted at 10¼c for large, 10½c for twins, and 10¾c for triplets. Wholesalers offered new makes to the trade at 12c for large, 12¼c for twins, 12½c for triplets, and 14½c for stiltons.

Eggs.

The egg market was stronger, a good demand and limited supplies allowing brokers another ½c per dozen on some sales. Brokers' prices were steady to firmer at 17c to 17½c on extras, 15c to 15½c on firsts, and 13½c to 14c o. seconds, graded and in free cases. Western eggs, storage packed, were quoted at 18½c to 19c, delivered, Toronto. Country shippers were quoted steady prices at 14c to 15c for extras, 12c to 13c for firsts, and 10c for seconds, delivered, ungraded, cases returned. Retailers were quoted supplies at unchanged levels of 20c to 21c for extras in cartons, 18c to 19c for extras loose, 16c to 17c for firsts loose, and 15c for seconds loose.

CHICAGO GRAIN.

CHICAGO, April 13.—In a fresh burst of strength, wheat prices yesterday outdid high-price records as far back as February 26 last.

Kansas and Nebraska crop reports yesterday were more bullish than at any time heretofore this season. Field advices from the South Central part of Kansas in particular contrasted sensationally with the fact that up to April 1 the region referred to had the best crop prospect in the State. Nebraska's official statistician predicted abandonment of wheat acreage would be the largest since 1917.

Wheat Rises 1c-1½c.

Wheat closed nervous, 1c-1½c above Monday's finish; corn, ¼c-⅝c advanced; oats, ⅛c-¼c up, and provisions unchanged to 7c down.

MONTREAL PRODUCE

MONTREAL, April 13. — Having lost 11 cents per pound in the past few weeks, butter turned upward today and was the feature of the produce and dairy market here. Egg, cheese and potato quotations all remained firm.

With butter stocks in cold storage throughout Canada on April 1 showing a considerable reduction from the corresponding period of last year, as announced from Ottawa, and better inquiry also reported. No. 1 fresh and regraded butter, in broken lots, gained half a cent at 17½c to 18½c a pound. Solids at 21 cents, and prints at 22 cents a pound were quoted steady to retailers. Receipts were 1,356 boxes.

Fresh Ontario or Prairie graded extras, in carlots or less, were unchanged at 19 cents as were firsts at 17 cents, and seconds at 15 cents a dozen. Quotations to retailers were firm and receipts totalled 2,659 cases.

Current cheese held steady at 10½ to 11 cents as did summer make at 12 to 12½ cents a pound. Receipts were 19 boxes.

On the potato market new No. 1 Floridas were quoted at $8.50 to $9 a barrel, with No. 2 brand at $7. Old potatoes were unchanged, quotations of broken lots per 80-pound bag being 30 to 40 cents for Quebec whites and 45 to 50 cents for Quebec and New Brunswick Green Mountains. Carlot prices were ten

WINNIPEG GRAIN.

WINNIPEG, April 13. — Late-session buying in a market already quickened by adverse drought conditions in the south-west States and an awakened export movement further accelerated the upward swing of prices in the grain pit yesterday. Values at the close revealed gains of 1 to 1¼ cents above Monday's closing level.

May advanced one cent to 65 cents; July, 1 to 1¼ cents at 66⅞ to 67 cents; and October gained an even cent to close at 69½ cents.

Export trade worked overnight was estimated at 500,000 bushels.

Pit Operations Active.

Pit operations were quite active and gains of ⅝ cent were registered early in the session. A slight reverse was encountered at mid-session when a dip in values at Chicago edged prices down somewhat from the high points. Eventually the market resumed its upward swing to touch the high points in the last few minutes.

Broomhall confirmed an enlarged demand for foreign wheat. It was stated that Europe had bought large quantities of unsold Argentina wheat at ports of call and this tended to lift much pressure off the market abroad. A shortage of wheat for seeding was reported from Russia.

Cash wheat and coarse grain inquiry was light with prices generally unchanged.

Futures:

MARMORA.

Mr. Joshua Bailey is renewing acquaintances in town.

Mr. Matthew O'Connor is quite ill.

Mr. and Mrs. Kilpatrick visited relatives at Bannockburn last week end.

A number of local hockey fans witnessed the Leafs-Rangers game at Toronto on Saturday night.

Mr. A. Frost was called to Warkworth on Monday afternoon owing to the critical illness of his young daughter, Margaret.

DISTRICT NURSE

by Faith Baldwin

(Continued From Yesterday)

INSTALMENT 24

Ellen had taken off her hat and coat in the bedroom and now, in the dark dress, her face blossoming up, purely as a flower very white, her hair loose about her temples, the heavy knot of gold close to the nape of her slender neck, she had never looked so tired, so defeated—nor so lovely, somehow—"I didn't want to. I couldn't at first. But the name, the address. Everything. He—had shown her his card," she said, "and she'd called your office and been told you didn't know her."

"So that is the woman who called. Naturally, I didn't know her."

He rose; he looked down at her.

"I'll have him jailed, whoever he is," he said furiously, "but—all that doesn't matter. It's you, I tell you. You, to believe!"

"Frank," she said piteously, "what was I to think? It all fitted in, it was such clear evidence." He would understand that, she was speaking his own language now, she thought. She said, as no sign of pardon, no line of softening or understanding altered the hard young face, the almost unknown face at which she looked, "I knew nothing about you real, nothing—"

"Nothing? I'd told you everything," he said.

She said, "He—the man told her—he was married—separated from his wife—"

"And you believed that, too?"

He began to laugh. "Really, Ellen, it is funny. You believed that, too—"

She pushed her hands through her hair, held them to her aching, throbbing temples.

"Frank, I didn't know—I didn't know. You—he—could have lied to Gladys—as an excuse—or you could have lied to me." She was becoming more and more confused. "I mean, that's what I thought—then—"

"Lie to you? When I've been asking you to marry me, ever since practically—we first met."

"No—"

"Couldn't you guess—that much? If I didn't make speeches about it," he said angrily, "it was because you held me off. I know why. I know why now. It was, of course, O'Connor." He added, "I wish you joy of him."

She was on her feet now. "Jim—?"

What right had he—? It was like him, she thought, like a lawyer to twist things, turn them, put you in the wrong. She had been ready to ask his pardon, on her knees, beg for it, weep out her relief against his breast. But he didn't want it, the apology, or the other—he was looking at her as if he hated her—

"Yes, Jim—it—it may please you to know I've something of a line on Jim, I—"

Gladys was calling her from the bedroom. Ellen said, "I don't want to hear. It isn't important—"

"Of course you don't. Get that girl in here and let me talk to her," he ordered.

"Not in that tone. She—it wasn't her fault she came here," said Ellen bravely, "and its' not necessary to put her on the witness stand. She's been through enough."

"Why not? Don't you think I've had some interest in knowing who's been using my name?" he demanded.

Ellen went without a word into the bedroom. Gladys assured her she was all right. Presently they came back together, Gladys with the utmost reluctance.

But he was gentle enough with her, brief, too, business-like. He settled her in a chair, ignored Ellen, asked his patient questions. But Gladys could tell him only what Ellen knew; where she had met the man calling himself Frank Bartlett; the places they had gone together; obscure restaurants, speakeasies. He'd always had money or seemed to have. He'd given her presents, oh, stockings, perfume, nothing valuable. Yes, she could describe him. "Older than you, Mr. Bartlett, short and thick-set. His hair's getting gray, a little. He has blue eyes."

No, there was nothing more to tell. Gladys stammered, "I'm so sorry—I thought—she thought—"

"I know," said Bartlett. His glance at Ellen said, I know what you thought. It was an ugly glance, on the surface. Too ugly for her to see the wound, the pain. Innocence wears a less convincing face than guilt, even acknowledged innocence.

Gladys said, "We'll go now." She added quaintly, "I'm sorry we give you this trouble, Mr. Bartlett. Me passing out and all. Only, I was so sure, see? And then you come in. And I'd never laid eyes on you before—"

Ellen said, "I'll get our things and we'll go." She left them together for a moment. When she came back carrying the things, Gladys was saying, "No, please, I can't take it, she—she'll help me—I've got a place to go."

Bartlett pushed the bills back in his pocket. He took them to the door. There was not time, no moment alone, no speech between them, except for Ellen's faint, "Frank, I'm so sorry—"

But he did not answer.

Going back in the taxi she held Gladys close; the girl was shaking with sobs. She was saying, pitifully, "What I mind most—lying like that—saying he was a gentleman—a big shot, somewhere—and not being—not like him, he's the real thing—"

Suddenly something broke in upon her bewildered mind. She controlled herself, sat upright.

"You didn't know him, then, Mr. Bartlett? Well, I mean—I mean—you thought—" She looked at Ellen, astonished beyond adequate speech— "and you went to him—with me—"

Ellen said nothing. There was nothing to say.

"I didn't mean," said Gladys, "to get you into no trouble. I mean, if you and him—"

"There's nothing between me and him," said Ellen steadily. She knew she spoke the truth. Nothing. It was finished. Over and done with. He would never forgive her.

Listening, unhearing, to Gladys talk the rest of the way home, talk and speculate, resigned Ellen said, "Never mind. I'll find the other man for you. Don't worry. I'll find him. There must be a way."

There would be a way. It would-sh thought, help her now, even if it helped Gladys. Nothing would help her now.

But a wave of pure anger took her, shattered her. Why had he been so—implacable? Couldn't he see that she had had no other choice than to believe what she had believed? Men believed evidence, even circumstantial evidence. She remembered now all they had said of Dot Brown around the supper table that night. She had fancied herself deaf to their voices. Now it came back to her. Dan had left her because of something that had been evidence to him, because of something he had heard and had believed. Men were quick enough to believe.

But if a dream were over and a hope extinguished, life went on, resistlessly; and there was Gladys to think of and her immediate necessity.

Ellen took the girl home; went in with her. Mrs. Markey was waiting in the cluttered room—"And where have you been?" she began shrilly at Gladys, weariness dragging at her, opened the door. Then she saw Ellen.

Ellen was brief with the hostile woman. She explained only as much as was necessary. Gladys had come to her; together they had ascertained that the man had given, not his own name, but another's. There was nothing to do now but to look after Gladys. Ellen would do that—if Mrs. Markey would promise not to make any trouble. She put it to her practically and brusquely. She had no sympathy whatever with this sharp-eyed woman whose soiled palms so obviously itched; and she had a very shrewd suspicion that Mrs. Markey had not been deaf, dumb and blind in the beginning of the affair. At least she had made no apparent effort to interfere. Easy Street was Easy Street to her, and it apparently didn't matter to her how Gladys came to it, by what devious and heartbreaking, hidden paths or by what open highway.

Gladys said suddenly, "Never mind Ma." She shot a vindictive look at her mother. She added, "She isn't anyway—"

Mrs. Markey went an unattractive scarlet. "Haven't I tried to do my best by you?" she demanded. "haven't I slaved and worked and done for you as if you was my own?"

Gladys shrugged. Ellen looked from one to the other. Gladys was outspoken in her subsequent recital. Mrs. Markey was Markey's second wife, a cousin of Glady's mother. He had married the woman shortly after his wife's death in childbirth, in order to maintain his home and keep his child with him. Ellen thought, so that's it—I'm glad—

It made things a little easier for every one concerned. Gladys, of course, had no other woman. Mrs. Markey had never told, had sworn her husband not to tell, for, as she put it to him, the child's sake. At his death there had been a matter of some insurance, and a few possessions. Naturally, the mother would take it all, to provide for "their" daughter. It had been only during the last few months that Gladys, during a bitter quarrel, had been told the facts.

Ellen left presently and went home. Pete said, getting up from the table where he and Coral and Mrs. Adams were playing three-handed bridge, you look all in—I was just going, Ellen, we won't keep you any longer." He took her aside and asked anxiously, "What's up, anything I can do?" There was nothing, she told him, trying to smile.

Then she left, and after a while she got into the bed davenport and tried to think—of what she must do for Gladys; of—of—Frank.

There wasn't much sleep for her that night; too tired to sleep, she told herself; too unhappy, she knew.

Early the next morning she tried to write to Frank. She made several attempts, tore them up. If he really cared, she told herself, he would understand—would forgive her—would realize that in the face of evidence so overwhelming any woman would have doubted.

If he really cared, she would hear from him.

(To Be Continued)

Institute Presents Play At Wectwood

WESTWOOD, Apr. 13 (Examiner Correspondence) — The three-act comedy drama, entitled, "The Colonel's Maid," presented by Warsaw Women's Institute under the auspices of Westwood Women's Institute was well acted before a very enthusiastic audience. Owing to the condition of the roads the attendance was not as large as it otherwise would have been.

The players were well chosen for their respective parts and the play was humorous and entertaining. A pleasing solo by Mrs. Rufus Payne and a duet by Mr. and Mrs. Payne were well rendered between acts, the accompanist being Miss Jean Munro.

The cast was as follows: Colonel Rudd, Wallace Anderson; Robert Rudd, Jr., Eric Jackson; Colonel Byrd, Rufus Payne; Marjorie Byrd, Della Tucker; Mrs. J. J. Carroll, Mrs. George Weller; Julia Carroll, Mary Rose; Ned Graydon, Clarence Payne; Lawyer Baakon, Theodore Douglas; Ching-ah-Ling, Albert Bryan.

Bethany

Miss Dona Veale, nurse-in-training at St. Catharines, is the guest of her grandparents and other friends this week.

Miss Marion McKinnon, R. N., of Peterborough, who has been visiting with her parents, Mr. and Mrs. Jas. McKinnon, returned to the city on Monday evening.

Miss Violet White of Kinmount, is the guest of her cousins Mr. and Mrs. Cecil Argue, for a few days.

Mrs. McKinley has received word of the critical illness of her sister Mrs. Arthur Graham, of Fleetwood.

Mrs. L. Washington was at home to a number of her friends on Tuesday evening, when the evening was spent in playing cards. Mrs. Sid Armstrong was the winner of the first prize while Mrs. Arnott received the consolation award.

Mrs. W. A. Brown entertained a number of her friends on Thursday evening.

The ladies of the W.A. of St. Paul's Church have secured Mr. A. J. Perrin for a date the last week in April when he will stage that most historic play, "East Lynne."

Mr. William Porteous of Nestleton is the guest of Mrs. Charles Porteous.

Miss M. Thompson was a business visitor to Peterborough on Wednesday.

Mr. S. Murphy and Mr. James Hannah were business visitors to Peterborough on Wednesday.

Mr. John Wake, and Mr. Harry Reynolds were business visitors to Peterborough on Saturday.

The members of the Women's Institute met at the home of Mrs. Jamieson on Tuesday for their monthly meeting, with nine members present and the president in the chair. Several communications were read from the Department, one regarding tree planting. It was decided to adopt some other means of adding to the treasury other than selling ice cream owing to the great competition. Plans were left over regarding the supplies on hand and the disposition of same. Also business was to be arranged for the closing of the year prior to the annual meeting, to be held the first Tuesday in May in the Town Hall.

The members of the W. A. of St. Paul's Anglican Church met on Thursday afternoon at the home of Mrs. Charles Reynolds, with 16 members present and the president presiding. After the usual opening exercises the bale which has been in preparation was disussed and arrangements made to pack the same at the rectory on Tuesday next. The play sponsored by the Society will be held the last week in April. The director, A. J. Perrin of Lindsay, is well known here, and is bringing the cast for the play, "East Lynne," from Whitby. At the close of the meeting the hostess, assisted by her daughters, Mrs. Sid Armstrong, and Miss Reynold, served a delightful supper, which was enjoyed, followed by a social hour. Those present were Mrs. Fierheller, Mrs. Hamilton, Miss Preston, Mrs. Flack, Mrs. Hopwood, Miss Sisson, Mrs. Kennedy, Mrs. O. Porteous, Mrs. McKinnon, Mrs. Fallis, Mrs. P. W. Reynolds, Mrs. McCartney, Mrs. Medd, Mrs. Davis, Mrs. S. Armstrong and Mrs. Foster.

Mr. J. Hannah held an auction sale at his home south of the village on Friday afternoon.

Mr. William Lee is confined to his home through illness.

Mrs. Wiliam Davis left on Friday to visit her daughter, Mrs. Harry Rogers, of Lindsay.

DRAGGING CANAL FOR TWO YOUTHS

Lads Sink After Old Canoe Capsizes Near Henley Regatta Course.

THIRD IS RESCUED.

ST. CATHARINES, April 13 (C.P.)—Dragging operations are underway to-day to locate the bodies of Walter Essery, 10, and Reginald Maxwell, 13, both of St. Catharines who drowned late yesterday when their canoe capsized in the old Welland Canal. Etton White, 16, also a passenger in the canoe, was dragged to safety by two youths who braved the chilly waters to aid in the rescue.

Braving a miniature blizzard, the lads set out in the old canoe after school yesterday. Reaching the centre of the canal their craft sank and the youths were left floundering in the deep waters.

Isobel Ferguson, witnessed the sinking of the craft from the shore. Her cries sent her two brothers, Fred and George to the rescue. They hauled young White into their rowboat, but the other pair had already disappeared.

The double tragedy occurred near the Canadian Henley regatta course where Bobby Pearce, former Australian, now of Hamilton, trained to win the Diamond Sculls last year.

Livestock-Produce Quotations

TORONTO LIVE STOCK.

TORONTO, April 13 (C.P.). — Cattle receipts 680. Trade was active with prices a shade stronger on all grades. Good weighty steers sold at $5.50 to $6, and some choice heavies sold at $6.50. Good butcher cattle brought $4.50 to $5, with a few choice at $5.25 to $5.50. Good butcher cows ranged at $3.25 to $3.75. Butcher bulls brought $2.75 to $3.25.

Steers up to 1,050 lbs. Good and choice 5$-$5.25; medium, $4.50-$5; common, 4-$4.50; steers over 1,050 lbs., good and choice, $5.50-$6.50; medium, $5.25-$5.50; common $4.50-$5; heifers, good and choice, $5-$5.25; medium, $4.50-$5; common, $4-$4.50; fed calves, good and choice $6.50-$7; medium, $5-$6.25; cows, good, $3.25-$3.75; medium, $2.75-$3.25, common, $2.25-$2.75; canners and cutters, $1-$2. Eggs, extras, doz., 15c; firsts, doz., 13c. Cream, churning, No. 1, lb. 20c. Creamery butter, No. 1 solids, lb., 20. Potatoes, No. 1, in bags, 27 to 28c. Chickens, over 5 lbs., 16 to 17c. Hens, over 5 lbs., 14 to 15c. Young turkeys, 8 to 12 lbs., 19 to 20c.

SUPPORT the town that supports you BUY AT HOME

Miss Helen Stuart, Montgomery, Ala., society girl, who has been chosen by Governor B. M. Miller as cotton queen of Alabama to represent that state at the southern cotton festival in Anderson, S.C.

Market Closing On All Exchanges

STANDARD EXCHANGE

TORONTO, April 13 (C.P.)—Another half-dozen new lows for the year appeared on the Standard Stock and Mining Exchange Market to-day, with higher-priced gold shares still subjected to persistent liquidation.

Hollinger managed to regain 5 late in the day but Lake Shore and McIntyre lost 25 apiece and Teck-Hughes, Wright-Hargreaves and Dome were down 5 cents each.

International Nickel was firm throughout and closed unchanged but Noranda slipped 25 from last night's final in the afternoon.

TORONTO EXCHANGE.

TORONTO, April 13 (C.P.). — Remaining steady throughout the afternoon, Toronto Stock Exchange Market closed at a level slightly higher than that of last night.

Liquidation was apparent in marked degree in only one stock. Page-Hersey Tubes. This issue broke 3½ points to another record low at 37¾. As selling subsided, the price recovered moderately to 38 bid.

Nickel, Brazilian, Bell Telephone, C.P.R. Steel of Canada, among recognized leaders, finished ¼ to ½ point higher. Ford of Canada was also just under last night and F. N. Burt and Hamilton Cottons Preferred were each down a point.

WALL STREET CLOSE.

NEW YORK, April 13.—(C.P.)—Volume of selling diminished in the stock market to-day, but occasional rallies failed to hold and the closing was heavy. People's Gas lost 10 points and Union Pacific and Coca Cola 3 each. Declines in other leaders were more moderate, approximating a point in U.S. Steel, American Telephone, Santa Fe, Bethlehem Steel, Standard Oil of New Jersey and Union Carbide. Transactins totalled about 1,100,000 shares.

HOURS LONGER IN POST OFFICE

(Continued from Page 1)

situation states: "Temporary employees and men who have reached the age of superannuation are being let out. The overtime allowance is discontinued but the 44-hour week is being preserved. The eight-hour day will be taken in two shifts. The men will work four hours, take a short rest, and then work another four hours. Sorters chiefly are affected."

The Post Office staff here includes: 22 clerks, 24 city letter carriers, 11 rural route carriers, two box collectors, one parcel post driver and two mail contractors at the station. Mr. Lacheur said that 95 per cent. of the clerks and letter carriers were returned men.

LLOYD GEORGE BACKS THOMAS

(Continued from Page 1)

of the sincere British effort during the last half century to make up for the grievous wrongs inflicted on the Irish by English mis-rule during the period between 1881 and 1909. He contrasted the position of the Irish and the English farmers. Three-quarters of the latter are still yearly tenants liable to eviction at 12 months' notice. The Irish farmers, however, had received from the British Government advances of the whole purchase money of their holdings at an average price of $50 per acre. Now they were owners paying, instead of rent for a term of years, a sum equal to about 3½ per cent of its price.

Altogether the British Exchequer advanced prior to formation of the Irish Free State a total of $480,000,000 for land purchases, and had paid $50,000,000 in bonuses. Sinking fund payments to date, however, amounted to $82,500,000. If the Irish Free State continued to collect the annuities and retained them for its own use it would be a remarkably cynical and dishonest act of repudiation and have the worst possible effect on the relations between the two islands, Mr. Lloyd George concluded.

CAR, BUS CRASH MAN NEAR DEATH

Vehicles Pile Up in Ditch — Woman Driver, Two Others Badly Hurt.

BLAME SLIPPERY ROAD.

HAMILTON, April 13. (CP) — One man is believed dying, and several other persons are badly injured as the result of a terriffic crash between a Gray Line bus, bound for Toronto and an automobile on the Niagara Highway near Beamsville, before noon to-day.

A car driven by Mrs. Madeline Vanderburger, 44 Riverside Drive, Welland, was proceeding east, about a mile and a half east of Beamsville. Mrs. Vanderburger applied the brakes, and owing to the slipper condition of the highway, her car swerved sideways and struck an on-coming Gray coach square across the front. The impact was terrific, the bus being hurled nose-down into the ditch and the automobile careening in fragments to the ditch on the other side of the road.

About a mile further up the highway, Mrs. Vanderburger had picked up a pedestrian walking along the highway, Mr. Robert Steele, of Hamilton. After the crash, he could not be found, and passengers from the bus investigated beneath the wreckage of the car to discover the unconscious man lying completely submerged in the water in the bottom of the ditch.

Mrs. Vanderburger was badly hurt, as were two passengers in the bus, Mrs. Dora Levine, Toronto, and Paul Tomellow, Niagara-on-the-Lake.

Steele was rushed to St. Joseph's Hospital, Hamilton, where it was found that he was suffering from many broken bones and possible fractures of the skull. His condition is critical.

Mrs. Vanberger was also taken to this city for treatment, and is suffering from a broken arm, fractured pelvis and many contusions.

OFFICERS NAB

(Continued from Page 1)

widely separated points to-day. Police disclosed they had received a mysterious message telling where definite information of the baby's whereabouts might be obtained.

At the same time Col. H. Norman Schwarzkopf, Superintendent of New Jersey State Police, announced in his morning bulletin, Canadian authorities had been asked to survey passengers leaving Halifax. He had received reports, Col. Schwarzkopf stated, that Harry Fleischer, Detroit purple gangster long sought for questioning about the kidnapping, was reported to be planning to sail to Great Britain from the Nova Scotian port.

In his bulletin the New Jersey police head said:

"A mysterious anonymous message was received advising that definite information of the kidnappers and the whereabouts of the child would be available on a boat on or near the property of the A.A.C. and Company of Chrome, N.J.

Boats Searched.

"Details of troopers, together with a detail of police, searched all the boats in and near the A.C.C. dock and found only six barges. Two barges had just unloaded coal and four empty barges were about to be filled with fertilizer. All other boats at neighboring docks were examined, but nothing of any importance was discovered.

"This investigation is being continued.

"Reports were received last night," he said, "that Fleischer was seen during the past week in St. John's and is making his way to Halifax. Authorities at St. John's and Halifax have been requested to watch for him, and a careful survey of passengers leaving Halifax has also been requested.

Beer As Revenue Source Before U. S. Senate Group

WASHINGTON, April 13 (C.P.)—Beer as a source of revenue was thrust back into the tax dispute today before the U.S. Senate Finance Committee.

James A. Emery, counsel for the U.S. Association of Manufacturers, called for amendment of the Volstead Act and the regulated manufacture of a cereal beverage which he said would produce $270,000,000 annually of revenue.

"We are concerned neither with the pros or cons of Prohibition," he said. "The only issue is whether we shall have beer, with or without revenue."

B.C. Relief Camps Run Economically

VICTORIA, April 13 (C.P.) — British Columbia relief camps were economically operated, says the report of the select committee on unemployment relief, presented to the Legislature. At the same time the document characterizes the statements of Harold Brown, President of the Vancouver Board of Trade, "untrue, unjustifiable, and unwarranted."

Mr. Brown, in an address in Vancouver recently attacked the committee and alleged that if witnesses attempted to tell the truth they would be crucified.

COAL SHIPMENTS EVADED NEW TAX

Received Here Before Excise Duty Took Effect.

Car lot deliveries of coal into Peterborough have noticeably decreased since the rush of receipts which apparently anticipated affecting changes in the budget brought down in the Commons last week by the Hon. Mr. Rhodes.

The increase in the general excise tax from one to three per cent is one levy which the early shipments escaped. As an example of the effect of this tax several examples were shown to The Examiner to-day. On a car load of bituminous coal imported from the United States and costing slightly more than $87, the former excise tax was 88 cents. Since the increase the tax amounts to $2.64.

On a small piece of steel valued at $27 the tax has increased from 27 cents to 81 cents; and on a tank car of gasoline costing around $850, the tax under the former rate was $8.50, and to-day is $25.50. This excise tax applies to practically all imported goods and is added to the general import duty which averages about 35 per cent.

CHOOSING OF STAFF OPPOSED

(Continued from Page 1)

should have rights distinguished from departments.

Men holding important positions on the House of Commons staff needed training superior to Civil Service requirements and had to be exceptionally competent.

Wrong Idea

There was a widespread idea that members of the staff of the House of Commons did not work as many hours in a year as employes of other departments. Mr. Beauchesne claimed they worked more hours per year. While the House was in session they worked morning, afternoon and night, and for two weeks on either end of the sessions.

There had been "continuous encroachments on the part of the commission," on the rights of the House of Commons, he said. One of the objections against the commission was the length of time taken in appointments. On Nov. 14, 1930, Mr. Beauchesne had requested an assistant curator at a salary of $1,080 of the parliamentary reading room and the appointment was made on May 12, 1931. "The system is bad," he declared.

John Vallance, (Lib. North Battleford) and Angus MacInnis (Lab. Vancouver) contended a great part of time was taken in choosing from applicants from all over the country and suggested Mr. Beauchesne would only choose from Ottawa.

Mr. Beauchesne was "glad to accept the list given by the commission" but wanted the power of choice put in his hands.

HOME AND SCHOOL ASSOCIATION NEWS

KING GEORGE SCHOOL.

The King George Home and School Association met at the school last evening with a larger attendance than for some months. In the absence of the president, L Agnew presided.

Mrs. Ada Craig gave a splendid report of relief work done, and made a strong appeal for more help for many needy cases.

The public is asked to co-operate in a bridge party and also a concert, the details of which will be announced in the near future.

There will be a paper collection Thursday and Friday, April 21 and 22.

Miss Kelly's room wins the treat for having the largest representation of parents at the meeting.

Mrs. T. Hendry gave an excellent report of the annual meeting of the Federation held in Toronto.

A most interesting oratorical contest was held, the speakers being George Ebbs on "Early Days of Peterborough"; M. Gardiner on "Trent River," and E. Lawless on "Trade Within the Empire." George Ebbs was judged the winner, but all did excellently.

QUEEN MARY SCHOOL.

The regular monthly meeting of the Queen Mary Home and School Association was held in the school on Monday, April 11, at 8 o'clock.

Orville Wainman sang very beautifully two numbers, "Come Once Again" and "Smiling Through."

Dr. Barr addressed the meeting on "The Home and Family as a Factor in Education."

It is to be regretted that owing to the inclemency of the weather and counter attractions that more parents were not out to hear his splendid and helpful address.

A vote of thanks to Dr. Barr was moved by Mr. Clark and seconded by Miss McNaughton.

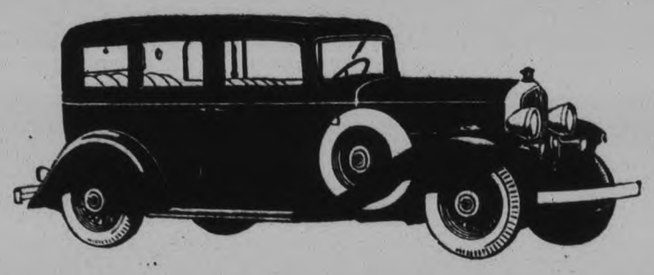
The attendance banner was won by Miss Thomas' class.

The meeting closed with the singing of the National Anthem, after which refreshments were served. The ovaltine was kindly supplied by A. Wander and Co.

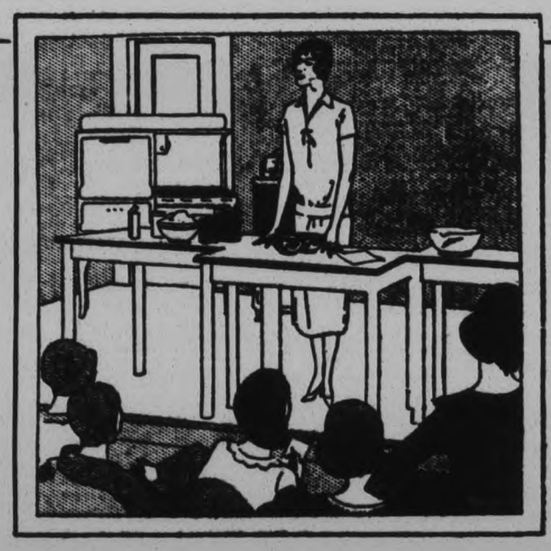
Two In Fatal Chase Given Three Months

TORONTO, April 13. — Thomas Sheppard and Harold Slumski, companions of Albert Heward in the motor chase which ended fatally for the latter from a policeman's shot, were sentenced to three determinate plus a year's indeterminate in the Ontario Reformatory to-day. Arthur Thurston, the fourth member of the party, was put on probation for three years. All three pleaded guilty to stealing an automobile.

Heward was killed when Motorcycle Constable Thornton of the local police force, shot in effort to stop the four, whom he had chased for some miles.



More Praise for Pontiac's New Beauty, Comfort, Value



AN enthusiastic Pontiac booster is Miss Frances Thompson, famous conductor of the Peterborough Examiner Cooking School. You'll see her driving a Big Six daily to and from her popular lectures and demonstrations.

"I'm afraid I don't know much about all the wonderful new mechanical features in the new Pontiac," says Miss Thompson, "but I DO know, by experience how much they have improved its performance. A child could handle it easily."

Pontiac has a very genuine appeal to women. Besides its extraordinary ease of operation—in traffic or on the highway, this Big Six offers distinguished new body beauty by Fisher, inbuilt comfort that laughs at the longest trip and the heaviest going—and value, which has now been heightened by substantially reduced prices.

Visit our showrooms. Let us tell you about Pontiac's new lower prices!

J. J. DUFFUS LIMITED
300-318 Water Street

BUILDING RESTRICTIONS NEEDED IN SUBURBS OF NORTH MONAGHAN

Members of Ratepayers' Association Addressed at Monthly Meeting.

WAGE SCALE SET.

The North Monaghan Council held its monthly meeting on Monday, at 10 a.m. All the members of the Council were present; Reeve McIntosh presiding.

Herman Killingbeck presented the following charity accounts for payment: A. E. Saunders, provisions, $12.50; Frank Wheeler, provisions, $28.50; H. Davidson, provisions, $6.50; W. M. Lunn, provisions, $39.25; T. J. Hunter and Son, provisions, $3.92; A. E. Pearson, provisions, $8; F. Buott, provisions, $19; A. E. Saunders, provisions, $64.12. A resolution was passed that the foregoing accounts be paid.

The council adjourned for dinner, resuming business at 1.30 p.m. Several deputations interviewed the council in regard to various business. A resolution was passed that the question of dispensing wood and provisions for public charity be left entirely in the hands of the relief officer. Dr. J. A. Morgan had a short interview with the council in regard to indigent patients. A deputation wa spresent from the Ratepayers' Association, composed of H. B. Rye, A. Barnes, D. R. Lindsay, William Stevens, E. G. Johnston and H. Wilford. Mr. Rye addressed the council in regard to co-operation between the rural section of the township and the suburbs. Mr. Rye stated that the Ratepayers' Association wished to co-operate with the council and to work in harmony with it in the best interests of the ratepayers as a whole. He also stated that the association was aion had come to the conclusion that special legislation should be sought at the next session of the Legislature to compel better living conditions in the suburbs; he also statetd that the association was very much in favor of the council adopting the system of two payments of taxes per year. William Stevens also endorsed Mr. Rye's statements in requesting the council to bring into force two payments of taxes per year. D. R. Lindsay, from plan No. 41, requested street lamps for this particular sub-division. E. G. Johnston thought it was about time that plan 41 had street lamps, two petitions having been circulated and signed by a large majority of the ratepayers on this sub-division.

Harold Baptie, tax collector, was present and made his report to the council in regard to balance of taxes outstanding. A resolution was passed that the tax collector proceed to collect the taxes outstanding and that he make his final returns to the council by the next regular meeting date, May 9.

Archie Patterson, road superintendent, discussed with the council the fee to be paid for the services of trucks drawing gravel for township purposes. A resolution was passed that all trucks drawing one and a half yards of gravel be paid $1.00 per hour, and that all men working for the township be paid 23 cents per hour for actual time employed.

A resolution was passed that Dr. J. A. Morgan be paid $56.10 for attendance to indigent patients; A. Patterson for delivering charity wood, $16.

The following accounts for Burleigh wood camp were presented for payment: Edward Young, provisions, $87.70; Walter Young, provisions, $34.88; J. Mervin, 160 pounds beef, $13.60; H. F. Doig, three trips, wood, etc., $2.25; George Stevens, hauling wood to camps, 65 cents; James Mace, hauling camp equipment out from camp, $1; William Poulson, taxi services, $6.

The following general accounts were passed for payment: Mrs. F. Langton, 2 weeks' board, children, $12; H. Johnston, hauling four cords of wood, $4; Municipal World, pay sheets, $4.31.

The meeting then adjourned, the next regular meeting to be held at the Court House, on May 9, at 9 a.m.

Helen Wills Moody

Yes, Helen Wills Moody, queen of the tennis world, "bobbed" her hair and these are the first pictures taken of her since the visit to the barber shop. She's going after a few crowns this year. But they'll have to be made smaller to fit her head with its shorn tresses.

over 250 miles north of Edmonton, the airline gap between waterways and the mineral field stretches 800 odd miles. During winter and early spring months the only way in is by airplane but in summer the long water route of the Mackenzie river over 1,500 miles in length, leads to the field. The airline route follows this river system as far as Great Slave Lake but then strikes due north across the lake and follows a long chain of lakes and rivers between Fort Rae on the north arm of Great Slave Lake and Great Bear Lake.

Airmen Are Brave

Too much credit declared Mr. Douglas cannot be given the pilots and mechanics of the Canada Airways. They are brave men going out in all kinds of weather. Caches have been laid and their machines are of the very best. Mr. Douglas' pilot was Walter Gilbert and mechanic Rodolphe Hewes. These two men flew Burwash into King William land last summer when the famous Canadian explorer discovered relics of the ill-fated Hudson expedition.

Discussing the possibilities of coal mining in the north, Mr. Douglas was of the opinion that this coal would be valuable when mining operations on the other minerals commenced. He believed that it would be of more value than the oil at Fort Norman for the coal deposits were directly across the lake from the copper deposits and could easily be transported to the mills by scows.

His parting remark to The Examiner was not to believe the stories of failures and no possibilities in the Great Bear Lake area for the men who are going in are real experienced prospectors and they are right on the ground. "It is the fellow back of the lines who is doing all this wild talking," he declared.

Obituary

MRS. JOHN HARPER

(Examiner Correspondence)

FENELLA, April 13.—One of the oldest residents of Haldimand Township, Mrs. John Harper, died early today following a short illness at the ageof 92 years. Death came to the aged lady at the home of her daughter, Mrs. Leonard Brisbin, Roseneath. Born in England, she had been a resident of Haldimand for some sixty years and was well-known throughout the district.

Surviving are: two sons, W. J. Harper, of Warkworth, and Cephus Harper, of Fenella, and one daughter, Mrs. Brisbin. Her husband predeceased her 15 years ago. Funeral arrangements are not yet complete.

MRS. CATHERINE DEYELL

(By Examiner Staff Correspondent)

CAMPBELLFORD, April 13. — A one time resident of Campbellford, but for many years living in Toronto where she died on April 9. The late Mrs. Catherine Deyell was laid to rest in Mount Pleasant cemetery, Campbellford, yesterday, the service being conducted by the Rev. J. C. Robinson, pastor of St. Andrew's Presbyterian church. The pall bearers were Geo. A. Kingston, George Webber, George Grills and George Haig.

The deceased lady was in her 77th year. For many years the family was located in Campbellford, the late Mr. Deyell, who died 27 years ago, being employed by the late R. J. Ely. Service was conducted in the Toronto home before the remains were removed to Campbellford. Surviving is one son, George W. Deyell of Toronto.

GEORGE DOUGLAS MADE FAST TRIP

(Continued from Page 1)

Hunter Bay points that Mr. Douglas covered in a few hours by plane.

This mecca of prospectors lies in the true north. Echo Bay near which Mr. Douglas' claims are staked is situated in latitude 60 point 12 north and longitude 117 point 30 west or within 50 miles of the Arctic Circle.

A Pleasant Financial Program for YOU, Miss Business Girl

To pay you up to $100 a month after you leave your desk for good—

To enable you to provide for any dependents—a mother, an invalid relative—should you die unexpectedly—

To give you a substantial return with perfect safety on your savings—

To provide a reserve fund for unexpected demands at any time.

If your life plans do not include the above very reasonable provisions for your comfort and safety we invite you to discuss the matter with us right away.

Every thoughtful woman knows that she will not be able to work all the days of her life. She knows how unpleasant it would be to be dependent on friends or relatives for support in her later years.

$100 a month under our Retirement Income Plan would be a very snug income to be sure of when you wish to retire. Enough to make a woman independent and able to come and go as she pleased.

And even a small sum, saved regularly, will provide generous protection under our Plan.

OMEMEE COUNCIL HAS SHORT MEETING

Tax Collector is Requested to Interview Taxpayers Who Are in Arms.

OMEMEE, April 13 (Examiner Correspondence).—The village council met in the council chambers on Monday evening, with Reeve Magee and Councillors Moncrief, Parker, Fee and Burgess present.

It was moved by W. Moncrief and seconded by Wm. Burgess, that the following accounts be paid: Street lights for March, $77; A. Williamson, quarter salary, $31.25; M. Harris, stationery, $3.50; R. Morton, meal tickets, $1.80; Haboco Store, meal tickets, $9; R. Williamson, work at hall, $1; Max Sandy, for wood, $9; G. Hendry, Coronation Hall, $1.13; Haboco Store, for R. Lee, $12.35; T. C. Ivory, bulbs, Coronation Hall, $1; W. Wilson, wood for Coronation Hall, $15.

It was moved, seconded and carried that T. Newman, collector of taxes, interview the ratepayers whose taxes are unpaid, and take action to collect. Communication from Good Roads Association was fyled and the meeting adjourned to meet Monday, May 2, at 7.30 o'clock.

LIFE OF MOSES IS TOLD IN ADDRESS

Interesting Program Given at Rush Point Young People's Meeting.

RUSH POINT, Apr. 13 (Examiner Correspondence) — At the recent regular meeting of the Rush Point Young People's League a very interesting talk on the life of Moses was given by the Rev. Mr. Kemp.

H. Hoard of Havelock also gave a splendid talk taking Elijah as his subject.

Miss Bernlece Sergeant then took charge of the meeting. The scripture lesson by Mr. Hoard was from the book of James. The topic was well handled by Miss Bertina Beavis.

After a solo nicely rendered by Miss Luella Keating several readings were given by the members, Miss Jean Pollock, Mrs. H. Hoard and Miss Sergeant.

In the contest the following points were won Reds 25, Whites 10. Blues 10 and Khakis 0.

Attendance Reds 6, White 7, Blue 7, Khaki 7.

Mr. R. Barton has moved again off the Wannamaker place at Round Lake owing to some difficulty over getting the lease.

Mr. Barton has now rented a place 1 mile north of Havelock owned by Mr. Lance Primrose.

The roads here are in a rather bad condition. Several cars have already had difficulty in getting out of the mud holes and very deep ruts.

Mr. Wm. Psalter has rented the Dwyer Farm, 3 miles north of Havelock and is moving at once.

Miss Pearl Barton was visiting her aunt here for the past few days.

Miss F. Bibby Takes Charge Y.P. Program

CAMPBELLFORD, April 13 (Examiner Staff Correspondence). — The Missionary Committee under the convenorship of Miss Florence Bibby had charge of the program at the regular meeting of the Young People's League of St. John's United Church, Campbellford, held on Monday evening in the church hall. The president, Earl Fairman, opened the meeting, the prayers being taken by the Rev. R. C. Tait and the Scripture reading by Miss Nettie Forde.

That topic, which was a missionary one, was given by Mrs. George Hammond. Other items on the program included an instrumental duet by Mr. and Mrs. Melvin Booth, which received a hearty encore; a vocal duet by Mrs. C. W. Turner and Miss Nellie Hoover; and a reading by Miss Elva Mowat.

Centreton

Mr. and Mrs. James Hope were guests of Mr. and Mrs. Roy Merriam and family, Carmel on Tuesday evening.

Among those from the village to Cobourg on Saturday were Mrs. John Merriam, Mr. and Mrs. James Hope and Messrs. A. and E. Hope.

Mr. and Mrs. G. McKenzie and family of Toronto spent the weekend with the former's mother, Mrs. Lizzie McKenzie and other relatives in the village.

Mrs. Henry Chapple, Toronto came on Saturday to live at her home here.

The King's Own Mission Band met on Sunday morning. Vera Hope sang a solo. Francis Coffey gave a reading. The study book on the tale of a Korean kite was given by Mrs. Birney. Those on the program for the May meeting are Doretta Bull, Roberta Webb and J. D. McBride.

Mr. and Mrs. George Naish, Montreal are moving on the Naish farm north of Centreton in the near future.

Miss Laura Baxter was a Sunday guest at the home of Mr. and Mrs. T. Bachelor.

Miss M. Lockhart spent the weekend in the village.

Miss Annie Crossen spent the week-end in Baltimore.

Mrs. W. Richardson called on her sister, Mrs. James McKenzie.

Miss Annie Crossen, our local school teacher is boarding at the home of Mr. F. Wolfraim.

CAMPBELLFORD

BRIEF AND INTERESTING NEWS ITEMS FROM THE TRENT TOWN.

News has been received here of the death in Winnipeg, Manitoba, of Mrs. (Dr.) Andrew Tripp. She was well known in Campbellford and Trent River, being a frequent vistor at the Linton cottage at the Bridge. The daughter of Noel Gill of Virginia, U.S.A. who is also well known in Campbellford. She is survived by her husband, Dr. Andrew Tripp and a 14 year old son, Andrew Junior. The death occurred on April 4, burial taking place in Winnipeg.

Mr. and Mrs. L. Wood returned home on Monday from Toronto where they have been visiting for the past few days.

After the thawing of the recent heavy snow fall and the continual rain over the past few days the roads in this section of the country are becoming almost impassable. Between Campbellford and Peterborough motor traffic is only passable via Warkworth while the road to Trent River is expected to be closed within the next twenty four hours if the wet spell continues. From Campbellford to the front line is also very bad, both roads, via Stirling and Codrington, being exceptionally heavy. One traveller, arriving in town on Tuesday, declared it had cost him eleven dollars to get from Colborne to Campbellford, having to be pulled out of the mud several times.

Mr. B. Buchanan of Warkworth was a business visitor to town on Monday.

Mr. George W. Deyell of Toronto attended the funeral of his mother the late Mrs. C. Deyell, who was laid to rest in Campbellford on April 12.

Mr. and Mrs. W. J. Locke of Seymour township will in future reside in town and will locate in the C. B. Williams house on Inkerman street.

DRASTIC ACTION IS PRESCRIBED

(Continued from Page 1)

The entire day was devoted to debate of the Rhodes budget. Earl Rowe, Cons., Dufferin - Simcoe, pointed to mixed farming as the economic salvation of Canada. It might be necessary to bonus certain products and he suggested two cents for bacon and live beef, one cent for cheese and three cents a dozen for eggs. This, he said, could be done without a heavy drain on the national exchequer and would revolutionize mixed farming in this country. A plan of this type would encourage exports and stimulate the home market.

The farmers of Canada, proceeded Mr. Rowe, for years have witnessed the coal and iron and steel industries bonused. He believed it was time to take similar action for mixed farming.

Other speakers during the day were W. R. Motherwell, former Minister of Agriculture; John Sullivan, Cons., St. Ann-Montreal; Thomas MacMillan, Lib., South Huron; B. M. Stitt, Cons., Nelson, and Peter Veniot, former Postmaster-General.

Jerusalem artichoke was first cultivated by French settlers at Port Royal, in 1605, and two years later was brought to France, where it is now highly regarded as a stock food.

My Neighbour Gave Me Some Very Good Advice

Ontario Lady Is Now Very Enthusastic About Dodd's Kidney Pills

Mrs. Albert Cober Suffered With Her Back and Dropsy. Dodd's Kidney Pills Brought Relief

Hespeler, Ont., Feb. 10.—(Special)—What most people want these days is a medicine that they can turn to with perfect confidence in time of need. Mrs. Cober, a resident of this place, has such a remedy. Her neighbour advised her to try Dodd's Kidney Pills. She writes:

"I had been bothered with my back, and swollen ankles. Some days I could hardly straighten myself up on account of the pain. My neighbor advised me to give Dodd's Kidney Pills a trial. I did so and they completely relieved my backache and dropsy. I will always keep a box on hand."

Dodd's Kidney Pills strike right at the seat of the trouble, the Kidneys. They relieve the work of the heart by putting the Kidneys in shape to strain all the impurities out of the blood. Dodd's Kidney Pills are just a Kidney remedy—purely and simply.

WOMEN FAVOR PLAN TO TEACH SCHOOLS MUSIC

Millbrook Institute Holds Regular Monthly Meeting.

TO ATTEND CHURCH.

MILLBROOK, April 13 (Examiner Correspondence). — Mrs. C. C. Garside entertained the members of the Women's Institute for the April meeting at her home, King Street East, on Saturday at 2.30 p.m., the president Mrs. W. H. Armstrong, occupying the chair. The attendance was gratifying considering the amount of illness in the community and vicinity, and thet unfavorable state of the roads.

Some time was devoted to a discussion of the plan at present under consideration of arranging to have music taught in the schools of East Durham, the local branch being favorable to the suggestion, but the general feeling was that more detailed knowledge of the whole subject is necessary before any definite action can be taken.

To Attend Church Service.

After discussion, on motion it was decided that the Institute will continue the practice initiated last year of attending church in a body on the evening of Mothers' Day Sunday, May 8, and invite the other branches of East Durham to join with them for that service. Last year the service was in Grace Presbyterian Church, and this season it will be in St. Andrew's United Church, Rev. W. W. Jones, B.D., to preach. A printed order of service will probably be again prepared for the special occasion.

The committee that prepared the dainty layette recently completed and presented to the local hospital reported, through its convenor, Mrs. J. L. Byam that both Dr. H. A. and Mrs. Turner, together with Miss Finnimore, superintendent, wished their thanks conveyed to the Institute for the useful gift. Further report will be received from time to time, through Miss Finnimore, of the use made of the layette in cases of need, and the Institute expects to replace it with another when the one now on hand has been depleted through use.

Committee Convenors.

Some local charity undertakings by the Institute were planned, on report of need in the community, and afterward the appointment of convenors for the various Standing Committees took up the attention of the meeting, the list being: Public Health, Mrs. H. A. Earle; Home Economics, Mrs. W. H. Armstrong; Education, Mrs. W. McKee Bingham; Agriculture, Mrs. R. J. McKnight; Community Activities, Miss Pearl Burnham; Historical Research, Mrs. J. R. Eakins; Canadian Industries, Mrs. W. H. Jordan; Publicity, Mrs. H. J. Armstrong.

A motion was passed declaring that in future no society, other than the Continuation or Public Schools is to be given the use of the piano in the Town Hall free of charge. The officers will have charge of the May meeting, when the annual reports will be received, and the election of officers will take place. Mrs George Fallis' home is the place for the gathering.

An interesting and informative program completed the afternoon's proceedings, Mrs. John Armstrong being convenor of the committee in charge, the other members, Mrs. F. J Smith and Miss Laura Crocker, contributing instructive papers on "Making Life Count" and "Keeping Out of the Ruts," respectively. A reading by Mrs. H. J. Armstrong was also enjoyed.

Miss Audrey Garside's piano solo was warmly applauded, and after the National Anthem the hostess was assisted by the Program Committee in serving delicious homemade candy, a pleasant social hour being enjoyed before the guests dispersed. Mrs. T. H. Aiken and Mrs. W. West moved the vote of thanks for the hostess and her helpers.

Manvers Council

(Examiner Correspondence.)

BETHANY, April 13. — The members of the Municipal Council of Manvers met on Saturday with the reeve in the chair and all the members present, when the following communications were read: School attendance officer, report for the first three months of year as to the attendance at several schools in the township; Clerk of Clark Township, with account of $3.50 for holding court for the residents of Manvers township; Highway Department, consenting to amendment of bylaw No. 1026.

On motion of Councillors Cummiskey and Beer, the clerk was instructed to write to Mr. B. Parker of Peterborough, giving him notice that all or any obstruction on the highway must be removed forthwith, or action will be taken by the council to enforce its bylaws in this matter.

The collector produced his roll for 1931, showing arrears to the amount of $704.61, and requested to accept same.

On motion, the collector's roll was accepted and the arrears charged against the respective properties.

It was decided on motion that 10 cents per yard be paid for gravel this year. Bylaw Number 1076 to amend Bylaw No. 1026, was introduced, regularly read and passed.

The following accounts were ordered paid: Richards & Richards, printing, $50; W. J. Boggs, S. S. 14, $250; E. B. Shea, S. S. 6, $200; W. H. Stinson, S. S. 1, $20?; P. W. Reynolds, S. S. 15, $500; A. Johnston, S.S. 3, $30; H. H. Byers, S.S. 8, $200; treasurer of Clarke, rent for hall for court, $.50; Manvers Municipal Telephone System, requisition, $100; J. J. Clarke, balance of salary, $50; J. J. Clarke, postage and exchange, $10; E. Mitchell, sheep worried by dogs, $7; A. W. Fallis, sheep valuator, $1.25; W. H. McNeil, road superintendent's vouchers, Nos. 4 and 5, $196.05; J. J. Clarke, uncollected taxes for 1931, $719.96.

The council adjourned to meet on Saturday, May 7, at one o'clock p.m.

London's new luxurious busses are to have rubber seats.

A Happy Baby is Breast-fed

There is only ONE best food for babies,—maternal milk, germ-free and of correct composition, Nature's provision for healthy development and sturdy growth. No substitute equals it for safeguarding baby against nutritional diseases such as rickets, etc.

The highest medical authorities the world over have testified to the remarkable qualities of Ovaltine for producing a rich supply of maternal milk; and for maintaining the mother's strength before and after birth.

Every expectant and nursing mother is well-advised to take Ovaltine regularly. It is the concentrated nourishment of malt, creamy milk and *new-laid* eggs. Delicious and easily digested.

'OVALTINE'

TONIC FOOD BEVERAGE

Enables Mothers to Breast-feed their Babies

A. WANDER LIMITED LONDON, ENGLAND and ELMWOOD PARK, PETERBOROUGH, CAN. 383

Ovaltine is sold at all stores in air-tight tins —50c, 75c, $1.25 and $4.50 (special family size).

Hear about Ovaltine at the Peterborough School of Cooking-Lectures now being held at the Grand Opera House.

Bridgenorth

Mrs. Marwood McCarrol and daughter Doris of East Emily were recent guests at the home of her sister, Mrs. Harvey Sanderson of Chemong road.

Mr. G. W. Mann who has spent the winter months in Peterborough has returned to his home at the "Hawthornes," Smith.

Mr. and Mrs. Fred Clarkson of Harvey spent the weekend with the latter's parents, Mr. and Mrs. Herbert McConkey of Smith.

Miss Mary Brown of East City was a guest at the home of Mr. and Mrs. Gratten Telford of Chemong road on Sunday.

Mr. and Mrs. Harold Lewis and son Jack spent Sunday with Mrs. Lewis' parents, Mr. and Mrs. Alex McGregor.

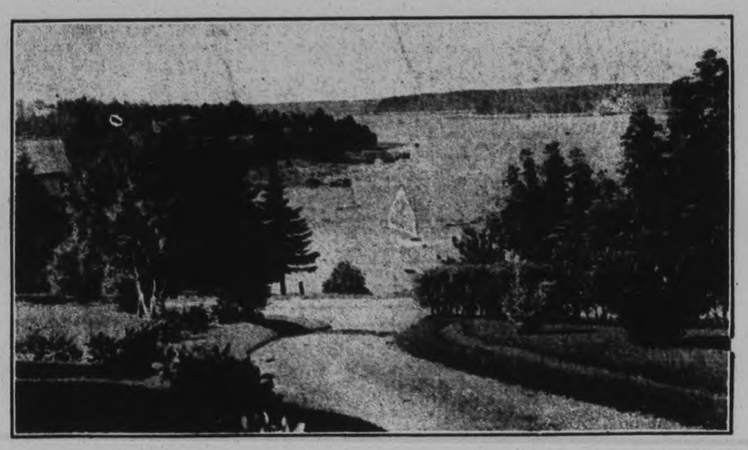
In gross value of production the pulp and paper industry continues as the most important manufacturing industry in Canada. It also heads the list in salaries and wages paid. For 1930 the products were worth $215,674,246 and 33,207 employes were paid $45,774,976 in salaries and wages.

CANADA

THE WORLD'S GREATEST PLAYGROUND

Wide Variety of Recreational Attractions

Canadians Fortunate in Holiday Advantages Their Country Offers



THE majority of Canadians probably do not realize what a wonderful choice of vacation opportunities this country offers. How many of us in any one province have first-hand knowledge of the wide range of attractions of our neighbouring provinces? Many no doubt have gone abroad to seek a holiday, forgetting that our own Dominion is unequalled in the exceptional variety and range of its recreational resources. Surely a country which attracts visitors from other countries by the tens of millions must have recreational features of interest to its own citizens.

Recreational Areas Easily Accessible

It is so easy to travel in Canada that an interprovincial tour is a recreation which every Canadian vacationist may well and profitably undertake. All the developed and much of the undeveloped part of the Dominion is easily accessible by train, boat, or automobile. Canada is served by two of the world's greatest railway systems and a number of smaller lines. The equipment and service are of the highest standard. Steamers built specially for pleasure cruising afford many pleasant trips along the coast and on the extensive inland water system of lakes, rivers and canals. A cruise from the head of the Great Lakes to the Maritime Provinces is nearly equal, in distance, to an ocean voyage. Good roads lead to practically all scenic and sporting territories. Canada's road system includes many thousands of miles of surfaced highways, well equipped with direction signs and danger signals. Tourist accommodation, from campsite to hotel, is available almost everywhere.

National Parks Cover Large Area

National and provincial parks in Canada cover nearly 25,000 square miles. They are areas which have been withdrawn from exploitation and are being preserved in their virgin beauty and wildness, for purposes of pleasure and recreation. The largest national parks are in the Rocky Mountains section of Alberta, a region of unsurpassed scenic splendour admirably equipped by nature for all forms of sport and recreation. There are also important parks in British Columbia, Saskatchewan, Manitoba, Ontario and Quebec. Accommodation ranges all the way from large modern hotels, to log cabins and tents. Fishing is one of the chief attractions in the parks, but game animals and birds are rigidly protected and their fearlessness never fails to interest visitors.

Summer Resorts Numerous and Varied

Throughout the Dominion there are many summer resort districts which offer a wide range of attraction and variety of accommodation. On the Atlantic coast, in the provinces of New Brunswick, Nova Scotia and Prince Edward Island, are typical sea-shore resorts, where salt-water bathing, sailing and deep sea fishing are the principal attractions. The rugged beauty of this coast and the picturesque charm of the fishing villages, at the head of every inlet, cannot fail to enchant the summer visitor.

Quebec's summer playgrounds are of the most varied nature including as they do, sea-shore, mountain, lake and forest resorts. Along the lower St. Lawrence, summer colonies have been established at many points. North of the St. Lawrence and Ottawa rivers the Laurentian mountains, clothed with pine forest and dotted with lakes, constitute a vast summer and winter playground. The Eastern Townships, which adjoin the international boundary, also have a number of well-established resorts, on picturesque lakes and rivers.

Ontario has perhaps the largest number and greatest variety of developed summer resorts of any of the provinces. The Thousand Islands, Lake of Bays, Muskoka lakes, and Georgian bay are known throughout America, but there are in addition equally attractive, only slightly less known, districts. Accommodation includes everything from campsite to palatial hotel, and cottages may be rented, in any district.

In the provinces of Manitoba, Saskatchewan and Alberta many attractive resorts are located along the shores of the lakes and rivers. The Canadian Rockies are world famous for scenic beauty and contain some of the most highly developed tourist resorts on the continent.

British Columbia, with varied and splendid scenic attractions, is a tourist wonderland. The province has majestic mountain ranges, and extensive lake area, stately forests, an imposing coast line, and many attractive resorts in settings of exceptional natural beauty.

Government Bureau Free Information Service

For a number of years the Department of the Interior at Ottawa has been engaged in the promotion of the Canadian tourist industry, more especially the development of tourist travel from the United States to Canada. It is also endeavouring to influence Canadians to spend their vacation in the Dominion. The National Development Bureau of that Department will gladly furnish interprovincial road maps and other information for the use of those planning a Canadian tour, and where necessary will refer enquiries to provincial and local tourist organizations. Applicants should be as specific as possible as to the section of Canada in which they are interested, in order that available information may be supplied.

A BIG DEAL for BETTY

This business of love is just that---business

Betty came down the stairs arrayed to perfection. . . . She knew she looked as beautiful as ever she would. . . . She heard Uncle Henry say, "This is the young man I telephoned was coming out to dinner."

By ELLIS PARKER BUTLER

AT 9:30 Betty Burford, curled up on the davenport with a book, yawned, patting her pretty mouth with her fingers.

"I think I'll go up now, Aunt Flo," she said, and she kissed her Grand-Aunt Florence. She put an arm around her gruff old Grand-Uncle Henry's neck and bent down and kissed him also.

"Good night, sweetheart," he said.

In the three months Betty had been with them she had crept deep into the heart of the taciturn old manufacturer of the Burford Oscillating Reciprocator. Betty gave him another kiss and went up to her room.

Several times, after Betty was gone, Mrs. Burford glanced up from her book and at her husband. She was rather an invalid and seldom out of the house.

"Henry," she said presently.

"Well, what is it?" Henry asked.

"About Betty. I don't know what to do about Betty."

"WHAT'S the matter with her?" asked Mr. Burford. "She looks all right to me. She's not sick, is she? If she's sick, get a doctor."

"She's not sick, Henry," said Mrs. Burford.

"Still mourning over her father's death, is she?"

"No, she has recovered from that. But it's dull for her here. She never sees a young man."

"What young man?" asked Mr. Burford.

"Any young man," Mrs. Burford replied. "She sees no young men at all, and every girl is entitled to see young men—it is one of youth's rights. It is not fair that Betty should see no young men."

"All right, let her see some," said Mr. Burford. "Don't keep them away on my account. Let her see a thousand."

"Henry, please! I don't often bother you with home matters, but I don't know what to do. We've asked Betty to live with us and we should do all we can for her. A mother would see that Betty met young men, but I don't know any. I never get out.

"Henry, isn't there some young man in your office—some nice young man—who could come here to dinner and meet Betty?"

"No," said Mr. Burford. "They're old fellows, all of them."

AND then Mr. Burford, looking at his wife, saw she was weeping.

"Now, please don't!" he said more gently. "Don't get all worked up about it. That's the trouble with you women, you take everything emotionally. I'll get a young man for you. I'll have one up here for Betty to play around with day after tomorrow."

"Henry! You are wonderful!"

"No, I'm not!" said Mr. Burford, picking up his newspaper. "I'm a businessman, that's all, and when I go at a thing I go at it as business. If you want a refrigerator I don't weep about it—I get it; and if you want a young man for Betty to play with, I don't weep—I get one."

In her room Betty was reading a letter that she had read more than once. It was from a young man named William Henry Carver, of the town of Bextonville, Ohio, where Betty had been born and where she had lived until her father died. The letter began: "Dearest darlingest Betty—"

"And so I've chucked my job with the Bextonville Wheel Company," part of the letter said, "and since you're going to live in Detroit I'm going to look for a job there. I'll get one, don't you worry, and when I do I'll be on your doorstep the first evening. And if it is a good enough job, honey dear, we'll be married, and no mistake about that."

"DEAR Billy!" said Betty, and she kissed the letter, and in 20 minutes she was asleep and dreaming of Billy.

In her dreams she was less happy. She dreamed of poor defenseless Billy wandering the streets while a huge black crow—The Great Depression—fluttered over him, gobbling up every job just as Billy was about to grasp it. Jobs, she had heard Mr. Burford say, were not easily had.

In the library below Henry Burford was sitting with a frown on his brow, letting his efficient business mind consider the matter of a young man for Betty. In half an hour he had solved the problem in a clean and snappy business manner, and he took up his newspaper again.

The next morning at 9 o'clock Mr. Burford walked into his private office and jiggled his telephone hook up and down.

"Get Joe Bliss on the wire for me," he said into the mouthpiece. "Yes, Joe Bliss of the Bliss Cast Steel Company. And hurry up about it. Don't be all day!"

When connection wtih the Bliss factory was made Mr. Burford, one elbow on his desk, spoke to Joe Bliss himself. The Bliss factory was at Lansing.

"You, Joe?" he asked. "This is Henry Burford; I want you to come up here to my factory as fast as you can make it. I want to talk oscillator frames with you. Hurry it!"

"I'll break every speed law that was ever made," said Joe Bliss, and he did.

"SIT down," said Mr. Burford when the cast steel man entered his office.

"If it is that contract for frames," said Joe Bliss, "I'll say right now that I can't cut the price one cent. Fifteen dollars for each frame, pierced and painted, is my lowest!"

"Don't talk so much," said Mr. Burford. "Do you want that contract, or don't you?"

"Of course I want it."

"Then it is yours. You can have it," said Mr. Burford.

"Henry," said Joe Bliss, "this is sure one red-letter day for me. That contract means I won't have to let one man go, no matter how hard times are, for a year. Henry, I thank you!"

"Hold on! Not so fast!" said Mr. Burford. "There's a catch in this contract business. There's a proviso. You haven't got the contract signed yet. You've got to sell it to me first, Joe."

"I can sell you in 10 minutes," declared Bliss.

"No, you can't!" said Mr. Burford. "You can't show me anything. I won't listen to an old fellow like you. I'm a tough nut, and it is going to take a young fellow to crack me open. That's the catch in this business.

"WHO'VE you got on your staff that can come and sell me? What young fellow have you got—some lad about 22 to 25 years old—nice respectable fellow? A college boy, say? He's got to be a fellow who can spend an hour or so playing around with one of the finest girls in the world. Who've you got, Joe?"

Joe Bliss stared at Mr. Burford in complete amazement.

"Don't gawp at me," said Mr. Burford. "I'll tell you what I mean. I've got a grandniece up at the house, the nicest girl you ever saw, Joe, and my wife says the girl is bored. My wife says the girl needs a young man to talk to, and that sort of thing. Well, I'm getting her a young man to talk to. That's all. A plain business proposition, Joe, handled in a plain business way.

"This young fellow comes to sell me 20,000 oscillator frames, pierced and painted, and he has a hard job of it. I tell him I'm too busy to talk in office hours and tell him to come up to the house and talk to me—I'll invite him to dinner."

"I get you!" grinned Joe Bliss.

"And you tell the young fellow," said Mr. Burford, "that I'm a mighty tough old nut to crack. You tell him I'm as hard as nails, that I have a hide as tough as a rhinoceros, but that I do have one weak spot."

"The girl," said Joe Bliss.

"YOU guessed it—the girl," agreed Mr. Burford. "You tell him the way to get at me is to play up to the girl—show her a good time, and so on.

"Lend him a car. Give him some expense money for ice cream and movies, or whatever they spend money for. And tell him it is a big contract he is after and make him stick on the job."

"The only trouble is," said Joe Bliss, "I'm not sure anybody on my staff quite meets your specifications."

"Well," said Mr. Burford, "get somebody."

"And I get the contract, Henry?" Joe Bliss asked.

"I said so. You can begin making my frames tomorrow."

"Your word is good," said Bliss. "May I use your phone?"

"There it is," said Mr. Burford.

He paid no more attention to Joe Bliss. Joe Bliss got the factory's telephone operator and asked to be given the Expert Help Agency, than which there was no better in Detroit.

"THIS is Joe Bliss of Lansing," he said when he had his connection. "I want a young man, college man preferred, good-looking, along about 22 or 25 years—a young fellow I'd be willing to have come to my house and meet my family.

"Have you got anybody? Ten or 12, have you? No—no experience in business necessary. All right; have them see me at my factory tomorrow morning."

That evening again Betty retired early. There was nothing else to do. When she had gone upstairs Mr. Burford turned to his wife and beamed proudly at her.

"There will be a young man out here for dinner tomorrow evening," he said.

"A young man!" Mrs. Burford exclaimed. "Henry, do you mean it! So soon?"

"So soon?" said Mr. Burford. "I don't know what you mean by 'so soon.' There's nothing to be surprised about. Simple business procedure, that's all."

"Is he a nice young man?" asked Mrs. Burford.

"I placed my order for that kind," said Mr. Burford, "and I get what I want."

"WON'T it be rather—I mean, Henry, if you did just order a young man to come and be pleasant to Betty, won't it be all rather obvious and—well—"

"No, it won't," said Mr. Burford. "I don't do business that way. The young fellow won't know he's coming here because we want someone to play around with Betty. He'll think he is playing around with Betty because he wants to see me."

Mrs. Burford thought this over, but she could find no sense in it. She sighed.

"I never could understand business," she said.

Mrs. Burford tried not to worry about it, but it was, of course, necessary to tell Betty that a young man was coming to dinner. Mrs. Burford told her the next morning.

"Betty," she said, "your Uncle Henry is having a young man for dinner this evening."

"Is he?" Betty asked, without much interest, which rather surprised Mrs. Burford. "Who is he?"

"HE is a business acquaintance, I believe," said Mrs. Burford. "I think your uncle hoped you would find him interesting."

"I don't believe I'd find any young men very interesting, Aunty," Betty said. "I'm practically off young men, as you might say. I'll be nice to him, certainly, but I hope Uncle Henry does not expect me to enthuse over the gentleman. I haven't the slightest possible interest in young men for enthusiasm purposes, really."

"No," said Mrs. Burford. "No, certainly not, Betty. But I think—I'm quite sure—that your uncle does hope you will be as nice as you can to this young man."

"Aunt Sarah, what do you mean?" Betty asked, looking full at her aunt's face. "Aunt Sarah, is Uncle Henry asking a young man here just because of me? He is! I know he is! You dear, your face can't hide a thing! Why, you darling, you've been thinking I've been lonely here!"

"Betty," said Mrs. Burford, with something that was almost fright, "you'll not let your uncle know you guessed? I did speak to him about you; I did think you might like to have a young man here now and then. And Henry will be so upset if he has been efficient and finds his efficiency was not wanted. You will be nice to the young man, won't you, Betty?"

Betty laughed.

"OF course I will, Aunt Sarah," she said. "I'll pretend I'm as pleased as Punch. We'll never let Uncle Henry know we're not delighted with his young man, but shall I tell you something, Aunt Sarah? I'm engaged to one perfectly good young man now."

"Betty!"

"Yes. I didn't tell you because we can't be married for a long while. He has to find a splendid job, and he hasn't one of that sort now. He's a boy I've known all my life, Aunt Sarah—a Bextonville boy—and we're awfully in love. So, of course, other young men don't mean so very much to me, do they?"

The telephone bell rang while Mrs. Burford was still kissing Betty, and Mrs. Burford went to answer it. It was Uncle Henry.

"Sarah," he said, "there will be several parcels delivered at the house today. You will please open them. There's a ping-pong set—"

"A what?" asked Mrs. Burford.

"Ping-pong!" shouted Mr. Burford. "A ping-pong set. It's a game. Everybody is playing it. There's a table for it, a big table in two sections. And there's a backgammon set. And, Sarah—"

"Yes, Henry?"

"There'll be a man up there—perhaps two of them—with a radio outfit."

Betty giggled.

"I'm evidently going to embark on quite a career of gaiety," she told Mrs. Burford, but she took the matter seriously enough to take extra pains with her toilet that evening.

BETTY, warned that Uncle Henry and the young man would arrive soon after six, came down the stairs arrayed to perfection. She knew she looked as beautiful as ever she would. She was standing at the living room table when she heard her Grand-Uncle Henry's key in the door and the gentle cough of her Grand-Aunt Sarah as she went to the door.

"Sarah," she heard Uncle Henry say, "this is the young man I telephoned was coming out to dinner. Mr. Carver, this is my wife."

"How do you do?" said William Henry Carver, and Betty's head popped up. She dropped her magazine, flew to the door, and her arms went around William Henry Carver's neck, and his around her.

"Oh, Bill, Bill, Bill!" she cried. "You've got a job! You darling darling, you've got a job!"

"Well!" exclaimed Mrs. Burford.

"Well, I declare!" exclaimed Grand-Uncle Henry.

They were exceedingly surprised, and no wonder. Anyone would have been.

ARTICLES OF INTEREST TO THE FARMER

An ax or a hatchet is not a pruning tool.

"Let us spray"; grow fruit, not worms.

Never leave stubs when cutting off limbs. Cut close to the shoulder.

When you see "B. & B" in a nurseryman's list, it means that the evergreens are taken up with a ball of earth on the roots and wrapped in burlap. They grow, then.

If you admired your neighbor's flowers last summer and wish to have some as good, make sure you prepare the bed as well as he.

Fertilizer of some kind is like medicine. Given at regular intervals, according to prescription, it will bring results. An overdose may kill.

A new surface coat will not repair a broken and worn-out pavement. Neither will sodding bring about luxuriant turf when the soil and conditions beneath are not right.

Summer flowering bulbs such as cannas, gladioli, dahlias, caladium, etc., should be looked over carefully. Excessive heat or moisture will start them into growth. Dampness and low temperature are apt to cause decay.

A man's house is his castle, but his front yard, in a sense, belongs to the public. At least, in most American homes, the front lawns are open to the view of the passerby.

This manner of sharing one's grounds with the public has become so common and universal it can be considered typically American.

Any residential street, being a series of homes, each having its lawn in front, gives to the city's appearance a definite influence, good, bad or indifferent, according to the character of the development or lack of it. It can be truly said that it is the street trees, attractive homes and well-landscaped lawns that give streets of character their distinction and give cities the name of beautiful.

Let us think of a garden as an attractive outdoor room, rather than a place of orderly beds where flowers or other plants are grown. No matter what type of design or what type of furnishings—if one may speak of the elements of a garden as furnishings—a garden usually does not offer its full complement of enjoyment without that desirable feeling of intimacy and privacy.

Gardens which are part of the house group, and which are entered and viewed from the house, may need walls or barriers on only two or three sides. Other gardens may ned to be entirely separated from view that they may vie with other points of interest for attention and may offer a complete surprise when entered.

The walls or barriers separating the garden from the rest of the grounds may often be of plant materials. Plants used in this manner can be very efective in serving as a screen and providing a truly beautiful element in the general landscape scheme. The barrier may itself become a picture. Where strict formality is desire, it can also be obtained in plant materials, if the varieties which can be clipped are used.

April—a Busy Month for Gardeners

Let us be up and doing. April days mark the beginning of gardening activities. There are preparations to be made for the coming summer season. The garden calendar contains days for pruning, cleaning up and spraying. While the ground is still freezing at night is a good time to make an application of bone meal to the lawn. Areas to be seeded to grass should be worked into shape and seeded as early as possible. All established lawns should be raked clean and rolled after the frost is out. Vines growing against house foundations have not the best soil conditions for growth. They should be fertilized, preferably with bone meal or well-rotted manure.

Pruning.

Spring pruning of the hardy roses should be done before the growth starts. Cutting back the late blooming hydrangea paniculata will encourage new, vigorous growth and larger flowers. The Rose of Sharon, butterfly bush and snowberry also may be cut back in spring. While the leaves are still off the shrubs old wood can be readily seen and removed and the plants thinned where desirable. A general cutting back of the spring-blooming shrubs, such as spirea, is not recommended. You will lose the blossoms if you do. Better wait until after the blossoms are gone and then prune.

Spraying

The days for dormant spraying will soon be over. All trees and shrubs subject to attacks of San Jose scale should be sprayed with one of the soluble oil mixtures before the buds swell. It takes 48 hours to smother these pests. Any repairs for parts needed for the tree-spraying outfit should be secured now. The time for more spraying is close at hand.

Make a habit of heeling in your nursery stock the instant it arrives. Stock that is allowed to be around in the wind and sun is certain to show heavy losses. Hardy stock may be moved and transplanted as soon as the ground has thawed out. Early planting is desirable. A shallow digging over the shrub bed to bury the mulching may be done at the earliest opportunity.

Proper Planting Trees and Shrubs

In handling the plants always keep roots covered as they must not be allowed to dry out. Dig the hole large enough to receive the plant without bending the roots. If the soil in the bottom of hole is very hard, loosen it up before planting the plant. In digging the hole, place the good top soil in a pile by itself where it can be used right next to the roots.

Set trees one or two inches deeper than they stood in the nursery or slightly deeper; spread roots out naturally and work soil over and around them; keep putting in good dirt until the hole is nearly full, tramping the dirt firmly about the roots. Then, if the ground is dry, pour in a bucket of water. Finally fill up the hole with loose dirt, which should not be tramped.

Trees and shrubs should be given a severe pruning at planting time. The object of this is to balance the tops with the roots. In digging the plant in the nursery some of the roots which remain have too great a burden to bear for the good of the plant.

This does not mean that plants left unpruned will die, by any means, but they may die back on some branches during the hot dry weather of summer when the leaves give off water faster than the depleted root system can take it up.

Plants pruned back the first season will make up for it the second and third year. Pruning the plant enables the root system to make a new growth and the plant takes a better hold in its new location.

Spring is the Best Time to Plant Roses

The rose is a world flower. It is found in every country and the word for "rose" is strikingly similar in spelling and pronunciation in every language. The mere mention of flowers brings the rose first to mind with the majority of people. It is surely well named "Queen of Flowers."

From the multitude of rose species and varieties, a selection may be made to fit any need of garden and lawn planting. Dame Nature's "Rose Exposition" opens in June with a grand flourish and continues throughout the season. In June roses abound in all manner of situations, from the aristocratic garden to the dusty roadside.

For gardens there are the hybrid teas and hybrid perpetuals, in red, yellow, white, and every imaginable graded blending thereof, with the polyantha or dwarf types for supplementary border use. The exotic tea roses are not available for general use in Northern gardens on account of climatic conditions.

For lawn or general shrub border planting the "bush" types are best. These include the wild roses, such as rosa blanda, canina, spinosissima, carolina, lucida, nitida, and the rugosas. The climbing or trailing sorts are often valuable for "facing" effects, and on banks or terrace slopes. Among these are the rosa setigera, multiflora, wichuriana, rubiginosa, and their hybrids.

Some of the bush types, such as the "old-fashioned" Harrison yellow rose, can be combined with perennials in mass or border effects. The Harrison yellow rose is effective with Irish pallida dalmatica, or with delphinium.

There is a wide range of choice in climbing roses for arbors, trellises, pergolas and the like. The Ramblers have always been favorites and many of the varieties such as Lady Gay, Hiawatha, Dorothy Perkins, Silver Moon, Doctor Van Fleet and Evergreen Gem are immensely popular.

There are hundreds of named varieties of teas, hybrid teas and hybrid perpetuals. Some of the best known hybrid teas are Killarney, La France, Los Angeles, Jonkheer J. L. Mock, Mrs. Aaron Ward, Ophelia, Gruss an Teplitz and Sun burst.

Of exceptionally fine merit are these varieties which are rapidly becoming popular—Souv. de Claudius Pernet, Dame Edith Helen, John Russell, Lord Lambourne, Mrs. Henry Bowles, Wilhelm Kordes. A few of the best of the new everblooming roses are Talisman, President Herbert Hoover, Mrs. Erskine Pembroke Thom and Marion Cran.

In the hybrid perpetual groups, Clio, Frau Karl Druschki, General Jacqueminot, Hugh Dickson, Paul Neyron and Mrs. John Laing are much in demand.

Make your rose garden early in the spring and set out the plants as soon as planting weather arrives. Roses like good soil and half of the battle is won by preparing the beds with deep spading and adding manures or suitable fertilizer.

Roses are not difficult to grow and one does not need to be an expert gardener to have fair success. A little attention to the few requirements is all that is necessary to secure a marvelous garden of blooms.

RISKS ARE MANY IN BARGAIN SEED

Buying Untested Stock May Mean Years of Labor.

PLANT THE BEST

Faced with probably the lowest prices for his produce that he can remember the average farmer has been forced to curtail his expenditures to the very minimum. Nothing but the most absolute essentials can be considered and he, like the townsman, is on the lookout for sales. Provided real bargains are secured there will be no regrets but if the car refuses to run, if the radio tubes do not function, or if some vital part is missing from the binder that was picked up for a song, then that is a different story. One will not know the exact cost of such purchases until the same have been put in working order and in the end the bargain may have turned into a bill of expense.

In seeds there are even greater hazards. Manufactured goods, like the kinds mentioned above, after all will only last so long and then one is through with them. But with seeds the first loss is the lightest, thought if a particularly weedy lot is secured, a good deal of ground may be taken up even by fall. Next year, however, the weeds secured with bargain red clover, alfalfa, timothy or whatever was bought, are a greater factor than ever and will continue to be so until years of back breaking labor drive them out again.

Clean Seed Pays.

It pays well to get clean seed for planting rather than to swap round with the neighbors for improperly cleaned stuff or buy mail order bargains, states Professor M. T. Munn of Geneva, N.Y., while to plant seed directly from the thresher hrates as one of the greatest offences against good farming. The farmer who plants unclean seed is laying out a job of hoeing for his grandchildren. Bargains in seeds are never worth buying, concludes Professor Munn who adds that it would be actually cheaper to buy the best the market affords rather than to take the poorest as a gift.

The very fact that there is a lot of untested, dirty seed throughout the country this spring really indicates the vital necessity of planting the best, explain Ontario seed authorities. Seedsmen who have the most modern facilities for cleaning, facilities that the ordinary fanning mill cannot begin to equal, did not purchase such material because they know they could not clean it up to meet the Government requirements, although in the case of red clover at least, there was a heavy demand in the Old Country. If seedsmen were afraid to touch such stuff there is every reason for the farmer being so. And after all with an abundant supply of Government graded and tested seed available at pre-war prices there is really no reason for buying something which even the owner knows little about.

Some Cost Facts On Selling Steers

Now that the movement of beef cattle to markets in the Old Country has resumed, the cost of transporting this type of animal to the British market is a topic of special interest.

G. W. Muir, B.S.A., Acting Chief of the Division of Animal Husbandry of the Dominion Experimental Farms, deals particularly with this topic in Pamphlet No. 143-N.S. "An Opportune Time for Steer Feeding and Finishing."

He gives specific figures on two shipments, one from Ottawa and the other from Lethbridge, Alta., showing that the average cost of shipping and selling was $25.70 per head, or $2.80 per 100 lbs. live weight, in the case of the Ottawa lot; and $36.15 per head, or $5.03 per 100 lbs. live weight, in the case of the Lethbridge lot.

Hiring women to weep, or even faint, at funerals in South America cities, as a "compliment" to the importance of the deceased is being continued despite the abandonment of many other old customs.

PETERBOROUGH MARKET QUOTATIONS

RETAIL

Fruits.

Oranges, 25c and 50c a dozen; grapefruit, 3 for 25c, and 2 for 25c; bananas, 4 lbs. 25c; lemons, 18-25c; cocoanuts, 5-10c ea.; pears, 50-60c doz.; cooking figs, 3 lbs., 25c; table figs, 20-25c lb.; apricots, 25c lb.; pears, 35c doz.; cooking apples, 25c peck; Spys, 75c peck; Talman Sweets, 65c pk; eating apples 40c pk; grapes, 2 lbs., 29c; cranberries 25c lb.; rhubarb, 3 bunches, 25c; pineapples, 25-30c each.

Vegetables.

Potatoes, 3 pecks for 25c; 90-pound bag for 50c; sweet potatoes, 4 pounds for 25c; carrots, 25c peck; new, 10 cents a bunch; new cabbage, 12 cents a pound; leaf lettuce, 5 and 10 cents bunch; spinach, 2 lbs. 25c; hothouse cucumbers 15-25c ea.; cauliflower 25-35c ea.; parsnips, 40c pk.; asparagus 5 bun 25c; sweet potatoes 6 lbs 25c; cooking onions, 5 lbs. 15c; Spanish onions, 4 pounds 25c; green onions, 6 bunches, 25c; head lettuce, 10-15c; parsley, 5c bunch; tomatoes, 2 pounds for 35 cents; celery, 20 and 30c; celery hearts, 10c a bundle; green peppers 10 cents; mushrooms, 39c lb.; sage-savory 5c bunch; turnips, 3 for 10c; beets 10c bunch; wax beans, 2 lbs., 25c; beans, 20c lb.; squash, 15c each; spinach, 2 lbs., 29c; vegetable marrow, 10c each; radishes, 5c bunch.

Nuts.

Mixed, 25c lb.; shelled walnuts 35-60c pound; broken, 39 cents a pound; shelled almonds, 45 cents lb.; walnuts, 25c lb.; peanuts 15-25c lb.; filberts 25c lb.; almonds 25c lb.; new Brazil nuts, 25c lb.; shelled, 50c lb.; pecan, 35c lb.

Dairy Produce.

Creamery butter, 27c lb.; dairy butter, 26c lb.; lard, 3 lbs., 25c; eggs, 13-18c doz.; new cheese, 12-21c a pound; old cheese, 29c a pound; clover honey, 5-lb. pail, 39-43c; comb honey (clover), 15c; 5 pound pail amber, 29 cents; comb honey (amber) 10c; shortening, 11c lb.

Fish.

Salmon, 15 and 17c a pound; cohoe, 25 cents a pound; finan haddie, 15-25c lb.; whitefish 15c lb; fillet haddie, 19c lb.; fresh and smoked fillet, 15-23c lb.; fresh lake herring, 12c lb.; smoked kippers, 2 pairs 21c; flounders 12c lb.; codfish, 10c lb.; halibut, 20-23c; haddock, 10c lb.; fillets, 2 lbs. 33c, ciscoes, 20c lb.; trout, 18c lb.

Meats.

Beef, 7-30c lb.; veal, 10-28c lb.; bacon, 15-40c lb., chicken 30-35c lb.; turkey, 35c lb.; lamb, 12-25c lb.; pork, 10-24c lb.; sausage, 2 lbs 25c.

Flour.

Bread flour, 24-lb. bag, 73-79c; pastry flour, 24-lb. bag, 53-65c; 98-lb. sack bread flour, $2.39-$2.99.

WHOLESALE.

Grain.

Fall wheat, 55c bushel; spring wheat, 50c bushel; oats, 30c; barley, 40c; peas, 75c; rye, 40c; buckwheat, 35c; alsike, $2-$3; red clover, $4-$7 a bushel.

Hogs.

Live hogs, bacon, $4 cwt.; select graded, $1 over per cwt.; head on, $7; head off, $7.50.

Hay, Bran, Etc.

Hay, baled, $10-$12 per ton; hay, loose, $10-$12; straw, $7; bran, $20; shorts, 20 per ton.

Hides and Wool.

Cow hides, 2-3c lb; horse hides, 75c-$1 each; veal skins, 2-3c lb.; lamb skins, 25c-35c each.

Wool, fine, coarse, medium, 6-7c lb.; rejects, 3c lb.

Dairy Produce.

Butter fat for No. 1 cream, 18c lb.; delivered at plant, 19c a lb.; creamery butter, 23c lb.

. The Spring Planting of Evergreens

For all varieties of evergreens spring is a favorable season for transplanting. They can be moved with little setback up to the time when new shoots are starting, and even later by experienced planters, though it is sometimes necessary to pinch off part of the new shoots which otherwise might wilt.

After being moved in the spring, an evergreen has a long period of favorable weather in which to become established. The hazards of the mid-summer heat and drouth may be as great as those of a winter season, but it is easier for the garden owner to overcome them. The most common cause of loss in evergreens is dryness; and newly planted specimens should be watched during dry periods. The roots of any newly planted tree or shrub penetrate a relatively small section of soil, which may easily become dry. Until the plant has had time to develop new and longer roots, capable of foraging for food and moisture to a considerable distance, it needs special attention, and sometimes frequent watering. This applies to deciduous plants as well as evergreens.

Evergreens should be dug with a ball of earth about the roots, and this earth should be kept well moistened throughout shipping and planting. The shorter the time between digging and planting the better. If it is not convenient to water frequently after planting, a mulch of hay or straw will retard drying out and lessen the amount of water required.

The permanence of an evergreen in a given location depends upon the variety. Too often varieties are purchased because the buyer admires their appearance without careful inquiry being made as to their hardiness in the locality where they are to be planted. This is a question upon which expert knowledge should be sought. In some sections only the hardiest varieties can be counted upon to survive; while in others there is a much wider choice, owing to more favorable soil and climatic conditions. In the East and South the beautiful broad-leaf evergreens, such as rhododendrons and azaleas, are available, which seldom succeed in the North-Central states. But everywhere one can have beautiful and permanent evergreen plantings, if he chooses the varieties that are happy in this locality.

Care After Planting Trees and Shrubs

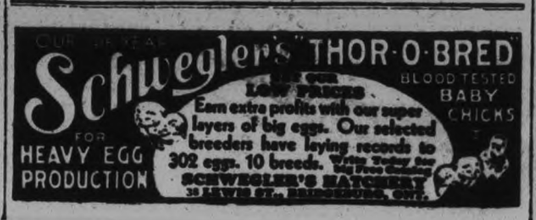
Do not leave the soil heaped up around newly planted trees, shrubs or evergreens. Rather leave a depression around the plant, cupping the soil, so to speak, so it will receive and retain the water supplied by rainfall rather than letting this run off away from the plant. Trees set out on lawns should not have the grass or sod grow tight up to the tree. A space about the tree should be left open to the size of the hole dug when planting the tree, and the top soil should be kept cultivated all summer just as one would cultivate a garden. The depression will serve for catching and holding the water, and the cultivation will greatly aid in aerating the soil and in encouraging the growth of the tree.

Some Weak Spots In Steer Finishing

There is a great deal of interest these days in the feeding and finishing of beef steers on the farms of Eastern Canada. Condition in Eastern Canada are quite different from those generally met with in the West but Western farmers will also be interested in the six points listed below, which bring attention to what may appropriately be termed "some of the weak spots in winter feeding of beef cattle."

Studies of the winter feeding of beef cattle made by the Experimental Farms Branch of the Dominion Department of Agriculture show that there are certain points which should receive special attention. These are:

1. That a relatively small percentage of animals is marketed between December and April inclusive.
2. That finished animals always demand a premium and particularly during the above mentioned months.
3. That owing to poor breeding, poor raising, or lack of finish, possibly a combination of all three, a large percentage of steers marketed do not make the grade that holds the trade and commands the top price.
4. That the Canadian public discriminates against frozen beef, which means that were the markets kept supplied with fresh beef more regularly, better prices would obtain.
5. That a relatively small percentage of steers which are at present classed as export steers, are sufficiently well finished for the trade. Hence proproper winter feeding of such steers would seem advisable and profitable.
6. That we have not made sufficient use of the beef bullock as a medium for the ptilization of rough feeds that can be grown cheaply but are costly to market and if marketed in their raw state leave the soil depleted of plant food.



THE QUEEN BEE RESUMES WORK

Early Egg-Laying Important as Harvest of Honey Depends Upon It.

WATCH FOOD SUPPLY

(Experimental Farms Note)

During the winter months there is little or no activity within a bee colony, for during the cold weather, the only matter of concern to the bees is to secure enough food and to keep warm. Sometime last fall the queen ceased her egg-laying, and as the combs became empty of brood they were filled with food for the winter. As the weather became cool the bees gradually clustered closer and closer around their queen until finally a fairly compact cluster was formed and, except during an occasional spell of warm weather, this cluster may remain unbroken for a period of five or six months.

Cluster Moves About

During the winter, the cluster moves about within the hive, at all times keeping in contact with the food supply. Towards spring an unknown something will inform the bees that summertime is again on its way and the cluster will gradually loosen and expand and in the centre of the cluster the queen will again resume her work of egg-laying.

Only a few eggs are laid at the start, but as the days lengthen and the sun becomes stronger, the number gradually increases until as high as 2,500 may be deposited daily. In outdoor wintered colonies, egg-laying usually commences some time during the month of March, depending greatly upon the weather. In some localities such activity may be resumed even earlier.

Bees For the Harvest

Cellar wintered bees do not usually start so early as outdoor wintered bees, except under abnormal conditions. This yearly egg-laying is of great importance to the beekeeper, for it is the eggs laid during the spring and early summer that will produce the bees to gather the honey harvest. The larger the force of field bees at the commencement of the harvest, the greater will be the crop, and it follows that the greater the number of eggs laid during the early part of the season, the larger will be the field force.

To get the maximum number of eggs laid, three things are necessary (1) A vigorous and prolific queen. (2) An abundant food supply and (3) adequate protection from cold and changeable weather. Neglect to supply any one of the three will result either in starvation and death of the colonies or in colonies that are too weak in bees to gather a surplus of nectar when the honey flow is on.

The Gardener —His Corner

An Inexpensive Lawn

Seeding is the cheapest method of establishing a lawn and as one has some control over the quality of grass and the freedom from weeds, of course, it is also the most satisfactory. One should spend a week or two in levelling the piece of ground. Dig thoroughly and rake as even as possible then allow to lie idle a week or ten days in order to encourage settling and also to give weed seeds in the soil a chance to germinate. Before seeding, rake level again, and then if a permanent, evenly colored turf is wanted, one that will improve with the years, use the best grade of seed obtainable and get it from a reputable seedsman. For the most even results the seed is sown twice, once one way and again the other. Cover lightly by raking one way only, and if possible use a roller or pounder. Start mowing with a sharp machine when the grass is about two inches high. A good, serviceable lawn can be developed from seed in a couple of months. One pound of seed will sow 200 square feet.

Vegetable Have a Place.

There is sound reasoning behind the urban vegetable garden under any circumstances as even during the best of times it is impossible to purchase certain things of anything like the quality as produced in the home garden. Price is of no consideration in the matter of salad material, beans, peas and corn. Such things may be cheap at the corner store and the economist, who is troubled with indigestion anyway, may argue that the cost of production on a city lot is away out of line with market prices, but there is no necessity to ask someone with a palate to give an opinion.

The city gardener, of course, is not being urged to turn the whole of his restricted real estate into a potato patch, he is not being asked to grow potatoes at all, but if after providing for an ample lawn and plenty of space for beautiful flowers, there is still a corner left, then he would be well advised to grow a few vegetables, especially those which never taste as good as when freshly picked and also a few staples like onions, and lettuce which are included in almost every summer meal. This year, too, there is another argument.

Lower Living Cost

With money scarce and time plentiful many people will find that back yard gardening with probably a nearby vacant lot thrown in will allow them to lower substantially their cost of living and at the same time give them a better one. But this is a gardening talk—economics may be left to the Imperial Conference.

In the small garden vegetables should be limited to those things which give the most returns for the space occupied, those which lose their freshness quickly after picking and those which are wanted in small quantitis often and usually at the last minute just when the family are beginning to get out of control about meal time. In the first class, beans, carrots, Swiss chard, celery, staked tomatoes, cucumbers, beets, and rhubarb are suggested. These can all be grown close together will produce big crops and require very little attention.

Under the heading of freshness there will be peas and corn. True they both occupy a lot of room and more than average space will be needed, but neither of them taste the same as when picked within a couple of hours of when served. For handy things, of course, lettuce, either head or leaf, and onions both of the green variety from Dutch sets and the other bulbous kind have places of their own. If grown in the back garden, they will always be there when wanted. To these two other salad materials like cress and endives might be added. In handling vegetables under these or any conditions it is essential that several plantings at ten day intervals are made, so that there will be a continuous and fresh supply coming on.

Rock Gardening

Rock gardening forms one of the most fascinating bits of work a person may tackle. The underlying principle is to create an environment for Alpine plants. An actual slope, or an artificial one is turned into a miniature section of the Alps or the Rocky Mountains. There are peaks, upper gravelly valleys and lower Alpine meadows. It is advisable to use irregular stones, arranging these carefully so as to get the mountain effect but also so that they are securely anchored in the soil with the earth between connected up with the core of the slope so that the roots can penetrate to fairly permanent moisture. Where an elaborate garden is planned, one should provide himself with special literature as in creating a difficult replica of this kind there is great danger in overdoing the thing.

First-Run Sap is Best

One of the peculiarities of maple products is the fact that syrup, sugar or maple cream made from the first-run sap is always the best. Some of the reasons advanced for this are that the first-run of sap is practically pure water and sucrose, while each succeeding run finds a larger percentage of carbonic acid was absorbed through the growing bud and leaf surface, with a direct effect on sap elaboration. tI is also claimed that utensils for gathering the sap and for "boiling down" are in much better condition at the start of the season than they are later on when sugar sediment gathers at the bottom of the boiler or evaporator and when accumulations of sugar begin to carbonize from the heat of evaporation, thereby giving a darker color and stronger flavor. Each succeeding run of sap does give a stronger flavor to the product and also a darker color. This is the reason for the grades in maple products as provoided under the Maple provided under the Maple four grades are "Canada Fancy," "Canada Light," "Canada Medium,' 'and "Canada Dark."

DODDER SPREAD CAUSING ALARM

Parasite Will Destroy Whole Field of Clover or Alfalfa.

CANNOT STAND FROST

Clover Dodder, or Lone Vine as it is sometimes called, is legislated against more than any other noxious farm weed. Mr. George H. Clark, Dominion Seed Commissioner, calls attention to the fact that it has increased to an alarming extent in Southwestern Ontario during the last few years and is apt to become a cause for real anxiety in some districts of the Lake Erie counties of Ontario next autumn.

Must Be Clean.

Export shipments of red clover seed are refused unless absolutely free from the seeds of this parasitic weed. It would seem to be incumbent on Canadian exporters of clover seeds to know the laws of other countries in this matter. It is unfortunate that the farmers of Southwestern Ontario do not fully understand that the introduction of this pest on their farms may establish for them an unsually serious problem—a dodder infested farm. Probably none of them have ever stood by a field of ten or twenty acres of clover or alfalfa lying completely destroyed and blackened as a result of this parasite, the tender vines of which spread rapidly from plant to plan entwining and feeding on the clover stalks.

Frost Kills Seeds.

Clover Dodder belongs to a warmer climate than that of Canada. Sharp September frosts prevents the maturing of dodder seed the first year following a nurse crop, but we have had three successive years with little or no frost injury until late in October, with the result that clover dodder has become well established in some localities and there has been considerable distribution of dodder infested clover seed from farm to farm.

LEGUMES AIDED BY INOCULATION

Wet Method Whereby Seed is Moistened and Culture Applied Proves Best.

ADVISED IN FIRST CROP

(Experimental Farms Note)

Innoculation is strongly recommended when a legume crop is being seeded for the first time, or in cases where previous crops have been unsuccessful, especially of soil and climatic conditions have been otherwise favorable. It is furthermore advisable when a legume is to be grown after a lapse of several years.

The proper bacteria are maintained in the soil only by developing in the root nodules, and if a legume is absent from a soil, the bacteria peculiar to that legume tend to die off, and under average conditions their numbers become so depleted after two or three years that reinoculation is recommended. Thus it is not only in cases where the legume bacteria are completely absent from a soil that inoculation is of value.

Even if some nodules may appear on the roots the extra bacteria contained in the inoculation will frequently be of definite value in producing a more abundant nodule development, and thus permit of more active assimilation of nitrogen for the benefit of the plants.

Inoculation of Value.

Research work has been conducted by the Division of Bacteriology of the Dominion Experimental Farms on various points concerning the practical value of inoculation. Not only has inoculation been found to be of value for alfalfa, sweet clover, soy beans, etc., but also in many cases for red and alsike clovers, peas, beans and other legumes. Investigations have indicated that the wet method of inoculation, whereby the seed is moistened as the culture is applied, is more reliable than the recent devised dry method in which a dry powdery culture is used with the seed dry.

Although this latter method is handier, comparative tests have shown the older wet method to produce better nodulation of the plants. Experiments have also shown that it is best to inoculate just before sowing and that fresh cultures are better than old.

Some of the most dependable commercial cultures now on the market are labelled with the date beyond which they are not considered reliable. When there is any doubt the best policy is to inoculate, since inoculation costs little in comparison with the price of seed and in many cases may be the deciding factor in success. It should be kept in mind however, that inoculation is but one factor in legume production, and that the better the seed, climatic and cultural conditions, the better will be the chance for the culture to perform its useful work.

Bonus Being Paid On Pure-Bred Boars

Commencing January 1st, 1932, if any bona fide farmer or group of farmers purchases a pure-bred registered boar that is of a standard approved by a Representative of the Federal Live Stock a bonus will be given.

For the purpose of paying bonuses, boars shall be classified as follows:

Advanced Registry XXX Boards.
Approved XXX Boars.

An Advanced Registry Boar shall be considered the progeny of a sow qualified in Advanced Registry, and having been approved in type and conformation by an Inspector from the Federal Live Stock Branch.

Under approval the following bonuses shall apply:

Advanced Registry XXX Boars.....$20.00
Approved XXX Boars..... 15.00

Fifty per cent of the bonus shall be paid by the Federal Live Stock Branch immediately following approval; the other fifty per cent by the Provincial Live Stock Branch upon receipt of a satisfactory breeding report for sows being owned by ten or more neighboring farmers, at the end of the first breeding season.

For further information write to your Agricultural Representative.

The last report on the women's clothing industry in Canada shows 455 factories in this line of production and an output for 1930 valued at $61,315,948. The industry employed 16,782 persons and paid $16,483,011 in salaries and wages, while capital invested totalled $23,432,441.

AUTHORS ASK RIGHTS GUARDED IN RESPECT TO BROADCASTING

Prof. Hamburg Claims Canadian Talent Neglected by Home Stations.

TOO MUCH SALES TALK.

OTTAWA, April 13.—(C.P.)—An appeal to the Radio Committee of the House of Commons, that whatever recommendations are made in respect to broadcasting, the rights of the creators of literary and musical works be safeguarded, was made to-day by Prof. B. K. Sandwell, Montreal, member of the executive of the Canadian Authors' Association.

As an association, the Canadian authors had no views as to the method to be adopted for radio broadcasting in Canada, Mr. Sandwell said. They were anxious only to suggest that radio broadcasting can be used in such a way as to be of very great benefit in the production of literary and musical work in Canada.

Would Creck Up Law.

Creators of original material should be adequately remunerated, Mr. Sandwell urged, and he asked that the committee recommend that all radio performers should be forced to comply fully with copyright provisions. It should be impossible for any broadcaster to use any material without observing the copyright law.

Prof. Clement Hambourg, Toronto Conservatory of Music, told the committee the present system of broadcasting was quite unsatisfactory. There was a trend of mechanization that was not in the interests of the mass of people who use radios. He referred to the playing of phonograph music on the radio and the routine sales talks.

From his own experience, Mr Hambourg said the broadcasting stations, maintained through the revenue gained from advertisers often treated artists with an attitude approaching arrogance. Artists were forced to approach the advertisers directly to secure contracts, rather than dealing with the stations.

To Dr. Raymond Morand (Lib. Essex East), the witness said there was no dearth of talent in Canada.

Better Entertainment.

Public ownership, the witness thought, would mean greater encouragement to local talent, and a better variety of entertainment.

You mean that devilled ham, pork and beans, and lipstick controls radio programs to-day, suggested E. J .Garland, U.F.A., Bow River.

Absolutely, replied Mr. Hambourg. The broadcasters are out for gain, and will not pay for Canadian talent when they can use United States programs more cheaply. The witness added that there were many good programs brought in from the United States stations for rebroadcast in Canada. But there was a great deal that was far from good, and those, he thought, should be replaced by Canadian artists.

Files Suit

MRS. MARIAN Y. READ

shown here, has filed suit for $100,000 against Claire Windsor, film star, charging alienation of the affections of her husband, Alfred C. Read, Jr., former University of California athlete. Mrs. Read, mother of two children, also filed suit against Read, charging cruelty.

Obituary

MARY JANE WILLIAMS

OMEMEE, April 13 (Examiner Correspondence)—The funeral of the late Miss Mary Jane Williams was held from the home of her brother, John Williams, Sturgeon street on Friday.

The late Miss Williams was the daughter of the late Mr. and Mrs. Hart Williams. The deceased was ill only a few weeks and death occurred suddenly on Wednesday at noon. She was very highly respected and esteemed and a life-long resident, having been born in Omemee 67 years ago.

The funeral service was conducted by the Rev. Mr. Scott of Cannington assisted by the Rev. Mr. Weir of Christ Church, Omemee.

Left to mourn her passing is one sister, Mrs. Arthur Williamson and one brother, John J. Williams.

Those from a distance who attended the funeral were Mrs. T. Osborne, of Hamilton; Mrs. E. Hazelwood and Doreen, of Hastings; Mr. J. Shaw, of Huntsville; Mr. L. Nicholson, Mr. H. Nicholson and Miss Mary Nicholson, of Bailieboro; Mr. and Mrs. D. Carnochan of Peterborough and Mrs. W. Spencer and son Harold.

WILLIAM A. HOUGHTAILING

ROSENEATH, Apr. 13 (Examiner Correspondence)—The funeral of the late William Albert Houghtailing of the township of Alnwick, took place on Saturday afternoon, April 9th from his late reesidence to Warkworth cemetery for interment. Deceased had been failing in health for several months, yet at times was up around the house until Tuesday, he took worse and died suddenly on Wednesday afternoon.

The funeral services at the house and graveside were conducted by the rector, Rev. Francis Battersby of St. James' Anglican Church, who took his text from St. Luke 20-38, "He is not a God of the dead but of the living, for all live unto Him."

The late Mr. Houghtailing was nearing his 82nd birthday, and was born, lived his entire life on the farm on which he died. His parents were among the first settlers of this district that the deceased was one who lived in the pioneer days clearing land and cultivating the soil.

In politics he was a Conservative but never took any active part in any municipal affairs. He was of a quiet, reserved disposition and had a host of good friends and neighbors.

In spite of the bad roads there was a large gathering to pay their last respects to the deceased, on Saturday afternoon.

Many beautiful floral tributes gave evidence to the high esteem in which the deceased was held.

Surviving are his widow, formerly Elizabeth Ann Yule, one brother, Mr. Erza Houghtailing of Cobourg; and two sisters, Mrs. Margaret Dennis of Toronto and Mrs. Sarah Cornelius of Warkworth.

The pall-bearers were, John Baxter, John T. Drope, Fred Norris, Cecil Radley, Harry Coyle and George Weir.

Those from a distance who attended the funeral were Mr. and Mrs. Thomas Yule, of Castleton; Mr. and Mrs. George Sykes, Donald Yule, of Warkworth; Mr. and Mrs. Keys and son, Jack, Mr. and Mrs. Dennis and son Austin, Toronto; Mrs. John Smith, Weston; Mr. James Houghtailing, Port Hope; Mr. G. Houghtailing, Toronto, and Mr. and Mrs. Albert Fautley, of Toronto

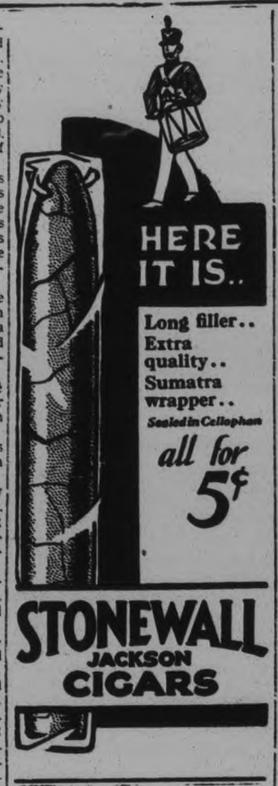
VICTOR SHEWIN.

LAKEFIELD, April 13 (Examiner Correspondence). — The funeral of Victor Shewin was held on Monday afternoon at 2 o'clock at St. John's Church, with Rev. W. J. Creighton and Rev. E. C. Moore officiating. Mrs. J. M. Twist was at the organ and the choir sang two hymns, "Nearer, My God, to Thee" and "On the Resurrection Morning." The address was given by Rev. E. C. Moore of Young's Point, who is also in charge of Holy Trinity Haultain where the deceased gentleman was one of the leading laymen and the tribute paid the deceased by the speaker was a worthy one to a fine young man whose consideration for others and his high ideals of life were noteworthy. As a son, a husband, and a father, as a citizen and a churchman, he set a high standard and lived up to it, and we feel assured of his future in the Paradise of God.

The pall-bearers were: Messrs. Hilliard Reid, Joseph, Oscar, O'Ive and William Church, and William Millar. Interment was made in the Lakefield Cemetery.

The late Victor Shewen was born in Burleigh Township, thirty-nine years ago, and practically all his life was spent there, where he was held in the highest regard. The attendance of a very large number of neighbors, who braved the unspeakably bad roads to pay a tribute of respect to him, was in itself a testimony to his standing in the district. Mr. Shewen was the fourth son of the late Mr. and Mrs. Payton Shewen, of Burleigh, and was married about fourteen years ago to Emily Church, daughter of Mr. and Mrs. Allan Church, of Mount Julian, who with four sons mourn his loss. Mr. Shewen had been in poor health for some time and had been at the home of Mr. Fred Crawford in the village for several weeks under the doctor's care, and last week he was taken to St. Joseph's Hospital for treatment, but he did not respond, and passed away early on Saturday afternoon. Besides his wife and sons, four sisters survive, Mrs. Brown of Toronto, Mrs. Fred C. Crawford and Miss Gladys Shewen of Lakefield, and Mrs. Hilliard Reid of Douro. There are also three brothers, Cecil of Mount Julian, Travers of Nassau, and William of Burleigh.

Mr. Shewen was well known and highly respected by the summer colony at Mount Julian and his passing was a great shock to a wide circle of friends. Victor Shewen had richly earned the right to be called a true Chirstian gentleman.



Lakefield

A.Y.P.A. Card Party.

Prizes at the card party held on Thursday evening last, under the auspices of the A.Y.P.A. were Miss Amy Watson and Mr. George Chappell, while the second prizes were won by Mrs. F. G. Kendall and Rev. W. J. Creighton.

OMEMEE PLANS OLD HOME WEEK

Chautauqua Program Will Be Presented in Omemee Next Week.

YOUNG PEOPLE MEET.

OMEMEE, Apr. 13 (Examiner Correspondence)—A well attended meeting of the citizens of the village was held in the Coronation Hall Monday evening with Harry Lamb, president of the Omemee Athletic Association in the chair. A nominating committee was appointed to nominate committees to arrange for an Old Home Week. A further meeting will be held on Friday evening, Apr. 15, when it is hoped there will be a large response from all citizens.

Chautauqua Program

A rare treat is in store for the people of this vicinity next week, when the Canadian Chautauqua will be brought here April 21, 22, 23 and 25th. The twenty-five men who make this high-class entertainment possible have received letters outlining the various programs.

That famous Hawaiian Company which appeared on the big Five Day Circuit in 1930 will appear in the spring circuit. Dr. Elwood I. Bailey eminent lecturer, will be here with his message "All Aboard" which was so enthusiastically received in both the East and West recently. For those who appreciate good music Hugo Brandt, a noted Polish pianist and entertainer will more than delight. For the benefit of the children the Marionette Company, that was so much enjoyed in some of the larger cities of the province last summer, will appear on Saturday afternoon.

The Peerless players will stage "Bought and Paid For," a strong drama with clever comedy bits running throughout. The Havlon Players will bring "Old Crusty Takes the Air."

Trinity Young People

Monday night was missionary night at the Young People's Society of Trinity United Church. Miss Lily Race had charge of the meeting and Miss Evelyn Morcombe presided at the piano owing to the absence of the regular pianist.

The opening worship period was featured by the singing of hymns and the minister, Rev. Mr. Blanchard leading in prayer.

The scripture lesson was read by Miss Doris Vaughan and Miss Race gave an appropriate address on "Foreign Missions" which was both interesting and profitable.

The next Monday night meeting will be cancelled owing to other social activities.

A baby boy was born to Mr. and Mrs. Alvin Pogue on Saturday.

Mrs. Mathews of Port Hope is visiting with friends in the village this week.

Mrs. Hunt of Toronto visited her parents and children here on Sunday.

Mr. and Mrs. C. Cornell of Orangeville visited the former's parents, Mr. and Mrs. T. C. Ivory on Friday.

Mr. and Mrs. Carnochan of Peterborough were the guests of Mr. and Mrs. A. Williamson on Friday.

GIRL GUIDES

Norma McInroy Receives Second Class Badge.

MARMORA, April 13 (Examiner Correspondence).—Another good attendance marked the weekly meeting of the 1st Marmora Company of Girl Guides held at the White Hall on Monday evening.

Following prayer, Captain Mrs. Pearce carried out the inspection, finding all Guides trim and neat. At patrol corners, second-class test work in its various stages was taken up. A member of the company, Norma McInroy, then received her second-class badge, the Guides taking up the horseshoe formation as she was thus honored.

Then came a number of rollicking songs, after which the Guides became more familiarized with a game taught them the previous week by the Havelock Guides. This game is called 'The Grand Old Duke of York."

After the Guides' yell had been given, Taps was sung and the company dismissed. Material for new uniforms was issued to a number of girls at the close of the meeting.

Queensboro

Mr. and Mrs. John O'Rourke and the Misses Jennie Thompson and Marion Love were in Kingston on Thursday.

Mrs. J. F. Everson attended the Presbyterial meeting held in John street United Church, Belleville, on Wednesday and Thursday.

Mr. and Mrs. Daniel Gunsolus and Miss Alma and Mr. Charles Keene were in Belleville on Wednesday, attending the funeral of a friend.

Mr. Edmund Groves has been sawing timber. The haul of logs this year was not as large as usual.

Mr. Goldwin Holmes was a visitor to Belleville on Wednesday.

Mrs. George Harris represented the W.M.S. of Hassard's Corners at the Presbyterial meeting in Belleville on Wednesday and Thursday.

The farmers report a good run of sap the last few days.

Mr. and Mrs. Stanley Haydon of Hallowell, spent Sunday with Mr. Charles and Miss Alma Keene.

ZION.

(Smith Township.)

Mr. Oscar Cromie was in Lakefield a few days ago, on business.

Mr. Ernest Mahood has recovered a number of young cattle which strayed away a few days ago.

Although all ingredients had to be imported 1,000,000,000 pounds of marcaroni were made in Switzerland last year.

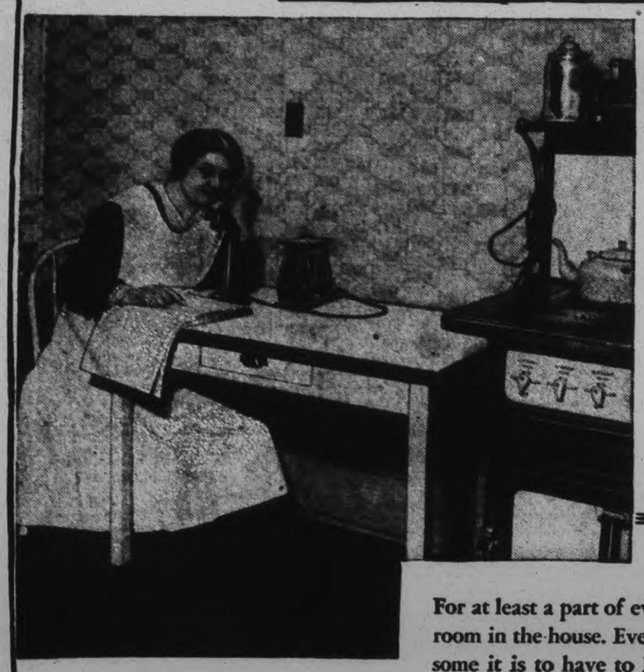
Iwan Davies, the seventeen-year old Welsh choir boy, who recently sang before the King and Queen at Buckingham Palace, is to sing in a London cabaret for $90 a week.

No kitchen is complete without a Telephone



For at least a part of every day, the kitchen is the busiest room in the house. Every housewife knows how troublesome it is to have to leave the kitchen to use the telephone or to answer calls.

An extension telephone in the kitchen is not only a great convenience but almost a necessity. It costs only a few cents a day and is worth many times that in the time it saves, the extra steps it avoids, the spoiled cooking and constant annoyance it prevents.

Any Bell Telephone employee will be glad to give you particulars about putting an extension telephone in your kitchen, and will see that your order is promptly carried out.

Healthy, happy Canadian youngsters

Look around you at young Canada . . . sturdy, healthy bodies . . . bright eager faces . . . the picture of health.

Many of these youngsters, like their parents before them, were brought up on Christie's Arrowroots. Mothers prefer "Christie's" because they are made of *pure* arrowroot, containing all the nutritious, body-building elements necessary for growing children.

There is no substitute for
Christie's Arrowroots

Examiner's Homemakers' School Opens in Opera House

1,100 WOMEN IN ATTENDANCE ON OPENING DAY DESPITE RAIN COOKING METHODS ARE OUTLINED

School is Being Conducted by Miss E. Frances Thompson.

VALUABLE PRIZES.

Mayor Denne Officially Opens Peterborough's Second School.

Under the wide proscenium arch of the Grand Opera House, an electric range and an electric refrigerator do their stuff this week. There have been many actors come and go on these old boards. Sir Harry Lauder, with his burring Scotch tongue, singing "The End of the Road" to a thrilled house; Ethel Barrymore's famous voice echoing in "Checkmate"; the bloodhounds of "Uncle Tom's Cabin" pursuing Eliza over shaking ice floes; they all had their day, but was there ever such an intent audience or such enthusiasm for any of these as is manifested in the listeners and watchers of the Peterborough Home Makers' School, sponsored by The Examiner and conducted by Miss E. Frances Thompson, graduate of National Training College of Domestic Science and Economics of London, England, whose pleasant English accents charm the ears of her audience with recipes to satisfy the inner man.

Over eleven hundred women gathered yesterday afternoon for the opening session of the three-day series, standing in a long queue for more than an hour in the drizzling rain, awaiting the chance of a seat for the afternoon's program and for a chance to receive one of the thirty and more prizes given away daily.

Miss Thompson was assisted by two of the pupils of the Household Science classes of the Vocational School, Miss Alberta Frost and Miss Margaret Patoine, the three ladies in their spotless white smocks chiming in admirably with the attractive white and grey finish of the enamelled kitchen fixtures and the gay enamelled utensils in use.

All the electrical appliances used in this School are products of the Canadian General Electric Company, while a lengthy list of local stores assist in donations of various articles given away every day and in the list of special awards. The grand prize, to be drawn for on Thursday afternoon, will give some lucky feminine citizen the choice of a C. G. E. electric stove, radio or washer. All three are on view in Grant and Thorpe's window.

The fact that the prizes for this School are better than those awarded for the October Cooking School was emphasized by R. M. Glover, managing director of The Examiner, who opened the proceedings with a brief speech in which he thanked the ladies for their attendance.

Mayor Denne also spoke briefly, congratulating Mr. Glover and The Examiner for constant efforts in behalf of many community services. He went on to speak of the good to be gained, in the way of providing work for local men, by buying products of the Canadian General Electric Company and of the Quaker Oats and of the Ovaltine factory, all of whose goods are included in this demonstration.

Modern Cooking Methods

Many hints as to the manner in which electric ranges and their uses make changes in older methods of cooking were gleaned from the demonstrations made by Miss Thompson.

For instance, in roasting meats by electricity, the meat is placed low down in a cold oven, with no seasoning, which hardens the surface. There is no preliminary searing, as the meat is exposed to both top and bottom elements and sears gradually, in this way losing far less juice than by the older method. A four-pound roast of beef, calculated at 22 minutes to the pound, was taken from the oven yesterday with only a third of a cupful of juice, mostly dripping, recovered from the pan. Although gravy is not as easily manufactured in this way, the juices are retained in the meat to a far greater degree. A shallow, uncovered pan was used. Then, in cooking vegetables, only one cup of water in a shallow pan was allowed for potatoes, while diced beets and carrots had no water added and were moistened only with a little butter. They retained their color, flavor and nourishing properties to a much greater degree, with this method. Miss Thompson, answering a question from the audience, said that any ordinary cooking utensil might be utilized and that special utensils were not necessary for such vegetables preparation.

The recipes demonstrated yesterday included an Orange Sponge, which, by the way, is not for those who are "banting", or reducing in weight, but is more suitable, with its orange juice and eggs, for invalids; Cinnamon Rolls which were contrived with the aid of ice box baking powder biscuit dough, prepared at any previous time and allowed to stand, wrapped in waxed paper, in the refrigerator until needed; an Emerald Isle salad that had a delectable inward content of cream cheese, mayonnaise and whipped cream, mixed and superimposed on slices of canned pineapple, decorated with strips of green pepper; chocolate ice cream and baked stuffed fish.

There was also a demonstration of coffee making in which cold water was used, in the ratio of four measuring cups of water to four rounded tablespoons of coffee, with a few grains of salt to bring out the flavor, and a percolating time of eight minutes.

Special Treats

To two ladies in the audience went glasses of Ovaltine made on the stage by Miss Thompson, while four ladies enjoyed cups of coffee. New uses for Ovaltine were suggested, as a sprinkling for hot buttered toast in place of cinnamon, also as a sprinkling for porridge.

The way in which Rinso takes dirt out of clothes was also demonstrated in the same bulnesslike and efficient manner in which Miss Thompson conducted the entire demonstration, getting through a large amount of work in brisk and interesting fashion.

The use of Onliwon sterilized towels, the product of the E. B. Eddy Company, was a feature of the afternoon ,these special fibrous articles serving several purposes. The demonstrator Miss Dorothy Lyons, representing the Eddy firm, is at present in the city making arrangements for the sale of the compact little wall cabinets in which these towels are stored.

The afternoon's program included a very snappy and attractive Fashion Parade put on by the Canadian Department Stores, with the Misses Marcelle Garvey, Minnie Ebbs, Fanny Doris and Lillias Grierson as models for a series of pretty garments that ranged from trim breakfast time frocks of colored linen, gay house pyjamas and neat house dresses, to luncheon gowns and frilly things for afternoon tea. Frocks for evening dinner were of crepe and lace with embroidered bands and short jaquettes, while Sunday supper attire was illustrated in filmy, long models of floating floral patterned chiffons in combinations of bronze and yellow, of pale green and pink, of rose and blue and beige. Miss Marthe Baumer played piano accompaniments for the parade, which brought many outbursts of applause from the watchers.

Miss Thompson drew attention to the very attractive dining-room furniture from the Cain Brothers' store. Draped in gleaming white linen decorated uniquely with a hand-painted floral design that also appeared on the napkins, the table shone with glistening china and glassware, which, like the linen came from the Canadian Department Stores. In a new and very attractive mode, the china is developed in the same pattern as the silverware, while the silver pattern of the glass also follows the same design. The table silver is from Schneider Brothers' store, which also furnishes one of the special prizes, a chest of Community silver in the Lady Hamilton pattern.

A large vase was filled with seagull narcissus and pink carnations from the D. Jordan store, which also provides the pretty ferns that edge the stage.

Firms Co-operating

The following is the list of those co-operating generously in various ways in presenting this demonstration: Lever Brothers, soap manufacturers, Lux soap, flakes and Rinso; Fitzpatrick & Gilchrist, groceries; New Centre Meat Market, meat; Asta Brothers, fish; Quaker Oats Company, Limited, ficur; National Grocers, jam and marmalade; Canadian Packing Company, shortening; General Foods, Maxwell House coffee; Stock's Bread, Limited, Vitos bread; Sunshine Dairy, dairy products; A. Wander Company, Limited, Ovaltine; Canadian General Electric Company, all electrical appliances, and grand prize of either electric hotpoint range, radio or washer, with C.G.E. refrigerators from local agents, Watson Tire Service and C.G.E. hotpoint ranges from local agent Grant and Thorpe and W. Gordon Hall; Bell Telephone Company, telephone on stage which illustrates advantages of a 'phone in the kitchen for the home-maker's use; Cain Brothers, dining-room furniture; Home Furnishing Company, kitchen furniture; Canadian Department Stores, dining-table linen, china and glass, also kitchen utensils; Schneider Brothers, special prize of chest of Community plate, three prizes of silver jelly spoons and table silver; Peterborough Utilities Commission, light and power in use for three days; Lansfield's who are donating the cleaning of one dress daily to the lucky winner of the service; Welch's Beauty Parlors, whose special ladies' parlor was mentioned by Miss Thompson yesterday; J. J. Duffus, Limited, furnishing for Miss Thompson's use a new model Pontiac equipped with the new transmisson; the E. B. Eddy Company, paper towels; Ed Hawes floor wax; D. Jordan, who furnish flowers daily as table decorations and prizes and T. Hooper and Sons giving a prize cake daily.

Included in the twenty-five premium bags which are drawn for daily are the following articles, in a very generous and fine assortment: Tin of Hawes' floor wax, package of Rinso, quart of milk, package of shortening, sample package Onliwon paper towels, loaf of Vitos bread, Lux toilet soap, sample tin of Ovaltine, sample of Swansdown flour, Lux flakes, package of Maple Leaf sliced bacon jar of jam or marmalade from the National Grocers.

To-day, a bag of Quaker flour was also given with these baskets, as well as an electric waffle iron, also a special lamp from Cain Brothers' showrooms.

Winners of Prizes

Yesterday, the drawing for the premium bags and special daily prizes was made by Miss Frost, and Mr. Glover announced the winners, as follows:

Winners of the twenty-five premium bags: Mrs. J. S. Bell of 451 Water street; Mrs. Rose of 352 Simcoe street; Mrs. A. Dugan of 161 Rutherford street; Mrs. Buckland of 594 Sherbrooke street; Mrs. H. Killenbeck of 278 Braidwood avenue; Miss E. Ellicison of 37 Stewart street; Mrs. Rishea of 231 King George street; Mrs. Fred Elliott of 263 Charlotte street; Mrs. W. Whaley of 335 McDonnel street; Mrs. Wood of 455 Aylmer street; Mrs. Hill of 97 Robinson street; Mrs. Head of 59 Olive avenue Mrs. Robertson of 174 Lock street; Mrs. Pringle of 381 Queen street; Mrs. Cadigan of 76 Monaghan Road; Mrs. Leach of 16 Stewart street; Mrs. Selkirk of 30 Stewart street; Mrs. Moore of 298 Margaret avenue; Mrs. Chapman of 185 Bethune street; Miss Dolan of 124 Rubidge street; Mrs. E. Fisher of 278 Dalhousie street; Mrs. H. White of 311 Stewart street; Mrs P. J. Siddall of 108 Lansdowne street; Mrs. Hitchens of 542 Wolfe street; Mrs. R. Hcustan of 46 Ware street.

The following were winners of Tuesday's special prizes: Flowers from D. Jordan, Mrs Barrie of 488 George street; cake from Hooper's, Mrs. Galvin of 342 Charlotte street; cleaning dress order from Lansfield's, Mrs. Smith of 428 Murray street; 3 silver jelly spoons in each of three packages (nine spoons in all), Miss H. Wade of 87 London street, Mrs. Hall of 616 Chamberlain street, and Mrs. Carter of 531 Lock street; bag of Quaker flour, Mrs. Jackson of 336 George street south; tin of Hawes' floor wax, Mrs. Esson of 6 Benson avenue.

Mrs. Pink of 696 George won the choice of articles cooked on the stage yesterday, and took the four pound roast of meat and the vegetables.

To-morrow sees the concluding and third day of the Peterborough School of Cooking and Home Economics sponsored by The Examiner, and doubtless a bumper crowd of ladies will be on hand for the final demonstration.

OPPOSE STATION CHANGE

PORT HOPE, Apr. 13—While the request of the Township of Hope to have the name of the Village of Campbellcroft changed to Garden Hill, the name by which the village was originally designated, has been brought before the Postmaster General's Department and the officials of the C.N.R., little success has been made, it was reported at the regular meeting of the council.

SHOWER IS HELD FOR YOUNG COUPLE

Mr. and Mrs. Fred Clarkson Honored at Bridgenorth Gathering.

BRIDGENORTH, Apr. 13 (Examiner Correspondence)—The people of the village and community met in the Foresters' Hall at about 8.00 p.m., with Mr. and Mrs. Fred Clarkson of Lakehurst, Ont., as guests of the evening. A short program was run off when community singing, choruses, readings and addresses were given. Olive Sidey and James Jopling each gave two very much appreciated readings. Mr. and Mrs. W. Sidey sang "Speed Away." Messrs. Fred Jopling, M. McWilliams and R. J. Merriam gave short addresses.

Then the new bride and groom, Mr. and Mrs. Fred Clarkson were invited to take chairs on the platform. P. T. Udy read a short address while Garbut Mann, R. T. Petterson and Fred Jopling with the assistance of the ladies presented the happy couple with a shower of some hundred useful and beautiful articles. Mr. Clarkson thanked the people in a few appropriate words for the beautiful gifts.

Weddings

GRILLS—CARNEY.

ROSLIN, April 13 (Examiner Correspondence). — A quiet wedding was solemnized at two o'clock on Tuesday afternoon at the rectory at Roslin, when Bernece Mildred, daughter of Mr. and Mrs. Oscar Carney, of Roslin became the bride of Charles, son of the late Mr. and Mrs. Samuel Grills, of Thomasburg. The ceremony was performed by Rev. E. N Grant, of St. Paul's Church, here.

The bride wore a lovely gown of beige georgette over satin, with matching hose and black patent slippers. The bride's travelling dress was of navy crepe. She wore a sand coat with fox fur collar, and hat and hose to match.

The bridesmaid, Miss Leona Grills, wore a black and colored printed crepe dress with hose and shoes to match.

The groom's gift to the bride was a wrist watch, to the bridesmaid jade earrings and necklace, and to the groomsman gold cuff links.

Mr. and Mrs. Grills started on their honeymoon after the ceremony, motoring to Peterborough, Toronto, Niagara Falls, Detroit, and Cleveland, Ohio.

The answer to this Question GUARANTEES FULL-FLAVOURED COFFEE

"GOOD TO THE LAST DROP"

Don't drink just coffee. Drink *one hundred per cent. full-flavoured coffee.* First, ask yourself this question—"Is there air inside the tin or package you buy?"

If there is — coffee deteriorates, loses flavour.

If there isn't—that coffee keeps full flavour indefinitely.

Here is the Answer
Vita-Fresh Packed Coffee

That means Maxwell House packed by the exclusive Vita-Fresh process which alone removes and excludes all traces of oxygen from the sealed tin.

Maxwell House is smoother, richer, more satisfying. Simply because the world-famous quality of the Old South's noted blend is now fully, completely protected—more so than any other coffee sold today.

From your grocer. Look for the words "Vita-Fresh" marked on the sealed and locked tin.

Air Inside the Tin or Package Does the Damage

Loose or bag coffee loses 65% of its flavour in 9 days after roasting.

Coffee in old-fashioned tins or cardboard cartons loses 45% of its flavour in 9 days after roasting.

MAXWELL HOUSE COFFEE

CLOSED SEASON ON MOIRA

BELLEVILLE, April 13.—According to I. J. Lyons, Inspector of Game and Fisheries for this district, there is a closed season for pickerel and pike in the waters of the Moira River. The Bay of Quinte is considered a part of Lake Ontario, and therefore there is no closed season for pickerel or pike there. Several fishermen have been warned in this city, as they had begun spearing and grappling fish in the Moira River.

Wholesale commodity prices in Germany are the same as in 1913.

AMAZING FOOD VALUE

To-day's thrift dinner with HEINZ COOKED SPAGHETTI

57¢ serves this delicious dinner for 4

HEINZ COOKED SPAGHETTI
BACON PEAS
BRAN MUFFINS and BUTTER
CUP CUSTARD TEA

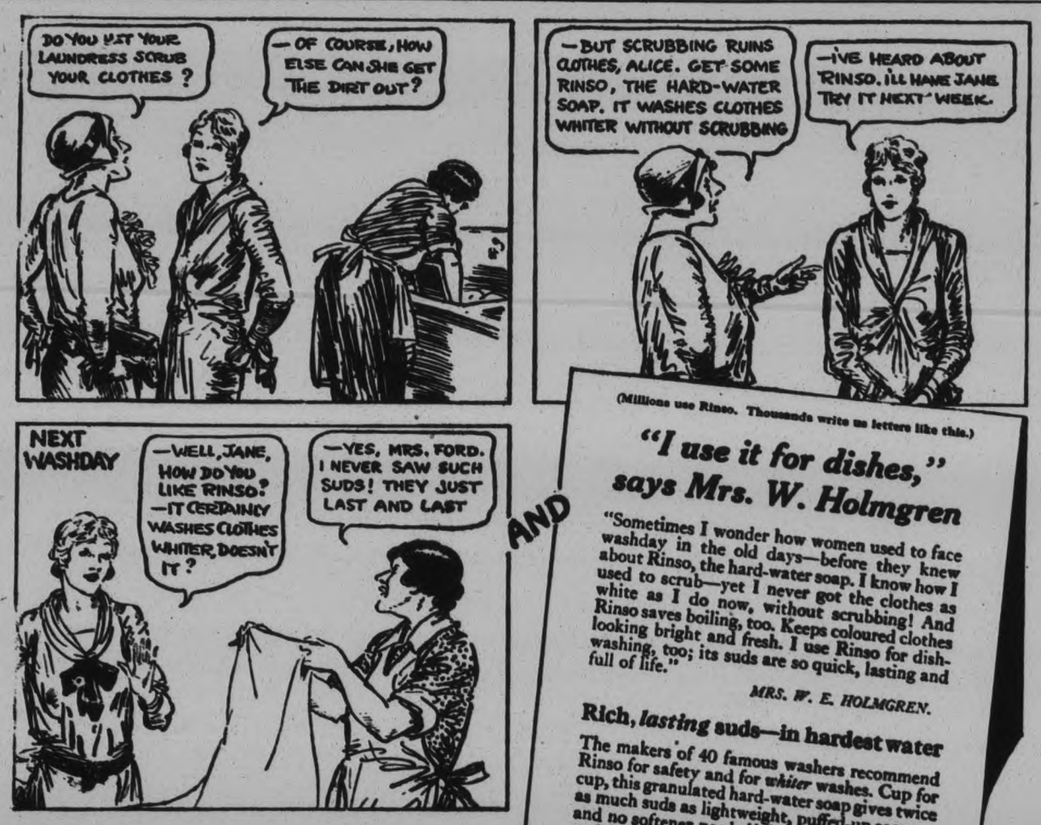
HEINZ COOKED SPAGHETTI READY TO SERVE



(Millions use Rinso. Thousands write us letters like this.)

"I use it for dishes," says Mrs. W. Holmgren

"Sometimes I wonder how women used to face washday in the old days—before they knew about Rinso, the hard-water soap. I know how I used to scrub—yet I never got the clothes as white as I do now, without scrubbing! And Rinso saves boiling, too. Keeps coloured clothes looking bright and fresh. I use Rinso for dishwashing, too; its suds are so quick, lasting and full of life."

MRS. W. E. HOLMGREN.

Rich, *lasting* suds—in hardest water

The makers of 40 famous washers recommend Rinso for safety and for *whiter* washes. Cup for cup, this granulated hard-water soap gives twice as much suds as lightweight, puffed-up soaps—and no softener needed! Safe for finest cottons and linens. Get the BIG package. Try Rinso for dishes and all cleaning.

Last evening, one of the very pleasant informal gatherings at which the Social Parties ("They are Limited") of the Canadian General Electric Company act as hosts, was held in the hall of the Canadian Legion. These Get Together functions are marked by an atmosphere of cheerfulness and geniality that pervades every minute and appears to ensure a good time for every guest. The program never lags and every item is planned ahead of time, so that things move just like clockwork. Alderman R. Cotton acted as host last evening, presiding for the dinne. which was a very delectable affair of roast chicken with all the trimmings, served at tables laid in the ..per hall and decorated with long red .reamers and gay little potted plants. Later, bridge games were played in the .ower hall, with seven fine prizes that included silk .jama sets, kid gloves and con.olation awards in a gentlemen's leather belt and two pairs of embroidered pillow slips for the lady. A very special prize, on a lucky draw, was a bridge table, complete w.. cover, playing cards, score pads and smoking and candy accesories. Chocolates went the rounds of the tables during the evening and there were special favors for each lady in a double deck of playing cards, embossed in silver and black, with modernistic designs, in dainty cases. Aus Nixon's six-piece orchestra played for the dancing program which concluded the evening's entertainment. At last night's gathering which was the tenth of the series sponsored by the Social Parties, about two hundred and forty guests were present.

FASHION SERVICE

A light topped bodice on this wee maid's dress is so charming and different.

And it's the easiest thing imaginable to make it.

Isn't it darling the way it simulates a front scalloped closing? And note a similar idea is carried out in the sleeve toward the wrist.

Marine blue tweed-like cotton with plain blending tone and brass buttons made this cute model.

Brown linen with yellow is also very effective.

Style No. 2702 may be had in sizes 8, 10, 12 and 14 years. Size 10 requires 2 yards of 35-inch material with ⅜ yard of 35-inch contrasting.

Pique, batiste, prints and cotton broadcloth are lovely for this smart model.

Size 10 requires 1¾ yards 35-inch with ⅜ yard 35-inch contrasting.

Our new Spring Fashion Magazine is out! Every page from cover to cover is in color.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred). Price of book, 15 cents. Price of pattern, 15 cents.

Y.W.C.A. PLANS FOR PAGEANT

Committees Are Hard at Work Getting Ready for Big Event of Year.

DEFICIT ON BOOKS.

The regular meeting of the Young Women's Christian Association was held Monday afternoon, Mrs. E. E. Harvey presiding.

The most important item on the business program was the report of the plans for the coming Gymnasium Pageant, to be held Friday, April 29th in the Grand Opera House. Miss Littlefield, physical director, outlined the work of the various committees in connection with the sewing, advertising and ticket circulating, all of which is well looked after. The program for this year's pageant promises to be the best yet. Following the exhibition of intricate dumbell, wand, reed and club exercises performed with precise rhythm by large classes of wee tots or seniors, and the Danish gymnastics of the advanced class, there will be a clever and dainty ballet "Mother Goose Characters Gone Modern".

The costumes and quaint and attractive dances of this part of the program, also the commical wee blackbirds and nursery characters and the funny tap stepping micky mice will provide a spectacular and interesting pageant. Every member was asked to sell as many tickets as possible and advertise the Pageant.

The physical director also reported the regular month's work including the final basketball games and banquet.

The financial reports were read by the treasurer, showing a deficit on the association. This year because so many have been out of employment the receipts have not been as large as in other years and also the expenses have to increase because the Association felt in times of depression its many services were even more needed in providing recreation, rooms and meals, educational opportunities, encouragement, employment, and friends. The hope was expressed that with some subscriptions still to come in, some fees and the Pageant returns that the deficit would be reduced.

Correspondence included details of the National Y.W.C.A. convention, May 26th to June 2 and also an invitation to Peterborough members to meet the world's Y.W.C.A. president, Miss van Asch van Wyck in Toronto, April 21, or Hamilton May 22. Miss Van Asch van Wyck will also speak over the radio from WJZ Thursday, April 14 at 4 o'clock.

The camp committee reported that Miss Wilson, camp director of last summer, would again be charge of camp with the same cook and caretaker and Miss Jane Coventry had been appointed sports officer. New beds, mattresses and covers have been purchased and everything will be in readiness for a good camp holiday. The camp shower will be held May 9th. Every one interested in 'Y' Camp is cordially invited to come. Tea will be served at 3.30 to 6 o'clock. Suggested gifts for camp were fruit, pickles, canned goods, cups and saucers like the camp set, tea towels, etc.

The meeting closed with prayer, followed by tea.

A.Y.P.A. PLAY WELL RECEIVED

St. John's Young People Present Comedy "Let's Get Married."

REPEATED TO-NIGHT.

In most plays of the type one expects the hero of the piece to attain his every desire with the drop of the final curtain, but in that respect the three act comedy "Let's Get Married," presented by St. John's Church A.Y.P.A. is different.

Roger Ames, son of a wealthy New Yorker, capably played by Leslie Dyer is sought by several girls throughout the play and being frustrated in his desire to gain Eva Smith, "the Wild Rose," a part which was well-filled by Miss Enid Welch, he sticks to bachelorhood Just what happens to the girl presents the surprise element.

Well produced under the direction of Bert Hayter, the comedy provides a highly acceptable entertainment. It was well received last evening at the Church Parish Hall considering the adverse weather conditions, and is to be again presented to-night at 8.15 o'clock.

Under the joint direction of Messrs. Reg Dyer and Jack Marshall, the Sunday School orchestra gave numerous musical selections during the intervals between the acts.

The entire action of the play takes place in the drawing room of the Ames home in New York. The full cast is as follows. Eva Smith, Roger's Wild Rose, Miss Enid Welch; Maggie Miller, Eva's best friend, Miss Olive Shurety; Loring Ames, a wealthy New Yorker, Mr. Bert Graham; Roger Ames, his only son, Mr. Leslie Dyer; Pierre Ruisseau, the French chauffeur, Whitty Thirnbeck; Walton the English butler, Harold Hutchinson; Evelyn Spring, the social tutor for Eva Miss Florence Hutchison; Mrs. Wolcutt, Roger's aunt, Miss M. Thornton; Joan Ames, Roger's aunt, Miss Audrey Heap.

To summarize the plot: Roger Ames is in love with Eva Smith much to the consternation of his father. Objection to the match is made on the grounds that the girl is below Roger's station in life. Roger's aunt, who likes chocolate cake and romance, tries to reason with her brother, Roger's father, to no avail.

The father, determined to divert his boy's attention from what he believes to be a mere infatuation, allows his son to bring the girl home. He then engages a social tutor to school her in the ways of high society. The "Wild Rose" turns up at the house in company with her best friend Maggie Miller.

The appearance in the household of the girls, coupled with the romantic tendencies of the usually staid butler and the temperamental French chauffeur allows fullest latitude for the introduction of the comedy element, which is carried through by the entire cast in very commendable fashion.

For a while it seems as if the Wild Rose is becoming cultivated even so the boy's aunt still disapproves of Eva. The butler finally captures her, but that is not the end of the plot. It is as surprising as it is funny. To divulge it would of course spoil the fun for the audience which is to view the play to-night.

Welcomed Dr. Barr To Shelter Board

The Rev. Dr. A. T. Barr was yesterday afternoon welcomed by President the Rev. J. H. Sutcliffe to the Board of the Children's Aid Society, and was also congratulated on his recent elevation as president of the Religious Education Council of Canada.

It was reported during the course of the meeting held in the Council Chamber, that improvements at the Children's Shelter were practically completed with the exception of work to be undertaken in the grounds and the re-painting of the playhouse.

It was also voted that the property committee be authorized to expend the sum of $57.50 for repairs necessary to the roof at the east end of the shelter.

A communication was read from the Rev. Dr. R. C. Bisgrave, in response to a message of congraulation previously sent to him by the board on his elevation as Archdeacon of Peterborough.

ELECTION TACTICS

CHICAGO.—A Democratic precinct captain was wounded by a shot and an election judge was clubbed to-day, climaxing several disturbances at the polls in the primaries.

Rehearses For Ramona Pageant

SPIRIT OF SPAIN.

Surrounded by the auro of romance and glamor that belonged to Old Spain, Carlotta Cortez strums her guitar and softly sings her love song at Hemet, Calif., while rehearsing her role in the coming Ramona pageant, a feature that attracts visitors from all parts of the country.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

The value of filing material is so well recognized that this work has become a business in itself.

* * * * * * *

That is to say firms often employ persons to do this work, and these persons have taken courses at colleges or business schools to fit them for the task.

* * * * * * *

In the home, filing is not so complicated or involved that the homemaker cannot apply some system she may have learned or thought out for herself whereby she can keep track of the various articles in the home, of recipes, letters, and papers, etc.

* * * * * * *

To facilitate such filing, manufacturers have brought out small boxed card filing catalogues, with headings, "from soup to nuts," to use a current expressive phrase.

* * * * * * *

Also there are such files with alphabetical headings alone. These are helpful, but not essential as any woman can make her own card catalogue files, or whatever files she prefers such as blank loose leaf files, etc.

* * * * * * *

Do you have important papers that you may need to get at some time hurriedly? If you have them alphabetically filed and put away in safe keeping, there is no trouble about finding just the very paper which is essential at the time.

* * * * * * *

If the container of the papers is stowed in some hidden spot, keep a filed record of where the container is. This means a great saving of time and flurried search later on.

* * * * * * *

Do you know just what is in the storeroom or the store chest? Keep a filed record and be sure, without going over everything, that the article wanted actually is in such a place.

* * * * * * *

Here are a few ways of filing articles not written such as recipes and papers.

* * * * * * *

Set down on a sheet of paper each article packed away in a trunk this to the inside of the lid or lay it on top of the paper or towel covering the contents.

* * * * * * *

You will know immediately on opening the trunk what it holds. Each article removed must be crossed off and any new things put in, must be added to the list.

* * * * * * *

To catalogue the articles may be advisable. Write down in alphabetical order the names of contents and file the loose leaf or card under storage trunk, steamer trunk—or whatever name you call it.

* * * * * * *

Then without bothering to get at the trunk you can consult the file and discover its contents thus.

* * * * * * *

To make your own card files use boxes with cards bought to fit or cut from cardboard or made from old envelopes, etc. Alphabet stickers can then be pasted on the cards.

BETHANY.

Mrs. Will mark of Kingston, is visiting her father, Mr. J. R. Sisson for a few days.

Mr. Norman Neals of the Bank of Toronto, is holidaying for two weeks.

Mr. and Mrs. Fred Coulter spent Monday with Mr. and Mrs. Harry Sills of Roslin.

Mr. and Mrs. Roy Oliver spent Sunday with the latter's parents, Mr. and Mrs. Robert Innes of Campbellford.

Mr. Thomas Emerson spent the dinner hour on Monday with Mr. and Mrs. Clifford Adams.

That Body of Yours

By James W. Barton, M.D.

ABNORMAL BEHAVIOR.

Some months ago I spoke about the wonderful work now being done in mental hospitals whereby of every ten that enter for treatment six come out cured. And the cure in a large number of cases is due to the correction of some physical defect such as infected teeth, tonsils, ear, appendix, chronic constipation.

By having dentists and general practitioners on the staff of these mental hospitals, besides the mental specialists, and using team work, as it is called, these brilliant results have been obtained.

In former days, as I remember them, and I lived opposite one of the largest mental institutions in the country, the inmates were all considered 'crazy' and all but a very few were kept locked up in small wards or individual cells.

Now, however, mental ailments, even what is known as insanity are simply looked upon as 'behavior' conditions, the individuals simply failing to behave in a normal or proper manner.

Accordingly, this behavior is investigated and a search made for any one or a number of conditions that may be responsible for the abnormal behavior of the patient.

If there are no physical defects such as mentioned above, or if these physical defects are corrected and the behavior remains unchanged months afterward, a further search must be made.

Another cause for abnormal behavior has been found in one or other of the ductless glands of the body — thyroid, in neck, adrenal above kidneys, pituitary at base of skull, and so forth. Where these glands are not doing their work properly there frequently happens unnatural or abnormal actions on the part of the individual such as extreme irritability, great depression, carelessness of manner or in dress, fears of various kinds, or other conditions of behavior that render the individual unsuited to his usual business or family relations.

Dr. A. R. Timme states that not only may a change in these endocrine glands produce an emotional state, but emotional strain over a prolonged period may definitely affect the structure and working of the glands.

You can thus see that if all cases of mental disability are studied from these various standpoints and are treated accordingly a great many 'peculiar' individuals are bound to be restored to a condition where they will become normal members of the community again.

Handy Recipes

By Edith Barber

Virginia Ham

Soak overnight a Virginia ham; place it in fresh cold water the next day, heat slowly and simmer gently, allowing five minutes to the pound. Remove the rind and place slices of canned pineapple over ham at intervals of about two inches, holding them in place with toothpicks while baking, and insert a clove in center of each. Bake one hour in slow oven (350 degrees Fahrenheit), basting ham frequently with pineapple juice.

Sour Cream Filling

1½ cups sour cream.
¾ cup sugar.
3 tablespoons of cornstarch.
¼ teaspoon salt.
Grated rind 1 lemon.
3 egg yolks.
½ package dates (sliced).
3 egg whites.
3 tablespoons confectioners sugar.

Heat one and one-quarter cups cream in top part of double boiler over hot water. Mix cornstarch, sugar and salt; stir in one-quarter cup cold cream to form a smooth paste. Stir this mixture into the hot cream and continue stirring until filling thickens. Cover and let cook over low flame during preparation of remaining ingredients.

Beat the egg yolks; add grated lemon rind; stir in a little of the hot filling; return mixture to double boiler and cook one minute. Cool. Use as pie or cake filling.

Chicken Mousse

1 cup chicken stock or milk.
3 egg yolks.
1 tablespoon gelatin.
¼ cup water.
1 cup cooked chicken (cut fine).
1 teaspoon salt.
½ teaspoon pepper.
1 cup cream (whipped).
2 canned pimientoes.
1 dozen ripe olives.

Scald stock or milk, pour over beaten egg yolks, return to double boiler and stir until custard coats the spoon. Soak gelatin in cold water five minutes; dissolve in hot custard. Season well. Add chicken which has been cut fine but not chopped. When the mixture begins to thicken fold in whipped cream and pour into a mold garnished with ripe olives and pimientoes cut in fancy shapes. Unmold, garnish with watercress or curly endive and serve with or without dressing.

BLOOD PRESSURE AND ITS CAUSES

A chief cause of blood pressure is acidosis from eating acid-forming foods. To counteract, use alkali-forming foods. The only alkali-forming foods are fruits, vegetables milk almonds, egg yolks and Roman Meal (the only alkaline grain food known) At fifty my pressure was 215 heart threatening to stop each beat By exercising in bed, overcoming tension, eating Alkaline Roman Meal fruits etc., my pressure at seventy-four is 130—heart—I can run five miles in forty-seven minutes, run up four flights of stairs two steps at a time, work ninety hours a week and never tire. Alkaline Roman Meal fruits etc., are remarkable vitalizers for sick or well when used properly Write for free booklet "HOW TO KEEP WELL," and other literature also sample of Roman Meal and Kofy-sub the new alkaline beverage, to ROBT. CULBERTSON on CONTRACT

by Ely Culbertson

World's Champion Player and Greatest Card Analyst

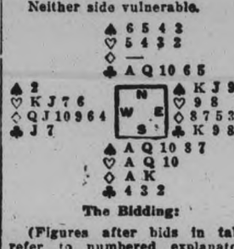
151

TRUMPING ACES TO FINESSE

If you should ever see your partner engaged in the pastime of trumping Aces and Kings in order to finesse other suits, you might be pardoned if you doubted his sanity, or at the very least, his knowledge of the finer points of the game. Certainly, if he sacrificed game by this method you would feel certain that he had a very severe case of Finessitis and no one could seriously blame you if you sought to avoid him as a partner in the future. However, occasionally a hand comes along in which some Aces and Kings have only the rank of the lowest playing cards in the suit, because their greatest value is that you can trump them and thus obtain easy access to the other hand. The bidding had reached rather dizzy heights and South had to play his best to make his contract, even though in doing it he greatly disturbed the serenity of his partner.

South—Dealer.

Neither side vulnerable.



The Bidding:

(Figures after bids in table refer to numbered explanatory paragraphs.)

South	West	North	East
1♠	Pass	5♠(1)	Pass
6♠(2)	Pass	Pass	Pass(3)

1—North is stretching the hand greatly to issue a Slam invitation. Slam should never be bid on distribution alone and, for all North knows, the combined hands may not hold more than half the honor-tricks in the deck. Another reason against the Slam invitation is the great danger of duplication of values due to North's void in diamonds and the possibility of South holding high honors in that suit.

2—Instead of a minimum, South holds a maximum one-bid. In fact, many players would mistakenly open the hand with a bid of two, forcing a response from partner. His bid of six spades is therefore fully justified.

3—East fears a Double might prevent him from making a spade trick and he is by no means sure that the club King is a trick-taker.

West opened the diamond Queen and North was not surprised when one of his trumps was utilized to win the trick, but did feel a mild measure of astonishment when South played the Ace. A trump was now led from Dummy upon which East played the nine and South the Ten. South, of course, holding the trick. South now led the King of diamonds, the high card of that suit again trumping in Dummy, to lead Dummy's last trump upon which East played the Knave and South the Queen. East's last trump was now captured and a small club led and the Ten in the Dummy forced East's King. East now led a heart, hoping that South's love for finesses would control his play, but South was through with finesses for this hand. He played the Ace, led another club and the club suit in Dummy afforded discards for his losing hearts.

An over-optimistic Raise had given the Declarer the opportunity for brilliant playing which he had not been slow to seize.

TODAY'S POINTER

Question: Name and explain the various kinds of Opening bids used.

Answer:

(1.) Approach, which is a low bid and may not show the full value of the hand—a waiting bid.

(2) Forcing, which is an aggressive bid, saying: "Partner, our hands will produce game at some bid. Keep the bidding open until a game bid is reached."

(3) Pre-emptive, which is a shut-out bid and says, "Partner, my hand is good for game in this suit only and I am counting on at least 2 tricks from you. Unless you are quite strong and think we can surely make a Slam, do not bid except opponents force you to 'cover' their Overcall."

Thomasburg

A very successful dance was held on Friday evening in the I.O.O.F. Hall, Thomasburg, under the auspices of the Crescent Rebekah Lodge No. 139, at which there was a large attendance.

The evening was spent in round and square dancing, the music being furnished by Mr. and Mrs. Grantley Burleigh of Roslin.

Mr. and Mrs. Damon McCaman and sons, Clifford and Glenn, spent Wednesday evening with the former's parents, Mr. and Mrs. Robert McCaman.

Mrs. J. W. Platt, Mrs. James R. Bateman, Mrs. Howard Thompson and Mrs. Melbourne Adams attended the Presbytery which was held in Belleville this week.

Mr. Ralph Dudgeon has returned to Belleville to resume his duties at the Belleville Creameries.

Mrs. Howard Thompson spent Thursday evening with Mrs. Roy Oliver.

Miss Ena Kerr of Roslin is spending the week end with Miss Isobel Free.

Mrs. Thomas Emerson spent a couple of days in Belleville last week.

Miss Marion Bateman spent Saturday with Miss Helen Oliver.

Mrs. William Shaw spent the dinner-hour on Saturday with Mrs. Walter Harrison.

Mr. and Mrs. Frank McMaster spent Thursday in Havelock, Mrs. Campney returned home with them.

Mrs. Walter Harrison and Mrs. Laura Prentice spent the dinner-hour on Wednesday with Mr. and Mrs. Grantley Burleigh of Roslin.

Miss Ena Kerr of Roslin spent the tea-hour on Friday with Mr. and Mrs. Clifford Adams.

Mr. and Mrs. Grantley Burleigh and baby Betty spent Friday night with the latter's parents, Mr. and Mrs. Walter Harrison.

Miss Dorothy Way of Tweed is spending a few days with Mrs. Laura Prentice.

ASTHMA Head & Bronchial Colds

Miss R. McClare, Mt. Uniacke, N.S., writes:—"Asthma it seemed would smother me. Even sitting up I had to fight for breath; wheezed day and night. An uncle recommended RAZ-MAH. I got relief from the first dose, and for nearly two years haven't had an attack." Guaranteed relief from $1 worth or your money back. No harmful drugs. 50c and $1 everywhere. 249

Don't cough, choke, gasp—use RAZ-MAH

100,000 Fans Attend Opening Games in Majors

RUTH HITS TWO HOME RUNS AS YANKS WIN 12-6

Byrd Also Connects For Circuit Drives in Athletics' Downfall.

Howley's Team Triumphs.

Small Crowd Sees World's Champions Win From the Pirates.

NEW YORK, April 13.—Baseball's "great man," Babe Ruth, literally blew the lid off the baseball season yesterday as a dozen major league clubs staged their grand openings before an estimated attendance of slightly over 100,000.

The first time Ruth came to bat against George Earnshaw, leading righthander of the Philadelphia Athletics, he drove the ball far over the fence for a home run. On his third appearance he did it again.

Profiting by the Babe's example and a three-run start of his first homer, the Yankees slammed out a 12-to-6 victory over the American League champions in a game which produced seven homers. Sam Byrd, recently become a regular for the Yanks, also hit two four-baggers, and Lou Gehrig, Jimmy Foxx and Al Simmons one each.

Reds Win First.

Despite the prodigious hitting of the Yanks, several others clubs and games outshone the Yankees and Athletics in many respects. Only about 18,000 fans turned out at Philadelphia, while at Brooklyn some 30,000 hopeful rooters were on hand to see the Dodgers' new manager, Max Carey, unveil his vastly altered team, and approximately 25,000 were on hand at Cincinnati to see the Reds work their favorite trick of upsetting the Chicago Cubs.

Typical early April weather was present for all the openings, and two games had to be postponed. The Boston Red Sox and Washington Senators, who started a day ahead of the rest at Washington, were rained out when they moved to Boston. Cold weather halted the Detroit-Cleveland game at Detroit. Other attendances were small for an opening day.

The world's champion St. Louis Cardinals found only 5,937 paying customers present when they started the new season with a 10-to-2 triumph over the Pittsburg Pirates. With much the same team as won the world's series last fall, the Cards hit hard behind the seven-hit pitching of Flint Rhem. "Pepper" Martin, the series hero, started his first season as a regular with one hit and one stolen base, while Jim Collins, replacing Chick Haffey, contributed a homer.

Giants Are Humbled

Three of the low-ranking teams of last season provided some of the brightest spots on the list of performances. The Phillies rang up the day's high score, battering the highly rated New York Giants for 17 hits and a 13-to-5 triumph. The Giants were guilty of five errors.

The Chicago White Sox, who with newcomers in the stellar roles, trounced the St. Louis Browns, 9 to 2. Sad Sam Jones, late of Washington, pitched a steady game, and Carey Selph contributed three doubles, bringing home as many runs.

Cincinnati Reds, held almost helpless by Charley Root for eight innings, cut loose in the ninth and scored four runs, to win, 5 to 4. Root started the rally by allowing a hit and walk, and then retired when Lombardi's drive injurd his hand, and Guy Bush finished.

Ed Brandt of Boston had the distinction of the best-pitched opening game. He limited Brooklyn to five hits, and had only one bad inning, as the Braves won, 8 to 3.

The new plan of limiting passes had some effect on the attendance situation in both leagues, but cold and threatening weather played the bigger part in holding down the crowds. Estimated figures placed the total attendance for the six games at 117,00.

The figures for each game follow:

National League	
Brooklyn	30,000
Cincinnati	25,000
New Rork	20,000
St. Louis	6,000
Total	81,000
American League	
Philadelphia	18,000
Chicago	18,000
Total	36,000
Grand total	117,000

Yesterday's Stars

Babe Ruth, Yankees—Clouted two home runs against Athletics, accounting for five runs.

Ed Brandt, Braves—Stopped Dodgers with five hits and won, 8-3.

Sam Jones and Carey Selph, White Sox—Former held Browns to eight scattered hits; latter drove in three runs with three doubles as White Sox won, 9-2.

Taylor Douthit, Reds—His single in ninth drove in tying and winning runs against Cubs.

Phil Collins, Phillies—Pitched effectively against Giants and collected four singles himself in 13-5 victory.

Flint Rhem, Cards—Pitched his club to triumph over Pirates.

LANG FIGHTING FOR REVENUES

Blocks Commonwealth's Latest Moves to Seize N. S. Wales' Taxes.

TO APPEAL RULINGS.

SYDNEY, Australia, April 13 (C.P. Cable).—Premier J. T. Lang, head of the Labor Government of New South Wales, has no intention of yielding before the attempts of the Commonwealth Government to sieze State revenues in return for having met overseas debt payments defaulted by the State on Feb. 1 and April 1.

The State Premier has given notice of intention to appeal to the Judicial Committee of the Privy Council against the dicision of the Australian High Court last week, which upheld the validity of the Commonwealth Financial Agreement Enforcement Act, the measure which empowered the Commonwealth Government to seize the revenues of a defaulting State.

Further, the State Premier has served notice on trading banks in New South Wales ordering them to withhold payment of State deposits to the Commonwealth Government pending the hearing of his application for an injunction for restraint. Premier Lang has also instructed all State government departments today to pay their revenue into the State Treasury.

Opposition to Orders

All this is directly opposed to the Commonwealth Government which has taken a series of steps in conformity with the legislation passed by the Commonwealth Parliament and given royal assent.

The Commonwealth Government yesterday specified a new series of taxes as collectable by the Commonwealth—betting, race track admittances, entertainments and totalizator taxes, and at the same time notified the trading banks they were required to hand over any deposits of the State Government.

Premier Lang appears to have countered all these measures, for the time being at least. His actions have also had the effect of blocking the collection of Commonwealth income taxes in the State of New South Wales, this being collected on Commonwealth behalf by the State collection machinery.

rangy infielder who finished the 1931 season at third base for the Leafs of the International League and who has been returned to the Toronto club by Detroit.

HOWLEY'S REDS BEATS CUBS 5-4 AT CINCINNATI

Root Weakens in Ninth and Homesters Crowd in Four Runs.

GIANTS LOSE 13-5.

Brandt Hurls Braves to 8-3 Victory Over Revamped Dodgers.

CINCINNATI, April 13.—Slamming over four runs in a wild ninth inning, the Cincinnati Reds yesterday defeated the Chicago Cubs, 5 to 4, in the opening game of the season here.

After holding the Reds almost helpless throughout eight innings, Charlie Root weakened in the ninth with the score 4 to 1, to permit Grantham to single and Heath to walk, and then went out of the game as a hot drive from Lombardi's bat injured his hand. Bush took his place, but the damage was begun. Lucas, batting for Morrissey, cracked out a double, the only extra-base hits the Reds could gather. Then Roettger, batting for Benton, substitute pitcher, was walked, and the bases again were loaded. Douthit single, scoring Durocher and Bluege, substitute runners, and the game was over.

Approximately 25,000 fans jammed Redland Field for the game, despite early morning snows and chill winds.

GIANTS LOSE OPENER, 13—5

NEW YORK, April 13—The New York Giants celebrated the start of their forty-ninth year as members of the National League and John McGraw's thirtieth season as manager yesterday, but it was the Phillies who celebrated the opening day victory before 20,000 fans.

The Phils piled up 17 hits, bunching most of them off Bill Walker and Hy Bell in the early innings, to win 13 to 5.

Phil Collins pitched an effective game, scattering the hits, except in the fourth inning, and led his team's attack with four hits. Johnny Vergez set the batting pace for the Giants ,collecting a home run, two singles and a walk in four trips to the plate.

BRANDT HOLDS DODGERS

BROOKLYN, April 13. — Ed Brandt, Boston's stellar southpaw, proved a bit too much for the revamped Brooklyn Dodgers yesterday and the Braves won the first game of the new season at Ebbets Field, 8 to 3.

Brandt pitched the full nine innings giving five hits, and had only one bad inning. In the seventh inning the Dodgers scored all their runs, Val Picinich's pinch double bringing two home.

Waite Hoyt, who started for Brooklyn, got in trouble over wildness and was batted out in the fifth inning after yielding six runs. Despite four double plays, the Brooklyn fielding was erratic.

About 30,000 fans turned otu to see the Dodgers play their first league game under the management of Max Carey.

Paavo Nurmi Suspended

FINNISH ATHLETIC AUTHORITIES AROUSED.

Finnish athletic authorities have been aroused over the suspension of Paavo Nurmi, Finland's great runner, by the council of the Amateur Athletic Federation, meeting in Berlin, on charges of irregular expense accounts.

Nurmi has been suspended by the Council pending the result of an investigation by the Finnish Federation, which has been asked to undertake a probe by the international body.

The Finnish authorities charge in effect, that Nurmi had been suspended by the international body without a hearing and without waiting to receive the report from Finland. They said the report was requested for late in April.

The basis for the suspension was not officially disclosed, but was believed to involve charges of padded expense accounts for appearances by Nurmi in Poland, Italy, and Germany. Such charges against Nurmi have been rumored for some time.

The International Council is not scheduled to meet again until just before the Olympic Games, but there is little doubt that if the Finnish Federation gives Nurmi a clear bill of amateur health the international body will accept it without question.

GATES DIVIDED KING PLAYOFFS

Buffalo Bisons Collect $5,200 as Share of Players' Pool.

General Attendance Down.

WINDSOR, April 13.—Frank Nighbor's Buffalo Bisons, newly-crowned champions of the International Hockey league collect approximately $5,200 as their players' pool, share of the 1931-32 tournament spoils, according to information obtained yesterday from the offices of President Charles S. King. As winners of the tournament the Bisons collected 35 per cent. of a total player pool of approximately $13,100, in addition they qualified for another five per cent. of the player pool as leading team during the regular season. The Bisons drew $4,600 for the tournament victory and an additional $650 for finishing the regular season in first place.

Despite a general decrease in attendance figures and gate receipts during the 1931-32 season, the playoff tournament patronage was exceedingly good. A total of 58,401 fans were attracted to the 12 games of the round robin series. The gross receipts were approximately $56,200.

Detroit Olympics played before the biggest home crowds, although the figures for the big Olympia ice palace were probably the most disappointing of any of the four title contenders. The attendance for three games at Olympia was roughly 20,500. Windsor's home games drew 14,400, London's 10,900 and Buffalo 13,300.

Gate Receipts $52,600

The gate receipts at Olympia amounted to approximately $16,800 while Buffalo with a $2.50 top price harvested $13,600. Windsor's receipts were $12,400 while London collected $9,700.

In the division of all playoff receipts, 40 per cent. of the gross returns from each game goes to the home club owners. After travelling expenses of the teams, referees' fees are paid for the playoffs, the balance is divided, 50 per cent. to the league and 50 per cent. to the players' pool. Under the 1931-32 split up the league received approximately $13,100. The players' share for the second place Windsor club was $3,200, while London Tecumsehs drew $2,600 and Detroit approximately $2,000.

The current playoffs serve as a convincing argument in favor of the annual spring post season games. The International league paid out approximately $12,000 in fees and travelling expenses to referees. This sum is taken care of by the league's play-off share. Otherwise the league would be in debt to the extent of about $10,000.

The league has no other revenue except from its playoff share.

REG. LESURF TO STAGE COMEBACK

Popular Local Boxer to Take Part in Alpha Club Show on Friday.

Roy Hope and Jack Chamberlain will feature the Alpha Club boxing program at the Legion Hall this Friday night at 8.30, a card made up of eight all-local bouts. In the semi-final, Hank Noakes meets Jack Gardner, and some of the other boys who will appear are Reg Lesurf, Danny Harrington, Bill Hope, Tommy Heffernan, Earl Harrington and Jackie Watson.

Lesurf, who has been out of the ring for nearly a year, is in first-class condition, training regularly, and hopes to make an impressive comeback against a good opponent. Hope and Chamberlain should stage an interesting fight in the main scrap, Jack having an edge on experience, but Roy being the harder hitter. The Noakes-Gardner affair promises plenty of action, and the other bouts will be on a par, further announcements being made as the boys are paired off together.

Carey Selph Carries Honors For The Sox

CHICAGO, April 13. (CP)—Carey Selph, who wanted to be just a country boy, thought the city was a pretty good place after all today.

When the White Sox exercised their option as the last place team in the American league last fall to step in and draft the lonesome Texan, Selph calmly announced that he preferred to be just a country boy and stay away from the big leagues and big cities. He returned to his insurance business in Texas but soon heard the call of baseball and joined the White Sox in training at Mineral Wells, Tex.

Yesterday, he made his debut at Comiskey Park and stole the inaugural home show. All he did was to drive out three doubles, blast three runs home and score another himself as Sam Jones pitched the White Sox to a 9 to 2 victory over the St. Louis Browns, their first home inaugural victory since way back.

I'm glad I came, Selph said with a grin as he rushed back to the clubhouse with his happy mates.

HONORARY REFEREE

NEW YORK, April 13. (CP) — Henry L. Stimson, secretary of state, will serve as honorary referee for the first round Davis Cup tennis match between Canada and the United States, starting at the Chevy Chase club April 28.

Abner Y. Leech, Jr., of Washington, will be active referee.

CLOTHIERS OUTFIT WILL MEET RILEY'S IN SUDDEN DEATH TILT

Clever Playing and Close Checking is Feature of Basketball Tangle.

EVENLY MATCHED TEAMS.

Primeau's Fashion-Craft quintet captured the leadership of the second half of the "Y" Senior Basketball League last night, nosing out Riley & Hickey's, 33 to 31, in a close, hard-fought game in the Y.M.C.A. gym. The win qualifies the Fashion-Crafters to meet their Clothier rivals, winners of the first half, in a sudden-death play-off fixture Saturday night for the loop title.

Despite the high score of last night's game, the affair was marked with clever playing and close, persistent checking, at times threatening to become rough. There was no difference apparent in the strength of the outfits, and the winning basket came seconds before the final whistle, McKeagan sinking both the tying and winning shots.

Tied at Half-Time

At half-time the score was deadlocked at 14-all, and this was a good barometer on the play. They opened up fast, Kitchen dropping in one for the losers, followed by his teammate, Levine. Then McKeagan and Routly equalized the count. The game was a see-saw battle all through the session, ending at 14-14.

The second chapter saw some thrilling plays and the fast pace maintained. Shortly after the rest period, Levine put the R. & H. squad ahead on a classy shot. The Primeaumen came back to tie it up and then pulled out in front, McKeagan, Ward and Routly finding the mark in quick succession to make the count read 29 to 21. The Riley crew took time out and then came back strong, Stanger hooping the ball on a beautiful throw from three-quarters out. He was followed by Levine and Mott to balance things again, 29-all. With just a minute left to play, Levine pulled the Riley & Hickey craft to the fore with a neat basket, and then McKeagan once again tied it with a fine distance-shot, and the same player hooped the big winner a few seconds before the last whistle.

Leads Scorers

Levine led the sharpshooters, with 14 points. His teammate, Kitchen, got eight, Mott had five and McLeod and Stanger two each. For the victors, McKeagan counted ten, Ward and Chesler six apiece, Armstrong five, Routly four and Taylor two. All the players on both sides turned in a fine performance with Levine, Mott, Kitchen and McLeod being outstanding for Riley & Hickey's; and McKeagan and Routly being exceptionally effective for the classy Primeau cagers. The teams:

Riley & Hickey.—Levine, Mott, Kitchen, McLeod, Stanger and Sager.

Fashion - Craft. — McKeagan, Routly, Chesler, Taylor, Ward, Smith and Armstrong.

Referee.—C. McLeish; umpire, J. Wolstenholm; timekeeper, C. Hunt.

BASKETBALL RULES GREATLY ALTERED

General Trend in Changes is to Speed Up Play of Game.

The annual meeting of the joint basketball committee for 1932 was held in New York to consider, among other things, revision of the basketball rules for the next season. The Canadian Amateur Basketball Association was represented by Mr. J. H. Crocker of Western University and Mr. F. F. Eagleson of Toronto. Mr. Samuel Rogers was unable to attend.

A great deal of consideration was given to the problem of reducing the number of free throws, and a committee, which had been working on this matter since the previous annual meeting, collected a mass of material, but no satisfactory means was suggested for reducing free throws. The rules were therefore left unchanged on this point. The committee will continue its research during the coming year.

It is interesting to note that out of some 250 games analysed, the committee found that 55 per cent. of all those games were won or lost on foul scores. They discovered also that winning teams made fewer fouls than losing teams and scored a higher percentage of their free throws. This gave a 20 per cent. advantage to the winning team.

They found also that only 5 per cent. of fouls called were against the offensive team.

Changes in Rules

Some important changes were made in the rules and will apply next year. These are as follows:

(1) Blocking—In future there will be no blocking unless personal contact occurs, except in the case of face guarding, which is defined as follows: "Face guarding is interfering with an opponent by disregarding the ball and facing the opponent, shifting the position as the opponent shifts."

The result of this amendment is to make it clear that the so-called "legal block" is not blocking, but is permitted under the rules.

(2) Centre pivot block play—A play—A player with the ball in the free throw lane or circle and with his back to the basket must in future throw or dribble the ball within three seconds.

This new rule is added to help speed up the game.

Dick Irwin's Baby Reported The Same

CALGARY, April 13. — The condition of the five-weeks' old baby of Dick Irvin, noted hockey coach of Toronto Maple Leafs, reported unchanged yesterday. "Holding his own," was the reply to inquiries.

The baby, born while his famous daddy was in the east helping Toronto win the Stanley, is seriously ill from erysipelas in the leg. His father is due in Calgary to-day.

KNOX CHURCH WINS DOUBLES

While Trinity Church Club of Port Hope, Cops Two Singles Victories.

BADMINTON TOURNEY.

A team from Knox United Church Badminton Club played the return games with Trinity United Church club of Port Hope last night. Knox won the first tournament played in Peterborough in five straight matches without losing a game. The games last night were much closer. Knox winning three doubles games but losing the two singles. The Knox team last night had trouble adjusting themselves to the Trinity Church court, which is several feet shorter than regulation length. In the games in Knox Church hall they relied on smashing to win points, but at Port Hope they had to play net and placement shots more, at which the local team proved quite adept. The first game was a mixed doubles, Kay McDonald and Bill Wedlock of Knox winning two out of three from Marian McLean and Jack Rowland of Port Hope. The first two games were hard fought, each winning one, but the third was a walk-away for the Peterborough couple. The second match was the closest of the evening. Hugh Fraser, the 15-year-old Port Hope player after dropping the first game 3-15, to Don. Charlton of Knox, showed a brilliant brand of net play, and won the second game, and came out on the heavy end of an 18-17 score in the third. In the third match Alice Davis and Verna Huffman showed good team play and fine generalship in winning two rather easy games from Ruth Wickett and Etta Harcourt of Port Hope. Betty Garnett of Port Hope won the ladies' singles. Playing her placement shots very accurately she won in straight games from Kay Benson of Peterborough. In the last match of the tournament the Knox doub'es team won in straight games. Fred Kelly and Allan Flood started strong and soon had a good lead. The Peterborough pair, Alexander Wedlock and Norman Hughes however, got settled and after winning the first game 18-16, had much the better of the second game. The latter pair showed better team work and took advantage of all the breaks.

After the regular tournament two short mixed doubles games were played. Trinity Church won both by the score of 11-5. The players in these friendly games were Eleanor Kelly and Vern Rutter and Florence Crowe and J. Stanley of Port Hope, and Alice Charlton and Ormie Benson and May Pollock and Joe Daynes of Knox. Following is the result of the tournament and the order:

Mixed doubles — Kay McDonald and Bill Wedlock, Knox, won from Marian McLean and Jack Rowland Port Hope—15-13, 13-15, 15-1.

Men's singles — Hugh Fraser, Port Hope, won from Don. Charlton, Knox—3-15, 15-12, 18-17.

Ladies' doubles — Verna Huffman and Alice Davis, Knox, won from Etta Harcourt and Ruth Wickett, Port Hope—15-3, 15-9.

Ladies' singles — Betty Garnett, Port Hope, won from Kay Benson, Knox—11-3, 11-4.

Men's doubles — Norm. Hughes and Alexander Wedlock, Knox, won from Allan Flood and Fred Kelly, Port Hope—18-16, 15-9.

Lionel Conacher Drops Lacrosse

..Montreal, April 13. (C.P.)—Lionel Conacher yesterday announced he would not play professional lacrosse this Summer.

Conacher, one of the outstanding athletes Canada has produced, was the mainstay last year of the Montreal Maroons' defence in the International Professional (indoor) Lacrosse League. During the coming Summer he will live at Toronto but will take no part in the sport, he stated.

It is known on good authority that Lionel Conacher will take up wrestling seriously this Summer. The Big Train was signed to a contract last Fall but postponed his mat debut until after the hockey season.

Compile Dates

At a meeting of the National Speedways Association held the other day details of the season's chief competitions were completed.

SPORTS Day by Day

HOCKEY, BOWLING CURLING
BASKETBALL AND BOXING

CASUAL COMMENT

The Senior Ball Club meet to-night at 7.30 in the Y.M.C.A. and a good turnout of members is urged as various timely matters of business will come up, including the appointment of a manager for this year's team. Efforts will be made, we understand, to have Max Swanston re-consider his resignation of the managerial position for this season.

• • • • • • •

Another meeting this evening that should attract many sports followers is the box lacrosse session at 7.30 in the Chamber of Commerce. Those behind the new game are determined to put it across in a big way and they are looking for plenty of support locally If the right officers are elected to-night, everything should be smooth sailing.

• • • • • • •

The O.A.L.A. is making the abbreviated lacrosse game much like hockey played on foot and that is bound to prove popular all over Canada. Games this summer are to consist of three 20-minute periods with 10-minute rests in between. Goalposts will be shoved a little further apart to make the net four and a half feet wide, and six inches will be lopped off the height of the net, at present five feet.

• • • • • • •

And it's nix on the slashing, according to officials. Just straight checking and none of this old-time defence stuff where players figured it a miss if they didn't bring down the ball-carrier with one clout. And how they used to curl the old mace around hickory-hardened heads! Not that the sport this year is likely to be a "drop the handerchief" game, but referees will frown upon unnecessary rough stuff.

• • • • • • •

There's nothing doing in local softball circles yet, but it won't be long now. Neither the girls' loop nor the Men's City League will experience any difficulty getting plenty of entries, judging by the various shops and clubs that are figuring on trying to get into one or the other. No grandstand at the north end of the East City Bowl will be constructed this year by the city, money being too scarce. Some private group might do something about that, with permission from the Council.

• • • • • • •

The Alpha Club boxing show at the Legion Hall this Friday night will feature all-local mittsers, headlined by Roy Hope and Jack Chamberlain. Reg. Lesurf, after a year's layoff, figures on making an appearance against a suitable opponent, and Jack Gardner is to tangle with Hank Noakes. Other boys lined up so far are Bill Hope, Tommy Heffernan, Jackie Watson and the Harrington brothers.

• • • • • • •

In last night's draw in the fight tourney in Toronto, both Ned and Tony Minicola dropped decisions, the former to Corporal Patrick of Camp Borden, and Tony to Billy Hughes of the Classic A. C. The third Peterborough scrapper, Art Hunter, wasn't on last night but is drawn for this p.m. against Bert McLennan of the Toronto Classic Club.

• • • • • • •

Other fighters taking part, who are known to local fans, were Jimmie Gordon who lost to Gwynn, Brian McLarron who got the nod over Eddie Ashton, Art Wood who lost to Genovese, Frank Pidgeon and Eric Carnegie both of whom took decisions over Plunkett and Coombs, respectively; and the remainder of the amateur pugs will fight it out tonight.

• • • • • • •

The Men's Y. M. C. A. Basketball League isn't over yet, no sir. Fighting with their backs to the wall at the "Y" last night, the Primeau crew finally staggered home in front of Riley & Hickey's, 33 to 31, to win the second half of the schedule. It was a great old battle and means the two outfits will meet once again in a sudden-death fixture to settle loop honors, both teams having won one half. They'll play at the "Y" this Saturday night at eight bells.

• • • • • • •

The annual meeting of the Joint Basketball Committee, held in New York recently with the Canadian Association represented, brought about a number of new rulings, taking effect next winter. The main idea of the changes was to speed up the cage game, besides reducing the number of free throws. It's getting nowadays that a game loses much of its popularity unless geared up to the pace maintained by the present fast-stepping generation. The revised rules appear elsewhere in today's paper, and basketball should benefit considerably when they go into effect.

The dates for the five England vs. Australia test matches are: Saturday, June 4, at Stamford Bridge; Thursday, June 23, at Wembley; Saturday, July 16, at Belle Vue (Manchester); Saturday, Aug. 6, at Crystal Palace, and Wednesday, Aug. 24, at Southampton.

The draw for the first round of the National Cup competition resulted: Plymouth vs. Southampton and Sheffield vs. Coventry. The contests in the first match will take place at Plymouth on Thursday, July 5, and at Southampton on the following evening, while the second match will be decided at Sheffield on Wednesday, July 6, and at Coventry on July 7. Belle Vue, Crystal Palace, Stamford Bridge, Wembley, West Ham and Wimbledon have byes.

LINDSAY ROAD IS ENTIRELY SHUT

Merchants Protest Closing of Detour Near Lindsay.

DIVERTS BUSINESS.

LINDSAY, April 13. (Examiner Correspondence). — The protests registered by merchants yesterday against traffic as well as business from the east, were only equalled by disgust and disappointment manifested by motorists and commercial men. The latter journed to Lindsay from the west enroute to Peterborough and points east, only to find that the highway was closed against them. All the garages in town are filled with cars left behind by travellers who patronized the railways to reach their destination. The merchants claimed that considerable trade was being lost to Lindsay and diverted to Peterborough by the closing of the detour. They realize that this particular stretch of road is impassable, but claim that the authorities should have prepared for the situation which has developed last fall when the bridge was closed to traffic. Late Monday afternoon Federal, Provincial and county authorities were appealed to with a view to coping with the situation, and yesterday conditions were partly relieved by the construction of a footbridge three feet wide over the top of the partly constructed bridge. This will enable residents south of the town to cross the river as well as motorists coming from the south and east. They will be obliged to leave their cars at the end of the highway on the south side of the structure. McLennan's Coach Lines, of Peterborough, helped greatly in relieving the transportation. The bus runs from the city to the bridge, where the passengers cross and take a car up town. The highway from Lindsay to Fenelon Falls is impassable and the Bobcaygeon road is described as bad. Traffic has been abandoned between Downeyville and Omemee.

The recent rains have stimulated muskrat catching and the trappers are realising more from their lines each day. The rats appear to be very cautious, and one trapper today stated that the catch would not be up to past years.

Not Oriental Rugs

A number of local citizens who purchased what were claimed to be genuine Oriental rugs from a couple of men during the winter months, are now convinced that they were flim-flammed. Two men, claiming to be sailors, drifted into town with a number of rugs which, they claimed, they had secured in an eastern port, and which they wished to dispose of at a sacrifice. It transpired, however, that they had a supply of them. As a result of a court action in Western Ontario, it has developed that the "Oriental rugs" were of American manufacture and of very inferior quality.

Fall wheat was said to be in a rather sickly condition in this district. Some farmers were hoping that to-day's snowfall would restore its vitality, but authorities claimed that too much had been lost.

Britain's rayon business continues to increase.

BURGESS BEDTIME STORIES

YOWLER IS BESIDE HIMSELF.

Who loses temper hath that lost
Which in the end will dearly cost.
—Old Mother Natu .

Yowle the Bobcat had caught a Mouse and was sure that he had kill d it when he caught it. It had hung limply from his mouth while he took it home for a tim when he should be hungry. He had just dined on a Rabbit when he caught the Mouse, so just then he was not hungry. He put down the Mouse ust outside the entrance and went to investigate the cause of a slight sound his quick ear had caught. He was gone only a minute or two, but on his return no Mouse was anywhere to be seen. The scent of that Mouse lay where the Mouse had been, but there was no Mouse there.

"It is hard to believe that that Mouse wasn't dead," thought Yowler. "I am sure I killed it,yet if I did how could it have run away? That is what it seems to have don . I was here, and now it isn't. I cannot think of any one who would be bold enough to da e steal that Mouse almost under my very nos , s that Mous must have been alive after all. 'll just ollow with my nose and see i I can catch him again before he gets in a hole."

Of course Yowler thought all this in a flash while he was glaring all about to see i there was any one in sight who might have stolen that Mouse. He saw no one. Putting his nose to the ground he began to follow the Mouse scent. It was Mouse scent all right, yet somehow it was not quite the same as the scent he had so often followed where tiny fee had left it. It led around the base of a rock, across a little patch of bare ground, over a log and along the other side of it to the end. With that Mouse scent was mingled another scent which caused Yowler to wrinkle his nose and lift his lips in dislike. Beyond the end of the log was a pile of loose stones, some almost big enough to be called boulders. Among these were openings of all sizes such as you will always find in a pile of stones of all shapes and sizes.

Just disappearing in one of these openings was that Mouse. With a bound Yowler reached that disappearing Mouse and seized all that there was to seize hold of, the short tail. Yes, sir, all but that little tail had disappeared down that crack. Yowler pulled, expecting to pull that Mouse out without the least trouble. It started to come and then stopped. Yowler pulled harder. The Mouse did not yield. Then there came from down in that crack, not the squeak of a frightened Mouse, but a spitting snarl that denoted anger. At the same time Yowler felt that Mouse pulling or

being pulled away from him. That tail was not much to hold to. It was small and it was short. It was beginning to slip He tried to get a better hold and lost it altogether. With a scream of rage he watched that tail disappear down that crack. Then he saw something white moving down there.

Yowler flew into a terrible rage. He was quite beside himself. He spat and snarled and growled and he did his best to pull apart that pile of stones. He know now that that Mouse had not come to life, but that some one had been bold enough to take it away, to steal it, while his back had been turned for a few minutes. With the sound of that spitting snarl and the glimpse of something white moving down there he knew who had taken that Mouse. It was Shadow the Weasel.

"I'll get you if I have to tear this whole pile of stones down!" snarled Yowler. "I'll get you if it is the last thing I ever do. That is my Mouse. You know that that is my Mouse."

"You mean it was your Mouse. It is my Mouse now. If you think you can ge it, come on," replied Shadow most provokingly

And Yowler did. He sent stones rolling this way and rolling that way and all the time he was wasting his strength most foolishly, for he wasn't even frightening Shadow. The latter was enjoying it. You see there were so many places for him to slip into that he could keep out of Yowler's reach with very little trouble.

Celebrates Birthday

Days when wolves, oxen and Indians were common sights in the vicinity of Cooksville and Streetsville are recalled yesterday by John Carberry who is celebrating his 93rd birthday. The night Mr. Carberry's parents settled on their farm two miles north of Cooksville savage wolves which surrounded the oxen team were driven away by huge bonfires.

Canadians are tea rather than coffee drinkers, about forty million pounds of the former and thirty million of the latter being consumed annually.

What To-Day Means To You

"ARIES"

If April 13th is your birthday, the best hours for you on this date are from 7:30 to 9 a.m., from 2 p.m. to 3:15 p.m., and from 7 p.m. to 8:30 p.m. The danger periods are from noon to 1:35 p.m., and from 5 p.m. to 6:30 p.m.

There are several red flags of danger which should not be disregarded in the astrological picture for April 13th. Machinists, engineers, motorists and electricians should keep their eyes open and run no chances. The bright spot in the picture is centered around young lovers, and wedding bells are heard in the near distance.

The child born on this April 13th will have an overly sensitive nature and will be easily hurt by the words or actions of others It will take its responsibilities seriously, its joys soberly, and its griefs hysterically. It will need love and encouragement to help it find its place in the sun.

If you celebrate your natal anniversary on April 13th,and are a woman, you spend your life spinning a delicate web of services around your family, or those who are dependent upon the efforts of your willing hands, brain and soul. "Let me do it" is ever on your lips. You are willing door-mat, and a promoter of selfishness in others. If you have children, your hovering attitude and wolf-like devotion will tend to clip their wings and to crush their spirit of initiative and independence. You are shrewd, fearless, resourceful, capable and energetic, and you seldom start a thing which you cannot finish. Both young and old confide in you, and you have a natural gift of fixing things up for other people You cannot handle your own affairs as well as those of others. Many owe their success and happiness to you, and you payment will be ingratitude.

If you are a man, you are a natural person of affairs. You are ambitious, intelligent and given to industry and hard work You are nobody's slave, and your labors are for the comfort and good of "Number One." You have a strong will and a temper; the former is domineering and the latter is to be feared You are very proud, and will be a good provider if you have family.

Bethany

Mr. and Mrs. Douglas Driver and children of Toronto, spent the week-end with friends in the village and community.

Mr. and Mrs. Ross Carr of Toronto spent the week-end with friends in the village.

Mr. and Mrs. Cecil Argue were visitors to Mount Pleasant, on Sunday.

The members of the Y.P.S. of the United Church held their weekly meeting on Wednesday evening with 30 members present. when after the customary opening service, the devotional convenor, Harold Payne, took charge of the program which was a Seth Parker program. Mrs. Payne gave a short talk on the life of Phillips Lord, who is known over the radio as Seth Parker. This was followed by a unique program composed of two of his favorite hymns, solo parts being taken by Dillas Thomas, Ted Welsh and Marsden Thomas; Bert Monk personifying Seth Parker; Miss Hazel Jackson, Seth's wife; Margaret Jackson, Lizzie, and Marion Fallis as Jane. A recitation composed by Seth Parker, "Criticizing," was given by Jack Clark. The meeting concluded with a Biblical contest.

Mr. Rex Dawe and Mrs. Dawe are leaving this week to take up residence in Clarkboro.

Recent business visitors to Peterborough included Mrs. T. J. Jackson, Mrs. Patterson of Brunswick, Mrs. J. R. Sisson and Miss Mildred Sissons, Miss Hazel Jackson.

Miss Elsie Richardson was a business visitor to Lindsay on Saturday.

Miss L. Simpson of Pontypool is spending a few weeks with Mrs. James Whiteside.

Mr. and Mrs. Richard Johnson, accompanied Mr. and Mrs. Harold Bigelow on Sunday afternoon to Peterborough, to visit their son Harry, who is a patient in Nicholls Hospital.

Those who attended the Women's Institute meeting held at the home of Mrs. Jamieson included Mrs. Reynolds, Miss A. Sisson, Mrs. Driver, Mrs. Arnott, Mrs. McKinley, Mrs. Medd, Mrs. Davis, Mrs. Foster, and Mrs. Jamieson.

Miss Laura Moronto of Delora teaching staff has resumed her teaching duties.

Mrs. Johnson Morton is convalescing after her recent illness.

Mr. George Dickson of Toronto was a week-end guest of Mr. William Davis.

Mr. Cecil Ward of Toronto spent Sunday the guest of his mother.

Hastings

At St. Joseph's Hospital, Peterborough, on Monday, April 4, to Mr. and Mrs. Jack Cleary (nee Eva Doherty), of the Cobourg Road, Hastings, a son.

On Monday, April 4, to Mr. and Mrs. William Whitred, Hope Street, Hastings, a daughter.

Thursday, April 7th, being the most spring-like day of the season, made the women of the village feel like visiting, and the afternoon tea, held at the home of Miss Della Plant, under the auspices of the Women's Auxiliary of St. George's Church, was much benefitted by the beautiful weather. The house was prettily decorated with pink snapdragons and Easter lilies, and the six tables with their snowy white covers seated twenty-four ladies at one time. Mrs. Battersby and Miss Plant received the guests, while Mrs. Roy King took charge of the door. Those assisting with the tea were Mrs. George Jefferies, Miss M. Battersby, Mrs. T. Curel and Mrs. L. Scriver. The proceeds amounted to over fifteen dollars.

Miss Helen Smith, nurse-in-training in Oshawa Hospital, has been visiting her parents, Mr. and Mrs. Alex. Smith.

In spite of the bad roads, a fairly good crowd was present at an auction sale on the farm of William Gillespie on the Campbellford Road on Thursday, April 7. Low prices are still prevalent at all the sales held recently. However, one fine team sold for $260; yearling heifers went for $11, and cows from $23 to $35. J. R. Battisby, of Campbellford, conducted the sale.

The Ladies' Aid of Trinity United Church held their first crokinole party, which proved very successful. They are planning on holding another party on Thursday evening.

Mr. Everette Hess was a visitor to Toronto on Friday.

BRIDGENORTH

Mr. George Ball, teacher in Bridgenorth School on returning after his Easter vacation gave the children a real treat in the form of maple taffy on snow, which he served at school on Friday afternoon. The children were delighted and passed a most hearty vote of thanks to Mr. Ball for his delicious treat.

On Wednesday evening the men of the community interested in a soft ball team met at M. A. McWilliam's home to consider plans for the coming season. The matter of entering into league games was considered and plans laid to make this possible. To meet the necessary expense of such a venture the boys are intending holding a number of entertainments. The first two will be in the form of a euchre party and dance, to be held in the Forester's Hall on April 15th and 22nd.

Mrs. A. H. Easton, who has been visiting for a week at the parsonage reaurned to her home in Belleville on Saturday.

Revs. R. D. Wright and R. J. Merriam on Monday, April 11th attended the Peterborough District Ministerial Association meeting in the Y.M.C.A. board room.

PRIMARY VOTES POINT TO HOOVER

Roosevelt Also Shares Mantle of Public Favor in Many States.

MURRAY LOSES GROUND.

CHICAGO, April 13 (C.P.).—The mantles of popular favor for the U.S. Presidential nominations of the Republican and Democratic parties apparently rested more snugly to-day on President Hoover and Gov. Franklin D. Roosevelt.

Two States, Illinois and Nebraska, surveyed the outcome of yesterday's primary elections and found the indicated trend definitely favoring Mr. Hoover and New York's Governor.

And from three other states, two in the south and one in the west, came these expressions of political convention favor.

Kentucky pledged its entire Democratic delegation of 26 to Governor Roosevelt.

Missouri's slate of 41 Republican delegates was instructed by the State G.O.P. meeting for President Hoover.

And to the President went 13 of Florida's Republican delegates with four more remaining to be chosen. Nine of the 13 were instructed for him by the State convention and the remaining four by district meetings.

Gov. Roosevelt set the pace in the Democratic preference vote in Nebraska and widened the margin he set early over Speaker John M. Garner of Texas and Gov. William H. Murray of Oklahoma.

It was the first test of strength for the three in any one primary, and tabulations from 867 precincts of the State's 2,049 gave Roosevelt 38,211; Garner, 11,179; and Murray, 10,483.

Prayer Is Keynote Of April Program

Prayer was the keynote of the entire program yesterday afternoon when the April meeting of St. James' Woman's Missionary Auxiliary held in Wesley Hall.

The president, Mrs. A. E. Moorhouse, presided and introduced the program with a devotional service of praise, and prayer was offered by Mrs. Ingham.

Reports of various departments were given by the secretaries and others. Mrs. Ingham read a story entitled "A Dream—or Was It a Dream?" explaining the need of Christian Stewardship in the individual life. The Supply Secretary, Mrs. Payne, gave an encouraging report which promises well for her department work.

As herald on the Watch Tower, Mrs. Casey brought news of our Missions in Africa in an interesting little reading. "During the past thirty years, Korea has evolved from her primitive state into a modern world" said Mrs. W. Rose, in her splendid resume of the study of the month, which dealt with "hard times" in this far-off country.

An unusually pleasing musical offering was the vocal duet "My Prayer", sung by Mrs. Moynes and Mrs. Turner with guitar accompaniment. Mrs. Wm. Stevens, Presbyterial Secretary of Associate Helpers department, brought greetings to the auxiliary of St. James, in a brief address in which she introduced the work of her department.

A unique change in the order of program was carried out by placing the business program last. This included the minutes and an interesting and encouraging report from the treasurer for the first quarter's finances.

The Strangers' Secretary, Mrs. Davis, reported many calls made by her committee. Correspondence included several expressions of appreciation for cards and flowers.

The president expressed the thanks of the Auxiliary to all who contributed to the success of the Easter service, among whom were: Mr. Stevens, the organist for special music, Mesdames Woodley, Emery, Meredith, Sloane and Davis for their beautiful plants, and to the ladies acting as ushers. New plans were made for an anniversary tea to be held on May 13th, it being the fourteenth birthday of St. James' Auxiliary. The committees appointed were: Social, Mesdames Sloane, Davis, Copson and Miss Connie Wagar; Program: Mesdames Lavidson, Payne, Rose and Stevens.

Silent prayer was made for two adopted Missionaries, Misses Sybil Courtice and Nina McKim, and followed by sentence prayer by Mesdames Wilson, Dummitt, May and Moorhouse.

A hymn and the benediction brought to a conclusion a very successful meeting.

Oil wells in Turner Valley, Alberta, have made petroleum deliveries valued at approximately $15,000 in the last seven years since the beginning of large scale production.

The highest known ski-ascent in Canada was reported recently when three men climbed the peak of the Snow Dome, topographical centre of the Columbia ice-fields in the Rockies, altitude over 11,000 feet.

Important!

In requesting us to call for your ad, the order must be phoned before 12 noon in order to insure it being inserted on the same day.

TARZAN AND THE GOLDEN LION. NO. 69

By Edgar Rice Burroughs
(Metropolitan Newspaper Feature Service, Inc.)

"At last!" cried the High Priest. "This time, O, Tarzan of the Apes, you shall know the fury, not of the Flaming God, but of Cadj, the man. And that, immediately." He raised the sacrificial knife above his head. Beyond the point of the knife Tarzan saw the summit of the courtyard wall. Just surmounting it was the head and shoulders of a mighty black-maned lion. "Jad-bal-ja," shouted Tarzan, "KILL! KILL!"

Cadj hesitated, his knife poised on high. He noted the direction of the ape-man's glance and followed it. In that instant the golden lion leaped to the pavement and, with two mighty bounds, was upon the High Priest of Opar. The knife clattered to the floor and the great jaws closed upon the horrid face. The lesser priests who had seized Tarzan and had remained to witness his death, fled screaming from the scene.

Now remained only Tarzan and Jad-bal-ja and the body of Cadj within the sacrificial chamber. "Come, Jad-bal-ja," commanded the ape-man, "let no one harm Tarzan."....An hour later the victorious forces of La were over-running the ancient palace and temple of Opar. The priests and warriors who had survived eagerly surrendered. Now at La's command, the city was searched for Tarzan and Cadj.

Thus La, herself, leading a searching party, entered the sacrificial courtyard. The sight met her eyes brought her to a sudden stop. For there, bound upon the altar, lay Tarzan of the Apes. Standing above him, his snarling face and gleaming eyes glaring directly at her, was Jad-bal-ja, the golden lion. "TARZAN!" shrieked La, running toward the altar. "Cadj has had his way at last. Tarzan is dead!"

THOMAS HANLON DIES IN STATES

Old Peterborough County Boy Was 62 Years Clerk of Erie.

OLDEST CLERK IN U. S.

Sixty-one years city clerk of Erie, Pa., Thomas J. Hanlon, a native of Otonabee township, Peterborough county, died on Saturday in his eighty-seventh year. He was reputed to be the oldest city clerk in the United States in point of service.

He was born on June 2, 1845, near Hanlon's hill on the Norwood road, and when a youth went to Erie, where on attaining his majority he was elected city clerk on January 1, 1871. An Erie press account of his life refers to his election as follows: "Mr. Hanlon was not elected to the position until after a series of warm battles in select council which heard opinions of the town's outstanding lawyers, some of whom supported the objections of his opponent Daniel Sullivan, while others sided with Mr. Hanlon. His election was contested on the ground that he was a Canadian, and had not been naturalized as a citizen of the United States. This fight started on April 10, 1871, and it was not until April 24 that the dispute came to an end and Mr. Hanlon was actually placed in charge of the office of clerk of the select council. At a meeting on April 12, Mr. Sullivan was formally discharged by a majority vote, but it was impossible to get him to give up office. A. J. Foster was named as temporary clerk, and acted at one meeting. Finally on April 24 the election of Mr. Hanlon was confirmed, and his tenure of office began on that date. Up to that time he had taken an active interest in politics."

The Erie press report paid him the tribute of being one of the best informed officials on municipal law in Pennsylvania. Mr. Hanlon's death was due to a heart ailment that had kept him confined to his bed for more than a month. For several years he had spent the winter months in the south, and only recently returned from Birmingham, Ala., where he had spent several weeks with his daughter, Mrs. Frank Fox. He is also survived by another daughter, Mrs. Mary Denny who resided at home with him, and his sister, Miss Annie Hanlon of 478 Aylmer Street, Peterborough. His brother James Hanlon of Otonabee predeceased him. Other Peterborough relatives are, Miss Johanna McCarthy, Mrs. F. Fairen, Mrs. George Ball and Mrs. E. Callaghan.

IN MEMORIAM

BROWN.—In loving memory of my dear husband and father, James Brown, who passed away April 13, 1928; four years ago to-day.

For our loss we must not weep,
Nor our loved one long to keep
From the home of rest and peace,
Where all sin and sorrow cease.

—Sadly missed by his wife and sons, Jim and Andrew.

IN MEMORIAM

BOWLER.—In memory of a dear and loving father, David Bowler, who passed away April 13, 1930.

We watched him suffer day by day,
It caused us bitter grief
To see him slowly pine away
And could not give relief.
Long days and nights he bore his pain.
To wait for cure, but all in vain;
But God Himself knew what was best,
He took him Home and gave him rest.

—Sadly missed by Mr. and Mrs. Milton Bowler and family.

IN MEMORIAM.

BOWLER. — In loving memory of David Bowler, who died April 13, 1930:

Friends may think we have forgotten,
When at times they see us smile,
But they little know the heartache
That a smile hides all the while.
Then to those who have a grandfather,
Will you treasure him with care,
For you little know the value
Till you see the vacant chair.

—Sadly missed by Wife and Grandchildren, Milton, Norma and David.

Weddings

WEYMARK—GRAEBER.

On Saturday, April 2, at Buffalo, New York, Miss Florence M. Graeber, daughter of Mr. and Mrs. Joseph Graeber, Mulberry street, Buffalo, was united in marriage with Mr. Ralph A. Weymark, only son of Mr. and Mrs. J. Weymark, of Havelock, Ontario. Miss Alice Graeber, a sister of the bride, and Mr. Jack Quackenbush, a fellow printer and chum of the groom, were the witnesses.

After a short honeymoon, the young couple are to reside in Buffalo. The groom is employed as a compositor in the printing plant of the Pratt and Lambert wholesale varnish manufacturers, with plants in Canada and the United States.

Obituary

PATRICK BISSONETTE

INDIAN RIVER, April 13. — The funeral of Patrick Bissonette of Toronto and formerly of Peterborough was held from Holy Family Church recently, requiem high mass being celebrated by the pastor the Rev. Father Coyle. Interment took place at Mount Hope cemetery, the Rev. Fr. Murphy officiating at the graveside.

MRS. MARY ANN NILL

A very highly respected lady in person of Mrs. Mary Ann Nill, widow of late John Harper, passed peacefully away at the home of her daughter, Mrs. Leonard Brisbin, on Wednesday morning, April 13, 1932.

Deceased celebrated her ninety-second birthday on March 14, and was able to be up around the house a few days before her death.

Funeral will be held on Saturday, April 16, 1932 from residence of her son Mr. Cephas Harper, Fenella to Bethany (Macklin's) cemetery for interment.

Service in the church at 2 p.m. conducted by Rev. R. W. Patton, M. A.

MRS. ROSANNA CUMMER

Word was received here this morning from Palmer, Saskatchewan, of the death of Mrs. Rosanna Cummer. Mrs. Cummer was born in the Township of Cavan, near Millbrook, about 78 years ago. She was a daughter of the late John Shaw. Her early days were spent in Cavan and later she lived with her family in Owen Sound and district. About twenty years ago they moved to Saskatchewan. The late Mrs. Cummer is survived by three sons and a daughter. Three of them reside in Saskatchewan and Charles S. Cummer lives in Peterborough and is manager of the George Street Branch of the Bank of Montreal.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

WELLS TOO FULL!

This one might do for the "believe it or not" column. A farmer on the Fourth Line of Smith, who in dry seasons has experienced the inconvenience and labor of carrying water, reports that his two wells are so full that he had to hitch his gasoline motor to a pump and drain off some of the water to keep it from overflowing.

BEGGARS 'WORKING A RACKET'

Police are asking for the citizens' co-operation in order to stamp out the begging that is being complained of by several West-End residents. Citizens are urged to inform police immediately that they have been interviewed by those begging money, meals or clothing. Police explain that the machinery has been set up to look after the genuine cases of want. Those in need of food are given meal tickets at the Police Station. Most of the beggars that have been prevalent in going from door to door in the West End are 'working a racket,' police allege.

SOCIALISTS BACK U.S.

PARIS, April 13 (A.P.)—French Socialists to-day welcomed the U.S. Disarmament proposals made at Geneva yesterday.

"We applaud the Gibson plan without reservations," said Leon Blum, Socialist party leader, in the newspaper Le Populure.

For the first time it opens before the conference a way which can lead to the goal, and which will if followed with perservance and courage.

IN MEMORIAM.

SMITH. — In loving memory of Henry Smith, who died one year ago to-day (April 13).

Oh, what would I give to clasp his hand,
His dear, kind face to see;
To hear his voice, to see his smile
That meant so much to me.

His spirit has fled his sufferings are o'er;
At the fireside he will join us no more.

—Ever remembered by his Wife and Family.

WRIT IS ISSUED AGAINST DOUGLAS

H. A. Sutherland Claims Damages of $3,991.29 in Supreme Court.

Through his solicitor, J. A. O'Brien, H. A. Sutherland to-day issued a writ in the Supreme Court of Ontario against John Douglas, owner of an elevator at Omemee and another one at Fraserville and carrying on business in Peterborough and the surrounding territory under the name of Power Oil Company.

The amount claimed as due in the writ is $3,991.29, being made up on a promissory note in the neighborhood of $1,700.00 representing back salary, an item of $962.00 of past indebtedness the amount of which is alleged to have been agreed upon; a further item of $500.00 for wages in 1931 and $2,000.000 wages up to the 28th of February of this year. Mr. Sutherland gives credit in his writ for merchandise purchased from Douglas in the amount of $1,182.00.

A claim is also made for interest on the promissory note at 7 per cent. per annum from the date of this writ and interest on the balance at the rate of 5 per cent until judgment or payment.

Payment of this claim was demanded from Mr. Douglas by a letter from Mr. O'Brien on March 9, to which the only response was the issue of writ in the amount of $3,500.00 by Mr. Douglas against Mr. Sutherland. Mr. Sutherland's writ followed the terms of the letter written to Mr. Douglas.

HOME EDITION

VOL. LXVIII., No. 88 — PETERBOROUGH, ONTARIO, CANADA, THURSDAY, APRIL 14, 1932 — PRICE THREE CENTS

KIDNAPPERS BEAT 17-YEAR-OLD YOUTH

NEWS IN BRIEF

SHORT ITEMS RECEIVED OVER C. P. WIRE.

MISSIONARIES FLEE.

AMOY, China, April 14.—(A.P.)—British missionaries at Changchow, 25 miles west of here, began leaving for this place to-day as the result of the approach of large bodies of Chinese Communist troops who are retreating before the Kwangtung Provincial troops.

MINIATURIST PASSES.

WHITE PLAINS.—Charles James Turrell, who painted miniatures of noted persons, including Queen Victoria, is dead in his 88th year.

He was one of the world's foremost miniaturists and had exhibited at the Royal Academy at London for 50 years. Until a week ago he kept at his work. Then he fell ill and succumbed yesterday.

TRAWLER GOES ASHORE

HALIFAX.—(CP)— The French trawler Heureux went ashore near Dog Island, St. Pierre, Miquelon, at two o'clock this afternoon in a dense fog, according to a wireless report picked up by east coast radio signal service.

POLICE COMB RIVER

SARNIA—Provincial police today were grappling for the body of Edward Laird, 68, of Florence, believed drowned in Theuouth branch of the Sydenham River, half a mile north of the village. Laird left his home yesterday to visit a neighbor and when he failed to return for supper his relatives became anxious and started a search.

LEAPS TO DEATH

TORONTO—Harvey N. Canning, 35, a patient at Christie Street hospital here, jumped to his death from a fourth-floor window of the institution today. He had been suffering from severe nervous trouble.

STORM HALTS NAVIGATION.

ST. CATHARINES.—Efforts of steamship companies to "beat the gun" on the opening of navigation were balked here to-day by a blinding snowstorm. The steamer Algonquin, of the St. Lawrence Steamship Company, returned to port after venturing out in an attempt to reach Buffalo. Other boats are standing by, ready to move as soon as the weather clears.

SNOWPLOUGHS NOT ROBINS.

ALBANY.—Mid-April is supposed to bring robins to upstate New York but this season it brought snowploughs to one section of the State, anyway.

Chautauqua County was buried to-day under ten to twelve inches of snow, which had blocked many highways with four-foot drifts. Snowploughs struggled throughout last night to keep the main highways open. The secondary roads were closed.

MINE BLAST PROBED.

TIMMINS.—Police are investigating the explosion at the Hollinger Mine which resulted in the deaths of Lorenzo Sanseville, 23, and Edward Keen, 31, yesterday. No date had been set for the inquest to-day. The explosion occurred on the 3,350-foot level of the mine, and evidently was the result of a delayed "blast."

GAS KILLS FOUR.

KEONNE, N.H.—Four men were found dead in a room at a local lodging house to-day of accidental asphyxiation. A gas burner was open. All were believed natives of Finland.

NO TROUBLE AT SOO.

SAULTE STE. MARIE, Ont., April 14.—(C.P.)—While there has been little change in ice conditions in the Sault river during the past few days, it is expected vessels will have little or no difficulty in passing through here when navigation opens to-morrow. The west wind which for 72 hours had piled drift ice into Whitefish Bay, has dropped to-day.

SMUTS MOTION DOWNED.

CAPE TOWN.—By a vote of 76 to 65, the House of Assembly today rejected the motion by General Jan Smuts, Opposition leader, to refuse the vote of supply. The House then approved the budget of Prime Minister J. B. Hertzog's government.

Lindsay Post Foreman Is Severely Burned

LINDSAY, April 14. (Special to The Examiner).—Melville Copp, mechanical foreman at the Daily Post Printing plant, received painful burns yesterday about the face and hands when a blast of hot metal from a stereotyping caster struck him in the face. A piece of the metal lodged in the eye, causing severe pain. Mr. Copp will be off work for a few days with his burns.

University Tries "No Class' Method

PITTSBURGH, April 14.—A "No-Classes" method of education is being installed at the University of Pittsburgh. Under the plan, students may drop in for advice from their instructors and then do their studying as they please. The students gave a cheer when told about it. Then they learned if progress didn't suit their instructor-advisers, back to classes they would go.

Not everyone will be allowed to use the method, to be announced in the forthcoming university catalog as the "informal or conference" plan.

NAZI CHIEFTAIN NAMES APRIL 24 RETALIATION DAY

Suppression of His Troops Denounced as Blow of Despair by Hitler.

URGES NEW DRIVE.

Prepares Finishing Stroke as Answer to Arrests and Seizures.

BERLIN, April 14.—(AP)—"April 24 is retaliation day!" Adolf Hitler told his National Socialist forces today in a statement in which he denounced the government suppression order against his storm troops as "a last blow of despair."

April 24 is the date of the diet elections in Prussia and other German states, when the Nazis, defeated in their attempt to make Hitler president, will endeavor to secure legislative control through obtaining majorities in the local parliaments.

In his statement today Hitler thanked his comrades for the "work, discipline and faith" shown during the years the Nazi movement has been growing to its present strength.

Hitler's Answer

"Our answer to this last blow of despair from the present system will not be a parade, but a sweeping finishing stroke," he said. "April 24 is retaliation day!"

Indignantly protesting against the dissolution decree, which was signed by President Paul von Hindenburg his chief opponent in last Sunday's presidential election Hitler invited his followers to increase their effort to agitate the Nazi cause during the diet election campaign.

"As long as I live," he said in a closing appeal to his followers, "I belong to you and you belong to me."

RECRUIT ARMY OF UNEMPLOYED FOR ROAD WORK

Labor Leader Would Also Confiscate All Canadian Mines.

PAY MEN $1.10 A DAY.

Only Four Members Take Part in Budget Debate in House.

OTTAWA, April 14 (C.P.). — James S. Wordsworth, Winnipeg Laborite, laid before the House of Commons yesterday a scheme for marshalling a vast army of the unemployed. It would be used in opening up bush country in the north, building roads, beautifying parks and playgrounds. Recruiting of the army would form no cure for unemployment, he admitted, "but at from being "degraded" by some least it would be better than soup kitchens," and would prevent a man from being "degraded" by some of $1.10 a day and "everything forms of charity.

The Labor Leader, who has been outspoken in the past against militarism, suggested regular army pay of $1.10 a day and "everything found" for his peace army. Canada, he said, must take drastic steps in this day of depression. For instance, if the Dominion decided to adhere to a gold currency base—he did not consider this advisable — the mines should be confiscated and worked for the general advantage of the country by men recruited from the ranks of the unemployed.

Company Act.

While the Commons continued the Budget debate, the Senate board suggested many far-reaching changes in the laws governing company incorporations. Senator George Lynch-Staunton proposed limiting companies to one class of stock and objected to no-par-value shares. To preclude financiers and promoters from gaining control of an industry, it was suggested that a company be prohibited from buying stock in another company in the same line of business.

The Government, said Senator Arthur Meighen, Conservative Leader in the Upper House, did not contemplate a revision of the Companies Act at the present time. He did not believe a company organization should be restricted to common stock nor that a prospectus as suggested by Senator Lynch-Staunton, should be restricted to statements of fact.

A Dominion Act, laying down the principles of company incorporation and approved by the Provinces, was suggested by Senator Lynch-Staunton. The Provinces then

Planned Financing Trip To Old Country By Making And Selling Moonshine Liquor

LINDSAY, Ont., April 14 (Examiner Correspondence). — "I made and sold moonshine whisky because my wife and I wanted to get enough money to return to the Old Country," said William Wilkinson to Police Magistrate Jordan this morning. Wilkinson, who has been a charge of the town all winter, moved to a small house in Emily Township a few weeks ago and proceeded to brew and sell to young farmers. He also established a connection with a bootlegger in Lindsay. His still was one of the most complete yet confiscated by Officer O'Connell, the worm passing through a mechanical cooler.

Wilkinson's family of four, ranging in age from three months to six years, were sympathized with by Magistrate Jordan. "You are a soldier. I am sorry to have to fine you $300, and a month in jail."

When Officer O'Connell entered the shack, he found the baby sick with whooping-cough, and the parents giving it moonshine to cure a cold.

SIR JOHN AIRD WILLING TO BACK NATIONAL RADIO

Still Believes Scheme Recommended is Best Way to Solve Broadcasting.

NO SUBSIDIZING.

Opponents of Nationalization "Grossly Exaggerated" Cost He Says.

OTTAWA, April 14 (C.P.). — Nothing that has developed since the presentation of the Aird report on radio in 1929, has caused him to alter his belief that the scheme recommended in that report is the best means of solving Canada's broadcasting problem, Sir John Aird told the House Committee on Radio to-day. Sir John was chairman of the Royal Commission which investigated radio throughout America and Europe in 1929 at the request of the Canadian Government. The report of that commission, calling for a nationally controlled scheme of radio broadcasting, has formed the basis of arguments for those urging upon the committee principle of public ownership.

Sir John regretted that the opponents of nationalization "grossly exaggerated" the costs of carrying out the Aird report recommendations, some placing the annual figure as high as $15,000,000. He was still convinced, said Sir John that an adequate service could be furnished Canada at an annual cost of $2,500,000.

He was satisfied radio owners would be willing to pay $3.00 per year license fee if they could be assured of good service. That would raise from a million and a half to two million dollars. Revenue from direct advertising would bring in enough to increase the total to $2,500,000.

No Subsidizing.

There had been some talk of subsidies to enable existing stations to branch out and reach all Canada with continuous programs. Canada's experience with subsidizing railways was hardly such as to warrant a similar venture in the radio industry, said Sir John. It would be a great error, he believed,

Match Fires Gases; Two Badly Burned

KITCHENER — Striking a match as he entered a close basement compartment in which his daughter was cleaning curtains with gasoline here today, Samuel Budovitch, inadvertently set fire to the vapor which hung about the room, and both were painfully burned.

Miss Budovitch, despite the flames which enveloped her body, raced up the stairs and phoned in the alarm.

MINE WORKMAN SLAIN IN FRACAS

Riot Occurs as Men Attempt to Start Work—Tear Gas Used.

TROOPS HELD READY.

STEUBENVILLE, O., April 14. — One man was killed and several hundred persons who were alleged to have threatened miners and U. S. guard officers en route to the Somers mine of the Goodyear Tire and Rubber Co., near Adena, in an early morning riot, were dispersed with tear gas.

Walter Kimbel, 50, one of the men who is alleged to have attempted to persuade workers employed at the mine not to go to work was shot, presumably by an aide of Col. Don Caldwell, a guard observer in the field.

Kimbel with several hundred other men are alleged to have gone to the miners' homes this morning and attempted to stop them from going to work at the shaft. One worker refused and was tossed into a [illegible] creek.

Guards Stoned.

When they refused, the pickets lined the road and stoned the automobiles carrying the guard officers and sheriff's deputies to the mine. Another crowd met the workers and guards at the mine and a shot was fired from one of the automobiles carrying the guard officers, fatally wounding Kimbel. Two autos were overturned. About the same time the shot was fired, Sheriff Maurice Wooster and his deputies hurled tear gas bombs into the crowd and dispersed.

By order of Governor George White, who communicated with Adjutant General Frank D. Henderson of Washington, D.C.

A battalion of the 145th Infantry, Ohio National Guard, stood ready to invade the troubled district, if necessary.

EXPRESS STRIKES AUTO DRIVER DIES INSTANTLY

NIAGARA FALLS, Ont., April 14.—Malcolm S. McKenzie, 40, married, of Chippawa was instantly killed and terribly mangled today when his auto was struck by a Michigan Central Railway passenger train at the Clifton Hill crossing in the heart of the city.

The car was carried 250 feet by the engine and the broken body was found in the wreckage. McKenzie, who was an insurance agent had been driving up the steep approach to the crossing and apparently did not note the approach of the train. Coroner W. W. Thompson will open in inquest at noon.

Ask Bar Continue On Export Of Gold

OTTAWA, April 14 (C.P.).—Parliament will be asked to approve a measure authorizing the Governor-in-Council to continue regulations prohibiting export of gold. Present regulations prohibiting export were put into effect under authority given in the peace order and gold government provisions of the Unemployment and Farm Relief Act. This bill, though, expires on May 1 next.

WOULD NOT TELL COMBINATION OF FATHER'S SAFE

Youth Answers 'Phone Call—Thug Leaps Into Car With Gun.

TWO OTHERS PICKED UP.

Trio Flee When Blows Fail to Get Information—Police Net Out.

WINNIPEG, April 14.—(CP)— Kidnapped for an hour and beaten when he refused to tell his abductors the combination of his father's office safe, Sam Rachootin, Jr., 17-year-old son of a bakery proprietor, is back at school today after a night of near-horror.

Police are searching for three men who last night tried to force the husky son of Sam Rachootin, president of the Workingman's Bakery, Ltd., to reveal the safe-combination, struck him when the lad refused and left him in his father's car five miles from the city. They are believed to be the same men who two days before threatened Rachootin with kidnapping of his son unless $5,000 was handed to them.

Both Rachootin and his son regarded the threatening letter as a joke and Sam, Jr., continued to go to school. Early last night the boy received a phone call asking him to attend a meeting, and he started out in his father's car. From the shadows of a street near his home a man leaped on the car's running board and sprang into the seat beside the youth.

Gun In Ribs.

He ordered same to drive on, at the same time forcing a revolver end into the boy's ribs and placing

(Turn to Page 5, please)

FLOOD PREVENTS WORK AT MILLS

Over 300 Employees Wait Until Swollen St. Lawrence Subsides.

VILLAGES MENACED.

MONTREAL, April 14 (C.P.). — About 300 employees of the St. Lawrence Paper Mills at Three Rivers, Que., are idle to-day due to the swelling waters of the St. Lawrence River having stopped the water intake pumps, while 70 employees of the city of Three Rivers temporarily joined the ranks of the unemployed, when rising water prevented further work at the Laverendrye Street tunnel.

From Ste. Angele-de-Laval it was reported that the highway from that point to Becancour was flooded with two feet of water. Telephonic communications with Becancour have been interrupted since Saturday last. No damage has been reported, however.

The Three Rivers-Shawinigan road is closed to traffic, following a landslide at Cote Caches.

At Louisville, two streets were flooded when the Riviere-du-Loup overflowed.

Ice Jams Break.

From other districts there was no change reported in spring flood conditions. Cooler weather and a bright sun replaced the rain and snow of the past few days. The wind that did so much to jam ice and break up field ice in the lakes and rivers had dropped to a gentle breeze.

At Beauceville, Sherbrooke, St. Joseph, Declercville, Ville Marie and a few other villages the muddy water of the freshets still lapped at the foundations of houses in village streets. The level dropped a few inches in some localities and there was no immediate danger of further damage.

Woman Sent To Cobourg On Deportation From U. S.

COBOURG, April 14 (C.P.). — Alleged to have been deported from the United States, Mrs. Mabel Tripp, Stratford, is en route to Toronto today in search of employment. Mrs. Tripp was sent to Cobourg Monday, after having been employed in Rochester for some time.

The woman stated she was deserted by her husband seven years ago, and faces unemployment with three children to care for. She had been living in Rochester for five years, she said, and "everything was going fine until the immigration officers came to where I was staying and told me I had to go back to Canada."

Girl of Seven Teaching School

CHICAGO, April 14.—A 7-year-old girl whose immigrant parents can neither read nor write English, is teaching school in Chicago, it was learned today.

She is Joanna Xenos, who prefers newspapers and French history to fairy tales.

Joanna was unable to read or write English when she entered the First Grade, but got along so well that within ten months she was advanced to the Fourth Grade. Within the past month she passed into the Eighth Grade.

But the advanced studies were so easy for her that she was put in charge of a room of forty pupils from 8 to 11 years of age to help them with their reading and writing.

GIRL SUFFERED FROM DELUSIONS COUNSEL CLAIMS

Complainant Admits Voluntarily Entering Psychiatric Hospital.

CASE CONTINUES.

Farmer Lands in Cells for Applauding While Evidence is Being Given.

MILTON April 14 (C.P.). — Miss Sylvia Boyd, who alleges Stanley Russell, Oakville funeral director, attempted to criminally assault her, was "mentally abnormal and suffered from delusions," according to Arthur G. Slaght, K.C., defence counsel, when the trial of Russell resumed to-day.

No incident such as Miss Boyd described had actually taken place, declared Mr. Slaght.

The trial was featured by an outburst of clapping and the prompt placing in jail of a spectator to-day. Stuart Murray, farmer of Esquesing Township, was the offender. He applauded some of the evidence.

Ordered to Cells

Mr. Justice R. G. Fisher promptly ordered the man taken to the cells. Murray was released later.

Miss Boyd testified yesterday that Russell had telephoned her one night and asked if Mr. Seymour was at home. The alleged assault, she said, occurred later,

(Turn to Page 5)

JAPS PROBING TRAIN WRECK

Tokyo Press Inclined to Blame Smash-up on Bolshevik Irregulars.

Bitterness in Manchuria.

TOKYO, April 14. (AP)—An investigation into the causes of the wreck of a Japanese troop train yesterday near Harbin, Manchuria, were begun there to-day.

A despatch to the Rengo News Agency from Harbin said the importance attached to the matter by General Honjo, Japanese military commander, was shown by the fact that he sent Col. Itagaki, one of his most trusted staff officers, from Mukden to conduct the enquiry.

Col. Itakaki rushed to Harbin by plane.

The newspaper Asahi, reporting the arrest of one Chinese in connection with the wreck, described "notable activity of Red terrorists" in the Harbin district recently. The Jiji Shimpo blamed the wreck and recent attempts to dynamite the Chinese Eastern Railway upon "partisans" which is the term usually applied in Siberia and Manchuria to Bolshevik irregulars.

Other reports described the bitterness of the Japanese army in Manchuria against "a certain country."

Prepared!

ARENGO, Ill.—You can hijack Victor Perry, produce truck driver, once—but only once. After robbers took his truck two years ago, he devised an armour plate for the driver's seat. Yesterday hijackers tried again. They peppered the armor, then Perry peppered them, and they fled.

'HAPPY WARRIOR' WOULD FORGET ALL WAR DEBTS

Plan Suggesting Cancellation for 20 Years Startles Democratic Banquet.

MILD APPLAUSE.

Would Cut Debt Total Yearly By 25 Per Cent. of Purchases of U.S. Goods.

WASHINGTON, April 14. — (AP) — The opposition of Alfred E. Smith, suddenly and forcefully expressed, today stood across Franklin D. Roosevelt's path toward the presidential nomination of the Democratic party.

A stern challenge, with its object unnamed but indisputably identified, was thundered out by the "Happy Warrior" of 1928 last night in his address to the Jefferson Day gathering of the party's great—a gathering which had been heralded as a "unity" meeting to forward Democratic success in November.

Roosevelt was not there. Other business kept him in Albany, but many of his supporters were in the throng which heard Smith, after quoting Roosevelt utterances, promise to "take off my coat and vest and fight to the bitter end any candidate who persists in any demagogic appeal to the masses of the working people of this country to destroy themselves by setting class against class and rich against poor."

"Forgotten Man"

It was Roosevelt who only last Thursday in an address pleaded the cause of the "forgotten man" at the bottom of the economic structure, the farmer and the small householder. In that same address he labelled a "stop-gap" the idea of a big public works bond issue to stimulate employment.

Smith, who sponsors just such a project, quoted this word "stop-gap" in referring critically to exception taken to his plan in the recent speech of a leading Democrat whom he did not name.

To-day the Democratic leaders were weighing the effect of this startling development of the party fortunes and upon the candidacy of Roosevelt, who now is way beyond any rivals on the road to nomination, with 216 pledged and claimed delegates. Immediate repercussions were awaited.

Startling Proposal

Smith flung into the meeting also a proposal for settling the war debts and stimulating foreign trade by this government's offering the debtor nations to "forget" their obligations for 20 years; meanwhile reducing their total each year by 25 per cent of their purchases of United States goods. Considerably elaborated, this plan received an uncertain response, with much less applause than was volunteered many of his utteranges.

Smith advocated a clear-cut platform, which besides his war debt plan and liquor control project reiterated a demand for scientific tariff rates written by a non-partisan commission, and a thorough reorganization of the Government machinery.

AUKLAND RIOT SERIOUS AFFAIR

Mayor Appeals to All Citizens to Aid Restoring Order—2 Constables Hurt.

STORES LOOTED.

AUCKLAND, N.Z., April 14 (A.P.) —Two constables were seriously injured and a number of others less seriously in riots by unemployed which broke out to-night in Queen's street. Many shop windows on the principal thoroughfare of Auckland were smashed.

The riot was continuing and police had difficulty to place it under control.

The rioters looted jewellers' and other shops on the main thoroughfare.

The Mayor broadcast an appeal to citizens to assemble at police headquarters and help in restoring order.

The trouble started when a procession of civil servants parading in protest against pay cuts was joined in the main shopping area by a disorderly crowd of unemployed.

NEW LEAGUE MEMBER.

GENEVA. — It was learned on od authority to-day that Turkey is ready to become a member of the League and an invitation probably will be issued this year.

BRITAIN HAS SUFFERED LEAST IN WORLD'S TRADE SHRINKAGE

Runciman in Reviewing Balance Looks Back With Satisfaction on Policy.

HOME INDUSTRIES AIDED.

LONDON, April 14.—(C. P. Cable) —"As a result of strong steps taken not a moment too soon by the government last November we can look back on our policy with satisfaction," Walter Runciman, president of the Board of Trade, told the House of Commons this afternoon in reference to the balance of trade.

Mr. Runciman was introducing the estimates of the board of trade.

The abnormal import orders issued in November kept down imports to Britain by £8,000,000 directly, and indirectly by another £16,000,000 or £17,000,000, Mr. Runciman said. "The result while preserving our purchasing power abroad for more pressing needs, has been to give home industries an impetus exceeding any since 1921," said the minister.

"In the general depression we suffered least in the world's shrinkage of trade than any other country in the world."

LAD'S BODY FOUND

ST. CATHARINES.—The body of Reginald Maxwell, 13, was recovered from the Welland canal today. With Walter Essery, 10, Maxwell went paddling in an old canoe Tuesday night and both were drowned when the craft capsized. Essery's body was recovered yesterday.

Kidnapping Suspect To Be Given Freedom

ST. THOMAS, April 14. —(CP)— D. D. Dickerson, of Detroit, arrested here in connection with the Lindbergh kidnapping case, will be released and returned to Detroit today. Mrs. Dickerson, accompanied by a nurse, arrived here today and will escort her husband back to the Michigan city.

Dickerson was arrested yesterday when letters addressed to Col. Lindbergh and others were found in his possession. He was remanded for a week when he appeared in police court, and police carried on an investigation into certain statements he is alleged to have made.

50,000 BRITISH EMIGRANTS WOULD QUIT AUSTRALIA

LONDON, April 14. (C. P. Cable) A petition signed by 50,000 persons who are said to be British born emigrants to Australia and seek repatriation to the Motherland has been presented to the House of Commons by John McGovern, Independent Labor member for Shettleston, Glasgow.

The petition charged the signatories were induced to leave their homes in the United Kingdom and emigrate to Australia by propaganda of the Australian Commonwealth and state governments and authorized agents, this propaganda being described as "extravagant, misleading and in many cases indubitably false."

SINO-JAPANESE AFFAIR TENSE

Tokyo Claims Chinese Action Signifies Collapse of Peace Parley.

WAY OPEN FOR WAR.

SHANGHAI, April 14. — (AP) — Mamoru Shigemitsu, Japanese minister said today the action of the Chinese in referring the peace proposals to the League of Nations, signifies the collapse of the peace parleys here and leaves the way open for Japan to take any action she may deem necessary to protect her interests here.

The way is open for military action, if necessary, he said, and he added that the armistice negotiations must be carried on here or not at all.

He said no new military steps will be taken "unless there was provocation."

He pointed out, however, that the Sino-Japanese situation continues to be tense and cited the mobbing of a Japanese citizen in the French concession last Wednesday by Chinese. This, he said, was the second such incident in the last two weeks.

PREMIER J. A. LYONS APPEALS TO EVERY STATE AUTHORITY FOR AID IN BLOCKING BREACH

Total Omits £5,000,000 Due in Case Hoover Debt Moratorium is Not Prolonged.

URGES MORE WAGE CUTS.

States Production Must Be Put on Profitabl Basis—Costs Cut 20 Per Cent.

MELBOURNE, Australia, April 14 (C.P. Cable via Reuter's). — Prime Minister Joseph A. Lyons told the reassembled Conference of Premiers here to-day the Commonwealth Budget deficit for the fiscal year 1932-33 would probably be £21,000,000, and this did not include provision for £5,000,000 due in the event the Hoover moratorium on war debts and reparations is not prolonged.

Dealing with the report of the expert committee on unemployment the Prime Minister, who went into office at the head of the United Australia Party at the beginning of the year, declared it was imperative production should be placed on a profitable basis and its costs reduced by 20 per cent even on the basis of the present exchange rates

The Federal Arbitration Court had already reduced "real" wages by 10 per cent, the Prime Minister went on, but the State tribunals had not yet effetced a corresponding reduction. He appealed to the State authorities and generally to workers to implement the special committee reports recommendation of general reduction in wages.

Raise Exchange Rate.

The Commonwealth Government also endorsed the report's recommendations the exchange rate should be raised in order to further close the gap between export prices and production costs, because this offered the best hope for progressive improvement in the position, the Prime Minister said.

The Commonwealth suggested the States should co-operate in negotiating a loan of £10,000,000 for which the Commonwealth would be prepared to accept half the responsibility, and recommended a Federal and State employment council be established June 1 for selection and approval of methods for relieving unemployment.

Farm For Destitute Single Men Planned

OTTAWA, Apr. 14 (C.P.)—Proposals for the establishment of a farm for destitute single men are before the board of control here to-day.

The proposals were made by Brigadier General Chas. F. Winter and a delegation representing the Red Cross Society. Under the plan, a farm which would accommodate 250 in the winter and provide for a lesser number in the summer months would be operated.

Part of the cost of maintaining the farm would be met by the produce raised by the men.

The plan will be given careful consideration by the board if found feasible, the co-operation of the Federal Government may be sought.

LEAGUE REQUESTS CHINA TO RE-OPEN PEACE TALKS

TOKYO, April 14 (A.P.) — Sir Eric Drummond, Secretary General of the League of Nations, has informed U. U. Yen, Chinese spokesman, that China must seek peace with Japan in conferences at Shanghai and not appeal to the League, the Japanese delegation at Geneva telegraphed the Foreign Office to-day.

The telegram said Sir Eric told Naotake Sato, Japanese representative, last Tuesday that Mr. Yen the day before had requested that the League Commissions of 19 be convened as soon as possible to consider the Shanghai situation. Sir Eric advised Mr. Yen according to M. Sato, that the Chinese should continue to try to reach an agreement with the Japanese locally instead of appealing to Geneva.

ONTARIO GRAIN

TORONTO, April 14.—Wheat, 52c to 54c; barley, 35c to 40c; oats, 27c to 30c; rye, 45c; buckwheat, 45c; corn, 36c.

Volcano Erupts; 5 on Island Die

MOSCOW, April 14.—(AP)—A despatch to the newspaper Izvestia from Baku today said five persons were killed and nearly a score injured in a volcanic eruption on the Island of Svinoi.

The Soviet Steamer Yakov-Zevin sped to the scene, the despatch said, and took aboard 18 persons who were suffering from burns, but it was unable to rescue five others who were known to have perished.

Zinoi is one of a number of Islands in the Caspian, south of Baku.

DARROW KEEPS DEFENSE PLANS CLOSE SECRET

Pubic Prosecutor to Close His Case With Last Witness To-day.

MURDER TRIAL.

Honolulu Citizens Crowd Court to Hear Veteran Defend Four Accused.

By William H. Ewing

HONOLULU, April 14. —(AP)— Enmeshed by many threads of the prosecution's story of the lynching of Joseph Kahahawai, four persons accused of the killing watched closely today for Clarence Darrow to go into action for their defence with tactics shrouded in secrecy up to the last minute.

Except for one witness, Public Prosecutor John C. Kelley finished his case yesterday with testimony that broke the frigid composure of the accused society matron, Mrs. Granville Fortescue. Her shoulders moved expressively when two neighbor women testified to hearing a shot from the direction of her home at 9 a.m., January 8, when Kahahawai allegedly was killed there to avenge a criminal attack on Mrs. Thalia Massie, daughter of Mrs. Fortescue.

With gruesome exhibits the prosecutor wove his case, aided by many witnesses. Then he turned to Circuit Judge Charles S. Davis.

"We need about fifteen minutes more, judge," he said, "but would like to have it tomorrow. We may have one more witness."

"We will be ready," said Darrow quickly, and court adjourned.

One More Witness

The remaining witness is Mrs Joseph Kahahawai, Sr., mother of the slain athlete, who wept silently as Kelley reached the climax of his effort to send Mrs. Fortescue and three navy men to prison for the killing.

What Darrow would do for a defense had the prosecution as well as the general public guessing. Time and again he dismissed prosecution witnesses with 'that's all; no questions."

His apparent passivity served to build up a belief he would seek to free Mrs. Forescue, Lieut. Thomas H. Massie, E. J. Lord and Albert O. Jones by flatly branding the lynching as an avenging act. But he only smiled when queried about it.

This air of mystery sent public interest to a high pitch. Persons aspiring to be among the 75 spectators, all that the court room will seat, arose early to stand in line. One man hired three unemployed persons to hold places for him "by proxy."

A report that at least one of the defendants would plead insanity still lacked substantiation.

ROYAL BIRTHDAYS.

LONDON, April 14 (C.P.).—Two members of the Royal Family celebrated birthdays to-day, but both were abroad.

Princess Beatrice, King George's aunt and mother of the former Queen of Spain, was 75. She spent the day quietly at San Remo, on the Italian Riviera.

The Earl of Athlone, brother of Queen Mary, was 58. He is travelling abroad with his wife, Princess Alice.

Met Supposed Kidnappers in Cemetery

The fence at Woodlawn Cemetery Bronx, N.Y., where "Jafsie," Dr. John F. Condon, met an envoy of the Lindbergh baby kidnappers, to discuss negotiations, is shown in photo (1). During their conversation a cemetery watchman approached, and the stranger vaulted over the fence and disappeared. A few minutes later he reappeared and the two men walked to a wooded section of Van Cortland Park and talked for over an hour. The kidnap envoy agreed to send tokens that would establish beyond doubt that his associates had the baby. After successfully evading photographers for quite a while, Major Charles Schoeffel (2), Assistant Police Chief of the State of New Jersey, was finally caught by the camera as he left his hotel in London. The mission of the police head is secret, but is believed to be in connection with the kidnapping.

ARREST CLOSES HUGE SWINDLE

Western Ontario Residents Defrauded of $200,000 in Supposed Creamery Merger.

TRIAL IN GODERICH.

GODERICH, April 14.— (C.P. — Francis Byles, 52, arrested in Toronto and brought to Goderich yesterday, will appear in police court to-day to answer charges of false pretences. He is alleged to have been connected with a swindle in which residents of Western Ontario counties were defrauded of more than $200,000.

Information leading to Byles' arrest was sworn out by John A. Crerar of Brussels, who claims he was defrauded of $1,250.

The scheme employed by Byles, who police claim, has served terms for fraud in Toronto and Montreal since last December, was a supposed large scale dairy merger. Byles is said to have secured options on numerous creameries and two have made substantial payments on them, before he disappeared from the district last December.

The police report shows it was later discovered large blocks of stock had been sold in the supposedly projected merger.

According to local authorities there is a warrant in New York City for Byles' arrest. United States' authorities have already investigated extradition proceedings which will be heard in Toronto this week.

Commit Burford Man On Charge Of Murder

BRANTFORD, Apr. 14 (C.P.)—R. Bruce Robertson, Burford Township, was committed for trial here yesterday by Magistrate Blake on a charge of murder. Crown Attorney W. M. Charlton appeared for the Crown, J. Mcl. Reycraft, for the defence.

Dr. O. C. Powers, Burford, was the only witness called. He told of finding Robertson at home with a razor in his hand, which he prevented the man from using on himself. He later discovered Mrs. Robertson's body in the room with the throat cut. Dr. Powers had left his car, and was on his way to a woodshed at the rear of the house, when he heard screams which caused him to investigate.

Committal followed.

G. H. Barr To Speak Campbellford Hall

CAMPBELLFORD, April 14 (By Examiner Staff Correspondent).—The opening meeting of the Campbellford Cheesemakers' Association will be held on Wednesday, April 12, in the Campbellford Public Library, when George H. Barr, Director of Dairying in the Department of Agriculture, will be the main speaker. Mr. Barr, who comes from Toronto, will make this the first of a series of visits to the cheesemakers of Ontario. The meeting is called for 2 p.m.

SEEKS TRADE TREATY

MONTEVIDEO, Uruguay, April 14 —(AP)—Shigheti Kubata, Japanese commercial representative, began negotiations today for a commercial agreement based on an interchange of products between Japan and Uruguay he said owing to the Chinese conflict Japan was seeking new markets for the purchase of raw materials and fertilizers.

Members Are Mum Regarding Caucus

ST. JOHN'S, Nfld., April 13 (C.P.). — Government supporters in the Newfoundland Legislature held a caucus this morning to discuss the uncertain political situation resulting from recent riots.

Among those in attendance was Sir William Coaker, Minister without portfolio, whose resignation, tendered a week ago, was not accepted by Governor Sir John Middleton.

None of the members would comment on the caucus, but it is understood present plans call for a meeting of the Legislature on Tuesday, April 19.

MASSEY-HARRIS GIVES DISCOUNT TO AID FARMERS

Existing Obligations and New Purchases to be Benefited.

CUT OF 10 PER CENT.

T. A. Russell, President of Massey-Harris Company, Issues Statement.

TORONTO, April 14.—To enable farmers to secure equipment much needed for the new seasons' operations and to aid in liquidation of their present indebtedness, a plan is announced by Massey-Harris implement company involving a 10 per cent discount on all existing obligations to the company and on all new purchases of implements to the extent of payments prior to the end of next November.

T. A. Russell, President of Massey-Harris Company, has issued the following statement:

"For weeks past the officers and directors of Massey-Harris Company have been giving continuous thought to working out a policy which would be of help to the farmers of Canada, who will shortly be busy preparing for a new season's operations. Owing to the unprecedented fall in the prices of agricultural products, the purchasing power of the farmer has been lessened to such a degree as to reduce farm implement purchases to the lowest point in years.

"Our factories are practically idle and workmen who have been faithfull and loyal employees for years have but little immediate

(Turn to Page 3 Please)

RED INDUSTRIES FALLING BEHIND

Coal, Metal, Transportation Fail to Keep Pace With Five-year Plan.

HITS WHOLE COUNTRY.

MOSCOW, April 14 (A.P.)—Soviet Russia's three most important basic industries—coal, metals and transportation—are failing to keep pace with the program for the final year of the five-year plan, the newspaper Izvestia said to-day.

The admission was made in connection with the publication of an announcement that the railroad trasport plan for the first quarter of this year was only 86 per cent. complete.

During the last few days the paper announced that coal production for the first quarter was only 86.9 per cent of the coal set for the final year of the plan and that disappointingly slow development of metallurgical production in the Urals had resulted in a shortage of steel which threatened the large auto and tractor manufacturing plants. These plants also are suffering from a scarcity of fuel.

Freight loadings for the first quarter of this year were given by the newspaper as 67,000,000 tons. This represents an increase of 32 per cent over the same period last year, but it is 14 per cent below the goal set by the plan.

Fenella

Mrs. Howard Macklin, who has been visiting friends and relatives in Port Hope and vicinity for the past three weeks, returned home on Friday.

Mrs. Edith Waite, Toronto, is staying with his mother, Mrs. Annie Smith, for a few days.

The stewards of Fenella United Church were at Roseneath on Monday afternoon, attending a meeting of the quarterly board, which was held in the United Church there.

BORN. — On Sunday, April 3, to Mr. and Mrs. James Skilling, Fenella, a son, (still born.)

Mr. and Mrs. Herbert Walden, Mr. James Walden, and Mrs. Hannah Roberts, of Toronto, were Sunday visitors with their sister, Mrs. Annie Smith. They were also accompanied by Mrs. Smith's daughter, Mrs. Ethel Stewart.

Mrs. James Waldie will be hostess to the Fenella Women's Institute, on Thursday afternoon, April 14. Mrs. W. Rogers and Mrs. W. H. Sandercock have charge of the program.

Pan-American Day Opposed In Mexico

MEXICO CITY, April 14 (A.P.) —Mexican "anti-Imperialists" united to-day in opposition to the celebration of pan-American day. The anti-Imperialist League planned a large public protest meeting.

Dr. Pedro de Alba, Director of the National Preparatory School, a division of the National University of Mexico, demanded removal of the offices of the Pan-American Union from Washington. In a statement, he said, "There is nothing as dead in the new world as Pan-Americanism."

REDS BUYING STOCK

MONTEVIDEO, Uruguay, April 14.—(AP)—M. Minkin, manager of the Iuyamtorg, South American Soviet trading organization, said today he planned to buy 500 pedigreed bulls to be shipped to Russia in July to improve Russian herds and also 100,000 green hides and a consignment of wool.

Seymour Couple Are Given Purse of Money

CAMPBELLFORD, April 14. (By Examiner Staff Correspondent). — Honoring Mr. and Mrs. Samuel Bibby of Seymour township, who leave the settlement this week to take up residence in Campbellford, a surprise party visited their home on Tuesday evening to spend a social time with their friends before their departure. A large number of neighbours were present and spent a very pleasant evening which was made the occasion of a presentation of a purse of money to Mr. and Mrs. Bibby and the reading of an address. This was to mark the respect in which the family were held by their life-long friends and neighbours. The address was read by Mrs. Joseph Quinn, the presentation being made by Ward Archer.

Some talkies shown in Germany this season have enjoyed runs of six weeks.

MAJOR-GENERAL HUGHES DIES AT AGE OF 82 IN BOWMANVILLE

Brother of Late Sir Sam Hughes Suffered Long Illness.

NOTED AS SOLDIER.

BOWMANVILLE, April 14. — Major-General John Hughes, distinguished soldier and brother of the late Sir Sam Hughes, died at his home here yesterday, following a lingering illness. During the latter part of the Great War he was Inspector - General of military camps in Canada. He was 82 years old.

At the outbreak of war General Hughes was appointed Officer Commanding Valcartier Camp in Quebec. In 1918 Sir San. appointed him Inspector-General of Military Forces in Western Canada, and later he became Inspector-General of Canadian Military Camps This position he held until demobilization.

Enlisted When Only Sixteen

Born in Darlington Township, the eldest son of the late Mr. and Mrs. John Hughes, he enlisted when he was sixteen years old in the old Midland Battalion, and saw service in the Northwest Rebellion. The Midland Battalion, recruited from Durham and Victoria Counties, was eventually divided into the 45th and 46th Battalions, and General Hughes was Officer Commanding the 46th when Sir Sam commanded the 45th.

Military Funeral Planned

Following his services with the army, General Hughes settled in Newtonville, and for the next twenty-seven years was engaged in busi-

BOURBON FALL IS CELEBRATED

Millions of Spaniards Rejoice on First Anniversary of Republic.

GREAT FESTIVITIES.

MADRID, April 14 (A.P.)—Millions of Spanish Republicans, in their brightest holiday gear, gloriously celebrated to-day the first anniversary of the fall of the Bourbon monarchy and the founding of the republic.

Throughout the country fireworks flashed and banged, floats paraded, bands played, folk dances were danced and orators sounded with rolling periods the birth of Democratic government.

Massed squadrons of airplanes scattered flowers over the crowds. Musical festivals were arranged in the two big Madrid bull rings, and ahead lay a brilliant round of club, cafe and street dances to round out the festivities to-night.

The first birthday of the second republic found the government firmly established in a country that has probably experienced more radical social and political transformation during the year than any nation of modern times, except Russia.

Ex-King Plays Golf

FONTAINEBLEAU, France, April 14 (A.P.)—Former King Alfonso XIII of Spain spent the first anniversary of his abdication on the golf links here to-day with the former Queen and their daughters, Princess Beatrice and Princess Christina.

He was in good spirits, a spokesman said, and was taking no notice of the anniversary.

Yesterday the former King had lunch in Paris with the Queen and some friends.

CAMPBELLFORD

BRIEF AND INTERESTING NEWS ITEMS FROM THE TRENT TOWN.

Another social evening will be enjoyed by many this week when on Friday the Catholic Women's League will hold an "At Home" in the High School Auditorium. Cards and dancing will be participated in, good prizes and music being featured.

Mrs. Stanley of Port Hope is visiting her daughter, Mrs. C. J. Vindrim and Mrs. Windrim for a few days.

Roads are still bad in this section of the country. The Brighton Highway is now completely blocked and the only passable route between town and Peterborough is via Warkworth.

Mr. Stuart N. Carr, son of Mr. and Mrs. H. N. Carr, has achieved a signal honor at the Dairy School, Ontario Agricultural College, Guelph, by winning the gold medal and nine of the available ten prizes offered in the course. This is a distinction to be proud of. Mr. H. N. Carr, proprietor of the Trent Valley Creamery, took the same course at the Dairy School twenty-three years ago.

A high tribute of respect was paid to the late J. Nelson Stone last evening when at the regular meeting of the Ionic Chapter, Royal Arch Masons, Campbellford the late Ex. Comp. and Past Principal Stone's office of S.N. in the local lodge was filled by V. Ex. Comp. Wesley Stephens. During the election, Ex. Comp. E. C. Dolman, Z., voiced the regret of the members at the vacancy left by Mr. Stone's leath, pointing out that he had always been a faithful and devoted member of the Lodge, filling his office faithfully, his death being a loss to the fraternity.

Ended Bronchitis, Relief In One Day

"No one can know better than I the real benefit one gets from the very first day's use of 'Catarrhozone'," writes A. D. Douglas, from Port Antonio. "I had for years a stubborn case of Bronchial Catarrh, ear noises, headache, sore eyes, that Catarrhozone overcame in one day." Large one dollar size Catarrhozone with hard rubber inhaler lasts two months and is "Hospital-Certified." Smaller sizes 25c and 50c.

Cavan

Roads in rural parts are in a bad condition, particularly on side lines. The local hog buyer did not ship at the beginning of the week, as is his custom, on account of the roads being unfit for trucking.

The sap has not run this week, although some who have tapped are anticipating another fall of snow, with a good run following.

The season is approaching when farmers would like to see the fields ready for working. Last season in this locality several were working on the fields April the tenth, with the few on lighter or higher land started before that date.

With some farmers, feed is becoming scarce, and for this reason an early growth of the grass would be welcome.

Blacksmiths are busy sharpening harrows and other jobs on machinery, preliminary to the spring work.

The debate which was to have taken place in Cavan United Church on Monday evening between Fraserville and Cavanville debating teams was postponed owing to the condition of the roads.

Farmers are an optimistic lot and in spite of low prices for eggs and fowl, baby chicks are already in the colony houses on several farms of this locality.

Messrs. Lloyd Sutton has started off with four hundred and fifty, R. S. Staples around one thousand, F. M. Staples two hundred and fifty. Donald Tinney between two and three hundred and W. Reynolds and Earl McGill with goodly bunches.

Mrs. R. Matchett entertained the Missionary speaker, Mrs. Hartwell, on Sunday, during her short stay in Cavan.

Mr. W. Chalmers of Ottawa, is visiting his daughter, Mrs. Wilfred Elson.

Mr. and Mrs. A. Kerr, of Fairmount, have moved into part of Mr. John White's house, lately vacated by Mr. Borden.

Mr. and Mrs. William Seymour, and children, spent a few days last week with Mrs. Seymour's parents, Mr. and Mrs. Woods at Hamilton.

Mrs. Robert Howden visited with friends in Peterborough last week.

Large shipments of construction materials continue to arrive in Manchuria.

Eno relieves Acid Stomach

Inner sluggishness is the usual cause of unpleasant acid conditions. Get speedy, comforting relief by drinking a glass of sparkling ENO'S "Fruit Salt." Take ENO regularly to correct the trouble. ENO rids your system from clogging wastes and thus prevents any accumulation of acid-making poisons. Ca6

RECRUIT ARMY

(Continued from Page 1)

would issue charters in conformity with the Act.

Pyramided Tax

Only four members took part in the short day's discussion in the Commons. Henri Bourassa, Ind., Labelle, suggested changes in the system of collecting taxes. He would collect the Sales Tax from the consumer at the time a purchase was made. Under the present plan of charging the tax against the producer, a profit was levied on it by the manufacturer, wholesaler, distributor and retailer, with the result the ultimate consumer paid a pyramided tax.

A. M. Edwards, Cons., South Waterloo, commended the government for increasing the tariff in 1930 and applying dumping duties. United States manufacturers, he said, worked on a zone basis. A uniform price would be maintained by a manufacturer in his particular zone but beyond that, almost any price was accepted for his surplus goods. Canada, beyond all zones, was subject to dumped goods at slaughter prices and only the presence of the anti-dumping legislation prevented this market from being flooded.

Charles Howard, Lib., Sherbrooke, attacked the general financial record of the Government, referring to the Dominion Conversion Loan. He said, "Insiders of the Government did not convert their bonds." The new bonds were selling at 92 and the old bonds at 104.

GENERAL HUGHES

(Continued from Page 1)

ness there. He was a Past Grand Master of Ontario East of the Orange Order, and was a member of the Masonic Order and a Conservative.

General Hughes will be accorded a funeral with full military honors on Saturday afternoon, and interment will be in Orono, Ont. The Durham Regiment will attend under Colonel H. P. Jobb, Officer Commanding, and Colonel Anderson will represent Military District No. 3.

Three Sons Survive

General Hughes is survived by his three sons: Edgar Hughes and Fred Hughes, both of Los Angeles, and Sidney Hughes of Dundas; a daughter, Mrs. Adolph Henry of Orono; three sisters, Mrs. MacAlpine of Lindsay, Ont.; Mrs. James Beacock of Myrtle, Ont., and Mrs. James McDonald of Winnipeg; and two brothers, General William St. Pierre Hughes and Dr. James L. Hughes, formerly Inspector at Toronto Public schools.

Obituary

MRS. RYLOTT

Word was received here Wednesday of death at Whitby of Mrs. Rylott, mother of Mr. S. Rylott, and Mrs. P. Johnson of Havelock, and Mrs. Will Anderson of Belmont.

ANDREW HUBBELL

Mr. Andrew Hubbell died here at the advanced age of eighty years. Mr. Hubbell, who moved here a number of years ago, from Campbellford, was for many years caretaker of the local United Church. He had been ill only one day and his death came as a distinct shock to the community, in which he was well and favorably known.

MRS. P. PAULEY

CAMPBELLFORD, April 14. (By Examiner Staff Correspondent). — The death occurred on Wednesday, April 13th, of Hannah Jane Southworth, wife of John Pauley, at her Campbellford home. She was in her 67th year. She is survived by her husband, John Pauley; two sons, Roy Thompson of Seymour and Charles of Acton, Ont.; two brothers, James and Thomas Southworth of Seymour; and one sister, Mrs. Wesley Smith of Rosetown, Sask.

The funeral will be held from the family residence, Campbellford, on Friday afternoon, interment being made in Maple Grove cemetery, Havelock.

LESTER O'HARA

MADOC, April 14. (Examiner Correspondence). The sudden death of Mr. Lester O'Hara of Bannockburn on Tuesday reminds all of the many gaps being made in the ranks of the pioneers of North Hastings. Mr. O'Hara is the last male representative of his family, and was 81 years of age. He is survived by his sorrowing wife, and one sister, Miss Minnie O'Hara of Madoc. His brother, Frank O'Hara, of Madoc, died very suddenly just four weeks ago.

Mr. O'Hara's father was the first white child born in Madoc township.

MISS THERESA LAROSE

HAVELOCK, April 14. (Examiner Correspondence)—The last of a family of thirteen brothers and sisters, Miss Theresa Larose died at her home Charles street west, Toronto, on Saturday evening, April 9th, from an acute heart attack.

Youngest daughter of the late Mr. and Mrs. Charles Larose, she had resided here for many years, moving to Toronto with her sister, Mrs. Robinson some sixteen years ago. Miss Larose was sixty-nine years of age, and although she had been in poor health for some time, no alarm was felt over her condition, as she remained active until the last.

Just five weeks ago, she returned to Toronto, after spending seven weeks visiting her nephew, Mr. Frank Voyer and family here.

Requiem Mass was sung in St. Basil's church Toronto, by Rev. Father O'Neill at 7.45 a.m. Tuesday morning, after which the remains were conveyed to Havelock by C.P.R. train arriving here at 12.30. Interment was made in the R.C. cemetery, with Rev. Fr. McCarthy of Norwood reading the burial service. The pall bearers were Messrs. Charles Taylor, Charles Roberts, David Forde, Edward Carr, Peter McCann, John Moore. Those from Toronto who attended the remains to their last resting place were, Miss Lena Robinson a niece and Messrs. Thomas Bennett, D. Kennedy, George Young, Sr.

NAZI CHIEFTAIN

(Continued from Page 1)

long live the National Socialist movement! Long live Germany!"

Scores of National Socialist headquarters were closed last night and hundreds of Nazis arrested as squads of policemen, carrying out the government's order, searched for and seized forbidden uniforms and other materials.

Authority Exceeded

The Hitlerites accused the police of exceeding their authority by searching political offices of the National Socialist party, as well as the storm troop headquarters. They said the officers threatened the headquarters staff at Munich with pistols and that Nazi members of the Reichstag in all parts of Germany had been arrested.

Among those arrested were twenty members of the Hamburg State Senate and a member of the Reichstag from Hamburg.

At Darmstadt a Nazi aeroplane, several automobiles and motorcycles fields weapons and equipment, rations, field telephones, medical supplies, military coats bearing tags of the "Lost artillery regiment", spades field canteens and alleged "incriminatory correspondence" were seized in the raids.

BEWDLEY COUPLE UNITED BY DEATH

Mrs. Jas. Sidey Dies Four Days After Husband.

BEWDLEY, April 14.—Just four days after the death of her husband, Mrs. James Sidey died at her home at Bewdley, Rice Lake, on Monday. The couple, devoted during life-time, were not parted by death. Born in Hope township 80 years ago, Mrs. Sidey, formerly Mary Gaynor, lived all her life in the vicinity.

She recalled the early pioneer days of the community, and ably assisted her husband in founding the general store, which he conducted successfully for nearly half a century.

Taken down with pneumonia some weeks ago, she failed to rally and during her illness, her husband was aso stricken with the disease and passed away. The news of her husband's death was not imparted to her for fear it would delay her recovery, which at that time was hoped for.

Of a kindly disposition, and with a refreshing sense of humor, Mrs. Sidey had endeared herself to the hearts of many. Her memory will be cherished by all with whom she came in contact.

She is survived by one daughter, Mrs. F. Richards; one son, Fred; one sister, Mrs. W. Gaynor; three grandchildren, and one great-grandchild.

MASSEY-HARRIS

(Continued from Page 1)

prospect for employment and livelihood.

Seeding Conditions Favorable

"The information we have received in the last few days indicates that over practically the whole of Canada the prospects for favorable seeding conditions are more promising than for several years. On the other hand, there are many farmers who are finding the greatest difficulty in providing themselves with the very machinery necessary for carrying on their operations on an economic basis.

"With a view to helping this situation for the farmer, with a view to increasing employment for our men, and with a hope that the increased operations that may result will afford some compensation to the company for the loss it will sustain, we have decided to announced important changes with regard to prices and collection of accounts, effective forthwith. These changes are as follows:

"On all new purchases of implements, whether bought for cash or on time, a 10 per cent. discount will be allowed to the extent to which payments are made prior to Nov. 30, 1932.

"On all eixsting obligations of the farmer to the company, whether past due, current or future due, a discount of 10 per cent. will be allowed, both on principal and interest, to the etxent of the payments made on such indebtedness prior to Nov. 30, 1932.

For Present Year

"This discount of 10 per cent. is special for the present year, and applies only to Canada. It is not based upon reductions in cost of production, because as yet there has been no reduction. It reflects a desire in the present emergency to be of service to our customer, the farmer, with whose success our own is so closly linked.

"It is hoped that, coming at this time, the offer may enable many farmers to secure equipment which they much need, and to assist and encourage them in the liquidation of their present indebtedness. If it accomplishes this, even in a small measure we shall all feel that it has been well worth while.

"Formal announcement by the company, giving the particulars in more detail, will be issued to-morrow."

Indian River

Mr F. Fife spent a week-end in Toronto recently.

Mr. and Mrs. James O'Brien and family of Ennismore and Mr. J. Collins of Peterborough spent Sunday with Mr. and Mrs. Samuel O'Brien.

Mr. A. Hayes was in Peterborough on Tuesday.

Miss Muriel Fife is spending some time in Toronto visiting relatives.

Mr. and Mrs. Alex McIntyre spent three weeks recently with relatives in Minden, Ontario.

Mr. J. H. Pallin and Miss F. Pallin were in Peterborough on Wednesday.

Mrs. Allen Hayes spent Tuesday at the home of Mr. and Mrs. David Garvey.

Mr. and Mrs. Victor Craft attended the funeral of the former's aunt, Mrs. Charles McIlmoyle.

Mrs. David Garvey had the misfortune to fall down stairs on Tuesday morning and hurt her side very badly. It is not yet known whether there are any ribs broken.

RICH WITH FLAVOR... because it's rushed to your grocer fresh from the roasting ovens

AT LAST—the coffee you've dreamed of! A coffee that's superbly blended to begin with—and reaches you *absolutely fresh*, at the very peak of its flavor.

For over 50 years, Chase & Sanborn have used only the finest coffee beans, blending them skillfully to suit the Canadian taste. And during those years Chase & Sanborn has been Canada's favorite coffee.

But no matter how fine a coffee is—it must be *fresh*. For coffee is perishable. The delicate oils that carry the flavor and aroma turn rancid if coffee is allowed to get stale. Rancid oil in *stale* coffee spoils the flavor—and is often harmful to health.

So Chase & Sanborn rush their coffee straight from the roasting ovens to grocers by the same great Dominion-wide service that delivers Fleischmann's Yeast fresh regularly. Every tin is marked with the delivery date. You can't buy a tin which has been on your grocer's shelf more than ten days.

Get a tin of Chase & Sanborn's DATED Coffee. Packed in ½-lb. and 1-lb. tins.

ENJOY THE MATCHLESS FLAVOR of coffee that's superb to begin with—and comes to you actually fresh from the roasting ovens.

TO GUARANTEE FRESHNESS, EVERY TIN OF CHASE & SANBORN'S COFFEE IS DATED THE DAY YOUR GROCER RECEIVES IT

Roasted and packed in Canada

Does Your Beauty Survive Every Outdoor Test?

Outdoors, as well as indoors, even after the most strenuous exercise, you can still be beautiful. The effectiveness of Pompeian Creams and Powders *endures*.

Know the caress of the Day Cream which vanishes so quickly. Choose one of the five shades of Pompeian Beauty Powder, so suitable and agreeable to your complexion. Just the right weight—not so light as to look grainy nor so heavy that it cakes. And Pompeian Bloom (rouge)—Oriental, Light, Medium, Dark, Vivid or Orange—one of these will exactly suit your individual coloring.

The new Pompeian Lipstick gives a youthful, vital *brilliance*. Three perfect shades. Unusually smooth and waterproof. Lasts all day.

At night use Pompeian Night Cream. First as a thorough cleanser, then leave on a second film all night to soften, sooth . . . and protect. You'll be lovelier . . . tomorrow . . . in after years.

You are assured that while you can pay more for your beauty products, you cannot buy higher quality than Pompeian.

SAVINGS PILING UP.

In spite of all the Canadian money that has been taken up by recent loans, the amount of money on deposit in the banks of this country continues to show a surprising increase.

An official report shows that the deposits in Canadian savings banks in February were $22,000,000 more than in January.

The people of this country have at the present time some $1,390,000,000 in savings accounts, and the amount is growing steadily, which would seem to indicate that those who are in a position to spend if they cared to have been frightened by the spectre of hard times and are economizing to a greater extent than ever before, thereby helping to complete the demoralization of business.

While the confidence shown in Canadian banks by these mounting deposits is in vivid contrast to conditions in the United States where the people are withdrawing their money from the banks and hoarding it at home, there is a good deal of truth in the contention of the Ottawa Journal that it begins to look as if one of the causes of the present trouble is that people who have money are afraid to put it to work.

If, as our paper suggests, three hundred millions of these Canadian bank deposits could be put into circulation just now it would make a tremendous lot of difference to business and still leave Canadians with a billion dollars in the banks.

AN EXTRAORDINARY SITUATION.

Reading that Col. Lindbergh left $50,000 for the kidnappers of his child, and that the kidnappers or their agents received the money, failed to return the child, and are still at large, one hardly knows what to say or think. Here is a case where, with all the police resources of a great nation marshalled into an effort at detection, the kidnappers of Col. Lindbergh's child, or their agents, are shown to be under the very noses of the police, bold enough to communicate with the victim of their crime, yet remaining undetected.

Had the criminals vanished, had they been too fearful to return to the scene of their crime, and fled the continent, there would be excuse for failure. But it is just the opposite. Five times, we are told, the kidnappers communicated with Col. Lindbergh, proved beyond doubt that they were the criminals, and then added insult to injury, and humiliation to the police, by getting away with $50,000 of Col. Lindbergh's money. This despite a net-work of police, despite an alliance of State and Federal officers, despite much ballyhoo about "crack New York detectives."

It is an extraordinary situation. When Col. Lindbergh, despairing of the police and the "crack detectives" of New York, began negotiations with underworld leaders to come to his assistance, there was a great outcry, and rightly. After reading yesterday's amazing despatches, there must be some sympathy for Lindbergh. He evidently long ago came to the conclusion that most of these much-ballyhood officials were more adept in getting themselves photographed than in running down kidnappers, took the only course that was left to him.—Ottawa Journal.

THE RELIEF SITUATION.

It has been intimated, following a conference among representatives of the provincial administrations and the Federal Government that the latter has decided that any financial assistance to be given henceforth to the unemployed will take the form of direct relief rather than the construction of federal works and contributions to municipal and provincial relief works.

It has been evident for some time that to keep up indefinitely the system carried on by the Federal Government for the past eighteen months would be to impose an impossible financial burden upon the people of this country.

Over a limited period this plan was justifiable, for it provided work instead of a dole and ensured the construction of needed public works, and so long as it could be continued without too great an addition to governmental overhead was perhaps the best solution available of a most difficult problem.

Obviously, however, there must be a limit to a program of that nature, and it is not surprising to find that the Bennett Government has decided that that limit has now been reached.

Just how the Government proposes to deal with the situation from now on has not been made clear, and the Premier's statement in regard to his plans will be awaited with interest.

That some form of assistance will have to be provided from Ottawa is, however, clear; those who are in need will have to be helped until the financial skies clear, and the Provinces and the municipalities cannot be expected to carry the whole load.

Direct relief, although objectionable in principle, unless the recipient can be provided with some method of earning it, will prove a less costly plan than the method hitherto followed.

A DIFFICULT CHOICE.

With the Henry Government losing ground through its refusal to squarely meet the public demand for a thorough Hydro investigation and for a lighter tax burden, and with Mr. Hepburn, leader of the Opposition, allowing his too-nimble tongue to run away with him, it looks as if the intelligent voter is going to have a difficult time deciding how to mark his ballot in the next Ontario election.

It is difficult to estimate which is doing the most harm to his own cause—Mr Henry by his silence on matters about which the public is anxious, or Mr. Hepburn by his too great willingness to talk without weighing his words.

Certainly the attitude of the Henry Government during the recent session did nothing to inspire confidence, and just as certainly such speeches as Mr. Hepburn is credited with having delivered at St. Thomas the other night are not likely to create the impression that he is to be entrusted with the responsibilities of heading a government.

From a man who aspires to the premiership of this Province the electors have a right to expect something better than clap-trap soap-box stuff about the "ill-gotten gains of the multi-millionaires" and "a subsidized press" preventing a proper investigation into gasoline tax prices, and something more statesmanlike than ill-considered attacks upon Canadian financial institutions.

Mr. Hepburn's linking up of the gasoline investigation with the press was a reflection upon the newspapers of this country, for which there was not the slightest justification.

The investigation would not get very far, the Liberal leader is reported to have said, because it was up against a subsidized press. If the protected interests in the oil and gas business thought that an inquiry was going too far, he charged, then $200,000 or $300,000 was distributed among the newspapers in advertising, and nothing came of the investigation.

That charge of Mr. Hepburn's does not even make sense.

The gasoline investigation is in the hands of a special committee of Parliament; they have full power to probe into the whole matter, and nothing the newspapers could do—and they have not shown the slightest tendency to do anything—could interfere with the inquiry.

A WISE PLAN.

Common sense seems to motivate the recommendations of Sir Alexander Gibb, eminent British port engineer, who has advised the Government to abolish present local harbor commissions and place administration of all Canada's ports under a control board, at Ottawa.

* * * *

There is much to commend in his suggestion. Centralization of authority should make for more efficient administration. It also offers promise of large savings, since it may be presumed that one general board will not incline to expenditure as readily as a series of smaller commissions. Moreover, the proposal is welcome in that it is another step in the general trend toward reducing the multiplicity of government in the Dominion. Still another advantage, remarked by Sir Alexander himself, is that continuity of service in harbor administration would be ensured by removing port executives from the fear of political interference and political dismissal with changing Governments.

* * * *

Nor can the new scheme be condemned on the ground that it would wipe out the local contact now provided by the local administrative commissions. On the contrary, Sir Alexander outlines machinery by which local needs can, even more than now, be made known in official circles. He recommends that a port manager be appointed for each harbor, and that a purely advisory body, chosen in an elective way to represent the provincial and municipal governments, the boards of trade, the steamship and railway companies and labor unions, will function. This board, in addition to counselling the port manager, will see to it that he carries out his duties properly, and will have authority to make representations to the central commission at Ottawa.

Moreover, it does not appear that the idea of centralized administration can be indicted on the ground of remoteness from the local scene. It may reasonably be presumed that the Dominion Harbor Commission would operate on lines similar to those of the Dominion Board of Railway Commissioners, travelling from port to port and hearing local representations, when an on-the-ground inquiry is required.

* * * *

Two closely associated findings of Sir Alexander are that the ports are national and must therefore serve more than local interest, and be directed on national lines in accordance with a well co-ordinated policy; and that one of the special duties of the central board would be to examine the question of the national routing of Canadian imports and exports.

If illustration is required of the need of some well-defined policy, designed to keep Canadian transportation business in Canada, it can be supplied by the Department of Commerce, at Washington. The American department recently reported that during the past six years 49 per cent. of Canada's wheat and flour has been shipped over American railroads and through American elevators. This is a striking indictment of the unscientific basis on which the Canadian transportation system rests—and it applies with equal force to both water shipping and railroads, because the two are so closely inter-related, particularly in the outward movement of the Western wheat crop.—Border Cities Star.

EDITORIAL NOTES AND COMMENT.

The Progressives in Parliament are demanding nationalized banks and an inflated currency—neither of which proposals is likely to get much support.

The mud on country roads is certainly more effective than a whole corps of traffic constables in checking excessive speed.

After the revolver exhibition given by Hon. George Black the other day, Mr. Speaker should have little trouble henceforth in having his rulings respected.

Canada's wheat carryover is said to be the smallest in four years, which should be good news for the whole country.

Mr. Bennett and Mr. King do not seem to have the slightest trouble in working up a controversy over technicalities, but is doubtful whether they are contributing anything of any general service in their frequent arguments.

Another good way of reducing, suggests an exchange, consists of moving the head from right to left when asked to have a second helping.—Chatham News.

Rt. Hon. W. L. M. King must be chuckling in great glee over the victory of his former secretary, to the mayoralty of Quebec's metropolis after the four-year reign of Camillien Houde.—St. Catharines Standard.

THE "DRIFTERS" SIDE

To the Editor of The Examiner.
Dear sir:

The problem which is very difficult for the charity workers to handle is dealing with drifters.

Various complaints have been made throughout the country about these men who wander from town to town and depend on the kindness of charitable citizens. In my humble opinion, the real cause of this trouble is that these men who are not properly cared for in the cities where they belong (75 per cent of the drifters come from the cities) and in order to keep body and soul together, they are forced by circumstances to travel via box car route or tramp the roads, stopping at each community where they might spend the night and secure enough food to keep alive until the next town is reached, when the same thing happens all over again.

Who is to blame for this serious state of affairs? Certain cities in this country have relief policies which are largely responsible for this sort of thing and should get the blame. It is a very poor policy indeed, to condemn, under the pretext of economy or whatever excuse it may be, unemployed people who are unemployed through no fault of theirs, to slow starvation by giving them meagre relief which is less than barely enough to live on. Such conditions are prevailing in the cities of Montreal, Ottawa, Quebec, Toronto and many other places where the city fathers are cutting the relief down to the lowest possible level.

If work cannot be found for them, they must be cared for at the expense of the community. After all, if we claim to be Christian, we should not value the lives of the unemployed in the matter of dollars and cents. Only when the proper authorities realise that such steps are necessary to eliminate such unfortunate evils, will this problem of transient drifters be solved.

GRAIN AND PRODUCE REVIEWS

TORONTO PRODUCE.

TORONTO, April 14.— A steady demand for eggs by consumers and dealers held prices on the local market steady yesterday for graded lots and a shade higher for ungraded supplies. Storing at outside points and in this city continued and there were reports of blocked roads at certain points in the Province. Brokers quoted graded eggs in free used cases at 17c to 17½c for extras, 15c to 15½c for firsts and 13½c for seconds, with storage packed supplies at 18½c for extras and 16½c for firsts. Country shippers were quoted 15c for extras, 13c for firsts and 11c for seconds, delivered, ungraded, cases returned. Retailers were offered extras in cartons at 21c, extras loose at 19c, firsts loose at 17c and seconds loose at 15c.

Butter.

The butter market was quiet and the price was unchanged at the nominal figure of 20c for No. 1 solids. The small advance made at Montreal on Tuesday helped to make a better tone locally, but was not enough to strengthen prices. Brokers found business very poor in most cases, though choice-quality butter was offered. Retailers were quoted steady prices on prints at 24c for No. 1 and 23c for No. 2.

Cheese.

Trade in cheese was only fair and prices were unchanged on new makes at 10¼c for new large, 10½c for twins and 10¾c for triplets. Wholesalers offered the trade new makes at 12c for large, 12¼c for twins, 12½c for triplets and 14½c for stiltons.

MONTREAL PRODUCE

MONTREAL, April 14.—The upward trend in butter prices continued yesterday on the produce and dairy market. Egg quotations eased slightly, while cheese and potato prices remained unchanged.

No. 1 fresh and regraded butter, in broken lots, advanced half a cent at 18 to 18½ cents a pound. To retailers solids at 21 cents and prints at 22 cents a pound were both firm. Receipts were 583 boxes.

Ontario or Prairie fresh graded eggs, in carlots or less, were generally lower, extras at 18½ to 19 cents, being off half a cent, while firsts at 16 to 17 cents and second at 14 to 15 cents a dozen were both a cent lower. Quotations to retailers were unchanged and receipts totalled 1,597 cases.

Current cheese remained at 10½ to 11 cents a pound, as did summer make at 12 to 12½ cents. Receipts were 78 boxes.

The potato market ruled steady, new No. 1 Floridas, per 150 pounds, net, barrel, being quoted at $8.50 to $9, with No. 2 brand at $7, with quotations of old potatoes in broken lots, per 80-pound bag, being 30 to 40 cents for Quebec whites and 45 to 50 cents for Quebec and New Brunswick Green Mountains. Carlot prices of old potatoes were 10 cents a bag cheaper than the broken lot levels.

CHICAGO GRAIN

CHICAGO, April 14. — Under a heavy load of selling to realize profits, grain values tumbled yesterday, powerless to hold fully to its recent bulge of almost 8c.

A majority of commission houses advocated profit-taking rather than new purchases, in view of possible rains and because of some doubts that growing weather would justify reports of big crop damage. A low barometer in Texas was regarded with suspicion by many traders as perhaps indicative of a general break-up of drought.

Close at Day's Low

Wheat closed unsteady near the day's bottom level and 1¼c to 1¾c lower than Tuesday's finish; corn, ¼c to ⅝c down; oats, ¼c to ½c off, and provisions unchanged to 5c decline.

WINNIPEG GRAIN.

WINNIPEG, April 14. — Halting three days of steady advances, profit-taking in large volume came into yesterday's session of the Winnipeg grain market and wheat prices slipped off more than one cent in a narrow and erratic market. Outside interests' operations featured the session.

Values moved within a range of 1 cent throughout, moderate buying coming in on the breaks and with offerings plentiful at the high points. May option eased 1¼c at its close of 63⅞c and July 1¼c at 65¾c. October was 1c to 1¼c down at 68c.

Weather Conditions.

Weather conditions over the United States winter wheat territory continue the main support of the market. The new outlook is reported to be serious, with some of the Western States having already suffered irreparable damage due to lack of moisture.

Sales for export shipment were said to be small, with only a limited interest in evidence.

Cash and coarse grains were again featureless.

"Why did they provide the Capital with a rotunda?"

"To make a place for statesmen who like to run around in circles!" —Pathfinder.

Obedience

The following is an incident that happened some years ago in India: A bachelor friend was giving a dinner party to some of his pals and their wives, and thought that wild duck would be a nice change. Instructions were duly given to the cook, and late that afternoon, when the host returned from his office, he found the cook busily chasing the wretched duck round and round the compound. Upon being asked why, the cook replied (after having safely caught the duck) that as he was unable to get a wild duck in the market, he had bought a tame one and was trying to make it wild by chasing it round the compound.

Havelock Society Is Planning Social

(Examiner Correspondence.)

HAVELOCK, April 14. — At the regular meeting of the Knox Church Christian Endeavor, held in the school room of the church, arrangements were made for a "Get Together Social," to be held in the basement on Monday, May 9th. There will be no admission charged and everybody is cordially invited to attend. Refreshments will be served.

The secretary was instructed to communicate with all other organizations of the church, and ask that they contribute one or more numbers to the program for that evening. The president, Mrs. T. C. Jamieson presided only for the opening exercises and the business. Miss Dorothy Wright afterwards presided for the program in the absence of Mr. Jamieson, captain of the Red Group, and a splendid program was enjoyed as follows.

Scripture lesson, Eric Anderson; Topic, "When Jesus Travelled."—what he said and did, taken by Melville Wight.

Address, "After Death—What?" by William Platt.

Reading: 'Possums, by Tommy Brown.

Piano selections: Betty Mathison.

Afterwards a guessing contest, with thirty articles representing old sayings, was won by Miss Anderson. Elmer Jamieson won the consolation award.

Credit conditions in Northern Ireland during the last few months have, as a general rule, shown an upward tendency.

DISTRICT NURSE

by Faith Baldwin

(Continued From Yesterday)

INSTALMENT 25.

But the next day Ellen did not hear from Frank, nor the next, nor the next.

Meanwhile she learned that the man who had used Bartlett's name was a bookkeeper named Nelson, employed by Smith, Lambert, Mason & Co., a firm with offices in the same building as Bartlett and on the same floor. Nelson explained to Ellen that he gave Gladys the first name popped into his head. He saw Bartlett's name on the door every day and when the door of the room in which he worked was open, he faced it. Explaining his possession of Bartlett's business card, he said Bartlett was the personal attorney of Mr. Lambert, and one day let his card on Lambert's desk. For no particular reason, Nelson picked it up and put it in his pocket, and when he met Gladys and wished to pose as a "big shot," produced Bartlett's card. That was all; he had forgotten about it. Nelson said he was married and the father of three little children, but he had been separated from his wife for some time.

The evening of the day Ellen took Gladys to the hospital, the Adams telephone rang. She was tired; she'd told Jim she was too tired to go out. But it would be like him to call up and see if she would change her mind.

"Ellen?' asked Bartlett, over the wire.

No, she was not too tired to see him.

He came that night, within the hour. He wouldn't stay long, he said; it was, more or less, business. Coral managed things; she took her mother off into the bedroom and shut the door, to discuss the furniture of the new flat.

He was friendly enough, restrained. The enstrangement was still there. He came to the point at once. It was about Bill.

Bill hadn't shown up with his last report card, and he had learned that Bill had returned to his old habit of playing hookey. Would Ellen see what she could do? She had always had a great influence over him. Ellen said she would.

"You'll look after him, I know," he said. Then the door closed after him.

Was Bill only an excuse—why hadn't she helped Frank—made it easier for him—?

She stood staring at the door. Why didn't she call out to him—you don't love me any more—you haven't, really, forgiven me. Or had he forgiven—come to tell her so? Or, in forgiving, ceased to really care for her—? That happened sometimes. What had she said to Pete—on love there isn't any such word as forgiveness.

Her mother came out of the bedrom. She asked brightly, "Have you invited Mr. Bartlett—?" She stopped and looked around. She stated, with blank astonishment, "Why, he's gone!"

"Yes, he's gone," said Ellen dully.

No, she hadn't asked him, Ellen told her; she had forgotten. She walked past her mother and Coral and into the larger bedroom. She shut the door. Nancy was out. She was alne, in the familiar room. She lay down on the bed, her hands clasped behind her head. If she could cry, she thought, she would feel better.

That chapter was closed. Gladys and Nelson, who had wanted to be a big shot—and Frank. But life went on.

Christmas came, and went. There were flowers from Frank; a brief friendly card. He would be south, he wrote, with friends. That was all. Flowers fade.

Jim came with his aunt in the evening to see the tree. He had gifts for them all. There was perfume for Nancy and Coral; there was a lavender shawl for Mrs. Adams. "Am I such an old woman?" she asked with amusement; "but thank you, Jimmy, it is lovely." It was, they assured her, and so becoming. There was also a ring—for Ellen.

He'd given her other things. Now, he took the little box from his pocket. They were standing alone together, by the lighted tree; the windows with their wreaths of green gave back a reflection, green and red and white—

"If you'd wear it—?" he asked.

But she shook her head. No, she would not wear it. He should not have bought it. "It will keep," he said, cheerfully as he could, and put it back in his pocket. "I will have to keep. You'll like it, some day."

She thought. No. She thought, it might be easier to give in, he loves me, I'm really fond of him, he's cared for me all these years; every one would be happy about it, especially mother; it might be easier to surrender, to take second best—

But she knew she wouldn't. She had something to sustain her, after all. She had her work. That mattered, most. It would have to matter now. She'd make it matter.

Christmas was over. The breadlines increased. The lines before the registry offices waited patiently, in sleet and snow and rain, hour by hour. There were appeals, there were speeches, there was misery, there was suffering. This was an enormous country; it was a rich country. But the suffering went on. There were babies barely able to walk, dragging home crude wagons filled with sticks of wood. There were ambulances at people's doors, stretchers, neighbors saying, pneumonia—? Pete was desperate, overworked. "There isn't," he said on his rare hours off, "any end to this, the sickness from worry, from fear, from undernourishment—"

Ellen went into unheated rooms, the families huddled together; into houses where a single oil stove smoked. Ellen reported worthy cases to the gas company. The gas company saw that their service was not discontinued. Ellen tramped to the charity bureaus; Ellen reported cases, not of disease, but of starvation, which is worse than a disease.

It was a New Year. It would be a better year, they said.

She saw courage, in the bleeding raw. She saw a seventeen-year-old girl supporting a jobless father and brother, and a mother on $16 a week. She saw her, half delirious, lying on the bed she shared with her mother. "I've gotta go to work, I've gotta." Ellen saw a family die, leaving two; a girl of 19, a boy of 12. "I have to look after the kid," said the girl, coughing. "I can't afford to stay out sick."

All this and more. If she saw misery, if she saw tragedy, she saw gallantry. She saw the will to carry on, she saw the sacrifice and the stubornness and the amazing fortitude of the human heart—

She thought, what can I do, what can a thousand like me do, with our two hands apiece and our few hours in a day? Not much, but it counted, it had to count. Every life saved, every job found, every family encouraged, every child given the treatment he or she needed, every lesson taught. It all counted. She thought of herself, for the first time, as an unknown soldier in a small army, an army that wouldn't—that couldn't give up, an army whose battles were unceasing, who had to go on—

"You're killing yourself," said Pete.

"Not me," said Ellen and laughed at him.

And then, one night, a ring at the door bell. She was alone with her mother. She went to the door, sick with hope, with fear that her hope was unfounded.

A very bitter night. And Bill, standing there, pulling off his cap with the warm ear-tabs; Bill in the horsehide coat and the sweater and the sturdy, scuffed shoes and woolen socks.

"It's me," said Bill. "Say, Mis' Ellen, the baby's awful sick and Ma can't get a doctor. I thought maybe—"

Mrs. Adams asked, "Why didn't you telephone the office, Bill?"

"It only just happened," explained Bill, "and I sez to my old—I mean Ma, I says, Mis' Ellen'll come. He's chokin'," said Bill simply.

Ellen went to the 'phone and called Dr. Travers. He was out. She left an urgent message for him, and got on her things. It was something of a walk to Bill's, so they took a cab at the corner. "This is a swell cab," said Bill politely, "but it ain't as nice as Frank's—"

They reached Bill's house; he lived up three flights, in fairly large, comfortable rooms. His mother, as red-headed as Bill, had the baby in her arms.

"It's—his throat—she said. "Croup like, but I never seen it so bad, no, not when Bill had it, when he was little."

Ellen looked at the baby. There were things to do and do fast. The first thing was to get Bill away, to isolate the gasping, choking child as soon as possible; to give an emetic; to improvise a croup kettle; to make compresses—

If it were membranous croup—

She worked rapidly, surely. The baby's mother helped her; not a woman to go to pieces, Mrs. Maloney. Bill and his father and Bill's little sister were banished. The tea-kettle steamed. There were certain remedies in Ellen's black bag. If only Dr. Travers would hurry—

Now and then Ellen asked a question. No, the baby hadn't had diphtheria. Yes, Bill had had it, and the little girl, several years before—

The funny little tike with the top-knot of red hair was breathing a little more easily now. "God and His saints be praised," said Mrs. Maloney. Ellen echoed her, silently, as she heard the heavy quick steps on the stairs—

It was membranous croup. She had done what she could; she had been prepared to do more; if necessary, if Travers hadn't come. But he did come. And Mrs. Maloney held the lamp steady while he and Ellen did the things that were urgent and swift and delicate and sure. And presently the little boy slept—

And a long time afterwards, when directions had been left, and a nurse called, and everything attended to, Travers drove her home.

"Never had a better assistant," Travers praised her.

She was desperately tired; and yet her heart was very light. It was all so terribly worth while, no matter how tired you were, how discouraged, no matter if the hours came when it seemed a Herculean task, no end to it, no proper beginning, and not much progress. Travers was talking about Pete, "He's the man for the job," he said. "I had hopes of Mel—but Mel's different. Pete knows these people, he loves them in his hard-boiled way, we're going to have a grand fight—and when I have to lay down the old arms, so to speak, he'll go on with it. That means a lot. He'll never be rich, I suppose," said Travers, with a chuckle, "but, boy, he'll be rewarded! He won't realize that till he's as old as I am."

Ellen went into the apartment. Her mother had made up the bed for her. "Don't come near me," said Ellen, "I've scrubbed up as best I can, but it wasn't enough."

She took off her clothes, dropped them in a solution, bathed herself, scrubbed, washed her hair. "Ellen," said her mother, "you'll never get to be—"

"There's the electric heater," said Ellen yawning. "I'll forego the luxury of hand-drying it, for once."

And the very next night, Bill came again.

Livestock-Produce Quotations

TORONTO LIVESTOCK

TORONTO, April 14 (C.P.) — Cattle receipts 120. The small supply was cleared at steady prices. Well-finished heavy steers advanced 25 cents cwt., while butcher cattle were 10 to 15 cents higher. Cows, bulls, and fed valves held steady.

Calf receipts 5. Receipts were too small to make a market.

Hog receipts, 50. Bids on the few hogs received off truck were $4.35 f.o.b. for bacon.

No sheep or lambs offered.

FRUITS AND VEGETABLES.

TORONTO, April 14 (C.P.). — Wholesale prices on Canadian fruits and vegetables as reported to the Canadian Press by White and Co., are as follows:

Apples, 6-qt. basket, 25-30c; 11-qt. basket, 30-35c.
Beets, 11-qt. basket, 15c.
Carrots, 11-qt. basket, 35c.
Hothouse tomatoes, lb. 30-35c.
New cabbages, doz. $3.25-$3.50.
Parsnips, bag, 50-60c.
Turnips, bag, 35-40c.

TORONTO PRODUCE.

TORONTO, April 14.—(C.P.) — The United Farmers' Co-operative Co. to-day supplied the Canadian Press with the following quotations on produce and poultry:

Eggs, extras, doz. 15c.
Firsts, doz. 13c.
Cream churning No. 1, lb. 19-20c.
Creamery butter, No. 1 solids, lb. 20c.
Potatoes, No. 1 in bags, 27-28c.
Chickens over 5 lbs. 16-17c.
Hens over 5 lbs. 14-15c.
Young turkeys, 8-1 lbs. 19-20c.

URGES CANADA TO AID TRADE

Chamber of Commerce Head States Cooperation Needed in Empire.

WIDE POSSIBILITIES.

GUELPH, April 14 (C.P.). — Co-operation of Canada and Canadian business men with the rest of the British Commonwealth was urged to-day by Col. W. McGregor, president of the Canadian Chamber of Commerce, as a move to strengthen intra-Empire trade. Canadian business men should become "more Empire trade conscious," he said.

Presiding at a conference of business men and representatives of the Canadian Chamber of Commerce, Mr. McGregor said Canada, as one of the partner nations in the British Commonwealth, should be prepared to co-operate actively with the rest of the Empire in an endeavor to accelerate and increase the volume of trade between Empire countries.

The more the possibilities of Empire trade are studied, said Mr. McGregor, the more the investigators are impressed with the fact that vast opportunities for economic expansion have been overlooked. With a predisposition on the part of Empire peoples to purchase from one another rather than from foreign nations, there exists an opportunity to capitalize upon this "strong existing psychological factor."

Canadian business men have admittedly done a great deal of work in studying the Empire trade problem, Mr. McGregor said, but there is room for further effort. He felt if he could impress upon the people of Canada the determined manner in which British interests are attacking the question of Empire trade, there would be a more intense and practical interest and a greater enthusiasm in Canada for the Empire trade cause.

3,000-YEAR-OLD AXES FOUND IN SCOTLAND

Relics of Bronze Age Unearthed on Bank of River Kale Near Kelso

Kelso, Scotland.—One of the most important antiquarian discoveries in Scotland in recent years has been made near Kelso, where a hoard of fourteen Bronze Age socketed axes has been unearthed. The find was made near the mouth of the Kale Water, where it flows into the Teviot, and resulted from part of the bank being washed away.

What has probably come to light after 3,000 years is the stock of axes of the blacksmith of the community located in this district. The blacksmith was an important members of the village community, making weapons for war and for hunting and domestic uses, and trading these as opportunity occurred. He was a skilled craftsman, and the axes of that period—about 1000 B.C.—would do credit to a workman of the present day.

The bronze weapons of that period were composed of one part of tin to nine of copper.

The discovery was made on the Grahamslaw estate of Eckford barony in Roxburghshire, belonging to the Earl of Dalkeith, M.P.

In an interview with a reporter, the lady who made the discovery said she had been walking alongside the River Kale, a tributary of the Teviot, gathering snowdrops, and, happening to glance up at the high bank, she observed a piece of partially covered stonework.

Through government aid 25,000 houses have been built in the Irish Free State in the last 10 years.

TRIO HAVE CLOSE CALL FROM DEADLY GAS FUMES

TORONTO, April 14 (C.P.). — Partially overcome by fumes from the furnace of his home early to-day, Fred Robson, his wife, and an aged relative staggered to the safety of their verandah, where they braved icy winds and blustering snow for more than an hour in flimsy night clothes.

Two firemen were partially overcome when they braved the gas, and descended to the fume-filled cellar, opening doors and windows as the ywent.

Mr. Robson in a state of collapse, awakened his wife, who in turn awakened the relative. He then managed to send in a fire alarm.

The final figures of the 1931 census of population show British Columbia with a gain of 32 per cent in the last decade, Alberta with a gain of 24 per cent and Quebec and Saskatchewan, each with over 21 per cent against the increase of 18 per cent for Canada as a whole.

Ready For The Open Road

TAKES HIS BED WITH HIM

Most hikers "make their beds where they find them." Not so this British lad, who is starting out for a hike in the country, near Hull, Yorkshire, fully equipped for a rest in the sunshine with a downy mattress.

General Viscount Byng Of Vimy

REEL AND REAL-LIKE HEROES GET TOGETHER

General Viscount Byng (RIGHT), hero of Vimy Ridge, who has been resting in virtual seclusion in southern California for several weeks, pictured with Harold Lloyd, motion picture comedy star, while on an informal inspection tour of a Hollywood, Calif., studio, recently. Gen. Byng, whose health has improved since his coast stay, will return to England by way of Toronto.

HEAVY BARRAGE OF SELLING CARRIES MINE STOCKS DOWN

Lake Shore Records Biggest Recession, Price Dropping $1.75 to $26.

ODD LOT SALES.

TORONTO, April 14.—(C.P.) — New lows were general among the so-called popular stocks on the Standard Stock and Mining Exchange Market as a result of another heavy barrage of selling in the forenoon to-day. Volume picked up somewhat on the decline but majority of sales were still limited to odd lots.

Lake Shore recorded the biggest recession, price dropping $1.75 to $26. Dome was off 55 to $9.10. Pioneer of B.C. 24 to $3.51. Teck-Hughes 14 to $3.85 and Wright-Hargreaves 9 to $2.282. Among cheaper golds Ventures lost a couple to 34, Macassa a cent to 28 and Bidgood and Big Missouri were off fractions. Hollinger was steady at $4.60.

Noranda and International Nickel fell 20 apiece to $15.10 and $6.40, respectively, but other base metals were quiet. Eldorado slipped 6 to $1.18, and Mining Corporation dropped 5 to 81. Chemical Research off another 20 to 75, showed about the only noticeable change among lower-priced oils.

Two Held For Trying To Burn Child Alive

RICHMOND, Va., April 14.—Two youths, charged with attempting to burn alive a seven year old child, were held to-day by Henrico county police.

They are charged in a warrant with placing the child, William Earl Sheets, in a barrel filled with tissue paper, and setting fire to the paper.

The child was treated ... a Richmond Hospital for serious burns on the legs, arms and face.

Exchange Rates

TORONTO, April 14 (C.P.). — Exchange rates at noon to-day were as follows:

Pound sterling, Montreal, 4.18½.
Pound sterling, New York, 3.77½.
Canadian dollar, New York, 90.

Bank Clearings

(Week ending April 14, 1932)
Toronto $62,755,942.
London $2,232,445.
Brantford $783,092.
Sudbury $463,735.
Peterborough $530,226.

WOULD NOT TELL

(Continued from Page 1)

his foot on young Rachootin's foot, pressing down the accelerator. The car shot away. Sam steered; his companion raced the car up to 60 miles an hour, directing the machine out of the city and along the road to Transcona, twenty-eight miles north-east of here.

Near Transcona, Rachootin was told to stop and two other men got in. They asked the boy the combination of his father's safe, and when told he did not know, one man struck him across the face. He was beaten about the head, then deserted. The trio left in a second car and the schoolboy drove into Transcona, where he communicated with police.

GIRL SUFFERED

(Continued from Page 1)

while both Mr. and Mrs. Seymour were absent.

Mr. Slaght claimed Miss Boyd was suffering "from a peculiar mental disease. It takes the form of delusions and hallucinations, a form that conjures up matters, particularly in regard to men."

Miss Boyd admitted she had voluntarily entered a psychiatric hospital at Toronto some time ago. The case is continuing.

6 MONTHS FOR MANSLAUGHTER.

HAMILTON.—The manslaughter charge against James McKay was taken from the jury at the Assizes this morning by Chief Justice Rose and reduced to one of assault. McKay pleaded guilty and was sentenced to a term of six months' definite and three months' indefinite in the Ontario Reformatory.

Local Curlers Are Five Days Short Of Setting Record for Late Playing

To one section of the community at least winter's return is welcome. Granite stones skimmed erratic courses over rough ice at Charlotte Street Curling Rink this morning, but to the contesting rinks skipped by President Dr. N. H. Sutton and Herb. Martin the novelty of curling so late in the year made an irresistible appeal.

The curlers are just five days short of establishing an all-time record for late curling in Peterborough, the present record having been established by curling on April 19, 1908. They are all optimistic, however, that the current cold snap will last long enough to chalk up a date that will go down in the history of the club as "the" record. Personnel of the rinks was as follows:

Jack Sedgewick, T. Donaldson, J. T. Braund, Dr. N. H. Sutton (skip), 9.

Bob Martin, James Cullen, Geo. Hall, Herb. Martin (sk'p) 10.

Market Closing On All Exchanges

STANDARD EXCHANGE.

TORONTO, April 14 (C.P.). — Prices on the Standard Stock and Mining Exchange developed a stronger tone in the afternoon today, but failed to recover much ground lost in the forenoon wave of selling.

Lake Shore recorded the largest recession, price showing a net loss of $1.75 on end. Dome was off 40 and Pioneer of B.C. 2... but Hollinger, Teck-Hughes, and Wright-Hargreaves managed to close fairly steady with last night's finals.

In the base metal group Noranda Nickel, Sherritt-Gordon, Waite, Ackerman, and Falconbridge showed losses ranging up to 10 cents.

WALL STREET

NEW YORK, April 14. —(CP)— The stock market rebounded smartly after breaking to new lows in the early trading today. Not only were early losses of 1 to 4 points regained, but they were replaced by net advances of similar extent. Peoples' Gas was a high flier, shooting up more than 10 points. American Telephone completely regained an early drop of 4 points, and issues getting 1 to 4 points above yesterday's final prices included U. S. Steel, American Can, Allied Chemical, Southern Pacific, North American, Public Service of N. J., New York Central and Union Pacific. The closing tone was strong. Transfers approximated 1,600,000 shares.

TORONTO EXCHANGE

TORONTO, April 14 (C.P.)—Toronto Stock Exchange market, following the lead of New York, rallied in the final hour to-day to lift prices of most pivotal shares above last night's finals.

Bell Telephone recovered three points, closing at 98½. C.P.R. recovered a small loss and finished just above last night. Brazilian, Nickel, Ford of Canada, Steel of Canada, Walkers Common were also slightly higher.

Agua Caliente Plans Bridge Sweepstakes

AGUA CALIENTE, Mex., April 14 (C.P.).—Bridge players will have something besides an argument to look forward to under plans announced by the Agua Caliente Bridge Club, organized by the owners of this resort.

A bridge sweepstakes, with prizes for the winning team ranging between $10,000 and $50,000, will be inaugurated next fall. Each team will pay an entrance fee of $100. A $10,000 guaranty will be made the players by the management.

The tournament will be played in September or October, covering a period of a week or ten days.

Spain has taken much interest in the legislature measure permitting workers' participation in factory management.

J. J. DUFFUS Limited

SIR JOHN AIRD WILLING TO BACK

(Continued from Page 1)

to burden Canada with radio subsidies.

Sir John expressed the belief that the next decade would see great things accomplished in Canada under a national system. He was convinced that television would be a great factor in radio entertainment in the near future. It should be closely watched in order that this country share in whatever benefits come from it. Canada's interests could best be safeguarded, in that respect, under the nationally-owned system, he believed.

Canada should be well represented at the forthcoming international radio conference in Madrid" Sir John thought, and in sending a delegation he thought the government should send its own radio officials.

Opponents of the Aird report had "never put their cards on the table as we have done" said Sir John. They had mentioned value figures of costs and made broad statements the witness continued, and mentioned particularly the recently formed Ontario Radio League. "They say," Sir John added, "that their funds are contributed by friends. But why don't they come out in the open and tell us who those friends are? Are they Canadians or are they representatives of interests in other countries?"

Questioned by R. K. Smith, (Cons., Cumberland), Sir John said his recommendation was for the government to take over ownership of stations and create a company representative of all Canada, to operate it outside of government interference.

Questioned by E. J. Garland, (U.F.A., Bow River), Sir John said the initial cost would be no difficulty once the national company was organized.

Willing to Back Move

"As a banker I would advance the money, once the company was formed," he said, "and I wouldn't ask for any government guarantee either."

In discussing the revenues from license fees the committee questioned C. P. Edwards, director of the radio branch of the Department of Marine. Commander Edwards said that since radio licenses have been collected the total surplus of receipts over expenditures had reached $1,200,000. This money had been turned over to the Receiver General.

On advertising Sir John said he was not opposed to indirect advertising of a high order. But he believed radio advertising would not survive much longer. It was not the natural or regular method. The newspapers were the national medium for advertising. What went on the air was "gone in a breath." The printed advertisement had more utility.

William McFarlane, representing the trans-Canada Telephone system, gave a submission from organization outlining what it was in a position to do in the way of transmiting chain broadcasts. The system was made up of seven leading telephone companies from coast to coast and was organized in 1930.

To Mr. Garland the witness said a single coast to coast broadcast of one hour would cost between five and six hundred dollars for wire services. There would be discounts for longer term agreements.

ELECTIONS IN VICTORIA

MELBOURNE, Aus. April 14. — (Cable via Reuters)—Following its defeat on a vote of confidence in the state legislature yesterday the governor of Victoria today granted the Labor Government's request for dissolution. General elections will be held next month.

THE BIG NEWS

is on the inside pages too

Probably you read the front page of your paper first. But think how soon you forget the "news of the day"—and how long you enjoy the things you buy because of some item in an advertisement.

Almost always, there is big news for you somewhere in the advertising columns of this paper. Look for it. Here's a piece that tells how to make a nicer angel cake—a note on the new models of the car you hope to buy next—news of fashions and furnishings, of hardware and hats. ... Interesting, intimate, often dramatic news that really concerns you and yours.

Remember that size alone is not a measure of value. Often an advertisement in small space will offer just what you want at a saving. So form the good habit of reading the advertising section of this paper carefully. It will save you time and money. It will make your home healthier, wealthier, happier.

Read and you will find!

IMPORTANT

When you ask for a product by name as a result of advertising do not accept a substitute—substitutes are offered not as a service to you, but for other reasons.

W. M. S. HOLDS CHURCH SERVICE

Mrs. (Dr.) G. Hartwell Returned Missionary, is Special Speaker at Service.

OUTLINES WORK IN CHINA.

(Examiner Correspondence.)

CAVAN, April 14 — On Sunday evening in Cavan United Church the service was under the auspices of the W.M.S.

The pastor, the Rev. J. E. Whithame, was present, and introduced the special speaker, Mrs. (Dr.) G. Hartnell, who, with her husband, spent over 40 years in missionary work in West China.

The president of the W.M.S., Mrs R. Matchett, gave out the hymns.

Mrs. Hartnell read the Scripture lesson, and gave a very helpful and interesting talk on their work in China. She told in a pleasing manner of the ways in which the missionaries gained the confidence and good-will of the natives.

Mrs. Staples and Mrs. Kennedy sang a duet, "Was that Somebody You?".

Thank offerings were placed upon the plate by the W.M.S. members and the contents with the loose collections went towards the W.M.S. allocation.

Mr. and Mrs. Ross Carr and Miss N. L. Staples motored from Toronto on Saturday afternoon and spent the week-end at their respective homes.

Messrs. Ward Brown and V. Jewison, of Oshawa, were recent visitors at the home of Mr. and Mrs. James Paul, and while here installed the pipes in preparation for the waterworks system in Mr. Donald Tinney's new house.

Mrs. J. G. Matchett spent a few days of last week in Peterborough.

Mrs. Page, Manvers, was a recent visitor at the home of her daughter, Mrs. Earl McGill.

CAMPBELLFORD HIGH SCHOOL RESULTS

CAMPBELLFORD, April 14 (Examiner Staff Correspondence). — The following are the results of the Easter examinations of the Campbellford High School:

Form V.

Eight subjects — Earl McGregor 48.3.

Seven subjects — Harold Partridge 70.1, Grant Meiklejohn 63.8, Wesley Clare 59.7, Laura Davidson 55.1.

Six subjects—Donald Moran 82.3, Ferne Wetherill 77.3, Isabel Faux 76.1, Harry Ewing 67.1, Helen Hopkins 59.6.

Five subjects — Kent Buchanan 76, Jessie Graham 67.6.

Four subjects — Blanche Wright 63.7, Doris Rannie 54.7, Ruby Dunham 50.2, Lorne Mitchell 41.2, Verne Abernethy 28.5.

Three subejcts — Merwin Malcolm 70, Russell Rowe 69, Eric Scott 66.3, Irene McEvoy 64, Irene Jeffs 62.6, Ruth Palliser 62, Jessie Hay 61.6, Frank O'Sullivan 61, Jacqueline McEachern 57.6, Clare Richards 55.3, Helen McCredie 55.3, Lorne Greenly 55.3, Bernadette Jones 53.6, Bernard Collins 51, Donald Rutherford 50.6, Edith Wallace 47.6, Donna Nelson 47.3, Stuart Blake 46.3.

Two subecjts — Dolmas Montgomery 60, Gerald Buchanan 54.5 Elva Mowatt 53, Ida Bertrand 49.5, Eleanor Dawson 37.5.

One subject— Wilhelmina Rusaw 67, George Armstrong 55, Martin Rusaw 55, Joy Riendeau 51, Bernard Crosson 39, Morley Baker 35, George Palliser 23.

Form IV.

Eight subjects—Eleanor Dawson 42.

Seven subjects — Helen Clysdale 58.4, Jacqueline McEachern 56.5.

Six subjects — Russell Rowe 81, Merwin Malcolm 76.1, Eric Scott 75.6, Jessie Hay 69.1, Helen McCredie 64.1, Frank O'Sullivan 60.3, Ruth Palliser 55.8, Bernard Crosson 44.

Four subjects— Elva Mowatt 69.2, Ruby Dunham 59, Bessie Inkster 59, Ida Bertrand 57.7.

Three subjects — Stuart Blake 79.5, Bernard Collins 67, Georgia Davidson 63.6, Donald Rutherford 61.3, Donna Nelson 56, Lorne Mitchell 56, Wilhelmina Rusaw 51, George Palliser 45.

Two subjects — Olive Greenly 69, Jessie Graham 67.5, Helen Hopkins 67, Bernadette Jones 57.5, Martin Rusaw 40.5, Verne Abernethy 39.5, Helen Hendy 35, Gladys McArthur 30.5.

One subject — Clara Richards 70, Blanche Wright 55.

Form III.

William McComb 81.5, Billy Richman 34.5.

Three subjects — Garnet M Gee 44.

Two subjects — Velda Cryderman 57.5, Charles Bush 37.5, Tom Midgley 35.5.

One subject — Letha Linn 71, George Palliser 69

Form II.

Pearl McComb 82, Fenice Joyce 78, Donald Barnum 76.6, Donald Owen 62.5, Charles Bush 62.3, William Thomson 61.7, Josephine Hicks 60.1, Donald Scott 57.8 Velda Cryderman 57.6, Charles Couch 56.2, Grace LaBrash 55, Stuart Milne 54.3, Jean Haig 53.8, Frank O'Rourke 52.3, Lloyd Hume 51.8, Douglas Raymond 51.7, Fred Hennessy 50.2, Owen Hoey 50, Pauline Rutherford 48.3, Letha Linn 47.7 Letha Davidson 47.2, Ted Peake 47.1, Clara Thain 46.6, Vera Gilder 44.3, Donald Couch 41.3, Margaret Brown 41.2, Ralph Atkinson 37.6, Viola Couch 37.6, Theresa Coveney 36.2, Francis Frederick 35.8, Helen Calnan 34.

Five subjects — Gordon McGee 53.4.

Three subjects — Herbert Stillman 37.

Two subjects — Everett Newman 69 Ted Cryderman 67.5, Raymond Murphy 48.5 Edna Whitton 36, Ted Cryderman 35.5.

One subject — Marion Cairns 98, Stuart Blake 77, Gerald Mitchell 62 W. J. Newman 62, Nellie Ross 57 Virginia Lobb 35, Frank Atkinson 34, Douglas Milne 34, James Latimer 32.

Form I.

Arlene Buchanan 78.4, Jean Oddie 77.7, Mary Forestell 74.2 Douglas Long 72.6, George Bound 72.4, W. J. Newman 70.7, Arthur Abernethy 69.5, Eileen Third 68.5, Gladys Poulton 67.1, Jack Meier 64.7, Muriel Dalgleish 64.3, Kenneth Kingston 64.1, Marjorie Forestell 63.5, Dorothy Callaghan 63.3, Jack Graham 63.2, Vera Clarke 63.1, Marie Hollings 62.2, Paul O'Sullivan 62.2, Jack Smith 61.6, Jean Morrison 61.5, Douglas Lloyd 61.2, Sutton Reddom 60.1, Thelma Hollings 60, Stanley Stephens 59.4, Lillian Stanbury 58.8, Ruth McCredie 58.4, Tom Smith 58.4, Allan Young 55.5, Clifford Blake 54.9, Lillian Bush 54.8, Mae Peake 55.3, Margaret Bateson 54.2, Lulu Hazelwood 52, Francis Neill 51.2, Allan Fraser 49.4, Georgia Nesbitt 49.3, Louva Outingdyke 48.3, Charlotte Poulton 47.7, Viola Parr 46.6, Wallace Rutherford 45.6, Alexander Brown 45.6, James Latimer 45.4 Harold Taylor 45.3, Alice Tripp 43.5 Reta Heaslip 43.3, Donald Free 43.1 Marion Bibby 42, Marion Walker 41.1, Bernard Kelleher 36.1, Jim Inkster 33.6, George Smith 31, Clarence Young 30.5, Reta Faux 23, Jim Elmhirst 25.

Three subjects — Ralph Atkinson 42.3.

One subject — Dolmas Montgomery 90, Irene McEvoy 89, William Thomson 86, Irene Jeffs 85, Pauline Rutherford 78, Nellie Ross 76, Stuart Blake 70, Leitha Davidson 53, Margaret Brown 33.

HAWES' FLOOR WAX

"Cleans as well as Polishes"

You can't get good results with a poor wax—and you cannot get a good wax unless it contains good quality ingredients. That is why you, too, should use HAWES'. Ask for it by name.

Made by Edward Hawes & Co., Limited Toronto 27

AS FAMOUS AS HAWES' LEMON OIL — PASTE OR LIQUID

HAWES' is the only Floor Wax chosen by Miss E. Frances Thompson for demonstration this week at the Grand Opera House

Fine Concert Staged Orange Corners Hall

(Examiner Correspondence.)

ORANGE CORNERS, April 14.— On Friday evening the Young People of St. Luke's Anglican church, accompanied by Rev. G. J. and Mrs. Bousfield staged a very fine concert and one-act play at Orange Corners, under the auspices of the Guild of St. John's Church, Emily.

The concert featured readings, vocal solos, duets, shadowgraphs, etc., and the one act play, "The New Reporter," which was exceptionally well given, interesting the very appreciative audience. The rector, Rev. A. T. Weir, occupied the chair for the evening, and welcomed the guests. A vote of thanks to those taking part was given by Walter Magee.

Lunch was served by the ladies of the church and the evening concluded with the National Anthem.

Advertise in The Examiner

Lakefield

Mrs. F. H. Richardson and Miss Margaret Richardson were guests of friends in Norwood last week.

Mr. Cecil P. Shewen of Mount Julian, was in the village on Saturday.

Mr. and Mrs. A. M. FitzGerald of Toronto, were in the village on Saturday.

Miss Margaret Dunlop of Peterborough, is spending her holidays with Miss Aileen Peacock.

Mrs. Myrtle Peacock spent Monday in Peterborough, the guest of Mrs. Harry Rudkins.

Miss Aileen Peacock spent the week-end in Peterborough, visiting friends.

Mr. and Mrs. Hilliard Reid of Douro were in the village on Monday, attending the funeral of the late Victor Shewen.

Miss Vlarita Preston is visiting her cousin, Mrs. Charles Smith, in Cavan.

Mr. and Mrs. Church of Mount Julian, attended the funeral of Victor Shewen on Monday.

Mrs. William Simpson of Toronto is the guest of relatives in the village.

Mr. N. S. Osborne is in Nicholls Hospital, Peterborough, following an operation for appendicitis.

Mr. and Mrs. J. H. Thompson of Mount Julian, were in the village on Monday, attending the funeral of Victor Shewen.

Mrs. E. C. Cameron, who spent the winter in Toronto, returned on Monday to the village, and has opened "Alton Cottage."

Mr. William Thompson of Mount Julian, was in the village on Monday attending the funeral of the late Victor Shewen.

Mr. Nathan Payne was visiting friends in Dummer last week.

The regular monthly meeting of the W.M.S. of Regent Street United Church, was held on Tuesday last at the home of Mrs. N. S. Osborne.

The afternoon tea and sale of cooking held at the home of Mrs. F. J. Burgess, on Friday afternoon, under the auspices of the ladies of Knox United Church, was very successful, and the financial results were exceedingly gratifying. As a social event the affair was very delightful also.

The ladies of St. Andrew's Presbyterian Church are having a pancake social in the basement of the church on Tuesday, April 12th. The Ladies' Association are sponsoring this function, and are making very attractive preparations.

A meeting of the Lakefield Amateur Athletic Association will be held in the Council Chamber on Wednesday evening at 7.30 to complete arrangements for the spring and summer sports.

The regular meeting of the Woman's Institute will be held in the town hall on Wednesday afternoon of this week.

The regular meeting of Clementi Lodge was held on Tuesday evening last, the occasion being the official visit of the D.D.G.M., Rt. Wor. Bro. R. J. McCamus of Keene.

Only Kellogg's have this guarantee of freshness

IT PAYS to say "Kellogg's" before you say "corn flakes." That's the way to be sure of delicious, crisp, *really fresh* flakes. For more than twenty-five years Kellogg's have been the standard of value in corn flakes.

These twenty-five years' experience, plus modern factories and expert workers, make the Kellogg's you get today the finest corn flakes that have ever been produced.

Each package is sold with the personal guarantee of W. K. Kellogg: "If you do not think Kellogg's Corn Flakes the finest and freshest flakes you ever tasted, return the empty package and we will refund your money."

Kellogg's Corn Flakes always reach you as fresh as when they left the toasting ovens. That's because of the special inside WAXTITE bag which is *sealed* top and bottom. It's a *patented* Kellogg feature.

Taste Kellogg's. Compare the flavor, crispness and freshness . . . even the tempting aroma. When substitutes are offered, remember it is seldom in the spirit of service. Insist on the red-and-green package. Made by Kellogg in London, Ontario.

She had the most captivating figure . . .

But her skin, Tragic!

By Julia Foster*

How could she so neglect her complexion? For a few words of expert advice would have meant all the world to her.

YOU can learn in two seconds the daily care of the skin advised by the world's foremost beauty specialists. For the sake of a youthful complexion, read it, practice it.

Simply twice a day, morning and evening, apply a generous lather of Palmolive Soap and warm water to face and throat. Work well into the pores. This is best done with the hands. Then rinse away with warm water. Finish with a cold rinse. *Hot* water should *never* touch your skin. If your face is dry, apply oil or tissue cream after the night treatment.

**Julia Foster has interviewed over 2,600 beauty experts in the past two years. Her information on beauty subjects is authentic. It deserves your careful reading.*

TORY RETURNED FOR RICHMOND

By-election Decision Leaves Only Three Vacancies in British Commons.

ACCLAMATION GIVEN RAY.

RICHMOND, Surrey, Apr. 14 (C. P. Cable)—Sir William Ray, Conservative, was yesterday elected by acclamation as member of the House of Commons for Richmond, in succession to Sir Newton Moore, Conservative, who resigned to become President of Dominion Steel and Coal Corporation of Montreal.

Sir William's election marked the fourth straight instance of a Conservative holding a seat which elected Conservatives in the general elections of Oct. 27. Every by-election since then has failed to affect the party standings.

In the last general elections Sir Newton Moore was re-elected by a majority of 28,873 in a straight fight with a Labor candidate.

The new member is a man of great experience in London metropolitan administration.

RAILWAY PARLEY IS TAKEN EAST

Eleven Hundred Men Be Laid Off in Fort Rouge and Transcona Shops Close.

STUDY ALIENS' CASE.

WINNIPEG, Apr. 14 (C.P.)—Negotiations between Canadian national officials and representatives of more than 1,100 workers in the railway's shops at Fort Rouge and Transcona here, faced with unemployment if the C.N.R. carries out its plans for laying off men, were being transferred east.

A. E. Warren, C.N.R. vice president in charge of the western region, left here last night for Montreal where he will discuss the situation with company executives. Accompanying him was R. J. Tallon, Montreal, president of Division No. 4 railway employees department, who has been investigating the situation at Fort Rouge and Transcona at the request of Sir Henry Thornton, president of the railway.

Mr. Tallon said he doubted whether existing seniority rules could be set aside in the case of unnaturalized aliens as proposed by Canadian Legion heads.

A. E. Moore, Legion chairman examined foreign born employees' naturalization cards yesterday with a view to having their seniority with the railway company date from the time they took out the papers rather than from the time they started work with the C.N.R.

Moore is seeking to have alien workers without naturalization papers dismissed before Canadian-born men.

McLAREN'S INVINCIBLE OLIVES

First quality Spanish olives packed in seven sizes of "CRACKLE" glass jars. 13c

TRENT RIVER.

Public school is called one hour earlier for the junior pupils beginning at 8 a.m. instead of 9 a.m. and the classes for senior pupils open one hour later, 10 a.m., this change came into effect Monday morning.

Mr. Ed. Bird returned to Toronto Sunday after spending the week end guest at "Ye Olde Mill."

Miss Jessie Cross of Norwood Road is a visitor this week with Mr. and Mrs. James Longmuir and family.

Mr. and Mrs. Herbert leave Wednesday for Toronto after spending a few days at "Ye Olde Mill." They plan to return to their cottage in May.

RYLSTONE.

Mr. and Mrs. Henry Scott were visitors of Mr. and Mrs. Fred Rutherford on Sunday.

Mr. and Mrs. George Gibson were Sunday visitors of Mr. and Mrs. Russell Wilson.

Mr. and Mrs. Carl Connelly and family were guests of Mr. and Mrs. Wilfred Spencer on Sunday.

Mrs. Melville Finch and baby, Evelyn, are spending a few days of this week with Mr. and Mrs. Samuel Bowen, Stirling.

Mr. and Mrs. Harold Spencer and Beryl were visitors of Mr. and Mrs. Herbert Spencer on Sunday.

BETHANY COUPLE RECEIVES HONOR

Mr. and Mrs. Rex Dawe Leaving to Take Up Residence in Clarksburg, Ontario.

(Examiner Correspondence.)

BETHANY, April 14. — Mr. and Mrs. Rex Dawe, who are leaving the village to take up residence in Clarksburg, Ontario, were guests of honor at a large gathering of friends held in the Town Hall on Monday evening, when they were presented with an eight-piece dining room suite, accompanied by an appropriate address.

During the first part of the evening cards were enjoyed, following which Rev. Mr. Fierheller drew the attention of the assembly, he having been requested to make the introductory remarks. Mr. and Mrs. Dawe were given chairs on the stage, and the address was read by Carl Smith, during which the curtain was drawn, exposing the suite.

Mr. Dawe thanked the assembly in a fitting manner, on behalf of himself and Mrs. Dawe, expressing his surprise and appreciation.

Immediately after the committee in charge served a beautiful lunch, at the conclusion of which the Silver Sterling Orchestra played music for dancing.

Among those present were Mr. and Mrs. Dawe, Rev. Mr. and Mrs. Fierheller, Mr. and Mrs. James McKinnon, Dr. J. J. and Mrs. Hamilton, Mr. and Mrs. A. B. Ryley, Mr. and Mrs. F. W. Reynolds, Mr. and Mrs. Walter Rowland, Mr. and Mrs. Clarence Neal, Mr. and Mrs. Roy Ferren, Mr. and Mrs. A. B. Sisson, Mr. and Mrs. W. Hannah, Mr. and Mrs. Ernest Beer, Mr. and Mrs. Harvey Gray, Mr. and Mrs. Herb Neal, Mr. and Mrs. Charles Smith, Mr. and Mrs. D. Cairns, Mr. and Mrs. Ernest Cavano, Mr. and Mrs. H. Beatty of Peterborough, and Mr. and Mrs. W. Hunter of Peterborough; Mr. and Mrs. M. Chapman, Mrs. S. Armstrong, Mrs. W. A. Brown, Mrs. W. Byers, Mr. and Mrs. J. J. Clark, Mrs. Palmer, Mrs. L. Patterson, Mr. and Mrs. H. Payne, Mr. and Mrs. R. W. Price, Mrs. W. Rowan, Mr. and Mrs. W. Morton, Mr. and Mrs. Milton Wright, Mr. and Mrs. Otto Spencer, Mrs. B. Monk, Mr. and Mrs. Page, Mr. and Mrs. Strachan, Mr. and Mrs. Harry Smith, Mrs. Carscadden, Mrs. Foster, Mr. and Mrs. H. Bigelow, Mr. and Mrs. H. Fallis, Mr. and Mrs. L. Kincaid, Mr. and Mrs. McBride, Mr. and Mrs. E. Fallis, Mr. and Mrs. F. C. Dawe, Misses W. Beer, Clara Beer, Miss McKim, Miss Bailey, Miss Preston, M. Strong, Frances McKinnon, Evelyn McKinnon, Molly Day, Vera Strachan, Viola Gray, L. Davis, K. Steer, M. Page, S. McMullen, Ivy, Mildred and Helen Smith, M. Nelson, Hazel Jackson, Margaret Jackson, Mae Smith, Rena McKinley, Jean Smith, B. Fallis, Doreen Smith, Katherine Morton, W. Stewart, D. Pudsey, Miss Beatty, Phyllis Mann, Betty Thomas, Dillas Thomas, E. Preston, Bernice Wright, Helen Patton, M. Hannah, Betty Beer; Messrs. Edgar Beer, B. Beer, Ken Thorndyke, J. Galloway, D. Masters, B. Page, Keith Thorndyke, R. Sisson, J. Hannah, W. Thompson, Bob Kerr, E. Bray, Marsden Thomas, Ted Welsh, E. Dawe, T. Staples L. Pudsey, T. McCamus, F. Stevenson, H. Pierce, Victor Sheppard, T. McCullough, G. Strong, E. Strong, Bob Reid, C. Patton, V. Jackson, Ivan Mairs, B. McGill, Jack Neals, N. Neals, Hector Morton, H. Davis, Morton Davis, F. Fallis, W. Fallis, Clarence Page, H. Page, P. Porter, B. Porter, C. Porteous, H. Ward, George Tims, Carl Smith, Gordon Smith, J. Henderson, Irwin Huffman, F. Gray, J. Clark, Allan Beer, G. Gillies, Russell Kerr, T. Mulligan, Sid Liscombe, N. Brathwaite, K. Brathwaite, M. Clark, H. Kestis, J. Armstrong, L. Steer, Earl Smith, Bruce Smith, E. Smith, J. Cairns, George Neals, Mansell Wright.

The address accompanying the presentation was signed by Mrs. D. S. Cairns, Mrs. R. W. Price, Edgar Beer, Earl Smith, Carleton Patton, Robert Sisson and Carl Smith, on behalf of the community.

Obituary

MRS. ALEXANDER WOOD

INDIAN RIVER, Apr. 14 (Examiner Correspondence)—The death occurred suddenly on Tuesday morning of Mrs. Alexander Wood, at her home, after a very brief illness.

The funeral was held Thursday afternoon, with interment in Little Lake cemetery, Peterborough.

REV. WILLIAM ELLIOTT.

VICTORIA, April 14.—Rev. William Elliott, whose death followed a motor accident in Esquimalt was born in Peterborough, Ont., in 1856. His parents were children of the early pioneers of Peterborough and Durham Counties of Ontario.

Mr. Elliott received his education in the local and Peterborough high schools, taking his degree at Victoria College, Cobourg, Ontario. He entered the ministry of the Methodist Church in 1880, passed the early years of his ministry in Ontario and afterwards removed to Manitoba, wher he met and married Miss M. Robinson, daughter of George Willan Robinson of Peterborough, Ont. Shortly after their marriage they volunteered as missionaries to Japan, where they remained for eight years.

Because of broken health, Mr. Elliott had to return to Canada. He had a charge in Manitoba for some time. The call to Japan was too strong, however, and he soon returned, accepting a position on the teaching staff of the Higher Normal College in Hiroshima, where he remained a further eight years, returning to Victoria in 1909.

He had several pastorates in British Columbia until he was superannuated in 1923. After his retirement in Victoria he still kept in close touch with the church and did supply work for local churches.

During the stay in Japan, Bertram, Fletcher, George, May and Neles Elliott were born. Mary, wife of Harry Hipwell of Chilliwack, and Nelles of New Westminster, survive. Fletcher and George died overseas. Mrs. Elliott passed away in September, 1928, and Bertram, the eldest son, a talent artist, died in New York last July.

Last June Mr. Elliott married Mrs. Hyde of Esquimalt, who survives him. The same month he celebrated his jubilee in the ministry by a special anniversary service in Centennial Church.

QUEENSBORO

The Young People of Hassard's Corners held their regular meeting on Thursday evening. Miss Marion Mutton presided. The meeting was opened by singing "Glory to God for his sunshine is free." Prayer was offered by the pastor. The scripture lesson from St. John 10 was read by Raymond Gunsolus.

Mrs. William Blair had charge of the topic which was, "What does it mean to be a Christian in comradeship and play?"

A very fine paper on the topic was given by Miss Jennie Ketcheson, also one by Miss Gertie Anderson. Mr. Everson gave a talk on, "Can you tell a Christian by his conduct in a game of sport." Mr. Harry Love and Mrs. Philo Harris rendered a duet which was much enjoyed. The meeting was closed by singing, "Upward ever upward to the promised land," and the mizpah benediction.

NEW DESIGN CHINA

Now
in Quick Quaker Chinaware Packages

HERE is chinaware such as you would buy for best occasions and be proud to show. A large handsome piece comes in every package of Quick Quaker Oats marked "chinaware." Genuine imported English ware . . . NEW design and new Laval pattern . . . ivory tone.

By using Quick Quaker you can soon have a complete set of handsome cups and saucers, plates, cereal bowls, sugar bowl, cream pitcher, etc.

No other oats can be so good as Quick Quaker Oats, for none are so carefully selected and roasted by the exclusive Quaker process. Why use oats which are not so delicious or so nourishing, when you can obtain Quick Quaker Oats everywhere?

Only the plumpest grains are used in making Quaker Oats. These are roasted whole through many ovens, then rolled to tender flakes.

Supreme in nourishment. Protein for stamina and to repair wastage. Carbohydrate for energy, abundant minerals for the blood. Bulk to aid digestion.

For cleanliness and purity buy oats in packages, not loose in bags. For supreme deliciousness and rare nourishment, see that the name and picture of the kindly Quaker are on your packages.

More people eat Quaker Oats than any other cereal. It is the one cereal you never tire of because so delicious, so nourishing, so agreeable to the digestion.

Economical
Quickest Cooking

Quaker Oats costs less than a cent a dish. Takes little time, for it cooks in 2½ minutes after the water boils.

With or without chinaware, in large household packages; also small 10c size. Sealed packages only, NEVER in BULK.

Made by The Quaker Oats Company, Peterborough and Saskatoon, largest cereal millers in the Empire. Makers also of Quaker Crackels, Quaker Corn Flakes, Muffets, Quaker Natural Bran, Aunt Jemima Pancake Flour and other highest quality cereals.

DOMINION, PROVINCES CLOSER ON AUTHORITY OVER INSURANCE

Suggestions From Price and Taschereau Points to Basis of Agreement.

STABILITY DEMANDED.

OTTAWA, Apr. 14 (C.P.)—Possibility of composing the differences between the Dominion and the provinces in the matter of legisative jurisdiction over the operations of insurance companies was seen yesterday following the session of the senate's banking and commerce committee. Constructive suggestions emanating from Attorney General Price of Ontario and Premier Taschereau of Quebec pointed to a basis of agreement, and with these in mind the committee deferred further discussion of its two contentious insurance bills until later. The third measure which contemplates the establishment of a department of insurance was endorsed by the committee.

Price's Suggestions

The suggestion of Col. Price was that permissive legislation for central inspection and report on the operations of companies be enacted by the Dominion; but that the provinces have jurisdiction over the "coercive" measures. The alternative proposal by Mr. Taschereau was that the principle of central control be accepted, to be implemented by provincial legislation. This suggestion contemplated preservation of the "status quo" for one year, during which there would be no litigation between the dominion and the provinces. In that period the whole situation would be reviewed and legislation drafted to meet the conditions.

"The suggestion offers to my mind," said Senator Meighen, government leader in the Senate, who was piloting the bills, "the possibility of a solution. The sponsors of the bills should consider their form before they go any further. The committee would prefer that rather than put through anything against the opposition of the two provinces.

The committee then arose, to reassemble on Friday.

This afternoon E. Bayly Deputy Attorney General of Ontario, who spoke for the province, and Aime Geoffrion, representing Quebec, will confer with Senator Meighen in an effort to arrive at an understanding on the whole situation.

Figures showing the magnitude of the operations engaged in by Canadian companies were given by N. W. Rowell, representing the life underwriters officers association.

Out of the total of $6,622,000,000 of life insurance business in force in this country, Canadian companies enjoyed $4,409,000,000. British companies had $119,000,000 and foreign companies $2,093,000.

"The desire of the life companies is first to see if possible there may be maintained a central federal system of inspection that relates to solvency and insolvency," said Mr. Rowell. "That would be much more economical than if separate inspection and supervision were maintained by each province."

Stability of Legislation

"With the constitutionality of the proposed bills we have nothing to say, except to express a desire for cessation of constitutional litigation and for stability of legislation," said J. A. Mann, Montreal, appearing for the licensed stock, fire, casualty and automombile insurance companies, both Canadian and foreign. He urged there should be equality as among all those transacting the business for the fullest protection of the Canadian people, both as regards security and efficiency of administration.

Mr. Mann's statement was endorsed by T. J. Coonan, Montreal representing the Western Insurance Underwriters of Canada and the Association of Western Brokers.

R. J. Wickham, representing the Canadian Federation of Insurance Agents, asked that both Federal and Provincial Parliaments give more consideration to insurance than has been the case in the past. He pointed out that companies were under a heavy drain in governmental and municipal taxation, and appealed for the maintenance of strict government supervision of all insurance operations.

Other witnesses briefly stated their case, all demanding stability in the insurance field and voicing endorsement of the measures under consideration.

Sees Father Again

Isabelle Kearns, nurse, is en route from Detroit to Toronto, to see her father, who returned home after being missing for twelve years and declared legally dead.

W. F. Corfe, of Ewell, England, has just died of war wounds received at the Battle of Somme in 1916.

CULBERTSON *on* CONTRACT

by Ely Culbertson

World's Champion Player and Greatest Card Analyst

152

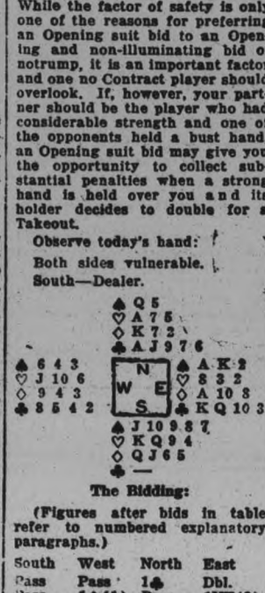
THE SAFEGUARD OF SUIT BIDS

Choosing a suit as an Opening bid furnishes the bidder with many added safeguards if it should turn out that his partner is trickless. At a suit declaration the Declarer can usually so play his cards as to make tricks with some of his small trumps. Played at notrump, if the Dummy is worthless, the adversaries can generally establish their long suits under the protection of their honor-tricks and inflict tremendous penalties. While the factor of safety is only one of the reasons for preferring an Opening suit bid to an Opening and non-illuminating bid of notrump, it is an important factor and one no Contract player should overlook. If, however, your partner should be the player who had considerable strength and one of the opponents held a bust hand, an Opening suit bid may give you the opportunity to collect substantial penalties when a strong hand is held over you and its holder decides to double for a Takeout.

Observe today's hand:

Both sides vulnerable.

South—Dealer.



The Bidding:

(Figures after bids in table refer to numbered explanatory paragraphs.)

South	West	North	East
Pass	Pass	1♣	Dbl.
Pass	1◇(1)	Pass	1NT(2)
Dbl.	Pass	Pass	Pass

1—West cannot pass his partner's Takeout Double. With an absolutely trickless hand his only bid is one diamond as he has neither four spades nor four hearts.

2—East understands his partner's message, but one notrump appears safer than one diamond.

Against the contract of one notrump, South opened the Knave of spades and East immediately realized the hopelessness of his task. He won the spade trick with the Ace and led the King of clubs, South discarding the five of diamonds. North won with the Ace and returned a spade, having played the Queen on the first round to unblock the suit. East permitted South to win this trick and a third round of spades established it. East now led the Queen of clubs and followed with the Ace of diamonds, as he realized that his chance of taking any more than 4 tricks was remote indeed.

Thus, at a contract of one notrump, East was penalized 1000 points. The penalty, if played at one diamond doubled, would have been equally severe. The seas of distribution are indeed stormy and filled with hidden reefs and the Contract mariner should be sure that his compass is true when he is engaged in navigating them.

TODAY'S POINTER

Question: How many tricks will two hands with 5 honor-tricks average to win? 6-½?

Answer:

$$8:13 :: 5:x = \frac{65}{8} = 8\frac{1}{8}$$

Question: What factor may nullify the above rule?

Answer: Only unusual distribution such as outstanding trumps massed in one hand—voids which enable opponents to "trump in" or in notrump the establishment of an adverse long suit.

Keith Lech Elected Furriers' Director

TORONTO, April 14.—(CP). — Charles Langley, St. Catharines, Ont., was elected president of the Furriers' Guild of Canada before that body concluded its annual convention here yesterday. Other officers are: Vice-presidents, N. Richardson, Toronto; W. Y. Mils, Kingston; A. L. Colquhon, Toronto; treasurer, C. W. Deguerre, Toronto; secretary, George S. Hougham, Toronto. Directors are: J. H. Lugsdin, Toronto; C. W. Charlesbois, Chatham; R. L. Cook, Fort William; Keith Lech, Peterborough; H. W. Peel, London, and R. F. Craig, Brockville.

Thankoffering Of St. Andrew's Society

The annual Easter thankoffering meeting o fthe Elizabeth Bell Auxiliary and the Women's Missionary Society of St. Andrew's Church was held on Tuesday evening, in the Sunday School Hall, with Miss F. Dickson, president of the W.M.S., presiding.

Mrs. Barns read the Scripture lesson and Mrs. Leslie offered the dedicatory prayer. A very appropriate solo was given by Miss Isabelle Weddell, and Mrs. Ford Turner, president of the Elizabeth Bell Auxiliary, introduced the guest speaker of the evening, Mrs. J. H. Turnbull, editor of The Missionary Monthly.

Mrs. Turnbull opened her address with a comparison between the old time "lamplighter" and the W.M.S. "Women had been lighting lamps from the beginning and would be until the end; lighting lamps in people's lives all over the world." Mrs. Turnbull referred to the French and Indian Missions in the homeland. Splendid work is carried on at the sea ports by the deaconesses, where the new Canadian women and their children are greeted, cheered and fed before they entrain for their final destinations and new homes in the different sections of Canada. The speaker, turning to the foreign fields, gave a splendid resume of the religious and educational work of the W.M.S. among the women and girls, speaking also of the importance of the medical work being carried on, and forcibly presenting these very striking questions: "What does the church mean to me to-day? Is Christianity slipping? What message has the W.M.S. for a chaotic world to-day? Can our W.M.S. show to the church that they are inter-twined in the great movements of the world? Are our homes definitely Christian, or just good homes? While talking hard times, am I spending all on myself, clothes and luxuries, and what portion am I giving to God to keep the lamps burning? Do I spend 16 hours per day on worldly thoughts and five minutes trying to find God?" The speaker closed a very inspiring address with the thought that the women of to-day must carry on, weaving the thread for the women of the morrow.

A vote of appreciation was tendered Mrs. Turnbull, and the meeting concluded with the Benediction pronounced by Rev. Dr. McLean.

TO FREE PRISONER WHO SAVED WARDEN

Four Years Ago Was Reprieved From Death

London.—George Thomas Donovan is a lucky man.

Four years ago, when he was 28 years old, he was convicted with two other men, of the murder of a man of 70 in Brighton. He was sentenced to death.

He appealed. The appeal was dismissed. There was a petition. Fourteen hours before the time fixed for him to go to the gallows Donovan said good-by to his mother and his young wife. Then came the sudden surprise. A reprieve was granted.

It was decreed that he should serve a life sentence. Then he wrote to his mother:

"Believe me, there is a God....If ever I have the luck to come out of this I shall lead a life of showing people that there is an Unseen."

In 1928 Donovan went to Dartmoor to atone for a crime of which he declared he was innocent. When the convicts mutinied there recently Colonel G. D. Turner, deputy prison commissioner, was cornered by the rioters, and was facing risk of death, when Donovan stepped in, fought back his assailants, and saved his life.

Now it has been decided that Donovan will be released this year. Already he has been removed from Dartmoor—it is said for his own safety—and is in another jail.

WILL DUBLIN REMOVE THE NELSON PILLAR?

Council Is Asking Government for Special Legislation

Dublin, Ireland.—A recommendation has been adopted by the general purposes committee of the Dublin Corporation, with three dissentients, including the lord mayor, asking the government to introduce legislation that will enable the city council to remove the Nelson Pillar. The corporation has no power to deal with the Pillar, because it was not the authority that gave permission for its erection.

It is understood that it was the wide streets commissioners who gave permission in this particular case, and that their powers were never fully taken over by the corporation that was afterwards elected to take their place. All other statues are under the control of the city council, which gave permission for their erection.

GREAT BENEFIT BEING DERIVED BY CITY WOMEN

Cooking School Taking a Real Place in City of Peterborough.

REAL HAPPY CROWD.

Seen from the galleries of the Grand Opera House, one gets a good index of the enthusiasm with which The Examiner's Homemaking and Cooking Course was received.

Climbing the long flights of steps, Peterborough's housewives went smilingly to the top, though they had come as early as one o'clock. There existed a camaradie among these women which seemed to make them all sisters so far as homemaking is concerned. Real seal and near seal jackets rubbed shoulders companionably. "This is the very first time I've been up here" said the real seal, and "It's many the bag of peanuts the kiddies and I've enjoyed in the gods" quoth the near seal.

Yesterday both ladies were present to gain knowledge in the art of cooking, and if they didn't get it, the fault was not Miss Thompson's. There is no doubt at all that it is the manner in which the lecturers are presented which wins the attention of her vast audiences. The fact is, Miss Thompson does not lecture in the generally accepted way, nor does she talk to her guests. What she really does is to talk with them. Two minutes after she commences her lecture the home-lovers forget that they are in a theatre, for under the spell of her cheery manner, humorous quips, and rapid-fire talk, the stage on which Miss Thompson stands disappears and they find themselves in her kitchen discussing in the most intimate way possible, the intricacies of cooking for their families, or for those special occasions when guests are expected for dinner. Before they know it the friends—for everyone becomes a friend of Miss Thompson on sight—are asking questions and explaining the difficulties they, themselves, encounter in preparing the meals at home. Each question is answered promptly by Miss Thompson and pencils are seen flying over the paper as the ladies take down her answers to their cooking problems.

The closest attention was paid to every word of the lecture, and not a word was lost even in the farthest corners of the galleries.

One of the guests spoke in the warmest manner of the lectures. "This is my second visit" she said. "and I wouldn't miss one for the world." Much gratitude was expressed toward Mr. Glover, managing director of The Examiner, who has made this wonderful opportunity possible to Peterborough homemakers.

Another guest was heard to add: "It is not only the women who benefit from this course, but their children and their husbands. And what does it mean to the merchants whose goods have been used in Miss Thompsons' demonstration? She has insisted in her lectures that women demand the best materials to be procured for their home cooking, and has shown them quite clearly where these may be obtained.

Passing along the corridors coming out of the building, the most general remark heard, was a regret that the course was so short, and the wish for Miss Thompson's return.

ROTHSCHILD'S BIRDS SOLD TO U.S. MUSEUM

Said to Be the Finest Collection in the World

London.—Lord Rothschild is understood to have sold his world-famous collection of birds in the Tring Zoological Museum, estimated to be worth at least £100,000, to the American Museum of Natural History, New York.

The Rothschild collection of birds is the finest in the world. It includes more than half a million specimens, many of them the only ones of their kind in existence.

It is believed that only the bird section of the private museum at Tring has been sold.

Lord Rothschild has devoted a lifetime of work to this collection, which has been a Mecca for scientific experts from all countries of the world. Among the specimens are six gray pigeons from the Solomon Islands, where they became extinct because the natives ate them. There are none anywhere else in the world. Birds of paradise alone form a magnificent section. Some of the specimens date back more than 120 years, but they are perfectly preserved.

IT PAYS TO ADVERTISE

OX TAIL SOUP

by Campbell's famous chefs

CAMPBELL'S chefs certainly are masters of the art of making Ox Tail Soup. With the rich ox tail and beef broth they combine sliced ox tail joints, choice vegetables, herbs and barley. Then they add the final touch to its appealing flavor with fine sherry.

FIRST SETTLERS CAME TO EMILY EARLY IN 1819

Township Was Formally Opened in March, 1821.

IRISH MIGRATION.

First Post Office Was Established in Omemee in 1825.

MOUNT PLEASANT, April 14 (Examiner Correspondence).—Pioneer days in Emily Township are revealed in an interesting way in the following paper, entitled "Emily Township," given at a recent Women's Institute meeting.

"Emily Township is named after Emily Charlotte, daughter of Lord George Lennox and sister of the Duke of Richmond, Governor General of Canada from 1817-19. The township is situated in the south-east corner of Victoria Country and has an area of about one hundred square miles. Pigeon Creek enters at the south-west corner and crosses diagonally toward the north-east where it widens into Pigeon Lake. Chemong Lake is on the eastern boundary and the much smaller Emily Lake on the north. The soil is very fertile.

In 1819 some slashing was done on Lot 20, Concession 2, by David Best. He then went back to Cobourg however, and before his return in 1820, Humphrey Finley and his wife came in and located, thus earning their later title of "King and Queen" of Emily. In the fall of 1820 Maurice Cottingham and his sons, and James Laidley pushed in farther through the forest to Pigeon Creek which they bridged by felling two oak trees into it from opposite banks. Beside the stream about where Omemee now stands, they did a little clearing but retreated to Cavan for the winter. In March, 1821, the township was formally opened for sale. Samuel Cottingham and James Laidley returned in the spring, built a log cabin, 12 feet by 14 feet in the deep snow. William Cottingham and his father soon joined them clearing, prospered and in the early summer they planted corn, potatoes and wheat. That same year a party of four hundred Protestant Irish from the County of Fermanagh set sail for Canada and settled in a body in South Emily and in Cavan Township. From this contingent came the modern family names of Adams, Allin, Armstrong, Balfour, Beatty, Cornell, Curry, Dixon, Evans, Fee, Grandy, Hughes, Ivory, Jackson, Jones, Lamb, Matchett, Moore, McCrae, McKeely, McQuade, Reel, Robinson, Sanderson, Thornton and many others. The south-west concessions were soon dotted with clearings each with cabins and scanty crops among the stumps.

Nearest Mill, Port Hope

At first the nearest mill was at Port Hope, 35 miles from Omemee, but a man named Deyell undertook to build one in Cavan, where Millbrook now stands, which is only ten miles from the boundary of Emily; here the pioneers took their sacks of grain by a narrow bush road; one of the drawbacks was a swamp a mile wide and dangerous to pass through.

Cottingham Mill

At last in 1825 William Cottingham erected a rough mill beside Pigeon Creek. In the same year the British Government arranged for the immigration into Canada of a contingent of 2,024 Irish Catholics from County Cork. This enterprise was supervised by the Hon. Peter Robinson. Upon reaching Kingston they stayed two weeks where many of them died, some days as many as ten or eleven. From Kingston they travelled by steamer to Cobourg and then on foot to Gore's Landing on Rice Lake. A boat then carried them in small parties up the Otonabee River to Scott's Plains, named after Adam Scott, who had built a mill there in 1825, but which was named "Peterborough" in 1827 as a compliment to the Hon. Peter Robinson.

One hundred and forty-two of these families of Irish immigrants came to Emily and settled in a block in the north half of the township and thus it came about that North Emily was as solidly Catholic as South Emily was solidly Protestant, while both were Irish. Practically all the new colonists were established on their lots in the fall of 1825.

The British Government issued free rations for eighteen months on a basis of one pound of pork and one pound of flour per man a day. Each family was also given a cow, an axe, an auger, a hand saw, a hammer, 100 nails, 3 hoes, a kettle, a frying pan, iron pot, five bushels of seed potatoes and eight quarts of Indian corn.

The mill built by William Cottingham by Pigeon Creek in 1825 became so important as a base of supplies during this Robinson immigration that a store was opened beside it in 1826. This was the nucleus around which the modern "Omemee" has grown. In 1835 a post office was established here, with Josiah Hughes as post master. The post office was called Emily, but the hamlet was called Williamstown, doubtless being equivalent to William Cottingham's town.

First School Built in 1835

In 1835 the first school was built on the site of the old Bradburn Hotel. James Laidley and Captain Hancock were among the earliest teachers. The first preachers to come in had been Methodist pioneer missionaries; prominent among these was the Rev. Daddy Sanderson. The first church, used chiefly by the Methodists, was built on the north-west corner of Lot 13, Concession 2. An Anglican clergyman, the Rev. Mr. Thompson, used to come from Cavan and hold service in private homes. In 1835 an Anglican church was built in Williamstown, and the Rev. M. Street became the first resident clergyman. A Methodist church was begun in the village in 1836, but took several years to finish. The first Presbyterian minister was the Rev. Mr. Dick, who was succeeded by the Rev. Mr. Ewing. In the forties the name of the village was changed to Metcalfe.

A business directory of 1850 gives the following names: William Cottingham, miller; lumber merchant, Carder and Fuller; Robert Grandy, post master; Richard Galbraith, distiller; William Kells, teamster; C. Knowlson, merchant; W. Matchett, merchant; W. Beatty, merchant.

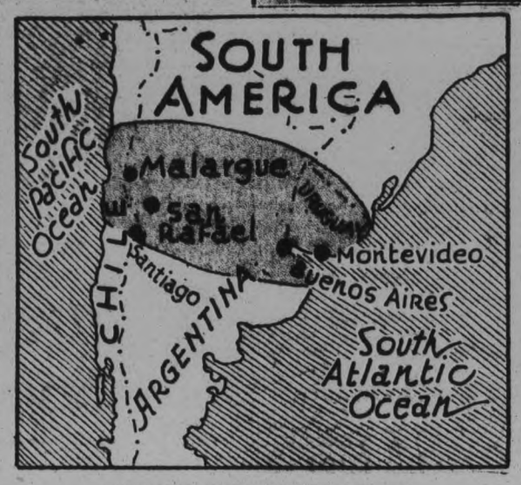
The Port Hope, Lindsay and Beaverton Railway was built through the township in 1857, but the station was placed quite a distance from the village. This was done by the railway company out of spite, as the bonus paid them was short of their demands.

The name of the village was now changed to Omemee, after the Omemee or Pigeon family of Mississago Indians who had long made this neighborhood their hunting ground. The names of Pigeon Creek, Pigeon Lake and Omemee have thus a common origin.

The village was incorporated in 1874, the first reeve being William Cottingham. Omemee reached its greatest prosperity and population in 1878, when it had 835 inhabitants. There were three churches, a high school and public school, a grist mill, two saw mills, a tannery, a foundry, a shingle mill, a cloth mill, four hotels and several stores. The Warder, now of Lindsay, had been published in Omemee from 1856-1867. It was succeeded in the 70's by The Herald, now defunct.

By 1920 the population had dwindled to 467. The industrial competition of the cities has had a blighting effect on local manufacture, and the general decline of the countryside has been reflected in village life. There has been no other village in the township of Emily. The post office of King's Wharf dates from the time of the Robinson immigration, and a Roman Catholic church built in the 40's at Downie's Cross has been surrounded by the small hamlet of Downeyville. In 1824 the first taxes were collected in Emily and amounted to sixteen shillings."

Volcanic Fumes Threaten Thousands



VOLCANOES MENACE SOUTH AMERICA

Volcanic ashes, in some places 16 inches deep, lay as an ominious blanket over South America's mid-section April 12 after a 24-hour barrage by the mighty volcanoes of the Andes. Great anxiety was felt for populations of interior cities in Argentina and Chile because of the clouds of gas that were shot from angry craters with the ashes. Relief trains, bound for the interior with gas masks, found their way blocked by ash drifts and the poisonous atmosphere. El Misti (1) is one of the most famed of the continent's volcanoes, while the town of Coquimbo (2) only recently repaired heavy damage done by streams of lava. Shaded portion in map (3) shows path of eruptions.

Millbrook

Miss Beatrice Hitchcock, of Toronto spent the week-end the guest of Mr. and Mrs. C. W. Sayles.

Mr. and Mrs. W. J. Jones, and daughter, Gertrude motored from Toronto and spent Sunday with her parents, Mr. and Mrs. John Hatherly.

Mrs. (Rev.) C. H. Hartwell, who was the speaker at the special W.M.S. thankoffering service in St. Andrew's Church on Sunday morning, was the guest of Mrs. (Dr.) E. L. Burnham over the week-end. Mrs. Hartwell has been for forty years in China, and is now residing in Toronto. Dr. Hartwell giving his time to speaking in the interests of the M. and M. fund of the United Church.

Mrs. Hartwell spoke in the Cavanville Church on Sunday evening, and was the guest of Mr. and Mrs. Richard Matchett at the tea hour.

Mrs. W. McKee Bingham is presenting the annual spring recital of her pupils in the Town Hall, Millbrook, on Friday, April 22, at 8.15 p.m., when the program will be given by Mary Elizabeth Carveth and Helen Annesley Staples, assisted by Mrs. Bingham, contralto, Master Earle Fisher, boy soprano of St. Jude's Church, Toronto, and Mr. J. Edward Fisher, concert pianist and accompanist of Toronto.

Gerald Raper, of Royal Bank staff, Mount Forest was holidaying at his home here last week.

Mr. Kerr, formerly of Stayner, is the new manager of the local branch of the Bank of Toronto, replacing E. G. Britton, now of Petrolia.

Miss Elsie Spence was home from Toronto for the week-end with her parents, Mr. and Mrs. John Spence.

Mrs. C. Thorndyke and daughter, Miss Ruth were visitors to Toronto, spending a few day with her daughter, Mrs. E. A. Hill, in that city.

Misses Mabel McCarthy, of Plevna; Isabel McCarthy, R.N., of Boston; Margaret McCarthy, student at the Normal School, Peterborough and Kathryn McCarthy, of Keene, spent the holiday week with their mother, Mrs. E. H. Barnes.

Mr. and Mrs. J. Wellington Pickup with their son, John and daughter, Miss Anne motored from Toronto last week-end and were guests of Councillor and Mrs. J. R. Eakins, Mr. Pickup being the speaker for the Commencement Exercises of the Continuation School, held in the Town Hall on Friday evening.

Mrs. C. C. Garside spent last week visiting friends in Port Hope, and Toronto.

Howard Fallis, of Rochester, N.Y., was a recent visitor with his mother, Mrs. John Fallis, and other relatives in the village and vicinity.

RELIEF WORK IS CONTINUED

Unpatented Lots Removed From County Books at Burleigh Township Meeting.

APPOINTMENTS MADE.

APSLEY, April 14. (Examiner Correspondence). — The Burleigh and Anstruther municipal council met in the town hall on Friday, April 8th, with all members present.

Rev. C. A. G. Spence addressed the council re a grant for the Agricultural Society, and also with regard to the petition for dividing S.S. No. 1 Anstruther. Moved by Messrs. Tucker and Downing that an arbitrator be appointed for the purpose of fixing boundaries, etc., for new school section. (Carried).

Moved by Reeve Windsor and Councillor Downing that Mr. Spence be appointed arbitrator. (Carried).

Moved by Messrs. Windsor and Booth that the following lots be removed from County books as said lots are unpatented and cannot be sold at the land sales. Burleigh South: Island No. 90, Stoney Lake; N. part Island No. 91, Stoney Lake. Burleigh North: Lot 12, Con. 3; Lot 11, Con. 12; Lot 21, Con. 3. Anstruther: Lot 3, Con. 1; Lot 28, Con. 2; Lot 29, Con. 6; Lot 9, Con. 8; Lot 35, Con. 11; Lots 16, 27, 28, 34, 35 Con. 13; Lot 29, Con. 14; Lots 19, 26, 36, 38 Con. 15; Lots 13, 15 Con. 16; Lots 27, 28, 29, 30 Con. 18; Lots 15, 17, Con. 17. (Carried).

Moved by Messrs. Downing and Coones that Gordon and Elliott be paid $24 re bill of Stuart Murphy for putting in culvert at head of Stoney Lake. (Carried).

Moved by Messrs. Downing and Booth that the assessors receive $30 each salary. (Carried).

Moved by Messrs. Tucker and Booth that relief work be continued during month of April. (Carried)

A vote of thanks was tendered Mr. A. I. Lean and Mrs. A. M. Windsorf or their efforts in relief work on motion of Messrs. Downing and Booth.

The collector's time was extended to next meeting of council on motion of Messrs. Tucker and Windsor. Albert Reed was appointed weed inspector on motion of Messrs. Booth and Coones. Moved by Messrs. Tucker and Downing that Howard Harris and John McFadden be paid for snow plowing when they present their bills to the clerk. (Carried). George Hull, William Bolton and Robert Wilson were appointed pound keepers for Burleigh on motion of Messrs. Booth and Tucker and Dennis Hendley for Burleigh north on motion of Messrs. Windsor and Coones. Herb. Earnshaw and Malcolm Tucker on motion of Messrs. Windsor and Downing received the appointment of pound keepers for Anstruther.

John Rickles and Charles Smith were appointed fence viewers for Anstruther on motion of Messrs. Coones and Booth, and Frank Booth and Frank McFadden for Burleigh on motion of Messrs. Downing and Coones

Norman Bolton and S. Carr were appointed sheep valuators for the township on motion of Messrs. Downing and Tucker. Moved by Messrs. Windsor and Downing, that Wellington Lean be offered $10 for timber in Jack's Lake bridge. If offer is accepted the clerk to give Mr. Lean an order for said amount. (Carried).

The following accounts were ordered to be paid on motion of Messrs. Windsor and Booth: Dr. Shepherd, salary, M.O.H., $5; A. M. Windsor, treasurer, $12.50; Geo. Carr, clerk, $25; Joseph Northey, snow ploughing, $13.20; Municipal World, supplies, $2.43; A. M. Windsor, postage and stationery, $5.93; Stanley Windsor, lumber for covering crusher, $4; Wm. Church, shovelling snow, $1; Frank Booth, snow ploughing, $4; John Northey, snow ploughing, $2; Wm. McCauley, snow ploughing, $8; Bert McIlmoyle, putting in culvert, $2; Registrar of deeds, list of unpatented lots, $8.03.

The council then adjourned.

Princess keeps colours true ...fabrics new!

Protect your clothes and prevent red hands with Princess

By Hilda Doran Ross

YOU will think that your dainty lingerie looks fresher every time it is washed with Princess.

Princess protects. Use it and note how delicate coloured silks and linens never fade—woollens stay soft and fluffy—hands keep white and smooth.

This *pure* soap contains not a bit of filler or harmful free caustic. It saves you money because it gives richer, more abundant suds with less soap used.

Laundry work, dish-washing, floor cleaning—these are only three of the many things for which you need Princess. Try a box today. Use it for any cleaning task.

LOOK FOR THE BIG YELLOW PACKAGE

GUARANTEE

We guarantee to replace any washable garment which by reason of it having been washed with Princess Soap Flakes has been damaged in texture or its colour made to run, provided water alone would not harm the garment.

PRINCESS

SOAP FLAKES 2212

Norwood

The Ladies' Aid of St. Andrew's Church held a very successful afternoon tea and sale of home-made cooking on Saturday afternoon in the public library basement, and a nice sum of money was realized.

The Young People's League of the United Church held their weekly meeting on Monday evening, when the missionary department had charge.

Mr. Stanley McMillan has bought the house on King street recently owned and occupied by the late Mrs. Bertram.

Mrs. R. Tedford is visiting her daughter, Mrs. E. Dubay, in Peterborough for a few days.

Mr. and Mrs. G. Oitment were host and hostess to a number of their friends recently. Eight tables of progressive euchre were played. Miss Elsie Gervin won the high score for the ladies, while Mr. Jimmie Heffernan procured the gentlemen's high. The consolation prize was won by Mrs. A. Mason. After the serving of a delicious lunch, dancing was enjoyed for the remainder of the evening.

Master Chester Walker has returned from Toronto.

Mr. and Mrs. E. Dubay visited the latter's parents, Mr. and Mrs. R. Tedford, on Sunday.

The magnum bottle holds 5 full glasses. It's just the right size for parties.

THE CHAMPAGNE OF GINGER ALES

Hastings

Miss Helen Smith, who was home convalescing after a recent attack of influenza, returned to duty to Oshawa Hospital on Sunday. She was accompanied as far as Cobourg by her parents, Mr. and Mrs. Alex Smith.

Miss Marie Scriver, whose picture appeared in Monday's Examiner, and who was held for three weeks as an immigration prisoner in Wayne County jail, Detroit, was a former Hastings girl. She received her education in Hastings Public school, and is a daughter of Mr. and Mrs. A. Scriver, who moved from here two or three years ago.

Mr. Nicholas Dainard has secured a position in Toronto. "Nick" will be missed in the village as he was always at his duty delivering parcels from the station to the local dealer.

Rev. H. F. Battersby and Rev. T. J. Bell motored to Cobourg on Monday.

Friends of Mr. Michael Fitzpatrick will regret to hear he is suffering from an attack of appendicitis, having just recovered from the measles.

As a result of the recent rains the roads are in a terrible condition. Reports from all the side-roads are that they are almost impassable to vehicles. During Saturday and Monday teams were busy drawing out cars on the Campbellford Road. Many loads of gravel have ben hauled to the bad spots, but as yet the road is unfit for traveling, and all trucks and cars enroute to Campbellford have to go by Warkworth.

The season so far seems very backward. Last year the farmers in this district were seeding around the 20th of April. One farmer was seen ploughing a sod field on Saturday.

The widely known drug cascara is obtained from the bark of a small tree or shrub, which is to be found in Western Canada.

Westminster Hotel
TORONTO

HAVELOCK RELIEF COMMITTEE THRASHES OUT ITS PROBLEMS

Wild Rumors Are Spiked and Group Will Carry on as Before.

COUNCIL ATTENDS.

HAVELOCK, April 14 (Examiner Correspondence3 — Rumors by the dozen were run down and found to be foundationless at the largest meeting yet of the Village Relief Committee, held in the Council Chamber on Monday evening.

This meeting was held to give the newly added members, the Council, a chance to see what had been done to alleviate the sufferings of the workless in the municipality, and the transients who have been cared for at the old Queen's Hotel

Certain of these new members were determined to discontinue the practice of caring for transients, and to curtail the expenditures for direct relief within the community. Wild rumors that a large number of families were being cared for, and receiving groceries and other supplies, even luxuries in large quantities, were freely discussed by the man on the street, and it was to correct these wrong impressions that the meeting was held.

It was intimated that one had only to ask, and he would receive whatever he wanted, regardless of necessity.

Relief Outlay.

The total amount spent for village relief purposes up until April 10 is $353.63, and for transients, feeding and bedding, $282.60. Of this amount the ratepayers pay only one-third, or $212.08.

Last year for transients, feeding alone without beds (which were not furnished), the village paid over $90.00 to Mr. Dewey, who supplied the meals at his home. This year the cost of transients alone is $94.20 to the village. Those who were present at the meeting for the first time were outspoken in their admiration of the way the situation has been handled.

Reeve Donates.

Reeve Leeson, who was present, stated that as members of the village council had not reduced their sessional allowances, as had other municipalities, he thought it would be a good idea for the members to donate a portion of it to the relief. He stated that there were approximately fifteen meetings of council in the year. If each member would give fifty cents per meeting out of his allowance it would mean a donation of seven-fifty to the fund. He for one was prepared to go a little further and make a donation of a straight ten dollars out of his sessional allowance, if the others would do the same.

Rev. Mr. Kemp who was present at the meeting expressed great admiration for the way relief had been administered within the village. He stated that this is a very necessary work. He did not think it should be necessary for any member of the council to give ten dollars to the relief work; he believed that if the churches and organizations throughout the village would get behind the committee the necessary money to take care of the admirable work being done would very quickly be forthcoming by private subscription. These need not be large subscriptions, but if every one who has a job will give a small amount, as a token of thanksgiving for having that job, when so many are out of work, the amount can soon be raised. He stated that while a few of the transients who apply for appeals, may be adventurers, the larger number, at least ninety per cent., are men who are anxious for work, not charity. He believed that for some time these conditions will continue to exist until some plan has been evolved to provide work for the workless. In the meantime the hngry must be fed. He offered his services to the committee to help in any way possible, in the good work. He thought the plan of the relief committee was the only way to prevent what every one feared would happen. He believed that the coming summer is not going to help out the matter of unemployment, that rather the situation will grow worse.

Bonarlaw

Mrs. Mason Clark of Rossmore is visiting her aunt, Mrs. Andrew Hubbel at Havelock. Mrs. Hubbel is seriously ill.

Miss Elsie McFaul of Havelock has a position with Mrs. D. Wellman for the summer.

Mr. and Mrs. Mark Shortt, Roy and Ray were guests at W. S. Stiles on Sunday.

Mr. J. Russel of Buffalo, N.Y. visited his sister, Mrs. J. Wilson last week.

A large number from this community attended the funeral of the late Mr. Meiklejohn, which was held on Sunday.

Dr. Marvin Wellman left on Saturday for Berlin, Germany, where he will spend six months at University there. He intends visiting several places of interest including Paris and will return home early in December.

Mr. and Mrs. Dave Wellman and Miss E. McFaul visited at Mr. Patrick McFaul's on Sunday evening.

Mr. Charley Allen of Stirling spent one evening last week at Mr. John S. McKeowns.

Mr. and Mrs. Bart Stiles took tea at Mr. Fred McKeowns on Friday night.

The Maple Leaf Cheese Co. held their annual spring meeting on Wednesday night.

Mr. Clarence Bailey, our popular school teacher, is sporting a new car.

CANADIAN DEPARTMENT STORES

1,300 WOMEN FILL OPERA HOUSE ON SECOND DAY OF BIG SCHOOL

Every Recipe is Within Range of Average Purse and Taste.

TOOTHSOME DAINTIES.

One of the noticeable features of the Peterborough Cooking School sessions, conducted this week at the Grand Opera House under auspices of The Examiner, by Miss E. Frances Thompson, graduate of the National Training College of Domestic Science and Home Economics of London, England, is the interest taken by the men who are assisting in various capacities, and who, too backward perhaps to take a seat in the open, congregate in the wings and view the proceedings with constant and intent interest.

To watch that very efficient lady, Miss Thompson, turning out with no apparent difficulty the most delectable of eats, in the turn of a deft finger, is to long to purchase all the spotless utensils and the nice electric range that is so miraculous in its operation.

And it doesn't require any magic formula, any "Open, Sessame!" to turn the knob on the electric refrigerator that is just as miraculous in the manner of its inner energetic working.

There were numbers of schoolgirls at the demonstration yesterday afternoon. What excellent results one may expect from the eager young things in the future, as housewives, when they see household drudgery turned into a sort of cheerful fun, by the use of modern methods and modern appliances. Aladdin's lamp had nothing on the little switch that turns on the magic current of electricity that does so much for the housewife.

Delectable goodies were on the list yesterday, but, as both introductory speakers emphasized, every recipe was within the range of the average purse and taste.

R. M. Glover, speaking briefly, referred to Miss Thompson's practical choice of recipes as suitable to the times and present conditions.

The same idea was reiterated in the short talk given by Mrs. Charles Ray, who was formerly a teacher of Domestic Science at the Collegiate. Speaking of this Cooking School as very different from childish conceptions of school, Mrs. Ray referred to the quantity of valuable information to be derived.

Mrs. Ray also congratulated Mr. Glover for his tireless efforts in presenting the three-day demonstration and went on to speak of the necessity of careful cooking instruction for the housewife, confronted with ever-widening markets and ever-changing and enlarging variety in foods.

"Women at the present time should strive to buy economically, they should emphasize the importance of demanding British and Empire products and they should also do their bit to buy goods made in Peterborough, so that more workers may benefit. For, as Benjamin Franklin said, 'If we don't all hang together, we will hang separately.'"

Toothsome Dainties

The Opera House was filled yesterday with a throng of thirteen hundred women, watching with interest the proceedings on the stage and the clever manner in which Miss Thompson and her two assistants, the Misses Alberta Frost and Margaret Patoine, contrived numerous delicious foods.

Chocolate layer cake, covered later with a thick white, creamy refrigerator frosting that may be kept in a tightly covered jar for several days; Maple Mousse, a very attractive dessert made with eggs, cream and maple syrup that may also be kept indefinitely in the refrigerator without becoming icy; a ginger ale jellied fruit salad that had a touch of the unusual in the addition of one cup of ginger ale to the gelatin, water and lemon juice that formed the base for a mixture of fresh fruits; fish salad that looked very appetizing with its admixture of green peppers and red pimientos, and cheese fancies topped by bits of crisp bacon, were the items on yesterday's list.

There was also a demonstration of tea and coffee making, Miss Thompson carefully straining off all tea leaves after the hot water had been added, and a demonstration of meats broiled by electricity. Placing on a grill lamb chop, sausages and bacon, with a slice of calf's liver, Miss Thompson placed the shallow grill directly beneath the piping heat of the top element, leaving the door open to prevent smoking. The direct heat comes in this way down on the food, the bacon, cooking more quickly, being removed shortly and placed in the warming oven.

Miss Thompson advised keeping a corner in the refrigerator for odds and ends of useable food that may be wrapped in waxed paper and utilized.

Yesterday saw a repition of the Fashion Parade conducted by the Canadian Department Stores, also an exhibit of a garment cleaned by Lansfield's in a very short time. The drawing for special prizes and for premium bags resulted as follows:—

Twenty-five premium bags went to the following ladies: Mrs. Hooper, Lundy Block No. 3; Mrs. McGlynn 201 Rutherford street; Mrs. Mathews, 273 Dalhousie street; Mrs McNeely, 367 Charlotte street; Mrs McKenzie, 214 Dalhousie street; Mrs. Gosselin, 269 Perry street; Mrs. Montgomery, 306 Aylmer street; Mrs. Dunk, 125 Lake street; Mrs McKirdy, 72 Park street south; Mrs Nelson, 594 Harvey street; Mrs Scott, 326 Rubidge street; Mrs. A McAdams, 476 Chamberlain street; Mrs. Wyllie, 227 McDonnel street; Mrs. Collins, 73 Aylmer street; Mrs Quinlan, 69 Crescent street; Mrs Mander, 209 Stewart street; Mrs Martin, 134 Lock street; Mrs. Portsmouth, 52 Robinson street; Mrs Hollingsworth, 89 Princess street; Mrs. Gilmour, 4 Grandview avenue; Mrs. Collins, 178 Douro street; Mrs Ryan, 364 Brock street; Mrs. Cavanagh, 155 Dublin street; Mrs Knowles, 190 Chamberlain street and Mrs. Brocks, 526 George street

Special awards were won as follows: Flowers from D. Jordon, Mrs Dutton, Stewart street; cake from Hooper's, Mrs. Telford, Bridgenorth; dres cleaning order by Lansfield's Mrs. Rye, 628 Lock street; three silver jelly spoons from Schneider's Mrs. Guppy, Simcoe street, Mrs. Quinn, Weller street, and Mrs. Hayward, Park street south; paper towel cabinet and refills from the E. B Eddy Company, Mrs. James, 175 Bethune street; tin of Haw's floor wax, Muriel Elliott, 846 George street; radio lamp from Cain Brothers, Mrs. Morris of 213 Antrim street; electric waffle iron from the Canadian Electric Company, Mrs Fenner of 455 Elm street; bag of Quaker flour, Mrs. Hewitt of 246 Lansdowne street.

Miss Wanda Bacon of 188 Reid street won the draw which gave her choice of any articles cooked on the stage during yesterday's demonstration.

A very attractive adjunct to the stage appointments is the dining-room table set with glistening silver in the Deauville pattern, which, according to the new mode, is companioned by china in the same pattern. The silver and china are from the jewelry store of Schneider Brothers.

FASHION SERVICE

Isn't this a versatile litt e model? It has all the ear-marks of the grown-up mode.

Growing daughter with her slim young body will look so smart and sophisticated in this cute dress that snugs the waistline.

It is carried out in white linen printed in light navy blue It reverses its color scheme for the yoke and sleeves.

So easy to make, so attractive to wear!

Another darling idea is white pique with pink pique yoke and sleeves.

Red and white polka-dotted rayon crepe is very smart with plain red.

Style No. 2792 is designed for sizes 8, 10, 12 and 14 years.

Size 8 requires 1¾ yards 35 or 39-nch material, with ¾ yard 35-nch contrasting.

Our new Spring Fashion Magazine is out! Every page from cover to cover is in color.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred). Price of book, 13 cents. Price of pattern, 15 cents.

That Body of Yours

By James W. Barton, M.D.

FOODS CONTAIN ALL NECESSARY VITAMINS.

Nothing that has happened in relation to food in recent years has excited the minds of everybody as has the discovery of vitamins. In newspapers and magazines, in the windows of food shops, almost everywhere in fact, we are hearing and seeing about vitamins. The very name vitamins, vita meaning life, stimulates the imagination.

What are vitamins?

All we know now is that they are absolutely necessary to life. They are much like the juices of the ductless glands in that they seem to regulate some of the processes of the body, especially those that have to do with growth and health.

Some scientists liken them to the spark plugs in an automobile engine which seem to energize or give life to the gas or explosion of gas, thus producing power.

Others speak of them as a sort of binder or connecting link which combines or links up with other foods and is so vital in itself that it makes each of these other foods exert much more energy than when eaten by itself. For instance, the ordinary cereal—wheat, corn, or oats—gives up more protein, that is body-building food, if milk with its vitamins is added to it, than if it were eaten alone.

As you know, the vitamins are given names by using the letters of the alphabet, A, B, C, D, E, G. Vitamins A, D and E are soluble in fats and are found in fat foods and green plants, cod liver oil. Vitamins B, C and G are soluble in water and are found in yeast, green vegetables fruits, eggs, and milk.

Just as everything new is apt to be emphasized or made to look most important so also with vitamins, with the result that many people are naturally wondering if they are getting enough of all the vitamins and are perhaps beginning to buy various foods because they contain certain vitamins.

Now it just so happens that very small amounts of a food containing vitamins will be of as much benefit to the system as large amounts, so that it isn't necessary to worry about the amount of any vitamin in your food.

It also just so happens that the everyday foods you eat meat potatoes, butter, cream, milk, tomatoes, whole grains, eggs, fruits, nuts, cabbage, spinach, lettuce, onions, oranges, lemons, grapefruit, bananas, apples and other foods contain all the vitamins. The only suggestion our nutrition experts make is to be sure to eat a little raw fruit or vegetable daily, in addition to the foods usually eaten.

Would You Pay 2 Cents a Day For Lovely Skin

The amazing new Magnesia Masque will take years from your face in 24 hours it will smooth out wrinkles—tighten enlarged pores—dissolve blackheads—banish "redness" and shine—leaving your face CLEAN, clear, beautifully soft and velvety. Still Marchford Magnesia Masque costs out little—2 cents a day at the most; Safe, easy and delightful to use. Any good local druggist can supply you.

Mrs. Morrison Heads Provincial I.O.D.E.

HAMILTON, April 14.—(CP).—Mrs. William Morrison of Hamilton, former honorary provincial secretary, was elected president of the Ontario Provincial Chapter, Imperial Order Daughters of the Empire here yesterday. Mrs. Morrison succeeds Mrs. S. T. Creet of Hamilton, who has presided in this office for the past year.

The forests of Quebec cover an area of more than 155,000,000 acres according to recent estimates.

Recipes Used By Miss Frances Thompson At The Examiner's Homemakers' School

ORANGE SPONGE.

2 teaspoons gelatine
2 tablespoons cold water
1 cup orange juice
2-3 cup sugar
Juice and grated rind of 1 lemon
4 eggs.

Soak gelatine in cold water 5 minutes. Mix lemon juice and rind, orange juice and sugar and beaten egg yolks. Cook over hot water until mixture thickens slightly. Add gelatine, stir constantly until dissolved. Place in refrigerator to cool. When mixture begins to thicken, fold in stiffly beaten egg whites. Chill, then unmould and garnish with whipped cream and orange sections. If preferred, this dessert may be served in small quantities in individual glasses.

CINNAMON ROLLS

Make up a quantity of making powder biscuit dough. Roll dough ¼ inch thick. Spread with melted butter and sprinkle generously with brown sugar, cinnamon and chopped nuts. Roll dough as for jelly roll, cut in slices and place cut side down on greased baking sheet. Bake about 15 minutes in hot oven.

EMERALD ISLE SALAD

½ cup cream cheese
6 slices canned pineapple
½ cup mayonnaise
¼ cup cream, whipped
Green pepper strips to decorate

Cream the cheese until smooth and soft enough to spread easily. Mix it with the mayonnaise and cream. Pile on to pineapple slices in thick uneven layers. Arrange on crisp lettuce or watercress. Garnish with strips of green pepper.

CHOCOLATE ICE CREAM

1½ oz. (squares) chocolate
2 cups rich milk
2-3 cups sugar
1 cup whipping cream
1 tablespoon cornstarch
1½ teaspoon vanilla
Few grains of salt.

Melt chocolate and add scalded milk very slowly. Mix cornstarch with sugar and add to the chocolate mixture. Cook 10 minutes, stirring until thickened. Cool. Add vanilla. Freeze to mush (about 1½ hours). Fold in whipped cream and freeze until stiff.

BAKED STUFFED FISH

3 lbs. fish (Mackerel)
2 tablespoons butter
1 cup breadcrumbs
1 teaspoon chopped onion
1 teaspoon chopped parsley
1 teaspoon chopped capers
Pepper and salt.

Melt butter and mix with all other ingredients. Wash the fish and fill with the mixture. Fasten with toothpicks and sprinkle with salt and pepper. Dot with butter. Bake in moderate oven about 1 hour.

Cruiser Sent To St. John's At Governor's Request

LONDON, April 14 (C.P. Cable)—J. H. Thomas, Secretary for Dominion Affairs, was keenly questioned in the House of Commons yesterday afternoon on the circumstances surrounding the despatch of the British light cruiser Dragon to St. John's Nfld.

The Minister explained to the members the Dragon was ordered to proceed from Bermuda to St. John's in response to a telegram from the Governor of Newfoundland who had stated there was a risk of grave disorder

Mr. Thomas added the presence of a naval vessel in any part of the Empirewas exclusively governed by instructions laid down by the Admiralty to preserve law and order.

CANADIAN TOMATOES

Picked, cooked and bottled all in a day

ONE OF THE 57

Everybody likes tomatoes, and the finest in the world grow around Leamington. Right from the sun-lit vines of the Heinz gardens comes the luscious red fruit, caught in the fulness of its flavour, to the Heinz kitchens . . . cooked and bottled the same day it is picked.

Take the cap from a bottle of Heinz Tomato Ketchup and catch the haunting aroma of tomato-time in an old-home kitchen. Put the big red bottle on the table and watch the grateful smiles of the hungry ones . . . their new interest in food, whatever the food may be . . . at little added cost.

The Largest Selling Ketchup in the World

MADE AT LEAMINGTON, ONTARIO, FOR NEARLY A QUARTER OF A CENTURY

TOMATO KETCHUP

Here is ..... the health bread you will *like*

This is a photograph of Robt. G. Jackson, M.D., taken Feb. 20, 1932 in his 75th year. At 50 years of age Dr. Jackson was a nervous and physical wreck. By natural habits of living and eating, Dr. Jackson is today as mentally and physically alert as a healthy man of 22. Dr. Jackson is the inventor of Roman Meal.

DR. JACKSON'S ROMAN MEAL BREAD

ALKALI-FORMING LAXATIVE

This bread has literally bounded into public favor, and for two reasons: As now baked by us it has a "nut-like" individual flavor that is instantly liked by both young and old. But its most important claim to your consideration is that it is made with Dr. Jackson's Roman Meal. This outstanding product is the only alkali-forming cereal made, keeping the blood free from excess acid, aiding digestion and preventing constipation. As an aid to health Dr. Jackson's Roman Meal Bread is a most important article of diet.

Try it! You will find it both delicious and healthful and your family will enjoy it as they never have enjoyed any bread before.

Phone us today—or ask our driver for regular deliveries.

Made Exclusively by

Today Dr. Jackson has the physique and alert mentality of a healthful young man, and has international reputation as an author and lecturer on diet and health.

NEIGHBORLY NOTES

Please Phone Items to 1600 or 1601.

A very enjoyable bridge party was held in the armouries yesterday afternoon under the auspices of the 57th Regimental Chapter, I. O.D.E. Owing to the many attractions this week there was not a large attendance as usual. Mrs. F. Miller was convenor, assisted by Mesdames C. Newman, S. Newhall, G. Melton, R. Neill, B. McLeod, D. Melton. The guests were received by Mrs. Newhall and Mrs. Newman. Mrs. Mills was in charge of the games and Mrs. G. Melton acted as treasurer. The prize for high score in auction bridge, a beautiful handmade lace d'oyley, made and donated by Mrs. R. Neill, was won by Mrs. R. E. Clarke. The high score prize in contract was won by Mrs. J. D. Collins and the lucky draw prize went to Mrs. J. W. Hales. Among those present were Mesdames T. W. H. Young, S. Newhall, C. Brewer, R. E. Clark, F. G. Mann, W. G. Hall, J. D. Collins, N. J. Wooten, Chambers, E. Edkins, A. Everitt, W. H. Peryer, J. Cridland, D. Eldred, W. Woods, E. Nicholls, W. Ashbury, F. D. Craig, A. E. Borland, T. Pitchford, F. Merrett, H. E. Lucas, F. Hart, W Ashby, B. Hillman, T. M. Miller, J. Crowe, W. T. Holloway, H. M. Yelland, C. H. Campbell, P. Wallace, W. Hepburn, L. H. Deyman, E. J. Purvis, E. Rigden, W. G. Howden, G. Helson, T. W. Hay, J. W. Hales, C. Turner, O. A. Langley, D. Melton, C. Newman, G. Melton, F. Miller, and the Misses M. Rogers, A. M. Price, E. Bain, B. Matchett, J. Wesley, N. Hall, F. Belcher.

A very enjoyable banquet was held in All Saints' Parish Hall on Tuesday evening as a final to the ladies' carpet bowling schedule. The three losing rinks provided the banquet for the winners. The tables were prettily arranged with silver baskets and bud vases filled with yellow daffodils, and yellow candles in silver holders. Mrs. C. H. Wiggins' rink was the winner of the schedule, closely followed by Mrs. Curtis and Mrs. Fisher's rinks. Members of Mrs. Hughes' and Mrs. Parson's rinks were in charge of arrangements, assisted by Mrs. Alston's rink. A hearty vote of thanks to those preparing the banquet was voiced by Mrs. R. Page, president of the ladies' bowling club. Community singing was indulged in with Mrs. W. A. Greenslade at the piano, followed by games and concluding with a carpet bowling contest.

• • •

The many friends of Pat Blagrave will be glad to know that he is progressing favorably after an operation for mastoid trouble.

• • •

Dr. A. Moir celebrates a birthday anniversary to-day.

• • •

Mrs. R. E. Birdsall and Mrs. R. Cottrell are in Hamilton, representing the 57th Regimental Chapter I.O.D.E. at the Provincial I.O.D.E. meeting held there yesterday, to-day and tomorrow.

• • •

Mr. and Mrs. O. H. Wilson celebrated quietly yesterday the tenth anniversary of their wedding.

• • •

A very successful and pleasant afternoon tea was held yesterday at the home of Mrs. A. O. Phillips, Antrim street, under auspices of the Queen Alexandra Home and School Association in aid of the relief fund of the society. Decorations were carried out in the school colors of black and gold, and the table was very pretty with a central silver basket of marigolds on a mirror reflector, and gold and black candles in silver holders. The guests were received by Mrs. Phillips. Tea was poured by the president of the association, Mrs. H. H. Graham, assisted by Mrs. Ray Morrow and Mrs. H. Tremain. During the afternoon, a very pleasing musical program enhanced the interest of the entertainment, with piano selections played by Donald Ross and Mrs. W. P. Purdy, who also played accompaniments for vocal solos by Mrs. C. H. Saunders.

• • •

Dr. and Mrs. F. C. Neal have been called out of the city owing to the illness of Dr. Neal's mother at Walton Ontario.

• • •

Mr. and Mrs. C. Robinson of Westcott street left on the midnight train last night for Montreal, enroute to St. John's, N.B., where they will embark to-morrow on the Duchess of Bedford for Liverpool, England. Mr. and Mrs. Robinson are returning to Kidderminster, England, where they will make their home in future.

• • •

The friends of Mr. Donald O. Lavis, B.A., formerly of Peterborough, will be interested in the announcement of his graduation from the Presbyterian College at Montreal. The Rev. Mr. Lavis who will be inducted shortly in charge of the Presbyterian churches at Asbestos and Dannville, Quebec, was formerly in charge of Chalmers Presbyteran Church at Alliston, Ontario.

• • •

Mrs. F. Hooper, Dublin street, returns this evening from Hamilton, where she represented the Peter-Robinson Chapter, I.O.D.E. at the Provincial meeting of the Order, commenceing yesterday and continuing to-day and to-morrow.

• • •

Mr. E. J. Hogan of Regina, Sask., is the guest of his sisters, the Misses Hogan, Hunter street.

• • •

Miss Betty Isbister has returned from a business trip to Montreal.

• • •

Mel Leal of Bethune street and his Liftlock Mountaineers, a recently-organized local orchestra playing old-time dance music, will broadcast to-night at eight o'clock over Station CFCA, Toronto. This orchestra of seven pieces is conducted by Mr. Leal, who plays the Spanish guitar, while the personnel includes Vigo Dinesen, pianist; Tony Sidler and Harry McDonald, violins; Eric Gardner, banjo; Harry Whithouse, drums, and Jack Milburn, caller.

• • •

Mrs. B. W. Harvey, Sherbrooke street, is in Hamilton this week, representing the Otonabee Chapter I.O.D.E. at the Provincial meeting of the I.O.D.E.

• • •

Mr. Keith Lech was elected yesterday as one of the directors of the Furriers' Guild of Canada, at the annual convention held in Toronto. The newly-elected president is Mr. Charles Langley of St. Catharines, brother of the late Mrs. Langley McCarthy.

• • •

Mrs. Archibald Maclay-Hall, of Sandies Road, Buffalo, N.Y., has returned home after visiting her sisters, the Misses Hogan of Hunter street.

• • •

Friends of Mrs. M. Dignam of Toronto, who is well known in the city, will be interested in the announcement of a private view of an exhibition of her paintings at the Lyceum Club and Women's Art Association, Toronto, on Saturday of this week. The exhibition continues until April 30th.

New Wonderful Face Powder

Prevents Large Pores. Stays on Longer

For a youthful complexion, use new wonderful MELLO-GLO Face Powder. Hides tiny lines, wrinkles and pores. New French process makes it spread more smoothly and stay on longer. No more shiny noses. Purest face powder known. Prevents large pores. Ask to-day for new wonderful face powder, MELLO-GLO, that suits every complexion.

"Give the children the best to read." So says Laura E. Richards, whose word should carry weight as she is the author of a large number of books of fine and varied sorts—novels, poetry, etc.

• • • • • • •

There is a wealth of interesting stories which children will delight in if they are given the chance. The books do not "talk down" to their young readers.

• • • • • • •

Quite the reverse. They keep the minds alert and assume that youngsters are capable of using their intellects. This is gratifying to the young readers.

• • • • • • •

Nothing is more annoying to a child than to be patronized and some of the books which are written for them have a certain condescension in the way the matter is stated, or the story told, which jars on the child's conception of how he or she should be treated.

• • • • • • •

The age of a child is some criterion of ability to understand books, but not always. There are many children who are able to enjoy the stories told in Shakespeare's plays without having them adapted.

• • • • • • •

Legends stir the youthful imagination and they acquaint a child with the folk lore of different countries. They supply a background of national character since legends portray distinctive and elemental traits of peoples.

• • • • • • •

If parents are somewhat puzzled to find just what they would like to have their children read and have not sufficient time to pore over book counters to make selections, a wise thing to do is to confer with the librarian of the child's section of the Public Library.

• • • • • • •

The Librarian, no doubt, will have compiled lists with the titles of books and names of authors.

• • • • • • •

Help your children to get the best in literature and stories and what is suited to their needs.

Handy Recipes

By Edith Barber

MAPLE TARTS.

1 cup maple syrup
1 egg
2 tablespoons butter
1 tablespoon cornstarch mixed with one-quarter cup cold water.

Heat the syrup. Add the cornstarch and the beaten egg; cook up till thick. Add the butter and beat well. Line individual baking tins with plain pastry and bake until straw color. Fill with maple mixture, cover with maple meringue and brown in a slow oven (325 degrees Fahrenheit).

MAPLE "SHOOFLY" PIE

Line a pie tin with pastry rolled a little thicker than usual. Sprinkle plentifully with maple sugar, dot with butter and bake in a hot oven (450 degrees Fahrenheit) about fifteen minutes.

MAPLE PARFAIT

4 eggs
1 pint cream
1 cup hot maple syrup.

Beat the eggs slightly and pour on slowly the maple syrup. Cook until the mixture thickens, cool, and add the cream, beaten until stiff. Freeze in trays of automatic refrigerator or pack in salt and ice, using three parts of ice to one part of salt, and let stand four hours.

POET VISITS PERSIA

MARACHI, India, April 14.—(AP)—Rabindranath Tagore, noted Indian poet, left today by aeroplane for Persia where he will be the guest of the Shah. He will seek to strengthen the cultural link between India, Persia and other Asiatic countries.

GENERAL MAH CHANGES SIDES

Chinese Leader Who Helped Set Up Pi-Yu Now Opposes Regime.

COMMUNISTS ACTIVE.

SHANGHAI, April 14 (A.P.) — Despatches from North China and Manchuria to-day told of growing unrest against the new Manchurian Government of Henry Pu-Yi.

The new government was faced with problems which were steadily growing worse, the despatches said, and one of the latest of which was the defection of General Mah Chan-Shan, who led the Chinese forces in the Nonni River and Taitsihar battles, at the opening of the Japanese Manchurian campaign last fall.

General Mah later participated in the formtaion of the new government and was called a traitor in Chinese circles. To-day he was reported to have said he intended to oppose the new regime, and the despatches said he had established a headquarters at Blagovestchensk from where he planned a military drive against the Japanese in North Manchuria.

Reports from Harbin said Korean and Chinese Communists were assisting rebels against the Manchurian Government throughout the northeast part of Heilunkiang Province, of which General Mah has been Governor.

TITANIC SANK 20 YEARS AGO

Greatest Maritime Disaster in History Claimed 1,513 Passengers and Crew.

711 SURVIVORS LEFT.

NEW YORK, April 14. — The greatest maritime disaster of history occurred twenty years ago to-day when the Titanic struck ice and sank with 1,513 passengers and crew.

Newspaper fyles of the tragedy are shredding to dust, but the memory of it is undimmed in the minds of the survivors. They numbered only 711.

The Titanic was the largest ship afloat—60,000 tons displacement. It was built at Belfast for the White Star Line and launched May 31, 1911.

Its maiden voyage was its last. It left Southampton on April 10, 1912, called at Cherbourg on the same day and Queenstown on the next. In the afternoon it started for New York with 2,224 passengers and crew aboard.

Three days went by. The seas were calm and the passengers amused themselves by exploring the great ship, the last word in marine comfort.

Ot about 11:15 p.m. on Sunday, April 14, a lookout rang a bell thrice, a signal to the bridge that an object lay dead ahead.

Too Late!

The order was given: "Wheel hard to starboard!" The engines were reversed. Too late. The submerged portion of a treacherous iceberg slid along the bottom of the ship like a huge can opener, slitting its bulkhead and bilges.

There was a belief that the great Titanic was unsinkable and even when the order came for the passengers to put on life belts and come to the decks there was no panic.

Women and children were loaded first into the lifeboats, then men into available places. Some women refused to leave their husbands. They were drowned.

At 2:20 a.m., two and a half hours after the collision, the great ship went down, its captain at his post, the band playing "Nearer My God to Thee," the steam in the boilers hissing a ghastly farewell.

Nova Scotia produced 40.5 per cent of the tonnage of Canadian coal mined during 1931; Alberta 37.3 per cent; British Columbia, 15.3 per cent; Saskatchewan, 5.4 per cent; and New Brunswick, 1.5 per cent.

2 Days' Specials in Coats, Suits Dresses and Hats

NOTED BRITISH NOVELIST HEADS INTO LONELY ESTATE TO RETIRE

Will Practice Theory That Pure Laziness is Secret of Happiness.

WANTS NO INTRUSIONS.

NEW YORK, April 14.—Waving a permanent farewell to skyscrapers and busy people, John Cowper Powys, British novelist, left New York to-day to become a hermit and establish a secret Utopia.

Not even his closest friends know exactly where he has gone, except that what he call "My Arcadia," is an old abandoned farm somewhere in up-State New York.

Occasionally, he explained, he may come back to visit civilization, but he really wishes to spend the rest of his life in absolute seclusion, practicing one of his greatest theories—that pure laziness is the secret of happiness.

For most of his 60 years, the wiry, keen-witted writer-lecturer has been searching for a place to settle down and really live.

During the 27 years he has been in North America he has traveled to the most remote corners of the country, always looking. He has lectured 10,000 times (his 10,000th address last week marked his retirement as a lecturer).

But only recently did he find his "Arcadia."

Too Many Friends

"I love my native Derbyshire," he said, "but over there I have too many friends and acquaintances to live happily.

"In England, if I start out for a walk with a cane and my dog, I go only a few rods before I meet half a dozen other Englishmen with sticks and dogs.

"In my Arcadia I can walk for hours without ever seeing a man or a house. The nearest building to my farm is five miles away.

"I am snowed in all winter. For six months, no one comes to see me and I go to see no one.

I keep the location of my place a secret as other writers and artists won't seek me out. I hate artists' colonies. Greenwich Village may be all right, but keep it where it is.

"When I go for a walk I don't like human company. I have a dog, a cat and a cow up there. When I start out, the dog leads the way, the cat follows him, then I trail along, and invariably my favorite cow tags after us. It's a queer procession, but a happy one."

REAL RULER OF MONTE CARLO IS MYSTERY MAN OF EUROPE

Sir Basil Zaharoff is One of World's Richest Individuals.

IS 83 YEARS OLD

MONTE CARLO, Apr. 14 (Special to The Examiner)—There are so many of the world's notables on the promenade of a sunny morning that few people even glance at a smallish old man, buttoned to the chin in a pale gray overcoat, wearing his hat brim well down over the eyes to protect them from the glare, or possibly from prying strangers. Yet he is the chief owner of all the surrounding splendor, one of the dozen richest men in the world, in many ways the most powerful of them all.

He is Sir Basil Zaharoff, the "mystery man of Europe." He owns the controlling interest in the Monte Carlo Casino, and thereby is the real ruler of the principality of Monaco itself.

He was born eighty-three years ago of Greek parents in a little Turkish village. He was named Zaharias Basileois. Brought up in poverty, he had the good luck to get into a British missionary school and learn English. With that start he was always able to get a job. One of his early jobs was as a guide for tourists, hanging about the hotels of Constantinople.

Once Travelling Salesman

Through his knowledge of Oriental languages he got employment later as travelling salesman for a British arms manfuacturer. He travelled throughout the Balkans and Near East selling rifles, cannons and even submarines to small governments who were planning or fearing wars. He sold a British-made submarine to Turkey years before any of the great powers had adopted that weapon.

Eventually he became head of the biggest arms house in Britain, if not in the world. He formed an alliance with Hudson Maxim, the American inventor, to exploit the Maxim machine gun. When the Spanish-American war broke out Maxim sold guns to the American army and Zaharoff sold them to the Spaniards.

There were plenty of wars in the next quarter century—wars in South Africa, the Balkans, the Far East, the Near East—and Zaharoff by 1914 was immensely prosperous. Between 1914 and 1918 he made money so fast that he could not count it. Probably he does not know to-day how much money he has amassed, and it is quite possible he does not care.

His One Known Romance

As a young man he was extremely handsome, with his large dark eyes and olive tint. Women pursued him, but it is not on record that he ever formed a lasting sentimental attachment until he met the widow of the Spanish Duke of Marchena. Alas! she had remarried.

But while awaiting with Oriental patience the demise of her second spouse, Zaharoff was not entirely wasting his time, for it was through the lovely Duchess that he secured his profitable contracts with the Spanish government. He married her in 1924, at the age of 75, but she lived only two years.

The whole mystery of Sir Basil Zaharoff may never be cleared up. Comparatively few people know him at all, nobody can boast that he knows him intimately. Such fragments of his hidden career as can be pieced together show strange international relationships.

A glimpse of the secret hand of the British Intelligence service is caught now and again at critical moments in his life. Some say he is the real head of the Intelligence service, but nobody can prove it, because probably not more than a small percentage of the British Cabinet itself knows who are the real chiefs of that curious organization.

His Is English Knight

Sir Basil is a Knight of the Bath, most exclusive of all orders of knighthood. He is also one of the few men outside of high public life (monarchs, chiefs of state, eminent diplomats) to have been awarded the dignity of Grand Cross of the Legion of Honor. Nobody knows why he was selected for this distinction. Nobody knows, even what his nationality is—he of course renounced the Turkish nationality under which he was born. Presumably, his British knighthood confers the privileges of a British subject on him.

He strolls in the sun at Monte Carlo. People who come here to pour their money on his gaming tables pass him by without even knowing who and what he is.

Still Young At Seventy-Five

DR. ROBERT JACKSON

To many of us the most alluring advertisements run by the Life Insurance Companies are those headed "Retire at 65." Most men have some idea of that kind in their head. Not so, the genial Dr. Jackson, now in his 75th year and laying plans for years and years of work. In fact a fortnight ago he completed additions to his plant, increasing its capacity by 150%—and now occupies one of the most attractive offices in Toronto.

It is the same Roman Meal which is the basis of Dr. Jackson's Roman Meal Bread, which is baked in Peterborough exclusively by Purity Bakeries, Limited.

LIFFORD LINE.

Mr. Norman Neals of the Bank of Toronto staff at Bethany, is holidaying at the home of his parents, Mr. and Mrs. James Neals.

Mr. and Mrs. Douglas Driver and family of Toronto, were week-end guests of Mr. and Mrs. Gervin Mulligan.

Mr. and Mrs. C. E. Staples visited relatives at Millbrook on Saturday.

Mr. and Mrs. Fred Revoy, Peterborough, were Sunday guests at the home of the latter's parents.

Mr. Willis Whiteside motored to Omemee on Sunday, returning on Monday evening.

Those from here who attended the party in Bethany on Monday evening in honor of Mr. and Mrs. Rex Dawe, included Jack and Norman Neals, Thomas Staples, Thos. Mulligan, George Tims, Clarence Page, and Harry Pearce.

European women in Egypt are becoming expert camel drivers.

PEACE GARDEN BEING HELD UP

Group in North Dakota Block Proceedings to Further Own Interests.

TAKEN TO SENATE.

(By Ken Clark, C.P. Staff Writer)

WASHINGTON, April 14—Apparently a number of persons are going about here crying "peace, peace," when there is no peace.

The bill to establish the Waterton-Glacier International Park on the border between Montana and Alberta to stand as a symbol of peace between Canada and the United States, has been temporarily blocked by groups interested in establishing an international peace garden in North Dakota on Turtle Mountain.

Representative Thomas Hall of North Dakota told the Canadian Press to-day he had not talked with Senator Frazier except on the telephone about the Senator's move in having the Waterton-Glacier international park bill held up. Hall explained the peace garden to be established within thirty miles of the geographical centre of the continent, had been under construction for years. The idea had been mooted by horticulturists and florists of the United States and Canada as early as 1919. "It was suggested instead of putting up monuments to peace of cold marble or stone, it would be a fine thing if they could get together to make a landscaped garden, wherein flowers and shrubs would be a lasting, living memorial."

Representative Scott Leavitt of Montana, who steered the Waterton-Glacier Bill through the House, said he has not discussed its delay in the Senate.

Senator Frazier said: "The organization that is backing that measure (the peace garden) has asked me to request this bill be held up....as they are afraid action will affect detrimentally the proposal to establish a peace park or garden in North Dakota.

WOMEN everywhere are certain of the unequalled protection offered by Kotex—and Kotex alone. Made in air-washed rooms; of tested materials; inspected 76 times before it is cut, folded and packed in hygienically sealed, dust-proof packages — all by machine!

No question mark hovers over genuine Kotex. No incessant doubt as to how it was made, where, under what conditions.

Soft, Comfortable

Kotex provides perfect comfort—downy softness . . . even the gauze is specially treated to make it amazingly soft. Wear it on either side with equal safety. Easily disposable, of course.

The fact that Canada's leading hospitals use millions of Kotex pads each year is reason enough for you to feel secure when you select Kotex.

In every refinement of detail Kotex offers you such comfort—such security, that it will pay you to make sure, when buying it wrapped, that you *do* get Kotex.

INCONSPICUOUS . . .
1. Kotex is inconspicuous, even when you wear your closest fitting gowns.
2. Kotex is soft . . . even the gauze is treated to make it amazingly soft.
3. Kotex is worn on either side with equal comfort. No embarrassment.
4. Disposable . . . instantly, completely.

HOLSTEIN CLUB NAMES OFFICERS

Dr. Reynolds Addresses Victoria County Group on Co-operative Packing Plant.

FARMERS' WAY OUT.

LINDSAY, April 14 (Examiner Correspondence). — At a meeting of the Victoria County Holstein Club held here yesterday, Dr. Reynolds, former president of the Ontario Agricultural College, was the chief speaker. During the course of his address he stated that a project was now under way to form a co-operative pork packing plant, combining the six counties of Northumberland, Durham, Peterborough, Hastings, Victoria and Ontario. He further stated that Lindsay looked to him as the logical centre for such a plant. Farmers in a great many counties are behind these projects. The speaker is an authority on co-operative farming, and gave the meeting figures to prove that the producer at the present time is not getting his share of the consumer's dollar. He pointed out that if the country is to rise out of depression, farmers must get their share, and the only way to get it, was to go after it themselves by turning their attention to marketing their own products co-operatively. Officers of the club were elected for the year.

Yesterday morning the Haliburton train left Lindsay with some fifty tons of machinery, including equipment necessary to delve 1,000 feet in mother earth. This equipment, which was valued at $30,000 will be hauled by truck from Haliburton to the Canada Radium Mines, Limited, property at Wilberforce. A staff of men is at present engaged, preparing the shaft, putting up shelters, etc. Experts agree that the property was well worth developing on an extensive scale, as there were true fissure veins running right across the 750 acres of the holding.

The town auditor in his annual report to the Council recommends a home garden plan for local indigents, and also the fitting observance of the seventy-fifth anniversary of the incorporation of the town.

The Relief Association has asked the Council to plow, harrow, and seed vacant lots in town, provided the unemployed want to work their own gardens this summer. The idea was approved of and a committee was appointed to make a survey of the lots.

Mr. William Driver, of Peterborough, petitioned the Council to allow him to start a taxi business in Lindsay, employing local labor. His request was turned down.

PISTOL DUEL FATAL.

OSUNA, Spain, April 14 (C.P.).—One syndicalist was killed and two wounded seriously when strikers, sympathizing with the bakers' strike here, fought a pistol battle with civil guards last night. The strikers sought to liberate arrested members of the strike committee. Three civil guards were slightly wounded.

Oakville Funeral Undertaker On Trial At Milton

Considerable interest is being shown in Oakville and Halton county in the trial at Milton, April 12, of Stanley S. Russell, prominent and highly esteemed funeral director, resident in Oakville. The complainant is Sylvia Boyd, domestic in the home of Rev. E. O. Seymour, pastor of St. John's United Church, Oakville. Defendant is a former officer and present member of Knox Presbyterian Church, Oakville. ABOVE are shown: (1) Rev. E. O. Seymour; (2) Miss Boyd, the complainant; (3) Arthur Slaght, K.C., defence counsel; (4) Stanley S. Russell, the accused, photographed at the opening of the assizes; (5) D. O Cameron, associated with Mr. Slaght, in the defence, and (6) L. M. Frost, K.C., of Listowel, special crown prosecutor. LOWER RIGHT another photograph of the complainant as she appeared at the opening of the trial in Milton on Tuesday.

BURDOCK BLOOD BITTERS

Had Thirteen Boils On His Neck

Mrs. H. V. Duncombe, Grassy Lake, Alta., writes:—"My husband was covered with boils, having as many as thirteen on his neck at once. He tried everything possible, but nothing did any good until he took Burdock Blood Bitters, and before he had used one bottle the boils were all gone, and he has not been bothered with them since."

For sale at all drug and general stores; manufactured, for the past 52 years, only by The T. Milburn Co., Ltd., Toronto, Ont.

PILES ALL GONE

Without Salves or Cutting.

Itching, bleeding, protruding piles go quickly and don't come back, if you remove the cause. Bad blood circulation in the hemorrhoidal veins causes piles by making the affected parts weak, flabby, almost dead. Salves and cutting fail because only an internal medicine can actually correct the cause of piles. Dr. J. S. Leonhardt discovered a real internal Pile remedy after prescribing it for 1,000 patients with success in 960 cases. he named it HEM-ROID McDermid & Jury Bond's Drug Store says one bottle of HEM-ROID Tablets must end your Pile misery or money back.

England now has nearly 1,600,000 motor vehicles.

MUSIC FESTIVAL HELD NEXT WEEK

Arrangements Have Been Completed for Kiwanis Music Festival.

ENTRY LIST LARGE.

Arrangements have been completed for the Kiwanis Musical Festival to be held in the hall of the Conservatory of Music on Monday and Tuesday of next week. The committee in charge is quite encouraged by both the number and character of the entries. Besides many contestants from Peterborough and vicinity, applications have come from Gananoque, Kingston, Belleville, Tweed, Cobourg, Orono, Toronto, Hamilton, Uxbridge, and Stratford. Since the chief purpose of these festivals is to encourage interest in the study of music, it is gratfying to note the number of young people who are interested, particularly in the classes for piano and boys' unchanged voices. The public will be welcome to listen in to these contests.

As adjudicators, the club has been fortunate in securing W. H. Hewlett, principal of Hamilton Conservatory of Music, Peter Kennedy, Toronto Conservatory, and Miss Emily Tedd, supervisor of music in the Toronto schools.

Through the courtesy of Charles Saunders, the beautiful shields which will be presented to winners, will be displayed in the window of the Richard Hall Store.

On Wednesday evening, April 20 the gold medallists and shield winners will give a concert in Trinity United Church at which the prizes will be awarded.

The following is the program for the contests:

Monday afternoon—Piano (open) Violin (open), Junior String Quartette, Vocal (girls under 17), School Choirs.

Monday evening—Church Choirs. Boys' Choirs. Vocal Quartettes.

Tuesday morning — Boys' Unchanged Voices, and Violin.

Tuesday afternoon—Piano (Junior Classes), Trombone Solo, Clarinet Solo.

Tuesday evening— Soprano, Contralto, Tenor, and Baritone Solos, etc.

NEW OWNER WILL MAKE SURVEY OF ST. KILDA

Earl of Dumfries to Repair Houses and Protect Birds on Island

Edinburgh, Scotland.—The Earl of Dumfries, the new owner of the now deserted Island of St. Kilda, is considering a holiday there this summer. With this end in view, according to reports, he is sending a special representative with the first vessel sailing to the island, there to make a thorough survey and report on the extent of repairs necessary to make the manse and "Tigh Mhor" (big house of the factor) habitable.

A firm of Edinburgh estate agents, acting on behalf of the young earl, are considering the appointment of a watchman, whose principal duties will be the preservation of the island's vast colonies of sea birds from the raids of trawlermen and tourists.

The earl's representative has also to report on the state of the war-time wireless station, with a view to having this once more equipped and able to transmit messages to the mainland.

The ship Hebrides, which will carry the agent of the new prporietor to the island, will also carry representatives of the old islanders in the persons of Messrs. Alexander and Neil Ferguson, the former of whom acted as representative on the mainland of the islanders for the long period of 40 years, while the latter was postmaster at St. Kilda for upwards of 20.

As most of the islanders are anxious to maintain their connection with their old home, special representation has been made to the Earl of Dumfries to continue the lease of their cottages and crofts. Some of them apparently believe that the forces which brought them to the mainland may one day place them back on the island.

Spring Inspires Street Musicians

Lots of Englishmen Have Even Become Good Bagpipe Players

London.—Spring and economic pressure are producing an excess melody in the main thoroughfares largely responsible for this development in London and other big cities.

Because of the aliens' restrictions act the number of musicians is not swelled by German bands or continental organ grinders, but there is nevertheless a surfeit of home talent. This army of street musicians includes some impostors, and those just capable of making enough sound to escape prosecution as mendicants, but the fact that on two occasions in recent months a number of the street performers were given a very profitable opportunity to be heard from the Savoy Hill station of the British Broadcasting Corporation indicates that hard times have turned considerable talent on to the sidewalks.

Strangely enough depression has resurrected a lot of bagpipes, though only a confirmed Sassenach would argue that this suggests an increased degree of unemployment in London's Scottish population. There are many Englishmen who have acquired proficiency with this instrument, though they may not brag about it, and some of the real artists are to be found in the Welsh mining villages.

TELEPHONE TO BERMUDA

The transatlantic wireless telephone service has been extended to Bermuda—the charge for a three-minute call being £7 4s.

The occasional occurence of goitre among fish is due to insufficient iodine in the wate.

A Sedate Stowaway

SIAMESE CAT CIRCLES WORLD

Emmelina Ponjola, sophisticated Siamese cat, after trotting her nine lives around the globe, was photographed aboard the Empress of Britain with her keeper. A frantic search was made all over the boat when the cat's own owner came over from England last year, but the ship was well away on its world cruise before the feline was found aboard—a sedate stowaway.

Official records show that the poultry population of Canada has doubled each ten years during the period of the past thirty years. Each succeeding period of low prices for farm products finds the poultry flock coming to the farmer's rescue. At the present time it can easily be shown that the poultry flock properly bred, housed, and looked after is, from the standpoint of capital investment and feed cost, one of the best paying lines of farm effort. Each succeeding year appears to make it more clear that the farm is the logical place for the development of the poultry industry with respect to both egg and meat production. The farm flock is a useful medium for the marketing of otherwise unsaleable products in the form of eggs and poultry meat. Banks and loan companies find the farm which has a poultry flock a much betetr risk than the one which has none.—Department of Agriculture, Ottawa.

Extensive Room For Expansion

A statement just issued by the Dominion Live Stock Branch with respect to testing and production of dairy cows is of special interest at this time. It shows that there is in the whole of Canada a total of 63,336 cows out of an aggregate of 3,683, or only 1.72 per cent, now under official test. Cow testing in Ontario, Saskatchewan, and British Columbia is now carried out under the supervision of the provincial Department of Agriculture, while in the other six provinces the federal Department is carrying out the work. There are at the present time a total of 447 associations in the several provinces engaged in carrying out this form of activity.

Bladder Weakness Troublesome Nights Swiftly Relieved

If you are troubled with a burning sensation, Bladder Weakness frequent daily annoyance, getting-up nights, dull pains in back, lower abdomen and down through groins—you should try the amazing value of Dr. Southworth's "Uratabs", and see what a wonderful difference they make! If this grand old formula of a well known Physician brings you the swift and satisfying comfort it has brought to dozen of others, you surely will be thankful and very well pleased. If it does not satisfy, the druggist that supplied you is authorized to return your money on first box purchased. This gives you a ten-day test of "Uratabs" without risk of cost unless pleased with results—so, if you would know the joys of peaceful, restful sleep and a normal, healthy bladder, start the test today. Any good druggist can supply you.

FIVE BANDITS SLAIN.

ASUNCION, Paraguay, April 14.—(C.P.).—Five members of a gang of bandits, including the gang's leader, Sindulfo Garcia, were killed, and several wounded, when they were attacked by Brazilian troops near the northern Paraguayan border, according to despatches to the newspaper El Diario to-day.

Famous Home Economist Tells why the New Pontiac Six is Chief of Values?

IN THE opinion of Miss Frances Thompson, conductor of the Peterborough Examiner Cooking School the new Pontiac Six answers every conceivable demand of the feminine motorist. She herself drives a new Pontiac here, and speaks not only from her own personal experience but from the impressions of a host of women with whom she has come in contact throughout Canada.

Pontiac, you know, is uncommonly easy to handle — thanks to syncro-mesh transmission. Free-wheeling provides a new driving thrill and enables you truly to judge the smoothness and quietness of this big car.

Add to its many notable new features, the modern beauty of Fisher bodies, economy of operation, long, trouble-free life, new lower prices—and you can understand why Pontiac is known as the Chief of Values.

See this fine Six at our showrooms today. Take advantage of your visit personally to drive Pontiac.

Toronto Leafs Lose Newark Game in 10th Inning

DALYMEN FAIL TO HOLD 4-RUN LEAD AND BEARS COP 6-5 WIN

Cantrell Goes Route for Toronto Against Three Opposing Pitchers.

12,000 IN ATTENDANCE.

NEWARK, N.J., April 14. — Guy Cantrell, ace righthander of the Maple Leafs' pitching corps, hurled great ball for eight innings against the Newark Bears here yesterday afternoon, but the four-run lead his teammates provided over that stretch was not sufficient to enable him to score a victory.

Home Run With Bases Full.

The Bears, extremely docile until then, blazed four runs across the plate in the ninth inning. A home run blast into the left field bleachers by Andy Cohen, with the bases full, melted the Toronto lead and put the home team back in the ball game, which they won 6 to 5 in ten innings.

Some 12,000 fans braved the wintry chill of a strong sou'-wester to see the start of this opening game in the International League, but less than half of them saw the Bears put on the flaming finish that reduced to ashes a Toronto bid for an inaugural victory.

It was a heartbreaking defeat for the Leafs. They had looked so good until the ninth. They had the ball game right in their grasp and had outplayed the Bears so thoroughly that Newark fans, chilled to the bones and convinced that the Bears were beaten, began leaving the park before the seventh inning was completed. Few more than 5,000 stayed until the end and they were just as much surprised as the Bears and the fans who had left early must have been when they heard the final score, at the outcome.

Not Baseball Weather.

It was no day at all for baseball. Even a football crowd would have been uncomfortable under the conditions. But it was as fine a ball game as one would wish to see in mid-season and, despite Newark's victory, the Leafs looked like the better team.

Handicapped by wet and cold weather for a major part of their spring training, the Leafs arrived here on Monday night far from ready for the opening of the league season. But they gave no indication of it yesterday. The Bears, who have been beating major league teams with regularity in their pre-season exhibitions, were conceded an easy victory yesterday, instead, they were extremely fortunate to win.

Although Cantrell was touched for thirteen hits, several of them were scratchy and were largely due to the soft condition of the diamond, which made for slippery footing. Eight of the thirteen hits came in the first four innings and only produced one Newark run. From the fourth until the ninth Cantrell didn't allow a hit. He seemingly had everything needed to inflict defeat upon the Bears.

Red Wings Take 4-3 Win From Skeeters

JERSEY CITY, N. J., April 14.—Approximately 8,000 fans shivered through a ten-inning inaugural battle here yesterday and saw the International League champion Rochester Red Wings lift the season's lid by eking out a 4-to-3 decision over the Jersey City Skeeters.

Charley Wilson's triple, with Joe Kunes on third base in the tenth, was the winning wallop. Kunes accounted for all four of the Rochester runs, batting in Town, besides scoring two. He had a home run and a double. Wilson led the hitters with a triple, double and a single in five trips to the plate.

MONTREAL ROYALS LOSE OUT IN 10TH

Poole's Single Drives Winning Run of Reading's 5-4 Victory.

READING, Pa., April 14. — Jim Poole's single in the tenth inning, after Partridge and F. Bennett walked, broke up the Reading-Montreal contest when Partridge tallied the winning run to beat the visitors 5 to 4, in the opening contest of the International League season here yesterday. The weather kept the attendance to about 3,500.

If she's going to be so cool---you be cool, too!

VETERAN PLAY FEATURE PART IN THE MAJORS

Frisch's Double Scores Winning Runs as Cards Rally for 9-8 Victory.

REDS LOSE OUT 3-2.

Cleveland Cops 6-5 Win From Tigers in Eleven Innings Battle.

(By Associated Press)

Where the rookies were shining in baseball training camps a few days or weeks ago, the old established players are shining now in the first few days of the major league campaign.

Perhaps they feel that with the reduced player limit, reduced salaries and generally tough going on all sides they have to be good to hold their jobs this season. But no matter what thee cause the veterans are in there, showing their best right from the start. On Monday in the curtain raiser at Washington it was Heinie Manush, in his tenth season in the American League, who took the honors. Tuesday Babe Ruth, a man of 18 big league summers, was the star. And yesterday Manush was back in the limelight along with several other veterans.

The other "big guns" who helped entertain the few shivering fans who saw the games of the season's second full day included Frank Frisch, who has had 13 seasons in the big leagues since he stepped out of college into a regular job in 1919, Pat Malone, big pitcher of the Chicago Cubs, an established star who is not far short of 30 years old, Al Thomas of the White Sox, who has been around a few years longer, and Lloyd Waner, somewhat younger but a veteran of five campaigns.

Manush performed the day's leading feat and by doing it gave Washington a 7-6 victory over the Boston Red Sox. What he did was wallop a home run in the ninth inning with two on base to top off a four run rally.

Old Frankie Frisch, still as sprightly as ever, did something on the same order, clouting a double with two on base to provide the champion St. Louis Cardinals with the runs that downed the Pittsburgh Pirates 9-8. The Cards had to score five times in that final rally after Pittsburgh had made three runs in the ninth. Lloyd Waner starred in the game with three doubles.

Cubs Win, 3-2

Malone, warming the chilly air with his famous fireball, got the better of Owen Carroll of Cincinnati, in a neat mound duel and gave the Cubs a 3-2 victory. He allowed six hits and fanned five while Carroll granted one more blow and fanned one less.

Thomas performed less sensationally on the mound but he pitched a steady game and received some great support from the White Sox both at bat and in the field. Although outhit 12-9, the Sox bunched their blows effectively and had no trouble making it two straight over the St. Louis Browns, 7-3.

Wesley Ferrell, younger than the rest but rated as one of the best of the American League's star pitchers, performed another feat worthy of note in the only other game that was played. He pitched eleven full innings in weather so cold that it held the attendance at Detroits' first game down to 15,000 and came out ahead, 6-5 when Dick Porter and Earl Averill connected for singles in the eleventh and Johnny Hodapp slipped a sacrifice in between.

Cold weather stopped two games in the National League, where the Phillies were slated to play the New York Giants and Brooklyn was to play host to the Boston Braves, and one in the American which called for the New York Yankees to play the Athletics at Philadelphia.

Bowling Notes

In the Inter-Alley Bowling League Tuesday night, the Duffus No. 1 team made a clean sweep of the three games and total pinnage at the Y.M.C.A. to capture four points, with the Knights and "Y" bowlers being blanked. The K. of C. No. 2 quintet took all four points over Duffus and the "Y" in the games played at the Duffus Alleys; while in Group 3, at the Knights of Columbus, the Duffus crew took three points, with the "Y" pin-spillers getting the other one. Only three players on the "Y" No. 2 outfit showed up, proving a big handicap in this group. Two more weeks' bowling winds up this loop for Groups 1 and 2, with Group 3 playing one week longer.

This is how they rolled their points, each player's three-game totals being listed.

Group 1 at the Y.M.C.A.:

Duffus No. 1

Hickey	738
Firth	688
Ranger	691
Sweetman	774
O'Connell	665
Total	3526

Knights of Columbus No. 1

Freeman	694
Delahaye	612
Morgan (2)	332
Primeau (1)	174
Gimblett	728
Curvin	745
Total	3285

"Y" No. 1.

Routly	615
Baptie	549
Jones	599
Lewis	693
Graham	566
Total	3022

Group 2 at Duffus Alleys:

Knights No. 2—Prindible, 633; Martyn, 544; Delahaye, 587; Martin, 637; Weese, 627. Total, 3028.

Duffus No. 2—Tracy, 559; Doris, 605; Geldart, 588; Moxon, 533; Thomas, 547. Total, 2852.

"Y" No. 2—Shine, 673; Robertson, 567; Ruiter, 510. Total, 1750.

Group 3 at the K. of C. Alleys:

Duffus No. 3—Scates, 532; Ahern, 531; Ridley, 565; Anthony, 601; Cupoli, 677. Total, 2906.

"Y" No. 3—Flemming, 607; Comstock, 440; Robertson, 627; Burnstein, 550; Westbye, 643. Total, 2867.

Knights No. 3—Earle, 536; Batterson, 467; Freeburn, 492; Montgomery, 467; Mowry, 583. Total, 2545.

Orioles Win Opener From Buffalo 6 To 4

BALTIMORE, Md., April 14.—The Baltimore Orioles defeated the Buffalo Bisons 6 to 4 in the opening game of the season here yesterday before a crowd of 3,000. Ferrell and Detore hit home runs for the visitors, while Packard walloped one for the Birds.

Buffalo made a bid for the game in the ninth inning when they put two runs across, and had the bases filled as the last man struck out. Richmond was withdrawn in this frame, and Tauscher went to the rescue.

Mary Ann Crabe, aged 86, has died at Hackney, England, from a fractured thigh, sustained in falling over a cat.

Victoria Methodist Conference at Melbourne, Australia, has passed a resolution barring women from the ministry.

Through the yield of herring inshore is high, the best fish are caught farther out to sea.

THREE TUESDAY NIGHT GAMES TO BE PLAYED HERE

Balance of Season's Schedule Will Be Held on Saturday Afternoon.

CO-OPERATE WITH MINORS.

Appointment of Manager Much Discussed—Arbitration Committee Formed.

A triple schedule with Peterborough getting three Tuesday night games and the remainder on Saturdays will be the recommendation of the local senior baseball club representatives at the annual C.O.B.L. meeting in Kingston the end of April. This was decided at an executive club meeting in the "Y" last night at which much preliminary work was taken care of by a fair turnout of members.

With the proposed triple schedule, the other teams, Cobourg, Belleville and Kingston would play here three times during the summer, with the Peterborough team playing three times in each of those towns. It was decided to have each team play one of their games here on a Tuesday evening giving merchants, their employees and others unable to attend Saturdays, an opportunity of seeing senior baseball. These matters will be put up to the league at the next meeting.

President Jack Bell opened the session last night, and after the minutes had been passed, threw the meeting open for discussion on the various business matters coming up at this time. Those present were in favor of reducing the price of season tickets, exclusive of playoffs, if the triple schedule is adopted. At any rate, the general admission price of thirty-five cents will carry no tax for patrons this season, the club absorbing that.

Co-opeerate With Minors.

An application will be made to the City to have the Peterborough Baseball Club take over the James Stevenson Park again this summer under the same provisions as last year, the senior organization to pay for caretaker and to co-operate with minor ball leagues in use of the park. The umpires' fees will remain the same as last year.

Following some discussion on an offer by the Galt Baseball Club, senior O.B.A.A. champions last year, to include this city in an exhibition tour before the season opens this year, it was decided to accept them if the Galt team will come here on a percentage basis instead of being paid a flat sum, which was considered too great a demand.

The question of a manager for the local team came in for much consideration. It was felt by some of the members that Max Swanston might be persuaded to reconsider his resignation of that position. One other name was brought up and it was finally decided to leave it in the hands of a committee of five who will appoint a manager within a few days. The committee was made up of Jack Bell, Vic Hamilton, Jack Sullivan, Bill Kay and Ed Riley.

In regard to a local baseball commission, or arbitration board consisting of two members from the senior club, two from the East Peterborough League and two from the city League, George Hewitt and Jack Bell were appointed to act for the senior organization. The six representatives will decide upon a chairman not connected with any body.

There was some talk of finances, grounds, assisting the City League, player prospects, umpires and various other matters, but nothing further was done at this time and the meeting was adjourned.

BASKETBALL AND BOXING

CASUAL COMMENT

They cleaned up a flock of business details at the senior baseball meeting in the "Y" last night, and once the manager is named things should be moving fast toward a fine season. Besides the good baseball talent throughout the city last year, there are several prospects who will try to make the team this summer. We should at least hold our own with Kingston, Belleville and Cobourg.

• • • • • • •

Fans here would no doubt like to see a classy pre-season game between the Petes and Galt, last year's senior champs, and they may yet. But not if the touring Galt outfit insists upon the sum they have asked. It's too much lucre and they'll have to agree to a split on the gate, or else....

• • • • • • •

If possible, the Petes' games will be on Saturdays again, but with the exception of three twilight contest to be held on Tuesdays, one with each of the C.O.B.L. teams. This was thought to be a good thing for those whose work would not permit them to take in Saturday games. It will be brought up at the Kingston league meeting the end of April.

• • • • • • •

Jack Bell and George Hewitt are to represent the senior club on the proposed local arbitration board which will consist also of two E.P.L. and two City League members, with an outside chairman. Efforts will be made to get this board together shortly and decide on various matters for the good of baseball in Peterborough this summer. Such a body should have been organized here years ago.

• • • • • • •

The City Baseball League will be more or less under the wing of the senior outfit this year, the latter assisting the minor loop in every way possible. And the local C.O.B.L. team is to be open to anyone able to catch a place, with younger boys as well as veterans welcome to the spring tryouts, players being signed on their merits.

• • • • • • •

Switching over to lacrosse, of the boxed variety, we were glad Harry Tudhope was re-elected president, there being no better worker for that game in the city than Harry. And Bud Fisher should make a good manager for the intermediate team with his experience and popularity. It looks as if four teams will make up a City League with games being staged at the Brock which will be fixed up for that.

• • • • • • • •

The unusually large crowd at the meeting last night points to a big season for this sport, a new and more thrilling version of the lacrosse an older generation played. The game should come back strong here as it was doing everywhere last fall. A number of hockey players are going to take it up and followers of the ice sport are quite likely to go for the seven-man gutted stick entertainment in a big way, too.

• • • • • • •

Fred DeCarlo, hard-hitting Italian, is to be Reg. Lesurf's opponent in the Alpha Club show semi-final bout to-morrow night, and it promises to be a real old battle. The boys are welters, both being fast and shifty and carrying kayo punches. Roy Hope and Jack (Red) Chamberlain headline the all-local card in which boxers from the Alpha, Foster, and Pioneer Clubs will be seen in action. Seven bouts in all.

• • • • • • •

Besides those four, some of the other mittsers to take part are Danny and Earl Harrington Hank Noakes, Jack Gardner, Tommy Heffernan, Tip Anderson, Jack Watson, and two good curtain-raisers. The program opens at 8.30 to-morrow evening in the Legion Hall, and followers of the local "simon pure" scrappers may be assured of plenty of action.

• • • • • • •

Art Hunter lost to Brian McClaren in Toronto last night, Art going into the ring with a bad cold. This is no alibi, as the local boy was actually sick in the first round which he won on points. His opponent lost out in the finals to Sammy Spring. The day previous, Ned Minicola lost by a narrow margin on points to the classy 147-pounder, Corporal Patrick, who beat Pidgeon and then last to Carnegie.

• • • • • • •

Tony Minicola made the best showing of the Peterborough boxers, putting up a whale of a scrap against the Ontario champion, Billy Hughes, who had it over Tony on both reach and experience. Hughes lost out last night to Ray Cook by a kayo in one round, but ringsiders all claimed he was fouled by the knee. Larraway lost to Carnegie, and Paul Amato took the middleweight class once again.

ADVERTISE IN THE DAILY EXAMINER

PETERBOROUGH WILL HAVE BOX LACROSSE TEAM

Campbellford and Norwood Combines Will Likely be in Local Group of New Game.

SPONSOR CITY LEAGUE.

Hary Tudhope Elected President at Annual Meeting of the Club.

Harry Tudhope was re-elected president of the Peterborough Lacrosse Club at the annual meeting last night in the board room of the Chamber of Commerce.

The members thrust the position of vice-president upon Nelson (Pete) King, declining to let him retire altogether to the task of running King's Hotel.

Fred Shaw was nominated for the duties of secretary-treasurer ,succeeding Doug Miller, and it is hoped that he will accept this responsible position.

The executive is composed of Arnold Hatton, Walter Perks, Ira Dundas and Fred Goodfellow.

Last night's meeting was quite largely attended, the successful season of 1931 winning the active support of a lot of the old followers of the game, and enlisting new recruits who are willing to get behind the game and help to put it over this year in the abbreviated form that has come to be known as "box lacrosse."

Doug Millar in his financial report showed a credit balance of seventy-eight cents. This was regarded as a real achievement in keeping out of the red, and speaks volumes for the player-management of last year, and the real efforts they put forth.

An Intermediate Team

The Club decided to concentrate on an intermediate team in the desire to make the best possible impression in launching the indoor game in Peterborough. At the same time they will give every possible attention to developing the game among the juniors and also in building up a city league. Jack Creighton reported the prospects of at least four teams lining up in a city league, and the executive would like to hear as soon as possible from any groups or clubs that intend to get into the city league.

This invitation is wide open, and any of the clubs that are considering the prospect of putting a team into the city league are asked to notify the secretary at once.

Bud Fisher was appointed manager of the team that is preparing to start in a district group of the intermediate division of the Ontario Lacrosse Association. Campbellford and the Norwood-Havelock combines are expected to turn out again, and other reported possibilities are Cobourg, Madoc with some talk of activity in Port Port Hope and Millbrook.

Peterborough gained some experience in the night game last year at Norwood and Campbellford, and in that respect are just as far advanced as the rest of the group. It is still early to talk of the probable line-up, but there have been some intimations that both Pete King and Doug Miller will not be out this year. However, when the snow folds up for keeps and the grass is greening they may change their minds.

Play at Brock.

Fred Goodfellow reported that the management of the Brock street rink is willing to put it in shape for indoor lacrosse.

Most of last year's team attended the meeting, and among the crowd was Pat Calladine who with some of the other hockey players has practically decided to test the thrills of lacrosse.

Another meeting of the Club will be called in the near future to consider the response of the city league idea, and also go ahead with the general plans for the season.

Jim Skinner declined to accept any office, but he assured the members that his interest in the game was just as keen as ever. He particularly congratulated the team upon its progress last year.

Yesterday's Stars

Frank Frisch, Cardinals—Doubled with two on in ninth to complete five run rally that beat Pirates 9-8.

Roy Johnson, Tigers—Touched Wes Ferrell for home run and three singles in six times up against Cleveland.

Pat Malone, Cubs—Held Reds to six hits and fanned five in mound duel with Owen Carroll, winning 3-2.

Heinie Manush, Senators—Clouted home run with two aboard in ninth to defeat Red Sox 7-6.

Lloyd Waner, Pirates—Combed Cardinal pitching for three doubles.

Dick Porter, Indian.— Made three hits against Detroit and scored winning run in eleventh.

CRICKET

A cordial invitation is extended to all members and supporters of the Peterborough Cricket Club to a social evening, to be held at the home of Mr. William Davis, 591 Division street, on Friday, April 15th, at 8 o'clock.

At this year's Eisteddfod at Llangeler, Wales, all the poetry prizes were won by women.

THEATRES

AT THE CAPITOL

"MICHAEL AND MARY."

This is a typically English production, with English locale, English technique, English manner of speech.

Edna Best is Mary Weston and Herbert Marshall is Michael Rowe, famous English novelist. They enter into a solemn marriage pact after Marys 'scoundrelly husband has decamped, leaving her flat and stony broke. Michael and Mary meet in the British Museum, in the year 1899, in that period when the English fought the Boers in South Africa, when ladies were decorous in long skirts and sailor hats and when London re-echoed with shouts of joy at the Relief of Mafeking.

During two happy decades which bring the action up to fairly modern times, their life is happy and unmarred, and then, when their son David is about to announce his engagement to a pretty damsel, the husband reappears. The finale is, perhaps, more dramatic than the beginning, with a very good actor in the rascally husband.

The comedy is "The Flirty Sleepwalker," a matter of fun and frolic in married life, and there is an entertaining, animated cartoon entitled "Kitty from Kansas City" with Rudy Vallee in person singing the score of a peppy, syncopated melody.

BURGESS BEDTIME STORIES

PADDY MAKES AN ANNOUNCEMENT.

There's time to play and time to work,
But never is there time to shirk
—Paddy the Beaver.

Most of the ice had disappeared from the two ponds of Paddy the Beaver. You know Paddy had two ponds, one above the other. He had built the second one, which was the upper one, when he brought Mrs. Paddy there to live. Their house was in the lower pond where Paddy had lived ever since coming to the Green Forest. The upper pond had been made to make it easier to harvest the food-logs for winter.

All winter Paddy and Mrs. Paddy had lived quietly with little to do but eat, sleep and take an occasional swim under the ice. It had been a long rest, but they had earned it and they knew it. None works harder or more steadily than do Paddy and Mrs. Paddy when there is work to be done. Could you see them in winter you might think them lazy, but that would be your mistake; there isn't a lazy bone in them. No, sir, there is no laziness in Paddy the Beaver or Mrs. Paddy.

It was good to see open water again and to be able to swim about with heads out in the air. They spent much time outside now, sometimes taking sun-baths on the roof of their house, sometimes sitting on one of their dams, sometimes going ashore to eat a young poplar tree for a taste of fresh bark, and sometimes just swimming about for exercise. It was still more or less a time with nothing special to do.

At last there came a day when Paddy returned from a lone trip around the two ponds. There was a gleam of excitement in his eyes and Mrs. Paddy saw it.

"What is it, my dear?" she asked.

"It is time," announced Paddy, "to begin spring work."

"What makes you think so?" demanded Mrs. Paddy.

"I have heard and seen and smelled the signs," declared Paddy.

"What signs?" asked Mrs. Paddy, pretending that she didn't know what he meant.

"The signs that warn that Sweet Mistress Spring is close at hand and that means that we must prepare for her arrival," replied Paddy.

"And what were those signs you heard, saw and smelled?" asked Mrs. Paddy.

"To begin with," replied Paddy, "I heard the soft whistle of Winsome Bluebird. I didn't see him for I couldn't tell just where that whistle came from. You know how it seems to come from nowhere in particular.

Mrs. Paddy nodded. "Go on," said she.

"At the same time I heard Welcome Robin calling "Cheer up! Cheer up! and way off in the distance I heard the voice of Peeper the Hyla, and you know that is a sure sign. Over on the edge of the Laughing Brook I smelled what I thought was the scent of Jimmy Skunk and went looking for him, for we haven't had a glimpse of him all winter.

"Did you find him?" asked Mrs. Paddy with some show of interest.

Paddy shook his head and chuckled. "No, said he, "I didn't find Jimmy for the very good reason that he hadn't even been there. But I did find that funny plant named after him, the Skunk cabbage, because its odor is so like Jimmy's scent, and it was in bloom. And if those signs are not enough here is something more, something important to us: the Laughing Brook is rising!"

At this announcement Mrs. Paddy was all attention. "Are you sure of that?" she demanded.

"Absolutely sure, my dear, replied Paddy. "There isn't the least doubt about it. The Laughing Brook is rising and that means that the water in our ponds will rise and that——"

"Means that we have got to look after our dams, interrupted Mrs. Paddy.

"That is just what it means," replied Paddy

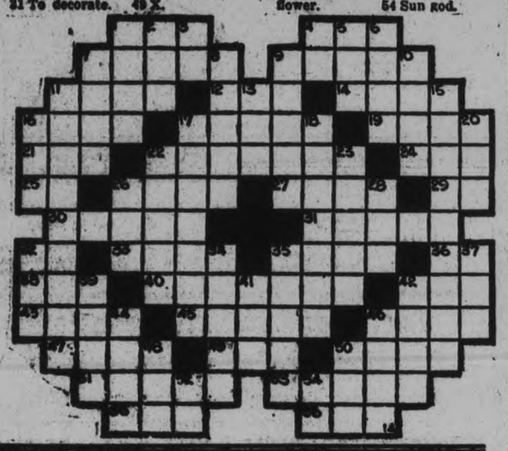
Answer to Previous Puzzle



YOUNG MOTHER

Driven to Distraction by Children

"You see," explained Mrs. Rogers sadly to her friend, "I'm never done, with three healthy children on the go all day, it's one continual strain and the washing alone makes me despair. No sooner do I put the children into clean clothes, than out they go and come back again black as tinkers."

Her friend listened to her patiently. "Ruth dear, you are foolish to worry yourself over such things. Children will be children and accidents will happen, so why not make the best of things and enjoy life instead of worrying about it."

Friend Solves Washday Problem

"There is no excuse for you to be wearing yourself out at the washtub. *Why don't you do as I do? First, I use a good soap. I'd advise you to use the brand I always buy—Pearl White Naptha. You'll find it a good practical laundry soap and a lot more economical than most. Soap your clothes and put them to soak overnight in cold water. You will find that, as the water temperature rises to the heat of the room, more dirt is loosened than would be if the water were cooling. In the morning, rinse your clothes thoroughly in warm water and you'll never have any more troubles with your wash."*

Thousands of women have learned this valuable laundry secret. Get the Pearl habit yourself—Pearl means efficient work in less time and at *less cost*. That's something to remember these days.

No. 2

Over 3000 cakes of Pearl Soap are used by Canadian housewives every hour

What To-Day Means To You

"ARIES"

If April 14th is your birthday, the best hours for you on this day are from 10:15 a.m. to 11:30 a.m., from 3:30 p.m. to 5 p.m., and from 9:45 p.m. to 11 p.m. The danger periods are from 7 a.m. to 8:45 a.m., and from 1:30 p.m. to 3 p.m.

Disappointments on the business side of life are augured for April 14th, probably through the non-materialization of promised financial aid; other avenues of assistance must be sought. Happy influences will affect the more personal and social affairs of life. Good for artistic and literary fraternities; new ideas will be born.

Children born on this April 14th will have quiet, unimpulsive natures, and although they will never "set the world on fire," they will most creditably take their place in the world. They will be sociable and of a good disposition, readily making friends and easily adapting themselves.

Born on April 14th you are a typical behind-the-scenes man or woman, happy to do your bit, in your own way, and preferring seclusion to the limelight. You do not have that genius for wide friendship possessed by many, but you will always have a few friends, both tried and true, who stand ready to share your joys and to lessen your sorrows.

You have a shrewd, quick brain, and a grasp of the serious affairs of the day in which you are keenly interested. You may not be a star performer yourself, but you are an enthusiastic praiser of star performances. People do not often talk over your head. Stubbornness is probably your most besetting sin; you had to admit either error or defeat, and are a mournful loser. You would prosper best in association with or under control of another. You are too shy and reserved to make a good leader, but you are unbeatable as an ally. You are good at unravelling details, and are not bored by routine duties.

You would make an ideal marriage partner for one who expects constancy, dependability and loyalty from their mate. You are extremely fond of home and children, and it is hard to drive you away from your own fireside, if it is a contented one.

(Copyright, 1932, The Bell Syn., Inc.)

ACHES SHOULD GO by 5TH HOUR
Musterole safe "counter-irritant," is often effective after first application and usually draws out muscular soreness and pain by 5th hour.
MUSTEROLE

Roseneath

The Trail Rangers will meet in the Town Hall on Friday evening at 8 o'clock. Rev. R. W. Paton will be in charge.

Mr. Gordon O'Connell and sister, Miss Doris O'Connell of Harwood were week-end visitors with friends in the village.

Mr. and Mrs. James Brown of Clarkson motored down and spent the week-end with her father, Mr. Joseph Robins.

The Epworth League meeting in connection with the contest between the young men's class and the young ladies' class of the United Church S.S. will be held on Thursday evening of this week. The judges, Mr. Davey, Mrs. A. J. Campbell and Mrs. Delbert Brisbin will be present and give their decision at the close of the meeting.

Dr. and Mrs. Bradley and family of Wellington were Sunday guests with his sister, Mrs. John Nichols and Mr. Nichol, also with the former's mother, Mrs. J. Bradley.

Documents recently found in Scotland show that in 1400 the penalty for the killing of salmon "from the feast of the Assumption of the Virgin 'til' Martinmas" was a fine equivalent to $35 for the first offense, and death for the third offense.

A plan of afforestation to extend over a period of 60 to 75 years is being advocated strongly for Saskatchewan as a means of permanently ridding the province of drought.

DECARLO MATCHED AGAINST LESURF

Alpha Show to Stage All-local Boxing Card on Friday Night.

Reg Lesurf's opponent in the semi-final of to-morrow night's Alpha Club boxing show at the Legion Hall will be Fred DeCarlo, chunky Pioneer A.C. welterweight. This match was definitely decided last night and both boys, who have been training regularly, are ready to go on. It will be a come-back fight for Lesurf, who was unbeatable around here a year ago as a lightweight. He returns after nearly a year's layoff tomorrow night and meets a tough, hard-socking fighter in Fred DeCarlo.

Both Roy Hope and Jack Chamberlain, finalists, are set to go, the more-experienced Chamberlain of the Pioneer Club being confident he can outbox the flashy Hope, who can hit hard with either mitt. They are lightweights and both have quite a local following of fans.

Hank Noakes faces a tough rival in Jack Gardner, 145 pounds. Jack keeps on top of a fighter all the time, throwing leather hard with both dukes. Noakes is the better ring-general, and he can also sock, so it should be a tough tussle. Earl Harrington and Tommy Heffernan will put on a lively scrap, but it is not certain who Danny Harrington's opponent will be yet. Tip Anderson and Jack Watson have been matched in what should be a fast, exciting preliminary, following two popular curtain-raisers' performance. Complete program will be published before the fights to-morrow night.

M. CHAPMAN HEADS SOUTH-END LEAGUE

William Taylor Donates Trophy for Season's Competition.

At a meeting of the South-End Softball League, held last night, William Taylor was elected honorary president, and M. Chapman, president of the league.

It was announced at the meeting that Mr. Taylor is going to donate a cup to the league, to be presented to the winning club at the end of the season. This announcement was met with great approval, as it will create more interest in the league and should stimulate the different clubs to greater efforts during the playing season. Many thanks to Mr. Taylor for the cup.

It was decided to play all scheduled games on the softball diamond at the Exhibition grounds.

Any club wishing to enter this league will have to make their entry before May 1.

Bowling Notes

The cream of the pin spillers in the C. G. E. Engineers Bowling League tangled in the final playoff series this week at the Duffus Alleys when the Engineers humbled the hard working Test Men by a decisive margin in three games. The battle was rather evenly contested until the Engineers hit the home stretch in the third game and piled up a total which smothered the hopes of the Testers and thereby avenged the defeat which the Engineers suffered at the hands of the Test in the annual hockey duel. Osterland was the mainstay of the winners with a triple total of 802 which included a single of 320 while his team-mate Burgess was well up with 731 in three games. Bruce Munro led the attack for the Testers with 625 while Vic Rutherford despite a vigorous evening of traffic directing, secured 638.

The following are the scores:

Engineers

Langley	96	166	200—462
Burgess	252	237	242—731
Gore	245	152	208—605
Lawrence	207	218	183—608
Osterland	260	222	320—802
	1060	995	1153 3208

Substitutes: McRae, Kunst, Tracy and "Shovel" Moxon.

Main Test

E. Thomas	158	165	190—508
Geldart	179	255	180—614
Foster	137	192	174—503
Rutherford	180	244	199—623
Munro	193	216	216—625
	844	1072	959—2875

The number of new automobiles on French highways is increasing this year.

BERT McLEOD HOME FROM KANSAS CITY

Played in Every Game With His Team in the A. H. A.

After another successful season with the Kansas City team in the American Hockey Association, Bert McLeod arrived home last night, accompanied by Mrs. McLeod.

A little heavier, in spite of the fact that he played in every game of the long schedule and also the Kansas City play-offs with Duluth, Mr. McLeod is looking "in the pink of condition." He came through the winter series without an injury, but the team as a whole did not fare so well, having been frequently weakened by accidents to some of the players. These mishaps transferred more of the burden at times to the other players, and it was on this account that Mr. McLeod, whose team position is on the defense, was required to play in all the games.

He told The Examiner that the mid-Western loop had a satisfactory season, but may be rearranged to some extent for next winter. Because of the effect of the business slump in the old field territory, Tulsa may be dropped, with the prospect of St. Paul and Minneapolis getting franchises. General business in the mid-Western States has shown no material improvement, but the Spring was marked by considerable activity in the automobile market, and sales were quite encouraging.

Wilfrid Ranger, the other Peterborough member of the Kansas City team will not be home this summer, except for a short visit. He has gone into business in Kansas City, and his new enterprise will require all his time on the job. Mr. McLeod returns to take charge of his drug store at the corner of Park and Albert streets, which has been under the management of his brother, Cecil McLeod, throughout the winter.

Trail Rangers Plan Camp For Saturday

The Trail Ranger groups in the city will hold a camp in the Y.M.C.A. at 7 o'clock Saturday evening to which all Trail Rangers are invited. The purpose of the camp is to demonstrate the various parts of a Trail Ranger meeting, with each group adding something distinctive to the program.

James McClenaghan, of the Y.M.C.A., will give an exhibition of the fine arts of leather-crafting. Rev. C. Daniel will start a 3 C's campaign for the boys of the city, while Max Parnall will put some of the boys through the observation test. New group games will be introduced by Mr. McClenaghan.

A clean-up campaign for the city will be instituted among the boys at this meeting. There will be many other features of the grand that will demand the interest of every boy in the city.

Because Englishwomen have larger feet than their mothers and grandmothers, dealers have discontinued offering size 2 -12, which was fairly common 30 years ago, and say size five is the most popular.

Examiner's Scrambled Ad. Contest

10 GUEST TICKETS GIVEN DAILY TO SEE **Marlene Dietrich and Clive Brook** IN

SHANGHAI EXPRESS

Starting To-Morrow at the Capitol

THOROUGHBRED

This complete word is contained in one Classified Ad on this page. Rearrange the words, adding the missing words, and mail your answer to the Scrambled Ad. Contest Editor. By Edgar Rice Burroughs

(Metropolitan Newspaper Feature Service, Inc.)

At the sound of La's despairing words the ape-man moved his head and spoke to her: "No, I am alive! Come and release me. I am bound tightly and only Jad-bal-ja has saved me." With a joyful cry the High Priestess ran to do as Tarzan requested, but paused before the menacing attitude of the golden lion. "Down, Jad-bal-ja," commanded Tarzan, "let her approach."

At that, the golden lion lay down beside his master and stretched his wiskered chin across Tarzan's mighty chest. La came then, and picking up the sacrificial knife cut the bonds that held the lord of the jungle captive. Then she saw beyond the altar the silent figure of Cadj. "Your worst enemy is dead, La," said Tarzan, "and for your deliverance you may thank Jad-bal-ja, as I thank him for my life."

Bounding from the altar the ape-man gave La a smile that illuminated his handsome face. "You should rule now," he said, "in peace and happiness and in friendship with the people of the Valley of the Palace of Diamonds." That night there was great rejoicing. Tarzan and the Bolgani and the headmen of the Gomangani sat in the gorgeous banquet hall of Opar as the guests of La, the Queen.

Surrounded by the priests and priestesses arrayed in barbaric splendor, they ate from the golden platters of the ancient Atlantians, dishes that had been fashioned on a continent that exists to-day only in the legends of antiquity. Upon the following morning Tarzan and the golden lion were to set forth alone upon their return journey to the land of the Waziri—and home.

Neill's School Shoes

School days are trying days on footwear and parents are advised to inspect the large assortment of sturdy school shoes shown by "Neill". Careful selection of better leathers and styles combined with expert workmanship make these shoes both comfortable and dependable at prices much lower than in previous years.

Obituary

DR. D. N. CARMICHAEL.

The funeral of the late Dr. D. N. Carmichael will be held on Friday afternoon at 2.00 o'clock in the George Street United Church, following a private service at the house. Rev. J. E. J. Millyard and the Rev. Robert Pogue of Toronto will officiate. The service will be held under Masonic auspices and interment will be made in Little Lake cemetery.

MRS. ANNIE NEARY

The death occurred Wednesday evening in St. Joseph's Hospital of Mrs. Annie Neary, widow of the late Michael Neary. The deceased, who was born in this province, was 70 years of age. She is survived by one brother, William Yull of Sault Ste. Marie. The funeral will be held from Comstock's Funeral Home Friday afternoon at two o'clock to Little Lake cemetery, with the Rev. William McDonald officiating.

WILLIAM CARTER

One of the oldest residents of this district, William Carter, died at his home, 530 Bolivar street, to-day in his 81st year. Born in England, Mr. Carter had lived for 75 years in the district, farming for many years in Smith Township. He was a member of Knox United Church.

He is survived by his widow; two sons, William G., of Souris, Manitoba, and Arthur, of Fairfax, Manitoba; also one daughter, Mrs. E. Pacey, of Stratford.

The funeral will be held from his late residence on Saturday afternoon at 2 o'clock to the Little Lake cemetery. Rev. William McDonald of Knox Church, will officiate.

POISON EATEN BY RACER NOT SUFFICIENT TO KILL

SAN FRANCISCO, April 14. (CP) The Hooper Medical Foundation of the University of California reported to-day that Phar Lap, noted Australian race horse died of colic or acute indigestion.

Pathologists said a small amount of poison found in the stomach of the gelding would not have caused death.

The fatal condition, the report said, probably resulted from fermentation of food in the stomach, causing bloating or distention of the muscles of the heart and stopping that organ.

Pathologists said the horse was suffering from stomach ulcers.

Chemical analysis, they said, revealed two milligrams of a poison in the stomach—about the normal quantity to be found in the amount of green food Phar Lap had eaten. This amount should have been beneficial, the pathologists said.

NOW Is The Time To SAVE

SOCIETY PLANS ON ANNIVERSARY

George Street United Church W.M.S. Organized Fifty Years Ago.

ANNUAL BANQUET.

The regular April meeting of the W.M.S. of George Street United Church was held yesterday afternoon with Group C in charge of the program. The scripture lesson was read by Mrs. J. Beatty, and missionary leaflets were read by Mrs. G. S. Staples and Mrs. H. G. Walker. A very much enjoyed ladies' quartet was rendered by Mesdames Telford, Binks, Hepburn and Stevenson of Mark Street United Church Choir, with Mrs. W. A. Greenslade playing the accompaniment. Mrs. E. E. Harvey gave a very interesting synopsis of three chapters of the Study Book.

It was decided to celebrate the fiftieth anniversary of the founding of the W.M.S. of George Street United Church in October, to have a special service on Sunday, followed by an event on the following Monday evening. Plans were left with Mrs. S. R. Armstrong. Reports of the progress made in connection with the forthcoming Mother and Daughter banquet were submitted by Mrs. J. A. Spencer and Mrs. Armstrong.

The supply secretary, Mrs. F. Mather, read the list of articles required for the bale for this year's allocation. Mrs. Piper was appointed as envelope secretary to relieve Miss McCamus. It was decided to give the Mission Band their usual treat after their meeting, the fourth Monday in the month and Mrs. A. V. Lillow, Mrs. Girvin, Mrs. H. Dulmage and Mrs. W. Flannery were named as a committee in charge. Mrs. Dulmage reported for the Twilight Mission on the tea held Easter week. Receipts over $10.00.

Mrs. J. W. Hales gave a detailed report of the work done by the Sick and Visiting committee, and Mrs. J. A. Spencer for the Strangers'.

It was announced that the next meeting would be a temperance meeting in charge of Mrs. McMillan's group. The meeting closed with prayer by Mrs. J. E. J. Millyard.

BIRTH

ALMAS—At the Guelph General Hospital on April 13, to Mr. and Mrs. H. O. Almas nee (Florence Evans) the gift of a daughter.

Saskatchewan's output of 18,960,000 farms and Alberta 97,622.

The largest lobster cannery in the world is stated to be one at Pictou, Nova Scotia.

RIOTING IN U.S. MINE FIELDS TAKES SERIOUS TURN

PROBABILITIES.
Light westerly winds; fair and milder to-day and Saturday.

The Peterborough Examiner

HOME EDITION

VOL. LXVIII., No. 89 — PETERBOROUGH, ONTARIO, CANADA, FRIDAY, APRIL 15, 1932 — PRICE THREE CENTS

RIOTING RENEWED TODAY IN AUCKLAND

NEWS IN BRIEF

SHORT ITEMS RECEIVED OVER C. P. WIRE.

HITLER TO FIGHT

BERLIN, April 15 (A.P.).—Adolf Hitler announced to-day that he would retain the best lawyers he could find to contest the legality of the emergency decree dissolving his party's storm troops.

He also will sue, he said, to obtain redress for property seized and personal liberty violated in raids on the storm troop barracks.

REVERE HOUSE OWNER DIES

BROCKVILLE, April 15 (C.P.)—The death occurred here yesterday after an extended illness, of Robert Johnson, 76, proprietor of the Revere House. Mr. Johnson had been engaged in the hotel business here for a great many years.

Dr. B. S. Johnson, assistant superintendent of the Montreal General Hospital, is a son.

STORM TROOPS OPPOSED

WARSAW, April 15 (A.P.)—The Government was urged to-day to demand that the Danzig Senate dissolve the National Socialist storm troops to prevent the use of the Free State as a refuge for those elements which Germany does not want.

1,053,000 JOBLESS IN ITALY

ROME, April 15.—Italy's unemployed on March 31 totalled 1,053,000. This was a reductiono of 95,000 in two weeks.

FIVE BUSINESS ADVISERS.

MELBOURNE.—Five business advisers have accepted the invitation of the Commonwealth Government to accompany the Australian delegation to the Imperial Economic Conference at Ottawa. They will represent manufacturers and traders, producers and farmers, and labor.

PAYROLL POSTPONED.

DETROIT.—Still trying to so balance the city budget that additional loans or extensions may be obtained from its banker-creditors, Detroit to-day postponed the payment of a $1,000,000 payroll due at this time.

TWO DIE IN CRASH.

ROCHESTER. — Two men were killed and a third was seriously injured to-day in the collision of an automobile truck and a touring car at a highway intersection 11 miles east of this city.

2000 REDS SLAIN

AMOY, China, April 15.—(AP)—Chinese military authorities said today that troops of the Kwangtung provincial army had slaughtered 2,000 Chinese Communists and turned back the Communist force which had been advancing on Changchow, 2 miles west of here.

SPORTING FIGURE PASSES

HAMILTON, April 15.—Word has been received in this city of the death at Balboa, Canal Zone of Francis Nelson, 73, well known figure in the Canadian sporting world, and former sports editor of the Toronto Globe.

FLYER FORCED DOWN

WELLAND — Asselin Jordanoff, famous war-time flyer, is enroute to New York today by train. Yesterday, Jordanoff left the Detroit air show but was forced down near here when the manifold of his motor became overheated. The plane was not damaged.

JOHN DOUGLAS BEGAN ACTION

Issued Writ for $3,500 Against H. A. Sutherland Tuesday, April 12.

LEGAL CONTROVERSY.

A peculiar situation has arisen in the legal controversay between John Douglas and Hobarth A. Sutherland. On Tuesday, April 12, a writ was issued by John Douglas in the Supreme Court of Ontario against Hobarth A. Sutherland for $3,500. The following day Mr. Sutherland issued a writ against Mr. Douglas.

The endorsement appearing on Mr. Douglas' writ against Mr. Sutherland stated, "The plaintiff's claim is against the defendant for the sum of $3,500 due the plaintiff from the defendant for the monies of the plaintiff taken by the defendant and converted to his use, while employed by the plaintiff and for damages caused the plaintiff by the defendant's breach of duty and neglect while employed by the plaintiff and for an accounting by the defendant to the plaintiff of monies received by the defendant on account of the plaintiff, which he has failed to pay over to the plaintiff."

Birmingham Beauty

Miss Hardee Martin, a student at Howard College, Birmingham, Alabama, is one of the six beauties whose photographs were chosen to grace the Howard College year book, "Entre Nous," for 1932. Miss Martin is a member of the Alpha Delta Pi sorority.

INTERFERENCE FROM OUTSIDE TIRING BRITAIN

Labor Minister Claims Many Services 2 Decades Ahead of Any Other Country.

VICTORIAN IDEAS GONE.

Nation Too Busy Getting Out of Slump to Play With DeValera.

LONDON, April 15.—(C. P. Cable)—John Bull is rousing and planning. The mental attitude of the man in the street is reflected in these words of Sir Henry Betterton, Minister of Labor, at a luncheon of the National Industrial Alliance:

"I am getting a little tired of foreign nations lecturing us on the way we should do things in this country. Our social services, our arrangements for settling disputes, our methods of conciliation are two decades ahead of any other country with the doubtful exception of Germany."

The old Victorian ideas of territorial expansion have yielded to a policy of concentration. A generation ago the declarations regarding the oath of allegiance by President Eamon de Valera of the Irish Free State—if there had been a Free State then—would have been coun-

(Turn to Page 8, please)

PREDICT MASSIE MAY NAME SELF AS GUN WIELDER

Darrow Intimates One of Defendants Will Confess to Deed in Fit of Insanity.

TRIAL CONTINUING.

Young Naval Officer Reviews Details of Night His Wife Was Attacked.

(By William H. Ewing)

HONOLULU, April 15 (A.P.)—Defence intimations that Lieut. Thomas H. Massie would name himself as the killer of Joseph Kahahawai and plead insanity came a step nearer materialization in the murder trial of the young U. S. Navy officer and three others to-day.

As the prosecution closed its case, Clarence Darrow, generalissimo of the defence, called Massie to the stand and said one of the defendants would admit shooting Kahahawai in a fit of insanity. By his questioning he indicated Massie would be the one.

Preyed Upon His Mind

While his mother-in-law and co-defendant, Mrs. Granville Fortescue, wept, Massie testified his wife, Mrs. Thalia Massie, had identified the young Hawaiian and three others as her attackers. The assault, he said, had preyed not only upon her mind, but also upon his own.

Also he disclosed for the first time that it had been necessary for Mrs. Massie, suffering from fractures of the jaw, to undergo an operation after the attack to avoid becoming a mother.

Since Massie, Mrs. Fortescue and E. J. Lord were arrested Jan. 8, when police overtook their motor car containing the body of Kahahawai, no word has come from them or the other defendant, Albert O. Jones, regarding the killing.

Massie was pale and obviously under a strain as he testified. Most of the time he kept his gaze fixed on the floor.

Massie testified he was 27 years old and was married when he was 22 and Mrs. Massie 17. He told of attending a dance in an outlying inn the night of Sept. 12, when Mrs. Massie was attacked after going for a walk in a nearby thoroughfare.

"Was there any drinking?" asked Darrow.

"Yes, sir,' Massie answered.

"Did Mrs. Massie care for drinking?"

"No.."

Missed His Wife

The lieutenant said he missed Mrs. Massie when their party was preparing to go home and did not locate her until after he had telephoned several friends and final-

UTILITIES ASKS FOR FULL REPORT POWER SHUT-OFF ON WEEK-END

Chairman Matthews Declares Both Occasions "Unnecessary."

COMMISSION MEETS

A thorough report of the cause of Peterborough being without power for a period of time Sunday night and Monday morning will be sought from the Ontario Hydro-Electric Power Commission by the local Utilities Commission.

The power cut-off on both occasions was said to be "unnecessary" by G. S. Matthews, chairman of the Utilities. "It is not proper that a city the size of Peterborough should be served with power from one source only. We should have at least two sources, so that the city in case of emergency will not be without power as it was twice over the week-end," stated Chairman Matthews. "We want to know what happened and get a full explanation."

Manager R. L. Dobbin was instructed at the Utilities meeting yesterday afternoon to write the H.E.P.C. securing information concerning the shut-off and pointing out the need that the city be served from two sources with electrical energy.

Purchase Bonds

Ten thousand dollars of the bank balance of the Water Department of the Utilities Commission will be invested in Province of Ontario, Dominion of Canada or City of Toronto bonds. It was decided that the financial statement of the Water Department showed that such an investment could be made without leaving any shortage for the es-

Alberta College Student Wins Imrie Scholarship

EDMONTON, April 15 (C.P.). — The award of the Elizabeth Imrie Memorial Scholarship to M. E. Manning, student at the University of Alberta, has been announced by Dr. R. C. Wallace, President of the University. The scholarship will permit Manning to spend the coming summer at the Geneva School of International Studies and later to attend the Assembly of the League of Nations as an observer.

The scholarship was given by Mr. and Mrs. John M. Imrie of Edmonton.

ROAD CAMPS TO CLOSE

NORTH BAY—More than 1,000 men, employed on the trans-Canada highway, will be laid off at the end of this month, closing all the camps between here and Pembroke, Glen A. White, district engineer of Northern Development, stated here today.

TRIO'S TERM TOTAL 40 YEARS.

TORONTO.—Three persons, two of whom had pleaded guilty to criminal charges and the third had been found guilty by a jury, were sentenced by Mr. Justice J. T. Kelly to a total of 40 years and 4 months' imprisonment in Assize Court here to-day.

The five leading banks of England now have 8,000 branches and offices.

Using Sawed-Off Shotguns 5 Bandits Get $10,000 Pay Roll—Flee in Truck

PROVIDENCE, R.I., April 15 (C.P.). — Five unmasked bandits, armed with sawed-off shotguns and revolvers, held up nearly a score of employees in the office of the Imperial Printing and Finishing Company plant in Cranston to-day, and escaped with the payroll of between $10,000 and $12,000.

One shot was fired as the quintette sped out of the company's yard in a truck which soon disappeared.

Two girl clerks in the office who did not comply quickly enough with the orders of the men were grasped by the throat and nearly strangled.

A general alarm to police throughout Southern New England was broadcast by the Cranston police, and roads leading to all sections of the state were blocked within a short time after the holdup.

GUARDS ARRIVE; PITCHED BATTLE FEARED AT MINE

Troops Trailed to Diggings by Seventy-five Carloads of Strikers.

POWER LINES SEVERED.

One Killed, Several Injured in Riots at Ohio Plant Yesterday.

CADIZ, O., April 15.—Fears that a pitched battle might occur between striking coal miners and 75 Ohio National Guardsmen near the Sommers coal mines, eight miles east of here, were expressed by Cadiz citizens early to-day.

Shortly after the Guardsmen, with guns ready for quick use in the event of an encounter, started to the mine in trucks, Mayor F. A. Gibson of Adena, a neighboring village, reported the troops had been followed by 75 auto loads of strikers.

The National Guards left Cadiz for the mine about 3.30 a.m., but were unable to report back to their headquarters here because telephone wires to the mine had been cut. Electric power lines there also were severed, and all street lights in Adena were put out of service.

Protect Life

Orders to the Guardsmen sent to the mine were to "go there and protect life and property." The intentions of the 75 auto-loads of strikers were not revealed.

The mine, operated by the Good year Tire and Rubber Co., was the scene yesterday of a riot in which one man was killed and several injured. The clash occurred when 500 men, sympathizers with a mine strike in this district, attempted to persuade employees of the Sommers mine to quit work.

There was no disturbance at the mine last night, but officers in command of the Third Battalion, 145th Infantry, prepared for any possibility.

GANG CHIEFTAIN SHOT TO DEATH

Notorious Gunman Hayes Found Riddled Beside Car in St. Louis.

TWO OTHERS KILLED.

EAST ST. LOUIS, Ill., April 15.—Thomas E. (Tommy) Hayes, notorious gunman and a leader of the Cuckoo gang during its machine gun warfare with the Russo gang four years ago in which more than twenty men were killed, was shot to death with two other gangsters in Madison, an East St. Louis suburb early to-day.

The bullet-riddled body of Hayes was found beside his expensive automobile, in which he apparently had attempted to escape his assailants. The bodies of the two others were found several miles away.

More than a dozen bullets had struck Hayes. Police said they were fired from a machine gun. In the front seat of the automobile was found a revolver which the gangster had been unable to use before he was killed.

The bodies of the two other men had not been identified.

CARIBOU SPOTTED

SAULT STE. MARIE — Several large herds of caribou have been seen by pilots of the Ontario Air service while carrying out winter flying operations, according to Captain W. R. Maxwell.

Large herds have been seen on Oba Lake and on lakes in the Port Arthur and Kenora districts, he said.

Much British Cash In Irish "Sweeps"

LONDON, April 15 (C.P. Cable). — Great Britain has subscribed £9,500,000 in five of the Irish Free State hospitals sweepstakes, Sir Herbert Samuel, Home Secretary, revealed this afternoon in the House of Commons. And she received back in prizes £5,000,000. The balance showed after expenses had been paid that Britain had sent £2,750,000 to the Free State.

Sir Herbert produced these figures in declaring the whole matter would be considered by the Royal Commission recently appointed.

TRAGEDY IN OHIO IS LAID TO BOMB

Death Toll in State Building Explosion Reaches 7—Two Score Hurt.

GOVERNOR STARTS PROBE.

COLUMBUS, April 15 (C.P.). — The theory that a bomb explosion was responsible for the loss of seven lives, injuries to more than two score, and heavy damage to Ohio's new State office building, was uppermost in the minds of State, county and city officials as they launched investigations into the disaster to-day.

Authorities were investigating the theft of 300 pounds of dynamite from a powder company near London, O., last week, in the belief it might have been used to bomb the $6,000,000 structure, which was in the final stages of construction. The dynamite, the owners said, contained 16 quarts of T.N.T. to 100 pounds —a total of 48 quarts of T.N.T. which could have been extracted from the sticks.

Death List Grows.

Meanwhile the death list was increased to seven to-day when William Stevenson, 42, Columbus, died of a skull fracture.

Governor George White intimated he felt a high explosive was used in an effort to destroy the structure when, after naming an official investigating committee, he summoned explosive experts.

As the Governor set his investigation in motion, city police were tracing clues. One was the strange action of an unidentified man who, a few moments after the blast ripped through the structure, ran around one corner of the building, threw a brick through the window of a parked auto, and fled.

PICTURES PANIC UPON EXCHANGE

Whitney States Transfer Tax Would Cut Transactions to Vanishing Point.

HURT GENERAL BUSINESS.

WASHINGTON, April 15. (AP)—Possible closing of the New York Stock Exchange with danger of "a panic" was pictured before the U.S. Senate finance committee today by Richard Whitney if the proposed stock transfer tax is imposed.

The president of the New York Stock Exchange said the tax would reduce security transactions almost to the vanishing point.

Protesting it, he said the effect not only would be felt on the exchange, but would "devastatingly diminish" the business done in the country. This decrease, he added, would more than halve the $75,000,000 of revenue the house of representatives estimated the tax would bring.

He appeared after Senator Tydings (D.MD.) had assailed the tax on oil imports carried in the bill.

The exchange president belaored the proposed tax on bond trading as vigorously as that on stocks.

Senator Reed (R. Pa.) said he had heard a rumor that since the house action a "charter had been taken out in Montreal" for an international stock trading association and asked Whitney about it.

Whitney said he knew nothing definite but had heard a rumor that preparations were being made in Canada to "broaden their facilities to take the American business in case this tax goes through."

SANKEY LAUDS BRITISH POLICY IN INDIA'S CASE

Holds Gandhi's Extravagant Claims, Rigid Attitude as Most Unfortunate.

NEW INDIA ON HORIZON.

Effort to Set Up Rival Government Could Not Be Ignored Chancellor States.

NEW YORK, April 15.—The New York Times published the following special cable from London:

"Lord Sankey, leading conciliator at last year's round-table conference, has broken his long silence on Indian affairs by expressing unreserved approval of the British Government's recent policy.

Writing in the current issue of the News-Letter, new organ of Prime Minister Macdonald's National Labor group, Lord Sankey, who is Lord High Chancellor in the National Government admits "relative lack of success" of the conference and holds that was partly due to unfortunate circumstances, like the British financial crisis and the general election, but he finds Mr. Gandhi also to blame.

Unfortunate Stand.

Gandhi's uncompromising refusal of give and take in negotiation, the rigidly non possumus attitude he adopted and the extravagant claims he advanced were most unfortunate," Lord Sankey writes.

"No Labor Government could have ignored the recent attempt of the congress to establish a rival and revolutionary government in India," he asserts. "No labor government could have capitulated to a campaign of sedition, violence and murder.

"I have never liked the big stick and I am well aware how great a part in promoting revolutiuonary temper is played by an educational system which is just now turning out 500 educated Indians to every job available for them.

Had To Be Met.

"But meanwhile revolutionary violence has forced the government —as it would force any government —to meet it with adequate weapons. Such a policy must always and be and is being pursued with caution and moderation.

"My confident hope is the 'meanwhile' will be brief and that the new India toward which government after government has advanced will at no distant date be achieved by this government."

MILLS RESUME WORK

THREE RIVERS — Operations were resumed at the St. Lawrence paper company's mills and on a street tunnel today following a one-day tie-up due to flood conditions, which forced 370 men into idleness.

Police Beaten Back By Unemployed Mob In Three Hour Fight

Church Set on Fire and More Windows Broken in Second Day's Serious Disturbance — Police Aided By Naval Force From Cruiser—$50 0,000 Damage Thursday.

MAYOR THREATENS TO READ RIOT ACT CIVILIANS RALLY TO MAINTAIN ORDER

Windows Broken, Shops Looted and Hundreds of Persons Injured—Riot Believed Started By Criminal Element in Civil Service Parade.

AUCKLAND, New Zealand, April 15 (C.P.). — Fighting broke out in the streets again to-night, and for three hours crowds of jobless men and women, who rioted all day yesterday, held their own against police, volunteer reinforcements, and a landing party from a British cruiser.

Mounted men charged the rioters, and foot police advanced in close formation with drawn clubs, but they were beaten back by the jobless who fought with clubs, rocks, and their fists.

During the melee fire broke out in the Church of the Epiphany, and the building was badly damaged. Police said the blaze had been started by the rioters.

At least 30 persons were injured, some of them seriously.

The Mayor, who marshalled civilian volunteers to assist the police yesterday, said to-night that if the fighting continued he would read the Riot Act.

Thursday's Damage $500,000

AUCKLAND, N.Z., April 15. (C.P. Cable).—"The Government is fully prepared to meet eventualities and will not allow rioters to gain the upper hand," Prime Minister G. W. Forbes this afternoon assured the House of Representatives, following another outbreak in the Auckland disturbances.

At the same time the Mayor of Auckland declared not a single grocery or food shop had been looted, proving the disorders were not food riots but due to criminal elements. Many stores, especially jewelery stores, on Queen street, Auckland's main thoroughfare, were looted during the disturbances which began early last evening and it was estimated the total damage, including a loss of stocks and damage to property, would be more than $500,000.

Virtual Martial Law

The rioting during the night in which the mob overwhelmed the local police force was not quelled until Marines from H.M.S. Philomel had been brought ashore to join forces with the police, fire department, and volunteer special constables. To-day Royal Naval forces were called out and along with squads of mounted volunteers patrolled the city.

Even the presence of these augmented forces did not suffice to prevent a further outbreak. A mob attempted to renew rioting in the shopping district to-day and naval pickets and the special police were forced to charge into the crowd, scattering them, but not before a number of additional shop windows were smashed.

The mayor's call yesterday for volunteer police recruited from the citizenry met with immediate and substantial response.

More significant today was that throughout the countryside civilians in their respective cities were flocking to enrol themselves in volunteer services, and throughout the dominion local forces were strengthened by the rapid organization of bodies of special constables prepared to counter any spread of the disturbances, so far confined to Auckland.

Insurance Rates Soar

In Auckland the insurance premiums on plate glass rose 50 percent, while fire insurance coverage was practically not obtainable, the rates rising to 10 times the normal level.

Conditions were fairly quiet in Auckland as night came, but the special patrols were maintained. Auckland's Queen street was sadly littered throughfare and efforts were being made to clean up the mess.

Meanwhile a hundred civilians and more than a score of police were nursing injuries, few of them serious, as a result of the most serious period of the rioting, during yesterday evening. Most of the damage consisted of bruised heads and cuts.

Criminal Intent Shown

The charge by the authorities that criminal elements were responsible and that the affair was premeditated and not a spontaneous outbreak by discontented unemployed, was borne out by various circumstances At the outset there was an orderly parade of civil servants protesting a 10 per cent cut in salaries. Unemployed men and women, the latter being in large proportions to the total, and a large number of youths,

(Turn to Page 8, Please)

Auckland

Auckland is the largest city of the north island of New Zealand, and capital of the province of Auckland. It has a population of 133,712, including suburbs.

The harbor, accessible to the largest vessels at low tide, has two graving docks, two patent slips and ample wharf accommodation. The city is the great yachting centre and also possesses a wireless station. Chief industries are ship-building, sugar refining, and the manufacture of paper, glass, bricks and rope.

TEN FINANCIAL HOUSES FAIL IN CITY OF CANTON

CANTON, China, April 15 (C.P.). —More than ten failures of financial houses and banks here in two weeks, followed to-day by the Government announcement that their dollar notes no longer will be redeemed, is expected to result in further bankruptcies.

Both the Government bank and the native banks have been subjected to runs. The runs on the native banks were due to the Government's insistence upon the cancellation of notes privately issued in Ceylon.

CAUSE OF DEPRESSION IS LAID AT DOOR OF HIGH FINANCIERS

WHOLE WELLAND CANAL OPEN FOR NAVIGATION

ST. CATHARINES, April 15 (CP) The entire Welland ship canal was thrown open for navigation early to-day permitting through traffic on the great waterway. The southern section, between Thoroid and Port Colborne, was opened Monday.

The steamer Sarnian, bound for Hamilton, was first boat to pass from the canal through, Port Weller to-day, followed by the Simclite. Both boats had entered the canal at Port Colborne yesterday. No upbound boats had entered at Port Weller at noon to-day.

After 32 years' service on the River Indus, during which not a screw of her engine has been replaced, the steam launch Jhelum is still in use in India

Gold Standard is Hindenburg Line of Financial Powers Speaker Says.

NO SCARCITY OF GOLD.

That the present economic depression had been deliberately planned by the controllers of international finance was one of the startling assertions made by Edgar Breffitt, "The Canadian Traveller," in a lecture before the local branch of the British Israel Federation of Canada at the Legion Hall last evening.

"The gold standard is the Hindenburgh line of the financial powers. It is a line which they must hold at all costs," he contended.

In the absence of Roy Wemp, president of the branch, the meeting was presided over by Allan MacNab. The speaker of the evening was introduced as a lecturer of the Canadian Geographical Society—a man who has travelled extensively and who served overseas with the Fort Garry Horse.

Edgar Breffitt, the speaker, took for his topic "The Gold Standard," and treated it in a forceful and interesting manner which held the close attention of his audience and brought him numerous questions to answer afterwards.

World at Cross-roads.

During the course of his address he touched upon the forthcoming Imperial Economic Conference at Ottawa, expressing the belief that it would prove to be an event of much significance to the whole

BUILDING IS BLOWN TO PIECES LEAVING FIVE KNOWN DEATHS; SCORES OTHERS BADLY HURT

Workmen Dig Frantically Into Tons of Debris Seeking Other Victims.

CAUSE REMAINS MYSTERY.

Officials Suspect Bombing — $6,000,000 Structure Almost Finished.

COLUMBUS, O., April 15. — Experts in high explosives were summoned today to investigate the blast which wrecked the interior of Ohio's new $6,000,000 office building, leaving five known dead and scores injured.

The explosion, late yesterday, demolished the central interior portion of the building from the basement to the 11th floor, and tore away most of one of its sides.

Workmen dug into the tons of debris today, searching for additional dead or injured.

At first, the explosion was laid to accumulated sewer gas in the basement. Later, however, officials including T. S. Brindle, state superintendent of public works, theorized high explosives were the cause, and that it was an act of sabotage.

Brindle's theory was strengthened by a statement from H. E. Nold, head of the Department of Mines at Ohio State University, that, "it would have been impossible for enough gas to collect in the building without being detected."

Investigators also pointed out that the focal point of the explosion appeared to have been immediately beneath a room occupied by Charles Martin, superintendent of construction for Harry P. Hake, of Cincinnati, the architect. Martin's duties included the handling of labor disputes.

126 Men At Work

There were 126 men at work, applying finishing touches of construction inside the building, when the structure was shattered. Great marble slabs were tossed into the air, ponderous metal doors were wrenched from their hinges and tons of concrete and twisted steel were knocked loose by the force of the blast.

The known dead were: W. B Ryder, 57, superintendent of the Alabama Marble Co.; Donald K Chesney, 40, decorator for the Rambush Co., New York; William Dokken, 32, Detroit, a bronze worker; Clyde R. Neal, 35, Columbus electrician and Frank Baker, Columbus plumber.

State officials estimated the damage to the structure was $500,000 and said they believed the state was protected by a $3,000,000 bond given by the Struck Construction Company of Cincinnati, general contractors, and by a $400,000 insurance policy of the architect.

Borden And Rowell Support Aird Plan

OTTAWA, April 15.—Nationalization of radio broadcasting in Canada had three prominent advocates before the special radio committee of the Commons yesterday.

Sir Robert Borden, former Prime Minister, did not appear in person, but he authorized Hon. Newton W. Rowell, K.C., of Toronto, to tell the committee that he was in favor of public ownership of the radio as a means of developing a truly national life and character in the Dominion. Mr. Rowell already had spoken for himself as in favor of public ownership of radio, and in his concluding remarks he stated yesterday in the course of a visit he had paid to Sir Robert Borden.

"Sir Robert told me I could give the committee an expression of his opinion. He said that he favored public ownership of radio broadcasting in Canada because too much entertainment and propaganda from United States stations was not desirable for the youth of Canada, and the only way you can displace it is by giving the Canadian people something better, and the only satisfactory way in which to accomplish this is by establishing and maintaining a Canadian nationally owned system of broadcasting stations which will give adequate service to Canadian radio listeners."

Thousands of starlings have been swarming in English waters this year.

Reward of $2 Offered for Bugs

KITCHENER, April 15. — Incensed by an alleged whispering campaign against the Red Cross Hostel here to the effect that it had bedbugs, Louis Bayle, the superintnedent, has offered $2 00 to the first person who finds a bug and proves h's case. To date there has been no claimant for the reward.

UTILITIES FIRM IN BANKRUPTCY

Petition Against Insull Company is Largest Receivership in History of U.S. Finance.

RE-ORGANIZATION FAILS.

CHICAGO, April 15 (C.P.). — Steps to place Samuel Insull's $3-000,000,000 Middle West Utilities Company in friendly U.S. Federal receivership have been taken and hearing on a receivership petition was set for to-day in Judge James H. Wilkerson's United States District Court.

The receivership action was decided upon by directors of the holding company for Samuel Insull's vast public utility properties after negotiations for reorganization admittedly failed for the present. Its aim was to protect the interests of investors and the company itself.

The petition was filed yesterday immediately after the directors voted by the Lincoln Printing Company of Chicago on an $8 000 creditor's claim with the concurrence of Insull and Middle West's other officials. It has been reported Insull himself may be named receiver.

And from the 72-year-old utility magnate, who rose from immigrant secretary to Thomas Edison to control millions, came an emphatic statement giving assurance that his utility operating companies, which are subsidiaries of the Middle West, were in no way affected by the proposed receivership.

"Their business," he said, "generally is imminently satisfactory in view of economic conditions, and they will function as usual, financing themselves as heretofore."

Largest in History

Insull declared the receivership, which if granted will be the largest in the financial history of U. S. seemed unavoidable as a "first step in the reorganization of the company."

He placed responsibility for the action on economic conditions which "make it impossible to work out a plan for the payment of about $22,000,000 in well-secured bank loans, slightly over $7,000,000 in partially secured loans and meeting of a maturity of $10,000,000 in notes on June 1."

The Middle West controls a group of Insull operating companies serving 4,500 communities in Canada and thirty Central, Southwestern and Eastern States. The properties of those companies include 410 manufacturing plants, gas mains 4,897 miles long, and electric transmission lines extending nearly 90,000 miles.

Police Seek Bogus Motion Picture Man

LINDSAY, Ont., April 15 (Examiner).—Circulars have been issued for the arrest of G. Hanson, a Toronto man, who is alleged to have taken a large number of moving pictures of business men and places of business in Lindsay by fraud.

Several months ago Hanson visited Lindsay, took moving pictures of the Town Council, the Fair Board directors, Kiwanis and Rotary groups, as well as pictures of a large number of business places and prominent men of town; many paid "cold cash" for the pictures, which were to be shown at the local theatres.

Hanson then left town and the pictures were never presented. Police are looking for the operator of the movie business.

Student Souvenir Hunters Receive Set Back

COLLEGE MEN'S LOOT

Student souvenir collectors of the University of Toronto are thinking of getting a new hobby. Plain-clothes officers swooped down on four fraternity houses occupied by U. of T. students and made seizures of silverware and blankets alleged to be the property of downtown hotels and restaurants. Some of the loot is shown here.

LINDBERGH ASKS MORE SECRECY

Affair Now Develops Into Swindle-proof Scheme to Get Baby Back.

SECRET TRIPS CONTINUE.

HOPEWELL, N.J., April 15 (C. P.). — The Lindbergh baby hunt developed to-day into a search for a swindle-proof scheme to get Charles A. Lindbergh, Jr., back.

Working secretly again, negotiators could not overlook the possibility that a second ransom attempt might lead to a repetition of the $50,000 hoax in which Colonel Lindbergh was mulcted without getting the kidnapped infant.

The Colonel, it was learned, is considering a plan whereby a committee would pass on any further negotiations. The committee probably would comprise the aviator, Col. Henry Breckenridge, his attorney, Governor A. Harry Moore of New Jersey, Mayor Frank Hague of Jersey City, and others.

Ask More Secrecy.

Col. Lindbergh and his wife appealed last night for secrecy in the attempts to deal with the kidnap gang. In Norfolk, Va., two negotiators who have been in close touch with Lindbergh for days, returned home after a prolonged absence, with a non-committal statement.

"It is still of the utmost importance for us and our representatives to move about without being questioned and followed," said Colonel and Mrs. Lindbergh's statement, which also expressed appreciation for past co-operation by the press.

Dr. John F. Condon, the "Jafsie" who, as Lindbergh's emissary arranged the recent $50,000 payment, made several trips from his Bronx home yesterday, and said the kidnappers were an extremely shrewd band of criminals.

Girl Returned Home And Lover Arrested

TORONTO, April 15. — A Campbellford romance was broken in Toronto yesterday when the police here sent a 16-year-old girl back to her parents by train and arrested Jack Laws, 26, at the Boston Avenue home of his mother.

The charge against Laws is abduction. Detective Fred Skinner executed the warrant issued by the Campbellford Chief of Police on complaint of the girl's parents.

It is said that Laws drove the girl, whom he told police he loved to his mother's home in Toronto the day before yesterday. Police here were informed that the pair were in Toronto, and yesterday located the girl.

STIMSON IN PARIS

PARIS, April 15 (A.P.)—Henry L. Stimson, U.S. Secretary of State, arrived in Paris to-day from Havre, where he disembarked from the liner Ile de France to-day.

ONTARIO GRAIN.

TORONTO, April 15. — Wheat, 52c to 54c; barley, 35c to 40c; oats, 27c to 30c; rye, 45c; buckwheat, 45c; corn, 38c.

Never Looks Up; Lands Into Prison

BELLEVILLE, April 15. — Found walking about with his head on his chest and never looking up Lucien Boisnert was arrested on a vagrancy charge by Provincial Constable Stringer at Latta, eight miles north of here. Boisnert appeared recently at Cobourg and was examined. Doctors claimed he was sane, so he was sent to Belleville. Boisnert walks in a straight line, and unless directed, will bump into everything in his path.

GREECE TO HALT DEBT PAYMENTS

Premier Venizelos Announces Government's Decision to League of Nations.

ASKS 5 YEARS' GRACE.

GENEVA, April 15 (A.P.)—Premier Eleutherios Venizelos of Greece told the League of Nations Council to-day that Greece will have to suspend service on its foreign debt for five years.

The one-year suspension and $10,000,000 loan recommended by the league's financial committee is not sufficient, he said, to restore Greece's financial stability.

The Council approved the financial committee's recommendation for suspension by the Greek Government of its debt redemption payment of 300,000,000 drachmae (about $3,600,000) a year to the Bank of Greece and the National Bank of Greece.

Greece's next foreign interest payments are due May 1.

UNITED IRELAND RUMORS ARE SPIKED BY THOMAS

Thomas, Secretary for the Dominions, put an official quietus today on any motion the government might be hinting at a move toward a United Ireland in its correspondence with President de Valera of the Irish Free State.

Speaking in the House of Commons, Mr. Thomas said he had assured Viscount Craigavon, Premier of Northern Ireland that the government did not contemplate "that any such development could take place without the consent of Northern Ireland."

Viscount Craigavon visited London Wednesday and conferred with Mr. Thomas and other government officials.

BADEN OFFICIALS WARNED

KARLSRUHE, Baden, Germany, April 15 (A.P.)—Joseph Schmitt, President of Baden State, addressing the Diet to-day on the suppression of Adolf Hitler's storm troops, said he learned a number of Baden officials had violated their oath to the Republic by dickering with radical parties. He warned them that if they did not change their attitude they would be dismissed.

WATCHMAN SHOT

VITORIA, Spain, April 15 (A.P.) —Miguel Perera, a night watchman, was shot and killed late last night during a riot staged by Syndicalists shouting "Viva Communism!" Perera and others pursued the rioters.

Quebec producers of pipe tobaccos are being advised to grow less tobacco and to concentrate on improvement of quality using only the best seed of four varities, Beige 3007, Parfum d'Italie, Petit Havane and Canelle.

Governor Takes 45 Per Cent. Cut

WELLINGTON, N.Z., April 15 (C.P. Cable). — Lord Bledisloe, Governor-General of New Zealand, has offered to accept a further reduction in his salary which would bring the total cut to 45 per cent., the original figure being £7,500.

Lord Bledisloe stipulates, however, the reduction is not to apply to his successors. He adds he will not demur if one of the two official residences is closed in the interests of economy.

Australia's Revenue Falls 20 Per Cent.

MELBOURNE, Aus., April 15.—(C.P. Cable.)— Since the adoption of the national economy plan by the conference of Premiers last year the national revenue has fallen by 20 per cent., Professors Giblin and Melville, members of the experts' committee which drew up a report on unemployment, to-day told the conference of premiers.

Regarding the committee's recommendation to increase the rate of exchange, the professors submitted the increase should be about 7 per cent.

Some of the State arbitration courts have failed to carry out the general reduction of 10 per cent. in wages and steps should be taken the reduction is made general, the professors added.

Canton, China, has just completed its new water system.

STATE CONTROL OF RADIUM ORE IS ADVOCATED

Canadian National System Should Be Tory Member Declares.

CANADA "IN A JAM."

General McRae in Senate Discusses Government Control of Radium.

OTTAWA, April 15.—(C.P.) The Canadian National Railway system is bankrupt and its disposal by the Dominion would relieve the treasury of a steady drain, F. H. Pickel, Cons., Brome-Missisquoi advised the House of Commons yesterday.

Negotiations should be opened immediately and, although he held no brief for the Canadian Pacific Railway the Quebec member knew "of no other company or combination of people to whom we could give the National Railway."

If the system were sold, the Dominion treasury would be spared "that deficit of $1,250,000 that every week we are throwing into the mismanaged railway." It was futile to attempt to bolster up the road, said Mr. Pickel, adding, "I do not understand why the people of Canada persist in trying to make themselves believe this is a solvent enterprise." Canada already had one bankrupt trans-continental system "and if we continue we are going to bankrupt the Canadian Pacific as well."

Canada "In a Jam."

The day was devoted to the debate on the Rhodes budget Miss Agnes McPhail, the only woman member of the House, urged abolition of the right to inherit fortunes and endorsed the suggestion of Robert Gardiner, leader of the United Farmers, that all incomes in excess of $25,000 be confiscated by the Dominion Canada, she said, was "in a jam." The load of taxation was becoming unbearable, especially for farmers. If the state confiscated large incomes, the money might be used for social purposes, thus relieving the taxation burden of the great mass of the people.

Government Control of Radium

In the senate, General A. D. McRae of Vancouver said it was an

Free State To Provide Butter Export Bounty

DUBLIN, April 15 (C.P. Cable) —The Irish Free State Government has decided to provide a bounty for the export of butter from the Free State. A bill will be introduced in the Dail Eireann next Wednesday providing for a subsidy of four cents a pound., amounting to half the tariff levy on butter, and the money will be provided for by a levy on total butter production. It is unofficially stated that butter prices are likely to touch a low level on the British market this season, and the Irish Free State farmer consequently will need assistance.

Massey-Harris

announces

10% DISCOUNT

OFF PAYMENTS

On New Implement Purchases

also on all Existing Implement Debts

Paid prior to November 30th, 1932

and Interest Thereon:

10% discount will be given on all past due notes and interest thereon if paid on dates set by branch offices, giving due consideration to local marketing conditions in each district.

Current Maturing Notes
and Interest Thereon:

10% discount will be given on notes and interest thereon maturing this year between present date and November 30th, 1932, if paid within ten days of due date.

Future Maturing Notes
and Interest Thereon:

10% discount will be given on all notes and interest thereon maturing on and after December 1st, 1932, if paid on or before November 30th, 1932.

NEW SALES

10% discount will be given on all implement sales up to November 30th, 1932, as follows:—

Cash Sales

On cash sales a 10% discount from present cash prices.

Time Sales

(a) 10% discount on cash payments at time of delivery.

(b) 10% discount on notes and interest thereon maturing up to November 30th, 1932, if paid within ten days of due date.

(c) 10% discount on notes and interest thereon maturing on and after December 1st, 1932, if paid on or before November 30th, 1932.

The company realizes that this step is probably unparalleled in the history of Canadian business. It entails a wiping out of ten per cent. of principal and interest on many implements sold even before the present depression.

To the Canadian farmer this new discount policy means much in dollars and cents. It means that the Massey-Harris Company is sharing with Canadian farmers the loss they are suffering from depreciated prices. It is believed that this step will be helpful in assisting Canadian agriculture out of the temporary set-back which it is now undergoing, and starting this great basic Canadian industry on the upgrade to more prosperous times.

This is a sincere endeavor to improve conditions for Canadian farmers, Canadian workmen, the Company and our Common Country.

THE COMPLETE HOUSEHOLD SOAP

TREACHEROUS CROOK GUILTY OF "VILEST KIND OF FRAUD"

Posed as Penitentiary Official to Swindle Wife of Man in Prison.

TOOK ALL SHE HAD.

VANCOUVER, April 15.—(Special to The Examiner).—Branded by the prosecutor as the perpetrator of the "vilest kind of fraud," Robert James McRae pleaded guilty to a charge of obtaining $411 by false pretenses from a confiding woman in the city police court. He was remanded for sentence later in the month.

Oscar Orr, city prosecutor, told the court that McRae, while an inmate of a British Columbia penitentiary, had met a convict against whom he had held a grudge. This was early in 1927.

McRae is stated to have confessed to his fellow inmate that he had forgotten and forgiven the incident and cultivated the friendship of his enemy. When released in 1928, McRae went to the wife of the convict, it is stated, and represented himself as secretary to the superintendent of penitentiaries. He told the woman that if she could raise some money he would secure the release of her husband.

The woman disposed of all her available property and turned $411 over to McRae, who is declared to have told her that it was not sufficient. She then gave the pretender a valuable stickpin.

After securing the money and pin, McRae fled to California, where in February, 1929, he was convicted on a charge of forgery and sentenced to from one to 14 years in Folsom penitentiary.

He was paroled from that institution recently and deported to Canada. Detective R. Knox met the boat at Victoria and arrested McRae for defrauding the woman.

Authorities did not disclose the name of the woman as her husband has been released from prison and has re-established himself.

Ina Comes Home

After spending a vacation in Europe, Ina Claire, screen star, and former wife of John Gilbert, has returned home. She is shown on board the S.S. Bremen as it arrived in New York harbor.

QUICK when you most need HELP!

Burns and scalds need quick first aid. Doctors advise covering the affected area with "Vaseline" Petroleum Jelly. Excludes air, helps prevent infection, and is particularly healing and soothing. If a blister forms, prick the edge with a sterilized needle, press out the water, and dress with "Vaseline" Jelly. Absolutely pure.

Refuse imitations. Insist on the genuine. Look for the trade mark Vaseline on every tube or jar that you buy. At all Drug Stores.

Nova Scotian Has Fixed Opinion

To Get Rid of Rheumatism, Use Fruit-a-tives, He Says

OTTAWA, Ont.—Mr. J. B. Dreu, Digby, N.S., writes: "For a long time I had rheumatism so bad I couldn't move my arms. The pain, fever and sweating nearly set me crazy. At last I got hold of Fruit-a-tives, and am able to be at work again." Uric acid is removed from your blood by Fruit-a-tives, because they stimulate five vital organs to work naturally—the stomach, kidneys, liver, bowels and skin. Your blood is purified. Health and comfort return. 25c and 50c. At all druggists.

STATE CONTROL

(Continued from Page 1)

"absurdity" to consider commercial development of radium from pitchblende ore in the Great Bear Lake district. He advocated government control of production and distribution of radium from Canadian ores. "It is unthinkable that we should allow the pitchblende deposits of Great Bear lake area to be developed on a basis which will enable Canadians to join with the Belgians as exploiters of suffering humanity."

Shortage of radium was costing the lives of thousands of cancer patients every year, proceeded General McRae. Canada should produce radium from its ores below the "Belgian Trust" figure of $50,000 a gram. It might be necessary to set an arbitrary price at the mines — perhaps $100 a ton—but if the government directly or through a controlled corporation processed the ore, radium would be available for the Canadian people at prices considerable below the "Belgian Trust" figure.

Taking part in the budget debate, Hon. I. C. Elliott, former Minister of Public Works, criticised the tariff policy of the government, laying at its door many of the commerical problems now facing the country. It was a policy of exclusion, he said, working to the detriment of the country as a whole and particularly, the farmers.

A back to the land policy was proposed by C. H. Dickie, Cons., Nanaimo. Unemployed men of the cities could be settled on farms where they would be producers and contributors to national welfare.

Imposition of taxes on such luxuries as diamonds, jewellery, sports goods and ladies evening dresses was proposed by martial Rheume, Lib. St. John—Iberville.

Other speakers during the day were Michael Luchkovich, U.F.A., Vegreville; Eusebe Roberge, Lib., Megantic; E. F. Wills, Cons., Souris and H. A. Mullins, Cons., Marquette.

PREDICT MASSIE

(Continued from Page 1)

ly rang his own house.

"Mrs. Massie answered the phone" he said, "and recognized my voice, said 'come home at once; something horrible has happened'."

"I jumped in a car and rushed home. I could hear her sobbing before I could get into the house. She collapsed in my arms. Her lips were bruised, her face swollen, her clothes torn and her lips bleeding.

"I thought a truck had run over her. She said it was too horrible to tell and could only sob.

"She said she wanted to die. Finally she told me some men had taken her in a car and carried her into the bushes and ravished her. I then called the police and told them my wife had been assaulted."

Mrs. Fortescue was crying. Massie said he took his wife to a hospital and tried in vain to sleep.

He told how four men had been brought before Mrs. Massie the next day for identification. They were Kahahawai, Horace Ida Henry Chang, and Ben Ahakeu.o.

"She questioned them all," Massie said. "She seemed to consentrate on Kahahawai. After they left she told me they were the ones. I asked her if she was sure, and she said, 'Darling, do you think I would ever draw another honest breath unless I were sure?'"

Rejected Money.

Massie said the attackers rejected money. He said his wife told him "that Kahahawai beat her more than any other and that when he assaulted her she prayed for mercy and he hit her and broke her jaw."

The witness said Mrs. Massie had awakened him on one occasion thereafter with the cry, "Don't let him get me!"

Massie said he had assured her no one else was there, but that she had insisted:

"Yes there is! Kahahawai is here."

"Did you ever get advice from a doctor about your wife's condition?" asked Darrow.

"I got that at the hospital," Massie said, "after Mrs. Massie's mother informed us an operation would be necessary to prevent pregnancy. It was performed in October."

Literary Evening Of Stirling Guild

(Examiner Correspondence.)

STIRLING, April 15. — On Monday evening the Literary meeting of the St. Andrew's Guild was held in charge of Mrs. R. Meiklejohn. The Scripture lesson was read by Jack Tulloch.

The life of King Edward VII was given by Trenalda Eggleton. Facts in the boyhood of King George was given by Iva Chambers. Helen Murduff gave a pleasing piano solo. A chorus was given by Mrs. Murduff's S. S. Class. A beautiful duet, piano and banjo, was given by Morris Bell and Charley Allen, "Roll on Mississippi."

An interesting debate was given, "Resolved: That the moving picture is an advantage."

'Rat Catch Small In Rice Lake Area

BAILIEBORO, April 15 (Examiner Correspondence).—The trappers in this district have had a trying season for trapping muskrats. The weather has been cold and backward and the marshes have been frozen to such an extent that it has been next to impossible to get suitable sets.

Indications point to an abundance of muskrats in the marshes, but the catch has been scanty owing to the late season.

Trappers claim that the furs secured have been of a superior quality, and it has been many years since they have secured as splendid a quality of muskrat hides.

No doubt the open winter is responsible, as the rats have been enabled to travel about and secure abundance of food.

Mr. and Mrs. C. Copperthwaite, Jean and Barbara, spent Saturday in Peterborough.

Mrs. D. Bailey was a Sunday visitor with Mrs. B. Dulmage.

Mrs. Harry Wilson and daughter, Fern, of Norham, spent a few days last week with her parents, Mr. and Mrs. W. F. Runnells.

Miss Helen Poole of Warkworth, has been assisting, Mrs. Alec Merrill with her household duties.

East Emily

A concert and supper were held in Orange Corners School S.S. No. 10, Emily on Friday night, April 8, under the auspices of the Guild of St. John's Anglican Church, Emily.

The entire program was provided by the people of St. Luke's Anglican Church, Peterborough.

The Rev. Mr. Weir of Omemee ably filled the position of chairman. While the whole program was decidedly interesting, the chief feature of the concert was a play entitled, "The New Reporter" by a cast of St. Luke's people. After the concert, a vote of thanks was moved by Walter Magee to the St. Luke's people. It was seconded by Elmer Henry. The ladies of St. John's Church then served a sumptuous supper consisting of pork and beans, coffee and pie.

Mr. Eugene Switzer and Mrs. M. Ruth were visitors to Lindsay on Monday.

Mr. James Davis had the misfortune to lose one of his horses on Monday.

Mr. and Mrs. Wilbert Clark and son Alton attended the play, "Let's Get Married" in St. John's Parish Hall, Peterborough on Tuesday night.

Miss Margaret Widdis of Victoria road is visiting with her sisters, Mrs. A. Fee and Mrs. H. McCarrell.

Mr. and Mrs. Wilfred Carroll were visitors to Peterborough on Saturday.

U.S. BAPTIST MISSIONARY MURDERED IN WARSAW

WARSAW, April 15 (A.P.)—The body of Edna Drall Mott, Baptist missionary from United States was found in her apartment here today. The throat had been slashed.

Police said they suspected she had been killed by religious fanactics. She came to Warsaw a year ago and conducted her missionary work from her apartment in a slum district.

Several weeks ago two children in the neighborhood were found dead under similar circumstances, but police were unable to find any trace of the slayers.

HELPFUL IN MOTHERHOOD

—The Shaw Studio

MRS. MARY DUNN

Hamilton, Ont.—"There is one medicine I can recommend and that is Dr. Pierces Favorite Prescription—there is nothing so helpful in motherhood," says Mrs. Mary Dunn of 71 Wilson St. "During my first expectant period I was weak, nervous and all rundown. could not sleep nor rest at night. I started to take the 'Prescription' and my trouble was soon ended. I picked up, got strong and kept so. and that child was the healthiest of all my children. While the 'Favorite Prescription' gives the mother strength, it adds to the health and strength of the child as well." All druggists.

Users of Dr. Pierce's medicines are entitled to free medical advice. Just write to Dr. Pierce's Clinic in Buffalo, N.Y., plainly describing all your symptoms.

Chautauqua Billed For Campbellford

Dates Set for Yearly Event Are May 13, 14, 15 and 17.

CAMPBELLFORD, April 15 (Examiner Staff Correspondence). — Campbellford will have a four-day Chautauqua this year which will be held on May 13 14 15 and 17. A high-class and varied program will feature this season's entertainment which will include two plays which are ever popular with the general public.

The outstanding lecturer will be Dr. Edwood T. Bailey, who will deliver his talk on "All Aboard," an address that has won the approval of the public both East and West. Then for the lovers of high-class music a rare treat will be furnished in the appearance of Hugh Brandt, the famous Polish pianist and entertainer.

The children will also be catered to in the presentation of the Marionette Company, which will be delightfully entertaining for the young folks. The Peerless Players will stage "Bought and Paid For," a strong drama with clever comedy running through it, and "Old Crusty Takes the Air" will be staged by the Havelon Players, this being a comedy complete.

Rice Lake Cleared Of Winter Blanket

BAILIEBORO, April 15 (Examiner Correspondence).—The high northwest winds which prevailed during Tuesday evening, sent the ice from the head of Rice Lake crashing against the southern shore and against the islands at the foot of the lake, and when the grey dawn broke on Wednesday morning, the lake was almost cleared of its winter blanket. Only a jammed mass could be seen around the islands.

Little damage was done by the shifting ice at Bewdley or the northern shore and the ice departed leaving the water low. It is thought the water is about the same height as it was in the fall when the ice formed.

During the winter which has recently passed, there has been little traffic upon the ice of Rice Lake. At no time during the past winter did the ice become more than fifteen inches in depth and at all times was unsafe for traffic.

timated operating and maintenance costs of the department.

A claim for $225 damages brought by G. R. Langley against the Commission for alleged destruction of trees along a 300 foot frontage of his property on Dunlop street will be paid by the Commission, it was decided. Members of the Commission expressed the opinion that "it was setting a precedent," but it was acknowledged that extensive cutting was done to the trees without permission of the owner being first secured.

Refuse Hydrant Request

A request for the installation of a hydrant at the rear of Anson House was refused. Chairman Matthews explaining that the hydrant would cost $2,500 and at the present time such an expenditure was unnecessary. Anson House has a hydrant at its front and this was judged to be sufficient in the case of fire.

Gas consumption is maintaining itself despite the late cold weather H. L. Beal, manager of the Gas Department, reported. For the first three months of the year the consumption was ahead of last year, but it has dropped this month below that of the same month last year.

Obituary

MRS. JOHN HARPER

FENELLA, April 15 (Examiner Correspondence).—The funeral service of the late Mrs. John Harper, whose death occurred early Wednesday morning, April 13, will be held on Saturday afternoon, April 16. The body was removed on Thursday morning from the home of deceased's daughter, Mrs. Leonard Brisbin, Roseneath, where it had been resting since death took place, to the home of her son, Cephas D. Harper, Fenella. After a brief service at the house on Saturday afternoon, the procession will proceed to Bethany (Macklin's) Church at 2 p.m., where service will be conducted by the pastor, Rev. W. Paton. Interment will be made in Bethany (Macklin's) cemetery.

MISS JENNIE DEWEY

TWEED, April 15 (Examiner Correspondence).—The funeral of the late Miss Jennie Dewey was held on Wednesday morning, Rev. Father O'Riordan conducting requiem high mass at St. Carthagh's Roman Catholic Church.

The late Miss Dewey was born near Madoc, a daughter of Archibald and Mrs. Dewey and after spending some time in Madoc and Queensboro, she took up her residence in Tweed and conducted a confectionery store.

Although ailing for some time, she was taken seriously ill only a few days before her death. She was a member of the Roman Catholic Church and the Catholic Women's League.

The late Miss Dewey is survived by two sisters, Mrs. T. J. Sampson of Fort William and Mrs. C. H. Steinburg of Campbellford. One brother, Edward, resides in the Peace River district.

The large number of floral and spiritual offerings testified to the esteem in which the late Miss Dewey was held. The bearers were Dr. Reeves, Michael Quinn, M. McAvoy, T. N. Beatty, Wilfred LeSage, S. B. McGee.

JOHN KEITEL

The death occurred on Thursday morning of John Keitel at the home of his daughter, Mrs. Mary Stewart of Otonabee. He was 87 years of age.

Mr. Keitel came to Canada from the Old Country at the age of 6 years and had lived in Otonabee for the greater portion of his life. He is survived by one daughter, Mrs. Mary Stewart of Otonabee, and one son Alex of Peterborough.

The funeral is to be held from the home of his daughter on Saturday at 2.30 p.m. Interment at Keene cemetery. Services are to be conducted by the Rev. J. B. McNeeley of Keene United Church.

"Besses o' th' Barn" is to be the name fo a new railway station in England in honor of the Besses o' th' Barn" Band, established in 1856. 1856.

FRIDAY, APRIL 15, 1932

SPEED THE MAIN FACTOR.

According to the annual report of the commissioner of the Ontario Provincial Police, speed is the main factor in the increasing number of automobile accidents in this Province.

"It is regretted that accidents show an upward trend," say's the commissioner, "and from reports it would appear that this increase is attributable almost entirely to speed and more speed. The number of accidents which occur on straight sections of highways in broad daylight must convince one that excessive speed is the greatest factor we have to contend with. Cutting-in, a reprehensible practice in itself, quite obviously follows cutting-out, and both arise from the same cause—the mania for speed.

"Having cut out to pass a car or cars in front, one must cut in to avoid collision with cars proceeding in the opposite direction, and even when an accident is avoided by this type of driver he has irritated and badgered other drivers into increased and dangerous speed."

The commissioner declares that because of these conditions he has directed that a charge of reckless driving be laid where it is considered the speed attained has placed the car out of control, either by excessive speed, inadequate braking power or when traffic conditions render it necessary.

All sane motorists will, The Examiner feels sure, endorse the adoption of this policy by the motorcycle patrol of the Provincial Police.

A WELCOME ANNOUNCEMENT.

Of the highest importance to Canada's hard-pressed farmers is the announcement made to-day by the Massey-Harris Company, Limited, who are offering not only a 10 per cent. discount on the prices of all farm implements bought this year, but what is more helpful and striking, a similar discount on all debts and accrued interest on farm implements if paid before the end of next November.

Farmers who are seeking to lessen their load of liabilities in the face of unusual economic conditions will undoubtedly appreciate this blanket reduction which, coming at this time, is a very material contribution toward better times for the Canadian farmer.

The reduction in the price of new machinery will be welcomed, but is probably of less significance under tre existing conditions than the 10 per cent. slash in the debts owed the company.

It is not always necessary to buy new machinery, but debts have to be met some way or another, and it will be a relief to many farmers to learn that their obligations to this particular firm are being materially lessened, and that given favorable crop conditions and possibly higher prices during the year they may be in a position to discharge a bothersome debt.

The Massey-Harris Company in inaugurating this general policy is leading the way, and its effort will undoubtedly be recognized, as the company's advertisement puts it, as "a sincere endeavor to improve conditions for Canadian farmers, Canadian workmen, the company and our common country."

NOT SO BIG AFTER ALL.

Just when the impression is being obtained that Toronto has at last begun to develop the status of a metropolis, along comes something to dispel the illusion and reveal the Queen City as still little more than a greatly swollen village.

The latest example is the ridiculous spectacle of a civic reception to a number of radio artists and an escort of six war-time fliers for a couple of other comedians, all coming to Toronto for a fat fee to participate in an advertising "racket."

That last touch, of an aerial greeting to a pair of American laugh-makers, will strike most people as funnier than anything the celebrated Stoopnagle and Budd have ever been able to put across via the radio.

Sir John Martin-Harvey, one of the great actors of his time, is at present in Toronto, but you can look in vain in the newspapers for any mention of a city hall reception to this distinguished British artist to whom Canadian play-goers owe so much.

Edward Johnson, foremost of Canadian singers, and a grand opera star in his own right, comes and goes, but there is no civic deputation to extend greetings to him.

Yet Toronto's city rulers turn out to welcome with the honors usually reserved for somebody worth while, a tow-headed talkie actress of no particular cleverness and a radio warbler with an average voice and the ability to play a concertina a little better than most people, and men who fought for Canada in the World War are sent aloft to do homage to a couple of highly-paid radio entertainers.

Unfortunately there is no Lieutenant-Governor in residence at Chorley Park.

It would have added a finishing touch to the whole farce to have staged a reception there for the radio troupers.

WHAT IT MEANS TO CANADA.

Industrial Canada directs attention to a huge new double-drum hoist just completed by a Dundas firm for the Noranda mines, the first of this type to be manufactured in Canada.

What the placing of such an order means to this country can be seen from the fact that over 350 Canadian companies benefitted by the building of the hoist here, the raw material necessary being practically all secured within the Dominion. It included bronze, lumber, electric equipment, chemicals, pipe fittings, fibre, steel plate, steel castings, leather packings, bar steel, brass castings, asbestos, piston rings, structural steel, foundry supplies fabricated steel, babbitt, valves and fittings, hardwood, screws, nuts, pig iron, springs and paint.

It is interesting to note that the Canadian company which provided the electrical equipment for this hoist placed orders with 29 other Canadian firms for their requirements, and probably each in turn of the firms receiving orders in connection with the Dundas contract had to call on at least five firms for assistance.

When the hours of work provided by this job are considered as well as the amount of material required, the cash value to Canada of this one order can be put at ten times the original price.

If the contract had gone outside of Canada not one of these 300 or more firms would have been called on to supply goods and hundreds of Canadian workers would have suffered.

The transaction clearly illustrates the desirability of buying Canadian-made goods, for the resultant effects of even one order return to the customer in many unexpected ways.

THE CONFERENCE.

The speech of Sir Josiah Stamp at Ottawa last week must have been a wonderfully inspiring one as regards the opportunities which lie before the Imperial Conference next July. That the spirit of compromise will prevail seems already assured and that will mean success.

But we read that the Liberals think that they can offer a much better bargain to the Mother Country in trade exchanges than can a party which has committed itself to the doctrines of economic nationalism. They think that if the Bennett Ministry is unwilling or unable to persuade its industrial supporters of the necessity of tariff readjustments which will satisfy the British ideal of an equitable reciprocity in trade exchange, they will be able to bring forward at the next general election a devastating indictment of the Government as the champions of a policy of Canadian "Sinn-Feinism," which in the Liberal arena would be fatal to any chance of recovery of prosperity and to any idea of creating a sound co-operative structure for the British Commonwealth.

Mr. Bennett and his colleagues are well aware of the dangerous political implications of a failure to secure an adequate solution for their problem, and in the coming months they mean to devote all their energies to the delicate task of evolving a policy that will disappoint the Opposition's expectations. Members of the Government are confident that there is a wide range of opportunity for tariff preferences which, if properly prepared and handled, would be very satisfactory to British interests. It is pointed out, for example, that in recent years Canada has been importing approximately $350,000,000 worth of iron and steel products a year from the United States, while imports from Great Britain are worth only $20,000,000. It is argued, therefore, that in this sphere of trade alone there is great opportunity for tariff readjustments promising valuable benefits to Great Britain.

It should be recognized that, though sentiment may play a useful part at the conference in creating an atmosphere of good-will, the negotiations if they are to produce valuable results must be on the basis that it is good business for the parties to the bargains to expand the channels of inter-Imperial trade. Accordingly it would be wise for some of the more zealous British propagandists for Imperial trade co-operation to stop talking of "loyalty" and to stop thinking of the people of Canada as longing to buy British goods in order to demonstrate their affection for the British Crown and connection. The Canadian people are anxious to buy British products provided they get good value for their money, and many of them find in the superior quality of many kinds of British goods incentive to purchase. They will welcome tariff adjustments which make it more easy to purchase them, but it is highly misleading to describe them as ready, out of sentimental loyalty, to hunt high and low in stores for British goods.

The British manufacturer must realize that tariff concessions alone will be of little avail to gain a greater share of Canadian business unless he can be skilful in merchandising and willing to study the Canadian market and cater for its peculiar wants.

Conditions in more than one Canadian industry merit very careful consideration. For the protection of a single Canadian plant which cannot supply more than 10 or 15 per cent. of the requirements of the Canadian market for its particular products a stiff tariff on British imports of that commodity is maintained. The effect is to turn over almost the whole of the balance of the Canadian market for such products to American manufacturers. If, however, there could be a quota system or zoning arrangement, which would reserve for the Canadian firm its present share of the local market, it might be possible to put the commodity on the free list for British imports or to leave it subject to a small revenue duty. The American manufacturers, faced with a much heavier preferential handicap, would then be compelled to yield their share of the market to their British competitors.

This is only one of many problems which might profitably be subjected to thorough exploration before the conference meets, and the sooner such work is undertaken the better will be the prospects of a successful outcome for the meeting in July.— St. Catharines Standard.

EDITORIAL NOTES AND COMMENT.

And then another trouble with this country is that the banks are carrying more people than the railways.

Babe Ruth is setting a good example. He is not allowing a wage-cut to interfere with production.

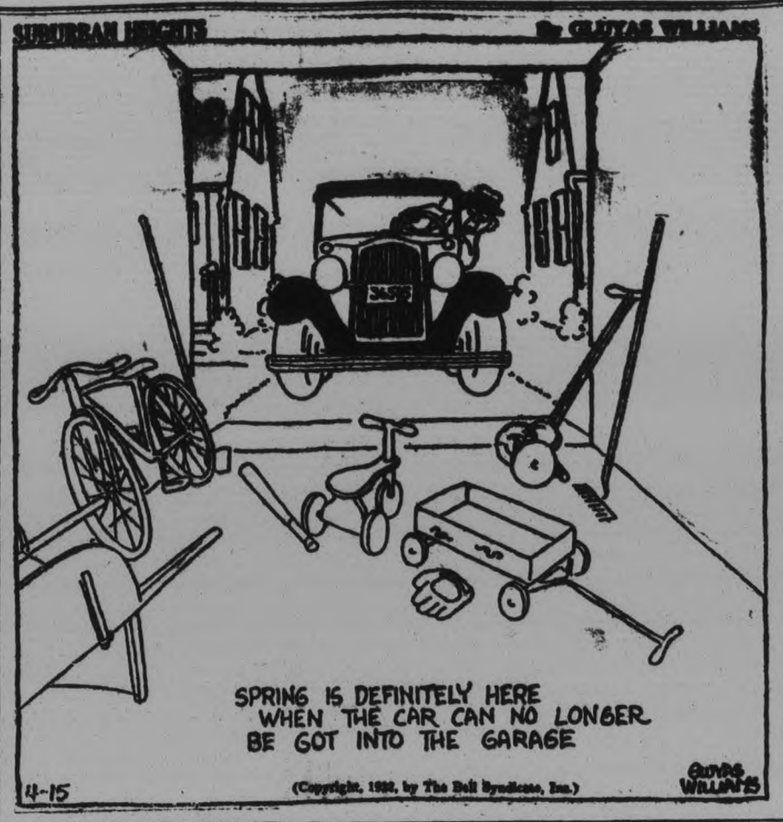
Judging by the protests it has caused, that extra dollar added to the radio license fee must be intended to cover the static.

The Beauharnois report is expected to start fireworks in the Senate. Well, the veteran statesmen are entitled to their share of the excitement.

Varsity's fraternities have been found in possession of 500 pieces of stolen silverware and other articles. It looks as if a course in plain honesty should be included in the university's curriculum.

Indians may continue to kill, but thanks to the advance of Christian culture, they no longer scalp. —Toronto Mail and Empire.

Camillien Houde, who unsuccessfully aspired to re-election as mayor of Montreal, now will be able to sit back and watch somebody else not be able to do anything about the depression either.—Hamilton



'N DAYS GONE BY

Items Taken From Old Fyles of The Examiner.

APRIL 15, 1922

Proceeds of the Motor Show here next week will go toward maintenance of the children's summer camp at Jackson Park this summer.... Something unusual in the way of entertainment is promised next week as the Capitol Theatre celebrates its first anniversary.

APRIL 15, 1912

Word received here to-day is that the Titantic, monster White Star liner on her maiden voyage across the Atlantic, is sinking from a collision with an iceberg last night.... Three G.T.R. freight cars were derailed near Downer's Cornar last night, but little damage was done.

APRIL 15, 1902

The following men of this district enlisted here to-day for service in South Africa: J. C. Strickland, Jr., Crossland, V. E. LeBar, A. J. Kemp, H. M. Morden, F. Hughes, V. Wilson and Jas. Judd.

In Lighter Vein

Inconsistent

An Irishman was posting a letter, but was told at the counter it was overweight.

"Over what weight?" asked he.

"Over three ounces," said the clerk. "You'll have to put another stamp on it."

"Get away!" said the Irishman, with a grin. "Sure, if I put another stamp on, won't it be heavier still?" —Montreal Star.

Not a Loud Speaker

A woman was having the upper rooms of her house painted, and she fancied that the painter was slacking on the job.

"Painter, are you working?" she shouted at the foot of the stairs.

"Yes, ma'am," came the reply.

"I can't hear you."

"Well, do yer think I'm putting it on with a hammer?"—Stray Bits.

Not That

The tramcar was crowded with workers returning home. A fashionably dressed woman entered, and a man offered her his seat.

"Thank you, but I dislike to deprive you of your seat," said the woman graciously.

"No depravity, madam, no depravity!" exclaimed the man as he reached for a strap.—Montreal Star.

FERGUSON TO ADDRESS EMPIRE CLUB TUESDAY

TORONTO, April 14. (CP)— G. Howerd Ferguson, Canada's High Commissioner to Great Britain, is to speak next Tuesday before the Empire Club of Toronto, according to word received to-day by Col. George A. Drew, club president. Col. Drew was advised from Ottawa Mr. Ferguson would discuss the forthcoming Imperial Conference opening in Ottawa in July.

It had previously been believed Mr. Ferguson would sail this week for England. He came to Canada two weeks ago to give evidence before the Senate Committee on the Beauharnois investigation.

Marmora

Commissioner Mrs. H. R. Haacke of Deloro attended the annual meeting of the Ontario Provincial Council of Canadian Girl Guides Association which convened at St. Catharines last Friday.

Marmora Council No. 279 C.O.C.F. held its monthly meeting on Tuesday evening at the home of Friend Mrs. O. R. Jones. The business session was followed by cards and a delicious lunch.

GRAIN AND PRODUCE REVIEWS

TORONTO PRODUCE

TORONTO, April 15.—Prices of 19½c for No. 1 creamery solids and 18½c for No. 2 were quoted on the local butter market yesterday, but very few buyers were interested. Trade was quiet at the opening and for the entire day activity was very small. The prices were slightly easier than on Wednesday, or at the bottom of the spread on solids for that day. Quotations to the retail rade were unchanged at 24c for No. 1 prints and 23c for No. 2.

Cream

Cream prices held steady in most cases, but there were reports of lower figures in some sections where Toronto firms maintained plants. The general range to shippers was 21c to 22c for special, 20c to 21c for No. 1 and 17c to 18c for No. 2, f.o.b country points, with some offers of 19c for No. 1.

Cheese

There was a fair demand for cheese, and prices were slightly higher on new makes at 10¼c to 10½c for large, 10½c to 10¾c for twins, and 10¾c to 11c for triplets. Retailers were quoted new makes at steady prices of 13c for large, 12¼c for twins and 12½c for triplets.

Eggs

Though storing of eggs continued, prices were steady on the brokers' market, and to country shippers. Wholesalers quoted firm prices to the trade, and reported a scarcity of seconds and cracks. Prices to country shippers were 15c for extras, 13c for firsts, and 11c for seconds, delivered, ungraded, cases returned. Retailers were offered supplies at 21c for extras in cartons, 19c for extras loose, 17c for firsts loose, and 15c for seconds loose. Graded eggs in free cases were quoted at 17c for extras, 15c for firsts and 13c for seconds, with storage packed supplies at 13½c for extras and 16½c for firsts.

LIVERPOOL QUOTATIONS.

LIVERPOOL, April 15. — The following are the closing quotations:

Wheat spot, No. 3, Manitoba, 7s 7-8c.
Hams, long cut, 12-16 lbs, 82s.
Short cut, 12-14 lbs., 71s.
Extra skinned, 78s.
Picnics, 5-6 lbs., 51s 6d.
Bacon Cumberland cut, nominal.
Canadian Wiltshires, 94s.
Clear Bellies, nominal.
Long clear middles, 28-35 lbs., 70s.
Short clear backs, 12-20 lbs., 67s.
Shoulders square, nominal.
Lard, prime western, in tierces, 38s 3d.
American refined in boxes, 40s.
Cheese, Canadian finest, white, new 73s.
Colored new, 73s.
Linseed oil, raw, 18s 6d.
Petroleum, No. 1 10d; No. 2 11d.
No. 2, 11d.
Rosin types F and G, 15s.
Turpentine spirits, 59s 6d.

CHICAGO GRAIN

CHICAGO, April 15.—Kansas and Nebraska reports that winter killing of wheat had outdone all records since 1917 swept prices upward nearly 3 cents a bushel late yesterday.

Aggressive buying on the part of houses with connections Southwest became outstanding and did much to carry the market to the topmost point reached in the last five months. Contributing impetus to price gains were indications of persistent widespread drought and there was also official notice that Italy would increase her wheat import quota beginning April 26, a factor tending to confirm reports that foreign wheat requirements were increasing.

Profit-Taking In Evidence

Profit-taking caused reactions at the finish and wheat closed unsettled, 1¼-1¾ net higher for the day, with corn ¼ to ⅝ up, oats unchanged to 2 cents down.

WINNIPEG GRAIN.

WINNIPEG, April 15. — Failure of expected rains over south-western winter wheat fields, reports of crop deterioration and a healthy export trade lifted grain prices from a temporary slump to higher levels again yesterday. Prices closed 1¼c to 1¼c higher for the day.

May closed 1¼c at 65c; July improved 1¼c to 66¾c to 67c, while October gained 1½c to close at 69¼c.

Dry Weather.

Dry weather throughout the United States winter wheat belt proved the main factor in the advance. Reports from overseas proved more constructive, and this, also backed up by a demand for the actual wheat, gave stimulus to the upward momentum.

Liverpool displayed unexpected firmness, influenced by bullish crop reports from the United States, and also by the lack of exports from Russia, and the further boosting of the Italian wheat quota which now permits imports of 60 per cent. of foreign wheat in the north and centre, and 85 per cent. in the south.

Russian Shipments Cease.

For the first time this season Russia failed to clear any wheat for export. Exports from Argentina this week are expected to total 4,593,000 bushels, 500,006 less than last week. Broomhall, however, reports a fair demand for the Argentine commodity arriving in Europe.

A slight improvement was noted in the demand for cash wheat and coarse grains at prices slightly higher.

Bailieboro

Mr. John Kerr of Peterborough spent Tuesday the guest of friends in the village.

Mrs. Johnston attended the funeral of the late Mrs. James Sidey at Bewdley this week.

Mr. H. Barnard was a visitor to Port Hope on Tuesday.

Mrs. G. Hancock of Smith is spending a few days the guest of her parents, Mr. and Mrs. R. Falls.

Reeve F. Waterman was a visitor to Port Hope on Monday.

The roads throughout South Monaghan township are in a critical condition. In numerous places the track has broken through and left deep holes which make it next to impossible to drive a car over the roads.

Mailmen as well as bakers who have travelled over the local roads for years, claim they have never experienced roads that have gone through as badly as they have this spring. Motor traffic has practically been forced to cease until old Sol shines forth and dries the surface.

The farmers of the district have become worried over the feed situation in the locality. The late spring is making it necessary to feed the stock extra and as a result the fodder is running low on most farms.

Some farmers have already stated that they are counting the straws their stock are receiving, while still others have commenced feeding their cattle twice each day instead of three times, in order that their meagre supply may last until grass grows to relieve the situation.

The hay crop last season in this district was exceptionally light, and the farmers one and all will rejoice when the warm, sunny days arrive and vegetation commences once again.

TRENT RIVER

Mr. and Mrs. Frank Curtis and family moved Wednesday to take up residence on Mr. H. B. Wood's farm.

The Tiger, a famous battle cruiser which took part in the Battle of Jutland, is to be scrapped at Inverkeithing, Scotland.

DISTRICT NURSE
by Faith Baldwin

(Continued From Yesterday)

No, not the kid, the kid was all right, Bill said. There was a nurse there. Ellen knew that, one of the girls on the contagion service had been sent that morning. It was something that bothered him, Bill said. He'd like to talk to Miss Ellen, if he could.

Mrs. Adams smiled and went out to make cocoa. She was, Ellen discovered, so much happier when they let her do things. And Coral and Nancy were arguing, there in the bedroom, over the proper shade of green for gingham curtains for kitchen windows.

"Shoot," said Ellen, encouragingly.

He wouldn't sit down nor take off his things. He twisted his cap in his hands. His honest little eyes were distressed. He said, "You've been swell, Mis' Ellen. I—I gotta spill sumpin' to you. Jees, I didn't mean nothing by it. You see, that day I come here with Frank, well when I come back, I see you—and that other feller—"

The grammar he was trying so painfully to acquire, fled. But no pleader at the bar could have been more eloquent. Ellen asked, "Well, Bill—?"

"Nuthin'—only—see, he was kissin' you—or it looked that way. I—I thought, Frank's crazy about her, see She's his girl, but she's twotimin' him. I thought, he's such a grand sort of guy. So I told him, see?"

So that was it. Ellen said, trying to smile,

"It's all right, Bill. Frank wouldn't mind; we're just friends—and what you say wasn't, really, important."

"You're not sore at me, Mis' Ellen?"

"Of course not."

"Frank's sore."

"Oh, no, Bill, he isn't."

"Yes. I—I been to his office with the report cards—all except once. He looks, and gives me the buck. He allers give me a buck. But he don't have no time for me; he's different somehow; he don't care no more. I—oh, what's the use," said Bill, too stubborn to weep.

Mrs. Adams came in with cups and a bakery cake. Bill's eyes widened. "Gee," he said, and was persuaded to "take off his things and stay a while." Chick was coming in for Nancy; they'd see that he got home.

And so no more was said. Bill ate and drank as much as he could hold. And went home again, or rather to his mother's next-door neighbor, where he was staying until the baby was all well again, Ellen thought, Poor Bill—

He was mistaken about Frank, of course. She herself wouldn't make that error of judgment again. He hadn' tired; he hadn't forgotten—Bill. He was busy, perhaps he was worried—

She tried to tell Bill so, as he left with Nancy and the very much entertained Chick.
